STATE OF NEW HAMPSHIRE

CONVENING DAY

January 3, 2018

The Senate reconvened at 10:00 a.m., a quorum being present.

The Reverend Jason Wells, chaplain to the Senate, offered the following meditative thoughts and prayer:

When John XXIII became Pope in 1958 one of his jobs, of course, was to govern the worldwide Catholic Church. Daily he heard stories of troubles all around that world: priests and nuns who were killed in Africa, the plight of war and poverty, refugees who needed help, and on and on; the problems seem endless. One temptation is to think that being given a role of power means that you can save everyone, everything, every situation. And so when the sky seemed to be falling, Pope John had a prayer every night so that he could sleep. He would pray I've done the best that I could in your service, O Lord, I'm going to bed now, it's your Church, you take care of it. It's a prayer that's not about indifference to problems; it's not about an abdication of responsibility, but it recognizes our human limitations. The fact that because we can do some things, we have to realize we cannot do everything. And just because we can't do everything doesn't mean we can't do something. So, recognizing those human limitations let us turn our own thoughts and minds to prayer to the limitless and infinite One.

Almighty God, we give over to you ourselves, our state, those whom we serve. We give them over to your kind caregiving. Help us to see that the world is not as bad as we fear it is. Help us to see that the world is not as good as we pretend it is. Help us to do what we can, but not more. For we are all your people and this is your world; take care of us, O loving God. Amen.

Senator Woodburn led the Pledge of Allegiance.

SENATOR CAVANAUGH ASSUMES DISTRICT 16 SENATE SEAT

President Morse recognized that Senator Kevin J. Cavanaugh, representing Senate District 16, has taken his seat today as a member of the Honorable Senate, having been sworn into office by the Honorable Chris Sununu, Governor, and the Honorable Executive Council, on August 23, 2017.

Senator Hennessey is excused for the day.

INTRODUCTION OF GUESTS

PRESIDENT MORSE: Senator D'Allesandro, can you join me up here with Anthony?

SENATOR D'ALLESANDRO: Thank you, Mister President. Tomorrow is my grandson's 10th birthday, and he couldn't be with us tomorrow because his chess club has a meeting. But ten years ago at the Brigham and Women's Hospital this young boy was born. He was born in the intensive care unit of the NICU at Brigham and Women's and there were real questions about his life expectancy. He has a very rare mosaic, Mosaic Trisomy 22, but what I really want to emphasize to all of my colleagues is that miracles do happen. And we have before us, today, a miracle, and it's just wonderful to be able to share that story with you so we all become believers that no matter what we can make it happen. And my lovely wife is here, my daughter is outside, but Anthony is a living example. This young man has undergone thirteen surgeries before the age of five. He's had open heart surgery, and a series of other difficult procedures, but he's courageous, he hangs in, and he's as tough as nails. So I wanted to present him to all of you because I know all of us believe in miracles and we've had one in the D'Allesandro family, and we thank you, Mister President.

PRESIDENT MORSE: Senator Avard why don't you start with "Happy Birthday?"

Senator Avard led the Senate in "Happy Birthday" to Anthony Smith.

ANTHONY SMITH: Thank you everyone for being so nice and supportive and not turning me out at the doorway because of that sign over there…

PRESIDENT MORSE: You know as we were being led in prayer everything's going through my head today on what's being removed, how the process is going to work, and then I looked up and I saw Shawn Jasper and Laurie out there and I got a little smile because, you know, I've lightened up just a bit because we have a different relationship now. Matter of fact, he told me where his office is, today. It's just right down the barrel from the third floor to the second floor in the next building. So, I'd be careful. But the reality is…I hope you can join me up here… Laurie. Everything you've given to the State, the Senate just wants to recognize you for everything you've done.

I said I wanted to take an opportunity today to recognize a long-time friend and colleague in the House, Shawn Jasper. Many of you don't know this but I started in the House in '98, and I'm fortunate enough to have been through half of the positions I'm going to read to you today that he's served in. But we certainly gained a relationship over the last couple of years, and while we lost him as a leader in the House I think we've gained a great leader in Agriculture. Like many of you and Senator Woodburn doesn't have to worry about it, I've already said he needs to make a stop up at Fadden's and talk about maple syrup. I didn't hit you about the nursery business yet but that will be next, just don't charge me for anything, and remember we write the budget. In any case, I'd like to read this resolution:

> Shawn Jasper, for his service and dedication to the State of New Hampshire
>
> WHEREAS, Shawn Jasper was first elected to the New Hampshire House of Representatives in 1984, serving on numerous committees on behalf of the towns of Hudson and Pelham in Hillsborough County, District 37 and in varying leadership roles in nearly 24 years of service to the state until 2017; and

WHEREAS, Shawn Jasper was elected by his colleagues to serve as Speaker of the House of Representatives in 2014, having previously held roles including Deputy Majority Leader, Assistant Majority Leader, Majority Whip and Minority Whip; and

WHEREAS, Shawn Jasper service to his community also includes membership in the Hudson Historical Society, serving as a member of the Hudson Board of Selectmen and on the Hudson Municipal Budget Committee as well as Town and School District Moderator, among other roles in town government; and

WHEREAS, Serving as House Speaker, Shawn Jasper has been a strong advocate for the state of New Hampshire, willing to work with disparate views to do what is right for the state and its citizens; and

WHEREAS, Shawn Jasper's leadership in public service is highly regarded and evident by the many accomplishments that bear his name; and

Now, therefore, be it resolved that the New Hampshire Senate joins in celebrating the Honorable Shawn Jasper for his contributions to the state of New Hampshire as Speaker and as a long-serving member of the House of Representatives…[we wish you] the very best.

COMMISSIONER JASPER: Thank you so much for this honor. And thank you for the honor of being able to stand here at this President's podium. I've been acting Governor, but never been able to stand here and speak, so this is a unique honor. Thank you so much for your friendship over the years. It's been a pleasure working with all of you. I think we've accomplished great things in the last few years, and I know that you will continue to do so for the rest of the year and in years to come. My office is just across the street in the Annex on the second floor right across from the Secretary of State's Office. I invite all of you to come over, stop by, but particularly to work with me on any issues related to agriculture, markets and foods that you have. I stand ready to work with you. Some of you have already taken that opportunity, and I look forward to more of that in the future. Again, thank you so very much. Laurie and I are very honored.

INTRODUCTION OF PAGES

(The Chair recognized Senator Lasky.)

SENATOR LASKY: Thank you, Mister President. Colleagues, on this special session day I have the privilege of introducing two special students from Nashua High School South, who will be serving as our pages today. And in the tradition of ladies first, I will tell you about Margaret Mikailov, who is a junior at Nashua High School South; seventeen years old, her favorite school subject is Spanish. Extracurricular activities include swim team. My family and I know a little bit about that. Orchestra, brass quintet, jazz band, League of Women Voters, ski club and as a swim teacher. In the future she plans to apply after college, apply for work in the State Department, ideally taking the Foreign Service exam to become a Foreign Service officer. So Happy New Year Margaret, thank you for being here and welcome.

Our next guest is a student, as well, at Nashua High School South, a junior and who happens to be a neighbor of mine. His name is Ben Telerski and his favorite school subject is government. He's aptly placed here for the day. And his extracurricular activities include campaigning for elections over all, general elections and he's president of the Nashua

South High Young Democrats. He is a member of Granite State Challenge, marching band, jazz band, junior class treasurer and on the swim team as well. In the future after high school he wants to study political science in college and pursue a career in government and politics, and I know for a fact he is well on his way. So thank you, Ben for being here, Happy New Year and we hope you both have a wonderful morning with us. Thank you.

SPECIAL ORDER

Without objection, the following bill is special ordered to Thursday, January 18, 2018. Adopted

COMMERCE
SB 92, relative to the consumer complaint process at the banking department.

MOTION TO VACATE

Without objection, the following Senate Bill was vacated from the Committee on Commerce and referred to the Committee on Public and Municipal Affairs. Adopted.

SB 430, relative to priority of liens for liability for support of assisted persons.

FN REPORT FOR JANUARY 3, 2018

Senator Daniels recommends the waiver of referral to the Finance Committee, Senate Rule 4-5, for the following bills with a fiscal note or an appropriation of funds:

CONSENT CALENDAR:

EXECUTIVE DEPARTMENTS AND ADMINISTRATION
SB 214-FN, relative to privatization of state services.

JUDICIARY
SB 98-FN, eliminating the statute of limitations on sexual assault.
SB 164-FN, removing the limitations on actions for sexual assaults on victims under 18 years of age.
SB 165-FN, authorizing periodic payments as security after a motor vehicle accident.
HB 614-FN, relative to forfeiture of personal property.

REGULAR CALENDAR:

COMMERCE
SB 87-FN, relative to on-premises sales by liquor manufacturers.
SB 189-FN, requiring insurance policies to cover 3-D mammography.
HB 79-FN, relative to New Hampshire products purchased and sold by the liquor commission.

EDUCATION
HB 557-FN, relative to school attendance in towns with no public schools.

ENERGY AND NATURAL RESOURCES
SB 195-FN-L, relative to fees for operation of a heating and agitation device in public waters.
HB 225-FN, relative to information collection concerning electric renewable portfolio standards.

HEALTH AND HUMAN SERVICES
SB 220-FN, relative to the definition of mental illness for purposes of mental health services.

PUBLIC AND MUNICIPAL AFFAIRS
SB 172-FN, relative to dams on residential property.

TRANSPORTATION
SB 178-FN, relative to motor vehicle registration transfer credits.

WAYS AND MEANS
SB 1-FN-A, reducing the rate of the business profits tax.
SB 75-FN, establishing a tax credit against business profits taxes for donations to career and technical education centers.
SB 76-FN-A, establishing an option to rebate the research and development tax credit against business profits taxes, and making an appropriation therefor.
SB 183-FN, establishing the New Hampshire technology sector marketing tax credit.
HB 560-FN-A-L, establishing keno.
HB 574-FN, increasing the limit on contributions to the community development finance authority for which an investment tax credit may be taken.

Senator Daniels recommends the following bills be ordered to the Finance Committee upon being found Ought to Pass/Ought to Pass with Amendment:

REGULAR CALENDAR:

COMMERCE
HB 549-FN, relative to beverage vendor fees.

EXECUTIVE DEPARTMENTS AND ADMINISTRATION
HB 561-FN, relative to contributions by retirement system employers for certain full-time positions changed to part-time or interim employment and relative to enforcement of provisions concerning retired members working part-time after retirement.

HEALTH AND HUMAN SERVICES
SB 63, relative to record management of abuse and neglect reports—if Committee Amendment is adopted.

Without objection, the FN Report is adopted.

CONSENT CALENDAR REPORTS REMOVED

EXECUTIVE DEPARTMENTS AND ADMINISTRATION
SB 55, by Senator D'Allesandro

JUDICIARY
HB 143, by Senator Carson
HB 614-FN, by Senator Sanborn

CONSENT CALENDAR

Senator Bradley moved that the Consent Calendar, with the relevant amendments as printed in the day's Calendar be adopted and that all such bills found Ought-to-Pass be ordered to Third Reading.

ELECTION LAW AND INTERNAL AFFAIRS
SB 47, relative to enforcement of election laws.
Inexpedient to Legislate, Vote 5-0. Senator Birdsell for the committee.

> This bill would authorize the secretary of state to conduct investigations to determine whether election laws have been violated and to institute enforcement proceedings and impose penalties. With the passage of SB 3, which addresses the enforcement of election laws this bill is no longer relevant and therefore inexpedient to legislate.

HB 390, relative to parties on certain election forms and ballots and relative to the voter registration form used on the day of the general election. Ought to Pass with Amendment, Vote 5-0. Senator Sanborn for the committee.

This bill as amended authorizes the inclusion of additional parties on election forms used to request an absentee ballot and to change party registration on the day of the primary.

Election Law and Internal Affairs
November 29, 2017

03/04

Amendment to HB 390

Amend the title of the bill by replacing it with the following:

AN ACT relative to parties on certain election forms and ballots.

Amend the bill by replacing all after the enacting clause with the following:

1 Change of Registration. Amend RSA 654:34, V(a) to read as follows:

V.(a) At any primary, the supervisors of the checklist shall make available within the polling place a card or list of undeclared voters from the statewide centralized voter registration database to enable a voter who was registered as an undeclared voter but who changed registration on the day of the primary in order to vote as a registered member of a party to change registration so that the voter is registered once again as an undeclared voter. The card or list shall be in substantially the following form:

Name _____
(Print)

Address _____

_____

_____

I hereby request that my political party registration be changed as follows:

From: Democrat [ ]**,** or Republican [ ]***, or (name of any party determined by the secretary of state to have achieved official status under RSA 652:11) []***

To: Undeclared [ ]

Signed under the pains and penalties of perjury.

_____

Date _____

2 Absentee Voting; Forms. Amend RSA 657:4, I to read as follows:

I. Prior to any state election, the secretary of state shall prepare the appropriate application forms for absentee ballots worded in substantially the following form. The secretary of state shall insert the names of all parties qualified as set forth in RSA 652:11 in the list of parties on the application form. The secretary of state shall prepare the application forms in such quantity as he or she deems necessary:

Absence (Excluding Absence Due to Residence Outside the United States), Religious Observance, and Disability:

I hereby declare that (check one):

_____ I am a duly qualified voter who is currently registered to vote in this town/ward.

_____ I am absent from the town/city where I am domiciled and will be until after the next election, or I am unable to register in person due to a disability, and request that the forms necessary for absentee voter registration be sent to me with the absentee ballot.

I will be entitled to vote by absentee ballot because (check one):

_____ I plan to be absent on the day of the election from the city, town, or unincorporated place where I am domiciled.

_____ I am requesting a ballot for the presidential primary election and I may be absent on the day of the election from the city, town, or unincorporated place where I am domiciled, but the date of the election has not been announced. I understand that I may only make such a request 14 days after the filing period for candidates has closed, and that if I will not be absent on the date of the election I am not eligible to vote by absentee ballot.

_____ I cannot appear in public on election day because of observance of a religious commitment.

_____ I am unable to vote in person due to a disability.

_____ I cannot appear at any time during polling hours at my polling place because of an employment obligation. For the purposes of this application, the term "employment shall include the care of children and infirm adults, with or without compensation.

Any person who votes or attempts to vote using an absentee ballot who is not entitled to vote by absentee ballot shall be guilty of a misdemeanor. RSA 657:24.

I am requesting an official absentee ballot for the following election (check one):

_____ Presidential Primary to be held on _____
(MM/DD/YYYY)

(The date may appear as blank when the date is not known.)

_____ State Primary to be held on _____
(MM/DD/YYYY)

_____ General Election

For primary elections, I am a member of or I am now declaring my affiliation with the (check one):

_____ Republican Party

_____ Democratic Party

_____ ***(name of any party determined by the secretary of state to have achieved official status under RSA 652:11)***

and am requesting a ballot for that party's primary.

Please print:

Applicant's Name:

_____
(Last) (First) (Middle) (Sr., Jr., II., III)

Applicant's Voting Domicile (home address):

_____
(Street Number) (Street Name) (Apt/Unit) (City/Town) (Ward) (Zip Code)

Mail the ballot to me at this address (if different than the home address):

_____
(Street Number) (Street Name) (Apt/Unit) (City/Town) (Ward) (Zip Code)

Applicant's Phone Number (optional): _____

Applicant's Email Address (optional): _____

Applicant's Signature: _____

Date Signed: _____
(MM/DD/YYYY)

The applicant must sign this form to receive an absentee ballot. The signature on this form must match the signature on the affidavit envelope in which the absentee ballot is returned, or the ballot may be rejected. Any person who assists a voter with a disability in executing

this form shall make a statement acknowledging the assistance on the application form to assist the moderator when comparing signatures on election day.

3 Effective Date. This act shall take effect 60 days after its passage.

2017-2540s

AMENDED ANALYSIS

This bill authorizes the inclusion of additional parties on election forms used to request an absentee ballot and to change party registration on the day of the primary.

EXECUTIVE DEPARTMENTS AND ADMINISTRATION

SB 136, eliminating the land use board and requiring approval of federal land acquisitions by the governor and council.

Inexpedient to Legislate, Vote 5-0. Senator Soucy for the committee.

This legislation would eliminate the land use board and require approval of federal land acquisitions by the Governor and Council. The prime sponsor of this legislation requested the vote of the committee to be Inexpedient to Legislate. Further information is needed from the federal government prior to introducing new legislation.

SB 214-FN, relative to privatization of state services.

Interim Study, Vote 5-0. Senator Soucy for the committee.

This bill would regulate the use of private contractors for public services. The Department of Administrative Services reviewed this legislation and stated in order to have a firm opinion further studies would need to be completed on the impact it would have on multiple departments. The committee believes further study is warranted.

JUDICIARY

SB 98-FN, eliminating the statute of limitations on sexual assault.

Interim Study, Vote 5-0. Senator Carson for the committee.

This bill would have eliminated the statute of limitations on prosecuting sexual assault and incest cases. The Committee believes this matter needs further clarification and has therefore, placed the goals and interests of this bill into a study commission in SB164-FN, which is of a similar subject matter.

SB 164-FN, removing the limitations on actions for sexual assaults on victims under 18 years of age.

Ought to Pass with Amendment, Vote 5-0. Senator Lasky for the committee.

This bill would have eliminated the limitations on prosecuting sexual assault and incest cases, where the victim was under 18 years of age at the time of the offense. This important issue needs further clarification and examination and therefore, this bill as amended would form a study commission to determine the best and most effective direction forward.

Senate Judiciary
December 5, 2017
2017-2545s
04/05

Amendment to SB 164-FN

Amend the title of the bill by replacing it with the following:

AN ACT establishing a commission to study repealing the statute of limitations and limitations on actions for sexual assault.

Amend the bill by replacing all after the enacting clause with the following:

1 New Section; Sexual Assault and Related Offenses; Commission to Study Repealing the Statute of Limitations and Limitations on Actions for Sexual Assault. Amend RSA 632-A by inserting after section 10-c the following new section:

632-A:10-d Commission to Study Repealing the Statute of Limitations and Limitations on Actions for Sexual Assault.

I. There is established a commission to study repealing the statute of limitations and limitations on actions for sexual assault.

II. The members of the commission shall be as follows:

(a) Two members of the senate, appointed by the president of the senate.

(b) Two members of the house of representatives, appointed by the speaker of the house of representatives.

(c) A representative from the New Hampshire Coalition Against Domestic and Sexual Violence.

(d) One member of the New Hampshire Association of County Attorneys, appointed by that association.

(e) One member of the New Hampshire Bar Association, appointed by that association.

(f) One mental health professional, appointed by the National Alliance on Mental Illness.

III. Legislative members of the commission shall receive mileage at the legislative rate when attending to the duties of the commission.

IV. The commission shall:

(a) Review current statutes in New Hampshire relating to the statute of limitations and limitations on actions for sexual assault.

(b) Identify current barriers facing victims of sexual assault accessing justice.

(c) Identify current trends in reforming statutes of limitations and limitations on actions on sexual assault across the country.

(d) Develop recommendations for future legislation.

(e) Solicit information from any person or entity the commission deems relevant to its study.

V. The members of the study commission shall elect a chairperson from among the members. The first meeting of the commission shall be called by the first-named senate member. The first meeting of the commission shall be held within 30 days of the effective date of this section. Five members of the commission shall constitute a quorum.

VI. The commission shall issue an interim report of its findings and any recommendations for proposed legislation to the president of the senate, the speaker of the house of representatives, the senate clerk, the house clerk, the governor, and the state library on or before September 1, 2018, and shall issue a final report on or before December 1, 2018.

2 Repeal. RSA 632-A:10-d, relative to the commission to study repealing the statute of limitations and limitations on actions for sexual assault, is repealed.

3 Effective Date.

I. Section 2 of this act shall take effect December 1, 2018.

II. The remainder of this act shall take effect upon its passage.

2017-2545s

AMENDED ANALYSIS

This bill establishes a commission to study repealing the statute of limitations and limitations on actions for sexual assault.

SB 165-FN, authorizing periodic payments as security after a motor vehicle accident.
Ought to Pass with Amendment, Vote 5-0. Senator Lasky for the committee.

This bill would authorize the director of the division of motor vehicles to order periodic payments as security after an accident which resulted in death, personal injury, or damages to property. The Committee amended the bill to allow for rulemaking by the director in order to ensure the most appropriate and effective process.

Senate Judiciary
December 5, 2017
2017-2546s
03/08

Amendment to SB 165-FN

Amend RSA 264:4-a as inserted by section 1 of the bill by inserting after paragraph VI the following new paragraph:

VII. The director shall adopt rules, pursuant to RSA 541-A, relative to:

(a) The periodic payment hearing process.
(b) A definition of the ability to pay.
(c) Process for minors subject to suspension under this section.

SB 199, relative to limited driving privileges after an administrative license suspension.
Ought to Pass with Amendment, Vote 5-0. Senator French for the committee.

This bill authorizes limited privilege drivers' licenses for certain persons whose licenses have been administratively suspended for operating under the influence or for the refusal to take a sobriety test. The Committee amended the bill to clarify any ambiguity within the statute.

Senate Judiciary
December 5, 2017
2017-2547s
03/08

Amendment to SB 199

Amend the bill by replacing section 1 with the following:

1 Limited Driving Privilege; Administrative Suspension. Amend the introductory paragraph of RSA 263:57-b, I to read as follows:

I. Notwithstanding any provision of law to the contrary, if a person is convicted of a first offense under RSA 265-A:2, I, not including any conviction involving driving a commercial motor vehicle, ***and a person's license is administratively suspended under RSA 265-A:30,*** he or she may petition the court for a restoration of his or her operator's license with limited driving privileges. To qualify for consideration, the person shall submit proof of financial responsibility in accordance with RSA 265-A:28 and an application that demonstrates the need for the license. Satisfactory evidence of at least one of the following must be presented, including satisfactory proof from the employer, program, medical treatment facility, state-approved educational institution, or other destination:

2017-2547s

AMENDED ANALYSIS

This bill limits eligibility for limited privilege drivers' licenses to persons who have been convicted of a first DWI offense and whose licenses have been administratively suspended for operating under the influence or refusal to take a test.

PUBLIC AND MUNICIPAL AFFAIRS

SB 169, relative to the definition of agritourism.

Inexpedient to Legislate, Vote 5-0. Senator Woodburn for the committee.

This bill would modify the definition of agritourism. The Committee felt that the definition of agritourism was addressed in statute effective in 2016. This legislation would not serve to improve upon that, and the Committee requests Inexpedient to Legislate.

SB 170, relative to the authority of towns to issue bonds for the expansion of broadband infrastructure.

Ought to Pass with Amendment, Vote 5-0. Senator Kahn for the committee.

This bill as amended allows a municipality (and town) or county to raise funds through infrastructure or revenue bonds in order to finance public-private partnerships that improve broadband connectivity for locations unserved. Unserved locations are those lacking "broadband," capability as defined by section 706 of the Telecommunications Act of 1996, irrespective of the network technology used. Currently, a location is unserved if 25 megabyte download and 3 megabyte upload service is unavailable. These amendments allow a municipality to bundle unserved areas into a single request for proposals from existing service providers and others. Selection of a private partner is at the discretion of the municipality based upon criteria including, but not limited to, a provider's ability to deploy, manage, and maintain a broadband network which meets or exceeds the anticipated needs of the community.

Public and Municipal Affairs
November 1, 2017
2017-2497s
06/01

Amendment to SB 170

Amend the bill by replacing all after the enacting clause with the following:

1 Municipal Finance Act; Definitions; Location. Amend RSA 33:1, III to read as follows:

III. "Net indebtedness," all outstanding and authorized indebtedness, heretofore or hereafter incurred by a municipality, exclusive of the following: unmatured tax anticipation notes issued according to law; or notes issued in anticipation of grants of federal or state aid or both; debts incurred for supplying the inhabitants with water or for the construction, enlargement, improvement or maintenance of water works; debts incurred to finance the cost of sewerage systems or enlargements or improvements thereof, or sewage or waste disposal works when the cost thereof is to be financed by sewer rents or sewer assessment; debt incurred pursuant to RSA 31:10; debts incurred to finance energy production projects, the reconstruction or enlargement of a municipally owned utility, or the

manufacture or furnishing of light, heat, power or water for the public, or the generation, transmission or sale of energy ultimately sold to the public; debts incurred to finance small scale power facilities under RSA 374-D; debts incurred outside the statutory debt limit of the municipality under any general law or special act heretofore or hereafter enacted (unless otherwise provided in such legislation); and sinking funds and cash applicable solely to the payment of the principal of debts incurred within the debt limit[~~.~~]***;***

IV. "Location," property, parcel or address where broadband could be purchased by a customer.

2 Municipal Finance Act; Purpose of Issue of Bonds. Amend RSA 33:3 to read as follows:

33:3 Purpose of Issue of Bonds or Notes. A municipality or county may issue its bonds or notes for the acquisition of land, ***for economic development,*** for planning relative to public facilities, for the construction, reconstruction, alteration, and enlargement or purchase of public buildings, for other public works or improvements***, or for the financing of improvements,*** of a permanent nature including broadband infrastructure as defined in RSA 38:38, I(e), [~~to be purchased or constructed in areas not served by an existing broadband carrier or provider,~~] ***to serve any location within a municipality unserved by broadband as defined in RSA 38:38, I(c)*** for the purchase of departmental equipment of a lasting character, ***and*** for the payment of judgments[~~, and for purposes of economic development which~~]***. The issuance of such bonds or notes*** shall include***, but not be limited to,*** public-private partnerships involving capital improvements, loans, ***financing,*** and guarantees. The public benefit in any public-private partnership must outweigh any benefit accruing to a private party. Bonds or notes for the purposes of economic development may be issued only after the governing body of the municipality or county has held hearings and presented the public benefit findings to the public and after such issuance has been approved by the legislative body. A municipality or county shall not issue bonds or notes to provide for the payment of expenses for current maintenance and operation except as otherwise specifically provided by law.

3 Municipal Finance Act; Issue of Bonds for Preliminary Expenses. Amend RSA 33:3-c, I to read as follows:

I. A municipality or county may issue its bonds or notes for the purpose of defraying the cost of preliminary or final plans and specifications or other preliminary expenses incidental to, or connected with, any proposed public work or improvement of a permanent nature consisting of the construction, reconstruction, alteration, enlargement, [~~or~~] improvement***, or the financing of the construction, reconstruction, alteration, enlargement, or improvement*** of the following:

(a) A public building.

(b) A water works.

(c) A sewerage system or sewage or waste treatment facility.

(d) A solid waste disposal or resource recovery facility.

(e) Broadband infrastructure as defined in RSA 38:38***, I(e)*** [~~to be purchased or~~] constructed [~~in areas not served~~] ***to serve any locations within a municipality unserved*** by [~~an existing~~] broadband [~~carrier or provider~~] ***as defined in RSA 38:38, I(c)***.

4 Municipal Finance Act; Broadband Infrastructure Bonds. Amend RSA 33:3-g to read as follows:

33:3-g Broadband Infrastructure Bonds.

I. A municipality may issue bonds for the purpose of financing the development, construction, reconstruction, [~~renovation,~~] ***and*** improve-

ment[~~, and acquisition~~] of broadband infrastructure in [~~areas not served by an existing broadband carrier or provider that would be provided at a fee to broadband carriers that provide broadband services~~] ***any locations within a municipality unserved by broadband as defined in RSA 38:38, I(c).*** Without limiting the foregoing, broadband infrastructure may be the subject of public-private partnerships established in accordance with the provisions of RSA 33:3.

II. Bonds issued under this section shall be payable in annual payments so that the amount of annual payment of principal and interest in any year on account of any bond shall be not less than the amount of principal and interest payable in any subsequent year by more than 5 percent of the principal of the entire bond. The total amount of payments shall be sufficient to extinguish the entire bond at such bond's maturity. The first payment of principal on any bond shall be made no later than 5 years and the last payment not later than 30 years after the date issued. Each authorized issue of bonds shall be a separate and distinct loan.

III. A municipality shall not issue bonds for the purpose of financing the development, construction, reconstruction, renovation, improvement, and acquisition of broadband infrastructure in [~~areas not served by an existing broadband carrier or provider~~] ***any location within a municipality unserved by broadband as defined in RSA 38:38, I(c)*** unless a request for [~~proposals~~] ***information*** has been issued [~~and no broadband carrier or provider has responded positively within 2 months or deployed broadband service within 14 months of the issuance of the request for proposals~~]***, at a minimum, to all providers serving the issuing community and such providers have been given 2 months to respond to the request. The request for information may include, but is not limited to, information identifying locations within a municipality unserved by broadband as defined in RSA 38:38, I(c). After completing, issuing, and receiving responses to such request for information, a municipality may issue a request for proposals for the purpose of engaging in a public-private partnership pursuant to RSA 33:3 or RSA 33-B for the deployment of broadband infrastructure, as defined in RSA 38:38, I(e), and the provision of broadband service as defined in RSA 38:38, I(f). A municipality may select a proposal based on criteria including, but not limited to, provider ability to deploy, manage, and maintain a broadband network which meets or exceeds the anticipated needs of the community. A municipality may determine that no provider has met the criteria included in the request for proposals and may issue bonds for purposes pursuant to RSA 33:3 and RSA 33-B, including but not limited to, open networks***.

5 Municipal Revenue Bonds; Definitions; Revenue-producing Facilities. Amend RSA 33-B:1, VI to read as follows:

VI. "Revenue-producing facilities" means water works, broadband infrastructure as defined in RSA 38:38, I(e), purchased or constructed [~~in areas not served by an existing broadband carrier or provider~~] ***to serve any location within a municipality unserved by broadband as defined in RSA 38:38, I(c)***, sewerage systems, sewage treatment or disposal facilities, solid waste disposal or resource recovery facilities, parking facilities, facilities for the production, generation, transmission, or distribution of electricity or gas, any other real or personal property or interests in a municipality or regional water district owned or controlled by the municipality or regional water district, from the operation of which revenues are or are expected to be derived by the municipality,

or regional water district, and qualifying energy conservation and clean energy improvements for which a municipality provides financing pursuant to RSA 53-F.

6 Broadband Access; Definitions. Amend RSA 38:38, I to read as follows:

I. In this subdivision:

(a) "Access tariff" means the fee charged on a monthly or annual basis to broadband [~~carriers~~] ***providers*** for access to the broadband infrastructure.

(b) "Areas not served" means any part of a municipality without a wireless or facilities based broadband service or a wireless or facilities based broadband service provider. Wireless shall not include subscription satellite service.

(c) "Broadband" means the transmission of information, between or among points specified by the user, with or without change in the form or content of the information as sent and received, at rates of transmission defined by the Federal Communications Commission as [~~"broadband."~~] ***a wireline advanced telecommunications capability as defined by section 706 of the Telecommunications Act of 1996, irrespective of the network technology used.***

(d) "Broadband [~~carrier~~] ***provider***" means any provider of broadband services, except aggregators of broadband services, as defined in section 226 of the 1996 Telecommunications Act.

(e) "Broadband infrastructure" means all equipment and facilities, including all changes, modifications, and expansions to existing facilities, as well as the customer premises equipment used to provide broadband, ***as defined in subparagraph (c),*** and any software integral to or related to the operations, support, facilitation, or interconnection of such equipment[~~, including upgrades, and any installation, operations and support, maintenance, and other functions required to support the delivery of broadband~~].

(f) "Broadband service" means the offering of broadband for a fee directly to the public, or to such classes of users as to be effectively available directly to the public, regardless of the facilities used.

(g) "Open network" means any broadband infrastructure which is open to any third party users in a nondiscriminatory manner on a fair and equitable basis using publicly available access tariffs for services.

(h) "Open network interfaces" means the technical and operational means, manners, and methods for any third party access to the broadband infrastructure, which shall be provided on the basis of generally acceptable industry standards available at the time of access.

7 Broadband Fund. Amend RSA 38:40, I to read as follows:

I. The funds received from the collection of access tariffs shall be kept as a separate fund to be known as the broadband fund. Such fund shall be allowed to accumulate from year to year, shall not be commingled with town or city tax revenues, and shall not be deemed part of the municipality's general fund accumulated surplus. Such fund may be expended only for the purposes specified in RSA [~~38:38, or for the previous expansion or replacement of broadband infrastructure~~] ***33:3 and RSA 33-B***.

8 Repeal. RSA 38:38, I(b), definition of areas not served by broadband, is repealed.

9 Effective Date. This act shall take effect 60 days after its passage.

HB 173, relative to regulations restricting the use of water for outdoor usage. Inexpedient to Legislate, Vote 5-0. Senator Birdsell for the committee.

This bill would extend the authority of selectmen to restrict outdoor water usage. The Committee felt that this bill would adversely affect some commercial businesses over others. Due to the unintended consequences this would cause, the Committee requests Inexpedient to Legislate.

HB 296, allowing counties to authorize and fund forensic audits.
Inexpedient to Legislate, Vote 5-0. Senator Gray for the committee.

This bill would allow the county convention to authorize a forensic audit and pay for it from the contingency fund. The Committee believes this legislation is unnecessary as municipalities already have the authority to do this in statute. Therefore, the Committee requests Inexpedient to Legislate.

The question is on the adoption of the Consent Calendar. Adopted.

Amendment to SB 84

Amend the title of the bill by replacing it with the following:

AN ACT relative to payment of workers' compensation benefits by direct deposit and authorizing electronic payment of payroll.

Amend the bill by replacing all after section 1 with the following:

2 Payment of Wages; Weekly or Biweekly. Amend RSA 275:43, I(e) to read as follows:

(e) With checks on a financial institution convenient to the place of employment where suitable arrangements are made for the cashing of such checks by employees for the full amount of the wages due[~~; provided, however, that if an employer elects to pay employees as specified in subparagraphs (b), (c), or (d), the employer shall offer employees the option of being paid as specified in subparagraph (e), and further~~], provided that all wages in the nature of health and welfare fund or pension fund contributions required pursuant to a health and welfare fund trust agreement, pension fund trust agreement, collective bargaining agreement, or other agreement adopted for the benefit of employees and agreed to by the employer shall be paid by every such employer within 30 days of the date of demand for such payment, the payment to be made to the administrator or other designated official of the applicable health and welfare or pension trust fund.

3 Payment of Wages; Weekly or Biweekly. RSA 275:43, II(b) is repealed and reenacted to read as follows:

(b) Provide its employees the option of being paid by direct deposit under subparagraph I(c). If, after the employer has offered an employee direct deposit and provided the employee with the written disclosures required by subparagraph (a), the employee does not designate an account at a financial institution for direct deposit, the employer may arrange to pay the employee using a payroll card.

4 Payment of Wages; Weekly or Biweekly. Amend RSA 275:43, II(c) and (d) to read as follows:

(c) Provide written notice of any change to any of the terms and conditions of the payroll card or payroll card account, including but not limited to an itemized list of all fees that may have changed[~~, and obtain written assent from the employee that the employee voluntarily consents to receive wages to a payroll card or payroll card account subject to the changes~~]. The employer shall be responsible for any increase in fees charged to the employee before the employer provides written notice of such changes to the employee.

(d) Provide the employee the option to discontinue receipt of wages by a payroll card or payroll card account at any time, without penalty to the employee ***and to instead receive wages by direct deposit or another method offered by the employer, if any***.

5 Effective Date.

I. Section 1 of this act shall take effect January 1, 2019.

II. The remainder of this act shall take effect 60 days after its passage.

2017-2552s

AMENDED ANALYSIS

This bill authorizes payment of compensation under the workers' compensation law to be made to the injured worker by direct deposit.

This bill also deletes the requirement that an employer who pays wages by electronic fund transfer offer employees the option of being paid by check and permits an employer to pay wages with a payroll card after offering employees the option of being paid by direct deposit.

SENATOR SANBORN: Thank you, Mister President. Mister President, I move Ought to Pass with Amendment on Senate Bill 84. Mister President, as introduced this bill would authorize payments of workers compensation to be made to the injured worker by direct deposit. This legislation is for those injured individuals who have already spent six weeks or more out of work at a 40 percent reduction in pay. The policy question Mister President, was whether or not we believe that paying people directly, versus having them get a check is the right type of policy and the committee felt that it was. So they included an amendment to this bill that is very business friendly. It also authorizes employers to do the same type of electronic payment that we're discussing about workers compensation. In fact in 2013 this exact language was passed by the full Senate on a vote of 20-4 in a bipartisan vote out of the Commerce Committee. Testimony was heard at that hearing from Elliot Hospital, that this bill would save them over $67,000 a year, money they testified which could be spent on health care rather than writing paper checks. This amendment will also allow the employee to opt out and receive a payroll card if they so choose. Please join the Commerce Committee on voting Senate Bill 84 Ought to Pass with Amendment. Thank you, Mister President.

(The Chair recognized Senator Soucy.)

SENATOR SOUCY: Thank you, Mister President. Mister President, I rise in opposition to the committee amendment. The underlying bill was a very, very simple bill that affected a small discrete group of people. And what this amendment is in addition to being non-germane, is an amendment that never had a public hearing, and yet this amendment has the potential to impact every employee in the state of New Hampshire, not that small discrete group of injured workers that I was trying

to address in the underlying bill. What the amendment does is it turns decision making on its head by changing the ability of employees to make decisions about the method of payment they receive, and instead gives that determination to the employer; a real sea change in our labor laws. Section 2 of the amendment removes the employee's choice, their liberty to receive a paycheck, a physical check every week or every two weeks. Section 3 of the amendment says that an employee will now be paid by direct deposit or if the employee fails to provide a bank account, their bank information to their employer, the employer can now pay them with a payroll card. Now current law states that employers need to get written consent, it allows payroll card payment to employees, but it requires that the employer seek written consent from their employees before making those payments. And even more important, and I really want to emphasize this because we recognize the importance of individuals to make their own choices, having worked the hours they were required to, having done the work they were required to, current law says that after attaining consent, it says that accepting this form of payment of wages cannot be a condition of hire or of employment.

So the last section of the law, that it can't be a condition of hire or employment, has been stricken in this amendment. So we're now saying that it's permissible in the state of New Hampshire to fire someone who refuses to accept a payroll card as a medium of payment. Section 4 of the amendment provides for notice of changes to the payroll card terms and conditions by the employer. But once again, they no longer need the consent of the employee, so I guess if circumstances change, well that's too bad. Now I'm sure in a moment one of my colleagues is going to say, but section 4 (d) of this amendment is what gives the employees their choice and I see one of my colleagues nodding his head. But let's look at what 4 (d) provides the employee. What it says is that the employee can choose not to accept the payment of their wages in a payroll card, and instead what happens, well of course we now revert back to the direct deposit, or, and here's the egregious part, or another method of payment offered by the employee if any. If any. That means that if they don't offer them, well seriously, you're out of luck and it's tough luck. Mister President, I represent, as do many of us in this body, a large number of people for whom banks and credit unions are not where they do their financial transactions. They're people that prefer paychecks, they're people that use money transmitters, they're people that use other ways of dealing with their finance; they're people who use cash. There are people who are in the midst of acrimonious situations like divorce who don't want money going into a joint account, but it's the only account they have. Mister President, this amendment imposes such a sea change in our labor laws and who can make determinations about how they're paid, that I can't imagine how we could move forward on this amendment today without at the very least as I said, having had a public hearing, having had input. We did not have input from the Labor Department. I can't tell you if this is going to increase the number of complaints, because there wasn't an opportunity to ask them. I think for a lot of employees this will have a profound effect on them. I can't tell you if the Banking Department, or banks and credit unions in our state can accommodate payroll accounts for credit cards. Will they open increased hours to allow for people to transact with the payroll cards? Or will they install new ATMs that dispense coins, or individual dollar bills? I don't believe so. I think there are a number of flaws, a number of questions with this amendment and I implore my colleagues not to

make such a significant change in our payment method process here in the state, not to completely take away the liberty of employees and shift it without more information. So I ask you to please vote down this amendment so that we can get to discussing what the underlying bill really does. Thank you.

(The Chair recognized Senator Feltes.)

SENATOR FELTES: Thank you very much, Mister President. In addition to what my friend said from District 18 about why this is bad for workers, I want to say this unequivocally; this is bad for employers. If you want to open the floodgates to complaints and litigations against employers, vote for this amendment. Indulge me a second and look at page 9 of the calendar and look at the amendment. Section 4 of the amendment deletes the requirement that there's written assent from the employee, that the employee voluntarily consents to receive wages to a payroll card or a payroll card account subject to these changes. Voluntarily consents and you've got it in writing. That's changed to 4 (d), which doesn't say anything about the option. The reason why it's in writing and it says voluntary consent is it covers both the employee and the employer. Now we're interjecting all this murkiness and vagueness in this and that's going to lead to many more complaints against employers; much more litigation against employers. Employers are not covered by this amendment, this is anti-employer. 4 (d); you can instead receive wages by direct deposit or another method. Again, vagueness; what is another method mean? Is that bitcoin? Could be bitcoin I guess, the Senate Commerce Committee liked bitcoin last year so, it could be bitcoin. But either way it's vague and again, leading ourselves down the road of more litigation, more complaints and as the Senator from District 18 said, we haven't heard from the Department of Labor about the consequences in terms of complaints and litigation. The reason why it says written assent from the employee, in writing, that they're voluntarily consenting to this is to cover the employer and the employee, there's no debate. We interject this vagueness, there's debate, there's complaints, there's litigation. So I urge you to vote down this amendment so we can go to the underlying bill. Thank you, Mister President.

(The Chair recognized Senator Sanborn.)

SENATOR SANBORN: Thank you, Mister President. Mister President. I rise again and I appreciate the opportunity, and I look around this wonderful body we have, and I celebrate the fact Mister President, 2018 and congratulations on a new year. But with a new year in my view and I happen to succumb to the same issue is, I see a lot of gray hair, I see a lot of middle aged people that sometimes struggle with this new found thing called technology. When we think about technology Mister President, when I think about my business where thirteen years ago when I opened up my little business on Main Street, nearly 60 percent of my business was done in cash. Today it's under 5 percent. Ladies and gentlemen, the world has changed. There's these new things called iPhones, and Samsung's. We have fourteen different types of crypto-currency today and to my great friend from District number 15, you're absolutely right. The Senate Committee's trying to be very, the Commerce Committee's trying to be very progressive and keep up with technology in the changing world. The world is different today, all of my employees pay for everything on their phone, it's all electronic. None of them actually have checking accounts, because they've seen and they've embraced the technology and the future about how it works. Now we have to remember

Mister President, that this is a bill that came to us through the great work of the Senator from District number 3 in 2013. Passed 20-4, the exact same language. It worked pretty well then. It was good language, we think it works today. So Mister President, the question I think we should always be asking is isn't it more important to make sure that employees get paid, that they actually get paid for the hours they work, that they actually have the access to the money in an expedient manner.

You know Mister President, I come from a background of skiers in my family, I've spent most of my life teaching people how to ski. And I think of all the great ski areas in the North Country today and the hundreds of employees that they have that are part-timers that come up on the weekend. There might be a week or two weeks before they actually get back to their place of employment and that check is waiting for them up there, they actually don't have access to their payroll checks without having to get into their car and driving from southern New Hampshire all the way up to the North Country. What this bill will allow people to do is actually get the money they worked hard for, quicker and easier, because at the end of the day this is about making sure that the employers are trying to get that money to their employees. And if we believe that the world is going electronically and as a lover as I'm sure my Senator from District 3 is as well of tube amplifiers, technology has changed, and our ability to actually pass legislation to embrace the fact that the world has changed and using different currencies and using their phones or whatever means it is, is something we should be keeping up with. So I ask my colleagues in this chamber to join the Commerce Committee and the great work that the chair has done to recognize that we're actually trying to move the ball forward, get money in people's hands quicker and let them use it. This will be good for our businesses, this will be good for our employees and this will let people know that we're actually marching with them in 2018 and beyond. Thank you, Mister President.

(The Chair recognized Senator Soucy.)

SENATOR SOUCY: Thank you, Mister President. Just to make clear something I said earlier in light of my colleague's comments; there is nothing in the current law that precludes people from making choices to use technology. Employers can pay using pay cards, they can pay using direct deposit, they can pay using any of those mediums today. The fundamental issue that's changing here is the choice of the employee to still and even if it's a small number, to still receive a paycheck. There is nothing precluding the advancements of technology, nothing precluding those from making choices from making them today. What this does though is take away choice and that is the problem Mister President.

(The Chair recognized Senator Sanborn.)

SENATOR SANBORN: Mister President, I apologize I didn't declare earlier; I am an employer and this bill may or may not affect my business but I'd like to declare I'll still be participating. Thank you, Mister President.

The question is on the adoption of the Committee Amendment.

A roll call was requested by Senator Soucy, seconded by Senator Sanborn.

The following Senators voted Yes: Giuda, Bradley, Gray, French, Ward, Sanborn, Daniels, Avard, Carson, Reagan, Birdsell, Gannon, Innis, Morse.

The following Senators voted No: Woodburn, Watters, Kahn, Lasky, Feltes, Cavanaugh, Soucy, D'Allesandro, Fuller Clark.

The following Senators were excused: Hennessey.

Roll Call, Yeas: 14 - Nays: 9. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to Third Reading.

SB 87-FN, relative to on-premises sales by liquor manufacturers.
Ought to Pass, Vote 5-0. Senator Soucy for the committee.

SENATOR SOUCY: Thank you, Mister President. Mister President, I rise in support of this legislation. This was a bill that I put in for a constituent of mine, Stark Brewing Company of Manchester. In order to expand their business they began producing liquor. However because of our current liquor laws, the Liquor Commission required the company to sell their liquor back and physically move it back to the warehouse at a 33 percent profit to the state. After the bill was re-referred back to committee last year, the Liquor Commission has worked with my constituent and the issue has been addressed. Yet the committee felt that this bill was still important to pass in order for other such entities around the state to be able to sell their liquor at their place of consumption, at their retail establishment, so that they would not have to physically transport to the warehouse and bring back. So I ask all of you to please join with me and the committee in voting Senate Bill 87 Ought to Pass. Thank you, Mister President.

The question is on the adoption of the motion of Ought to Pass. Adopted, bill ordered to Third Reading.

SB 91, relative to the title loan default process.
Ought to Pass with Amendment, Vote 5-0. Senator Sanborn for the committee.

Commerce
November 7, 2017
2017-2506s
08/10

Amendment to SB 91

Amend the bill by replacing all after the enacting clause with the following:

1 Title Loan Renewals. Amend RSA 399-A:19, II-III to read as follows:

II. A title loan lender may allow such loan to be renewed no more than [~~10~~] ***9*** additional periods each equal to the original term, provided however, that at each such renewal the borrower shall pay at least 10 percent of the title loan's original principal balance in addition to any finance charge owed, to reduce the principal balance outstanding. ***No action shall be required of the borrower to renew the loan.***

III. If the borrower cannot pay this principal reduction at any renewal, the title loan lender [~~may~~] ***shall*** either: (a) declare the borrower in default; or (b) allow the loan to be renewed, provided that***, in either event,*** the lender shall reduce the current principal amount of the loan by 10 percent of the original principal amount for the purposes of calculating interest thereafter. This reduction in principal shall continue to be owed by the borrower, but such amount shall not be entitled to accrue interest thereafter. ***No interest shall accrue on a title loan 60 days after the borrower has been declared in default, unless the borrower cures such default.***

2 Effective Date. This act shall take effect 60 days after its passage.

2017-2506s

AMENDED ANALYSIS

This bill requires a title loan lender to cease accruing and collecting interest on a title loan which is in default for over 60 days.

SENATOR SANBORN: Thank you, Mister President. Mister President, I move Ought to Pass on the amendment and as amended on Senate Bill 91. The original bill was brought forth by the Banking Department to clarify the existing statute on title loans. An issue arose where a title loan lender misinterpreted the law on renewals in the declaration of default. This bill was sent to study because there were concerns among the industry that the proposed fix would send more consumers into default. The department and industry worked over the summer to address this problem. The committee amendment is the compromise reached that clarifies how a missed payment by a borrower will be handled by a lender. In any event a borrower that is declared in default of a loan shall not accrue interest on the balance for more than sixty days unless the default is cured. This language is based on Virginia law and was supported by all stakeholders. Please join the committee in voting Senate Bill 91 Ought to Pass with Amendment. Thank you, Mister President.

The question is on the adoption of the Committee Amendment. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to Third Reading.

