VETO MESSAGES

July 31, 2020

Governor's Veto Message Regarding Senate Bill 7

By the authority vested in me, pursuant to part II, Article 44 of the New Hampshire Constitution, on July 31st, 2020, I have vetoed Senate Bill 7, establishing the secure modern accurate registration act (SMART Act).

New Hampshire has a very accessible voter registration process. Voters have the option of in-person registration with town clerks, same-day registration on Election Day and the ability to register by absentee for those with disabilities or who will be temporarily absent on election day. Moreover, for the 2020 election cycle, individuals are able to register to vote by absentee if they are concerned about COVID-19. This ease of registering to vote in New Hampshire is reflected in the high percentage of eligible voting age individuals who are able to register and vote every year.

Senate Bill 7 offers a national one-size-fits-all solution in search of a problem. This bill would take a system that already works well and add a convoluted, inefficient, and expensive process on top of it. New Hampshire has a robust tradition of civic engagement and this bill will not add to it.

For the reasons stated above, I have vetoed Senate Bill 7.

Respectfully submitted,

Christopher T. Sununu
Governor

Governor's Veto Message Regarding Senate Bill 19

By the authority vested in me, pursuant to part II, Article 44 of the New Hampshire Constitution, on July 17th, 2020, I have vetoed Senate Bill 19, relative to the privacy of certain information concerning public employees.

This bill would prohibit public employees' home addresses, personal email addresses, and home or mobile telephone numbers from being disclosed to the public. Unfortunately, the bill creates a carve out for employee labor organizations. While I fully support providing public employees with more control and privacy over their personal information, this bill would effectively give one class of private organizations - labor unions - exclusive access to that information.

Proponents of this bill contend this legislation is necessary because union members have been contacted by outside groups and asked to stop paying dues in the wake of the *Janus v. American Federation of State, County and Municipal Employees (AFSCME)* decision. However, the bill's supporters may forget that, while

Due to the COVID-19 pandemic, the General Court is conducting legislative activities remotely with the exception of publicly noticed sessions in the House or Senate Calendar. During this time, the State House and Legislative Office Building remain closed to visitors.

some public employees may not want to be contacted by outside groups, others may not want to be contacted by their employee labor organization. If the goal of this legislation was to provide more privacy to public employees, it should have provided them the option to disallow employee labor organizations to access their personal information.

The Minority committee amendment (2019-2830h) would have prohibited outside groups from gaining access to employees' personal information as well as allowed public employees to consent to disclosing their information to employee labor organizations. In other words, the minority's amendment would have provided far more control and privacy to public employees. Sadly, because the Minority amendment failed to be adopted during the legislative process, this bill does not provide true privacy to public employees.

Finally, in 2018, 81% of New Hampshire voters supported adding a provision to New Hampshire's Constitution that reads, "An individual's right to live free from governmental intrusion in private or personal information is natural, essential, and inherent." Having an employer deliver an employee's personal information to a private organization would clearly not comport with the spirit of this provision.

For the reasons stated above, I have vetoed Senate Bill 19.

Respectfully submitted,

Christopher T. Sununu
Governor

Governor's Veto Message Regarding Senate Bill 122

By the authority vested in me, pursuant to part II, Article 44 of the New Hampshire Constitution, on July 17, 2020, I have vetoed Senate Bill 122, relative to expenditures from the energy efficiency fund.

I am disappointed that the legislature is jeopardizing the longstanding Regional Greenhouse Gas Initiative (RGGI) compromise yet again by trying to eliminate ratepayer rebates. This has become an annual exercise of attempting to strip away rebates for residential ratepayers, which is especially problematic during this pandemic.

This bill suffers from the same fatal defects as House Bill 582 from last session. This bill unjustly favors businesses over residential ratepayers. This bill eliminates RGGI costs for commercial and industrial customers while saddling residential ratepayers with a bill increase to fund state spending. In essence, it attempts to buy off businesses at the expense of our most vulnerable citizens.

I continue to support the existing RGGI funding allocation, which provides direct bill support to all ratepayers through rebates and funds energy efficiency programs in the state. This complimentary mix is a system that works for New Hampshire ratepayers, especially those who can least afford to bear the cost of higher energy bills.

For the reasons stated above, I have vetoed Senate Bill 122.

Respectfully submitted,

Christopher T. Sununu
Governor

July 24, 2020

Governor's Veto Message Regarding Senate Bill 124

By the authority vested in me, pursuant to part II, Article 44 of the New Hampshire Constitution, on July 24, 2020, I have vetoed Senate Bill 124, relative to the minimum electric renewable portfolio standards.

Last year when I vetoed Senate Bill 168, relative to Class II RPS requirements, I called that bill “crony capitalism at its worst.” This bill has proven that statement wrong.

Senate Bill 124 is a direct handout to politically well-connected industries. It has the potential to cost electric ratepayers \$300 million annually in new subsidies, with more than \$100 million per year of ratepayer money going to fund solar developers’ profits. This bill has set a new standard when it comes to cronyism at its worst.

This bill would counterproductively increase electricity rates while we are working to rebuild our economy. New Hampshire ratepayers are already burdened with some of the highest energy bills in the nation. This makes it hard both for businesses to expand and for residents on fixed incomes to pay their bills each month.

Putting the outrageous cost aside, New Hampshire would need to devote 20 square miles of land to achieve the solar energy goal this bill sets. This is an area more than 3 times the size of Lake Sunapee. The environmental land use considerations appear to be lost on the proponents of this bill.

This bill presents an utterly unserious policy proposal. There are fundamentally better ways to reduce emissions. Earlier this year I put forward a plan to boost renewable energy in the state without creating new subsidies or picking winners or losers in the energy sector. My plan, which was killed on party lines, was a responsible alternative to this bill’s irrational approach to energy policy.

For the reasons stated above, I have vetoed Senate Bill 124.

Respectfully submitted,

Christopher T. Sununu
Governor

Governor's Veto Message Regarding Senate Bill 311

By the authority vested in me, pursuant to part II, Article 44 of the New Hampshire Constitution, on July 29th, 2020, I have vetoed Senate Bill 311.

This bill would provide individuals with a shorter waiting period, in certain circumstances, to petition for annulment of their record of arrest, conviction, and sentence for simple possession drug-related crimes that were committed when the person was under the age of 25. As written, the bill creates potential for confusion and serious unintended consequences as we continue to battle an opioid crisis and global pandemic.

In previous sessions, I signed bills that decriminalized the possession of small quantities of marijuana and that allow for annulment of arrests and convictions for said possession. There are a few major differences between those bills and this one.

First, this bill creates confusion because it does not specify what constitutes a “simple possession drug related crime.” Second, the language of the bill as written could be construed to allow for an annulment of an individual’s record of arrest, conviction, and sentence for an offense before the individual completes the terms and conditions of his or her sentence. While this may not have been the intent of the bill, such a change would raise serious concerns as it could operate as a statutory commutation of an individual’s sentence. Third, while previous bills I signed dealt with changing the sentence for a particular offense, this bill changes outcomes

based on the age of the adult who commits the offense. By singling out the age of 25, an age where someone has been considered an adult for over half a decade, this bill raises serious fairness and equal protection questions.

Finally, the scope of this bill, though vague, is also far more expansive than previous bills I have signed on this topic. The bill goes beyond marijuana and applies to any drug. Prevention, treatment, education, and enforcement all play a part in providing disincentives to drug use, and we must be careful before taking an action that could undermine those efforts.

For the reasons stated above, I have vetoed Senate Bill 311.

Christopher T. Sununu