SB 189-FN, requiring insurance policies to cover 3-D mammography. Ought to Pass with Amendment, Vote 5-0. Senator Soucy for the committee.

Commerce
December 8, 2017
2017-2553s
01/04

Amendment to SB 189-FN

Amend the title of the bill by replacing it with the following:

AN ACT requiring insurance policies to cover 3-D mammography under certain circumstances.

Amend the bill by replacing all after the enacting clause with the following:

1 Low-Dose Mammography; Definitions. Amend RSA 417-D:1, III to read as follows:

III. "Low-dose mammography" means the ***2-demensional*** X-ray examination of the breast using equipment dedicated specifically for mammography, including the X-ray tube, filter, compression device, screens, films, and cassettes, with a radiation exposure which is diagnostically valuable and in keeping with the recommended "Average Patient Exposure Guides" as published by the Conference of Radiation Control Program Directors, Inc.

2 Low-Dose Mammography; Coverage. Amend the introductory paragraph of RSA 417-D:2, I to read as follows:

I. Each insurer that issues or renews any policy of accident and health insurance providing benefits for hospital expense, medical-surgical expense, or major medical expense shall provide in each group or individual policy, contract, or certificate of insurance issued or renewed

for persons who are residents of this state, coverage for screening [~~by low-dose mammography~~] for all women 35 years of age or older for the presence of occult breast cancer within the provisions of the policy, contract, or certificate ***by low-dose mammography, or Digital Breast Tomosynthesis (DBT) after a physician consultation with the patient about the potential patient-specific risks and benefits of DBT***. The coverage shall be as follows:

3 Effective Date. This act shall take effect 60 days after its passage.

2017-2553s

AMENDED ANALYSIS

This bill requires insurance coverage for 3-D mammography under certain circumstances.

SENATOR SOUCY: Thank you, Mister President. Mister President, I move Ought to Pass with Amendment on Senate Bill 189. This bill as amended would require insurance companies to cover 3-D mammograms following a consultation with the patient's physician. For years the health care industry has done 2-D mammograms which essentially squish the breasts together and require having to look through very dense breast tissue. 3-D mammograms go from film to digital which results in looking at sliced images through dense breast tissue to find cancers. 3-D technology is actually saving the health care system money because the benefits outweigh the cost of the technology. With 3-D technology there are fewer false positive test results, therefore fewer callbacks for unnecessary screening and testing. 3-D technology also detects cancer and growths faster especially invasive cancers which allow for earlier and less expensive intervention with improved outcomes. On a personal note, I would state that as a member of the committee I felt responsibility to speak on behalf of this amendment, but in light of additional information that I have received specifically about radiation and about outcomes, I personally will be voting against the amendment and I think some of my colleagues will speak to that issue. Thank you.

(The Chair recognized Senator Bradley.)

SENATOR BRADLEY: Thank you very much, Mister President. I would ask that the body vote down the committee amendment so that I can introduce an alternative motion which will be Ought to Pass. And let me just echo the words of our colleague from Manchester about the efficacy of 3-D technology. I don't think there's any dispute about that. I spent quite a bit of time talking to a radiologist who is an associate professor of radiology at the Geisel Medical School and the Director of Radiology and Breast Imaging at Dartmouth Hitchcock. Her name is Doctor Zuurbier. Exactly as our colleague from Manchester said, better detection, earlier detection and the result of that is not just saved lives and less radical alternatives for people facing the threat of breast cancer, chemotherapy, radiation, surgery, loss of life but earlier detection also saves medical costs and so I'll freely admit, this is a mandate but I will say it's popular with physicians and with the New Hampshire Medical Society all of whom you have heard from, that this is a cost saving measure because of earlier detection, less callbacks, less exposure to radiation from the callbacks for more tests. This is the twenty-first century technology and we should be making sure that we've done everything possible to ensure that people in New Hampshire have access to it. Unfortunately in my opinion and I think in the opinion of the Medical Society, the amendment takes a step backwards from what the current law says.

And the current law does not define low dose mammography, but the committee amendment would define it as the 2-D technology, the step backwards and that in my opinion, and I think in the opinion of doctors in the Medical Society, is going to lead to barriers to care, for people that need to get this preventative care called a mammogram. And so, while I appreciate the hard work that the Commerce Committee did, I think the amendment is a little misguided, which is why we should defeat it so that I can introduce an alternative motion of Ought to Pass. Thank you, Mister President.

(The Chair recognized Senator Avard.)

SENATOR AVARD: Thank you, Mister President. I just wanted to say that I agree with my two colleagues here in that we vote down the amendment so that we can introduce another one, but just for the record, my mother-in-law has been doing mammographies for over fifty-five years. My wife has been doing mammography for about twenty-seven years. So I get a lot of shop talk and one of the things that we discovered about the 3-D is that it does save callbacks; 2-Ds if you have breast tissue that is dense, you're going to have an automatic callback, which is going to drive up the cost, 3-D can eliminate that and is better at early detection and I think that when we think about, well is it a mandate? Yeah, well so is 2-D, so if we're talking about one mandate over another mandate it seems to me that if we're talking about technology and saving lives, this is the way to go and I whole-heartedly support this. Thank you.

(The Chair recognized Senator Innis.)

SENATOR INNIS: Thank you, Mister President. As chair of the Commerce Committee I want to thank Senators Bradley and Soucy for their work to move this forward in a positive way. We never had any intention of reducing care, actually we wanted to increase access to care for women and men and I think that the work of the two Senators will move us in that direction so thank you on behalf of myself and my constituents.

(The Chair recognized Senator Carson.)

SENATOR CARSON: Thank you, Mister President. I rise in favor of overturning the committee amendment. There's a lot of talk here about breasts today; what exactly is a dense breast? A dense breast is one that you can't really see through with the 2-D mammography and that happens for a variety of reasons. Upwards of 40 percent of the women of this country have what are considered to be dense breasts. They could be dense genetically, they could be dense because a woman has had multiple procedures whether they have been lumpectomies or biopsies but there's a lot of scar tissue within the breast, or a woman has enhanced breasts, she has an implant. You cannot see through those. But what happens with the 3-D is you can really see through those, so you can actually see the beginnings of calcium deposits, which are precursors of cancer for many women. So this really is a time saving measure for many, many women, and as someone who's had to go through some of these procedures, believe me there's a worse thing that you ever really want to do is to wait for that phone call to come, that they're asking you to come back. And the time period that you have to keep going back and back and back. This really empowers the patient, it empowers the doctor and provides for quicker diagnosis and quicker treatment options. So again I would encourage my colleagues to please vote down the amendment and we will have a discussion on the underlying bill. Thank you very much.

(The Chair recognized Senator Sanborn.)

SENATOR SANBORN: Thank you, Mister President. Mister President, I rise and want to give a shout out to the committee members who have spent a fair amount of time on this bill and to those advocacy groups that bothered to show up and participate. I think there were some great discussions. And I'm a little concerned that the conversation on this bill might be getting a little bit off track and want to re-emphasize the fact that the Commerce Committee from day one has always tried to have the best interest of people and their ability to get the right type of heath care at the forefront of their discussions. I think it's very important at this point to state that this amendment was specifically designed to stop government from wedging in between a doctor and their patient. We talk about that a lot in this building. In the eight years I've been in this building we've had a lot of conversations about whether or not we want to use the power of the legislature to wedge between a doctor and the patient. What this amendment specifically said was that if a doctor made a determination for their patient that if they should get a 3-D mammogram that it would not be withheld. It's a positive amendment that allows doctors and their patients to communicate on the risks and benefits and allow the doctor and the patient to make the decision of what's best for the patient. Nowhere in that discussion was there ever any conversations about limiting, stopping or backing up. This was about empowering patients and empowering doctors. And I think it's a very important point of this discussion because it seems like it's going sideways, so again Mister President, I applaud the work that the committee did in trying to find a way to empower patients and empower doctors so they can make the best decisions for themselves, and I'd like a roll call of the amendment, please.

(The Chair recognized Senator Lasky.)

SENATOR LASKY: Thank you, Mister President. I rise on behalf of my view of the Commerce Committee and with all due respect to my colleague, he is correct. We did spend a lot of time on this, we did hear a lot of testimony to this. But in particular the comment that he made that it does not forbid or you know say that you can't have the discussion with your doctor about choosing 3-D mammography. But once that door is closed, or seemingly closed without coverage by the insurance company, that is a woman or any patient sort of hears well, that's not an option for me. I can't afford to go forward and I'm not quite sure if that would be the right direction if in fact they believe a 2-D is enough to cover it. So I think that just by having the discussion and allowing this to go forward will save countless of lives and therefore save costs as well. I think it would be unconscionable for us knowing that this technology is out there, knowing that there are so many women who fall into the dense breast category, for one reason or another, that we do not move forward with this and to keep the Commerce Committee report I voted against the amendment. As such knowing what we know again we would be derelict in our duties in serving the people of New Hampshire, particularly the women. Thank you.

(The Chair recognized Senator Bradley.)

SENATOR BRADLEY: Thank you for the opportunity to speak a second time. I just want to in response to what our colleague from Bedford said about interjecting government in between a patient and a doctor, read from the Medical Society letter that we all received yesterday, so the 1,2,3, 4th paragraph, the Commerce Committee amendment moves in the opposite direction from the original bill by explicitly excluding, rather than including 3-D technology from the definition of low dose in

our statute and by differentiating insurance coverage for 2-D versus 3-D screening by mandating a pre-screening physician consultation for 3-D only. This opens the door to further differentiation such as prior authorization requirements for 3-D only which could create barriers or barriers to or delays of care. So while I certainly appreciate the intention of the Commerce Committee amendment, I think that on further reflection, it has created that wedge between a doctor and a patient as the Medical Society letter I think informs all of us. So again, I would urge the body to vote no so that I can introduce an Ought to Pass motion. Thank you, Mister President.

(The Chair recognized Senator Sanborn.)

SENATOR SANBORN: Mister President, I rise again to point people to the amendment itself starting on line 15 where it talks about each insurer that issues or renews a policy of accident health insurance providing benefits with hospital expense, medical-surgical expense or major medical expense shall provide each group or individual policy contract or certificate of insurance issued or renewed for persons who are residents of the state covered by screening, eliminates low dose mammography for all women thirty-five years of age or older for the purpose of occult breast cancer within the provisions of the policy, contract or certificate by low dose mammography or digital breast, someone help me out, tomosynthesis, which is 3-D. So it specifically provides in the amendment 2-D or 3-D after a physician consultation with the patient about the potential patient specific risk and benefits of 3-D. So again Mister President, even though the Medical Society may have weighed in, it would have been nice if they had read the amendment because it provides specifically one or the other at the discretion of the doctor of which the cost of the ability to get it shall not be withheld. Thank you, Mister President.

The question is on the adoption of the Committee Amendment.

A roll call was requested by Senator Sanborn, seconded by Senator Avard.

The following Senators voted Yes: French, Sanborn.

The following Senators voted No: Woodburn, Giuda, Bradley, Watters, Gray, Ward, Kahn, Daniels, Avard, Lasky, Carson, Feltes, Cavanaugh, Reagan, Soucy, Birdsell, D'Allesandro, Fuller Clark, Gannon, Innis, Morse.

The following Senators were excused: Hennessey.

Roll Call, Yeas: 2 - Nays: 21. Failed.

The question is on the adoption of the motion of Ought to Pass.

A roll call was requested by Senator Avard, seconded by Senator Giuda.

The following Senators voted Yes: Woodburn, Giuda, Bradley, Watters, Gray, French, Ward, Sanborn, Kahn, Daniels, Avard, Lasky, Carson, Feltes, Cavanaugh, Reagan, Soucy, Birdsell, D'Allesandro, Fuller Clark, Gannon, Innis, Morse.

The following Senators voted No: (None)

The following Senators were excused: Hennessey.

Roll Call, Yeas: 23 - Nays: 0. Adopted, bill ordered to Third Reading.

HB 79-FN, relative to New Hampshire products purchased and sold by the liquor commission.
Inexpedient to Legislate, Vote 5-0. Senator French for the committee.

SENATOR FRENCH: Thank you, Mister President. I move Inexpedient to Legislate on House Bill 79. This bill essentially directs the Liquor Commission on product placement in the liquor stores for New Hampshire

made products. As passed by the House this legislation gives preferential placement in our stores and significant financial accommodations would be made based on how we classify New Hampshire products. This committee felt this bill would be confusing to New Hampshire businesses in regards to words packaged, grown or made in New Hampshire. Please join the committee in voting House Bill 79 Inexpedient to Legislate. Thank you, Mister President.

(The Chair recognized Senator Sanborn.)

SENATOR SANBORN: Thank you, Mister President. Mister President, I rise as a business owner and licensee that this bill may or may not affect my business but with current ethics laws I'm compelled to say that it might but I'm still participating and would use the same thing for SB 87 which I apologize I missed earlier. Thank you, Mister President.

The question is on the adoption of the motion of Inexpedient to Legislate. Adopted.

HB 305, clarifying lessee liability for month-to-month leases.
Ought to Pass with Amendment, Vote 4-1. Senator Sanborn for the committee.

Commerce
December 8, 2017
2017-2551s
05/04

Amendment to HB 305

Amend RSA 540:11, II as inserted by section 1 of the bill by replacing it with the following:

II. A tenancy at will, from month to month, may be terminated by the lessee upon 30 days notice; provided that if the date of termination given in the notice does not coincide with the rent due date, the lessee is responsible for the rent for the entire month in which the notice expires, up to the next rent due date, unless the terms of the lease provide otherwise.

2017-2551s

AMENDED ANALYSIS

This bill clarifies lessee liability for rent when the notice of termination does not coincide with the rent due date in a tenancy at will.

SENATOR SANBORN: Thank you, Mister President. Mister President, I first rise to state that as a business owner and someone that rents property I may or may not be affected by the byzantine ethics laws we have today, I feel compelled I have to say declare and I will still be participating. That said Mister President, I move Ought to Pass with Amendment on House Bill 305. This bill clarifies notice requirements for month to month leases. Under existing case law a tenant must give thirty days' notice in order to terminate a month to month lease. If the tenant does not provide the appropriate notice, they will be responsible for the next month's rent or the proportion thereof. This bill codifies case law into statute to make it easier for tenants to understand their legal obligations. The committee amendment clears up some cross referencing terminology between tenancy and lessee. Please join the committee in voting HB 305 Ought to Pass with Amendment. Thank you, Mister President.

The question is on the adoption of the Committee Amendment. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to Third Reading.

HB 549-FN, relative to beverage vendor fees.
Ought to Pass, Vote 4-1. Senator French for the committee.

SENATOR FRENCH: Thank you, Mister President. I move Ought to Pass on House Bill 549. The intent of this legislation is to remove a perceived barrier for out of state beverage manufacturers to offer some of their labels in New Hampshire and make us more competitive with the beer brewing industry. The bill replaces the current flat $750 fee with various fees on a sliding scale, based on the amount of beer produced by the brewer. With this change a small brewer can bring in a single label to the state for a fee as low as $100. There are four brewers which fit the definition of the largest brewers. The $10,000 fee is in line with what they are paying today and supported by the beer industry. Please join me and the committee in voting HB 549 Ought to Pass. Thank you, Mister President.

(The Chair recognized Senator Sanborn.)

SENATOR SANBORN: Thank you, Mister President. Mister President, I rise looking for confirmation from you, a) that this is going to the Finance Committee if this does pass this body, but more importantly rise about my concern about what may be the biggest fee increase in the state of New Hampshire we're about to roll call vote on. Now Mister President, I fully understand that right now there's a $1200 fee for anyone wishing to bring beer into this state.

And for the record, did I declare ethics on this? I have to declare. I did not? Mister President, I declare as a business owner and licensee I buy and sell beer regularly so I may or may not have a conflict but I'm still participating. Can you please change these ethics laws for me, Mister President?

That said, we presently have a $1200 fee today for someone to have the right to bring their beer into our state, let that sink in for a second. Someone has to pay a $1200 fee for the right to sell something in our state. There's a word for that Mister President. Now I recognize small beer companies that might only sell a half a dozen or a dozen kegs of beer, that the cost of the license exceeds what they retail the beer for to the distributor. Clearly there's a problem with that, Mister President. And clearly we should fix that. But I do not believe the fix to help the little guy includes raising the fee from $1200 to $15,000; $1200 to $15,000. In addition to that Mister President, this fee increase isn't just so egregious, there's an 1100 percent increase for those of you who decide to vote for this, but it's going to result in almost doubling the income to the state of New Hampshire.

So it's not even just a fee increase, we're doubling the revenue in the general ledger account, Mister President. Mister President, I don't know about you but I'm thinking if this was a tax on roses or flowers come April, there would be a lot of outrage about this. Look, I recognize the fact that we want to do everything in our power to encourage small brewers across the country to bring their product into our state. But doing so by instituting an 1100 percent increase in a fee, that doubles state revenue, I'm just not sure that jives with my low tax live free or die let's cut a bunch of taxes philosophy that we have previously been operating from in the state of New Hampshire.

So Mister President, it would be my recommendation to this body if they do not want to vote for an 1100 percent increase in a fee, and double a revenue income, that we vote down the Ought to Pass, move to ITL and let someone introduce a bill with a better fix next year. Thank you, Mister President. And I would like a roll call, please.

(The Chair recognized Senator Carson for a question of Senator French.)

SENATOR CARSON: Thank you, Senator for taking my question. Senator, I'm looking at the hearing report that came out of the Commerce Committee and first of all I saw that no one objected to this bill. And secondly that the beer distributors are in full support of this and this is basically a type of a question, it's, what I'm bringing is, they support this. Did they think this is a great idea, they came together to solve a problem. And that they're paying money and I'm quoting, "by paying more money for one fee, cutting out the additional legal costs for the multiple existing fees that add up to around $15,000 anyway, distributors are saving money. So, my question to you is basically what's the story here? They seem to support it.

SENATOR FRENCH: You are actually seeing it the way most of the Commerce Committee saw it.

SENATOR CARSON: Alright, thank you. Thank you very much.

The question is on the adoption of the motion of Ought to Pass.

A roll call was requested by Senator Sanborn, seconded by Senator Avard.

The following Senators voted Yes: Woodburn, Bradley, Watters, Gray, French, Ward, Kahn, Avard, Lasky, Carson, Feltes, Cavanaugh, Reagan, Soucy, Birdsell, D'Allesandro, Fuller Clark, Innis.

The following Senators voted No: Giuda, Sanborn, Daniels, Gannon, Morse.

The following Senators were excused: Hennessey.

Roll Call, Yeas: 18 - Nays: 5. Adopted, bill ordered to the Committee on Finance (Rule 4-5).

EDUCATION

HB 122, relative to withdrawal from a cooperative school district. Ought to Pass, Vote 4-0. Senator Kahn for the committee.

SENATOR KAHN: Thank you, Mister President. I move House Bill 122 Ought to Pass. This bill amends procedures for withdrawal from a cooperative school district. Recently a commission has been repopulated to decide what should be done about withdrawing from a cooperative school district. In the meantime the Education Committee has reviewed the bill, believes that this should pass and looks forward to other legislation that may be brought forward from the commission. Therefore, the majority of the Education Committee asks for your support in the motion of Ought to Pass on House Bill 122. Thank you, Mister President.

The question is on the adoption of the motion of Ought to Pass. Adopted, bill ordered to Third Reading.

HB 557-FN, relative to school attendance in towns with no public schools. Inexpedient to Legislate, Vote 4-0. Senator Ward for the committee.

SENATOR WARD: Thank you, Mister President. I move House Bill 557-FN Inexpedient to Legislate. This bill would allow a school district to assign a child to another public school in another school district or to an approved private school if there is no public school for the child's grade

in the child's resident district. The bill would also allow a school board to make a contract with a private school to provide for the education of a child who resides in a district which does not have a public school at the child's grade level. It is the committee's understanding that SB 8 which passed the body last year was signed into law, addresses all of these issues already, therefore this bill is no longer necessary. I ask for your support in the motion of Inexpedient to Legislate on House Bill 557-FN. Thank you, Mister President.

The question is on the adoption of the motion of Inexpedient to Legislate. Adopted.

ELECTION LAW AND INTERNAL AFFAIRS
SB 106, relative to eligibility to vote.
Inexpedient to Legislate, Vote 4-1. Senator Gray for the committee.

SENATOR GRAY: Thank you, Mister President. I move that Senate Bill 106 Inexpedient to Legislate. The expands the definition of domicile for voting purposes, requires voter registration, have voters be residents of the state for thirteen days and modifies the registration form, due to passage of other legislation this bill is unnecessary, therefore I would ask that you would support the committee recommendation of Inexpedient to Legislate. Thank you, Mister President.

The question is on the adoption of the motion of Inexpedient to Legislate. Adopted.

SB 112, establishing a council on the creative economy.
Ought to Pass, Vote 4-1. Senator Birdsell for the committee.

SENATOR BIRDSELL: Thank you, Mister President. I move Senate Bill 112 Ought to Pass. This bill establishes a council on the creative economy whose duty it will be to identify ways to develop, strengthen and promote the creative economy through partnerships and joint programming initiatives. This will include coordination between state agencies when seeking federal or private funding in support of the creative economy. Furthermore the council will be able to analyze related data in order to have a greater understanding of the role it plays with the economy of the state. This is a pro-business, pro-economic initiative that will benefit all of New Hampshire citizens around the state. Therefore, I ask that you support the committee's recommendation of Ought to Pass. Thank you, Mister President.

Senator Birdsell offered a Floor Amendment.

Sen. Birdsell, Dist 19
December 19, 2017
2018-0009s
05/10

Floor Amendment to SB 112

Amend the bill by replacing section 1 with the following:

1 New Section; Department of Natural and Cultural Resources; Council on the Creative Economy. Amend RSA 12-A by inserting after section 10-m the following new section:

12-A:10-n Council on the Creative Economy Established.

I. There is established a council on the creative economy.

II. The council shall consist of the following members:

(a) The commissioner of the department of natural and cultural resources, or designee.

(b) The commissioner of the department of business and economic affairs, or designee.

(c) The director of arts, department of natural and cultural resources, or designee.

(d) The director of travel and tourism development, department of business and economic affairs, or designee.

(e) The commissioner of the department of education, or designee.

(f) The commissioner of the department of health and human services, or designee.

III. The council shall:

(a) Identify ways to develop, strengthen, and promote the creative economy through partnerships and joint programming initiatives.

(b) Develop coordination between state agencies when seeking federal or private funding in support of the creative economy.

(c) Review and analyze data related to the creative economy in order to have a greater understanding of the role the creative economy plays with regard to the overall economy of the state.

(d) Pursue such studies and joint initiatives as the council deems appropriate to strengthen and promote the creative economy in the state of New Hampshire.

(e) Solicit information and testimony from such agencies, individuals, and organizations as may assist the council in the performance of its duties.

IV. The members of the council shall elect a chairperson from among the members. The first meeting of the council shall be called by the commissioner of the department of natural and cultural resources, or the commissioner's designee. The first meeting of the council shall be held within 45 days of the effective date of this section. Three members of the council shall constitute a quorum.

V. Beginning November 1, 2018, and each November 1 thereafter, the council shall report its findings and any recommendations for proposed legislation to the speaker of the house of representatives, the president of the senate, the house clerk, the senate clerk, the governor, and the state library.

SENATOR BIRDSELL: Thank you, Mister President. This amendment does three things; because this was a re-referred bill, we had to change the November date of November 1, 2017 to November 1, 2018 on a report date. We also updated the name instead of DRED is the Commissioner of the Department of Business and Economic Affairs and then we also added a Director of Arts Department in natural and Cultural Resources as a designee. So with that Mister President, I ask for your support on amendment 2018-0009s.

The question is on the adoption of the Floor Amendment. Adopted.

(The Chair recognized Senator Fuller Clark.)

SENATOR FULLER CLARK: Thank you very much, Mister President. I rise in support of the committee's recommendation of Ought to Pass as Amended on Senate Bill 112. This bill is the result of the work of the commission to study the economic impact of arts and culture in New Hampshire. It will ensure communication and the exchange of ideas and policies among the relevant agencies listed in the bill and in order to further promote and strengthen arts and culture as a significant economic driver in the state of New Hampshire, and I would like to thank the committee for the work and the time that they put into moving this bill forward. Thank you.

The question is on the adoption of the motion of Ought to Pass with Amendment.

A roll call was requested by Senator Avard, seconded by Senator Giuda.

The following Senators voted Yes: Woodburn, Giuda, Bradley, Watters, Gray, French, Ward, Kahn, Avard, Lasky, Carson, Feltes, Cavanaugh, Reagan, Soucy, Birdsell, D'Allesandro, Fuller Clark, Gannon, Innis, Morse.

The following Senators voted No: Sanborn, Daniels.

The following Senators were excused: Hennessey.

Roll Call, Yeas: 21 - Nays: 2. Adopted, bill ordered to Third Reading.

HB 372, relative to construction of the terms "resident," "inhabitant," "residence," and "residency."
Ought to Pass with Amendment, Vote 3-2. Senator Birdsell for the committee.

Election Law and Internal Affairs
November 30, 2017
2017-2536s
03/04

Amendment to HB 372

Amend the bill by replacing all after the enacting clause with the following:

1 Purpose. New Hampshire's constitution uses the terms "domicile," "residence," "resident," and "inhabitant" to recognize or establish specific rights and responsibilities. New Hampshire's supreme court has construed the statutory definitions for these terms to create different meanings for the terms residence and domicile. Therefore, under current law, a person who is not a resident of New Hampshire can vote and hold public office in New Hampshire. A nonresident voter or office holder is not subject to the responsibilities imposed on voters and public office holders who are residents of New Hampshire. The statutory definitions for these terms, other than the inclusion of a requirement that a resident has manifested an intent to remain in New Hampshire for the indefinite future, are substantially the same. Laws that permit a nonresident to vote and hold public office are confusing and contradict the basic premise of government of the people, by the people, and for the people. As amended by the general court and construed by the courts, these terms create different classes of voters, those subject to the obligations imposed on residents and those that are not. The use of the terms has evolved away from the plain meaning of these words. The general court has determined that all similarly situated people should be treated equally, sharing equally in rights and responsibilities. Accordingly, the terms residence, domicile, and inhabitant shall have the same meaning for all purposes in statute, unless the law explicitly establishes a different meaning for a specific limited purpose. A person must be a resident of New Hampshire to vote or hold office in New Hampshire.

2 Statutory Construction; Resident; Inhabitant. Amend RSA 21:6 and 21:6-a to read as follows:

21:6 Resident; Inhabitant. A resident or inhabitant or both of this state and of any city, town or other political subdivision of this state shall be a person who is domiciled [~~or has a place of abode or both~~] in this state and in any city, town**,** or other political subdivision of this state, and who has, through all of his ***or her*** actions, demonstrated a

current intent to designate that [~~place of abode~~] ***domicile*** as his ***or her*** principal place of physical presence [~~for the indefinite future~~] to the exclusion of all others.

21:6-a Residence. Residence or residency shall mean a person's place of [~~abode or~~] domicile. [~~The~~] ***This*** place of abode or domicile [~~is~~] ***must be*** that [~~designated by a person~~] ***place the person has, through all of his or her actions, demonstrated a current intent to designate*** as his ***or her*** principal place of physical presence [~~for the indefinite future~~] to the exclusion of all others. Such residence or residency shall not be interrupted or lost by a temporary absence from it, if there is an intent to return to such residence or residency [~~as the principal place of physical presence~~].

3 New Section; Severability. Amend RSA 654 by inserting after section 46 the following new section:

654:47 Severability. If any provision within this statutory chapter, or if any penalty associated with any provision within this statutory chapter, is held invalid, in whole or in part, either on its face or as applied to any person or circumstance, the invalidity shall not affect any other provisions or applications of this statutory chapter that can be given effect without the invalid provisions, and to this end, the provisions of this statutory chapter shall be severable.

4 Effective Date. This act shall take effect 60 days after its passage.

SENATOR BIRDSELL: Thank you, Mister President. I move HB 372 Ought to Pass with Amendment. The committee amendment replaces the original bill in its entirety. It modifies the definitions of resident or inhabitant and residence or residency to require that a person be a resident of New Hampshire in order to vote or hold office in the state. The terms residence, domicile, and inhabitant will now have the same meaning for all purposes in the statute and in this statute only. This will create consistency and clarity going forward and bring us in line with our surrounding states of Vermont, Massachusetts and Maine. We owe it to the people of New Hampshire to have complete confidence in our voting system.

HB 372 as amended will bring further integrity to our elections without preventing anyone from voting who can already legally do so. It establishes where a person votes, not who may or may not vote. Voter registration and identification obligations remain unchanged in this legislation. Anyone who voted in 2016 will continue to be allowed to vote in 2018. I have worked with our states top election officials in the secretary of state's office and they want this legislation because it would simplify and clarify New Hampshire's voting laws. I ask for your support for the motion of Ought to Pass with Amendment. Thank you, Mister President, and I ask for a roll call.

(The Chair recognized Senator Soucy.)

SENATOR SOUCY: Thank you, Mister President. Mister President, I rise in opposition to the committee amendment and I do so for a number of reasons. The most fundamental reason is because our constitution, the bill of rights portion, part 1st Article 11 states that all elections are to be free and every inhabitant of the state of eighteen years of age and upwards shall, shall have an equal right to vote in any election. And I feel that this legislation is like other pieces we've considered lately, where we're giving people pause, we're making people hesitate, we're giving them concern about exercising what is their fundamental constitutional right. And how are we doing so? Well, we're doing so in this amendment,

I think, by creating potentially some unintended consequences. We're doing so because we're not just looking at where somebody is a resident or where they actually live with respect to the voting laws. If we were doing that we would only be amending the voting laws.

But instead, what this amendment seeks to do is to amend the statutory construction portion of our laws in RSA 21, which affects everything; which affects all laws that use the word resident or domicile. When this hearing was originally held the representative of the attorney general's office said beware of unintended consequences. I think there are a lot of unintended consequences that we have yet to realize with the amendment that is before us right now. You know I keep asking myself, what is it that we're trying to fix? What is it that we're trying to solve? If there is concern about our electoral process, we have laws on the books to deal with any problems of people seeking to register that shouldn't. Those exist today and yet we keep chasing after this myth, this fiction, that somehow there are people registering to vote in New Hampshire that shouldn't. Really, really for the life of me can't understand why something as fundamental as a constitutional right we feel the need to fiddle with year after year after year.

You know what is a primary concern is that this law and some people have called it a tax, well it is to the extent that if somebody registers to vote in New Hampshire, this amendment would require them within sixty days of that initial registration to register their motor vehicle. Well, that costs a lot of money, that is imposing a cost on someone simply for exercising their constitutional right, and that my friends is a concern, that my friends is a serious problem. And I guess I'm wondering why we're dealing with this now when in fact we just passed last year Senate Bill 3. Many of you recall Senate Bill 3 made some changes to how people register to vote. Well, Senate Bill 3 had some problems as well, and for that reason there is currently litigation pending on Senate Bill 3. One of the orders that came forward and I just want to read a brief portion: Regarding Senate Bill 3 the judge said under the plain language of the statute, it appears that such a voter will be subject to a $5,000 fine or even a year in jail for simply failing to return paperwork. The state's argument at the hearing today that these harsh penalties would be saved by prosecutorial discretion, was unconvincing to say the least. The average voter seeking to register for the first time very well may decide that casting a vote is not worth the possible $5,000 fine, a year in jail or throwing him or herself at the mercy of the prosecutor's discretion. For the court to accord these provisions of Senate Bill 3 act as a very serious deterrent to the right to vote, and if there is indeed a compelling need for them, the court has yet to see it. So therefore the court finds in any event any voter fails to provide documentation as required by this section. The defendants are enjoined from seeking any civil or criminal penalties. The courts, we haven't even convinced them on the previous bill, that we have a reason to treat people exercising their constitutional right in this manner. Once again, I have to emphasize, we're searching for, we're creating solutions to problems that don't exist, to myths. We have in our election laws a process that is viewed by people from around the world. We have the first in the nation primary. Our elections have integrity. The secretary of state's office runs smooth, fair, open elections now. Why do we need to continually put up these deterrents and these barriers to people be they young or old or be they people who moved here two weeks ago or be they people who intend to stay here for two years or for twenty? What are we so afraid of? Why do we need to continue

to put up these barriers? I ask you, my friends, please, please seriously consider the impact to those new residents of our state who want to exercise their rights and please vote against this motion. Thank you so much, Mister President.

(The Chair recognized Senator Watters.)

SENATOR WATTERS: Thank you, Mister President. I rise in defense of the constitutions of the state of New Hampshire and hope in the spirit of John Adams 1787, defense of the constitution of the United States, to make a conservative Republican defense of the constitutions of New Hampshire. As Adams noted, a conservative defense approaches changes to the liberties of the people only with a trepidatious necessity and recognizes that it is a Republican process that best protects the liberties of the people through balanced constitutional process. That's why the voting qualifications for voting in the constitutions of New Hampshire, whether it's from 1776, 1784, 1792, through the nineteenth century amendments, and most notably respecting qualifications to vote in 1903, 1958, 1968, the constitutional convention of 1974 and the amendment on voting rights and domicile and taxation related to voting rights which passed in 1976 always recognized that the constitutional Republican defense of our liberty should be protected by the amendment process, not through bills like 372. Look explicitly at how our founders treated qualifications to vote in the constitution of 1776 and then in 1784. Article 11, as has been noted; all elections are to be free and every inhabitant of the state having proper qualifications has equal right to elect and be elected to office. Now they put that notion of equal right of inhabitants in the Bill of Rights. They dealt with the qualifications however where it is applied to actual elections so it's actually in the elections for Senate that we have in 1784 that you have that right to vote in the town or parish wherein he dwells and every person qualified as the constitution provides shall be considered an inhabitant for the person of electing and being elected into any office or place within the state and that town, parish and plantation where he dwelleth and hath his home. And that's what becomes his domicile in 1976. So there are the words; inhabitant, dwelleth and domicile. Why these words, why are they seen as the core of the protection of the equal qualification to vote? There's some history to this and why New Hampshire went this way in 1776 and 1784. It goes back to the Massachusetts body of liberties which governed New Hampshire in the 1630s when voting required both property and church membership. That's why John Wheelwright was stripped of his political rights by reason of his free speech, he was expelled from his church, he was imprisoned and then he escaped to New Hampshire when he founded Exeter he made pretty darn sure that principles of liberty would be defended and not qualified by church.

So too in Dover in 1638, it's why John Underhill, another one driven from Massachusetts drove out the minister with a book of common prayer at the end of the halberd so that church qualifications would not be used to exclude people from the right to vote, and that's why our charter of 1689, very interesting removes these qualifications for the first time. And then property too was seen as a limitation that needed to be separated from the habitation, from domicile and from dwelling. This is because they looked at that history of England, where citizenship had been constrained by serfdom; that you only existed under the identity of your lord who owned the property and in a sense owned you. And surely this is a decision under the head of the king. That's where your rights

were controlled, and that reeked of serfdom. People in New Hampshire wanted to own land and be simple. New Hampshire's resistance to Governor Andrews in 1689 was over this notion of property. Property and citizenship therefore were explicitly separated when Jefferson wrote those words, life liberty and pursuit of happiness as inalienable rights. Now notice you had to change Locke's source for that from life, liberty and property because property couldn't be an inalienable right because you didn't want slaves to have an inalienable right in the property of their own bodies, nor did you want women to have inalienable rights of property in their bodies and therefore the right to vote because their identity would be owned and covered first by their father and then by their husband. It took 150 years to deal with that problem, but it was recognized by Jefferson in those words as necessitating a separation from the rights of citizenship and voting from property. And this is why the revolution first came to New Hampshire in 1774, when Winthrop took a boat and went to the Isles of Shoals and we were left without a government. Now some of the fury at Wentworth had been because there was a plan in London to create landed country estates in America and tie identity and create serfdom here, that's why he built his seat of government in Wolfeboro; that was going to be where one of those great noble landed estates would be. And there was a particular resentment against this, this was some of the reading why we have this careful choice of wording in our constitution; inhabitant, domicile, dweller particularly dwelling, that old Anglo-Saxon word dwelling, King Alfred said that our life is impermanent, it's not a permanent place, it's like a sparrow who flies out of the dark into the mead hall in the bright light and flies out the other window into the darkness again. Nothing is permanent about our residence and this is meant to emphasize then that the rights defining these terms they use in the constitution are separated from a kind of permanence, inhabitance, a property right that is implied and sealed by taxation and registration in 372. Now these are complicated constitutional issues and I think that's of course why they should be done by constitutional amendment, not in this bill.

There are some men in black in Washington who think by constitutional necromancy they can recall the revivify the minds of the founders, but really the best we can do to get to the meanings of inhabitant, dwelling place and domicile is to look to the first American Dictionary by Noah Webster in 1828. He created it as he had his earlier grammatical institutes to the American language in 1792 because he thought, we needed a language that was American language that reflected American democracy and those are the meanings of the words that we should have. And you can look what he did with these words. He's very particular; dwell, dwelling house, the place of residence, the house where one lives, to abide as a permanent resident or to inhabit for a time. To live in a place, have habitation for some time or permanence, dwell imports some continuance. We use abide for the resting of a night or hour but we never say he dwelt in a place for a day or night, dwell may signify a residence for a life or for a much shorter period but not a day. The scripture denotes a residence is seven days during the feast of tabernacles. Now you know how dictionaries sometimes loop around, he mentions residence there. Well he wanted to make sure when he defined residence that this notion of not necessarily permanent connection to place that is serfdom and property would be excluded. So he says residence; or the act of a body of dwelling in a place for some continuance of a time as a residence of an American in France or Italy for a year; maybe a student on you know

overseas education. They wanted then a dwelling and a habitation and residence to allow for this kind of citizenship based on the equal rights to vote. They did not want serfdom. When Webster defines serf he says a servant or a slave employed in husbandry in sub countries attached to the soil and transferred with it. The serfs in Poland are slaves. Well, this is why this language matters in our constitution. This is why this debate matters, so in short what we'll do today does have profound constitutional implications and I really think that this kind of change should be accomplished if at all, through constitutional amendment as was done in 1976 when domicile replaced half his dwelling place. Town or ward where he is domiciled. Now you can look at the con con debates in the journal of 1974 and they talked a lot about domicile and there was some sense that you know confusions are mentioned that domicile might be more permanent than resident in particular ways but Delegate Hall said, domicile and the word residence in that context would be considered synonymous by our courts in reference to voting. And habitation does have a more restrictive meaning though it would not apply to the election laws I speak specifically to the point of citizenship. And in particular they said in the documents word domicile we do not mean to attach it to taxation. This is why the constitutional convention the same time that it made this change took out the notion that you could be prevented from voting because you did not pay your taxes. See they saw it, they saw it. You cannot restrict that equal right of voting and being domiciled by property or any kind of restriction of property. So here's where we are with that. I think that it should be by constitutional amendment, I think it's very clear whether domicile, residence or inhabitant that the founders knew what they were doing, we ought to be conservative and recognize that Republican purpose.

But I do want to mention one other function of elections and their openness that John Adams pointed to in 1787 as a great defense of our liberties. He said elections are the best possible schools of political art and address. What may appeal to any man who with equal experience in election and in courts meaning royal courts, whether address and art and even real political knowledge is not to be acquired more easily and in a shorter time in the former elections than in the latter. The King of France was asked his most able and honest ambassador to cite where he had learned that wonderful dexterity in which he would penetrate in the bosoms of men of all nations and characters unravel every plate and human soul and every intricacy of affairs and events, the cardinal answered, sire I learned it all in my youth at the election of a parish officer. It's a common observation Adams says, in England, that their greatest statement and their favorite chatter among the rest were formed by attendance on elections. What better means of promoting citizenship and residence in our state but through education in elections. And so I conclude Mister President, if elections are the fundamental actions and education of citizenship, to make those so domiciled, ensured of equal qualification as citizens then those who would join me as conservative Republicans in defense of our constitutions and our precious liberties would vote no on 372. Thank you, Mister President.

(The Chair recognized Senator Sanborn.)

SENATOR SANBORN: Thank you, Mister President. Mister President I rise obviously in support of the bill and I listened to one of my colleagues from District 18 said in her remarks, what are we trying to fix, what are we trying to solve? We're trying to fix trust, we're trying to fix accuracy,

we're trying to fix the belief that your vote counts. Every one of us in our election process, every one of us who go out to vote every single year wants to make sure that our vote counts. Now sure for some people in this room and for some people across the hall, the governor, whoever, they could be winning or losing by hundreds if not thousands of votes. But what if it's one vote? What if we were in Virginia today? There's some of you may have been watching what's happened down in the Commonwealth that the vote for control of the body for complete control of the body first came down to one vote and then with an additional recount it went back to zero, and then control of the body's going to be based upon the flip of a coin, which some might suggest isn't even a vote. In this state on a regular basis we see elections that come down to who wins and who loses by single digits. Now I don't remember any case where control of the body has gone to a flip of the coin, like what happened a couple of weeks ago in Virginia, but people want to know that their vote counts. And we know people are very concerned about that. We know overwhelmingly if you talk to people who go to the vote that's their issue. Of course people want to be able to vote, this bill doesn't change that, as the chair of the committee had said. If you voted in 2016 you get to vote in 2018. Same thing with Senate Bill 3. You know we hear from the secretary of state, all of us believe that our elections are as good as they possibly can, but the secretary of state himself has said we have a trust issue in our state and we need to fix that. Because we need to make sure that every vote counts. Now I hear some arguments against this bill Mister President, where some would suggest well, you know if you're going to vote in our state some people would suggest that you have to go register your car that there's a poll tax, and that's obviously as the Senator from District 4 had said something we don't want to see or don't want to do. But if you own a car in the state of New Hampshire and you vote and you have to register that car, I assume Mister President, if you lived in Massachusetts, Vermont, Maine, Connecticut or all the other states we have, you'd have to register your car there too. So I'm not sure that the argument of owning a car and having to register it in the state that you live can be equated to a poll tax. So, in the hearing, in the testimony it was brought to our attention that this bill does a simple thing; it responds to the State Supreme Court who said they didn't like four words, for an indefinite period. But the State Supreme Court when looking at a case said they felt it was confusing and they asked us to remove that. That's what this bill does. I understand every time we use the word vote or access to polls or anything within this body it can be a very emotionally charged experience. Both sides of the political spectrum, some thinks it works some thinks it doesn't some thinks it's trying to limit, other people think it doesn't limit enough. But this bill isn't that fight. This bill is defining for an indefinite period as a request of the Supreme Court. Mister President, we all love great political debate, we've had a lot and a large one on this bill both in committee, on this floor and in the general public. But I would submit to you that all we are trying to do is comply with the State Supreme Court, and all the Election Law Committee is trying to do every day is to guarantee to the people of this state that their vote counts as we can determine the future of our state by one vote. I ask the members of this committee to support this bill and we'll get on with our business. Thank you, Mister President. And by the way Mister President, I vote and therefore may have an ethics conflict so I'm going to declare, I'm still going to participate. Thank you very much.

(The Chair recognized Senator D'Allesandro.)

SENATOR D'ALLESANDRO: Thank you, Mister President. First let me applaud the eloquence of the Senator from District 4. He gave us a significant history lesson. Thank you very much, I thought it was magnificent. I'm going to try to talk to my colleagues as an old civics teacher. I began teaching civics in 1961 at Kennett High School in Conway, New Hampshire. Now obviously somebody listened to me because the Speaker of the House was one of my students. The secretary of state was one of my students, and I think I have a number of them floating around this state. But let me talk to you as a civics teacher and how the real reason citizens participate is the right to vote and the obligation to vote. We have an obligation to vote. We don't exercise that obligation very well. We have a terrible percentage of people who vote, we're among the lowest in the civilized world, the lowest percentage. People don't come out to vote and yet we instruct them. Now as our country evolved we didn't think women were good enough to vote. We had to amend the constitution to get women to vote. In New Hampshire we had a woman run for Governor who didn't have the right to vote; in New Hampshire. She exercised what she perceived of was her constitutional right, ran for election without the right to vote for herself. One vote does count, she might have won by one, if the law had allowed her to vote. I was in the Constitutional Convention in 1974. I served on the Bill of Rights Committee, that's when the Senator from District 3 had dark hair. That's a long, long time ago. A long, long time ago. So I say to you, let's look at the history of our country when it comes to voting. Initially you had to own property to vote. You even counted people as your property, because we had the three-fifths compromise. We said that three minorities, three blacks, constituted for one white and we compromised and you got a vote. Now what would we think of in today's world if we did something like that? What would we think of? Inhumane, certainly not acceptable, but we did it.

Then we said women weren't good enough to vote, so we eliminated them, so you had to own land, we did the three-fifths compromise and we eliminated women from the process. So we've gone through a series of changes, a series of changes and we talk about open and free elections. Well we had to pass the Civil Rights Act to get that done. Can we get the Civil Rights Act to pass in Congress now that we got in 1964? I don't think so, and New Hampshire has been under scrutiny for a number of years for our voting practices, discriminatory practices. So why do we discriminate more? We are perceived of as the best place in the country to live, it's the best place in the country to raise your children. We have the healthiest situation in the world; we want people to come here. And when they come here, we want them to participate in the process, in the process of voting. That's a fundamental right; it's something that gives us something to be very, very proud of. Hey, we're all equal; the billionaire, the individual worker in the shoe shop in Manchester, we all have one vote, we pride ourselves on that, and yet we have repeatedly tried to deny people the one thing that makes us equal; the right to vote, the right to participate in the process. I've been in the process for a long time. I have encouraged my students, you've got to vote, you've got to participate, because the result will determine your future. So why year after year after year do we try to compress the right to vote, rather than expand the right to vote? Why do we do that? I don't understand it. I just can't understand it. We had the head and poll tax when I first started voting in New Hampshire. I think it was $10. I had to pay the poll tax so that I could vote in Manchester, New Hampshire. We did away with that. Why? Because we

said it was discriminatory right? You had to pay to vote? That's awful. So we did away with that. So look at the good things we have done in New Hampshire. We got women the right to vote, you don't have to own property to vote, you don't have to pay a head and poll tax to vote. Why do we discriminate? Why? Our goal as public officials should be to get 100 percent of those who are eligible to vote, to vote. That, to me, that's what we should be doing; we should be encouraging people. And I will continue to do that as a teacher, a fundamental teacher. People should be participating in the process and we shouldn't discriminate. That in essence is why we're all here. Thank you, Mister President.

(The Chair recognized Senator Woodburn.)

SENATOR WOODBURN: Thank you, Mister President. I can't compete with the clarity and the logic of the Senator from Manchester or the compelling linguistic history of the Senator from Dover or the eloquence of the great civics teacher from Manchester, but I hope to bring this issue to home, bring it to a place where we can understand what the true meaning of domicile and residence is. Mister President, I woke up yesterday morning, January 2 in Whitefield, New Hampshire, my home town was the coldest place in the continental United States. Whitefield is famous for its frigidity and my home, I should say my grandfather's home, sits down in the lowest part of town and I tell you it was forty below zero and I got a picture Mister President, I'll show it to you if you don't believe me. Forty below zero, that's cold. But I've always felt in the town of Whitefield, in that tight little common where I, my history and my family go back many years. The warmth of that community, the warmth of that hand in that cold, cold house yesterday morning, always warmed my heart and quite frankly always warmed my grandfather's. My grandfather grew up in the Webster House Orphanage. The first peck of affection came when he was adopted by Mr. Woodburn and Mrs. Woodburn. And unfortunately she died a few years later and he was returned to the orphanage and in 1948 he found this home and this home settled his nerves and gave him roots that he never had. And I have that same feeling about my home town. I always had an interest in politics and this town conspired to support my interest and involvement. I was invited to be a ballot clerk, vote, count election night results before I was old enough to vote, and at eighteen I became a supervisor of the checklist so I could register kids to vote. A little while later I was elected to the Constitutional Convention, came to Concord represent my community. And all this while people who didn't agree with me, who thought my ideas were impractical, conservative Republicans like Harold Burns who held this seat and who I had the bad judgment of running against, but he fixed me by beating me and remained my friend all his life and a mentor. I wish those days were still with us. And as a civics teacher I wanted my students to believe in democracy. But more important I want them to participate in democracy, to care enough about the rules of the game to participate. But the notion of domicile is something that I think is lost in our society today. The origins of those words, domicile has an origin, where you come from matters, substantial connection in other word use, substantial connection to place, to land, our agrarian Jefferson notion. Residency is where you put your head down, domicile is where you put your roots down. It's a difference between a home and a house. It's hard to understand our modern transient nearly nomadic world, where people don't even know the names of their great-grandparents, not to mention their stories. I wonder how they get through the tough times if you don't know where your family was and how they overcome their challenges.

Our country was formed with the spiritual connection to the land, yet today, the last three years I've live in my ancestral home, I've owned it for seventeen years and I've lived there for three. And I want to basically ask, I'll give you two stories, two people. The first is my son, my son John, who is twenty-three years old and between him, between his mother and myself, we've moved around a lot. Thirteen homes before he turned twenty-three, but through sixteen of those years the Woodburn house, my grandparents' house was the only solid thing, building in his home, since he was a little kid, was the place that we went to, place we had historical connections to. And in 2016 he got interested in politics, never was interested when his father was running but got interested in Bernie Sanders for some reason and registered to vote in his, where he was going to college. Now I wish he would have registered in Whitefield, I would have had a better story to tell you, but he chose to do that in spite of that long connection he chose to participate in the democracy, in the college town that he was living in in Pennsylvania. And I want to tell you another story, and I'm not going to tell you the name because I want to protect her but trust me it's a good source. A hundred year old woman grew up in the neighboring town of Lancaster, family deeply rooted in the community and the history of her town, known as a local historian correspondence and really an amazing, amazing woman. And come to the point where she couldn't live at home and she moved to Whitefield to be in a nursing home and for her, I don't know if people can understand this today, the idea of becoming a resident, or becoming engaged in a different community than the one you have deep, deep roots is very troubling and difficult. And I talked to the supervisor of the checklist; I said did you take her name off? He said, of course not, we wouldn't take her name off the checklist, she's been here all her life, family's been here all her life. So how did we measure who should make this decision; where one chooses to vote in terms of the domicile, their connection to their property to their place, the place where they come from? Now I would just ask you if domicile is the same reason why I spent money that I don't have to fix a ceiling in my grandparents' house because for sixty years friends and relatives wrote their name on the ceiling and I got stuck having to fix it because I couldn't let it fall down. And it's the same reason that I keep that old rhubarb patch out back behind the barn, because my grandfather planted that. That's domicile. This world, this transient world where people are moving all the time, don't forget, these things matter. Maybe more to rural people than other folks but these things matter and let's not rip up the history that Senator Watters talked about and how people are connected to their communities to their places and let them be the determination of their success. Now this is just a sly cynical political ploy to stop progress from happening, to keep young people away from our democracy by placing a de facto poll tax. It's a ruse built on the notion, the myth made by Governor Sununu that there were buses of people coming into New Hampshire and voting and then picked up and expanded by President Trump who claims that he won New Hampshire because of massive voter fraud. New Hampshire does democracy better than any place in the world, and our first in the nation primary is a beacon of hope that we do it right in the local little hamlets of New Hampshire, from Dixville throughout the rest of the state of New Hampshire, we do democracy right here, and it's locally driven and we need to cherish our values, cherish our traditions and don't just throw this thing out. Let's vote this thing down, let's do the right thing. Thank you very much, Mister President.

(The Chair recognized Senator Gray.)

SENATOR GRAY: Thank you, Mister President. One of the things that I find interesting being in the Senate is the imagination that it takes. One of the things that we have to do is when we disagree with things we have to figure out a reason why. Taking some of the notes that I did today, we talked about article 11 in the State Constitution and talking about the elections should be free and open was also referred to by one of the other speakers. But there's a second sentence in that that the original speaker didn't bother. The first one: "All elections are to be free, and every inhabitant of the state 18 years of age and upwards shall have an equal right to vote in any election." Period. The second sentence is: "Every person shall be considered an inhabitant for the purposes of voting in the town, ward or unincorporated place where he has his domicile."

When you look at that, that second part of that part of the Constitution is very important. You can't just be there, going back to what the good Senator from District 1 said. You can't just show up one night as the good Senator from District 4 said. You have to establish your domicile, but what does that mean? Well, one of the things that we've heard about, and I receive many phone calls on, is students. Students can't vote if we pass this. Well, again I go back to the election law book I mean we need not everyone's got one of these but all of this is in the RSAs and I'm looking at RSA 654:1. And the title of that is Voters/Office Holders and if I look at sub-paragraph 1 of that it specifically talks to students. A student of any institution of learning may lawfully claim domicile for voting purposes in New Hampshire, in the New Hampshire town, city which he or she lives while attending such institution of learning if the student claims domicile, if their claim of domicile otherwise meets the requirements of the RSA above. So okay. RSA specifically tells them they can claim domicile. Interesting.

So, what do we do then? Well we talk about auto registration. Why auto registration, because it could be very expensive can't it? We have a tax on auto registration. I don't know about you but all the time my children were going to school, whether in state or out of state, cars were registered in my name. Kids couldn't afford them, but no matter what state that car had to be registered, but no matter what state if they had a driver's license and they wanted to maintain that driver's license, they had to have a driver's license.

Now when we look at the bill, the bill, in section 2 of the bill talks about resident, inhabitant and residence or residency. And it specifically talks about one of the items that are in the *Goud* decision, and that is the permanence, okay. It's that the current law and those words are crossed out. If you look at 21:6-a and let me find it, "for the indefinite future" which are the words that the court took exception to and said, yes there is a difference between domicile and residency and if there is a difference that's why you can't put that paragraph on the voter registration form; at least that's the way I interpret what they say. So, one of the things that we did was just say okay, we can take those words out. We can make residence or residency and domicile and inhabitant, and those words have a much closer definition. But remember the things that we've heard in all of the phone calls, all of the other things that we've talked about is it's going to stop students from voting. It's not going to stop students from voting; they can claim their domicile. RSA 654:1, subparagraph I-a. It's right there. It's not going to stop them.

The military, I haven't figured out yet how the military got involved in this. Maybe if we go back and say well gee, under SB 3 which people are talking about, which is really a smoke screen; it's…we'll go find something they really hate, and we'll say that it affects that, or that affects this bill. That's not the case. It doesn't affect the military at all. The one person that did call me up early in this process said to me, well you know, I change duty stations a lot and because of that I don't spend amount of time in one particular place or another and so I need, you know, residency. I said well this bill doesn't have anything to do with residency. Doesn't have anything that would affect a military person that wouldn't affect a regular person. In fact, there are special laws in the federal level that would make sure that that person can vote. Military person overseas, they can vote by email. Wow, that's a thing a lot of people don't know about.

So, half of the conversation from two of our speakers I thought was actually speaking on our side. Domicile, yes, we believe that domicile is a special place. It is a place where you participate, where you choose to participate. And the word choose, that's another word that I want to go back to the definition too. Says, again, reading through it, "demonstrates a current intent to designate as his or her," and the same thing in the paragraph above. Who is the one that's choosing New Hampshire? It's that person who decides they want to vote here. They are telling us that they want too. We should respect their decision but remember this is the government of the people by the people and for the people. If they are going to participate they should participate. Thank you.

(The Chair recognized Senator Kahn.)

SENATOR KAHN: Thank you, Mister President. I rise because I think we create ambiguities in some of our definitions. I feel that here we're creating more ambiguity than we're creating clarity. It's around the words of "through all his or her actions." "All his or her actions."

So, I want to set up a scenario for you and this has to do with a college student. And that college student is dependent on financial aid as to where they attend school. Financial aid, fast of forms, many of you have filled them out. You know that it's dependent on a parental income. A parent has to claim that student on that form on their income tax. Perfectly legal, they can do that. Through all his or her actions, is that student now, because they haven't become emancipated from their parents, that their parents are in some way still contributing to their college education? But now they come to a college in New Hampshire. In fact, most of the students that attend colleges in New Hampshire are coming from out of state; and what do we say to that student when he comes? Every college president that I know, and I know a lot, everyone will say, first day that they come to the campus, you are now a member of this community. We expect you to participate in this community, abide by the laws of this community, participate and become active citizens and engaged in your community. Those are the high principles that we try to establish. That's how you maintain balance and order and commitment to a place. That student has made a commitment to that place. They have established where they want to be, and that commitment forms.

One of the great attractions of New Hampshire is as many have said today, it's that we are so politically aware. It's that we encourage political participation; candidates to come here, the first in the nation primary, this is an exciting place to live. It's an exciting place to participate. I

can think of so many out-of-state students who've been in my life, who continue to be in my life, who are now residents and contributing to schools as teachers, principals, in the hospitals as nurses, in the banks as banking managers, in an insurance company, in a wholesale grocery company. These are the people who made a commitment when they were eighteen, yeah at sixteen they got a driver's license, at eighteen they made a commitment: I'm going to school; and along that path they said, you know, I've bought in. The commitment I'm making to this campus, to this community, to this state is something I want to validate and demonstrate through my ability to vote in this state, which we've said exists.

It's the ambiguities we've set up that challenge whether am I or am I not. And I believe that in this bill with those few words through all of his or her actions, we're setting up more ambiguity. I think we can do better. I don't think this is the right time and the right way in which to clarify voting rights. I don't think it does that and I will certainly encourage my colleagues to vote against it.

(The Chair recognized Senator Birdsell.)

SENATOR BIRDSELL: Thank you, Mister President. I have to agree with the Senator from District 10 that when people come here, they become a part of the community, which is why I put this bill in. Based on the *Goyard* decision, the *Goyard* decision made a two-tier system. We have tier one: that is non-resident, domiciled, eligible to vote, and hold office. You have tier two: who is a resident, who is also domiciled, who is eligible to vote, and hold office. But the tier two, the resident, is the only one that is going to be required to live under the, live by the laws of New Hampshire.

So, for me we have a have and a have not system, and if you consider the fact that registering your car is considered a poll tax, then am I being told that only residents have to pay a poll tax? That is a ridiculous argument as far as I'm concerned. This is not equality under the law.

And based on the info from the secretary of state, the more our election system is clarified, the more participation we show in this state. Our participation rate has substantially increased over the years because of our clarifying of our laws and when you talk about voter fraud, do I believe in voter fraud? I don't know, but I do know that the secretary of state is in the process of looking into potentially several hundred individuals with the same name voting in two different locations on the same election. So, for me clarification is very important. I think SB 372 does that and I ask my colleagues for their support. Thank you, Mister President.

(The Chair recognized Senator Feltes.)

SENATOR FELTES: Thank you, Mister President. Mister President, I know everybody wants to go to lunch and we've beaten this up pretty good, but I just wanted to respond to two words and themes that came up. One is trust and one is imagination.

Imagination: I don't think you need to be Thurgood Marshal to imagine the constitutional lawsuit that's going to come if this bill is passed and is signed by Governor Sununu. And I don't see a fiscal note on the bill, but just like Senate Bill 3, our resources at the attorney general's office are going to defending Senate Bill 3 and they're going to be going to defend this bill too, when shouldn't those resources be dedicated to investigating allegations of potential voter fraud or enforcing our existing election

laws, lobbying laws and campaign finance laws? I think that's where our resources should go. Don't see a fiscal note, we know it's coming, you don't have to imagine it, there is a credible plan.

Trust: I trust the City Clerk in Concord. I trust the election workers in Concord, Hopkinton, Henniker and Warner. I trust our local poll workers. I trust the hundreds of people around our state who volunteer their time on Election Day to make this the best democracy on the planet. I trust them. And you know what? The rankings have us as one of the cleanest, best run elections in the country. I trust the process and I trust our democracy. So let's not do this, let's have trust and faith in the people who implement our democracy and do it in such a good way. Thank you, Mister President.

The question is on the adoption of the Committee Amendment.

A roll call was requested by Senator Birdsell, seconded by Senator Sanborn.

The following Senators voted Yes: Giuda, Bradley, Gray, French, Ward, Sanborn, Daniels, Avard, Carson, Reagan, Birdsell, Gannon, Innis, Morse.

The following Senators voted No: Woodburn, Watters, Kahn, Lasky, Feltes, Cavanaugh, Soucy, D'Allesandro, Fuller Clark.

The following Senators were excused: Hennessey.

Roll Call, Yeas: 14 - Nays: 9. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment.

A roll call was requested by Senator Sanborn, seconded by Senator Giuda.

The following Senators voted Yes: Giuda, Bradley, Gray, French, Ward, Sanborn, Daniels, Avard, Carson, Reagan, Birdsell, Gannon, Innis, Morse.

The following Senators voted No: Woodburn, Watters, Kahn, Lasky, Feltes, Cavanaugh, Soucy, D'Allesandro, Fuller Clark.

The following Senators were excused: Hennessey.

Roll Call, Yeas: 14 - Nays: 9. Adopted, bill ordered to Third Reading.

ENERGY AND NATURAL RESOURCES
SB 49, relative to permits for solid waste facilities.
Interim Study, Vote 4-0. Senator Fuller Clark for the committee.

SENATOR FULLER CLARK: Excuse me for one moment. Thank you, Mister President. I move Senate Bill 49 be Interim Study. The issue presented by this bill has been addressed between the stakeholders and the staff of the Department of Environmental Services through rulemaking. The Energy and Natural Resources Committee ask for your support for the motion of Interim Study while rulemaking is being taken under consideration. Thank you, Mister President.

The question is on the adoption of the motion of Interim Study. Adopted.

PRESIDENT MORSE: And let me be clear on House Bill 372. I ordered it to Third Reading.

SB 195-FN-L, relative to fees for operation of a heating and agitation device in public waters.
Interim Study, Vote 4-0. Senator Feltes for the committee.

SENATOR FELTES: Thank you, Mister President. I move Senate Bill 195-FN be Interim Study. This bill would have raised the fee structure for the operation of a heating and agitation device in public waters. The Energy and Natural Resources Committee asks for your support for the motion of Interim Study. Thank you.

The question is on the adoption of the motion of Interim Study. Adopted.

HB 225-FN, relative to information collection concerning electric renewable portfolio standards.
Interim Study, Vote 4-0. Senator Bradley for the committee.

SENATOR BRADLEY: Thank you very much, Mister President. I ask the body to overturn the motion of Interim Study so that I can introduce a subsequent amendment of refer back to committee for the purposes of consideration of an amendment to this bill that was proposed during the Christmas break by the PUC.

PRESIDENT MORSE: Senator Bradley, I believe what you want to do is refer HB 225 back to the committee and that does have to come out by the fourth legislative day. Is that your motion?

SENATOR BRADLEY: Yes, it is.

Senator Bradley moved Re-refer to Committee.

The question is on the adoption of the motion of Re-refer to Committee. Adopted.

HB 337, relative to municipal regulations of small wind energy systems. Ought to Pass, Vote 3-1. Senator Bradley for the committee.

SENATOR BRADLEY: Thank you again, Mister President. I move House Bill 337 Ought to Pass. This bill aligns state and municipal standards for acceptable noise levels for wind energy systems to a single standard. The site evaluation committee adopted rules in 2015 that specify a sound level on wind systems shall not exceed 45 decibels during daytime and 40 decibels during the night time hours. This bill would place those rules in statute. The Senate Energy and Natural Resources Committee asks for your support of the motion of Ought to Pass. Thank you.

The question is on the adoption of the motion of Ought to Pass. Adopted, bill ordered to Third Reading.

HB 342, establishing a commission to study the transition of certain regulatory authority to the department of environmental services from the Environmental Protection Agency.
Inexpedient to Legislate, Vote 4-0. Senator Fuller Clark for the committee.

SENATOR FULLER CLARK: Thank you, Mister President. I move House Bill 342 be Inexpedient to Legislate. This bill establishes a commission to study the transition of certain regulatory authority from the Environmental Protection Agency to the New Hampshire Department of Environmental Services. House Bill 342 is identical to Senate Bill 121 which was passed in the last legislative session. Senate Bill 121 created a national pollutant discharge elimination system study commission. This commission examines whether the New Hampshire Department of Environmental Services should assume authority over the national pollutant discharge elimination system from the EPA and how that might be accomplished. The commission has completed its work and filed a report with recommended legislation for the upcoming session. The Energy and Natural Resources Committee asks for your support for the motion of Inexpedient to Legislate on House Bill 342. Thank you, Mister President.

The question is on the adoption of the motion of Inexpedient to Legislate. Adopted.

Recess. Out of recess.

EXECUTIVE DEPARTMENTS AND ADMINISTRATION
HB 561-FN, relative to contributions by retirement system employers for certain full-time positions changed to part-time or interim employment and relative to enforcement of provisions concerning retired members working part-time after retirement.
Ought to Pass with Amendment, Vote 3-2. Senator Carson for the committee.

Senate Executive Departments and Administration
December 5, 2017
2017-2549s
10/08

Amendment to HB 561-FN

Amend the title of the bill by replacing it with the following:

AN ACT relative to part-time employment of a retirement system retiree by a participating employer.

Amend the bill by replacing all after the enacting clause with the following:

1 Retirement System; Definition; Part-Time. Amend RSA 100-A:1, XXXIV to read as follows:

XXXIV. "Part-time" for purposes of employment of a retired member of the New Hampshire retirement system but excepting per diem court security officers and court bailiffs, means employment [~~during a calendar year~~] by one or more ***participating*** employers of the retired member which shall not exceed [~~32 hours in each normal calendar week. Employment in some instances may exceed 32 hours in any normal calendar week provided that in such case, the part-time employment of the retired member shall not exceed 1,300 hours in a calendar year, so long as such part-time employment does not occur outside of a 5-consecutive-month period in any 12-month period.~~] ***1,040 hours in a calendar year. Notwithstanding the foregoing, no retired member shall be employed on a part-time basis by any participating employer for a period of 60 days from the member's effective date of retirement.***

2 Restoration to Service; Working After Retirement. Amend RSA 100-A:7 to read as follows:

100-A:7 [~~Restoration to Service~~] ***Working After Retirement; Exceeding Part-time Hourly Limit***.

I. [~~If a disability beneficiary or any other beneficiary is~~] ***Any retired member returning to work for a participating employer in a position requiring mandatory membership pursuant to RSA 100-A:3 shall be*** restored to service[~~,~~] ***and*** the [~~beneficiary's~~] ***retiree's*** retirement allowance shall cease, the [~~beneficiary~~] ***retiree*** shall again become a member of the retirement system and the [~~beneficiary~~] ***retiree*** shall contribute at the percentage payable pursuant to RSA 100-A:16, I(a). Anything herein to the contrary notwithstanding, any credit for membership service and for any prior service on the basis of which the [~~beneficiary's~~] ***retired member's*** creditable service was computed at the time of [~~the beneficiary's~~] ***his or her*** former retirement shall be restored to full force and effect; upon subsequent retirement, the [~~beneficiary~~] ***retiree*** shall receive a retirement allowance based on [~~the beneficiary's~~] ***his or her*** combined creditable service and [~~the member's~~] average final compensation.

II. Any retired member who, in any calendar year, works part-time for one or more participating employers and exceeds the

maximum permitted hours as provided in RSA 100-A:1, XXXIV, shall forfeit the state annuity portion of his or her retirement allowance, and any allocable cost of living adjustments, with such forfeiture commencing as soon as administratively feasible in the next calendar year and continuing for a period of 12 months.

3 Annual Notice Required. Amend RSA 100-A:7-a to read as follows:

100-A:7-a Certain Part-Time Employment; Notice Required. The retirement system shall annually provide written notice to all retired members of the retirement system of the [~~hourly~~] limitations on part-time employment as defined in RSA 100-A:1, XXXIV and the potential effect that exceeding such hourly limitations could have on the retired member's retirement benefits, including restoration to service as required in RSA [~~100-A:7~~] ***100-A:7, I and the forfeiture of the state annuity portion of his or her retirement allowance for exceeding the maximum permitted part-time hours under RSA 100-A:7, II***.

4 Retirement System; Employer Reports. Amend RSA 100-A:16, VII(a) to read as follows:

VII.(a) Every employer shall report to the retirement system [~~monthly~~] ***annually***, in a format provided by the retirement system, all compensation paid by***, and the total hours worked for,*** the employer [~~to retired members~~] ***by each retired member*** of the retirement system, including the name of, and the total hours worked, for each retired member of the retirement system, except that an employer shall not include in the report the compensation and hours worked by a retiree for serving as an elected state official or as an elected official of a political subdivision in either a group I or group II position.

5 Application to Existing Employment Contracts. The amendments to the provisions of RSA 100-A made by this act shall not apply to service after retirement by a retired member pursuant to a valid employment contract effective as of the effective date of this act, but shall apply upon the expiration of such employment contract.

6 Repeal. RSA 100-A:7-b, relative to an emergency exception from the weekly part-time limit on retiree employment, is repealed.

7 Effective Date. This act shall take effect January 1, 2019.

2017-2549s

AMENDED ANALYSIS

This bill changes the limit on part-time employment of a retirement system retiree to an annual 1,040 hourly limit and prohibits part-time employment in the first 60 days after retirement. The bill also establishes a penalty for retired members' exceeding the annual part-time hourly limit.

This bill is a request of the decennial retirement commission under RSA 100-A:57.

(The Chair recognized Senator Bradley.)

SENATOR BRADLEY: Thank you, Mister President. I move an even higher motion then the committee motion is to Rerefer House Bill 561 back to committee for purposes of having a public hearing. So that's what I move.

Senator Bradley moved Re-refer to Committee.

The question is on the adoption of the motion of Re-refer to Committee. Adopted.

FINANCE
SB 219-FN-A, relative to a one-time allowance for certain state retirees. Inexpedient to Legislate, Vote 4-2. Senator Giuda for the committee.

SENATOR GIUDA: Thank you, Mister President and members of the Senate. Rather than vote Inexpedient to Legislate, I would move that we vote that motion down and pass a motion to Interim Study this bill. Thank you, Mister President.

(The Chair recognized Senator Carson.)

SENATOR CARSON: Thank you very much, Mister President. I rise in favor of the motion of Interim Study. I sat on the Decennial Commission as well as my colleague from District 4, and this was one of the areas that was identified by the commission as it needs work. We haven't paid a COLA to our employees, retired employees since 2012, and we need to figure out a way to do this; and I think an Interim Study motion is appropriate so that way we can go ahead, we can continue to work on this, talk with the interested parties and be prepared for the next session so it can be part of the budget discussion. Thank you very much, Mister President.

PRESIDENT MORSE: Thank you, Senator Carson. The parliamentary situation is to get to Interim Study you would have to vote down Inexpedient to Legislate.

(The Chair recognized Senator D'Allesandro.)

SENATOR D'ALLESANDRO: Thank you, Mister President. Mister President, I will support the motion that's the replacement motion and say to my colleagues that when Senator Downing and I sat beside each other here in this Senate we brought forth a proposal, and that's the last time it was done, to give a one time, let's call it a stipend to the state employees. We gave them a $1,000 at the time. We did it because of the fact that COLAs hadn't been given for a long, long period of time and given the new methodology for getting a COLA, it's got to go through the entire legislature to pass, and that's not a highly probable situation.

But in looking at the numbers, I just want to tell my colleagues if you retired prior to 1980, your average benefit is $13,797.37. That's your retirement benefit; this includes group 1 and group 2. That was a question that was brought forth. From the period 1981 to 1990 your benefit is $16,012.77. If you retired between 1991 and 2000, your benefit is $18,465.06. If you retired between 2001 and 2010, your benefit is $19,758.73. If you retired 2011 and later, your benefit is $21,684.59. For all of the years, all of the years the average retirement benefit is $19,943.66.

And remember that a significant group of these people don't get social security and they have to partially pay for health benefits, so I think it's worth looking at. It's certainly worth looking at at this time and I applaud the work of Senator Carson in trying to move this forward. It's really important that we help the most needy people; they really need our help. I mean, we have 171 people whose average retirement is $13,000 a year. The average income, U.S. wide, for a family, the average family is $55,000; so think of that retirement benefit in contrast to that. So it's something we have to work on. Thank you, Mister President.

Recess. Out of recess.

INTRODUCTION OF GUESTS

(The Chair recognized Senator Woodburn.)

SENATOR WOODBURN: I'd like to introduce my daughter who has just returned after six months in Australia, including a week or so in Bali while the volcano was erupting and we're very happy to have Molly Woodburn with us. My daughter, welcome to the Senate, Molly.

(The Chair recognized Senator Feltes.)

SENATOR FELTES: Thank you, Mister President. Just briefly, this is the poorest of the poor, state retirees, and who haven't seen an increase, as the Dean said, in a very, very long period of time. Many of whom live in my own neighborhood in the south end of Concord, who are struggling to get by, afford heat, basic necessities like medicine, rent, shelter and have dedicated their entire lives to service to the state of New Hampshire. And so, I feel strongly that my good friend from District 14 that her bill, although it may not go as far as some folks would like, it provides some modest relief to those who need it most. And I would hope that at some point this body will embrace some support for our retirees. Doesn't sound like it's going to happen today, but at some point I hope we do. Thank you, Mister President.

(The Chair recognized Senator Watters.)

SENATOR WATTERS: Thank you, Mister President. I want to offer my thanks to the Senator from District 14 for her tireless work on behalf of our retirees and doing something about COLAs not only through this bill but also in the Decennial Pension Commission. And, you know, just to add on what we heard from the Senator from District 20 that the average pension is $20,000 and there's been no COLA since 2009, that buying power's down to $17,338, and consider a lot of our pensioners do not have social security so they have not that nor the benefit of a COLA that at least social security offers. We had an email, and perhaps all of us received it: a gentleman who is a retiree with a little pension he said well, if the $500 will just barely cover the increased cost of one of my medications. So that's the reality of where the folks in our retirement system are, and that's why the Decennial Commission voted in near unanimity to recommend that we try to do a one-time payment in the context of the next budget. So, I see the Interim Study here as a way of taking the good work that has been done so far and melding it with what we have proposed doing through the Decennial Commission that we can really, in the next budget, try to do something about this. It really, really is needed for these aging retirees. Thank you, Mister President.

(The Chair recognized Senator Bradley.)

SENATOR BRADLEY: Thank you very much. I agree with what my colleagues have said in terms of House Bill 219, of which I was a co-sponsor, having led efforts in 2011 on retirement reform there were two one-time payments in 2011 and 2012, but it's been since then that there has not been a cost of living adjustment for any of our retirees. I think by having an Interim Study motion we put all of ourselves on notice that this becomes a priority in the next budget and that we have to figure out, as we've tried to figure out funding for mental health, for the opioid crisis, for DCYF, for families with a disabled child, how we're going to help our retirees. And I think that by virtue of the Interim Study motion that should put us all on notice that we need to accomplish this. Thank you, Mister President.

The question is on the adoption of the motion of Inexpedient to Legislate. Failed.

Senator Giuda moved Refer to Interim Study.

The question is on the adoption of the motion of Interim Study. Adopted.

SB 240-FN-L, relative to the monitoring and treatment of contaminated wells.

Interim Study, Vote 5-1. Senator Daniels for the committee.

SENATOR DANIELS: Thank you, Mister President. I move Interim Study on Senate Bill 240-FN-LOCAL. This bill may require routine testing of private wells if a certain level of contaminants is found. The Department of Environmental Services states there are more than 250,000 private wells in New Hampshire. If the responsible party is identified as a source of the contaminants, Senate Bill 240 requires the party to either treat the water or provide an alternative source of drinking water. DES may however require periodic monitoring, even though the concentration of the contaminant does not exceed an existing ambient ground water quality standard. As the New Hampshire Drinking Water and Groundwater Advisory Commission is working on similar matters and has already made proposals to address local and statewide water issues the Senate Finance Committee recommends Interim Study for Senate Bill 240 and asks for your support. Thank you, Mister President.

(The Chair recognized Senator Feltes.)

SENATOR FELTES: Thank you, Mister President. Mister President I encourage this body to vote down Interim Study, so we can do a substitute motion of Ought to Pass. I respect the comments from my friend from District 11. I will note that the Groundwater Commission of which the Senate President is the Chair and I serve on, is in my view doing good work. However, it doesn't deal with the issue of when polluters have been identified to have caused contaminants in wells, what happens then. That's what this bill does. Senate Bill 240 which is sponsored by my friend from District 24, my friend from District 3, my friend from District 23, and my friend from District 21 have sponsored this piece of legislation to do exactly that. It requires DES to identify the polluters; to then say to the polluters, you've got to pay for the monitoring of these wells; and then if there's an escalating trim line of the contaminants in the well, pay to provide some alternative water supply to the folks who need it. It's not unlike, Mister President, what happened with DES and Saint-Gobain on a voluntary basis. And DES' testimony if you read it says that this is largely what they do already. So, what this does is codify what DES largely does already so that there's some statutory teeth to dealing with, perhaps, a polluter who will not provide alternative water supply like Saint-Gobain, or not pay for monitoring testing of wells like Saint-Gobain did. That's very important; very, very important. So, Mister President, I'm hopeful that we can vote down this motion of Interim Study and move forward with this bill. Thank you, Mister President.

(The Chair recognized Senator D'Allesandro.)

SENATOR D'ALLESANDRO: Thank you, Mister President. Mister President the only entity that's responsible now for replacing a well when it's contaminated is the state; and it's DOT. When I served on the council, when we had plowing that disrupted wells that were close to the road, we replaced those wells because they were contaminated. The state assumed and fulfilled that responsibility. All of us know that the majority of people in the state of New Hampshire are on wells. There's a significant, significant number on wells. We also know that contaminants abound as we speak, and that's a result of things that have happened in this state over the years. The contamination is highly problematic in terms

of what it does to the individual's health and the ramifications that occur to the individual are very, very costly. Think of how they affect the chain in terms of health. So, we recognize our responsibility as a state.

And how many thousands of miles of road do we have that we plow every time we have a storm? We're talking about a storm tomorrow night. That storm, if it's six or eight inches, it's going to be plowed. There will be salt on the roads and it's better than it used to be when we had an abundance of salt, but it's still going to be there. And if a well gets contaminated, and remember a lot of people live very close to those roads, we're going to pay for those. We are going to replace them and we are going to pay for them. So, think of that.

What's wrong with others bearing that same responsibility? Shouldn't everybody be responsible for actions? Saint-Gobain ponied up. Sure they ponied up because they knew they were in deep trouble. Very deep trouble and they also had deep pockets; very deep pockets.

But indeed, it's a problem, and it's a problem that's been recognized by the majority leader and others sitting in this, Senator from District 24 and others recognize that it's a problem and have been on committees over the years that have recognized this problem. And the problem does not go away; the problem remains. That is something that we are going to have to deal with. Thank you, Mister President.

(The Chair recognized Senator Giuda.)

SENATOR GIUDA: Thank you, Mister President. This bill is good in principle, it fails in execution. We have 240,000 wells in the state and no way to fund the testing. It goes too far, it's a bridge too far. It enables DES to preemptively start looking for the possibility and to require remediation if they find something that doesn't even rise to the threshold of a problem. It's a bridge too far. So I think this bill needs to be reworked and I would recommend we stick with the committee recommendation. Thank you.

(The Chair recognized Senator Innis.)

SENATOR INNIS: Thank you, Mister President. This bill as written doesn't require the DES to go out and seek contaminated wells. If you read it, it indicates that upon receiving information that drinking water is contaminated, then the monitoring would begin. So it's not DES that is seeking this out, rather the information comes to them and then the process begins. So, it may not be quite so intrusive as it appears. Thank you.

Recess. Out of recess.

Senator Bradley moved Re-refer to Committee.

Recess. Out of recess.

PARLIAMENTARY INQUIRY

(The Chair recognized Senator Feltes for a parliamentary inquiry.)

SENATOR FELTES: Thank you, Mister President. Does the motion to Re-refer mean that this bill needs to come out of Senate Finance by the fourth session day?

PRESIDENT MORSE: Yes.

(The Chair recognized Senator Feltes.)

SENATOR FELTES: Thank you, Mister President. Mister President, I support the motion of Re-refer. I know my colleagues on Senate Finance

are committed to working together to move this bill and because of that commitment to work in good faith to move this bill I support the motion to Re-refer. Thank you, Mister President.

The question is on the adoption of the motion of Re-refer to Committee. Adopted.

HEALTH AND HUMAN SERVICES
SB 63, relative to record management of abuse and neglect reports. Ought to Pass with Amendment, Vote 4-0. Senator Bradley for the committee.

Health and Human Services
November 28, 2017
2017-2532s
05/10

Amendment to SB 63

Amend the title of the bill by replacing it with the following:

AN ACT relative to record management of abuse and neglect reports and establishing a pilot program and making an appropriation therefor.

Amend the bill by replacing all after section 2 with the following:

3 Child Protection Act; Records Management of Abuse and Neglect Reports; Pilot Program Established. There is hereby established a pilot program to assess the cost and feasibility of the statewide electronic storage of abuse and neglect records as required by RSA 169-C:35-a. Under the pilot program, the department of health and human services shall scan and store electronic copies of its records of screened-out, closed unfounded, and closed founded reports from a selected district office or offices. On or before November 1, 2018, the department shall provide a report to the house and senate committees with jurisdiction over health and human services and the house and senate finance committees containing its assessment of the pilot program and the projected costs and feasibility of expanding the program statewide.

4 Department of Health and Human Services; Division for Children, Youth and Families; Classified Positions Established. The following classified positions are hereby established in the department of health and human services, division for children, youth, and families:

I. Program assistant I, at labor grade 12

II. Program assistant I, at labor grade 12

5 Department of Health and Human Services; Division for Children, Youth and Families; Classified Positions Established. Subject to approval by the fiscal committee of the general court, the following classified positions are hereby established in the department of health and human services, division for children, youth and families:

I. Program assistant I, at labor grade 12

II. Program assistant I, at labor grade 12

6 Department of Health and Human Services; Appropriation. The sum of $24,000 for the fiscal year ending June 30, 2018, and the sum of $156,000 for the fiscal year ending June 30, 2019, are hereby appropriated to the department of health and human services for the purpose of establishing the pilot program under section 3 of this act. This appropriation is in addition to any other funds appropriated to the department of health and human services. The governor is authorized to draw a warrant for said sums out of any money in the treasury not otherwise appropriated.

7 Effective Date.
I. Section 5 of this act shall take effect January 1, 2019.
II. The remainder of this act shall take effect upon its passage.

2017-2532s

AMENDED ANALYSIS

This bill revises the record retention requirements for founded, unfounded, and screened-out reports of abuse or neglect; establishes a pilot program regarding electronic storage of abuse and neglect records and makes an appropriation to fund the program; and establishes certain classified positions within the department of health and human services.

SENATOR BRADLEY: Thank you, Mister President. Senate Bill 63 revises the record retention requirements for founded, unfounded and screened out reports of abuse and neglect of children in New Hampshire. The retention of screened out reports would extend to seven years. The retention of unfounded reports would extend to ten years and founded reports would now be retained indefinitely. The Division of Children, Youth and Family uses these reports to establish patterns of behavior in cases of abuse and neglect. It is important to make sure the department has the resources they need to protect children. The amendment creates a pilot program where the department would scan and store records from selected district offices to make sure reports are being processed in an efficient manner. The amendment does also add two positions in 2018 to establish this program and then with the approval of the Fiscal Committee adds two more positions in 2019. I realize that there was some controversy about creating these positions. The Health and Human Services Committee put the department through their paces and came up with this pilot program approach. I know it's going to go to Finance. That's obviously appropriate. As I think all of us know, the Division of Children, Youth and Family has been a troubled agency. Retention of records to make sure that when case workers are interviewing parents and there's been past unfounded or founded with reasonable concern reports that there are these records so that the agency can do a better job of protecting our children. The Health and Human Services Committee absolutely supports the policy; we leave it to the Finance Committee to look at the finance end of this initiative. Thank you, Mister President.

The question is on the adoption of the Committee Amendment. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to the Committee on Finance (Rule 4-5).

SB 151, relative to arbitration agreements in nursing home contracts. Interim Study, Vote 4-0. Senator Fuller Clark for the committee.

SENATOR FULLER CLARK: Thank you very much, Mister President. I move Senate Bill 151 be referred to Interim Study. This bill prohibits a nursing facility from requiring that a patient sign a mandatory arbitration agreement prior to admission and receiving medical care. There is still significant disagreement among the stakeholders regarding this legislation. With many unanswered questions remaining the committee felt the best course of action would be to refer this bill to Interim Study to allow the stakeholders an opportunity to find compromise on this important issue. Please support the committee's recommendation of Refer to Interim Study. Thank you, Mister President.

The question is on the adoption of the motion of Interim Study. Adopted.

SB 154, making oral contraceptives available without a prescription.
Interim Study, Vote 4-0. Senator Fuller Clark for the committee.

SENATOR FULLER CLARK: Thank you very much, Mister President. I move Senate Bill 154 to Interim Study. This bill would allow pharmacies to dispense oral contraceptives to persons eighteen years of age or older without a prescription. There was a study commission working on this issue over the summer and legislation has been filed based on the recommendations of the commission. The Health and Human Services Committee believes it would be best to review the legislation filed based on the recommendations of the study commission in the hopes that it will answer the many questions raised on this issue. Please support the committee recommendation of Interim Study. Thank you, Mister President.

The question is on the adoption of the motion of Interim Study. Adopted.

SB 220-FN, relative to the definition of mental illness for purposes of mental health services.
Interim Study, Vote 4-0. Senator Bradley for the committee.

SENATOR BRADLEY: Thank you, Mister President. This bill would change the definition of mental illness for the purpose of involuntary commitment to include use of opioid substances. The committee supports the merits of the bill but believes there are a number of unanswered questions. First and foremost being lack of capacity for mental health and opioid abusers that voluntarily want to get treatment. And so because of the lack of capacity and other unanswered questions the committee at this time recommends Interim Study. Thank you.

The question is on the adoption of the motion of Interim Study. Adopted.

HB 472, permitting qualifying patients to cultivate cannabis for their own therapeutic use.
Interim Study, Vote 4-0. Senator Fuller Clark for the committee.

SENATOR FULLER CLARK: Thank you very much, Mister President. I move House Bill 472 be referred to Interim Study. This bill would allow home cultivation of cannabis for patients enrolled in the therapeutic cannabis program. The committee felt that there were too many unanswered questions, once again, surrounding the implementation and enforcement of this program to move the bill forward at this time. Interim Study would give the stakeholders an opportunity to see if there is a compromise that best balances the needs of the patients and also will ensure the safe regulation of the program. Please support the committee's recommendation of Refer to Interim Study. Thank you very much, Mister President.

The question is on the adoption of the motion of Interim Study. Adopted.

JUDICIARY
HB 151, relative to industrial hemp as a controlled substance.
Ought to Pass with Amendment, Vote 4-1. Senator Carson for the committee.

Senate Judiciary
December 5, 2017
2017-2548s
08/03

Amendment to HB 151

Amend the title of the bill by replacing it with the following:

AN ACT establishing a committee to study the feasibility of using hemp in agricultural and industrial processes and to further study the licensing, registration, and permitting of industrial hemp growers.

Amend the bill by replacing all after the enacting clause with the following:

1 Committee Established. There is established a committee to study the feasibility of using hemp in agricultural and industrial processes and to further study the licensing, registration, and permitting of industrial hemp growers.

2 Membership and Compensation.

I. The members of the committee shall be as follows:

(a) Three members of the house of representatives, one of whom shall be a member of the criminal justice and public safety committee and 2 of whom shall be members of the environment and agriculture committee, appointed by the speaker of the house of representatives.

(b) One member of the senate, appointed by the president of the senate.

II. Members of the committee shall receive mileage at the legislative rate when attending to the duties of the committee.

3 Duties. The committee shall:

I. Study the feasibility of hemp usage in providing animal feed, biofuels, and soil conservation and restoration.

II. Further study the licensing, registration, and permitting of industrial hemp growers and allowing for the growth and processing of hemp in New Hampshire.

III. Review the Federal Industrial Hemp Farming Act of 2017, H.R. 3530, 115th Cong. (2017), along with the 2018 farm bill as they relate to New Hampshire laws.

4 Chairperson; Quorum. The members of the study committee shall elect a chairperson from among the members. The first meeting of the committee shall be called by the first-named house member. The first meeting of the committee shall be held within 45 days of the effective date of this section. Three members of the committee shall constitute a quorum.

5 Report. The committee shall report its findings and any recommendations for proposed legislation to the speaker of the house of representatives, the president of the senate, the house clerk, the senate clerk, the governor, and the state library on or before November 1, 2018.

6 Effective Date. This act shall take effect upon its passage.

2017-2548s

AMENDED ANALYSIS

This bill establishes a committee to study the feasibility of using hemp in agricultural and industrial processes and to further study the licensing, registration, and permitting of industrial hemp growers.

SENATOR CARSON: Thank you, Mister President. I move House Bill 151 Ought to Pass with Amendment. This bill will establish a committee to study the feasibility of using hemp in agricultural and industrial processes and study the licensing, registration and permitting of industrial hemp growers. The committee amended the bill to allow this legislation into a study committee in order to allow the appropriate parties to come together to examine the issue. The hemp industry is one that continues to expand, and it is affected by various factors including federal regula-

tion. Therefore, it is our duty as legislators to further study this issue from all sides. Due to the growing nature of this issue and the need to determine how this would affect New Hampshire specifically, the majority of the committee asks for your support in the motion of Ought to Pass with Amendment on House Bill 151. Thank you, Mister President.

The question is on the adoption of the Committee Amendment. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to Third Reading.

PUBLIC AND MUNICIPAL AFFAIRS
SB 172-FN, relative to dams on residential property.
Ought to Pass with Amendment, Vote 5-0. Senator Gray for the committee.

Public and Municipal Affairs
November 14, 2017
2017-2529s
08/10

Amendment to SB 172-FN

Amend the title of the bill by replacing it with the following:

AN ACT relative to non-menace dams.

Amend the bill by replacing all after the enacting clause with the following:

1 Menace Dams. Amend RSA 482:12, I to read as follows:

I. It shall be the duty of the department from time to time to cause all dams in the state which, by reason of their condition, height or location, may be a menace to the public safety to be inspected by competent engineers. ***A dam that is classified as a non-menace structure as of February 20, 1981 shall retain such status until the department determines conditions downstream have changed since the dam was classified that warrant reclassification or until such reconstruction of the dam is needed requiring a permit to reconstruct the dam.***

2 Effective Date. This act shall take effect 60 days after its passage.

2017-2529s

AMENDED ANALYSIS

This bill requires that certain dams shall not be declared a menace unless the department of environmental services determines that there has been a change in conditions downstream.

SENATOR GRAY: Thank you, Mister President. I move Senate Bill 172 Ought to Pass with Amendment. This bill is a result of the classic battle between new regulations and long standing conditions within New Hampshire. There are multiple dams on private property that have been evaluated and classified as a non-menace structure by the Department of Environmental Services. Recently new regulations threatened to force these New Hampshire residents to adhere to new and unnecessary regulations. Under this bill, dams that have been evaluated as non-menace structures before February 1981 will be able to retain that status unless the department has determined that conditions down the stream have been altered significantly. This will relieve the dam owners of undue burden of new regulations. Furthermore, the bill amended requires the Department of Environmental Services to cause all dams in the state that may

be a menace to public safety to be inspected by engineers. Please join the committee on Public and Municipal Affairs in support of Ought to Pass with Amendment. Thank you, Mister President.

The question is on the adoption of the Committee Amendment. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to Third Reading.

HB 121, relative to the maximum optional fee for transportation improvements charged by municipalities when collecting motor vehicle registration fees.
Ought to Pass, Vote 3-2. Senator Woodburn for the committee.

SENATOR WOODBURN: Thank you, Mister President. I move House Bill 121 Ought to Pass. This bill increases the maximum optional fee for transportation improvements that may be charged by municipalities when collecting motor vehicle registration fees. This fee increase adjusts the maximum amount to account for inflation. This is enabling legislation, it gives municipalities the option to increase the fee which is collected at the local level; and used for local improvement projects. Communities rely on this revenue source when the state aid is not enough to cover certain transportation projects. Please support the committee recommendation of Ought to Pass. Thank you, Mister President.

Senator Woodburn offered a Floor Amendment.

Sen. Woodburn, Dist 1
December 19, 2017
2018-0011s
03/05

Floor Amendment to HB 121

Amend the bill by replacing section 2 with the following:

2 Effective Date. This act shall take effect July 1, 2018.

SENATOR WOODBURN: Thank you, Mister President. I have a very simple amendment here just of the, change the effective date to the present as opposed to the past.

The question is on the adoption of the Floor Amendment. Adopted.

(The Chair recognized Senator Kahn.)

SENATOR KAHN: Just like to point out. Thank you, Mister President. I'd like to point out on this bill that this is merely an opt in; that when you go through the statute for 261 there are lots of ways in which both towns and municipalities have to hold public hearings. Towns have to bring this to a vote of the town, municipalities do the hearing, they vote as they would vote on anything else that is permitted giving them authority by the state. So, I have towns in my district that are at zero. I have towns that in my district have been at $5 for a long time and have just recently, in another town that has just recently put it on the ballot and brought it to $5. I think towns are all over the place on this depending on their local needs and what they're able to raise through taxation and what they're able to raise through this mechanism and their constituencies have the opportunity to vote. Finally, if any town is upset with the fact that these dollars are not being spent in the right way, there's opportunity to rescind this through a vote. So, I'd encourage us to look at this as something to give some local options to road improvements and that we ought to pass.

The question is on the adoption of the motion of Ought to Pass with Amendment.

A roll call was requested by Senator Sanborn, seconded by Senator Avard.

The following Senators voted Yes: Woodburn, Watters, Ward, Kahn, Lasky, Feltes, Cavanaugh, Reagan, Soucy, D'Allesandro, Fuller Clark.

The following Senators voted No: Giuda, Bradley, Gray, French, Sanborn, Daniels, Avard, Carson, Birdsell, Gannon, Innis, Morse.

The following Senators were excused: Hennessey.

Roll Call, Yeas: 11 - Nays: 12. Failed.

Senator Bradley moved Refer to Interim Study.

The question is on the adoption of the motion of Interim Study. Adopted.

TRANSPORTATION
SB 178-FN, relative to motor vehicle registration transfer credits.
Inexpedient to Legislate, Vote 5-0. Senator Birdsell for the committee.

SENATOR BIRDSELL: Thank you, Mister President. I move Senate Bill 178-FN Inexpedient to Legislate. This bill allows a refund for a leased vehicle registration transfer which shortens the registration period. Currently, when a person leases a new vehicle and registers it in a different month than the month in which their previous vehicle was registered the credit or excess funds are not refunded to the person but are instead placed in the municipalities' general fund. The committee has been informed that the Department of Safety and the Town Clerk's Association are working together to write new legislation so that a late bill may be introduced regarding the ability to transfer all of the customers credits in similar situations. Therefore, all members of the Transportation Committee ask for your support in the motion of Inexpedient to Legislate on Senate Bill 178-FN so that alternative legislation may be introduced. Thank you, Mister President.

(The Chair recognized Senator Fuller Clark for a question of Senator Birdsell.)

SENATOR FULLER CLARK: Thank you very much for taking my question. I just wanted to have you re-affirm that there is going to be ongoing efforts to solve this situation so that an individual who paid excess dollars is, currently has no way to be refunded yet that those monies remain with the municipality instead. So, it's my understanding that we all agree that this is an issue that needs to be resolved, and that there will be efforts going forward to do that?

SENATOR BIRDSELL: Thank you for the question, Senator. And yes, I'll be following up with the Department of Safety and the Town Clerk's Association within the next week to see where they are in the process and try and get a late bill in. If not, I'll look at some of the bills that are coming through Transportation to try and amend it; because the money should be going at least a credit to the owners rather than the municipalities.

SENATOR FULLER CLARK: Thank you.

The question is on the adoption of the motion of Inexpedient to Legislate. Adopted.

WAYS AND MEANS
SB 1-FN-A, reducing the rate of the business profits tax.
Interim Study, Vote 3-2. Senator Giuda for the committee.

SENATOR GIUDA: Thank you, Mister President and members of the Senate. I move Senate Bill 1 be referred to Interim Study. The bill sought to reduce the BPT from 8.2 to 7.5 percent over the next two biennia. But given the recent significant changes to the federal tax code, our obligation as a committee is to try and ensure that we have a revenue stream that doesn't get interrupted. We would strongly recommend and ask your support for a motion to Interim Study on this bill. Thank you, Mister President.

The question is on the adoption of the motion of Interim Study. Adopted.

SB 75-FN, establishing a tax credit against business profits taxes for donations to career and technical education centers.
Interim Study, Vote 3-2. Senator Daniels for the committee.

SENATOR DANIELS: Thank you, Mister President. I move Senate Bill 75 be referred to Interim Study. This bill sought to establish a new tax credit against business profits tax for qualifying donations to career and technical education centers. While I understand the goal of the legislation was to try to better integrate local businesses with CTE centers, the majority of the Ways and Means Committee believes this is not the right time, as we need to take a cautious approach with regard to revenues. I therefore ask for your support for the motion of refer to Interim Study. Thank you, Mister President.

(The Chair recognized Senator Watters.)

SENATOR WATTERS: Thank you, Mister President. I rise to ask the body to overturn the pending motion, so I may offer a floor amendment and a motion of Ought to Pass. This bill should be familiar to everyone, we've talked about it quite a bit and I think there's general agreement that it actually will do what it says that it should do to increase the investment of businesses and our career and technical education centers.

It would appropriate a $500,000 tax credit against the Business and Profits Tax for three reasons: one donations of equipment. So here, like New Hampshire Ball Bearing and auto dealers have done, we could form partnerships between CTEs and area businesses so that students might get trained on the actual machinery they would be able to use if they took a job in the community at those plants.

Secondly, because we really do want to make sure that students are getting membership, mentoring and apprenticeships with businesses that would provide a tax credit for part of the personnel time that a business might give for instruction either in the CTE center or on the shop floor.

Thirdly, I think and most importantly for those communities such as Rochester that are trying to build CTE centers and sooner or later each one of our districts is on that list to renovate or build their CTEs it would let a business make a contribution towards the municipal portion of the funding needed for the CTE center. And what better way for a business to feel invested in a new CTE than to be able to help contribute and make, perhaps, equipment, provide personnel to help the CTE center.

There's not much argument that this will work and that it's a good idea and I will say that what else have we heard from the BIA at the summit or at the meeting down in Bedford about workforce development. Our businesses, particularly our manufacturers, are crying out for workers. This bill is the one thing we can do today for workforce development. It will work, it just comes out of the Career and Technical Education Advisory Committee, the director of those directors, Eric Felberg, and the directors say we can sell this. This is just what we need to cement these partner-

ships. The commissioner of the Department of Education– he knows that he can sell this as well. Businesses– Sal Vanchuck, other people who are on that committee say yes, this is what we need to leverage this.

Now, we can do this, we can do it today if I offer a floor amendment then let's put the date of the implementation out to July 1st, 2019. That'll do two things: it'll mean we'd have a year for the CTEs and the businesses to get ready to develop these programs and it will mean we'll have the context of the budget next year. So that will be that opportunity for all of the $500,000 that this is going to use to get going. We can do it; we can overturn this motion; we can have a floor amendment to kick it out to July 1st, 2019; we can get this going and we can leave here today saying we did something for workforce development. Thank you, Mister President.

(The Chair recognized Senator D'Allesandro.)

SENATOR D'ALLESANDRO: Thank you, Mister President. Mister President, in our Capital Budget we made a commitment to CTE centers because we thought it was vital. Those centers train youngsters for what they will do in the job market. With this bill they will be working on equipment that makes them immediately employable. Gets them to work. That's why we're investing in the CTE centers, we just invested significantly in Salem. We put a ton of money into the CTE center there. We're doing it in Rochester, we did it in Dover, we missed out in Whitefield. Heck, who needs it more than the North Country? These companies want people who are ready to work on the equipment that's out there. New Hampshire Ball Bearing, dying for employees, dying for machinists. The automobile industry, dying for people who can work with the new diagnostic equipment. If this equipment is donated to the CTE centers, and you get a tax break, they'll continue to do that. That's money that we, the state of New Hampshire, will not have to spend. That just makes common sense. Where's Thomas Paine when we need him? Common sense. Just seems to me if we want to get the best for the students we're training, this is an opportunity. Thank you.

(The Chair recognized Senator Sanborn.)

SENATOR SANBORN: Thank you, Mister President. I rise in support of the motion of Interim Study, on what's going to be a common theme, so I hope I don't have to repeat myself too much. And for the record, I apologize both SB 1, SB 75 and most of them as a business owner and based upon the byzantine ethics rules we have today I feel compelled to have to say that I may or may not have a conflict but clearly, I'm still participating.

Mister President, as we heard from my colleague from District number 20, this state has made huge investments, I think he used the word huge, in Rochester, in Dover, in Salem to make schools that are up and running without a tax break. They've made investments, tens of millions of dollars and the system's working well. When I hear that if we go and make another tax cut, my colleague from District 15 uses a regular statement that a tax cut doesn't provide money, we're not spending money, but we are.

This is a math equation that I ask you all to consider; we generate about $600 million in business tax income. We have about $360 million of specific tax breaks, specific tax cuts for our friends. Now in full disclosure, Mister President, I have voted for some of them. I may think that I may have made a mistake in doing so, because we have a lot of talk around here on a very regular basis about specific benefits financially for specific demographical groups. We have the same conversations about

campaign finance. This is the same thing. This is providing specific groups of specific people breaks for behavior, and if we're really that concerned as I am that concerned about what we can do, $360 million of existing specific deals for specific entities today on a $600 million gross. Said in other words we could cut our business taxes by 50 percent if there were no special deals. How would our state look like if we had a 4 percent business profits tax? It would be remarkable around here. In addition to that Mister President, we have to remember that last year alone, the Ways and Means Committee considered a $176 million in additional specific tax considerations for specific entities or industries on top of the 360 we already have.

We need to be careful at what point the specific tax advantages we're doing and they're all well intended Mister President, I don't want to say that they're not. But if we passed all of these we'd now be sitting on $500 million of specific tax breaks on a revenue stream that only brings in $600 million today. So again, it's all worthy to consider, but at some point we need to be concerned about the fiscal health and the stability and if we are going to stop providing additional tax cuts maybe it's high time we provide them to everybody equally versus picking winners and picking losers. With that Mister President, I support the motion of Interim Study. Thank you very much.

The question is on the adoption of the motion of Interim Study.

A roll call was requested by Senator Woodburn, seconded by Senator Avard.

The following Senators voted Yes: Woodburn, Bradley, Gray, French, Ward, Sanborn, Daniels, Avard, Carson, Reagan, Birdsell, Gannon, Innis, Morse.

The following Senators voted No: Giuda, Watters, Kahn, Lasky, Feltes, Cavanaugh, Soucy, D'Allesandro, Fuller Clark.

The following Senators were excused: Hennessey.

Roll Call, Yeas: 14 - Nays: 9. Adopted.

MOTION OF RECONSIDERATION

Senator Bradley, having voted on the prevailing side, moved to reconsider SB 75-FN, the bill having previously been found Referred to Interim Study. Adopted.

The question is on the adoption of the motion of Interim Study.

A roll call was requested by Senator Woodburn, seconded by Senator Avard.

The following Senators voted Yes: Giuda, Bradley, Gray, French, Ward, Sanborn, Daniels, Avard, Carson, Reagan, Birdsell, Gannon, Innis, Morse.

The following Senators voted No: Woodburn, Watters, Kahn, Lasky, Feltes, Cavanaugh, Soucy, D'Allesandro, Fuller Clark.

The following Senators were excused: Hennessey.

Roll Call, Yeas: 14 - Nays: 9. Adopted.

SB 76-FN-A, establishing an option to rebate the research and development tax credit against business profits taxes, and making an appropriation therefor.
Interim Study, Vote 3-2. Senator Daniels for the committee.

SENATOR DANIELS: Thank you, Mister President. I move Senate Bill 76 be referred to Interim Study. This bill seeks to provide an option to

companies qualifying for the research and development tax credit to take a rebate equal to 75 percent of the credit awarded, rather than taking the credit in the full amount. While I understand the goal of the legislation was to provide an option for those companies who may not have a BPT obligation to apply the credit to, the majority of the Ways and Means Committee believes we need to maintain the current balance with revenues and if they should improve then this bill could be revisited in the future. I therefore ask for your support for the motion of refer to Interim Study. Thank you, Mister President.

(The Chair recognized Senator D'Allesandro.)

SENATOR D'ALLESANDRO: Thank you, Mister President. I don't want to sound like a broken record, but I will. Lo and behold, we passed this bill in the last session 24-0. 24-0! Came out of committee 5-0! What did it do? Take another dance while it was away? It provides an opportunity for the state to save 25 percent, and it provides an opportunity for companies to get going, for new companies to get started. We thought so much of this that we passed it 24-0. The majority leader is on the bill. What is this, what are we doing here? What are we doing here? That gray hair gets grayer, I understand it. But we passed it 5-0, it was a good idea then; 24-0 it was a good idea and now we put it to bed; and it's an untimely death. And we can work on it again; we worked on it twice already. We passed it, with unanimous vote put it to bed. Now it's out of bed and we passed it again but now we're putting it back to bed. It seems to me there's a sleeping problem here. We got to address it. Let's wake up! What's going to wake us up? It was a good idea. Everybody voted for it. It's like apple pie, everybody loves apple pie. All of a sudden this became the worst thing in the world. My goodness gracious, my colleagues. Just a thought, as I said Deja vu all over again. But it was a good idea, I think it's still a good idea, hopefully my colleagues can overturn the Interim Study so that I can bring forth a motion of Ought to Pass. Thank you, Mister President.

(The Chair recognized Senator Sanborn.)

SENATOR SANBORN: Thank you, Mister President. Mister President, again sounding like a broken record, as a business owner and based upon our byzantine ethics laws, which I hope you change, which you'll hear me say every single time, I am compelled to say I may or may not have a conflict with this, but I'm still participating.

And to my colleague from District 20, if it truly is true, because I don't think I voted for this last time for the same reason I'm about to talk, if I did I'll ask for reconsideration from two years ago, because maybe I was sleeping during that vote and could have been, and if I was sleeping surely I must have been having a nightmare because, Mister President, although I completely appreciate what the colleague from District 20 is trying to do, he's trying to help start-up companies get access to free capital, with a 25 percent haircut. We all want small companies to grow, we all want small companies to expand, but I'm not sure it is the obligation and the role of state government to become an angel investor with no ownership or return by allowing companies to get a 75 percent cash payout when they don't actually have a tax obligation. That's what this does; they would qualify under the tax credit for the potential to get money back, but not having any obligation to offset it, this bill would look to cut them a check. Cut them a check.

The state investing in start-up companies. I'm just not sure that egg has cooked Mister President, so that's why we're asking for Interim Study.

And again, as I said, had I voted for this before it would have been my apologies. So, I ask the body to stick with the Interim Study recommendation. Thank you, Mister President.

(The Chair recognized Senator Giuda.)

SENATOR GIUDA: Thank you, Mister President. I share the Dean's views on these being good programs, but they cost revenue that we currently have and would lose further. I would ask my colleagues to consider the "C" change in federal tax legislation on businesses and our obligation to maintain as best we can a stable revenue stream without interruption or change. And for that reason, although I strongly support initiatives like this, I think an abundance of caution, until the federal rules are written, and they have their impact on our economy in the state, is probably the better way to go. Thank you, Mister President.

(The Chair recognized Senator Innis for a question of Senator Sanborn.)

SENATOR INNIS: Thank you, Mister President. Thank you for taking my question. I'm looking at the bill and I'm trying to understand: "Each credit shall be used to offset the taxpayers tax liability within the subsequent 5 tax years, or rebated as provided in sub-paragraph (d)." Isn't it apples and apples? It's the same amount of money whether it's a tax credit or a rebate. There's no net additional cost to the state.

SENATOR SANBORN: So, Senator thank you for the question. So, first and foremost, the cost to the state is future tax liability potentially based on future profit. They have the ability to take 75 percent of that back as cash.

SENATOR INNIS: Yes.

SENATOR SANBORN: Right? So typically people have a tax obligation and they would have a tax credit against that. In this case they don't, they may potentially have a tax obligation in the future, but we're actually cutting them a check today if they take option number B, of 75 percent.

SENATOR INNIS: Thank you, Senator. So if I'm to understand this correctly, the rebate would then reduce their tax exposure to the business profits tax?

SENATOR SANBORN: Thank you for the question again. Again, you're making an assumption that they're profitable. They may never be profitable. Start-up companies.

SENATOR INNIS: Thank you, Senator.

(The Chair recognized Senator Fuller Clark.)

SENATOR FULLER CLARK: Thank you very much, Mister President. I serve as a member of the Senate on the New Hampshire Innovation Research Center, and I would draw your attention to the testimony that came before Ways and Means as to why this is an important initiative to go forward at this time.

I would just like to point out to you that we currently are only investing $275,000 to underwrite the New Hampshire Innovations Research Center. Our neighbor state of Maine is currently investing $8.1 million in the same type of program, and if you were to look across the country we would see a number of other states who understand the significance in having us on the cutting edge of new, potentially very successful, businesses that will bring more revenue to the state, that will bring more jobs and that will advance our attractiveness to new and innovative companies.

I think that this is very short-sighted, not to be willing to make these types of investments and recognize that in the end the entire economy of the state of New Hampshire has the potential to benefit. We're not talking about a huge additional amount of money, and we're also talking about the fact that one, that businesses applying for this are thoroughly vetted before they would receive the support and that they also have to come up with a match.

So, I would urge you to overturn Interim Study and move this significant tax credit forward because of all that it means for the economy and the future of the state. Thank you.

The question is on the adoption of the motion of Interim Study.

A roll call was requested by Senator Feltes, seconded by Senator Sanborn.

The following Senators voted Yes: Giuda, Bradley, Gray, French, Ward, Sanborn, Daniels, Avard, Carson, Reagan, Birdsell, Morse.

The following Senators voted No: Woodburn, Watters, Kahn, Lasky, Feltes, Cavanaugh, Soucy, D'Allesandro, Fuller Clark, Gannon, Innis.

The following Senators were excused: Hennessey.

Roll Call, Yeas: 12 - Nays: 11. Adopted.

SB 183-FN, establishing the New Hampshire technology sector marketing tax credit.
Interim Study, Vote 3-2. Senator Daniels for the committee.

SENATOR DANIELS: Thank you, Mister President. I move Senate Bill 183 be referred to Interim Study. This bill would establish a new technology sector marketing tax credit to be used against taxes imposed by the BPT, BET and insurance premium tax. The proposed bill allows a tax credit equal to 75 percent of the contribution made to the Community Development Finance Authority by an eligible business. The total amount of tax credits that could be awarded is $1 million. In keeping consistent with a cautious approach to revenues, this is not the time for additional tax credits. I therefore ask for your support for the motion of refer to Interim Study. Thank you, Mister President.

The question is on the adoption of the motion of Interim Study. Adopted.

HB 560-FN-A-L, establishing keno.
Interim Study, Vote 3-2. Senator Sanborn for the committee.

SENATOR SANBORN: Thank you, Mister President. Mister President, I don't know if I have to declare since Concord voted against Keno and my business is in Concord, but in all due respect I guess I'm going to declare anyway that I may or may not have a conflict and I'm still participating.

So, Mister President, I move House Bill 560 be referred to Interim Study. As this body knows, Keno has already been voted on and passed into law, and several towns in New Hampshire are already operating in a number of cities. While as Chair of Ways and Means I have significant concerns of keno's ability to raise the amount of money that was projected to raise, having another bill that does the same thing seems a bit rhetorical. So therefore, I would move that we move this bill for Interim Study. Thank you, Mister President.

(The Chair recognized Senator Lasky for a question of Senator Sanborn.)

SENATOR LASKY: Thank you, Senator for taking my question. I don't understand, what is there to study now? Aren't we watching it anyway where places have opted to have keno?

SENATOR SANBORN: Senator, thank you very much for the question, it's very astute as you always are. There was conversation in committee as to whether or not we were going to bring forward some other piece of legislation to try and supplement the revenue stream that we were concerned about if keno doesn't match its income projections. But in the end we decided not to do that. So it was sitting there as an Interim Study to buy us some time. We could just as well ITL it if we had wanted to, but we were just being lazy.

SENATOR LASKY: Alright. Thank you.

The question is on the adoption of the motion of Interim Study. Adopted.

HB 574-FN, increasing the limit on contributions to the community development finance authority for which an investment tax credit may be taken. Interim Study, Vote 3-2. Senator Daniels for the committee.

SENATOR DANIELS: Thank you, Mister President. I move to refer House Bill 574 to Interim Study. This bill proposed increasing the annual allowable contributions to the Community Development Finance Authority that may be used as a tax credit from $5 million to $6 million. Given the amount of tax credits on the books, a majority of the committee believes it would not be fiscally prudent at this time to pass this increase. I therefore ask for your support for the motion of refer to Interim Study. Thank you, Mister President.

(The Chair recognized Senator Feltes.)

SENATOR FELTES: Thank you very much, Mister President. Mister President, I rise in opposition to Interim Study so we can do Ought to Pass. Take a look at these votes, 3-2, 3-2, 3-2, 3-2, 3-2, 3-2 and that often looks like that coming out of Ways and Means; doesn't often look like that coming out of other committees. And we can work, we could potentially work in a bipartisan way, including on this bill. How is that possible? Well the House Ways and Means Committee voted unanimously for this bill. All Democrats and Republicans voted to have the CDFA tax credit to go from 5 million to 6 million. There's been recurring debates about whether or not to go to 5 to 8 million, 5 to 7, this bill was initially filed going 5 to 7, a compromise was reached; bipartisan work. Then it comes over to Senate Ways and Means and another 3-2 vote. Pretty par for the course and it's unfortunate because the CDFA does great work.

Everybody knows the projects in your communities that the CDFA has helped support, from economic development, to non-profits, to homeless shelters from Franklin, to Concord, to the Seacoast. We've seen the great work that they've done, and we've received the reports about how this program is cost effective and valuable, and it even does work for the arts community. And this is a modest change; 5 million to 6 million to support an organization and a tax credit program we know works. We know it works.

You know we hear a lot about well we can't do anything right now because we've got a federal tax bill change and we don't know how it's going to affect us, and we're looking at our own budget situation and maybe we don't have as much money as we thought, but if that's the excuse to Interim Study this, I'll just bring it up– when all of the bills have been filed on tax cuts this year, from the tax cut for the first time homebuyer, to the Dean Kamen tax cut, to the interest and dividends phase out, to whatever other tax cut bills we have, I don't know if we can argue today, well look, the federal government just did what they did and we've got a budget situation in New Hampshire so let's hold off.

But every bill that we've filed this year let's go forward on it. So, when those bills come up, 3-2 Interim Study, is that where we're going to be? Probably, I'd assume, if logic and consistency carry the day. So we know the CDFA does great work. Let's vote down Interim Study, let's vote this out in a bipartisan way, just like House Ways and Means did. Thank you, Mister President.

(The Chair recognized Senator Fuller Clark for a question of Senator Feltes.)

SENATOR FULLER CLARK: Senator Feltes, would you know when the last time was that the $5 million investment was established, how many years ago?

SENATOR FELTES: I'm afraid I don't know exactly but it's been over a decade. I know that much. And I know that a few years ago our friend from District 10, the precursor to Senator Kahn, Senator Kelly submitted a bill going from 5 to 8 million; and that pass was considered for inclusion in the budget was not included, and it's been an ongoing debate. And so, this was a, I think a reasonable compromise to go from 5 to 6 to finally increase it. Again I don't know exactly when the last time it was increased though.

SENATOR FULLER CLARK: Would you agree with me that the cost of these projects has grown over the decade, and that if we want to continue just the base impact of this program that it would make sense to add another million dollars at this particular juncture?

SENATOR FELTES: I absolutely agree with you, Senator.

SENATOR FULLER CLARK: Thank you.

(The Chair recognized Senator Sanborn.)

SENATOR SANBORN: Thank you, Mister President. Mister President, I rise and ask the body to continue to support the motion of Interim Study. And I get a great chuckle out of my friend from District number 15 when he talks about the fact that our votes often times are 3-2; and I'd remind the body that when we try to cut taxes for everybody in New Hampshire, the vote of 3-2 was just in the reciprocal of what you see today. When we try to cut taxes for the business communities, for economic development, for all businesses the vote was 3-2 in the reciprocal from the other way.

Because globally, Mister President, we have a philosophical discussion going on and that's where our debate is today. Are we trying to cut taxes for everybody? Or are we trying to cut taxes for specific people? And although these are laudable policy considerations for all types of great companies, 176 million reasons, this is one; 176 million reasons last year, we looked to find specific tax breaks for specific companies.

When the committee feels on a vote to 3-2, and Mister President, I'll remind you, I apologize, not nearly as good as the Senator from District 3, bringing in copies of editorials and articles where the *Union Leader* actually rose to this thing to say that the decisions that the committee made to Interim Study these bills, although it looks in the reciprocal to what we typically see, is the right decision.

It's about us looking at policy to provide tax relief to everybody, not specific people. And that combined with what my colleague said in District 2 about not fully understanding the full ramifications of federal tax code yet, and I hope we do soon. As well as looking at our financial strength and the revenue coming in– love to see it get a little better, obviously

the plowing companies and oil companies are going to be having a pretty good week; plumbers are having a great week in my house, but I'm cutting them a huge check, so he better be having a good week.

I ask the committee to stick with where we are today on Interim Study, and I appreciate your time. Thank you, Mister President.

(The Chair recognized Senator Kahn.)

SENATOR KAHN: I just want to say quickly that…and I'm flipping my opinions on this because I was held accountable by several people in my district for voting against this the first time through. And I felt similarly as my colleague from District 9 says, that we ought to look at all of our revenue sources and realize they're very slim. We're very cornered by not having the resources we need to do things that our communities are asking us to do; to give them some relief, and to make some progress where we're stalled. This is one of those programs that gives communities relief and moves things along where they're stalled, and there's no lack of interest in the community to buy into these. They sell out so quickly. The last project we had in Keene I think was done in a week, in a week. So, I flipped.

I'm thinking $1 million versus $150 million decisions are a lot more affordable for us, and I'm ready to vote in favor of this $1 million increase and say this is going to help communities, this is the kind of progressive, property sensitive, property tax sensitive kind of effort that we can do to propel some innovations, some development in our communities. I'm going to vote in favor of it this time. I hope my colleagues do too. Thank you, Mister President.

The question is on the adoption of the motion of Interim Study.

A roll call was requested by Senator Avard, seconded by Senator Fuller Clark.

The following Senators voted Yes: Giuda, Bradley, Gray, French, Ward, Sanborn, Daniels, Avard, Carson, Reagan, Birdsell, Gannon, Innis, Morse.

The following Senators voted No: Woodburn, Watters, Kahn, Lasky, Feltes, Cavanaugh, Soucy, D'Allesandro, Fuller Clark.

The following Senators were excused: Hennessey.

Roll Call, Yeas: 14 - Nays: 9. Adopted.

PRESIDENT MORSE: We are now at the conclusion of the regular calendar and will take up the bills that were removed from the consent calendar.

EXECUTIVE DEPARTMENTS AND ADMINISTRATION
SB 55, relative to backflow devices for water.
Ought to Pass with Amendment, Vote 5-0. Senator Reagan for the committee.

Senate Executive Departments and Administration
December 6, 2017
2017-2550s
08/03

Amendment to SB 55

Amend the title of the bill by replacing it with the following:

AN ACT relative to the servicing of backflow devices and arrest powers of fire marshals.

Amend the bill by replacing all after the enacting clause with the following:

1 Backflow Device Requirements. Amend RSA 485:11 to read as follows:

485:11 Backflow Device Requirements and Tests, Installations, Repairs and Replacements. There shall be a backflow prevention device installed at every connection to a public water system if the facility connected may pose a hazard to the quality of water supplied by the public water system as determined by the department. Where applicable, the facility receiving water from a public water supply shall be responsible for having such drinking water distribution system protective backflow prevention devices inspected and tested by individuals certified by a third party who has been approved by the department to conduct backflow device inspection and testing certification. The facility shall also have backflow devices installed, maintained, repaired, and replaced by individuals qualified by either a plumbers license or by certification by the department under RSA 332-E:3, III proving competency in distribution system operation. The activities to be conducted by ***individuals*** qualified [~~individuals~~] ***by certification by the department*** shall be specifically limited to***: (a)***the inspection and testing, maintenance, repair***,*** [~~or~~] replacement, ***removal,*** and installation of the water meters, meter horns, backflow preventers, and assembly devices directly adjacent to and required as part of the protection for the drinking water distribution system***; and (b) the testing, maintenance, repair, replacement, or removal of such devices which are not directly adjacent to the drinking water distribution system***. Testing of drinking water distribution system protective backflow prevention devices, where applicable, shall occur after installation or repair to ensure that new and repaired devices are working properly. There shall be a backflow prevention device installed at every connection to a public water system if the facility connected may pose a hazard to the quality of water supplied by the public water system as determined by the department of environmental services. The facility receiving water from a public water supply shall be responsible for having such backflow prevention devices installed, serviced, and tested by individuals qualified by license or certification to perform these activities. Testing of backflow devices shall occur twice annually unless the public water supplier determines the facility poses a low hazard, in which case testing shall be performed on an annual basis. The facility receiving water from a public water supplier is responsible for ensuring that the backflow prevention [~~device is~~] ***devices are*** working properly to prevent backflow into the public water system. Testing shall also occur twice annually for any high hazard devices and facilities. When the public water supplier determines that the facility poses a low hazard, testing shall occur annually. A residential property containing a nontestable device shall not be considered a hazard facility and shall not require annual testing. A residential property may be considered a high hazard facility if it has an irrigation system, private well connection, or other feature that may cause a public health risk. If an outside irrigation system is the sole reason a residential property is considered a hazard to the public water supply distribution system, such irrigation system shall be tested annually during the period when the irrigation system is operated. The facility receiving water from a public water supplier is responsible for ensuring that the backflow prevention [~~device is~~] ***devices are*** working properly to prevent backflow into the public water system.

2 Exceptions; License Requirements. Amend RSA 153:36, IV to read as follows:

IV. The license requirements of this subdivision shall not apply to employees of public drinking water systems and public water system operators certified by the department of environmental services for drinking water treatment plants and distribution systems, when performing plumbing tasks within their certifications, as defined in RSA 485:11 and RSA 332-E:3. This exception is specifically limited to the testing, maintenance, repair***,*** [~~or~~] replacement, ***removal,*** and installation of the water meter, meter horn, and backflow prevention devices directly adjacent to and required as part of the protection of the drinking water distribution system ***and the testing, maintenance, repair, or replacement of such devices which are not directly adjacent to the drinking water distribution system***.

3 Duties of Commissioner. Amend RSA 21-P:4, V to read as follows:

V. Have discretion to grant to the state fire marshal and any deputy fire marshal or fire investigator within the division of public safety the authority [~~to detain and make arrests as a peace officer pursuant to RSA 594,~~] to serve criminal processes, to enforce the rules adopted under RSA 153:4-a and RSA 153:5, and to enforce RSA 154:7-a in order to promote the efficient discharge of such persons' lawful duties. Except for fire investigators under RSA 154:7-a, the commissioner shall assure in granting the authority provided in this paragraph that any person so designated has received appropriate law enforcement training through a program approved by the police standards and training council. Whenever persons [~~authorized as peace officers~~] under this paragraph are involved in the investigation of felonies or cases involving death due to fires, [~~or whenever an arrest is to be made,~~] such persons shall as soon as practicable notify a law enforcement agency having jurisdiction in the geographical area where the [~~arrest or~~] investigation is to take place.

4 Effective Date. This act shall take effect 60 days after its passage.

2017-2550s

AMENDED ANALYSIS

This bill allows individuals certified by the department of environmental services to do so, to perform services on backflow devices that are not directly adjacent to a drinking water distribution system.

This bill also removes the power to detain and arrest from fire marshals.

SENATOR REAGAN: Thank you, Mister President. I move Senate Bill 55 Ought to Pass with Amendment. This bill as amended clarifies duties and responsibilities within the appropriate statutes and removes from statute the ability of the fire marshal, deputy fire marshal or fire investigator within the Division of Public Safety the authority to detain and make arrests as a peace officer. This is an extensively heard hearing on multiple problems related to backflow devices: who could install them, who could inspect them, and how it intersected with master plumbers. This resolves any extensive work done by Senator Carson on this problem; straightens out a lot of problems and especially with the Department of Safety.

The Chair ruled sections of the Committee Amendment non-germane.

Without objection, Senate Rule 3-17 is suspended to allow consideration of the non-germane Committee Amendment. Adopted by the necessary 2/3 vote.

(The Chair recognized Senator D'Allesandro.)

SENATOR D'ALLESANDRO: Thank you, Mister President. The history that surrounds this bill is quite interesting and I did some research on it and I did have conversations with the chairman of the committee and the chairman I believe will be offering an amendment.

This situation was the result of an incident that took place I think in the lakes area. So, the incident was reported and there seems to be some really mixed reaction to the activity that took place, having to do with the complaint, how the complaint was addressed, whether the backflow installer was dealing with a plumbing situation, and how that affected the job. And the complaint was that a person was doing plumbing without a license, which is a Class B misdemeanor. As a result of this, a number of things took place, and I don't have the exact items, ba bing, ba bing, ba bing and so forth and so on, but obviously it was a chaotic event and it's come back and it looks like it was a punitive action that didn't have to take place against the individual who was performing the function other than addressing the backflow situation, and how the enforcement took place.

Now I recognize this because my family was in the plumbing and heating business, my dad was a plumber, my brother is a plumber, my nephew is a plumber up in Campton, and it's very important that, as we know as of today, the plumbers are just being called to do everything. If you get the wrong thing done it can cause tremendous harm, and I think the perfect example is the venting of bathrooms. We don't vent them in New Hampshire, many people do their own work. We don't have plumbing inspectors all over the state. I just give you that as an example and the repercussions from that. So, there is a problem if you do something wrong, if you're not a plumber, and it causes you financial problems and the utilities don't work.

In this particular situation from what I can gather– and I'm not an inspector, I didn't do the thorough investigation– it seems to be that the punitive action was fairly significant, so there was a repercussion, and the repercussion is the bill that's before us. Now in the original bill, you take authority away from two entities. I don't think that that's right and maybe– I have an amendment before, and maybe this the amendment that's in the calendar, that takes the authority invested in the commissioner of safety who then gives authority to those who are working the program. I think that's a good move. Because the commissioner is responsible for the fire marshal's office and, indeed, should have the authority to make the appropriate move in terms of investing that authority in a situation. But indeed, it's problems like this that turn into monumental events.

Now I think this is solved by the amendment and I apologize, because I was looking at one and not the other. It is solved by this, but indeed, does it have to come to this level? I mean shouldn't people who are supervising, supervise in the proper manner and not cause chaos by being punitive? Alright? That's not the basic idea of regulation. The idea of regulation is that people do the job that they are hired to do and don't do anything beyond that because it causes, again, ramifications that sometimes lead to the traditional unintended consequences.

So, I think the amendment addresses that, and I would just encourage my colleagues to take a look at the dossier that accompanied this and I'm sure that the Senator has seen it. I mean it's a monumental document, if you go through it, I've got fifteen pages of material here addressing this particular situation and that really shouldn't be. I think we're here to monitor, we're here to inspect and we're here to make sure that the

job you're hired for is the job that you do, and you do it well, and that's how you get a license. So, with that, Mister President, I thank you and appreciate the courtesy of the body.

(The Chair recognized Senator Carson.)

SENATOR CARSON: Thank you, Mister President. Geez, this was kind of an interesting situation that we had in front of our committee. This is my bill, and the person that brought it asked me to bring it in as a constituent. And I don't think there's any doubt that the person who cut the pipe, and it was a dead pipe, and he was asked to do this by the building owner, acted outside the scope of his certification. But where we had a lot of difficulty was in the fact that the fire marshal had him arrested. And I agree with the Senator from Manchester that there was a lot of things that happened prior to that. But we have a process where if someone violates the tenet of their licensure, it is something that goes to the board, and it is for the board to determine what happens to that person.

Now, as I said, we all talked about this in our committee, we are all completely in agreement on this issue and in fact I know that I have been, others have reached out to me about other instances where people had been arrested by the fire marshal and it was pretty egregious. So that is why we have the amendment and all it does is it removes the fire marshal's ability to arrest people. The fire marshal is not a police officer; that is not the job. But he is invested in these powers and we've just said look, do all the investigating that you need to do on any particular instance.

And if you look at some of the RSAs, and I want to thank one of the other Senators from Manchester for pointing out RSA 154:7-a dealing with fire investigations because I received a position paper and I'm not sure if others received it, as well, saying that this was going to impede the fire marshal's ability to investigate arson. As we all know arson is an extremely serious crime, oftentimes resulting in loss of property and, unfortunately, death. But there's nothing in this statute that gives the fire marshal the ability to arrest somebody, and this statute repeatedly talks about the police. It is the police, their job to make the arrest, and the committee just felt very strongly that it should not be within the purview of the fire marshal to make arrests. So, thank you very much.

The question is on the adoption of the Committee Amendment. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to Third Reading.

JUDICIARY
HB 143, relative to recommittal of a prisoner by the parole board. Ought to Pass with Amendment, Vote 5-0. Senator Carson for the committee.

Senate Judiciary
December 5, 2017
2017-2544s
04/03

Amendment to HB 143

Amend the bill by replacing section 1 with the following:

1 New Paragraph; Parole of Prisoners. Amend RSA 651-A:19 by inserting after paragraph VII the following new paragraph:

VIII. Notwithstanding paragraph I or VII, the parole board may suspend any portion of the term of recommittal for a prisoner who enters and successfully completes a residential or intensive outpatient substance abuse treatment program deemed acceptable by the board.

2017-2544s

AMENDED ANALYSIS

This bill authorizes the parole board to suspend any portion of the term of recommittal for a prisoner who enters and successfully completes a residential or intensive outpatient substance abuse treatment program deemed acceptable by the board.

SENATOR CARSON: This bill as amended would allow the parole board to suspend any portion of a term of recommittal for a prisoner who successfully completes a substance abuse treatment program deemed acceptable by the board. This is an important step in ensuring an effective and appropriate parole system in relation to our current opioid crisis.

(The Chair recognized Senator Carson.)

SENATOR CARSON: Thank you, Mister President. I would ask the body vote no on the Committee Amendment so that I can bring forward a Floor Amendment.

The question is on the adoption of the Committee Amendment. Failed.

Senator Carson offered a Floor Amendment.

Sen. Carson, Dist 14
December 29, 2017
2018-0028s
04/05

Floor Amendment to HB 143

Amend the bill by replacing section 1 with the following:

1 New Paragraph; Parole of Prisoners. Amend RSA 651-A:19 by inserting after paragraph VII the following new paragraph:

VIII. Notwithstanding paragraph I or subparagraphs VII(a) or (d), the parole board may impose a term of recommittal of less than 90 days for a prisoner who enters and successfully completes a residential substance abuse treatment program deemed acceptable by the board.

2018-0028s

AMENDED ANALYSIS

This bill authorizes the parole board to impose a term of recommittal of less than 90 days for a prisoner who enters and successfully completes a residential substance abuse treatment program deemed acceptable by the board.

SENATOR CARSON: Thank you, Mister President. This bill has, again, been in another very interesting one as it came to us from the House. There was a whole list of items that they wanted to have a little more control over, and as you can imagine that caused a little bit of angst for some folks. So, we've been working on this issue and I'd like to thank the parole board and the police benevolent association, they were finally able to get together and reach agreement on a few things, not everything, but a few things. And the Floor Amendment reflects the things that they have agreed upon. So, just to kind of encapsulate that: it removes the eligibility of sexual offenders and those convicted of violent crimes for

reduced sanction. So, the second thing it does is it makes the bill apply only to residential treatment, residential substance abuse treatment, not intensive outpatient programs, and finally it clarifies that the setback is being reduced not suspended. So, thank you very much, Mister President.

(The Chair recognized Senator Soucy for a question of Senator Carson.)

SENATOR SOUCY: Senator I just want to be clear, the original committee amendment allowed for some type of day program for somebody to participate in. This in fact limits it to residential setting, so somebody would have to be in full time treatment as opposed to a come and go part time basis?

SENATOR CARSON: Yes, you're exactly correct, this was the compromise that was reached between the parole board and the other association.

SENATOR SOUCY: Thank you.

(The Chair recognized Senator Kahn for a question of Senator Carson.)

SENATOR KAHN: Thank you, Mister President. Thank you Senator for taking the question. Assume that residential treatment, and treatment in general, we might expect it doesn't have a defined limit to it, except as, perhaps, some insurance programs might define it as being twenty-eight days. Are we implying that there's a standard that's being set here, that adequate treatment in a residential setting for twenty-eight days is an acceptable length of time to lead to the lowering of the ninety-day recommittal?

SENATOR CARSON: Thank you for the question. I don't believe so, Senator. The problem is, is you're taking folks that are out on parole that have violated their parole and they would go back into prison for ninety days, and if they're struggling with some sort of an addiction, you really want to give them the opportunity to go for treatment as opposed to being re-incarcerated. We know here in New Hampshire we do have a problem with recidivism, and so let's while we have them instead of having them sit in prison for ninety days where they're not going to get any treatment, if we can get them into a residential treatment program hopefully that will help them turn around and they won't be violating their parole again.

SENATOR KAHN: Thank you, Senator. So do you feel that there should be extended treatment beyond the residential where the person has violated the parole continues to seek ongoing treatment as a condition of reduced sentence?

SENATOR CARSON: Thank you for the question Senator. I believe that would be within the purview of the parole board, to make that kind of additional requirement on that individual.

SENATOR KAHN: Thank you.

The question is on the adoption of the Floor Amendment. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to Third Reading.

HB 614-FN, relative to forfeiture of personal property.
Interim Study, Vote 5-0. Senator Gannon for the committee.

SENATOR GANNON: Thank you, Mister President. This bill will have limited the conditions under which seized property may be transferred to a federal agency. As new guidelines may be coming from the Federal Government the committee recommends placing this bill in Interim Study until the Federal Government's position becomes clear. Thank you, Mister President.

(The Chair recognized Senator Sanborn.)

SENATOR SANBORN: Thank you, Mister President. I'll try to be very quick. Mister President, as you know this state and this body, and the House have passed civil asset forfeiture reforms to ensure that those who are facing crimes have their day in court before they potentially lose the assets that they have. We also know that part of that civil asset forfeiture reform we did left some questions as to what the Federal Government could do that was different then what the state government was doing. And it's come to the attention, which is obviously why this bill came forward, that while New Hampshire does have civil asset forfeiture protection in place, there are instances where the assets are being transferred to federal agencies or in a shared agency response which is circumventing New Hampshire law. As a result of that, this bill came in.

My understanding in speaking to one of our other Senators is during testimony at least one community actually came and testified that if this bill passed they would lose I think the number was $100,000, which clearly shows that there are towns that are using a loophole, if I can use my friend from Concord's statement, a loophole to circumvent the civil asset forfeiture protections that we're providing to the people in New Hampshire. And although I do respect and understand that the Federal Government might be working on something, I'm not sure I am convinced that it's going to happen in an expedient manner.

So, I think it would be best for this body if you believe in civil asset forfeiture protections, if you believe in the reforms you voted for and passed and are in law today, that we would overturn the Interim Study and pass the bill. So, I'm asking for people to vote down, say no on Interim Study, and go to a motion of Ought to Pass. Thank you, Mister President.

(The Chair recognized Senator Carson.)

SENATOR CARSON: Thank you, Mister President. The Senator from Bedford is correct. We did address this issue, I believe it was the last term, dealing with the state civil asset forfeiture and we did pass the bill. But here we're talking about the federal, on the federal side, and what this bill really wants to do is to prevent our local police departments from partnering with the Federal Government in the shared programs. So, we held on to the bill because we felt that we needed to get some more information and we continued to receive information on this issue all summer long.

A bill was filed in September in the federal House which passed. I do have the bill number here, might take me a couple seconds to find it. But there was also a Directive (U.S. Department of Justice, Criminal Division, Policy Directive 17-1) that went out after July 19, 2017 in which the Attorney General of the United States issued an order allowing Department of Justice Components and agencies to forfeit assets seized by state or local law enforcement. In here they talk about it as federal adoptions. And they made sure that there were a number of safeguards in place.

First and foremost, "To ensure that adoptions involve property lawfully seized, legal counsel at the federal agency adopting the seized property must continue to review all seizures for compliance with [the] law, especially seizures made pursuant to [the exception] an exception to the Fourth Amendment's warrant requirement."

Secondly, "To assist federal legal counsel in this review process, the form used by state and local agencies seeking federal adoption of seized assets…

will require that the state or local agency provide additional information about the probable cause determination justifying the seizure. This additional information in the adoption form will better document probable cause in the first instance, and provide federal legal counsel with the relevant information relating to probable cause for review. State and local agencies will also be required to certify on the form that they have obtained a turnover order, if necessary."

Third, "Adoptions of cash in amounts equal to or less than $10,000 may require additional safeguards. Those adoptions will be permissible where the seizure was conducted: (1) pursuant to a state warrant, (2) incident to arrest for an offense relevant to the forfeiture, (3) at the same time as [the] seizure of contraband relevant to the forfeiture, or (4) where the owner or person from whom the property [was] seized makes admissions regarding the criminally deprived nature of the property. If a federal agency seeks to adopt cash equal to or less than $10,000 and none of these safeguards is present, then the agency may proceed with the adoption only if the U.S. Attorney's Office first concurs."

There's a lot more in here Mister President, but I do want to point out it says, "In order to give individual property owners an opportunity to challenge the seizure as soon as practicable, the Department will expedite federal agencies' decisions regarding adoptions and their provision of notice to interested parties. State and local law enforcement agencies must request federal adoption within 15 calendar days following the date of seizure. The adopting federal agency must send notice to interested parties within 45 days of the date of seizure." And it goes on to say that time limitations may be extended when appropriate.

And let me see, I think it's right here, the House Bill that was originally filed in the 115th Congress is HR 1843 and it is "…to prohibit the Internal Revenue Service from carrying out seizures relating to a structuring transaction unless the property to be seized derived from an illegal source or the funds were structured for the purpose of concealing the violation of another criminal law or regulation, to require notice and a post-seizure hearing for such seizures…for other purposes." This bill passed the federal House; it is currently in Senate Finance awaiting action. So what I think is interesting, the Federal Government is talking about seizures of $10,000 or less. This bill talks about seizures of $100,000. So, I do think that this bill deserves more study before it comes forward in light of the changes that have been made by the Federal Government and that's why the committee recommends that we Interim Study this so we will have an opportunity to follow the legislation and make recommendations at the appropriate time. Thank you very much, Mister President.

PARLIAMENTARY INQUIRY

(The Chair recognized Senator Sanborn for a parliamentary inquiry.)

SENATOR SANBORN: Mister President, if I believe that voting down the Interim Study so I could introduce a motion of Ought to Pass were in order would you vote no on Interim Study?

PRESIDENT MORSE: If you're in favor of refer to Interim Study you're going to say aye, if you're opposed you're going to say nay.

The question is on the adoption of the motion of Interim Study.

A roll call was requested by Senator Sanborn, seconded by Senator French.

The following Senators voted Yes: Woodburn, Bradley, Watters, Gray, French, Ward, Kahn, Avard, Lasky, Carson, Feltes, Cavanaugh, Reagan, Soucy, Birdsell, D'Allesandro, Fuller Clark, Gannon, Morse.

The following Senators voted No: Giuda, Sanborn, Daniels, Innis.

The following Senators were excused: Hennessey.

Roll Call, Yeas: 19 - Nays: 4. Adopted.

MOTION TO ADJOURN FROM EARLY SESSION

Senator Bradley moved that the Senate adjourn from the Early Session, that the business of the Late Session be in order at the present time, that all bills and resolutions ordered to Third Reading be, by this resolution, read a third time, all titles be the same as adopted, and that they be passed at the present time.

Adopted. Adjournment from the Early Session.

LATE SESSION

LIST OF RULE 6-25'S FOR THE DAY

Senator Avard: SB 189-FN
Senator Gray: SB 220-FN
Senator Morse: SB 1-FN-A
Senator Sanborn: HB 79-FN, HB 121, HB 122, HB 143, HB 151, HB 173, HB 225, HB 296, HB 305, HB 337, HB 342, HB 372, HB 390, HB 472, HB 549-FN, HB 557-FN, HB 560-FN-A-L, HB 561-FN, HB 574-FN, HB 614-FN, SB 1-FN-A, SB 47, SB 49, SB 55, SB 63, SB 75-FN, SB 76-FN-A, SB 84, SB 87-FN, SB 91, SB 92, SB 98-FN, SB 106, SB 112, SB 136, SB 151, SB 154, SB 164-FN, SB 165-FN, SB 169, SB 170, SB 172-FN, SB 178-FN, SB 183-FN, SB 189-FN, SB 195-FN-L, SB 199, SB 214-FN, SB 219-FN-A, SB 220-FN, SB 240-FN-L

ANNOUNCEMENTS

(The Chair recognized Senator Feltes.)

SENATOR FELTES: Thank you, Mister President; personal privilege, please. Thank you. A few things: first, on behalf of Erin and Iris and myself, I want to thank all of the Senators and all of the Senate staff for all of their generosity, support, gifts, time, wonderful words– really appreciate it. If Iris was here today she would say the same thing. Although she can't talk yet, although she might be more coherent than I am sometimes. Really appreciate it and really appreciate everything everybody has done to support us, and I look forward to having Iris with me on different occasions. She has been at the Medicaid Expansion Commission and promptly fell asleep when Senator Bradley started talking. But we will…

SENATOR BRADLEY: She cried when you started talking.

SENATOR FELTES: Maybe it was when I started talking.

SENATOR CARSON: She smiled at me.

SENATOR FELTES: She did smile at Senator Carson. So, on a much less happy note, a sad note, you may know that Mary Louise Hancock passed away. She was the first woman Senator, state Senator of District 15, and the first Democrat. In the interest of time I'm going to read segments of her obituary into the record.

Mary Louise Hancock died on December 4, 2017, at [her] home in beloved Concord, after a long and full life. She was born in Franklin, New Hampshire on July 5, 1920, about a month before women in the United States got the right to vote. Her parents, Amanda Lambert Hancock and Herbert Hancock, moved to Concord when she was 8 years old.

Stricken with polio at age 3, Mary Louise never let the limited use of her left leg slow her down. Indeed, throughout her life she met any and all challenges with grit and [with] grace. Whether it was getting things done as New Hampshire's State Planning Director from 1960-1976 or serving as the first woman and first Democrat to represent Concord District 15 in the State Senate. Mary Louise was a can-do Yankee to the core.

Her home was always a welcoming place…with warm hospitality and good scotch. [That's true.] Mary Louise had a keen interest in people and always wanted to hear their stories. She enjoyed stimulating conversation and a competitive card game. [As an aside, Mister President, I've never beat her in cribbage; over two dozen games and she always beat me.] As a 1942 graduate of UNH and an English major, she loved poetry nearly as much as politics. She'd happily regale visitors with passages from Shakespeare, Dickinson, and Frost. Mary Louise was an active and engaged citizen. She served on countless local, state, and national boards and committees. Many sought her out, through [her] years, for advice and input. She was generous, insightful, and knowledgeable purveyor of political and personal wisdom.

A principled advocate, Mary Louise was a staunch environmentalist and a champion for people with disabilities and for seniors. As a public servant, she maintained a strong belief in the power and [the] promise of government to act in the best interests of everyone and to provide a safety net for those in need. Mary Louise will be sorely missed by [a] wide community of family members and friends.

As Mary Louise would say: be sure to vote, and [as] always, "be of good cheer and write when you find work."

(*The Concord Monitor*, Dec. 6, 2017)

Mary Louise, a great friend and mentor to many of us in this room.

On a happier note, I'm going to embarrass my friend from the North Country. As you may know, Jeff Woodburn got engaged about a month ago. Congratulations to Jeff Woodburn!

(The Chair recognized Senator Watters.)

SENATOR WATTERS: Thank you, Mister President. I ask unanimous consent. We lost one of our own, Leo Everett Lessard died October 18, 2017 in Milton. Leo was an extraordinary individual. He had been born in Rochester, raised in Milton, and he loved Milton. Although he did sojourn for fifteen years in Dover, he returned to Milton where he raised his family, made a second family, and served his county in this state. At the time of his death he was a County Commissioner for Strafford County following more than two decades of service as the County Register of Deeds during which time he thoroughly modernized that office, computerized it, and made it a model for offices across all the counties for the state. He served here in the state legislature; he was the Senate Democratic Leader. Also continued to be active in Milton where he

served as town selectman for many years. Those who knew Leo besides knowing his love for his family, his love for Milton, his love for dogs, his love for going out in the boat, and Milton 3 Ponds will probably also know his great, deep love for history in particular Civil War history. You know the memorial service was at the Nute High School, and it was just packed with family, friends, and so many of us who had worked with him over the years. There're two short stories that I remembered when I was sitting there at the service: the first, you know, he graduated from Nute High School and then worked his way through college, the School of Lifelong Learning at UNH. And he would often talk about how other students were there taking their classes, and he was working as a janitor cleaning up the Memorial Union Building. And he never forgot what it meant to work hard for a living, and what a privilege it was to be able to work to get his education. You know, whenever there was an election Leo would show up at meetings with these old, musty boxes filled with letters. And I'm thinking what is this, and he would say every election I've ever run in I've tried to write all my constituents that I could in the time of the election period and these are the letters that I got back from my first race, the first race that I won. And there were hundreds and hundreds of them, and that's how he campaigned. He may have had a few yard signs but Leo was not spending money on campaigns, he was writing individual, handwritten letters to voters asking for their support and thanking them for it. We're all going to miss Leo, and his service to this body, as well. Thank you, Mister President.

(The Chair recognized Senator D'Allesandro.)

SENATOR D'ALLESANDRO: Thank you, Mister President. Again, personal privilege. First I want to thank you for allowing my grandson to come, and thank every member of this Senate for wishing him a happy birthday. And I just want to tell you why he's a miracle, and why I believe in miracles. That young man has Mosaic Trisomy 22; 21 and 23 are mental retardation. He survived by the grace of God, and is a 22. That means he has three chromosomes instead of two and those chromosomes attack his body; that's why he's had thirteen surgeries. He's had open heart surgery; he's had to have his adenoids and his tonsils taken out because he was choking to death. He's had serious surgeries on his hearing. Obviously you know he has the Blue Ear, which is his hearing aid, but he's also had the permeation of his skull; drilled a hole in his skull so another hearing aid could be put in. But he survived all of these things, and is a bright, bright young man. So, it's truly a miracle that he's still alive, and we count every day as a miracle. So, miracles do happen, and his presence here was just wonderful for me and for his mother and his grandmother, and I can't thank you enough for allowing that to happen.

And to all of you, there comes a time in your life, and I had a time in my life this summer where, you know, but for the grace of God I wouldn't be here today, I could've died. I was in the hospital in Connecticut. I had some immediate surgery, emergency surgery, and my death was imminent, but I survived. And, you know, sometimes you survive for a variety of reasons. I'm very, very lucky it just wasn't my time. But the Senate was very kind to me when I was in the hospital and I appreciate that. So, thank you all for everything you do for your constituents, and thank you so much for what you've done for me and my family. Thank you very much, Mister President.

(The Chair recognized Senator Woodburn.)

SENATOR WOODBURN: Thank you, Mister President. I rise for a few announcements here: first to ask for prayers and peace for our colleague, Senator Hennessey, and her family as they deal with her ailing father, John Hennessey.

I'd also ask to pay respect and appreciation to Ryan Mahoney who served as our Chief in the Democratic Office in the Senate for a number of years and has since moved on to the Mayor of Manchester's Office; and Laura O'Neill will end her career with us on Friday, and will be going to work for Senator Shaheen to thank them for their great service to us. We appreciate it very much.

And further, Mister President, if I could also welcome Donald Manning and Alan Raff who will be working in our office as well.

And then one further announcement, Mister President, if you don't mind, the former occupant of this seat, Charles Dailey Bond passed away. Charlie Bond from Jefferson, New Hampshire served in the state Senate from 1985 to '91. He was a dedicated public servant, a person of passion and patience, and a kind neighbor to all. Charlie passed away at the age of 85. He made a peaceful transition with his loving wife of thirty-six years, Marie by his side. Charlie was born on March 20, 1932, and was raised in Topsfield, Massachusetts, and attended The Gunnery School, and received a Bachelor's degree from Harvard; served in the United States Army as Lieutenant and obtained the rank of Captain; and served in many different capacities in his professional life including Personnel Director at Dynamics Research in Stoneham, Massachusetts; and was the owner of the Carroll County Company in North Conway. Charlie was a successful realtor for over twenty years, and negotiated the sale of the 4,000 acre Waumbek property to the United States Forest Service in 1978. He also was the Director of Worker's Compensation in the state of Vermont. Charlie was a great believer of public service and was encouraged by his family to be involved in their community. He was a longtime school board member and Chairman of the White Mountain Regional School Board, and many, many other organizations. And, finally, Senator Bond was kind and generous, and he said, nearing the end of his life he wanted to be "remembered that I really loved humanity," and that certainly was evident in his life and his work. He is survived by his wife, Marie Bond; his children Parker, Geoffrey, Eliza, Joshua, and Rachel. Thank you, Mister President.

(The Chair recognized Senator Kahn.)

SENATOR KAHN: Thank you, Mister President. If you've read cover to cover maybe this is unnecessary, but on the back of our Senate agenda Calendar there is an announcement of Keene State College President Melinda Treadwell inviting you to her Legislative Breakfast on January 22nd with an RSVP deadline of January 12th. So seeing as we won't be convened together before then, I would hope that you'd come to Keene where it's always beautiful, just a couple of degrees colder than some other places in the state.

(The Chair recognized Senator Soucy.)

SENATOR SOUCY: Thank you, Mister President. Mister President I rise for a moment of personal privilege. Since the last time we were in session as many of you know, I didn't think I would do this. My dad passed away on July 9th, and from the bottom of my heart I want to thank all of you, my colleagues, for all of your support during that very difficult time, and for all of your support since then. My father, C. Arthur Soucy, was an extraordinary man, not just to me but to so many in our community.

The outpouring of affection for him was really extraordinary and really means a great deal to me and provides me with comfort. My father was very accomplished in all that he did. He grew up on the West Side of Manchester. He owned his own grocery store; became Grocer of the Year. He was a realtor; received accolades for that. He was involved in, certainly, Democratic politics; he was the founder of the New Hampshire Young Democrats. He was both an Alderman and a County Commissioner. He and I are the only father/daughter Aldermen that have ever served in the city of Manchester. And I could go on and there were so many things said about my dad. As I said, he excelled in everything that he did because everything that he did was about giving of himself. He was the most important man in my life and I will miss him dearly. But, once again, I truly, truly thank all of you from the bottom of my heart. He is greatly missed but, as I said, your condolences, your comfort, your notes, your appearances really made a great difference in my life, and I want to thank you all.

PRESIDENT MORSE: It's been a long holiday season, and I'll just take a moment. There were two women that I'd like to acknowledge. Not only were they friends, they were mentors to me in Salem. Judy Galluzzo was a longtime friend, and she was a loyal and dedicated public servant and served on Governor John H. Sununu's staff among many other public service roles. She was a Salem GOP Chairwoman for many years, an activist, a political advisor, and was the type of person who would do anything for a friend. She was opinionated Senator Downey's looking down on me now saying we got the brunt of that. A strong woman leader in politics, and was certainly a mentor to me. Judy's personality and dedication to our state will surely be missed. Let us keep her and her family and friends in our thoughts and prayers.

Nancy Stickney also passed away. She was one of the most influential women in Salem helping to bring our town to the place it is today as a thriving and growing community. Nancy was inspirational to me; having served in the New Hampshire House for two terms and knowing how to accomplish whatever it was she set out to do. She had an infectious personality and people gravitated to her. She led many service organizations in Salem, and will be remembered for her compassion and dedication to the community and our state. Please keep Nancy's friends, her family, and Wally in your thoughts and prayers. Thank you.

I have a couple of announcements. We have six bills left and three legislative days to deal with them: the 18th of this month, the 25th of this month, and the 1st of February. And I just want to make sure the public understands that if they come here tomorrow the Senate won't be here, we finished our business.

Without objection, all personal privileges and unanimous consent shall be entered into the permanent *Journal of the Senate.* (Rule 2-16 and Rule 2-17). Adopted.

LATE SESSION

Third Reading and Final Passage

HB 122, relative to withdrawal from a cooperative school district.
HB 143, relative to recommittal of a prisoner by the parole board.
HB 151, establishing a committee to study the feasibility of using hemp in agricultural and industrial processes and to further study the licensing, registration, and permitting of industrial hemp growers.
HB 305, clarifying lessee liability for month-to-month leases.

HB 337, relative to municipal regulations of small wind energy systems.
HB 372, relative to construction of the terms "resident," "inhabitant," "residence," and "residency."
HB 390, relative to parties on certain election forms and ballots.
SB 55, relative to the servicing of backflow devices and arrest powers of fire marshals.
SB 84, relative to payment of workers' compensation benefits by direct deposit and authorizing electronic payment of payroll.
SB 87-FN, relative to on-premises sales by liquor manufacturers.
SB 91, relative to the title loan default process.
SB 112, establishing a council on the creative economy.
SB 164-FN, establishing a commission to study repealing the statute of limitations and limitations on actions for sexual assault.
SB 165-FN, authorizing periodic payments as security after a motor vehicle accident.
SB 170, relative to the authority of towns to issue bonds for the expansion of broadband infrastructure.
SB 172-FN, relative to non-menace dams.
SB 189-FN, requiring insurance policies to cover 3-D mammography.
SB 199, relative to limited driving privileges after an administrative license suspension.

MOTION TO RECESS TO CALL OF THE CHAIR

Senator Bradley moved that the business of the day being completed, that the Senate recess to the Call of the Chair for the purposes of introducing legislation, referring bills to committee, scheduling hearings, sending and receiving messages, and processing enrolled bill reports and amendments and when we recess, we recess to the Call of the Chair.

Adopted. The Senate is in recess to the Call of the Chair.

INTRODUCTION OF LEGISLATION

Senator Bradley offered the following Resolution:

RESOLVED, That in accordance with the list in the possession of the Senate Clerk, the following legislation shall be by this Resolution read a first and second time by the therein listed title and referred to the therein designated committee. Adopted.

First and Second Reading and Referral

18-2724
CACR 20, relating to the retirement age of judges. Providing that the retirement age of judges be increased. (Soucy, Dist 18; Bradley, Dist 3; Carson, Dist 14; Lasky, Dist 13; Feltes, Dist 15; Berch, Ches. 1; Judiciary)

18-2779
CACR 21, relative to alcohol and drug abuse prevention. Providing that a portion of liquor commission revenue shall be used for alcohol and drug abuse prevention. (Woodburn, Dist 1; Cavanaugh, Dist 16; Fuller Clark, Dist 21; Hennessey, Dist 5; Lasky, Dist 13; Soucy, Dist 18; Watters, Dist 4; Finance)

18-2844
CACR 22, relating to rights for crime victims. Providing that crime victims shall be afforded constitutional rights. (Carson, Dist 14; Avard, Dist 12; Birdsell, Dist 19; Bradley, Dist 3; Cavanaugh, Dist 16; D'Allesandro, Dist 20; Feltes, Dist 15; French, Dist 7; Fuller Clark, Dist 21; Gannon,

Dist 23; Giuda, Dist 2; Gray, Dist 6; Hennessey, Dist 5; Innis, Dist 24; Kahn, Dist 10; Lasky, Dist 13; Morse, Dist 22; Reagan, Dist 17; Soucy, Dist 18; Ward, Dist 8; Watters, Dist 4; Woodburn, Dist 1; Hinch, Hills. 21; Shurtleff, Merr. 11; Chandley, Hills. 22; Burt, Hills. 39; Chandler, Carr. 1; Judiciary)

18-2713
SB 300, naming a certain bridge connecting Dover and Newington the Ruth L. Griffin bridge. (Morse, Dist 22; Avard, Dist 12; Birdsell, Dist 19; Bradley, Dist 3; Carson, Dist 14; Cavanaugh, Dist 16; D'Allesandro, Dist 20; Feltes, Dist 15; French, Dist 7; Gannon, Dist 23; Giuda, Dist 2; Gray, Dist 6; Innis, Dist 24; Kahn, Dist 10; Lasky, Dist 13; Reagan, Dist 17; Sanborn, Dist 9; Ward, Dist 8; Watters, Dist 4; Woodburn, Dist 1; Transportation)

18-2917
SB 301-FN, temporarily reducing the real estate transfer tax for first-time home buyers. (Bradley, Dist 3; Avard, Dist 12; Carson, Dist 14; French, Dist 7; Fuller Clark, Dist 21; Gannon, Dist 23; Gray, Dist 6; Hennessey, Dist 5; Innis, Dist 24; Lasky, Dist 13; Morse, Dist 22; Watters, Dist 4; Hinch, Hills. 21; Shurtleff, Merr. 11; Abrami, Rock. 19; Butler, Carr. 7; Ways and Means)

18-2766
SB 303, relative to a security freeze on a consumer's credit report. (Gray, Dist 6; Birdsell, Dist 19; Bradley, Dist 3; Carson, Dist 14; Cavanaugh, Dist 16; Daniels, Dist 11; Feltes, Dist 15; French, Dist 7; Fuller Clark, Dist 21; Gannon, Dist 23; Giuda, Dist 2; Hennessey, Dist 5; Innis, Dist 24; Kahn, Dist 10; Lasky, Dist 13; Morse, Dist 22; Reagan, Dist 17; Soucy, Dist 18; Ward, Dist 8; Watters, Dist 4; Woodburn, Dist 1; Biggie, Hills. 23; Butler, Carr. 7; Williams, Hills. 4; Commerce)

18-2838
SB 309-FN, relative to standards for perfluorochemicals in drinking water, ambient groundwater, and surface water. (Innis, Dist 24; Bradley, Dist 3; Avard, Dist 12; Fuller Clark, Dist 21; Gannon, Dist 23; Ward, Dist 8; Carson, Dist 14; Birdsell, Dist 19; Feltes, Dist 15; Messmer, Rock. 24; H. Marsh, Rock. 22; Emerick, Rock. 21; Bean, Rock. 21; Murray, Rock. 24; Energy and Natural Resources)

18-2990
SB 310-FN, establishing a pilot program for community-based diversion services. (Morse, Dist 22; Bradley, Dist 3; Avard, Dist 12; Gray, Dist 6; Fuller Clark, Dist 21; Carson, Dist 14; Health and Human Services)

18-2732
SB 311, clarifying rules of construction under the New Hampshire Trust Code. (D'Allesandro, Dist 20; Bradley, Dist 3; Hunt, Ches. 11; Commerce)

18-2733
SB 312, clarifying the New Hampshire Foundation Act. (D'Allesandro, Dist 20; Bradley, Dist 3; Hunt, Ches. 11; Commerce)

18-2807
SB 314, relative to licensure requirements for nondepository mortgage bankers, brokers, and servicers. (French, Dist 7; Commerce)

18-2821
SB 315, relative to the definition of beverage. (Carson, Dist 14; Innis, Dist 24; French, Dist 7; Birdsell, Dist 19; Biggie, Hills. 23; Packard, Rock. 5; Lundgren, Rock. 5; McKinney, Rock. 5; D. Thomas, Rock. 5; Commerce)

18-2873
SB 316, relative to the regulation of online auctions. (French, Dist 7; Reagan, Dist 17; Commerce)

18-2895
SB 317-FN, relative to veterans' preference in public employment. (Carson, Dist 14; Giuda, Dist 2; Gray, Dist 6; Birdsell, Dist 19; J. Edwards, Rock. 4; D. Thomas, Rock. 5; Morrison, Rock. 9; Baldasaro, Rock. 5; R. Ober, Hills. 37; Commerce)

18-2900
SB 318, amending the prohibitions on youth employment. (French, Dist 7; Commerce)

18-2937
SB 319, relative to exempt securities. (Daniels, Dist 11; Commerce)

18-2781
SB 320, relative to checklists used at elections. (Gray, Dist 6; Election Law and Internal Affairs)

18-2866
SB 321, relative to group host net energy metering. (Giuda, Dist 2; Feltes, Dist 15; Sanborn, Dist 9; Lasky, Dist 13; McConnell, Ches. 12; Energy and Natural Resources)

18-2989
SB 322, relative to access to a water utility. (French, Dist 7; Gannon, Dist 23; Innis, Dist 24; Energy and Natural Resources)

18-2731
SB 323, relative to rehiring of laid off classified state employees. (D'Allesandro, Dist 20; Woodburn, Dist 1; Watters, Dist 4; Hennessey, Dist 5; Kahn, Dist 10; Lasky, Dist 13; Feltes, Dist 15; Cavanaugh, Dist 16; Soucy, Dist 18; Fuller Clark, Dist 21; Bove, Rock. 5; Merner, Coos 7; Executive Departments and Administration)

18-2737
SB 324-FN, allowing an optional retirement system allowance to include a subsequent remarriage of a divorced retiree. (D'Allesandro, Dist 20; Executive Departments and Administration)

18-2931
SB 325, establishing a committee to study the consolidation of the board of mental health practice and the board of licensing for alcohol and other drug use professionals. (Reagan, Dist 17; Carson, Dist 14; Executive Departments and Administration)

18-2833
SB 326, relative to the functions of the division of historical resources. (Bradley, Dist 3; S. Schmidt, Carr. 6; DesMarais, Carr. 6; W. Marsh, Carr. 8; Executive Departments and Administration)

18-2948
SB 327, relative to the medical review subcommittee of the board of medicine and time limits for allegations of professional misconduct before the board. (Feltes, Dist 15; Reagan, Dist 17; Carson, Dist 14; Executive Departments and Administration)

18-2896
SB 328, relative to attorney general membership on certain committees and repealing the criminal justice information system. (French, Dist 7; Executive Departments and Administration)

18-2988
SB 329, relative to inspections of county correctional facilities. (French, Dist 7; Executive Departments and Administration)

18-2999
SB 330, requiring the department of environmental services to give certain persons time to cure violations before imposing a penalty. (Daniels, Dist 11; Executive Departments and Administration)

18-2938
SB 331, prohibiting Medicaid from paying for sex reassignment drug or hormone therapy or surgery. (Daniels, Dist 11; Weyler, Rock. 13; Finance)

18-2723
SB 332, relative to medication synchronization. (Gray, Dist 6; Carson, Dist 14; Soucy, Dist 18; Fuller Clark, Dist 21; Hennessey, Dist 5; Kotowski, Merr. 24; LeBrun, Hills. 32; J. Edwards, Rock. 4; M. MacKay, Hills. 30; Bove, Rock. 5; Health and Human Services)

18-2726
SB 333, relative to pharmacy interns and vaccinations. (Soucy, Dist 18; Bradley, Dist 3; Reagan, Dist 17; P. Schmidt, Straf. 19; M. MacKay, Hills. 30; LeBrun, Hills. 32; M. Pearson, Rock. 34; Guthrie, Rock. 13; Health and Human Services)

18-2809
SB 334-FN, relative to temporary licensure of allied health professionals from nearby states. (Kahn, Dist 10; Bradley, Dist 3; Hennessey, Dist 5; Hansen, Hills. 22; LeBrun, Hills. 32; Weber, Ches. 1; Campion, Graf. 12; Health and Human Services)

18-2897
SB 335, relative to disclosure of asbestos trust claims in civil actions. (French, Dist 7; Reagan, Dist 17; Avard, Dist 12; Hill, Merr. 3; Wells, Merr. 25; Judiciary)

18-2912
SB 336, relative to the judicial district for the towns of Waterville and Livermore. (Woodburn, Dist 1; Ham, Graf. 5; Judiciary)

18-2963
SB 337, relative to the human rights commission. (Reagan, Dist 17; J. Edwards, Rock. 4; Judiciary)

18-2987
SB 338, relative to the growing of cannabis if it becomes legal. (French, Dist 7; Reagan, Dist 17; Judiciary)

18-2715
SB 339, relative to voting by zoning boards of adjustment. (Kahn, Dist 10; Ward, Dist 8; Bordenet, Ches. 5; G. Johnsen, Ches. 7; W. Pearson, Ches. 16; Public and Municipal Affairs)

18-2827
SB 340, relative to department of revenue administration guidelines for municipal audits. (Daniels, Dist 11; Public and Municipal Affairs)

18-2829
SB 341, allowing municipalities to adopt a property tax exemption for certain disabled veterans. (Daniels, Dist 11; Public and Municipal Affairs)

18-2998
SB 342, requiring written disclosure of certain default budget items during the deliberative session. (Daniels, Dist 11; Public and Municipal Affairs)

18-3010
SB 343, relative to legislative ethics guidelines. (Carson, Dist 14; Giuda, Dist 2; Daniels, Dist 11; D'Allesandro, Dist 20; Wall, Straf. 6; Hinch, Hills. 21; Welch, Rock. 13; Packard, Rock. 5; Rules and Enrolled Bills)

18-2710
SB 344-FN, authorizing New England Donor Services, Inc. to issue decals for multi-use decal number plates. (Birdsell, Dist 19; Feltes, Dist 15; Daniels, Dist 11; Weber, Ches. 1; Kotowski, Merr. 24; LeBrun, Hills. 32; M. MacKay, Hills. 30; Guthrie, Rock. 13; Transportation)

18-2984
SB 345, naming a bridge in the town of Lincoln in honor of the Clark Family. (Woodburn, Dist 1; Ham, Graf. 5; Transportation)

18-2875
SB 346, relative to requiring enhanced technology ignition interlock devices. (Birdsell, Dist 19; D'Allesandro, Dist 20; Watters, Dist 4; Carson, Dist 14; Welch, Rock. 13; Green, Rock. 13; Torosian, Rock. 14; Transportation)

18-2985
SB 347, relative to seasonal highway weight limits. (French, Dist 7; Transportation)

18-2725
SB 348, relative to senior-specific certifications or designations for securities broker-dealers. (Soucy, Dist 18; Innis, Dist 24; Gidge, Hills. 33; Biggie, Hills. 23; Commerce)

18-2729
SB 349, relative to course requirements in a career and technical education program. (Watters, Dist 4; Reagan, Dist 17; Kahn, Dist 10; D'Allesandro, Dist 20; Gray, Dist 6; Ladd, Graf. 4; Heath, Hills. 14; Grenier, Sull. 7; Education)

18-2758

REPORT OF COMMITTEE ON ENROLLED BILLS

The committee on Enrolled Bills has examined and found correctly Enrolled the following entitled House and/or Senate Bills:

HB 122, relative to withdrawal from a cooperative school district.
HB 337, relative to municipal regulations of small wind energy systems.

Senator Avard moved adoption of the Report of Committee on Enrolled Bills. Adopted.

Out of Recess. Call the Senate to Order.

MOTION TO ADJOURN FROM LATE SESSION

Senator Bradley moved that the Senate adjourn from the Late Session.

Adopted. Adjournment from the Late Session.

January 18, 2018

The Senate reconvened at 10:00 a.m., a quorum being present.

The Reverend Jon Hopkins, chaplain to the Senate, offered the following prayer:

Let us pray.
Dear God, in these days when the night is long, do not let us grow cynical believing that our work here doesn't matter. Help us to see the light to know that what we do here matters to those that we serve. In these days when the days are cold, let not our hearts grow cold with prejudice and hatred. Warm our hearts with joy in our work so that all who live in New Hampshire may flourish. In these days when we want to huddle at home by the warm fire, help us to see our neighbor in need and make just laws that make homes a reality to all families. In these days, when we can lose hope, give us the joy of gratitude to remember that we get to participate in democracy in a great state in a great country. Give us joy of serving our constituents. Give us the joy of being with our colleagues in the Senate. Help us to find common ground, speak our minds with respect and dignity, and fight for what is good and honorable. Let us work hard in these dark, cold days so that our work may be worthy of our calling. Amen.

Senator Giuda led the Pledge of Allegiance.

INTRODUCTION OF GUESTS

(The Chair recognized Senator Feltes.)

SENATOR FELTES: Thank you very much, Mister President. Mister President I have a number of guests to introduce. First, I'd like to introduce Mary Jo Powelson and Colby Powelson; if you could please stand up, and I'll give an introduction. Mary Jo is the wife of the late David Powelson for whom we're naming a bridge today in Senate Bill 399. David worked for the Department of Transportation in the bridge division for close to forty years and was so involved in the community. And it's just an honor to have Mary Jo, his wife, and their son Colby, so let's please give them a round of applause. Thank you.

Thank you, Mister President. It's also an honor to have some new American African leaders here in Concord with me today as my honored guests. We'll start with Ayi D'Almeida–can Ayi stand up? Or maybe he took off. He was up there before.

We'll start with Sentho Hunt. Sentho arrived into the United States at the age of 5 with her twin brother. They're both adopted from war-torn Sierra Leone in West Africa. Art is her passion and her way of self-expression, and she graduated with BFA in painting and drawing, and also works at the Concord Food Co-op bakery, and is involved in numerous community activities. Let's give a round of applause to Sentho.

I believe Ayi is back. Ayi, my friend Ayi is originally from West Africa and has been in the United States for almost ten years. He graduated from Concord High School in 2011; then UNH Wildcats, 2015, with a bachelor's in international affairs and psychology and a focus in health science. Following graduation from UNH Ayi did a year of service with AmeriCorps, and he has worked with the American Friends Service Committee, including in Concord as a grassroots and community organizer. He also works as a youth coordinator for new African Americans here in the greater Concord area. His goal is to make Concord more youth and young adult friendly and mobilizing young adults to be able to speak up and become more empowered in their community. Let's give a round of applause to Ayi.

It's also an honor, Mister President, to have Jane Yen–if Jane can stand up. Jane is a refugee from the South Sudan. She lives here with her mother and her sisters. Her work, and her aspiration, is to become a cardiovascular surgeon. She wants to excel in health care, providing health care to those who need it most, and to be a role model for young men and women both in Concord and around the world. Let's give a round of applause for Jane.

And Mister President, my last guest: it's an honor to have Martin Toe.

AYI D'ALMEIDA: He's trying to find his way up here!

SENATOR FELTES: Well, we will go ahead and give his introduction. It's going to be great to have Martin. Martin came to the United States due to civil war in Liberia. He is a member of the community group Change for Concord, which does a lot of great work in the Concord community. He's a musician, and he's author of the book *America Calls to Me*. So, in lieu of Martin's absence, and when he comes here, maybe we could do it again, but let's give Martin a round of applause. Thank you, Mister President.

INTRODUCTION OF PAGES

(The Chair recognized Senator Cavanaugh.)

SENATOR CAVANAUGH: Thank you, Mister President. I have two special guests here today. First we have Katie Boyle. Katie is from Manchester,

New Hampshire. She's fifteen years old and a sophomore at Central High School. Katie's favorite subject is biology. She's on the varsity soccer team, girls' soccer team. They just won a state championship this past season, congratulations. And she's also part of DECA, which is Distributive Education Clubs of America. Right now, Katie wants to attend college, but right now she's concentrating on her high school career, and thank you for being here, Katie.

Now I have another special guest, who I am very close to. This is my daughter, Ryleigh Cavanaugh. Ryleigh's sixteen years old. She's a junior at Central High School in Manchester. Her favorite subject is creative writing. Ryleigh also plays varsity girls' lacrosse where she was voted the team captain as a junior coming this season; we're very proud of that. And she also participates in the DECA program. Ryleigh wants to go on to college, and she wants to attend college and major in architect, and minor in political science. Thank you for being here, Honey.

FN REPORT FOR JANUARY 18, 2018

Senator Daniels recommends the waiver of referral to the Finance Committee, Senate Rule 4-5, for the following bills with a fiscal note or an appropriation of funds:

CONSENT CALENDAR:

EXECUTIVE DEPARTMENTS AND ADMINISTRATION

SB 376-FN, relative to the sale of certain cold medications.
SB 377-FN, relative to the regulation of dentists and dental hygienists by the board of dental examiners.

TRANSPORTATION
SB 344-FN, authorizing New England Donor Services, Inc. to issue decals for multi-use decal number plates.

Senator Daniels recommends the following bills be ordered to the Finance Committee upon being found Ought to Pass/Ought to Pass with Amendment:

CONSENT CALENDAR:

EXECUTIVE DEPARTMENTS AND ADMINISTRATION
SB 372-FN-A, establishing positions in the office of professional licensure and certification and making an appropriation therefor.

REGULAR CALENDAR:

EXECUTIVE DEPARTMENTS AND ADMINISTRATION
HB 561-FN, relative to contributions by retirement system employers for certain full-time positions changed to part-time or interim employment and relative to enforcement of provisions concerning retired members working part-time after retirement.

Without objection, the FN Report is adopted.

CONSENT CALENDAR REPORTS REMOVED

EXECUTIVE DEPARTMENTS AND ADMINISTRATION
SB 330, by Senator Sanborn

TRANSPORTATION
SB 397-FN, by Senator Birdsell
SB 399, by Senator Feltes

SPECIAL ORDER

Without objection, the following bill is special ordered to the beginning of the calendar. Adopted.

TRANSPORTATION
SB 399, naming a bridge in Concord in honor of David E. Powelson.

SPECIAL ORDER

Without objection, the following bill is special ordered to the next session. Adopted.

EXECUTIVE DEPARTMENTS AND ADMINISTRATION
SB 371, establishing the Meldrim Thomson, Jr. Memorial Commission.

CONSENT CALENDAR

Senator Bradley moved that the Consent Calendar, with the relevant amendments as printed in the day's Calendar be adopted and that all such bills found Ought-to-Pass be ordered as follows:

FN bills not waived under Senate Rule 4-5, to the Committee on Finance; non-FN bills approved for referral to Finance by the day's FN report, to the Committee on Finance; and all other bills, to Third Reading.

EDUCATION
SB 360, establishing a commission to study whether the department of education should be required to conduct criminal history records checks, via a fingerprint check, on all applicants for teacher certification.
Ought to Pass with Amendment, Vote 5-0. Senator Ward for the committee.

> This bill establishes a commission to study whether the department of education should be required to conduct criminal history records checks, via a fingerprint check, on applicants for teacher certification. It was requested by the department and consists of various members across the spectrum of education. The committee amendment adds a member from the Nonpublic School Advisory Council which was a request of the Roman Catholic Diocese as well as subtracts a Senator from the membership of the commission.

Senate Education
January 9, 2018
2018-0065s
06/10

Amendment to SB 360

Amend RSA 21-N:12, II(a) as inserted by section 1 of the bill by replacing it with the following:

(a) One member of the senate, appointed by the president of the senate.

Amend RSA 21-N:12, II as inserted by section 1 of the bill by inserting after subparagraph (h) the following new subparagraph:

(i) A representative of the nonpublic school advisory council of the department of education, appointed by the council.

Amend RSA 21-N:12, V as inserted by section 1 of the bill by replacing it with the following:

V. The members of the study committee shall elect a chairperson from among the members. The first meeting of the committee shall be called by the senate member. The first meeting of the committee shall be held within 45 days of the effective date of this section. Five members of the committee shall constitute a quorum.

EXECUTIVE DEPARTMENTS AND ADMINISTRATION

SB 324-FN, allowing an optional retirement system allowance to include a subsequent remarriage of a divorced retiree.

Ought to Pass with Amendment, Vote 5-0. Senator Cavanaugh for the committee.

This bill as amended allows a retiree who terminated a retirement system optional allowance following divorce, or whose spouse renounced an election, to nominate a current spouse after remarriage for a new optional allowance.

Senate Executive Departments and Administration
January 10, 2018
2018-0090s
10/04

Amendment to SB 324-FN

Amend the bill by replacing section 1 with the following:

1 Retirement System; Optional Allowances; Retiree Subsequent Remarriage. Amend RSA 100-A:13, II(a)(2) to read as follows:

(2) [~~Due to the death of a former spouse and~~] ***Following*** the retiree's subsequent remarriage, elect to nominate the current spouse as beneficiary under one of the options named in paragraph III***, due to either the death of a former spouse, the termination of an elected option under subparagraph (1), or the termination of an elected option by a former spouse under subparagraph II(b)***. The notice of election shall be on a form designated by the board. The optional allowance shall be effective the first of the month following receipt of the notice. If a retiree dies after filing such notice but before the effective date, the change shall be effective as of the date of death. The optional allowance shall be of equivalent actuarial value. Any supplemental allowances, or COLAs, granted to the retiree before the effective date of the election shall terminate on such effective date,

but the value of such COLA's shall be included in the actuarial determination of the amount of the allowance payable under the elected option.

2018-0090s

AMENDED ANALYSIS

This bill allows a retiree who terminated a retirement system optional allowance following divorce, or whose spouse renounced an election, to nominate a current spouse after remarriage for a new optional allowance.

SB 325, establishing a committee to study the consolidation of the board of mental health practice and the board of licensing for alcohol and other drug use professionals.
Inexpedient to Legislate, Vote 5-0. Senator Reagan for the committee.

This bill would have established a committee to study the consolidation of the board of mental health practice, the board of licensing for alcohol, and other drug use professionals. The testimony indicated that this legislation is not necessary.

SB 326, relative to the functions of the division of historical resources.
Ought to Pass, Vote 5-0. Senator Reagan for the committee.

This legislation provides the Division of Historical Resources the ability to provide assistance to entities seeking to participate in the federal Historic Preservation Tax Incentives program. The legislation also states that the Division shall not establish historic preservation criteria that are more stringent than the federal guidelines.

SB 328, relative to attorney general membership on certain committees and repealing the criminal justice information system.
Ought to Pass, Vote 5-0. Senator Cavanaugh for the committee.

This legislation removes the Attorney General as a member of the Wellness and Primary Prevention Council and the OBD II testing Advisory Committee. In addition, the bill repeals the criminal justice information system program, known as J-One.

SB 369-FN, relative to the publication of the rulemaking register.
Ought to Pass, Vote 5-0. Senator Reagan for the committee.

This legislation provides that the weekly publication of the rulemaking register by the Director of Legislative Services shall be made directly online. The bill removes the statutory requirement for weekly publication of the rulemaking register to be made in a hard copy format.

SB 372-FN-A, establishing positions in the office of professional licensure and certification and making an appropriation therefor.
Ought to Pass, Vote 5-0. Senator Reagan for the committee.

This bill will authorize three license clerk positions in the Office of Professional Licensure and Certification and makes the appropriation therefor. This gives the Office of Professional Licensure and Certification the appropriate resources for addressing licensing applications in an expedient manner.

SB 407, relative to membership of the McAuliffe-Shepard discovery center board.
Ought to Pass, Vote 5-0. Senator Gannon for the committee.

This legislation removes the two legislative members from the McAuliffe-Shepard discovery center board. This removal was done due to the fact that the McAuliffe-Shepard discovery center is no longer operated by the state.

TRANSPORTATION
SB 396-FN, relative to gold star number plates.
Ought to Pass with Amendment, Vote 5-0. Senator Birdsell for the committee.

This bill as amended would allow gold star number plates to be issued to both the mother and the stepmother of a person killed while on duty in the United States armed forces. The bill provides clear criteria for stepmothers who are qualified to receive gold star number plates, and it recognizes the sacrifices made by the families of those who serve in the armed forces.

Senate Transportation
January 10, 2018
2018-0076s
03/04

Amendment to SB 396-FN

Amend RSA 261:87-c, III as inserted by section 1 of the bill by replacing it with the following:

III. A stepmother of a person killed while on duty in the United States armed forces shall only be eligible for gold star number plates if her marriage license is dated prior to the member's fifteenth birthday and the stepmother provides a copy of the marriage license to the director. The stepmother shall also be required to provide a DD Form 1300 to the director. A stepmother shall not receive plates under this section if another stepmother of the person killed while on duty holds gold star number plates furnished under this section.

2018-0076s

AMENDED ANALYSIS

This bill authorizes the issuance of gold star number plates to a stepmother of a person killed while on duty in the United States armed forces.

This bill was requested by the committee to study gold star number plates established in 2017, 29.

The question is on the adoption of the Consent Calendar. Adopted.

REGULAR CALENDAR

TRANSPORTATION
SB 399, naming a bridge in Concord in honor of David E. Powelson.
Ought to Pass, Vote 5-0. Senator Birdsell for the committee.

(The Chair recognized Senator Feltes.)

SENATOR FELTES: Thank you, Mister President. Senate Bill 399 would name a certain bridge in Concord going over I-393 in east Concord in honor of the late David Powelson. David worked for the Department of Transportation since 1978 where he spent his entire career committed to the safety and the maintenance of thousands of bridges across the state of New Hampshire. His friends and colleagues recognize him as a hard-working, honest, generous, and civic minded individual. And I believe the

committee came to the conclusion, certainly I did, that naming a bridge in honor of someone who committed his life to working on our bridges made a whole heck of a lot of sense. A great person, a great family, it's an honor that they're here today, and I would respectively encourage this body to approve the naming of the bridge in east Concord over I-393 informally known as the "Grasshopper Bridge" right now, to the David E. Powelson Bridge. Thank you so much, Mister President.

The question is on the adoption of the motion of Ought to Pass.

A roll call was requested by Senator Feltes, seconded by Senator Birdsell.

The following Senators voted Yes: Woodburn, Giuda, Bradley, Watters, Hennessey, Gray, French, Ward, Sanborn, Kahn, Daniels, Avard, Lasky, Feltes, Cavanaugh, Reagan, Soucy, Birdsell, D'Allesandro, Fuller Clark, Gannon, Innis, Morse.

The following Senators voted No: (None)

The following Senators were excused: Carson.

Roll Call, Yeas: 23 - Nays: 0. Adopted, bill ordered to Third Reading.

INTRODUCTION OF GUESTS

(The Chair recognized Senator Soucy.)

SENATOR SOUCY: Thank you very much, Mister President. I'd like to ask all of you to join with me in welcoming the bright, smiling faces of the students from Hallsville Elementary School. You have a large fourth grade class, so welcome to the New Hampshire Senate!

COMMERCE
SB 92, relative to the consumer complaint process at the banking department.
Inexpedient to Legislate, Vote 3-2. Senator Sanborn for the committee.

SENATOR SANBORN: Thank you, Mister President. Mister President, I move Inexpedient to Legislate on Senate Bill 92. This bill attempts to do two things: it decreases the deadline times that banks and credit unions are required to respond to a consumer complaint by 50 percent; it also decreases the time by 50 percent of when an investigation of that complaint must occur. The majority of the Senate Commerce Committee felt that this bill was too aggressive, it was not responding to any complaints from anybody and, therefore, there were questions as to whether banks and credit unions could actually comply, not to mention the fact that this makes a disparate position between state banks, credit unions, and federal institutions. So, while we understand and agree with the fact that the job of the Banking Department is to operate on a balance of consumer protection and supporting the institutions themselves, in this case we feel that it's a solution in search of a problem, and that the existing system works pretty well by itself. So with that I would move Inexpedient to Legislate. Thank you, Mister President.

(The Chair recognized Senator Feltes.)

SENATOR FELTES: Thank you very much, Mister President. Mister President, I rise in opposition to the committee report. This particular piece of legislation, Mister President, was a request of the Banking Department and it brings our complaint response timeframes down in line with surrounding states. What is the objection to this? Well, we didn't see any objection at the hearing from the industry, and the industry would aptly note that they got a response of the complaints anyways.

So moving the timeframe down so that those responses are provided in a more reasonable way in line with other states is not going to put us at a competitive disadvantage in any way, shape or form. And the notion that somehow inter-relating this with CFPB I don't think is relevant. Look, the jurisdiction of the Banking Department is for state chartered credit unions and banks; the jurisdiction of the CFPB is for the nationally chartered providers and financial services operators. And, quite frankly, the CFPB has much bulkier rules and regulations in terms of the complaint processing. This is simply bumping it up so that our consumers in the state, who, in some cases, are being harmed, are in the midst of being harmed. And bumping up those timeframes so that the complaint process moves a little bit quicker is good for consumers, it doesn't harm the industry–they're responding anyways–and so on balance it's a good piece of legislation. I think it's a reasonable request from the Banking Department. So I would request that we overturn ITL so we can do a substitute motion of Ought to Pass. Thank you, Mister President.

(The Chair recognized Senator Giuda for a question of Senator Feltes.)

SENATOR GIUDA: The Senator from Concord, thank you for taking my question. Would this new restriction have had any effect on the FRM scandal?

SENATOR FELTES: Well, first it's not a…thank you very much for the question, Senator Giuda. It's not a new restriction, it's a…we're bumping up the timeframes to respond. If there's a complaint that's filed, the banks or the credit unions need to respond anyways. It's just bumping up the timeframes when they respond. Second, in terms of FRM, or any complaint that is potentially within the jurisdiction of the Banking Department, as you know during the FRM thing there was a lot of finger pointing about who had jurisdiction and that kind of thing. We don't need to get into it, but what I would say is if it's a relevant jurisdictional complaint with the Banking Department, this would help consumers get quicker process; not super, you know, egregious or burdensome because they've got to respond anyways, but it bumps up the timeframe. So, it's fair to say that it's slightly pro-consumer in terms of getting quicker process within the administrative process of the state. And I think we all want the state to serve our citizens better, and what this does it says let's have quicker process. And, by the way, that's not just good for consumers, that's good for the industry too to get things resolved quicker; not have it looming out there for longer periods of time.

SENATOR GIUDA: Thank you. Thank you, Mister President.

(The Chair recognized Senator Soucy.)

SENATOR SOUCY: Thank you, Mister President. Mister President, I rise in opposition to the current motion and would ask my colleagues to overturn it so that we can offer an Ought to Pass motion. And I just want to speak very briefly to this issue because I actually worked for the New Hampshire Banking Department as a staff attorney taking in complaints, and I was working for the Banking Division at the time. I want to make clear to everybody that this legislation would apply not only to banks and credits unions, but would apply to all other regulated entities, which are sales finance companies, retail sellers, mortgage companies, and others. And, I will tell you although it was years ago, in speaking with the Department, there's no question that the vast majority, I would say, in almost every instance, unless there was a really significant problem and there was back and forth, the complaints are responded to in a far more timely

fashion then is being proposed here. Most of them are resolved within days because banks, credit unions, and other entities want to do good business. They're competing with others, and to the extent someone has an issue or a complaint they want to resolve them. So, suggesting that giving a little less time for them to file their complaint, I would submit to you that over the years they've been resolved sooner than this legislation would propose anyway. And, if they aren't, and if they are not communicating with the Department in as timely a fashion, then there truly is something wrong and it is the Department's job to help provide that consumer with the resolution. This is not onerous, this is not burdensome, this is simply putting our deadlines and our practices in line with other states, with other regulators in the industry, and this is good, I think, for both the regulated entities and consumers, and I would ask you to vote down this motion so that we may offer an Ought to Pass. Thank you, Mister President.

(The Chair recognized Senator Sanborn.)

SENATOR SANBORN: Thank you, Mister President. Mister President, I rise again to remind the body that the committee did have a hearing on this, and there was no one that actually showed up in favor of this other than the Banking Commission, itself. And, again, I think the Banking Commissioner, if I had a the pleasure of sitting beside him in this building, he's a wonderful person, does a great job, I'd point to the members in this room as an example of what egregious government looks like; that the requirement for a bank that could have locations scattered throughout the state of New Hampshire from Pittsburg to Salem would get a complaint on Friday afternoon–and this legislation doesn't give them 10 business days to respond, it give them 10 days to respond. So, by the next Monday they would have to go down to their record keeping place, which could be 150 miles away, and do a full research and try and make it happen while they're still trying to actually operate their business. You know, we talk regularly in the business community about "commercially reasonable." What is a "commercially reasonable" amount of time that an operation should stop what it's doing, look into it, and respond? If there were complaints, if people had filled our hall–this is something I hear all the time, right? No one showed up in opposition, so why are we passing it? No one showed up in favor, so why are we passing it? Why are we using the power of government to put such restrictions on the business community that no one's complaining about today that gives them, literally, a week and a day to make a response? Is that reasonable? And I would submit to you that it's not. The process we have in place today works. There're no complaints saying it doesn't work. So, therefore, again, Mister President, I would ask that the body support the committee recommendation of Inexpedient to Legislate. Thank you very much.

(The Chair recognized Senator Feltes.)

SENATOR FELTES: Thank you, Mister President. I don't want to go back and forth on this too long, but just two quick clarifications. One is certainly legal assistance supported it, the Banking Department supported it, and I think the testimony from the industry was listed as support, was certainly, at least, neutral, and so that's a clarification from the Senator from District 9. Also, the 10 day mark, that's written in acknowledgement of the receipt of the complaint. You don't have to have your full response at that time. So I just wanted to make that clear. And, again, I encourage us to overturn ITL so we can move Ought to Pass. It's a very reasonable request by the Banking Department consistent with the processes in surrounding states. Thank you, Mister President.

The question is on the adoption of the motion of Inexpedient to Legislate.

A roll call was requested by Senator Sanborn, seconded by Senator Avard.

The following Senators voted Yes: Giuda, French, Sanborn.

The following Senators voted No: Woodburn, Bradley, Watters, Hennessey, Gray, Ward, Kahn, Daniels, Avard, Lasky, Carson, Feltes, Cavanaugh, Reagan, Soucy, Birdsell, D'Allesandro, Fuller Clark, Gannon, Innis, Morse.

Roll Call, Yeas: 3 - Nays: 21. Failed.

Senator Bradley moved Ought to Pass.

The question is on the adoption of the motion of Ought to Pass. Adopted, bill ordered to Third Reading.

EDUCATION
SB 358, relative to reorganization of the department of education. Ought to Pass with Amendment, Vote 5-0. Senator Reagan for the committee.

Senate Education
January 9, 2018
2018-0064s
06/04

Amendment to SB 358

Amend RSA 21-N:4, VIII as inserted by section 1 of the bill by replacing it with the following:

~~XIII~~] ***VIII.*** With the advice of the state board of education, and in consultation with the deputy commissioner and the directors of the affected divisions, [~~have~~] ***having*** the authority to transfer or assign functions, programs, or services within or between any division. ***When transfers or assignments are made that require legislative action, the commissioner shall work with the legislature in the legislative session immediately following such transfers or assignments to codify such transfers or assignments in law.***

Amend RSA 21-N:5, I(i) as inserted by section 1 of the bill by replacing it with the following:

(i) Assuring compliance with all federal and state equal opportunity and access requirements, including, but not limited to, those federal requirements concerning awareness and elimination of discrimination on the basis of sex, race, language, national origin, or disability, and state requirements in accordance with RSA 354-A.

SENATOR REAGAN: Thank you, Mister President. I move Senate Bill 358 Ought to Pass with Amendment. At the request of the Department of Education, this bill makes changes to reorganize the Department, including modifying the duties of the Commissioner and Deputy Commissioner. Further, the bill changes the names of several divisions within the Department to more appropriately reflect each of their roles. The committee amended the bill to ensure that the Department will consult with the legislature when transfers or assignments are made within the Department that require legislative action. This legislation will help to allow the Department to carry out the responsibilities and objectives in the most efficient way possible. Therefore, the entirety of the Education Committee asks for your support in the motion of Ought to Pass with Amendment on Senate Bill 358. Thank you, Mister President.

INTRODUCTION OF GUESTS

(The Chair recognized Senator Soucy.)

SENATOR SOUCY: Thank you very much, Mister President. I'd ask all of you to join with me in welcoming the smiling faces from the fourth grade Hallsville Elementary School. Thank you for being with us today.

(The Chair recognized Senator Watters.)

SENATOR WATTERS: Thank you, Mister President. I rise in support of the amendment, and I did want to take an opportunity to thank the committee Chair, the Senator from District 17, for all his hard work on this legislation, which really began almost a year ago. As the Chairman said, it does codify necessary changes in the Department of Education, which we heard about and support. I just did want to confirm the intent of the amendment, which you can see before you on page 6 of the calendar, and it does two things. Indeed, it confirms what we went through this whole process about that there will be this process of consultation as is necessary in statute when changes are made that need to be codified in law. And then secondly, and also importantly there's an amendment here that deals with the classes protected from discrimination. And it's important and was felt to be important by the Department of Education to have this in their own statutory law, but the change here wanted to make sure that there's also reference to RSA 354-A, which is where we codify all the protections afforded. And also, 354-A does make reference to the underlying federal civil rights statutes which govern these as well. And this also can be useful as well so that if there are additional changes made in protected classes we don't have to come back and amend it just for the Department of Education. So, this is a very useful and important bill, and I'm pleased to support it. Thank you, Mister President.

The question is on the adoption of the Committee Amendment. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to Third Reading.

PRESIDENT MORSE: Before I accept a motion from Senator Bradley to the Powelson Family, one of our Senators, her husband got in a car accident and she just arrived, and I believe she wants to vote on your naming of a bridge so we're going to revote on it. So you'll get it twice in one day.

(The Chair recognized Senator Bradley.)

SENATOR BRADLEY: Thank you very much. I appreciate the explanation. Our colleague from Londonderry was unavoidably detained helping her husband who had a car accident, and I'm told that everything is fine. And, obviously, we'd like for all twenty-four of us to be able to honor the Powelson Family and sign the sheet that comes with a roll call for your record. So, in order to do that, Ma'am, I would move that we reconsider our vote on Senate Bill 399 so that I can offer the Ought to Pass motion subsequently.

MOTION OF RECONSIDERATION

Senator Bradley, having voted on the prevailing side, moved to reconsider the following action taken by the body on SB 399, naming a bridge in Concord in honor of David E. Powelson, the bill having been previously found Ought to Pass. Adopted.

The question is on the adoption of the motion of Ought to Pass.

A roll call was requested by Senator Feltes, seconded by Senator Avard.

The following Senators voted Yes: Woodburn, Giuda, Bradley, Watters, Hennessey, Gray, French, Ward, Sanborn, Kahn, Daniels, Avard, Lasky, Carson, Feltes, Cavanaugh, Reagan, Soucy, Birdsell, D'Allesandro, Fuller Clark, Gannon, Innis, Morse.

The following Senators voted No: (None)

Roll Call, Yeas: 24 - Nays: 0. Adopted, bill ordered to Third Reading.

ENERGY AND NATURAL RESOURCES
SB 321, relative to group host net energy metering.
Ought to Pass, Vote 3-0. Senator Bradley for the committee.

SENATOR BRADLEY: Thank you, Mr. President. I move Senate Bill 321 Ought to Pass. This bill removes the requirements that net energy metering group host customers be default service customers of the same distribution utility as the host and that they are responsible for certain costs. Senate Bill 321 will allow those who take part in group net metering to access competitive rates through third party supply. The legislation removes an unnecessary barrier that prevents a consumer's energy choice and allows them to have lower energy costs. Senate Bill 321 further repeals the requirement that group net metering hosts be responsible for the costs in upgrading their utility's information systems to allow for group net metering. The Senate Energy and Natural Resources Committee asks for your support for the motion of Ought to Pass on Senate Bill 321. Thank you.

The question is on the adoption of the motion of Ought to Pass. Adopted, bill ordered to Third Reading.

SB 367, relative to public utilities commission review of group host agreements.
Ought to Pass, Vote 4-0. Senator Feltes for the committee.

SENATOR FELTES: Thank you, Mister President. Mister President, I move Senate Bill 367 Ought to Pass. This bill removes the review by the Public Utilities Commission of net metering group host agreements and eliminates certain payment adjustments for small residential group host systems. Senate Bill 367 alleviates the PUC from an administrative burden. Currently, the PUC must review and report on each group host's generation in the state to ensure it is less than or equal to the consumption of all the members. Most reports reflect that the generation produced is accurate for small group hosts. This bill will exempt group hosts with less than 15 kilowatt hours of generation from the reporting requirement. Given the rise of applications for group net metering at the PUC, Senate Bill 367 will free up resources at the Public Utilities Commission to better address other issues, and it will reduce red tape on both public utilities and the private sector, including smaller businesses and users. The Senate Energy and Natural Resources Committee asks for your support for the motion of Ought to Pass on Senate Bill 367. Thank you.

The question is on the adoption of the motion of Ought to Pass. Adopted, bill ordered to Third Reading.

HB 225-FN, relative to information collection concerning electric renewable portfolio standards.
Ought to Pass with Amendment, Vote 4-0. Senator Bradley for the committee.

Energy and Natural Resources
January 9, 2018
2018-0073s
10/05

Amendment to HB 225-FN

Amend the bill by replacing all after the enacting clause with the following:

1 Electric Renewable Portfolio Standard; Information Collection. RSA 362-F:8 is repealed and reenacted to read as follows:

362-F:8 Information Collection.

I. By July 1 of each year, each provider of electricity shall submit a report to the commission, in a form approved by the commission, documenting its compliance with the requirements of this chapter for the prior year. The commission may investigate compliance and collect any information necessary to verify and audit the information provided to the commission by providers of electricity.

II. The commission shall adopt rules governing the reporting requirements under paragraph I that are designed to minimize the administrative costs and burden on electricity providers.

III. Beginning October 1, 2019 and by October 1 of each subsequent year, the commission shall disclose the information collected under paragraph I as public information in the commission's annual report pursuant to RSA 362-F:10, IV. No information shall be disclosed to the public that is confidential as defined by public utilities commission or NEPOOL Generation Information System rules.

IV. The commission shall provide as part of the annual renewable energy fund report, pursuant to RSA 362-F:10, IV, renewable portfolio standard compliance costs and average electric rate impact; renewable energy certificate versus alternative compliance payments comparison; and alternative compliance payments by class and provider of electricity.

V. The commission shall complete the rulemaking process and submit requests to the administrator of the NEPOOL Generation Information System that are necessary to implement this section no later than April 1, 2019.

2 Effective Date. This act shall take effect 60 days after its passage.

2018-0073s

AMENDED ANALYSIS

This bill modifies the requirements for annual reports by providers of electricity concerning electric renewable portfolio standards and the disclosure of such information by the public utilities commission.

SENATOR BRADLEY: Thank you, Mister President. I move that House Bill 225-FN Ought to Pass with Amendment. The bill modifies the requirements for annual reports by providers of electricity and renewable energy certificates concerning the renewable portfolio standards. This bill, as amended, will grant more transparency to ratepayers about how electricity providers are complying with the renewable portfolio standard. The bill will also provide energy consumers information about renewable portfolio standard compliance costs and its impact on electric rates. The Senate Energy and Natural Resources Committee asks for your support on the motion of Ought to Pass with Amendment. Thank you.

(The Chair recognized Senator Giuda for a question of Senator Bradley.)

SENATOR GIUDA: Thank you, Senator, for taking my question. In the amendment it says, "No information shall be disclosed to the public that is confidential as defined by PUC or NEPOOL Generation Information System rules." What are we withholding? And I don't mean that in any way as a slur. I'm just curious as to what information that might be.

SENATOR BRADLEY: Well that would be confidential information about a renewable certificate that has been established by the NEPOOL rules for what's confidential in terms of how competitors compete with each other.

SENATOR GUIDA: Will that include any rate information?

SENATOR BRADLEY: No, not to my knowledge.

SENATOR GIUDA: Thank you.

The question is on the adoption of the Committee Amendment. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to Third Reading.

EXECUTIVE DEPARTMENTS AND ADMINISTRATION
HB 561-FN, relative to contributions by retirement system employers for certain full-time positions changed to part-time or interim employment and relative to enforcement of provisions concerning retired members working part-time after retirement.
Ought to Pass with Amendment, Vote 4-1. Senator Carson for the committee.

Senate Executive Departments and Administration
January 11, 2018
2018-0110s
10/03

Amendment to HB 561-FN

Amend the title of the bill by replacing it with the following:

AN ACT relative to part-time employment of a retirement system retiree by a participating employer.

Amend the bill by replacing all after the enacting clause with the following:

1 Retirement System; Definition; Part-Time. Amend RSA 100-A:1, XXXIV to read as follows:

XXXIV. "Part-time" for purposes of employment of a retired member of the New Hampshire retirement system but excepting per diem court security officers and court bailiffs, means employment [~~during a calendar year~~] by one or more ***participating*** employers of the retired member which shall not exceed [~~32 hours in each normal calendar week. Employment in some instances may exceed 32 hours in any normal calendar week provided that in such case, the part-time employment of the retired member shall not exceed 1,300 hours in a calendar year, so long as such part-time employment does not occur outside of a 5-consecutive-month period in any 12-month period.~~] ***1,300 hours in a calendar year, except as provided in RSA 100-A:7, II or RSA 100-A:7-b. Notwithstanding the foregoing, no retired member shall be employed on a part-time basis by any participating employer for a period of 28 days from the member's effective date of retirement.***

2 Restoration to Service; Working After Retirement. Amend RSA 100-A:7 to read as follows:

100-A:7 [~~Restoration to Service~~] ***Working After Retirement; Exceeding Part-Time Hourly Limit***.

I. [~~If a disability beneficiary or any other beneficiary is~~] ***Any retired member returning to work for a participating employer in a position requiring mandatory membership pursuant to RSA 100-A:3 shall be*** restored to service[~~,~~] ***and*** the [~~beneficiary's~~] ***retiree's*** retirement allowance shall cease, the [~~beneficiary~~] ***retiree*** shall again become a member of the retirement system***,*** and the [~~beneficiary~~] ***retiree*** shall contribute at the percentage payable pursuant to RSA 100-A:16, I(a). Anything herein to the contrary notwithstanding, any credit for membership service and for any prior service on the basis of which the [~~beneficiary's~~] ***retired member's*** creditable service was computed at the time of [~~the beneficiary's~~] ***his or her*** former retirement shall be restored to full force and effect; upon subsequent retirement, the [~~beneficiary~~] ***retiree*** shall receive a retirement allowance based on [~~the beneficiary's~~] ***his or her*** combined creditable service and [~~the member's~~] average final compensation.

II. The employment of a retired member who, in any calendar year, is employed part-time by a participating employer in a position for which the employer provides prior notice to the retirement system that the position will exceed 1,300 hours in the calendar year but not exceed 1,600 hours in the calendar year, shall be subject to a surcharge on the compensation paid for such position. The employee shall have deducted from his or her salary or wages paid by the employer a surcharge of 3 percent of such compensation. The employer shall be subject to a surcharge of 5 percent of such compensation paid. The employer shall cause such surcharge amounts to be paid to the retirement system at such times as may be designated by the board of trustees and credited to the state annuity accumulation fund for the benefit of the retirement system. The surcharges collected are not contributions of a member and shall not accrue to the benefit of the retired member paying the surcharge.

III. Any retired member who, in any calendar year, works part-time for one or more participating employers and exceeds the maximum permitted hours as provided in RSA 100-A:1, XXXIV or the maximum hours provided in paragraph II, shall forfeit the state annuity portion of his or her retirement allowance, and any allocable cost of living adjustments, with such forfeiture commencing as soon as administratively feasible in the next calendar year and continuing for a period of 12 months.

IV. The board of directors of the retirement system shall adopt rules as necessary to administer and enforce the provisions of this section.

3 Annual Notice Required. Amend RSA 100-A:7-a to read as follows:

100-A:7-a Certain Part-Time Employment; Notice Required. The retirement system shall annually provide written notice to all retired members of the retirement system of the [~~hourly~~] limitations on part-time employment as defined in RSA 100-A:1, XXXIV ***and RSA 100-A:7, II*** and the potential effect that exceeding such hourly limitations could have on the retired member's retirement benefits, including restoration to service as required in RSA [~~100-A:7~~] ***100-A:7, I and the forfeiture of the state annuity portion of his or her retirement allowance under RSA 100-A:7, III***.

4 Certain Part-Time Employment; Emergency Exception. Amend RSA 100-A:7-b to read as follows:

100-A:7-b Certain Part-Time Employment; Emergency Exception. The [~~hourly~~] ***annual*** limitations on part-time employment as defined in RSA 100-A:1, XXXIV shall be modified for retired members [~~who exceed the 32-hour limit while providing assistance~~] ***to exclude any hours worked*** during an emergency under this section. [~~While providing assistance during an emergency under this section, a retired member may exceed the 32-hour limit in a calendar week provided that the member has not exceeded 1300 hours in the current calendar year.~~] For purposes of this section, an emergency includes any event declared by the governor or while working under the direction of the director of the division of forests and lands during woodland fire control. ***Employers shall include hours worked during an emergency as a separate entry in the report required in RSA 100-A:16, VII(a).***

5 Retirement System; Employer Reports. Amend RSA 100-A:16, VII(a) to read as follows:

VII.(a) Every employer shall report to the retirement system [~~monthly~~] ***annually***, in a format provided by the retirement system, all compensation paid by***, and the total hours worked for,*** the employer [~~to retired members~~] ***by each retired member*** of the retirement system, including the name of, and the total hours worked, for each retired member of the retirement system, except that an employer shall not include in the report the compensation and hours worked by a retiree for serving as an elected state official or as an elected official of a political subdivision in either a group I or group II position.

6 Application to Existing Part-time Positions. The amendments to the provisions of RSA 100-A made by this act shall not apply to a retired member working in a part-time position for a participating employer for the position in which the retired member is employed on the effective date of this act.

7 Effective Date. This act shall take effect upon its passage.

2018-0110s

AMENDED ANALYSIS

This bill changes the limit on part-time employment of a retirement system retiree to an annual 1,300 hourly limit, or up to 1,600 hours if a surcharge is paid by the retired member and employer, and prohibits part-time employment in the first 28 days after retirement. The bill also establishes a penalty for retired members' exceeding the annual part-time hourly limits.

SENATOR CARSON: Thank you, Mister President. I move House Bill 561-FN Ought to Pass with Amendment. This bill, as amended, reflects recommendations and some modifications to those recommendations of what was suggested and passed by the Decennial Commission. An amendment was brought forward, and a hearing was scheduled on the amendment to House Bill 561 to address concerns from municipalities, police, and other concerned retirees.

As you know, the retirement system has an unfunded liability of approximately $5 billion. We, as legislators, are constitutionally held responsible to insure the retirement system continues for all retirees–past, present, and future. Accordingly, we came up with the best solutions possible to continue on those paths. One of the first changes included an adjustment to the employer report to an employee reporting so employers will report to the retirement system all compensation paid by, and the total hours worked for each retired member of the retirement system on a yearly

basis, rather than monthly, which is what the reporting requirement is presently. Part-time, in terms of employment of a retired member of the New Hampshire Retirement System, by one or more participating employers shall not exceed 1,300 hours in a calendar year. A retired employee shall not begin employment with a participating employer for 28 days from the member's effective date of retirement.

A restoration of service is now part of this legislation for when an employee exceeds the part-time hourly limit. If hours are exceeded retirees retirement allowance shall cease, and the retiree shall again become a member of the retirement system, and the retiree shall contribute to the percentage payable pursuant to RSA 100-A:16. A retiree who is employed part-time is noticed by the employer the position will exceed 1,300 hours in a calendar year, but not exceed 1,600 hours, shall be subject to a surcharge on the compensation paid for such position. The employee shall have deducted from their wages a surcharge of 3 percent for such compensation. The employer shall also be subject to a surcharge of 5 percent of such compensation paid. These surcharges will be paid to the New Hampshire Retirement System and will be credited to the state annuity accumulation fund for the benefit of the retirement system. These surcharges are not considered contributions of a member and shall not accrue to the benefit of the retired member paying the surcharge. A retired member, who works part-time for one or more participating employers, and exceeds the maximum permitted hours, shall forfeit the state annuity portion of their retirement allowance, and any allocable costs of living adjustments. This forfeiture commences as soon as administratively feasible in the next calendar year and continues for a period of 12 months. For existing part-time positions, amendment to the provisions of RSA 100-A made by this act shall not apply for any part-time position in which a retired member is employed on the effective date of this act.

It should also be noted there that there are emergency exceptions to this legislation.

Mister President, the Decennial Commission worked long and hard to find solutions to some of the more pressing issues they found within the Retirement System. The ED&A Committee voted 4-1 Ought to Pass with Amendment and asks for your support in continuing to keep the New Hampshire Retirement System moving in the appropriate direction. Thank you very much, Mister President.

(The Chair recognized Senator Fuller Clark for a question of Senator Carson.)

SENATOR FULLER CLARK: Thank you, Senator Carson. One concern that I had is we're trying to address the opioid crisis in this state, and that many of our smaller towns rely on part-time employees to help with that situation. And the other situation has to do with the issue of trying to stop the internet abuse for crimes against children; and, also, many of the people that work in that area are also part-time employees. My concern is that is there any way to provide…did you consider providing an exemption for these particular situations which border on being an emergency, and may, if we continue with this legislation without such an exemption, make it more difficult for us to address those very serious situations in the state?

SENATOR CARSON: Thank you very much for the question, Senator. As you know, there is an emergency provision in here. And if the Gov-

ernor should declare a state of emergency, anybody who needed to work over, they would be covered. They would not be held to what the statute says. But, right now, under this legislation the employee can work 1,300 hours a year. That can work out to 25 hours a week, and there's no penalty whatsoever. There's no surcharge. And we set it at 25 hours a week because many municipalities, both for people that are working for a municipality as well as police, have 25 hour a week positions. We also have the 1,300 hours to address communities like the good Senator from District 24's communities that he represents that really employ a lot of seasonal employees, and they're covered. So, I do think that the legislation would allow for those types of situations that you have talked about this morning, plus the fact that if the Governor does declare a state of emergency people would be able to work more hours and not be penalized.

SENATOR FULLER CLARK: Do you know on what criteria the Governor is allowed to declare a state of emergency?

SENATOR CARSON: Senator, no I do not.

SENATOR FULLER CLARK: Thank you.

(The Chair recognized Senator Reagan.)

SENATOR REAGAN: Thank you, Mister President. I rise in opposition to the motion before you. My reasoning has been stated, and restated, and misstated by others. There's an attempt here to make you think that some action that we take is going to improve the financial condition of our bankrupt retirement system. And this action here will do nothing of the sort. The actuaries for the system have stated that punishing people who want to work, and punishing employers, the counties, and the towns by restricting whatever business they want to conduct with whoever they want to conduct it, will not help the financial stability of this retirement system. This hurts the towns, hurts the counties, hurts the Department of Corrections to restrict and make tremendous requirements for reporting on people who have earned their retirement, and they're collecting their retirement, and they're none of our business anymore. They fulfilled their part of the annuity contract, they paid in, they were awarded their pensions, they're free agents. But now, for some reason, because we think they already have enough money for themselves, that we should punish them, and the employers who are in desperate need of the services of many of these retirees, and are entitled to hire whoever they want to hire, that somehow this is going to help the bankrupt retirement system? So, things haven't changed since I was on the first Decennial Commission ten years ago, and things have improved slightly, but we still fail to take the action that we need to take in the retirement system and Band-Aids like this that punish the counties, the towns, and the retirees are not the answer.

(The Chair recognized Senator Sanborn.)

SENATOR SANBORN: Thank you, Mister President. Mister President, I rise and look around the room and think about who was in this room the last time we talked about retirement with the legislation put forth by the Senator from District number 3. Not a lot of us that were here back then, but all of us that were here kind of remembered what happened. It was a more than robust discussion, and the concern was, as it always has been, that if I think if I remember back, what was it now seven years ago, that the retirement program was short like $5 billion. Seven years later it's still short like $5 billion. So it makes me raise

and question, at the get-go, Mister President, holistically, why on God's green earth would anyone who is a state employee or a retiree want the legislature to be managing their money? Because clearly, we haven't done our job. Now that's not to say, at any level, that the legislation that I supported, and I think that people on SB 3 did great work on, but the system's not funded. The system, even though the stock market, I think, cracked 26,000 yesterday, Mister President; we still have a hole that's the size of an annual spending budget for the state of New Hampshire. I have advocated then, I advocate today that we should give people their money back and allow them to go do 401(k)s, and manage their money acknowledging that based upon the decisions that have been made by everybody–by state employees, by the state, by the municipalities–we now have a hole. But the part that bothers me more above that, and why I rise in opposition to this bill, is the staggering proposition that we are debating using the power of government to tell people they cannot work. We're sitting here debating using the power of our government to tell people that want to work that we're not going to allow them to work. How can we possibly think that's a good idea? Now granted, some, Mister President, will rise and say well that's just if they work for a municipality. To me it doesn't make a difference where you work. As a business owner, we're struggling so hard today to find people that will show up and work at our companies across the state. My average payroll is up 40 percent as the free market works, as the free market should–and that's the price we pay for believing in the free market–that we're trying to do everything we can in our power to find people to work. But sitting here today, considering a piece of legislation that limits peoples' ability to work by the power of this legislature is not what I believe that this body should be about. Thank you, Mister President.

(The Chair recognized Senator Kahn.)

SENATOR KAHN: Thank you, Mister President. I rise with a couple of messages and thoughts. One is that I believe that the Senator from District 14, along with the other members of the Decennial Commission, and others in the body who have struggled with the retirement system, and retirees, and their ability to work, I think that they've devoted a considerable amount of time, I respect the positions that they've taken, and that they're offering today. The amendment that's coming forward would not necessarily be the one that I would want to write if I was doing something on behalf of the communities in western New Hampshire that I represent. I will vote in favor of this amendment because I believe that it is moving us closer to where those communities want us to end up. I will also be offering an amendment following our vote on this one, which would move us even further towards where those towns want to be. And, frankly, what that is, is that they are employing people at 30 hours a week, and these are not the top ranked officers; these are part-time positions that are filling needs of bailiffs, and issuing the warrants, and non-patrol work on the police side and emergency services, and code enforcement on the fire safety side. And it's in the spirit of wanting to support those communities and 30 hour a week positions that they have that I would be offering that amendment later. But in order to move this closer to a desirable end I will be voting in favor of this amendment, and then will rise again to ask the consideration of the body of another amendment.

(The Chair recognized Senator Bradley.)

SENATOR BRADLEY: Thank you, Mister President. I think a little history lesson is in order going back to 2011 when several of us, not

a majority, but several of us debated, rather profoundly, Senate Bill 3 in 2011. And while I would agree with my colleague from Senate District 9 that the unfunded accrued liability has remained at $5 billion and that's troubling, problematic and it's actually worse than troubling and problematic, it's really a problem. Our unfunded liability, as I recall, the percentage has moved from 55 percent unfunded to 61 point, I believe 6 percent unfunded. So, we are making progress. Still a problem, but we're making progress. The reason why it's not higher than 61.6 percent is the Retirement Board has recently lowered the expected rate of return on the assets that are invested. When I served on the Retirement Board in 2011 the assumed rate of return was 8.5 percent. The Board moved it down to 7.75 percent. The Board, again, has moved it down to 7.25 percent, and when that happens rates have to go up and the unfunded liability, as a result of that, also goes up because you're assuming less return on those assets. That's realistic, it protects taxpayers, and it should have been done a long, long time ago.

Going back even further than that, and while some would argue, I would make the case that we had two other big problems: we paid benefits over and above what were statutorily required, and municipalities were not contributing enough to the system. And the confluence of those three things–the municipalities not contributing enough, benefits more than statutorily required, and an overly high assumed rate of return–led to the problem that this body confronted, and I think made significant improvements in 2011. I would agree with my colleague from Deerfield, this is not as big an issue as we confronted in 2011. That being said, in my conversation with the retirement system officials last week, they said the actuaries are keeping close tabs on this situation so that it doesn't become a problem. And what our friend from Londonderry's amendment does is try to tighten up the system to benefit the system to make sure that we don't end up as we did in 2011 with skyrocketing rates as a result of mistakes made, and problems unattended to, in the past. And not every everybody will agree with this, and the art of a good compromise is that everybody leaves upset, but something gets done to improve the outcome. That's the elegant compromise our friend from Londonderry has come up with. When this bill was on the floor two weeks ago, any of the, I think it's almost 500 employees that are between the 1,300 hours and 1,600 hours, were not going to be exempt. Our friend from Londonderry's amendment exempts them. So, every one of us probably has small towns in our district that those towns are availing themselves of people working less than 32 hours and not contributing to the retirement system. They are exempted, and let's make it clear that that's the case and it should be the case.

The second thing that our friend's amendment does is to rebalance, if you will, the responsibility of the employers; not just municipalities, but the state, the counties, and the school boards. And when the actuaries look at the overall cost and set the rates for each individual category–municipal employees, teachers, firefighters, police officers–they look at the actuarial tables, life expectancy, assets in the bank, so to speak, and then they set the rate. So that 5 percent that's in our friend's amendment will rebalance, on the other hand, the rate that would be set on the full-time employees. So there should be minimal impact on state, municipalities, counties, and school boards because it's a pot, and it's how you get to the ultimate amount of dollars needed in the pot. So that 5 percent minimizes, on the other hand, what the rate would be on the full-time employees.

In terms of the employee, when we debated Senate Bill 3, and I remember, may have a lot of gray hair, and I refer to myself as a "geezer," I think that bill made me a "geezer." Don't you agree with that my friend from Manchester? Made me a "geezer." It was stressful, we were all stressed out, and that was the 32 hour per week was the compromise that was the most difficult to come to. Our friend from Portsmouth, or Hampton, a former friend, a current friend–I'm referring to Senator Stiles–was a very, very…former friend! Man, I am a "geezer!" She was very, very strong in advocating, as our current friend from Senate District 24 has been, that the town of Hampton and Laconia, in our friend from District 7s district, need to have for bike week, or Hampton Beach, part-time employees that are retired police officers, often times, and able to help out. And so that's why we put in the 32 hour per week stipulation. But it's come to the point that it's not just part-time police officers, or bailiffs, or court security, or prison guards, but it's also others that are becoming part-time fire chiefs and police chiefs that really ought to be contributing to the retirement system in my view. Not everybody shares that view, and we would respectfully disagree, perhaps, on it, but I believe that they should be. And so, for the opportunity, if you will, to work between 1,300 and 1,600 hours, now, we ask that person who is retired and is receiving a retirement check to pay 3 percent toward the actuarial, unfunded liability and the rates necessary to fully balance out the retirement system. I think that's a pretty good compromise. Is everybody going to be happy with it? No. I understand that, but in the long run if we don't tighten up this, what I call a 32 hour loophole, more and more opportunities are going to exist for current positions to be reclassified as 32 hours or less, avoiding the retirement system benefits, which will put more stress on the full-time positions and lead to disparities between towns that do full-time and towns that do 32 hours or less. And so, in the spirit of a difficult compromise that protects the viability of the retirement system, which is vitally important, which protects all tax payers in the state whether they be local, school, county, or state, I think that the amendment that our friend has put forward is a compromise that balances all those interests. And the stipulation has been made that people aren't going to be able to work. That's just simply not the case. They'll be able to work. Anybody currently under today's law that works more than 32 hours is expected to go back into the system. Now the municipalities, schools, counties, the employers will not see added cost because the 5 percent balances it out in one form or another, and those people that were newly formed positions will work between 1,300 and 1,600 hours will be asked to contribute 3 percent of their salary as they work and collect a retirement check. I think that's a balancing of difficult situations. Thank you, Mister President.

(The Chair recognized Senator Soucy.)

SENATOR SOUCY: Thank you, Mister President. Mister President, I rise in support of the Committee Amendment and the hard work that we did in a bipartisan fashion to craft a solution. A lot has already been said; I don't want to repeat what's been said although I do think it's worth emphasizing what my colleague from District 3 said, which is that this system and its current unfunded liability is due to a number of factors including a 20 year holiday that communities had and benefited from, but at the same time employees never got, and continued to make full contributions to. But I would also state that something you may not have all heard because there were five of us on the committee when we were at the hearing, the hearing that we had this past week to consider this

amendment and to prepare this amendment brought a lot of issues to light, and the suggestion was actually offered by people who are working part-time, that they would be willing to pay something into the system. So, I certainly credit the work of my colleague from District 15, but we were actually offered a lot of constructive ideas in putting this together. This isn't something that we came up, this was something brought to us by those people who have skin in the game, who are retirees, who are working part-time. And as my colleague from District 3 said, you know, some of the best compromises are ones where everybody leaves disappointed. Everybody feels like they gave something up. I think this compromise strikes the perfect balance. I think it's short of where I might like, but it's something that I think we all need to recognize is an important step for the sake of the system. I think it's unfair to characterize the system as bankrupt, with due respect to my colleague beside me. The system is on track, communities and those employees that are involved are on track to continue to pay off the unfunded liability. We are going to reach a point in the very near future where the unfunded liability portion is going to start to decrease. And when you look at just the regular pension costs, it's going to be a good deal, a much better deal. But these things take time and that time has started to occur, it's not quite there, it will. But this additional piece–the other problem is that it's a bit of a thorn in the side of some of the tax payers who look at the system when they see somebody collecting a full pension and then working 32 hours. I hear from people that they don't think it's fair. That somebody who worked a full-time job for 30 or 40 years collects a sizable pension then goes and takes, what in many cases really is a full-time job, but they work only 30 or 32 hours so they can characterize it differently and are then collecting a salary over and above that. I know a lot of my constituents don't like that; would like to see it banned altogether. I'm not suggesting that today, but I am suggesting that the Committee Amendment is a bipartisan solution that really goes a long way towards addressing this problem. So I'd ask all of you to support it. It's a good first step. Thank you.

(The Chair recognized Senator Reagan.)

SENATOR REAGAN: I'd like to correct a misthought here. Part of the reason blamed on the shortfall was the failure of the towns to make large enough contributions. This was not a decision of the towns. The employers had no part in that decision. The rates and the punitive rates, and the request for payments all come from the state legislature. So, the towns as employers, and the counties as employers are victims of the actions of the legislature. The legislature created this retirement system, mismanaged it–and I've got the history if anybody wants to know what the real history is–and now we're mad at the towns, we're mad at the people that participated in the system, we're jealous because retirees are making more money than we think they should, or more money than we earn, and so we think we should correct that by punishing them. But nothing you do in this amendment and in the underlying bill will do a thing to improve the financial condition of the retirement system. In the end, the state will have to pay the unfunded shortfall. This doesn't help anything but harms the towns and counties directly. So that's why I'm a no vote on anything to do with pretending we're fixing the retirement system.

(The Chair recognized Senator Carson.)

SENATOR CARSON: Thank you, Mister President, just a point of clarification. I've been contacted by the lobbyists for the counties. The counties are in favor of this amendment. Thank you.

The question is on the adoption of the Committee Amendment.

A roll call was requested by Senator Avard, seconded by Senator Giuda.

The following Senators voted Yes: Woodburn, Giuda, Bradley, Watters, Hennessey, Gray, French, Sanborn, Kahn, Avard, Lasky, Carson, Feltes, Cavanaugh, Soucy, Birdsell, D'Allesandro, Fuller Clark, Gannon, Innis, Morse.

The following Senators voted No: Ward, Daniels, Reagan.

Roll Call, Yeas: 21 - Nays: 3. Adopted.

Senator Kahn offered a Floor Amendment.

Sen. Kahn, Dist 10
Sen. D'Allesandro, Dist 20
January 18, 2018
2018-0172s
06/10

Floor Amendment to HB 561-FN

Amend the bill by replacing sections 1-3 with the following:

1 Retirement System; Definition; Part-Time. Amend RSA 100-A:1, XXXIV to read as follows:

XXXIV. "Part-time" for purposes of employment of a retired member of the New Hampshire retirement system but excepting per diem court security officers and court bailiffs, means employment [~~during a calendar year~~] by one or more ***participating*** employers of the retired member which shall not exceed [~~32 hours in each normal calendar week. Employment in some instances may exceed 32 hours in any normal calendar week provided that in such case, the part-time employment of the retired member shall not exceed 1,300 hours in a calendar year, so long as such part-time employment does not occur outside of a 5-consecutive-month period in any 12-month period.~~] ***1,560 hours in a calendar year, except as provided in RSA 100-A:7-b. Notwithstanding the foregoing, no retired member shall be employed on a part-time basis by any participating employer for a period of 28 days from the member's effective date of retirement.***

2 Restoration to Service; Working After Retirement. Amend RSA 100-A:7 to read as follows:

100-A:7 [~~Restoration to Service~~] ***Working After Retirement; Exceeding Part-Time Hourly Limit***.

I. [~~If a disability beneficiary or any other beneficiary is~~] ***Any retired member returning to work for a participating employer in a position requiring mandatory membership pursuant to RSA 100-A:3 shall be*** restored to service[~~,~~] ***and*** the [~~beneficiary's~~] ***retiree's*** retirement allowance shall cease, the [~~beneficiary~~] ***retiree*** shall again become a member of the retirement system***,*** and the [~~beneficiary~~] ***retiree*** shall contribute at the percentage payable pursuant to RSA 100-A:16, I(a). Anything herein to the contrary notwithstanding, any credit for membership service and for any prior service on the basis of which the [~~beneficiary's~~] ***retired member's*** creditable service was computed at the time of [~~the beneficiary's~~] ***his or her*** former retirement shall be restored to full force and effect; upon subsequent retirement, the [~~beneficiary~~] ***retiree*** shall receive a retirement allowance based on [~~the beneficiary's~~] ***his or her*** combined creditable service and [~~the member's~~] average final compensation.

II. Any retired member who, in any calendar year, works part-time for one or more participating employers and exceeds the

maximum permitted hours as provided in RSA 100-A:1, XXXIV, shall forfeit the state annuity portion of his or her retirement allowance, and any allocable cost of living adjustments, with such forfeiture commencing as soon as administratively feasible in the next calendar year and continuing for a period of 12 months.

III. The board of directors of the retirement system shall adopt rules as necessary to administer and enforce the provisions of this section.

3 Annual Notice Required. Amend RSA 100-A:7-a to read as follows:

100-A:7-a Certain Part-Time Employment; Notice Required. The retirement system shall annually provide written notice to all retired members of the retirement system of the [~~hourly~~] limitations on part-time employment as defined in RSA 100-A:1, XXXIV and the potential effect that exceeding such hourly limitations could have on the retired member's retirement benefits, including restoration to service as required in RSA [~~100-A:7~~] ***100-A:7, I and the forfeiture of the state annuity portion of his or her retirement allowance under RSA 100-A:7, II***.

2018-0172s

AMENDED ANALYSIS

This bill changes the limit on part-time employment of a retirement system retiree to an annual 1,560 hourly limit and prohibits part-time employment in the first 28 days after retirement. The bill also establishes a penalty for retired members' exceeding the annual part-time hourly limits.

SENATOR KAHN: This amendment, Mister President, members of the Senate, this begins to address the concerns that I mentioned earlier. It sets a limit per year of a part-time employee defined as 1,560 hours. That is essentially a 30 hour per week over an entire year. It's that 30 hour number that has been conveyed to me by the towns of Walpole and the city of Keene as a work week that they have used traditionally for many years in the hiring of part-time employees. Again, these part-time employees are not chiefs, these are staff positions; they are retired officers who can carry out "non-beat" functions, so to speak; the bailiffs, the court officers, the administering and distributing of warrants. And on the fire safety side it is the EMS and code enforcement personnel. In other words, these are positions that the departments are having difficulty finding even part-time workers to fill. So, when they convey to me that that 30 hour week is where they're at, that they understand the intentions of the previous amendment to HB 561, but if they were designing it, and if they were making the recommendation for their state Senator, they have recommended to me that we set a limit at 1,560 hours. This retains the 28 day wait period and retains the forfeiture section. It does not retain the section on payments made by municipalities or employees between 1,300 and 1,600 because it could become irrelevant in this case. So, I rise to offer that I think we have made good progress on the previous amendment, and if you have towns and you believe that moving further to the 1,560 allowing for 30 hours work per week without constraint then you would support this amendment. Thank you, Mister President.

(The Chair recognized Senator D'Allesandro.)

SENATOR D'ALLESANDRO: Thank you, Mister President. Mister President, I rise in support of Amendment 0172. I think a couple of things have happened today that I think are significantly important. We had a

great history lesson from the Senator from District 3 as to what happened over an extended period of time. I was here at the time, and at that time I was opposed to the changes. Some of them were good; some of them not so good. The piece of legislation we have today is a manifestation of hard work. I understand that. A problem arose, but that problem was in the making by the municipalities who created this situation. And I'm talking about the deals that were made between retirees and municipalities. And as a result, there were people who were receiving significant retirement, and took a job that gave them even further remuneration. That's a problem. This amendment deals with that problem. But it's the individual who needs 30 hours a week. That individual retires at $12,000 a year in many instances. And I gave a breakdown to my colleagues about the number of people retired, when they're retired, and what they receive in terms of retirement benefits. Retirement benefits on average are about $39,000. That's for everybody in the system. Now the grievous situation that was created is the $100,000 person who then takes a job at 90,000. That's taken care of in both of these amendments. That's a grievous offense. The Roman Catholics would call that calumny. That's a new word for everybody. Calumny is a grievous offense against the Lord. That is a grievous offense if you retire at 100,000 on Thursday and on Friday take a $90,000 job. That's not a good thing. That's not the reason why we have a retirement system. But I'm thinking of the state employee who busted their back and retired at $12,000. That's not enough to pay the bills so they get a job. That job in the 1,560 says you can work 30 hours a week; that's if you take it in that vein. But if you take it in aggregate at 1,560 and there's an emergency situation you could work 40 hours that week. But, indeed, you could never exceed the 1,560. That's what we're trying to do here. We're trying to help the police, who need our help. You can't get policemen. You know we offer tests, and nobody is showing up. So, they need part-timers to fill in. We all want public safety. We demand public safety, right? Isn't it something that we have earned? There are shootings in my district almost every day. The breaking and entering's have become unbelievable in my area. Crime rate is really soaring as a result of the drug problem, which again we're trying to deal with. So, by inserting 1,560 and keeping the 28 days, what we've done is, I think, address the problem which was very well addressed by the committee, but we've also taken care of the person who needs the job, and the community that can't get people. We all saw the article in the *Union Leader* 17,000 jobs could not be filled because we can't find workers. We can't find workers. While on the safety side we have to have workers so we do the best we can with what we've got. I would hope that my colleagues will look at this in that vein. A good job was done by the committee, I appreciate that. The Chair and the members of the committee brought forth something for us to digest. What we bring forward is a little bit more in terms of the hours. You go from 1,300 to 1,560; that's 260 hours more, and not less. And as a result of that I think we satisfy almost everybody. And as my colleague from District 3 said, you can't satisfy all of the people all of the time, but you can try to do some of the people some of the time. Thank you, Mister President.

(The Chair recognized Senator Gannon for a question of Senator D'Allesandro.)

SENATOR GANNON: I like what you're doing in idea, but I don't see the difference between the guy getting the 12,000 retirement and the 100,000 isn't really dealt with here.

SENATOR D'ALLESANDRO: Well, it's dealt with in the time for taking the job. But I agree with you, that's the real problem, Senator, and that's something that we really have to address. That's a fairness situation that's really, really become highly problematic.

SENATOR GANNON: If you had addressed it here, I'd be happy.

SENATOR D'ALLESANDRO: Thank you.

SENATOR GANNON: Thank you.

SENATOR D'ALLESANDRO: Well I think we tried.

(The Chair recognized Senator Carson.)

SENATOR CARSON: Thank you very much, Mister President. I'd like to thank Senator, the good Senator from District 10 for bringing forward the amendment, but unfortunately, I cannot support it and I will ask this body not to support it as well. We received a lot of information. We had some research done, and one of the things we found out was that there were over 490 individuals that are currently working up to 32 hours a week. If we were to pass this amendment this would impact those 32 hour a week employees that are currently working and are under contract, which I would believe would be the vast majority of the individuals. We already have in statute the 1,300 hours. We already have the 32 hour statute. I just can't see going to an arbitrary, I'm sorry, 1,560 hours. I think that would be a little bit more confusing. We're working within the existing framework of what has already been passed. So, again, I would just ask all of you to turn down the amendment. Thank you very much, Mister President.

(The Chair recognized Senator Reagan.)

SENATOR REAGAN: Thank you, Mister President. If I may add to the definition of "grievous": it's "grievous" if you create the situation and take advantage of it. But if you're hired into this situation, and you do your job, and somebody else has set the pay rate, I'm not aggrieved by that person. So, that's not a reason to support punishing the towns, counties, and retirees. So, nothing here is going to help the retirement system. People who have said okay now we're in favor of this, if you finish the sentence we're in favor of this as not being as hard to live with as the original proposal. Nobody is coming up and saying hey this is a great idea now. So the employers–this is not a great idea.

(The Chair recognized Senator Fuller Clark for a question of Senator Carson.)

SENATOR FULLER CLARK: Senator Carson, I'm hoping that you would be able to explain how you arrived at 1,300 hours, and what is the impact of moving those hours to 1,560 where we know that that is at a level that people are going to be able to sustain themselves as part-time workers?

SENATOR CARSON: Thank you very much for the question, Senator. Let me think. As I said earlier, we're dealing with hours that are already in statute. So we didn't raise or lower those. The 1,300 is already in statute as is the 32 hours. The thing that I found most compelling was the fact that the Federal Government, if you were to go on the IRS website, defines a full-time employee as someone being eligible for benefits at 30 hours a week. That is why, when I created the amendment, we took the 1,300 hour a week folks and said look, you don't have to pay anything, this truly is part-time employment; and anybody above that is really someone who is working full time; and that if they're working full time,

they should be doing something, paying into the system somehow. We cannot say okay you can add that in because their rates have already been set, and it would be an imposition for the retirement system, and I believe they do a five year look back at the money that you've raised. So if someone was working full time with all their benefits in one job, and then came back under part-time–two completely different scenarios–and you would talk about somebody severely reducing their retirement pay if you were to just look at that part-time employee. So, again, I understand why the good Senator from District 10 brought this in, but I think we're working with the existing numbers that we already have in statute, but we're also recognizing that 30 hours a week, according to the Federal government, qualifies as a full time job. Thank you.

Recess. Out of recess.

(The Chair recognized Senator Soucy.)

SENATOR SOUCY: Thank you, Mister President. Just to be brief. We've discussed quite a bit about this issue, but I would just say respectfully to my colleagues, this amendment undoes what we just voted on by a vote of 21-3. It really undermines all of the work that the committee did in reaching this very delicate compromise. For that reason, I can't support it, and I would implore my colleagues; stick with what we've done, it's not perfect, but it's a bipartisan resolution to this issue and I implore you to please vote down the current amendment. Thank you.

The question is on the adoption of the Floor Amendment.

A roll call was requested by Senator Sanborn, seconded by Senator Avard.

The following Senators voted Yes: Sanborn, Kahn, D'Allesandro, Fuller Clark.

The following Senators voted No: Woodburn, Giuda, Bradley, Watters, Hennessey, Gray, French, Ward, Daniels, Avard, Lasky, Carson, Feltes, Cavanaugh, Reagan, Soucy, Birdsell, Gannon, Innis, Morse.

Roll Call, Yeas: 4 - Nays: 20. Failed.

The question is on the adoption of the motion of Ought to Pass with Amendment.

A roll call was requested by Senator Sanborn, seconded by Senator Avard.

The following Senators voted Yes: Woodburn, Giuda, Bradley, Watters, Hennessey, Gray, Kahn, Lasky, Carson, Feltes, Cavanaugh, Soucy, Birdsell, D'Allesandro, Fuller Clark, Gannon, Innis.

The following Senators voted No: French, Ward, Sanborn, Daniels, Avard, Reagan, Morse.

Roll Call, Yeas: 17 - Nays: 7. Adopted, bill ordered to the Committee on Finance (Rule 4-5).

FINANCE
SB 375, requiring gross expenditures and funding in the state operating budget.
Ought to Pass, Vote 5-0. Senator Reagan for the committee.

SENATOR REAGAN: Thank you, Mister President. I move Senate Bill 375 Ought to Pass. This bill requires the state operating budget to include detail on all expenditures for departments on a gross basis and show all funding sources reasonably anticipated to be received during the biennium. The Senate Finance Committee recommends passage of Senate Bill 375 and asks for your support. Thank you, Mister President.

The question is on the adoption of the motion of Ought to Pass.

A roll call was requested by Senator French, seconded by Senator Sanborn.

The following Senators voted Yes: Woodburn, Giuda, Bradley, Watters, Hennessey, Gray, French, Ward, Sanborn, Kahn, Daniels, Avard, Lasky, Carson, Feltes, Cavanaugh, Reagan, Soucy, Birdsell, Fuller Clark, Gannon, Innis, Morse.

January 10, 2018
2018-0081s
06/01

Amendment to SB 469

Amend RSA 228:24-b, III as inserted by section 1 of the bill by replacing it with the following:

III. The commissioner may rent or lease vehicles and equipment from the equipment inventory to all departments and institutions of the state, political subdivisions of the state and agencies of the federal government. [~~He~~] ***The commissioner*** shall assess a fair and equitable charge with respect to the rental or lease of vehicles and equipment sufficient to defray all administrative, transportation, storage, maintenance, amortization, replacement and other costs incurred by the department in administering this account sufficient to continue the equipment inventory fund as a revolving fund. The revenue from the rent, lease, or sale of vehicles or equipment purchased, rented or leased with funds from the equipment inventory fund shall be deposited into the equipment inventory fund. The commissioner of transportation shall expend such funds for the operation of the mechanical services bureau, operation division of the department of transportation, and to purchase replacement or new motor vehicles and construction equipment, provided that the general court appropriates such funds from the equipment inventory fund [~~to the~~] ***within*** mechanical services bureau.

SENATOR FELTES: Thank you, Mister President. Mister President, I move Senate Bill 469 Ought to Pass with Amendment. This bill clarifies that the Equipment Inventory Fund is located within the Mechanical Services Bureau of the Department of Transportation. The amendment further clarifies language on line 5 pertaining to the Department of Transportation Commissioner. The Senate Finance Committee recommends passage with amendment on Senate Bill 469 and asks for your support. Thank you, Mister President.

The question is on the adoption of the Committee Amendment. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to Third Reading.

INTRODUCTION OF GUESTS

(The Chair recognized Senator Feltes.)

SENATOR FELTES: Thank you very much, Mister President. Mister President, Martin Toe has arrived in the Senate gallery, and Martin is a valuable member of our Concord community. He came to the United States due to civil war in Liberia. He is a member of the community group Change for Concord, he's a musician, and he's author of the book A*merica Calls to Me*. And, like Ayi and Sentho and Jane, he has promoted a more inclusive and diverse Concord, which has made us all stronger. Please give a round of applause to Martin.

HEALTH AND HUMAN SERVICES

SB 333, relative to pharmacy interns and vaccinations.
Ought to Pass, Vote 4-0. Senator Bradley for the committee.

SENATOR BRADLEY: Thank you, Mister President. I move Senate Bill 333 Ought to Pass. This bill is a clarification to correct confusion that was created last year. Two bills on this subject passed the legislature in 2017. One gave pharmacy interns the ability to administer vaccines that a pharmacist can give as long as they are under the supervision of a licensed pharmacist. The other bill added the number of vaccines a pharmacist can administer. It was specified that pharmacy interns would not be allowed to administer the newly added vaccines. This legislation clarifies that a pharmacy intern, under the supervision of a pharmacist, can administer any of the vaccines that a pharmacist can give. Thank you, and I ask the body to vote Ought to Pass, but before I get to that point, I want to describe a public hearing that we had on a related subject as it involves the Pharmacy Board last week. That amendment was brought to us by our colleague from Senate District 9 that deals with compounding of drugs. The Pharmacy Board has promoted a new regulation that would make compounding of drugs very difficult except in a sterile pharmacy situation or a hospital situation. Unfortunately, it also captured the reconstitution of drugs; a drug like Remicade that's a powder, it's mixed with a saline solution then administered immediately to the patient. That would have undermined access and it would have raised costs for the 1,300 people that are on the drug of Remicade alone. As a result of the hearing and the discussions that our colleague from Bedford had with the Pharmacy Board that I was included in. The Pharmacy Board voted yesterday to delay implementation of that rule on compounding/reconstitution. I suspect we're going to have to revisit that amendment that was proposed by our friend from Bedford at some point in time before crossover. But I felt, and I think our friend from Bedford felt, that we should let the medical experts–pharmacists, MDs, health experts in other words, come to a conclusion of what that potential legislative change should look like. So the fact that we are not moving forward with that amendment today doesn't mean that we're not watching that process closely at the Pharmacy Board to include all of the stakeholders to come back to us with proposed solutions that I think in the view of the sponsors, and Senator Soucy and myself were co-sponsors of our friend from Bedford's amendment, we will watch it closely and expect a resolution at some point in the next couple of months. The time out that the Pharmacy Board took yesterday is very helpful in allowing that process to proceed. Thank you, Mister President. Please support the committee's recommendation of Ought to Pass.

(The Chair recognized Senator Sanborn.)

SENATOR SANBORN: Thank you, Mister President. Mister President, I rise and thank the chairman of the committee and the members of the committee to allow me to bring this amendment in the other day. It's a very hotly contested issue, which can be very complicated, and I applaud the committee for listening to a lot of testimony on something that, in full disclosure, based upon our ethics rules, Mister President, I actually have an employee with Crohn's disease, and we talk about this issue regularly as well as a good employee. At issue here is the Board of Pharmacy is trying to institute a rule to make it the only state in America, the only place in America, to put us at a different crossroads than any other state or any other application. And the potential risks, which personally I am most concerned about, is the health risk of people who are sick or frail being unable to get lifesaving medication in a way and a place that works for them and gives them the best opportunity to maintain their health. Now the chair of the committee talked about Remicade, which is an infusion for Crohn's disease. We know there are 1,300 people with Crohn's in the state of New Hampshire including, my understanding, 7 of which are employees of the state. But, frankly, this goes way beyond that because this is setting a standard and making the question when we look towards medicine in the future and its ability to make it more affordable, that ability for people to get care in their home because they might not be able to be transported in, they might be frail, they might have other issues; that the future of drugs looks to the ability to make application up for them. And I'm talking drugs that aren't just about digestive issues like Remicade or arthritis, but specifically about cancer treatment going forward as we've seen the technology change and people getting chemotherapy that they need on a regular basis, and that ability for them to be delivered in a different setting versus solely a hospital, or solely a pharmacist.

Now that's the health issue. The cost ramifications, they think we also do need to talk about it although, Mister President, again, let me stress this is about health not money, but we know that the 7 state employees who receive one drug called Remicade, if they had to go back to the hospital, would cost the state $700,000 a year. If you look at the cost differential from being able to provide in-home treatment versus what is being charged today at hospitals on this one drug, is a $100 million question. By the time you look at all the other infusions that are available with chemotherapy and other practices, the cost is undeterminable. So we as a body, I believe, have an obligation. And, again, in finality, I want to thank the committee. I support the positions where we are today to allow the Board of Pharmacy and all of the stakeholders that come together. And so the body knows there is a meeting next Tuesday at 9:30 in the morning at the Board of Pharmacy where all the groups will be gathered to discuss this. I encourage any Senators who have the availability to come to that meeting and help implore upon the Board to come to a resolution that takes patient's needs first. Thank you, Mister President.

The question is on the adoption of the motion of Ought to Pass. Adopted, bill ordered to Third Reading.

Recess. Out of recess.

SB 334-FN, relative to temporary licensure of allied health professionals from nearby states.
Ought to Pass with Amendment, Vote 4-0. Senator Bradley for the committee.

Health and Human Services
January 11, 2018
2018-0094s
10/08

Amendment to SB 334-FN

Amend the introductory paragraph of RSA 328-F:18, VI as inserted by section 2 of the bill by replacing it with the following:

VI. Occupational therapists, occupational therapist assistants, recreational therapists, speech pathologists, respiratory care practitioners, physical therapists, and physical therapist assistants from the states of Connecticut, Rhode Island, Massachusetts, Maine, New York, and Vermont who are currently licensed shall be eligible for temporary licensure for 120 days while the person makes application for licensure to the respective governing board under this chapter. An applicant for temporary licensure to practice, who is currently licensed or certified in Connecticut, Rhode Island, Massachusetts, Maine, New York, or Vermont, shall:

2018-0094s

AMENDED ANALYSIS

This bill allows persons licensed for certain allied health professions in Connecticut, Rhode Island, Massachusetts, Maine, New York, or Vermont to be granted a temporary license to practice in this state while applying for regular licensure.

SENATOR BRADLEY: Thank you, Mister President. I move Senate Bill 334 Ought to Pass with Amendment. This bill would allow temporary licensure for allied health professionals from nearby states for 120 days while they are undergoing the process of obtaining permanent licensure. This bill would help curb some of the health care workforce problems we are having in our state. Often health care workers are waiting months to receive their license from the state, and this can cause people to stop the licensing process or take jobs outside the state because they do not want to wait to start working. The committee amendment adds Rhode Island to the list of states from which workers can gain temporary license. I just want to add a couple of things. Our friend from District 10 sponsored this bill and I think it's an absolutely terrific bill. I think all 24 of us understand the pressures that health care providers have in this state to hire qualified employees. But after a little bit of consultation with our friend from Londonderry that is much more of an expert than members of the HHS Committee on licensure, she feels that there may need to be some technical changes to your bill to achieve the intent that you so nobly are trying to achieve. So, I'm assuming and hoping, Mister President, that you will send this bill to the Finance Committee where Senator Kahn, pardon me, my friend from District 10, myself, our friend from District 14, and our friend from District 17, can work together to make sure that the intent of your bill is captured. Thank you, Mister President.

(The Chair recognized Senator Kahn.)

SENATOR KAHN: Thank you, Mister President, and to my colleagues in Senate District 3 and 14 and 17. Wherever folks want to continue to talk about this conversation I welcome the opportunity. Let me say that the 17,000 jobs that we're worried about trying to fill in the state, there are 4,000 in the health care professions. If you are one of those delivering institutions, a nursing home, a hospital, a rehab center, you are

desperate for these people, and when you find them you need to hire them. And that is what this bill is aimed at doing. This bill aims at identifying experienced health care professionals who have unencumbered licenses, who are living in the surrounding New England states and New York and trying to move them into our workforce as quickly as they can be identified and take those positions. If licensure is taking 120 days, and it is, there are situations that you can ask your health care professionals of this, then we're losing people along the way, and we can take steps to do this. We did this this last session relative to nurses. We've provided for provisional licensing. It's what we need to do for the rehabilitative services, and that's what the allied health category is doing. It's trying to address getting therapists, respiratory, occupational, physical, audiology, speech pathologists, get them into the workforce so that people can be rehabilitated at our health care institutions. There are two situations; and one I have described is when somebody is applying for the job and we're trying to hire them, not lose them in that intervening period while they're waiting for full licensure. They'll make the application. They have to do that. They'll clear the hurtles on background checks. They'll get employed while they're being looked at. But there is one other situation. We're, right now, because of health care partnerships around the state, transferring patients from a hospital on one side of a border to a hospital on another side of the border, and we're creating work flow kind of issues. And there is another situation where we need to be as agile as the patient with our workforce. People who are working in Vermont, and Massachusetts, and Maine who are able to provide services when we have workforce shortages here in New Hampshire, need that opportunity for provisional licensing so that we can ship that workforce quickly, we can get them relicensed in multiple states, and we can deliver the services that need to be done to keep our patients safe, keep our health care institutions viable. So, I ask you, this is important for my part of the state, it's important, probably, in a variety of parts of the state where we have patients and health care professionals moving across state lines. We need to update our ability to employ them and take care of those people who need the health care. I ask you to pass this. I welcome further conversations because I think we're actually addressing something that the Board of Licensure and the health care professionals are all in support of. Thank you.

(The Chair recognized Senator D'Allesandro for a question of Senator Kahn.)

SENATOR D'ALLESANDRO: Thank you. Senator Kahn, is any work being done on reciprocity?

SENATOR KAHN: Thank you for the question, Senator. There are reciprocity agreements underway, and I'll give you an example of one. The physical therapists have a reciprocity agreement that New Hampshire has entered into. The state that is closest to us to the west is Kentucky. The state that is closest to us in that compact to the south is Virginia. The compacts are scattered. There are only fourteen states in that compact. Were I starting from scratch I would make a recommendation that we were considering regional compacts with our New England states, but that hasn't happened. There are some national compacts, and as the adoption rate is extraordinarily slow, they are legislatively bound, and currently they just are not providing the kind of coverage that would help New Hampshire.

SENATOR D'ALLESANDRO: Thank you.

(The Chair recognized Senator Giuda.)

SENATOR GIUDA: Thank you, Mister President. I rise to point out for the body that as a result of a LBA performance audit of the Boards of Licensure, gross deficiencies in the management of their processes and procedures has been identified. I will support this legislation, but I will do so fully knowing that what we are doing is trying to legislate a solution to the mismanagement of an agency. That is not good public policy. We try to solve the problem, but it's a management issue not a legal issue. Thank you, Mister President.

The question is on the adoption of the Committee Amendment. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment.

A roll call was requested by Senator Kahn, seconded by Senator Sanborn.

PARLIAMENTARY INQUIRY

(The Chair recognized Senator Carson for a parliamentary inquiry.)

SENATOR CARSON: I guess it's more informational than parliamentary inquiry. Our colleague is at an event at the Executive Council, so we don't know when she'll be returning.

PRESIDENT MORSE: The Senate will be in recess until 1 o'clock so Senator Cavanaugh can feed the Pages.

Recess. Out of recess.

Senator Bradley moved to Lay on the Table SB 334-FN. Adopted.

SB 376-FN, relative to the sale of certain cold medications.
Ought to Pass with Amendment, Vote 4-0. Senator Avard for the committee.

Health and Human Services
January 11, 2018
2018-0111s
08/10

Amendment to SB 376-FN

Amend RSA 318-B:48, I-III as inserted by section 1 of the bill by replacing it with the following:

I. No person shall knowingly and unlawfully possess a drug product containing ephedrine, pseudoephedrine, or phenylpropanolamine with the intent to use the product as a precursor to manufacture methamphetamine or another controlled substance.

II. A drug product containing ephedrine, pseudoephedrine, or phenylpropanolamine shall not be distributed at retail to the general public unless it is maintained in a locked display case or behind the counter out of the public's reach.

III.(a) A retail establishment shall not knowingly complete a sale to a person if the drug product or combination of drug products purchased would surpass a total of more than 3.6 grams within a 24-hour period or 9 grams within a 30-day period of ephedrine base, pseudoephedrine base, or phenylpropanolamine base or their isomers. The "base" form means the fraction of ephedrine, pseudoephedrine, or phenylpropanolamine present within a formulation containing a salt form of those respective drugs.

(b) This section shall not apply to drug products dispensed pursuant to a valid prescription.

Amend RSA 318-B:49, I(a) as inserted by section 1 of the bill by replacing it with the following:

I.(a) Retail establishments shall use an electronic registry system to record the sale of products made pursuant to RSA 318-B:48. The electronic registry system shall have the capacity to block a sale of nonprescription drug products containing ephedrine, pseudoephedrine, or phenylpropanolamine that would result in a purchaser exceeding the lawful daily or monthly amount. The system shall contain an override function that may be used by an agent of a retail establishment who is dispensing the drug product and who has a reasonable fear of imminent bodily harm to his or her person or to another person if the transaction is not completed. The system shall create a record of each use of the override mechanism.

Amend RSA 318-B:49, II(a)(2) as inserted by section 1 of the bill by replacing it with the following:

(2) The name of the drug product and quantity of ephedrine, pseudoephedrine, and phenylpropanolamine sold in grams;

Amend the introductory paragraph of RSA 318-B:49, III as inserted by section 1 of the bill by replacing it with the following:

III. A retail establishment shall display a sign at the register provided by NPLEx or its equivalent to notify purchasers of drug products containing ephedrine, pseudoephedrine, or phenylpropanolamine that:

SENATOR AVARD: Thank you, Mister President. I move Senate Bill 376 Ought to Pass with Amendment. This bill would require retailers or products containing pseudoephedrine to report sales to an electronic registry. These registries are used in many states already and many large retailers in New Hampshire are already voluntarily reporting to this registry. Electronic reporting allows pharmacies to cut down on people buying large amounts of these cold medicines for illegal purposes, including the manufacturing of methamphetamines. Electronic reporting also allows law enforcement real time access to notification of attempted "pharmacy shopping" where criminals attempt to buy large amounts of these products from different pharmacies. There is no cost to retailers for the technology because it's provided at no cost to the consumers from the manufacturers of the medicines. The amendment changes language to coincide with languages used in federal law. Please support the committee's recommendation of Ought to Pass with Amendment.

The question is on the adoption of the Committee Amendment. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to Third Reading.

MOTION TO REMOVE FROM THE TABLE

Senator Bradley moved to remove SB 334-FN from the Table. Adopted.

HEALTH AND HUMAN SERVICES

SB 334-FN, relative to temporary licensure of allied health professionals from nearby states.

The pending motion is Ought to Pass with Amendment.

The question is on the adoption of the motion of Ought to Pass with Amendment.

A roll call was requested by Senator Kahn, seconded by Senator Sanborn.

The following Senators voted Yes: Woodburn, Giuda, Bradley, Watters, Hennessey, Gray, French, Ward, Sanborn, Kahn, Daniels, Avard, Lasky, Carson, Feltes, Cavanaugh, Reagan, Soucy, Birdsell, D'Allesandro, Fuller Clark, Gannon, Innis, Morse.

The following Senators voted No: (None)

Roll Call, Yeas: 24 - Nays: 0. Adopted, bill ordered to the Committee on Finance (Rule 4-5) as recommended by the Finance Chair.

SB 377-FN, relative to the regulation of dentists and dental hygienists by the board of dental examiners.
Ought to Pass, Vote 4-0. Senator Gray for the committee.

SENATOR GRAY: Thank you, Mister President. I move Senate Bill 377 Ought to Pass. This bill makes various changes to the regulation of dentists and dental hygienists, including requiring criminal history record checks for new applicants and those requesting reinstatement. Additionally, it establishes a professional health program for impaired dentists, and makes various wording adjustments in the statute to reflect the changes in this society that have occurred since the statutes were updated. This bill was at the request of the Board of Dental Examiners. Please support the committee's recommendation of Ought to Pass. Thank you, Mister President.

The question is on the adoption of the motion of Ought to Pass. Adopted, bill ordered to Third Reading.

SB 380, relative to the therapeutic use of cannabis.
Ought to Pass with Amendment, Vote 4-0. Senator Avard for the committee.

Health and Human Services
January 11, 2018
2018-0107s
04/06

Amendment to SB 380

Amend the bill by replacing section 3 with the following:

3 Use of Cannabis for Therapeutic Purposes; Definitions. Amend RSA 126-X:1, IX to read as follows:

IX.(a)[~~(1)~~] "Qualifying medical condition" means the presence of:

[~~(A)~~] ***(1)*** Cancer, glaucoma, positive status for human immunodeficiency virus, acquired immune deficiency syndrome, hepatitis C, amyotrophic lateral sclerosis, muscular dystrophy, Crohn's disease, multiple sclerosis, chronic pancreatitis, spinal cord injury or disease, traumatic brain injury, epilepsy, lupus, Parkinson's disease, Alzheimer's disease, ulcerative colitis, Ehlers-Danlos syndrome, or one or more injuries or conditions that has resulted in one or more qualifying symptoms under subparagraph (B); and

[~~(B)~~] ***(2)*** A severely debilitating or terminal medical condition or its treatment that has produced at least one of the following: elevated intraocular pressure, cachexia, chemotherapy-induced anorexia, wasting syndrome, agitation of Alzheimer's disease, severe pain that has not responded to previously prescribed medication or surgical measures or for which other treatment options produced serious side effects, constant or severe nausea, moderate to severe vomiting, seizures, or severe, persistent muscle spasms; or

[~~(2)~~] ***(b)*** "Qualifying medical condition" also means:

[~~(A)~~] ***(1)*** Moderate to severe chronic pain.

[~~(B)~~] ***(2)*** Severe pain that has not responded to previously prescribed medication or surgical measures or for which other treatment options produced serious side effects.

[~~(C)~~] ***(3)*** Moderate or severe post-traumatic stress disorder.

[~~(b) The department may include a medical condition that is not listed in subparagraph (a) that the department determines, on a case by case basis, is severely debilitating or terminal, based upon the written request of a provider who furnishes written certification to the department.~~]

SENATOR AVARD: Thank you Mister President. I move Senate Bill 380 Ought to Pass with Amendment. This bill makes certain changes to the law governing the use of cannabis for therapeutic purposes, including clarifying certain information on the registry identification cards and designated caregivers for minors. Currently minors in the program can only have one caregiver pick up the product for use. This can often be a burden for parents that are already living with the child and has a very serious medical condition. This legislation would allow a minor patient in the program to have two caregivers that can pick up the product for the patients use. Both caregivers must be either the parent or legal guardians. The amendment fixes drafting errors where the section of statute was accidentally deleted rather than being amended. Please support the committee recommendation of Ought to Pass with Amendment. Thank you, Mister President.

The question is on the adoption of the Committee Amendment. Adopted.

(The Chair recognized Senator Daniels for a question of Senator Avard.)

SENATOR DANIELS: Thank you, Mister President. Is it true that cannabis is still illegal federally?

SENATOR AVARD: From my understanding it is, Sir.

SENATOR DANIELS: What provisions are made in this bill to notify vets that if they are brought up on federal charges on this that they lose all their benefits even though in New Hampshire they say that it's legal?

SENATOR AVARD: I know that we addressed this issue with notifications on medical marijuana specifically for that very reason. My recollection on this particular bill is that it is already in existence. I do not know if that amendment was added to that, or that language was added to that.

SENATOR DANIELS: Thank you.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to Third Reading.

SB 384, relative to written certification under the use of cannabis for therapeutic purposes law.
Ought to Pass, Vote 4-0. Senator Fuller Clark for the committee.

SENATOR FULLER CLARK: Thank you very much, Mister President. I move Senate Bill 384 Ought to Pass. Currently state statute requires that a patient wishing to access therapeutic cannabis program must have a three months relationship with his or her health care provider. This bill would waive that requirement if a patient is eligible for hospice care and has a prognosis of six months or less to live. Often providers believe these patients would benefit from the use of cannabis but that they will not live long enough to establish a three month relationship

with a health care provider. This bill will allow those patients to access the program, enhancing treatment during their end of life care. Please support the committee's recommendation of Ought to Pass and thank you, Mister President.

The question is on the adoption of the motion of Ought to Pass. Adopted, bill ordered to Third Reading.

SB 385, establishing a foster care children's bill of rights.
Ought to Pass with Amendment, Vote 4-0. Senator Fuller Clark for the committee.

Health and Human Services
January 11, 2018
2018-0109s
05/04

Amendment to SB 385

Amend the bill by replacing section 3 with the following:

3 Effective Date. This act shall take effect upon its passage.

SENATOR FULLER CLARK: Thank you, Mister President. I move Senate Bill 385 Ought to Pass with Amendment. This bill would establish a foster care children's bill of rights within the Department of Health and Human Services. Recently there has been a startling increase in the amount of children entering foster care. It is more important than ever that their rights are protected. This bill would set clear guidelines as to what services and support are required to be provided for such children. Enacting a foster care children's bill of rights will ensure that foster families and the Department of Children, Youth and Families will provide the very best care for this most vulnerable population. The amendment would make the bill effective upon passage. Please support the committee's recommendation of Ought to Pass with Amendment. Thank you, Mister President.

The question is on the adoption of the Committee Amendment. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to Third Reading.

JUDICIARY
CACR 20, relating to the retirement age of judges. Providing that the retirement age of judges be increased.
Ought to Pass, Vote 3-1. Senator Lasky for the committee.

SENATOR LASKY: Thank you, Mister President. I move Constitutional Amendment Concurrent Resolution 20, Ought to Pass. Upon passage by the legislature the question of whether NH judges can serve until age 75 will be before our citizens in the next election. Currently, New Hampshire judges are required to retire from the bench at age 70 regardless of their mental or physical fitness. This retirement age was established in 1792 and over the past 200 years we have clearly developed many medical advances and the average life expectancy is no longer 35. In the majority of states across the country judges can continue to serve well beyond age 70 or 75. As a matter of fact, New Hampshire, at 70, has the youngest retirement age. We all know that there are judges appointed for life, such as on the Federal Supreme Court. Also, regardless of age, judges here are constantly subject to scrutiny regarding their fitness to serve and there are procedures in place should questions arise about an individual's ability to serve. Finally, today's 75 is the new 60! We

shouldn't deny our best and brightest at this age the opportunity to serve, particularly in a role where experience is so vital. Therefore, the majority of the Judiciary Committee, and certainly all of us over a certain age, and those who, before they know it, will be of that age, and, as our esteemed majority leader referred to this morning, all the "geezers" in the group, we all ask for your support for the motion of Ought to Pass on CACR 20. Thank you, Mister President.

(The Chair recognized Senator Gannon.)

SENATOR GANNON: Thank you, Mister President. I'm the guy in my family who had to go to mom and dad and say, because nobody else would, it's time to take the keys away. It happened in the mid '70s with my mom; a little later with my dad. No one else was going to touch it–and that was the ability to drive. Colleagues, there is nothing in this bill that's going to improve the legal system. And I always often hear the Dean say, and the esteemed Senator from District 3, if there's nothing broke, don't fix it. Nineteen states have a 70 year retirement system. I spoke with the Brentwood Police Chief today, and some other Sheriffs, they tell me that the sheriff's job is mostly managerial, yet we have a mandatory retirement age of 70. There's no shortage of lawyers in their 40s and 50s; young men and women who are ready and they're at the peak of their legal careers ready to become judges. Why are you going to slow down the life blood and the new blood moving in? This bill will have the effect of, also, it's an unintended consequence and I'm sure the Senator from down at the end…I got to get my numbers right. I'm sure it wasn't written to be anti-woman, but it does have that effect. Presently two-thirds of the judges in our judicial system are men. If we pass this bill it's going to continue five more years of the male dominated rule in court. I have three young daughters who want to be judges. I want them, and everyone's daughters to be able to be a judge younger. So, five more years of a male dominated field is not a good thing. Let's remove the glass ceiling for women.

Finally, in every city I went to legislative services: study, after study, after study you lose your fast ball. You might have, say you're making it up with other pitches–Senator I knew you'd appreciate that–but your brain shrinks, by your 70s, back to the age when you were 2 or 3; no one wants to address this. These people are certainly could go to law schools and teach, they can go back to being lawyers, but we have plenty of able body, young male and female lawyers ready to take over. Let's not slow them down. You lose your fast ball. There're plenty of other things to do. I just don't think this is a good idea. Thank you very much.

(The Chair recognized Senator Carson.)

SENATOR CARSON: Thank you, Mister President. I was just thinking of our former colleague from District 17 who used to talk about his baseball analogies so I kind of had a little bit of a flashback there. I rise to speak to the process of judicial review and to, perhaps, answer some of the questions from our good colleague from District 23. I have the pleasure of sitting on the Judicial Review Committee, and I can assure all of you, because of legislation that was passed by the legislature back in 2011-2012, we really have a very robust, and I would even argue aggressive judicial review process where our judges are constantly under review. If they're not under review by their peers they are under review by the attorneys that appear before them, as well as members of the public. And I feel very confident that if somebody was starting to lose their facilities, that

it would definitely be caught very, very early and dealt with. So, I agree with my colleague from District 13, 75 is the new, I would argue new 30. I see many very active, very vital seniors over the age of 70 in my community, and I know that most of you probably see the same thing. So, I'm standing here and asking you to support this constitutional amendment. Let's get it in front of the people and let's hear what the people have to say. Thank you very much, Mister President.

(The Chair recognized Senator D'Allesandro.)

SENATOR D'ALLESANDRO: Thank you, Mister President. Mister President, I rise in support of the Constitutional Amendment. As we got a great history lesson from the Senator from District 3 this morning about the retirement system, let me give you a little history of the judicial process in New Hampshire. I was on the Executive Council when we confirmed the first woman to be a member of the Superior Court. I voted for the confirmation of Linda Dalianis, who is now the Chief Justice of the New Hampshire Supreme Court. So, I had the opportunity to vote on judges during my six years as a member of the Executive Council. I also saw during that period of time some of the most distinguished minds in the judicial system have to leave because of an age conflict. I think of Judge Kennison. Judge Kennison was renowned in this country–in this country as Chief Justice of the New Hampshire Supreme Court for judicial excellence. Judicial excellence right here in New Hampshire, Judge Kennison. Go over to the Supreme Court and you'll see his picture. Judge Kennison had to leave at 70. Judge Johnson from Hanover, Senator Hennessey, Judge Johnson; another great mind had to leave when he had to retire when he was 70. So, we lost some of these great people because of an age situation. Now I'm going to, for the purpose of truth in everything, I'm over 70 years old. You've got to believe it Harold. You've got to believe it. I'm over 70. I hope everybody's right saying that 75 is the new 60–I relish that thought. But, indeed, life expectancy has changed dramatically. I think that's very much of a key ingredient. And, indeed, we base most of our decisions on precedent; what's happened in the court system. And these good minds that have to leave, there's a reorientation that must take place. Now in the old days when a judge was appointed in New Hampshire we would send them to Nevada to judges' school. I don't know if we do that anymore, but they would go there. And, again, some of our guys were participants, instructors in that process. So, indeed, why not make the best use of what we have? The best use of what we have. And, indeed, people in the old days were forced to retire. What a crazy thing to do; force a person to retire just because of age. There'll come a time, I mean hopefully there'll come a time when you make that decision on your own. But in this situation, why sacrifice something that's vital, that's vital to the process, and that's vital to the judicial system. We've got to keep people who are capable where they are, and we can't let 70 years of age be the mark by which you're discarded. You know, I think of some of the great people that I have been in contact in my lifetime and let me just say Walter Peterson was well into his 80s and was performing magnificently. They brought him from Franklin Pierce College to the University of New Hampshire to be President. He left the Presidency of the University and went to the Community College System as Chancellor. Two days ago, I listened to the retired President of Dartmouth College, Professor Wright, because he's now a professor in the department–brilliant man in his 80s. What knowledge he was able to dispense to people. And I had the honor of sitting in the Supreme Court and listening to the judges' debate. Now who would want Scalia, who could have been there for life, if he were a

judge here who would want him to retire at 70 years of age? You know a conservative guy obviously, but who would want him to retire at 70? This is an opportunity for us to enter the 21st century with an open mind and give to the people of this state the opportunity to make a decision. The people of the state should make a decision, all right? Because in this council, and throughout our state, a decision that's made by these people is going to affect the lives of every person in the state of New Hampshire. Why not have the best minds making these decisions? I think it's an imperative. A lot of pressure in the 70s when I voted for Linda Dalianis; the question was should a woman serve on the Superior Court? Should a woman serve on the Superior Court? And every time I think about that I walk by that painting on the first floor and I think about the woman who ran for governor without the right to vote. What courage she had, you know, taking that step; a very, very courageous, courageous move. And this, I think, falls right in line. We're moving ahead. We're in the 21st century where a number shouldn't be the critical judgment point. That number shouldn't be meaningless; it should be that person's ability, and we can make that happen. You know, it's a great responsibility that we have here when we make these decisions, and when we recognize the fact that change is imminent. We're in an evolving world; some things we like, some things we don't like. But I think in this particular situation we've just lost an eminent judge from the court because she had to retire at 70 years of age; very well qualified, and done very good work on the court. We're going to lose another woman, right, in a couple of months. Linda Dalianis is forced to retire because she will be 70 years of age–the Chief Justice of the Court. So we've got to think about that. Think about what we're losing. This is an opportunity for us to give the people of the state of New Hampshire an opportunity to make a critical decision. Thank you, Mister President.

(The Chair recognized Senator Soucy.)

SENATOR SOUCY: Thank you, Mister President. I rise in support of this legislation and introduced it for many of reasons that you're hearing today. Actually, it was the issue of "glass ceiling" that was one of the issues that came to my mind because this current state, in our Constitution, is what's removing two preeminently qualified experienced women from our court. Now one has been replaced by a woman, but that may or may not be the case. I certainly would argue that there's no minimum in our Constitution. To my knowledge the youngest member ever appointed to the bench was 28 years old. So, there's no bar to young people entering the judiciary; the decision is up to a Governor. Governors can appoint men, women, people of various ages; there's no minimum. There's also no bar on how long any of us can serve. How many people in the room are over the age of 70? Should the Constitution limit our term of service? Should it limit the Governor–it was a rhetorical question, it was a rhetorical question. But it illustrates the point. As the Senator from District 13 said, this section of the Constitution was established in 1792. What was age 70 in 1792? Pretty much a lifetime appointment, right? The average age, pretty much in the 30s, right? Thirty-five, 37. This is an issue whose time has come. This is an issue that we don't decide, but that the people that we represent, the people of the state of New Hampshire decide. How many people in the state of New Hampshire that are age 70 are still working? How many of them still want to work? How many of them have reached a pinnacle of their career and are valuable contributing members of our society or of their professions? We're not asking them. We debated a retirement bill earlier

to allow people beyond retirement to keep working in part-time positions. Why is that okay everywhere else but in the judicial branch? I ask you today to please, whether you personally believe the age should change, vote yes on this amendment and give the people of the state of New Hampshire the opportunity to make that decision. It's an important first step. Even, as I said, if you personally might have a question, there is no reason not to give the voters, whoever participates in the electoral process in 2018, the opportunity to say you know, more than 200 hundred years later it's time for a change, and let's increase the judicial retirement age or give our citizens the opportunity to make that decision. Thank you, Mister President.

Recess. Out of recess.

(The Chair recognized Senator Giuda.)

SENATOR GIUDA: Thank you, Mister President; members of the Senate. I rise in opposition to this proposed amendment to our Constitution. I was there in 1792, I remember. There are a number of points. First of all, I was forced to retire at age 65 as an airline pilot. Nobody loves to fly more than I; I've flown everything in the world, basically, from some super cubs on up to international jets off of aircraft carriers, but the reason for that mandatory retirement age is the loss of acuity both physical and mental with advancing age. The average life expectancy in our country today is about 85 for women and about 83 for men, average 84 years old. Okay? By the time you're in to your early 60s you're starting to experience, I don't care who you are, you're experiencing some degradation of your acuity. By the time you're at 70 it's significant, and I don't care who you are or how much you've done in the past your mental faculties are, in fact, degraded. With respect to the committee of review, the review process, I submit to you that I know attorneys, and I know citizens of both, who are very reluctant to bring a complaint because they know very well, especially the attorneys, that they will face that judge one more time, or two more times, or ten more times, and those judges, I have heard from attorneys, remember; they do not forget. So, there's a reluctance intrinsic to the system to bringing complaints forward if a judge is, in fact, misbehaving or not producing appropriate decisions. Until it reaches such an egregious point that one or more citizens or businesses or somebody has had material harm done to them and it can no longer be ignored. That's one step too far. With respect to the citizenship voting on this, remember that we're asking citizens, most of whom never encounter any factor of this judicial branch, to vote on the people that will be judging them or others; they don't experience that, they have no background. We at least study this, we look at it, and we say well we're familiar with the judicial system; most people are not, and never will be. I support the idea of age 70 for the reasons I've expressed. I think it's important that we continue to bring new blood into a system that has worked for us for several hundred years, is not broken, and can certainly use the turnover to allow newer blood to come and present themselves for service in the judiciary branch at the highest levels. For those reasons I oppose this amendment. Thank you, Mister President.

(The Chair recognized Senator Sanborn.)

SENATOR SANBORN: Thank you, Mister President. Mister President, I rise in opposition of the CACR, and mine might be a different tack than what we hear. I'm sure every single one of us in this room has heard of this little thing called "term limits." In fact, some 84 to 86 percent of the people in this state and across America are now asking for term

limits. So, when I look at the concept of extending the term of people in public service, it goes against what I believe and what I think the people of New Hampshire are looking for. They think, with all respect, that some of us have been here too long. And, in full disclosure, Mister President, I'm a guy that has signed pledges to do term limits and think I've actually co-sponsored bills to do the same thing. So, this does give us an opportunity to talk to the people of New Hampshire and America to say we recognize the fact that people should get in and do their time and go home and extending these people's terms in public service is not what the people of New Hampshire are looking for today. So, I'd ask the body to vote down the CACR. Thank you, Mister President.

(The Chair recognized Senator Feltes.)

SENATOR FELTES: Thank you very much, Mister President. Losing your fastball, that's a suggestion. I had the honor and the privilege to argue cases at the New Hampshire Supreme Court before Chief Justice Linda Dalianis and Justice Carol Ann Conboy, and, trust me; they had their fastballs, without a doubt. And, their time in the court was cut short. It is a glass ceiling. It took them a long time to get there. It's easier for men to advance in the legal profession than it is for women, and then their time was cut short. You know you leave the Supreme Court, and there's all these portraits of men, all the former justices. Once your time on the bench is done you get portrait. The first portrait of a woman is going up: Justice Carol Ann Conboy; the first portrait of a woman. It's bitter sweet because on the one hand it's great to see that on the halls of the New Hampshire Supreme Court, but on the other hand it was way too soon, way too soon. And when we talk about sending this to the people, and that we as a legislature should have some kind of veto authority on this particular question, I think this is a unique one, Mister President. We're talking about separate branches of government. Shouldn't the people have an opportunity to weigh in on the other branch of government? We as a legislature are going to prevent the people from weighing in on the other branch of government? Who do we think we are? Let's let the people decide. This is a unique situation. Let the people decide about the other branch of government. Thank you, Mister President.

(The Chair recognized Senator Gray.)

SENATOR GRAY: Thank you, Mister President. I don't have any problem with it; with the Judges who are qualified and still have all their faculties going for as long as they want. But I do have a problem with the wording of this bill. First of all, we're talking about all the judges. Sheriffs are also in here. Sheriffs don't have their faculties anymore? And sheriffs are re-elected by the people every two years. A judge, once appointed, until they get to 70, they're there–forever, and ever, and ever until 70 do we part. So, the problem is not the judges that do have their faculties, it's the judge who is starting to lose his faculties, and the people that have to appear in front of him are concerned about his ability to make fair and honest decisions. And some of us have said well we have this judicial review committee: lawyers, and by lawyers, for lawyers, with lawyers–lawyers, lawyers, lawyers. Okay. Maybe that's the right thing. But maybe it's right that maybe at age 70 we go back to the Governor and Council who appointed them in the beginning and say we would like to have this person reappointed. They are doing a great job. We think that everything is hunky dory. We ought to go and let him be a judge two more years; just as the Governor is re-elected every two years; just as you are elected every two years. And if the people believe that because

of advanced age you are losing your fastball, your faculties, however you want to term it, we get a review. We get a review not of the lawyers, by the lawyers, but of the people, by the people through the Governor and the Council who are elected. Thank you.

(The Chair recognized Senator Fuller Clark.)

SENATOR FULLER CLARK: I rise in support of this Constitutional Amendment and letting it go to the people of New Hampshire. I would agree that we should let the people decide on what happens to another branch of government, but I also want to say I have grave concerns about turning down this amendment because what we would be doing is turning our back on the value of experience and knowledge, and what institution in this state makes more serious and profound decisions than those that are related to the legal system that are handled through our courts. And I would want to have the most experienced and able people as possible sitting on that significant body. And by limiting the age we're also shutting the door on valuable knowledge and experience. Thank you.

(The Chair recognized Senator Carson.)

SENATOR CARSON: Thank you, Mister President. Mister President, a question was raised concerning the issue of the sheriffs, and I have my trusty Constitution here. And, Article 78, which is what we are talking about, amending, says, "No person shall hold the office of judge of any court," so it deals with any court, "or judge of probate, or sheriff of any county, after he has attained the age of seventy." So, the issue of the county sheriffs being term limited at age 70, it's already in our Constitution. Thank you, Mister President.

(The Chair recognized Senator Lasky for a question of Senator Gray.)

SENATOR LASKY: Senator, I just wanted to clarify, so that I understood something that you just said. You were advocating election of judges as a whole, or only after a certain age?

SENATOR GRAY: I did not advocate for the election of judges at all. What I said was that at age 70, if they still have their faculties and are still operating well, that maybe we should have a review process which would be reappointment by the Governor and Council as they are appointed right now. And, in my opinion, at that point, there would be no reason for an upper age because the Governor and Council would be the ones. And, also to clarify my stance on the sheriffs, I would remove the sheriffs from the article altogether because they are re-elected and the people are making the decision how long that person should serve as the sheriff and there's no need to have it in the Constitution.

SENATOR LASKY: Thank you, with all due respect, I think any of that would have to, also, go through a Constitutional process, Constitutional Amendment process. So, it couldn't just happen. Thank you.

The question is on the adoption of the motion of Ought to Pass.

A roll call was requested by Senator French, seconded by Senator Giuda.

PARLIAMENTARY INQUIRY

(The Chair recognized Senator Sanborn for a parliamentary inquiry.)

SENATOR SANBORN: Parliamentary inquiry, Mister President. I apologize, being this is for a Constitutional Amendment is it 15 or 16 to pass?

PRESIDENT MORSE: Fifteen.

SENATOR SANBORN: Thank you.

The question is on the adoption of the motion of Ought to Pass.

The following Senators voted Yes: Woodburn, Bradley, Watters, Hennessey, Ward, Kahn, Lasky, Carson, Feltes, Cavanaugh, Soucy, D'Allesandro, Fuller Clark.

The following Senators voted No: Giuda, Gray, French, Sanborn, Daniels, Avard, Reagan, Birdsell, Gannon, Innis, Morse.

Roll Call, Yeas: 13 - Nays: 11. Failed, lacking necessary 3/5 vote.

Senator Bradley moved to Lay on the Table.

A division vote was requested.

Yeas: 8 - Nays: 15. Failed.

Senator Bradley moved Inexpedient to Legislate.

The question is on the adoption of the motion of Inexpedient to Legislate.

A roll call was requested by Senator Giuda, seconded by Senator Sanborn.

The following Senators voted Yes: Giuda, Gray, French, Sanborn, Daniels, Avard, Reagan, Birdsell, Gannon, Innis, Morse.

The following Senators voted No: Woodburn, Bradley, Watters, Hennessey, Ward, Kahn, Lasky, Carson, Feltes, Cavanaugh, Soucy, D'Allesandro, Fuller Clark.

Roll Call, Yeas: 11 - Nays: 13. Failed.

Senator Bradley moved to Lay on the Table.

A division vote was requested.

Yeas: 10 - Nays: 14. Failed.

Recess. Out of recess.

Senator Bradley moved to Lay on the Table.

The question is on the adoption of the motion to Lay on the Table.

A roll call was requested by Senator Bradley, seconded by Senator Birdsell.

PARLIAMENTARY INQUIRY

(The Chair recognized Senator Feltes for a parliamentary inquiry.)

SENATOR FELTES: Mister President, if you know as I know that we could potentially special order this bill to try to come to some consensus, would you now vote no on tabling? Thank you, Mister President.

PRESIDENT MORSE: If you're in favor of CACR 20 being tabled you're going to say aye, if you're opposed you're going to say nay.

The following Senators voted Yes: Giuda, Bradley, Gray, French, Ward, Sanborn, Daniels, Avard, Reagan, Birdsell, Gannon, Innis, Morse.

The following Senators voted No: Woodburn, Watters, Hennessey, Kahn, Lasky, Carson, Feltes, Cavanaugh, Soucy, D'Allesandro, Fuller Clark.

Roll Call, Yeas: 13 - Nays: 11. Adopted.

JUDICIARY

SB 336, relative to the judicial district for the towns of Waterville and Livermore.

Ought to Pass with Amendment, Vote 4-0. Senator French for the committee.

Senate Judiciary
January 9, 2018
2018-0063s
04/05

Amendment to SB 336

Amend the bill by replacing section 3 with the following:

3 Effective Date. This act shall take effect July 1, 2018.

SENATOR FRENCH: Thank you, Mister President. I move Senate Bill 336 Ought to Pass with Amendment. This bill moves the towns of Livermore and Waterville from the Conway judicial district to the Plymouth-Lincoln judicial district. Livermore is an unincorporated place with no one but the ghosts of past wandering around. However, a portion of the Kancamagus Highway and Triple-I road both run through Livermore leading to the potential of an arrest taking place in Livermore. Currently, although Lincoln's Police Department has jurisdiction over Livermore, they are required to go all the way around the mountain and back again to go to the Conway Court for any proceedings. This bill would alleviate some of the added burden on Lincoln's Police Department by allowing them just to take a short hike down to Plymouth for those proceedings where they already have prosecutors instead of to Conway. The committee amended the bill to have a specific effective date in order to prevent any potential confusion. Therefore, the majority of the Judiciary Committee asks you for your support in the motion of Ought to Pass with Amendment on Senate Bill 336. And I thank you, Mister President.

The question is on the adoption of the Committee Amendment. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to Third Reading.

SB 392, establishing a commission to study and evaluate the impact of the discharge of state prisoners.
Ought to Pass with Amendment, Vote 4-0. Senator Gannon for the committee.

Senate Judiciary
January 9, 2018
2018-0071s
04/01

Amendment to SB 392

Amend RSA 622:59, I as inserted by section 1 of the bill by inserting after subparagraph (j) the following new subparagraphs:

(k) The warden of the New Hampshire correctional facility for women, or designee.

(l) One member representing the New Hampshire Association of Criminal Defense Lawyers, appointed by that organization.

SENATOR GANNON: Thank you, Mister President. I move Senate Bill 392 Ought to Pass with Amendment. This bill establishes a commission to study and evaluate the impact of the discharge of state prisoners on Concord and the surrounding towns. Concord is home to the New Hampshire State Prison and will soon be home to the new Women's Prison. There's undoubtedly an impact felt by Concord and its neighbors due to the discharge of prisoners, and it is important for Concord to develop a strong understanding of this impact. This study will not only result in

the identification of challenges, but also help community leaders and state officials develop best practices and improve policies across the state. The committee amended the bill to add a member from the New Hampshire Association of Criminal Defense Lawyers and the warden of the New Hampshire correctional facility for women. The majority of the Judiciary Committee asks for your support in the motion of Ought to Pass with Amendment on Senate Bill 392. Thank you, Mister President.

The question is on the adoption of the Committee Amendment. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to Third Reading.

TRANSPORTATION
SB 300, naming a certain bridge connecting Dover and Newington the Ruth L. Griffin bridge.
Ought to Pass, Vote 5-0. Senator Watters for the committee.

SENATOR WATTERS: Thank you, Mister President. I move Senate Bill 300 Ought to Pass. This bill names a certain bridge connecting Dover and Newington the Ruth L. Griffin Bridge. Ruth Griffin's name is identified with the improvement of the State of New Hampshire. She is a deeply committed public servant who served in the House and Senate, and on the Executive Council, representing District 3 for twenty years. She is an icon in state and national politics and is respected by Republicans and Democrats alike. She has an enduring reputation for her commitment to her community and her constituents. Naming this bridge in her honor suitably ensures her legacy. All members of the Transportation Committee ask for your support in the motion of Ought to Pass on Senate Bill 300. Thank you, Mister President.

The question is on the adoption of the motion of Ought to Pass. Adopted, bill ordered to Third Reading.

SB 344-FN, authorizing New England Donor Services, Inc. to issue decals for multi-use decal number plates.
Ought to Pass, Vote 5-0. Senator Birdsell for the committee.

SENATOR BIRDSELL: Thank you, Mister President. I move Senate Bill 344-FN Ought to Pass. This bill authorizes New England Donor Services, Inc. to issue decals for multi-use decal number plates. Currently, there are twenty-four states that have organ donation decal plates and there are two other New England states currently looking at using such decals. These decal plates provide an opportunity for people to advocate for organ donation. Allowing the issuance for such decals is an important step in raising awareness. Since there are several pieces of legislation this session that deal with decals for multi-use decal plates, some of which need amendments in order to be passed into law properly, a subsequent motion will be offered that I hope each of you can support. This will ensure that all pieces of similar legislation are passed properly. All members of the Transportation Committee ask for your support for the motion of Ought to Pass on Senate Bill 344-FN. Thank you, Mister President.

The question is on the adoption of the motion of Ought to Pass. Adopted.

Senator Bradley moved to Lay on the Table. Adopted.

SB 345, naming a bridge in the town of Lincoln in honor of the Clark Family.
Ought to Pass, Vote 5-0. Senator Ward for the committee.

SENATOR WARD: Thank you, Mister President. I move Senate Bill 345 Ought to Pass. This bill names a bridge in the town of Lincoln in honor

of the Clark family. Ed and Florence Clark founded the now well-known Clark's Trading Post in Lincoln in 1928. Their family is still engaged with the trading post to this day. The 90th celebration of the trading post is quickly approaching this year and honoring the family by naming this bridge just beyond their property would be a wonderful gesture. Further, the town of Lincoln supports this legislation. All members of the Transportation Committee ask for your support in the motion of Ought to Pass on Senate Bill 345. Thank you, Mister President.

(The Chair recognized Senator Woodburn.)

SENATOR WOODBURN: Thank you, Mister President, and I want to thank the Transportation Committee for their great work on this bill, Senate Bill 345, which will name a bridge in the town of Lincoln for the Clark Family known for the iconic attraction Clark's Trading Post, which began in 1928 when Edward and Florence Clark opened up their roadside attraction in Lincoln for visitors. Ed Clark's Eskimo Sled Dog Ranch featured guided tours with their pure-bred Eskimo sled dogs and they also included three black bear cubs. The bears were a perfect visual attraction for passing motorists, and in 1949 Ed and Murray began training their bears for show work. The Clark brothers and their bears delighted guests with humor and hospitality. In 1932 Florence drove her dog team all the way up to the summit of Mount Washington to become the first woman to make the successful climb to the summit. With the coming of World War II, the Federal Government approached the Clark's to see if they would supply Eskimo sled dogs for the war effort. The dogs were to be delivered to Iceland to the Norwegian Army. There was a general agreement that someone from the family needed to oversee the delivery of these dogs, and Edward and Florence being in poor health chose the logical choice of their 18-year old son, Ed Clark. Ed and the dogs boarded the SS El Conston in Boston, and the ship headed across the Atlantic in a very dangerous place in the summer of 1942. During time in the outside world, Ed discovered a love for engineering, steam locomotives, and upon the return from Iceland decided to join the United States Merchant Marines. And a few months after he left that service, he was called into service again and asked to bring more dogs to be shipped to Scotland and this was passed onto his 15-year old son, Murray, for an adventure; and he was pulled out of school; and Murray went to Manitoba to procure the needed dogs and then bring them to Scotland. Over the years the Clark's business evolved to what it is today, and what the guests are much more familiar with. In the 50s Ed had a fascination for steam locomotives and he began saving locomotives that were destined for demolition creating, as Ed put it, green pastures for iron horses. This led to the founding of the White Mountain Central Railroad in 1958. In 1963 saw the addition of a covered bridge spanning the Pemigewasset River, which allowed the extension of the scenic railroad. The Clark brothers married the Avery sisters of North Woodstock. Ed married Joyce, and Murray married Barbara, and between them they had nine children. I would just say today, Mister President, 2018 marks the 90th year of this operation. The Clark Family today, any trip to their great facility there in Lincoln, you'd find as many as twenty family members working there spanning five generations. It's still locally owned, locally operated business where you hand a dollar to an owner. And they're a great family, we love having them in the North Country.

And I just want to share one personal note. Last fall I did a historic covered bridge tour, and you might not know, Mister President, but 24

percent of the state's historic covered bridges are in my district. Well, I assumed these bridges were on public roads, which was a wrong assumption because the night before, after we had a bunch of DOT and historic people and others who were just interested, I found out that this bridge we were going to tour was inside the grounds of Clark's Trading Post and off season. So, the night before, calling to say can we bring a whole lot of people over to your facility, the Clark's always respond, always gracious, always willing to show off the great work that they do there. And this is an appropriate honor and I want to thank the committee and the Senate for your support of this. Thank you.

The question is on the adoption of the motion of Ought to Pass. Adopted, bill ordered to Third Reading.

CONSENT CALENDAR REPORTS REMOVED

PRESIDENT MORSE: We are at the conclusion of the regular calendar and will take up the bills that were removed from the consent calendar.

EXECUTIVE DEPARTMENTS AND ADMINISTRATION
SB 330, requiring the department of environmental services to give certain persons time to cure violations before imposing a penalty. Inexpedient to Legislate, Vote 5-0. Senator Soucy for the committee.

SENATOR SOUCY: Thank you, Mister President. This bill would require the Department of Environmental Services to give certain persons time to cure violations before imposing a penalty. The committee felt this legislation would limit the New Hampshire Department of Environmental Services ability to impose administrative fines and also seek civil penalties in certain cases. The legislation would also result in increased oversight and potentially direct enforcement in New Hampshire by the United States Department of Environmental Protection, which we believe is an overreach and would require New Hampshire businesses to have to appear before federal court for these penalties if we were failing to authorize them. The committee was unanimous in its recommendation of Inexpedient to Legislate, and I ask you to support the committee recommendation.

(The Chair recognized Senator Sanborn.)

SENATOR SANBORN: Thank you, Mister President. Mister President, I rise and ask the body to overturn the Inexpedient to Legislate motion so I could offer a motion of Ought to Pass. Mister President, in the discussions that have been had that I am aware of on this bill, the reasoning given to not pass the bill was the fact that the agency is presently going under a performance audit, and we want to see how that audit turns out. But Mister President, we know, we know that giving people an opportunity to correct their wrongs, if they have not done something with malice, is an important part of how we should look at our government. Since I've been in this building, we have time and time again talked about, looked about, and passed legislation that says we recognize that sometimes people make paperwork mistakes, and sometimes people make mistakes unknowingly, and we believe that those people should be given an opportunity to cure it before they feel the hard hand of government administratively and financially. Mister President, this is a bill that looks to do that same thing that recognizing the fact that with 1.3 million people in this state, hundreds and hundreds of thousands of business owners and 170,000 small businesses that sometimes mistakes happen. Sometimes people don't know the laws, sometimes people don't understand what the requirements are. We know that in the state of New Hampshire, for example, our Shoreland Protection Act is the most

comprehensive and difficult to understand and work with in America; not saying that it's bad, it's hard to follow, it's hard to understand. And, for the record, Mister President, I own waterfront properties so, therefore, I'm declaring I may or may not have an ethics challenge, but I'm still participating. So, what are we to say as a body that if we don't believe that people have the right to correct an honest mistake, that everyone's guilty, everyone should be punished, everyone should pay a fine without any ability for them to say I apologize, give me a chance to fix that? I think it sends a bad message, Mister President. I believe this body should overturn the Inexpedient to Legislate so we could introduce a motion of Ought to Pass, and let the people of this state know that we're trying to pass good laws and right laws, and we have agencies that are making rules on a regular basis that very few people in this building ever voted on, and the general public might need and deserve that opportunity to fix their problem before they get the heavy hand of government right up their canoe. Thank you, Mister President.

(The Chair recognized Senator Carson.)

SENATOR CARSON: Thank you, Mister President. I rise to ask the body to please support the very strong 5-0 vote of the Executive Departments Committee that heard this legislation. The Senator from District 9 is correct in speaking to the fact that the Department is currently going through a performance audit, and they have asked us to wait until the spring when do receive a copy of the audit, or the audit is finalized. And, they're going to be more than willing to work with the legislature in order to correct any deficiencies. But what I think was really more troubling was a letter that I received from the Department, and they talked about cases of oil spillage. And the question that we were asked was would this require that the New Hampshire Department of Environmental Service to first inform the facility of the potentially knowing and ongoing oil discharge, and then wait to see if the discharges stopped within thirty days. Only if the discharge continued past the thirty days would the Department seek to authorize or impose a civil penalty. So, in essence it's basically tying their hands and allowing what could be a very potentially, endangering situation go on for thirty days, and they felt that this was not appropriate. In addition, Senate Bill 330 may result in increased oversight and direct enforcement in New Hampshire by the U.S. Environmental Protection Agency. If sufficient fines or penalties are not imposed by New Hampshire DES in particular cases, the EPA could seek to impose Federal civil penalties in Federal court. These additional court actions are known as "over-filing." Second, and more drastically, if the Department's authority to impose fines and penalties is reduced, or effectively eliminated, EPA may withdraw its approval of New Hampshire's delegated and authorized environmental programs under various federal environmental statutes. As a result, businesses and individuals would be required to communicate and negotiate with the EPA directly rather than with their local New Hampshire DES office. Mister President, most of us, if not all of us in this room believe that the closer government is to the people the better it operates. Why would we pull the state of New Hampshire out and have our citizens have to deal with the Federal Government? I think we all know that dealing with the Federal Government can be very difficult, and why would we put them in jeopardy of doing that? So, again, Mister President, after careful consideration the committee believed, very strongly, 5-0 that this bill is Inexpedient to Legislate, and I'll ask the body to support that. Thank you very much.

(The Chair recognized Senator Giuda.)

SENATOR GIUDA: Thank you, Mister President, members of the Senate. I have the honor of representing District 2, which has nineteen lakes, including Winnipesaukee in the district. The number one cause of complaints across my desk is the Department of Environmental Services. It is I who requested the performance audit of the wetlands division, the Wetlands Bureau of the water division of DES, because of the seemingly high number of consistent complaints out of that one agency. A number of, I think, misstatements, or misunderstandings, have been presented with respect to the administrative process. A thirty day stay, offering a person the right to remedy a problem in no way impacts the time frame. Penalties and fines are assessed after months, sometimes years of attempting to get a potentially intransigent citizen or business to remedy the problem. So thirty days has no bearing on the penalty or fining process; it's the boogeyman. We're not harming the DES; the United States EPA is not going to jump in if we give a grace period for someone to fix the problem that is the reason they might jump in. And it does not do anything to remove the ability of DES to fine or penalize the business or individual for noncompliance. It merely says you get thirty days to clean it up. If that doesn't happen, parenthetically, most of the time DES can't act within thirty days anyway they're so backlogged, but when an exigent circumstance arises they can, and they do. Offering the right to remedy the problem in no way mitigates the fact that the person can be fined for violating the rules. So, I think that the arguments are disconnected, and I think that this is a good bill. I'm going to oppose the Inexpedient to Legislate and ask you to support that motion.

(The Chair recognized Senator Sanborn for a question of Senator Giuda.)

SENATOR SANBORN: Senator, thank you for taking my question. The Senator from District 13 read a letter from the agency making a suggestion that if there was an oil leak on a property that if this bill were to pass that the owner of that property would let an oil leak continue unabated for another thirty days while they considered whether or not it was an egregious act or not. Could you think of anything more insulting to the business community or the people of this state then to make a suggestion that people would be willfully making a decision to be nonresponsive if something was happening on their property?

SENATOR GIUDA: I would elevate the discussion out of insults back and forth. What I would say is I know of no reasonable business person or individual with an oil leak on his or her property if it's brought to their attention is not going to do everything in their power to fix it because they're aware of the civil penalties and fines and other consequences that are levied if they don't. I don't believe anybody willfully wants to destroy the environment, especially given the attention our state has given to that. Thank you.

SENATOR SANBORN: Thank you. So, would you agree with me that if the Department of Environmental Services would make this claim in a letter that they're showing a level of exaggeration of what bad things might happen, and it would be inappropriate for them to do so?

SENATOR GIUDA: Well, I think that the Department would like not to have strictures put on it, or potentially that might enable the person to fix something without the heavy hand of government in their face. Again, I don't know their motivation, but I do know that giving people a

thirty day grace period, okay, is not a bad thing. Most people will honor that, and those that don't are still subject to fines and penalties and all the other authorities of the agency.

SENATOR SANBORN: Thank you, Senator. Thank you, Mister President.

(The Chair recognized Senator Lasky for a question of Senator Sanborn.)

SENATOR LASKY: Thank you, Mister President. Senator, granted, I am aging, and my hearing may be going, but did I hear you say that you attributed this letter to the Senator from District 13?

SENATOR SANBORN: No, oh, Senator, thank you for that. I thought I specifically said, and sure the recording would show I specifically said, a letter that the Senator from District 15? Eleven, 14, my apologies my math is off today.

SENATOR LASKY: Thank you. I do not want any egregious statements attributed to me. Thank you.

SENATOR SANBORN: I appreciate that. And, for the record, Senator, I thought I attributed the letter itself making a statement; and if I attributed it to the wrong Senator, I apologize for math today; I must be approaching seventy.

SENATOR LASKY: Again, I am aging. So, thank you.

SENATOR SANBORN: Thank you.

PRESIDENT MORSE: The way this day is going, I'm aging!

(The Chair recognized Senator Avard for a question of Senator Carson.)

SENATOR AVARD: A real quick question, Senator, and thank you for taking my question. With regards to the audit, when is that audit due?

SENATOR CARSON: We were informed that it was due this spring time.

SENATOR AVARD: This spring time. Would it make sense, then, or could it make sense that we would vote in favor of passing this and then tabling and holding this in case that audit is not up to par?

SENATOR CARSON: Thank you for the question. Our crossover is March 22nd. I do not believe that the audit will be completed by then.

SENATOR AVARD: Thank you, Senator.

SENATOR CARSON: You're welcome.

(The Chair recognized Senator Fuller Clark for a question of Senator Carson.)

SENATOR FULLER CLARK: Senator Carson, it's my understanding, if you could confirm this, that according to the report from your public hearing that the Environmental Department said that their compliance assurance response policy makes sure there is an opportunity for a company to fix a problem before they necessarily institute a fine. So, it is my understanding that there is a lot of give and take in terms of working with our residents in this state who are out of compliance. Is that your understanding?

SENATOR CARSON: Thank you for the question, Senator. Yes, it is. As you can see, we did get testimony from the Department stating just that.

SENATOR FULLER CLARK: Thank you.

The question is on the adoption of the motion of Inexpedient to Legislate.

A roll call was requested by Senator Sanborn, seconded by Senator Giuda.

The following Senators voted Yes: Woodburn, Bradley, Watters, Hennessey, Gray, French, Ward, Kahn, Lasky, Carson, Feltes, Cavanaugh, Reagan, Soucy, Birdsell, D'Allesandro, Fuller Clark, Gannon, Innis, Morse.

The following Senators voted No: Giuda, Sanborn, Daniels, Avard.

Roll Call, Yeas: 20 - Nays: 4. Adopted.

TRANSPORTATION
SB 397-FN, authorizing the university system of New Hampshire to issue decals for multi-use decal plates.
Ought to Pass, Vote 5-0. Senator Cavanaugh for the committee.

SENATOR CAVANAUGH: Thank you, Mister President. Mister President, I'm only 52 but I forget what I'm supposed to say. I'm just kidding, I have it written down. This bill would allow the University System of New Hampshire, including Granite State College, Keene State College, and Plymouth State University, to issue multi-use decal plates. The sales revenue for these plates will be used exclusively for student scholarships based on need and merit. These plates would also allow the students, faculty, and alumni to demonstrate pride in their institutions, just as those of the University of New Hampshire already may. As we have already heard today, there are several pieces of similar legislation dealing with issuing decals this session. As a house-keeping measure, a subsequent motion will be offered that I hope you can support in order to ensure that all of these pieces of legislation are passed properly. Thank you, Mister President.

The question is on the adoption of the motion of Ought to Pass. Adopted.

Senator Bradley moved to Lay on the Table. Adopted.

Without objection, the Clerk shall read the first complete House Message and thereafter only the title of each bill shall be read. Adopted.

PRESIDENT MORSE: Senator Bradley, Senate Bill 215. Do you still wish to special order that to the next session?

SENATOR BRADLEY: I do wish to special order Senate Bill 215 so that the committee has an opportunity to discuss it.

SPECIAL ORDER

Without objection, the following bill is special ordered to the next session. Adopted.

EXECUTIVE DEPARTMENTS AND ADMINISTRATION
SB 215-FN, permitting the university system of New Hampshire and the community college system of New Hampshire to participate in the state health insurance plan.

HOUSE MESSAGE

The House of Representatives concurs with the Senate in the passage of the following entitled Bill, with amendment, in the passage of which amendment the House asks the concurrence of the Senate:

SB 48, establishing a commission to study the efficiency and effectiveness of the fish and game department's operations, governance, and management structure.

Senator Avard moved Concurrence. Adopted.

SB 119, relative to the length of docks on a water body and boat slips.

Senator Avard moved Nonconcurrence and requested a Committee of Conference. Adopted.

The President appointed Senators Bradley, Sanborn and Fuller Clark.

SB 132, relative to historic burial grounds and cemeteries.

Senator Carson moved Concurrence. Adopted.

SB 247-FN-A, preventing childhood lead poisoning from paint and water.

Senator Bradley moved Concurrence.

A roll call was requested by Senator Sanborn, seconded by Senator Feltes.

The following Senators voted Yes: Woodburn, Bradley, Watters, Hennessey, Gray, Ward, Kahn, Lasky, Carson, Feltes, Cavanaugh, Reagan, Soucy, Birdsell, D'Allesandro, Fuller Clark, Gannon, Innis.

The following Senators voted No: Giuda, French, Sanborn, Daniels, Avard, Morse.

Roll Call, Yeas: 18 - Nays: 6. Adopted.

SB 71, relative to the law governing alimony.

Senator Carson moved Nonconcurrence and requested a Committee of Conference. Adopted.

The President appointed Senators Carson, French and Lasky.

SB 249, relative to procedures for determining and disclosing exculpatory evidence in a police officer's personnel file.

Senator Carson moved Nonconcurrence. Adopted.

(The Chair recognized Senator Bradley.)

SENATOR BRADLEY: First, I want to thank my colleagues from District 13 and 14 for "degeezering" me; giving me a fountain of life, although I certainly don't feel that way. So, Mister President, thank you very much.

MOTION TO ADJOURN FROM EARLY SESSION

Senator Bradley moved that the Senate adjourn from the Early Session, that the business of the Late Session be in order at the present time, that all bills and resolutions ordered to Third Reading be, by this resolution, read a third time, all titles be the same as adopted, and that they be passed at the present time.

Adopted. Adjournment from the Early Session.

LATE SESSION

LIST OF RULE 6-25'S FOR THE DAY

Senator Gray: SB 247-FN-A
Senator Sanborn: CACR 20, HB 225, HB 561-FN, SB 48, SB 92, SB 71, SB 119, SB 132, SB 247-FN-A, SB 249, SB 300, SB 321, SB 324-FN, SB 325, SB 326, SB 328, SB 330, SB 333, SB 334-FN, SB 336, SB 344-FN, SB 345, SB 358, SB 360, SB 367, SB 369-FN, SB 371, SB 372-FN-A, SB 375, SB 376-FN, SB 377-FN, SB 380, SB 384, SB 385, SB 392, SB 396-FN, SB 397-FN, SB 399, SB 407, SB 469
Senator Woodburn: SB 247-FN-A

ANNOUNCEMENTS

(The Chair recognized Senator Hennessey.)

SENATOR HENNESSEY: Thank you, Mister President. I stand for unanimous consent. And I'm here this afternoon to pay tribute to a great and 50 year New Hampshire resident and a great man who died last week on January 11th at the age of 92. My father, John William

Hennessey, Jr., was a veteran of World War II, a scholar, a feminist, a progressive, and an ethicist, with an exceptional career. He majored in economics in social institutions at Princeton writing his senior thesis on the merits of national health care. After graduating from Harvard Business School in 1950 my father knew that he wanted to be a teacher. He completed his Doctorate in Organizational Behavior followed by moving to Hanover, New Hampshire with his wife, Jean, and their two young children. My father accepted then the deanship at Tuck in 1968 at the age of 43 on the condition that the trustees allow women to be admitted into the Business School. This was three years prior to the undergraduate college's acceptance of women. And he also worked to remove racial barriers by recruiting minorities into the five most selective business schools in the country.

My father served on more than thirty non-profit college and corporate boards serving as a chair of the Dartmouth Hitchcock board, Encyclopedia Britannica, Vermont Law School, Connecticut Mutual Life Insurance and others. More recently he sat on the boards of Americans for Campaign Reform and Patient Choices at End of Life. In 1981 he received an honorary Doctor of Humane Letters from the University of New Hampshire, and on the occasion of his 80th birthday, then New Hampshire Governor John Lynch proclaimed March 25, 2005 John W. Hennessey, Jr. Day. While his resume is extensive, and this only represents a small taste of all the things John Hennessey accomplished, I will always remember my father for his intellectual curiosity, his fierce integrity, his humanitarianism, and his convictions regarding the inherent dignity of all humans.

As a colleague, a teacher, a mentor, a friend, or a dad, my father made others feel as if they were the only ones in the room. He practiced unconditional, positive regard and always knew that asking good questions was more important than giving quick answers. I wish that I had a nickel for every time someone has told me how my father changed his or her life. He made people, including me, want to be the best versions of themselves. But those closest to John Hennessey knew about him was that he had a love affair with words, and still was using words that I had to look up in the dictionary on his deathbed.

He loved to make people laugh. His wit was sharp; he was also playful, and he made us smile to the very end. His children and three grandchildren were always his first priority. He read the books they read in school so they could discuss them, and he recently apologized to our youngest daughter for not being able to read her law school texts because of his failing eyesight. He took all of my children to all 50 states, and he attended every local event. And in the past six years he became the proud great-grandfather of 5 great-granddaughters, a new thrill in his life.

Some of you know that my mother was very involved in New Hampshire politics along with her dear friend, New Hampshire Senator Mary Louise Hancock, who died one month ago. After my mother died in 2004 my father married former Governor Madeleine Kunin from Vermont in 2006. He felt sure that she was a gift from my mother, knowing that she would not want him to be alone. We lost a great man last week, and although he lives on in so many who knew and loved him, he will be dearly missed. In today's *Valley News,* Martha Loreman, from the first class of women at the Amos Tuck School, wrote a letter to the Editor that stated in part, John was a wonderful man, devoted to his family, dedicated to his students, dedicated to improving the world, and an ardent supporter of the Socratic Method. My heart is hollering in pain at his passage. I'd

like to take this opportunity to thank everybody who has expressed their condolences to me, and I just wanted, for the record, to read something about him. Thank you.

PRESIDENT MORSE: Senator Hennessey, I want you to know the thoughts and prayers of all the Senators are with you and your family, and your remarks will be entered into the permanent *Journal*.

(The Chair recognized Senator D'Allesandro.)

SENATOR D'ALLESANDRO: Thank you, Mister President. Again, a point of personal privilege; you know it's kind of a tragedy that whenever we get up and do these things, we're talking about people that have passed on and left real holes in our hearts. But the memories and the relationships that were created will live forever, and that's really what life is all about.

We lost a truly great man last week when we lost Colonel Paul O'Leary. Now some of you might remember Paul, some of you don't remember Paul, but I was a friend of Paul's for the last forty years. Paul O'Leary became Colonel of our State Police and, believe it or not, Paul O'Leary was the first and only person to rise from Trooper to Colonel and go through every rank that was offered by the State Police. He went through every rank from zero to Colonel and is one of two men to have the rank of Lieutenant Colonel for the State Police. He and Lieutenant Colonel Hayes were the only two ever to be Lieutenant Colonels. And I might say in his lifetime he suffered a demotion at one time when they took the Lieutenant Colonel away and made him a Major and placed him over at the highway building at a desk in isolation. But the man had the courage of a lion; he lived through this and went on to become Colonel of the State Police. Paul served in the Coast Guard and in the Marine Corps. And in the Marines we always say, as Senator Giuda might know, Semper Fi; and he was Semper Fi, and lived with that.

Paul passed away in Rochester surrounded by his family. He suffered some tragedies prior to his passing. He lost a son, and he lost a daughter, and Paul loved his family. He really loved his family and was a great, great family man. I got to know Paul because he liked football players, you know, and I had the privilege of playing when I was in college and Paul and the Chairman of the Board of Trustees at the University would drop over and say hello. But with O'Leary's passing we have lost a memory of leadership because Paul was a strong leader. And we know we have great confidence in our State Police, and the reason why we do is because of the leadership that has been manifested by people like Paul O'Leary through the years. That's a great loss, but in essence the memory will live on because Paul left us with something. He left us with a vibrant organization, with an organization that we believe in, and an organization that serves the public.

I've had the privilege of meeting a number of great guys in my service in this state and Paul O'Leary ranks right up there with the tops. You know he's a Walter Peterson type–big, strong guy who wasn't afraid to do anything. So, it's a great loss for the state, great loss for his family. His wife still lives in Rochester. I know Senator Gray knows the O'Leary family. They were married for 68 years; that's a milestone in today's world. And, as I say, it's a great loss for the state. So, hopefully we'll remember Paul O'Leary for the service that he rendered to the state of New Hampshire over his many years in the State Police. Thank you, Mister President.

(The Chair recognized Senator Kahn.)

SENATOR KAHN: Thank you, Mister President. I rise for a moment of personal privilege, and want to thank my colleagues for the eloquence in which they've addressed family members, and those who have dedicated great service to the state. It's just remarkable to hear the life story of people. And here we are, we are not necessarily at that same age that's been described today, but if we live long enough, we're here to honor those who we've known that are now deceased.

I rise today on behalf of a friend, Representative Gladys Johnsen, who has represented Keene in the House of Representatives for the past seven years. I've known Gladys since 1991 when she joined the Keene State College music faculty. We worked together for fifteen years at Keene State College. Gladys has a remarkably beautiful voice and is an outstanding choir director still directing the choir at the Keene Unitarian Church. It was two Thursdays ago when she was in a House session that Representative Johnsen received a call that her husband of twenty-seven years, Melvin Morgan, had collapsed and died at home. I was fortunate to know Mel. He often accompanied Gladys to the State House and events that occurred in Cheshire County, and at Keene State College. When the Reverend Michael Hall, at the Keene Unitarian Church, gave a wonderful eulogy for Mel, who was an active parishioner, he described Mel as a kind and loving man. That is exactly what those of us who knew Mel would have said. By all accounts of many of his grandchildren who said he was the coolest man in Keene. We all envied the title. A tribute to a man who directed his attention and his love to family, church, and community, and I hope that you'll join me in sharing your sympathy with Representative Johnsen's loss, and the loss of a man who will be missed by his Cheshire County, New Hampshire and Maine friends.

And while I'm standing today, I'll just pay tribute to another member of New Hampshire's music community. We lost a fantastic musician this last week, saxophonist Scott Mullett. If you were out on the music circuit in Keene you knew Scott. You could pick Scott out in a group as, "there is the musician." The burley, mustached, quiet, demurring, quiet sense of humor who played the saxophone. He shared his talent with students in the Boston Conservatory, Vermont Jazz Center, and Keene State College, and played with many bands in New Hampshire. He was a young man and we lost him way too soon; we pay tribute and write into the record my thoughts on the loss of both Melvin Morgan and Scott Mullett. Thank you, Mister President.

(The Chair recognized Senator Innis.)

SENATOR INNIS: Thank you, Mister President. A little personal privilege and most of you know I don't speak a lot in here so I'm going to ask that you indulge me for just a moment. And given the context of today's debate, this is a particularly interesting discussion I'm about to have.

When I was a boy, I was fortunate and had four grandparents and five great-grandparents. They were a font of knowledge and wisdom and information, and I thought they were a terrific addition to my life. And I took advantage of that and talked with them often and learned a great deal from them. Across the street from me was a woman named Mrs. Otten, who lived on a corner lot and swept her gutter every day. I was 7, 8, 9 years old and every day when she went out, I went out and I sat on the curb with her and I talked at her for the full hour it took her to work her way around. And it was a wonderful experience to learn from

these folks and to understand their perspective and everything that they had been through. I've had a number of people that I consider mentors who generally have been older than me: my grandfather is one; my father, certainly; and a number of older folks that I've always looked up to. And I lost my last grandfather just four years ago; my last great-grandmother was in 2000 when I was 36. So I had an opportunity to learn an enormous amount from these people.

Today we named a bridge after someone who is still with us; a person who has the characteristics of those folks that I grew up with, and has served as a mentor to me, Ruth Griffin. And I think she's had an impact on people, and our state, and our community that goes far beyond anything she can imagine, which is true for my grandparents and great-grandparents. I don't think they understand the impact they had on who I am today–maybe now they do, they didn't when they were living. And Ruth Griffin is that type of person for so many of us; probably many of us in this room. She has been an icon in our state for a long, long time. And I remember the first time I went to meet her. I was running for Congress and, you know, you got to get this endorsement, Ruth is really important. You walk into her parlor and you sit down, and you see those eyes of hers, and everybody's seen them, they're looking right through you and you know it, and you think, Oh my God. You know, she sees everything about me, how am I going to get through this? And when I sat with her, she made me wait weeks before she would endorse me, and I swear it was a plan. But eventually she did, and I had to go hold court with her again, and it was a wonderful thing, and our friendship has grown over the years. I'm negligent in visiting her, the record will show that. I will be scolded when I finally arrive, but I will do so. But I think one of my favorite comments from Ruth was this: I was troubled recently, and I won't tell you which party had me troubled, could be both of you, and I said I'm not quite sure how to approach this. And you can guess what she might have said–Oh the hell with them, do what's right and do what you believe is right, and you'll be just fine. And that's the way Ruth has lived her life, and that's the way she has mentored so many of us to lead our lives in politics. She's a landmark in her own right, and it's only fitting that we name a landmark after Ruth Griffin.

So thank you all for your vote today, and thank you Ruth for all that's you've done. Counselor Griffin, all that you've done for our state and for the citizens of our state we are all grateful. Thank you.

(The Chair recognized Senator Giuda.)

SENATOR GIUDA: Thank you, Mister President, for a point of personal privilege. One year ago today the most important person in my life was stricken, and that commenced a journey that has taken me from the heights of exhilaration to the depths of despair. Through all of that, your prayers, your cards, your kind wishes and words have helped me sustain traction in life, have helped me keep moving day after day when sometimes the days seem more than I can take. I'm here today to talk for just a moment about the courage of a lady who was supposed to not survive a year ago today, and yet here we are. At this point in time, she can be in a chair for about an hour and fifteen minutes before her heart starts to give out because she's been horizontal for so long, but we're making progress. Two weeks ago, for the first time, with her eyes open, the director of nursing asked her, Christine are you comfortable? And she said uh-huh. And then he asked her, if you just said yes, would you blink your eyes once? And she blinked her eyes once. It is a torturously

slow journey, and yet one which has deepened my faith, reinforced my faith in human nature; I cannot tell you how much different the real world is in the hearts of small town people than what we see and read in the papers every day of violence and hatred and anger. But I can tell you I lived at Dartmouth for five weeks and during that period of time my kids were going back and forth to home. We would find hot meals on the stove from people we didn't even know. We would find chocolate chip cookies with a note that said, smile, it will get better. We had more things done–people plowed our driveway; all of these things that are in the good heart and the good nature of the people of this state, and I believe of this world. I'm here to attest to the courage of a lady, who wasn't supposed to make it and we're a year down the road, and she may just be coming back to us. Thank you for your support for me in my journey. Thank you for your prayers for my wife and hers. Thank you, Mister President.

(The Chair recognized Senator Feltes.)

SENATOR FELTES: Thank you very much, Mister President. Personal privilege for two reasons: first, a wonderful constituent of District 15 has just had a new grandbaby, a baby girl, Violet Saylor. That constituent is our Clerk, Tammy Wright. Let's give a round of applause to Tammy Wright.

On a much more somber note, Mister President, a good friend, fellow neighbor in the South End of Concord, a former State Senator, Chip Rice, passed away recently, and I'll read portions of his obituary into the record.

> Chip Rice was a great story teller–as long as you had lots of time and patience. Before you had a chance to say yes to his question, have I ever told you? Chip would launch into a story about meeting Robert Frost at Kimball Union, his shenanigans in the Navy or playing rugby against Prince Charles. It delighted Chip when his grandson Emmett joked that he kept a spreadsheet of all Chip's stories and the frequency with which he told them.
>
> Chip and his wife Ann loved to travel, and while many people collect souvenirs, Chip collected friendships. A B&B proprietor from Wales, a root beer baron from Glasgow, and some RV'ers from Germany are a few of the people Chip convinced to visit him in New Hampshire. He was always game to try the local cuisine–like guinea pig in Ecuador and salt cod in Nova Scotia–but his family wasn't always excited when he brought the recipes home with him.
>
> Chip was the original hipster–he made hummus before it was a thing, he carried a manbag, traveled to Manchester for Rooster Sauce, made his own pita chips, roasted his own coffee, and rocked a mean goatee. His hairstyle was lovingly known as the "grenade look" and he was happiest in saggy jeans and a coffee stained sweatshirt. But on special occasions, he pulled out all the stops, with his Scottish kilt, tailored jacket and every accessory. Chip never did anything halfway. In fact, when he experimented with raising sheep, he had a herd of 50 of them.
>
> Chip was a practical and creative joker who made people laugh but was very serious when it came to his community. He dedicated his life to helping others whether as Executive Director of Rockingham County CAP, CEO of Bancroft Products, or as a state Senator. He loved living in Concord and was passionate about his work with the refugee community; organizing community discussion groups and

representing the South End in the New Hampshire State House. His ability to look beyond difference and find mutual understanding made him an inspiring leader and mentor. His most recent project was supporting the creation of the John Winant statute, which was spawned by his obsession with the book *Citizens of London*.

Chip's dogs were his constant companion. Tinker, Max, Dakota, and Izzy all found a happy spot under Chip's hand. Most of all he loved his wife Ann, who sang him silly songs, shared his love for travel and people, and made him smile every day.

Chip died on Wednesday, January 3rd, in the way he had hoped–at home, without medical intervention, with his loving wife and children holding his hands. His family, both by birth and by choice, will continue to share his stories.

(*Union Leader*, Jan. 7, 2018)

Thank you, Mister President.

(The Chair recognized Senator Fuller Clark.)

SENATOR FULLER CLARK: Personal privilege. I'd simply like to inquire as rather or not the remarks that were made by Senator Woodburn about the Clark family could not also be included in the permanent *Journal* since they really record a really remarkable history. Thank you.

PRESIDENT MORSE: The answer is yes. I believe any debate that we have during the session is included.

(The Chair recognized Senator D'Allesandro.)

SENATOR D'ALLESANDRO: Thank you very much, Mister President. Today is a great day in the Lasky family because Senator Lasky's husband is having a birthday today, so congratulations and all the best. Thank you, Mister President.

PRESIDENT MORSE: And before we recognize Senator Bradley–Rick, Kat congratulations on your wedding! We'll enter that into the permanent *Journal*.

Without objection, all personal privileges and unanimous consent shall be entered into the permanent *Journal of the Senate.* (Rule 2-16 and Rule 2-17). Adopted.

LATE SESSION

Third Reading and Final Passage

HB 225-FN, relative to information collection concerning electric renewable portfolio standards.
SB 92, relative to the consumer complaint process at the banking department.
SB 300, naming a certain bridge connecting Dover and Newington the Ruth L. Griffin bridge.
SB 321, relative to group host net energy metering.
SB 324-FN, allowing an optional retirement system allowance to include a subsequent remarriage of a divorced retiree.
SB 326, relative to the functions of the division of historical resources.
SB 328, relative to attorney general membership on certain committees and repealing the criminal justice information system.
SB 333, relative to pharmacy interns and vaccinations.
SB 336, relative to the judicial district for the towns of Waterville and Livermore.

SB 345, naming a bridge in the town of Lincoln in honor of the Clark Family.
SB 358, relative to reorganization of the department of education.
SB 360, establishing a commission to study whether the department of education should be required to conduct criminal history records checks, via a fingerprint check, on all applicants for teacher certification.
SB 367, relative to public utilities commission review of group host agreements.
SB 369-FN, relative to the publication of the rulemaking register.
SB 376-FN, relative to the sale of certain cold medications.
SB 377-FN, relative to the regulation of dentists and dental hygienists by the board of dental examiners.
SB 380, relative to the therapeutic use of cannabis.
SB 384, relative to written certification under the use of cannabis for therapeutic purposes law.
SB 385, establishing a foster care children's bill of rights.
SB 392, establishing a commission to study and evaluate the impact of the discharge of state prisoners.
SB 396-FN, relative to gold star number plates.
SB 399, naming a bridge in Concord in honor of David E. Powelson.
SB 407, relative to membership of the McAuliffe-Shepard discovery center board.
SB 469, relative to the appropriation of funds from the equipment inventory fund.

MOTION TO RECESS TO CALL OF THE CHAIR

Senator Bradley moved that the business of the day being completed, that the Senate recess to the Call of the Chair for the purposes of introducing legislation, referring bills to committee, scheduling hearings, sending and receiving messages, and processing enrolled bill reports and amendments and when we recess, we recess to the Call of the Chair.

Adopted. The Senate is in recess to the Call of the Chair.

INTRODUCTION OF LEGISLATION

Senator Bradley offered the following Resolution:

RESOLVED, That in accordance with the list in the possession of the Senate Clerk, the following legislation shall be by this Resolution read a first and second time by the therein listed title and referred to the therein designated committee. Adopted.

First and Second Reading and Referral

18-2832
SB 588-FN, relative to inspections of laboratories. (Bradley, Dist 3; Executive Departments and Administration)

18-2926
SB 589-FN, relative to regulation of certified recovery support workers. (Reagan, Dist 17; Carson, Dist 14; Gannon, Dist 23; Sytek, Rock. 8; McGuire, Merr. 29; Knirk, Carr. 3; Executive Departments and Administration)

18-2835
SB 590-FN-A, making a supplemental appropriation to the state loan repayment program, relative to emergency involuntary admissions, and relative to the child protection act and making appropriations therefor. (Bradley, Dist 3; Carson, Dist 14; Avard, Dist 12; Gray, Dist 6; Fuller Clark, Dist 21; Watters, Dist 4; Feltes, Dist 15; Danielson, Hills. 7; Rosenwald, Hills. 30; M. MacKay, Hills. 30; Health and Human Services)

18-2906
SB 591-FN, relative to accreditation of health care providers by pharmacy benefit managers. (Soucy, Dist 18; Reagan, Dist 17; Rosenwald, Hills. 30; Keans, Straf. 23; Health and Human Services)

18-2819
SB 592-FN-A, relative to the child welfare system. (Carson, Dist 14; Morse, Dist 22; Bradley, Dist 3; Avard, Dist 12; Reagan, Dist 17; Hinch, Hills. 21; Kotowski, Merr. 24; Bove, Rock. 5; Umberger, Carr. 2; Health and Human Services)

Enrolled Bill Amendment to SB 247-FN-A

The Committee on Enrolled Bills to which was referred SB 247-FN-A

AN ACT preventing childhood lead poisoning from paint and water.

Having considered the same, report the same with the following amendment, and the recommendation that the bill as amended ought to pass.

FOR THE COMMITTEE

Explanation to Enrolled Bill Amendment to SB 247-FN-A

This enrolled bill amendment makes grammatical corrections.

Enrolled Bill Amendment to SB 247-FN-A

Amend section 18 of the bill by replacing line 1 with the following:

18 New Section; Lead in Drinking Water in Schools and Licensed Child Care Facilities. Amend

Amend RSA 485:17-a, I as inserted by section 18 of the bill by replacing line 10 with the following:

approved by the department, within 30 days of notification of parents or, in consultation with the

Amend RSA 540-A:3-a as inserted by section 19 of the bill by replacing line 5 with the following:

shall notify the tenant or prospective tenant and shall install on the kitchen faucet a filtering

Senator Avard moved adoption of the Enrolled Bill Amendment. Adopted.

Out of Recess. Call the Senate to Order.

MOTION TO ADJOURN FROM LATE SESSION

Senator Bradley moved that the Senate adjourn from the Late Session.

Adopted. Adjournment from the Late Session.

February 1, 2018

The Senate reconvened at 10:00 a.m., a quorum being present.

The Reverend Jon Hopkins, chaplain to the Senate, offered the following prayer:

Dear God, we start this morning by praying for our colleague, Senator D'Allesandro, who is absent to be with his brother Paul in Boston with pneumonia. Strengthen them; give them the assurance of healing presence.

This morning we give thanks for our government and its leaders. Help them to be men and women acting justly and righteously; that we may lead a quiet and peaceable life in all goodness and honesty. Give our leaders wise and understanding hearts and let knowledge be pleasant to them. Guide them in making wise and just choices. Guard over them with understanding, keeping them out of danger; make their hearts and ears attentive to wise counsel, doing what is right for the people they serve. Give us upright, just and fair men and women in our government that our state will be secure and prosperous. Help them to do justice, love kindness, and walk with humility. Let all of us who enjoy the fruits of liberty and justice having seen their example pitch in and do our part to make our country and state a better place to live. Amen.

Senator Bradley led the Pledge of Allegiance.

Senator D'Allesandro is excused for the day.

INTRODUCTION OF GUESTS

(The Chair recognized Senator Avard.)

SENATOR AVARD: Thank you, Mister President. I would like to introduce and congratulate the coach and the team for the Hollis Thunder FIRST LEGO League, and congratulate them on their winning the State Championship in Windham, New Hampshire. Coach Gregory Szczeszynski. Did I say that right? Elliott Miller, Christopher Pyle, and Ania Szczeszynski congratulations! And we're looking forward to them representing our state in the 2018 FIRST LEGO League World Festival in April in Detroit, Michigan. Congratulations!

(The Chair recognized Senator Kahn.)

SENATOR KAHN: Thank you, Mister President. I would like to introduce two people that are in the Senate chambers today, Melanie Zalman McDonald. Melanie is the Executive Director of The Jewish Federation of New Hampshire, a statewide nonprofit out of Manchester, New Hampshire. The Federation carries out a number of activities serving thousands of people statewide, and among those are the only full day Jewish preschool; the monthly newsletter, the Jewish Reporter, circulated to 4,000 households; provides social services for needy families; produces the Jewish Film Festival, now in its 10th year; and is a powerful voice against anti-Semitism in partnership with twenty different agencies across the state. So, Melanie, thank you for being here today, and thank you for bringing your guest, as well.

Her guest is Noam Wolf, who hails from Maccabim-Re'ut, a city between Jerusalem and Tel Aviv in Israel. Noam, she arrived in Manchester, New Hampshire in August through a partnership between The Jewish Federation of New Hampshire and The Jewish Agency for Israel on a Shaliach. A Shaliach means that she is a designated emissary for New Hampshire, and carrying out a variety of educational and public service activities throughout the state. Her goal is to bridge the gap between the people in Israel and in the United States, and to promote a better understanding of Israeli ideals. And in her short seven months in the United States so far she's been able to present 140 different educational programs to people of all ages across the state. Welcome to the Senate chamber.

(The Chair recognized Senator Woodburn.)

SENATOR WOODBURN: Thank you, Mister President. I'd like to introduce to the body Joseph Mitchell who is a good friend and a freshman at White Mountain Community College who is with us today. Welcome to the Senate, Joe Mitchell.

(The Chair recognized Senator Sanborn.)

SENATOR SANBORN: I only see one in the audience so far, because they were so busy providing us a wonderful breakfast this morning, but they might show up later so I'm going to ask for a second accommodation, Mister President. But today some of you may have come down to visit the American Cancer Society, which is the best run cancer society in America; run by the best people in the state of New Hampshire, residing in the best Senate district in the state of New Hampshire, Mister President. And so I welcome all the members of the Cancer Society who were kind enough to give many of us breakfast this morning to talk a bit about their issues. So, if you could please welcome them to the chamber.

INTRODUCTION OF PAGES

(The Chair recognized Senator Kahn.)

SENATOR KAHN: Thank you, Mister President. I would like to introduce Mister Oni Saleh. An eleventh-grade student from Keene High School. He is an outstanding violinist who plays in the Keene State College Orchestra. He's a volleyball player and a math team member. Oni's got a terrific political resume, he's very active and was named an outstanding young Democrat last year for his activism. He is intending to pursue a career in biology, while he continues to be active in politics. Please thank him, welcome Oni for his work today.

SPECIAL ORDER

Without objection, the following bill is special ordered to the beginning of the regular calendar. Adopted.

TRANSPORTATION
SB 402, naming a portion of route 110 in Berlin in honor of Anthony B. Urban.

FN REPORT FOR FEBRUARY 1, 2018

Senator Daniels recommends the waiver of referral to the Finance Committee, Senate Rule 4-5, for the following bills with a fiscal note or an appropriation of funds:

CONSENT CALENDAR:

JUDICIARY
SB 496-FN, relative to mediation for child support arrearages over $5,000.
SB 558-FN, relative to discrimination based on pregnancy or lactation—if Interim Study recommendation is overturned.
SB 574-FN, clarifying the repayment period for parental reimbursement.

REGULAR CALENDAR:

HEALTH AND HUMAN SERVICES
SB 378-FN, relative to an exemption from the board of registration of medical technicians.
SB 482-FN, relative to confidential emergency medical and trauma services data.
SB 549-FN-A, making an appropriation to the department of health and human services for the Sununu health services center and relative to infants born with substance abuse or withdrawal symptoms resulting from prenatal drug exposure or fetal alcohol spectrum disorder.

JUDICIARY
SB 387-FN, relative to liability of governmental units.

TRANSPORTATION
SB 521-FN, authorizing Sophia's Fund to issue decals for multi-use decal plates.

Senator Daniels recommends the following bills be ordered to the Finance Committee upon being found Ought to Pass/Ought to Pass with Amendment:

CONSENT CALENDAR:

COMMERCE
SB 429-FN, extending the authority of the department of justice to trade or commerce involving insurance.

EDUCATION
SB 361, relative to dual and concurrent enrollment agreements between high schools and colleges and universities.

EXECUTIVE DEPARTMENTS AND ADMINISTRATION
SB 531-FN, relative to the office of professional licensure and certification.
SB 534-FN, relative to the classification of certain state employee positions.

REGULAR CALENDAR:

EDUCATION
SB 355-FN, relative to the names of colleges in the community college system.

ENERGY AND NATURAL RESOURCES
SB 528-FN-L, relative to dam registration fees and relative to permit fees for constructing or reconstructing a dam.

EXECUTIVE DEPARTMENTS AND ADMINISTRATION
SB 457-FN, waiving initial licensure fees for indigent applicants for certain professions—if Inexpedient to Legislate recommendation is overturned.
SB 465-FN, relative to documentation requirements for the department of labor.

HEALTH AND HUMAN SERVICES
SB 310-FN, establishing a pilot program for community-based diversion services.
SB 551-FN, relative to deductibles under health insurance policies—if Interim Study recommendation is overturned.

JUDICIARY
SB 390-FN, establishing the office of solicitor general in the department of justice and establishing an unclassified attorney position in the department of justice.
SB 492-FN, prohibiting bump stocks in New Hampshire—if Interim Study recommendation is overturned.

Without objection, today's FN Report is adopted.

CONSENT CALENDAR REPORTS REMOVED

JUDICIARY
SB 496-FN, by Senator Carson

CONSENT CALENDAR

Senator Bradley moved that the Consent Calendar, with the relevant amendments as printed in the day's Calendar be adopted and that all such bills found Ought-to-Pass be ordered as follows:

FN bills not waived under Senate Rule 4-5, to the Committee on Finance; non-FN bills approved for referral to Finance by the day's FN report, to the Committee on Finance; and all other bills, to Third Reading.

COMMERCE
SB 303, relative to a security freeze on a consumer's credit report.
Ought to Pass, Vote 5-0. Senator Lasky for the committee.

> This bill is an attempt to allow our consumers to better protect their financial security by eliminating the $10 fee paid to the credit bureaus. Now the law states in order to take action to protect one's credit one must prove that their credit has been compromised and adds a $10 fee. This legislation removes that $10 fee and allows you to freeze your credit for free.

SB 312, clarifying the New Hampshire Foundation Act.
Ought to Pass, Vote 5-0. Senator Innis for the committee.

> This bill makes three simple technical corrections to the Foundation Act. First, it clarifies that the principal office of a foundation need not be located in New Hampshire. This is consistent with the LLC Act, the Corporations Act and the Trust Act. It also adds a missing "and" and corrects a cross reference to the "General Powers" section of the Act. Finally, it adds a cross reference to the "Capital" section of the Act, to clarify that the language in this section limiting a founders powers must be read in conjunction with the "Reserved Power" section.

SB 315, relative to the definition of beverage.
Ought to Pass with Amendment, Vote 5-0. Senator Innis for the committee.

Mead is fermented with three basic ingredients: honey, yeast and water. It isn't classified as beer or wine, but stands apart in its own rank of alcoholic beverage. The amendment defines "mead" in statute and includes mead in the RSA that allows the commission to approve a malted beverage greater than 6 but not to exceed 8 percent of alcohol.

Commerce
January 24, 2018
2018-0283s
08/04

Amendment to SB 315

Amend the title of the bill by replacing it with the following:

AN ACT relative to the definitions of beverage and of mead.

Amend the bill by replacing all after the enacting clause with the following:

1 Beverage; Definition. Amend RSA 175:1, VIII to read as follows:

VIII. "Beverage" means any beer, wine, similar fermented malt or vinous liquors and fruit juices, and any other liquid intended for human consumption as a beverage having an alcoholic content of not less than 1/2 of one percent by volume and not more than 6 percent alcohol by volume at 60 degrees Fahrenheit and specialty beer as defined in RSA 175:1, LXIV-a. The commission may approve any fermented malt beverage ***or mead*** greater than 6 percent but not to exceed 8 percent or any cider greater than 6 percent.

2 New Paragraph; Definitions; Mead. Amend RSA 175:1 by inserting after paragraph XLVIII the following new paragraph:

XLVIII-a. "Mead" means an alcoholic beverage primarily made from honey, water, and yeast, and which may contain fruit, fruit juices, spices, or herbs added before or after fermentation as completed, except that the ratio of fermentable sugars from honey must exceed 50 percent of the total fermentable sugars used to produce mead.

3 Effective Date. This act shall take effect 60 days after its passage.

2018-0283s

AMENDED ANALYSIS

This bill defines mead and allows the liquor commission to approve certain meads.

SB 319, relative to exempt securities.
Ought to Pass, Vote 5-0. Senator Soucy for the committee.

This bill modifies the exemption from securities regulation for government issued securities including any industrial development bond or industrial revenue bond. NH is currently one of only 9 states that requires that when these securities are sold to the public a notice needs to be filed. NH is such a small state that it does not make sense for a bond issuer from other states to file a form and pay a fee in NH. The fee is modest but the legal and accounting costs to prepare the form far exceed the amount of the fee. This puts NH at a competitive disadvantage.

SB 348, relative to senior-specific certifications or designations for securities broker-dealers.
Ought to Pass, Vote 5-0. Senator Soucy for the committee.

The Legislature recently recodified the Securities Act but this particular provision was omitted. This bill would prohibit the use of senior designations unless the designation has been issued by a group that has been recognized by the nationally recognized accrediting organization. The original statute dealing with professional designation arose as a result of financial professionals that were falsely implying that they had expertise in senior issues and trying to capitalize on that market by offering products which may or may not have suited senior citizens. It is important to correct this oversight so the bureau can protect this age group that has been targeted in the past. In addition the bill makes technical corrections to federal and state statutory citations.

SB 429-FN, extending the authority of the department of justice to trade or commerce involving insurance.
Ought to Pass with Amendment, Vote 5-0. Senator French for the committee.

The original intent of this bill was to remove the insurance commissioner from the consumer protection act because although not law or a rule, the commission wouldn't allow anyone to go before the commission who was being represented by an attorney. The committee amendment replaces all and allows the insured to be represented by an attorney in dispute with an insurer in front of the commission as well as codifying other policies of the department. Adding this to statute clears up any confusion with the department.

Commerce
January 24, 2018

03/01

Amendment to SB 429-FN

Amend the title of the bill by replacing it with the following:

AN ACT establishing a consumer services program within the insurance department.

Amend the bill by replacing all after the enacting clause with the following:

1 New Section; Consumer Services Program. Amend RSA 400-A by inserting after section 15-d the following new section:

400-A:15-e Consumer Services Program.

I. The commissioner shall maintain a program to investigate complaints and respond to inquiries received, and, when warranted, refer matters for enforcement, further investigation, or examination against insurers, producers, or any other entity subject to the regulatory authority of the commissioner. The program shall include, but not be limited to, the following:

(a) A toll-free telephone number dedicated to the handling of complaints and inquiries.

(b) A standardized complaint form designed to assure that complaints will be properly registered and tracked.

(c) Maintenance of a comprehensive database of complaints and inquiries adequate to promote efficient case handling and to allow department analysts to discern potential issues with regulated entities and market trends that require follow up and potential regulatory action.

(d) The commissioner shall, if deemed appropriate, notify insurers, producers, or other regulated entities against whom the complaint is made of the nature of the complaint, may request appropriate relief for the complainant, and may meet and confer with the complainant and the regulated entity in order to mediate the complaint. This section shall not be construed to give the commissioner power to adjudicate claims.

(e) Retention of records on complaints and inquiries consistent with the insurance department's general record retention policy.

(f) Sharing of complaint information, pursuant to RSA 21-U, with other state agencies regulating financial services.

(g) Referral of complaints not within the department's jurisdiction to appropriate public and private agencies.

(h) Complaint handling goals that can be tested against consumer satisfaction surveys carried out pursuant to paragraph V.

(i) Inclusion in the department's annual report to the governor and council, required under RSA 400-A:26, detailed information regarding the program required by this section, that shall include, but not be limited to: a description of the operation of the complaint handling process, listing the number of complaints and inquiries received; enforcement actions taken pursuant to complaints received; the amount of staffing resources devoted to the handling and resolution of complaints; and the amount of recoveries made on behalf of consumers.

II. The commissioner may establish a secure, online complaint response system to distribute and receive complaint information from insurers and other regulated entities. Insurers or other regulated entities shall be required to submit and receive complaint information, including, but not limited to, requested claim files, underwriting files, correspondence, and other supporting documents, using any system established by the commissioner pursuant to this paragraph.

III.(a) In receiving complaints and inquiries, investigating complaints, and responding to complaints and inquiries by members of the public concerning the handling of insurance claims by insurers or producers, or alleged misconduct by insurers or producers, the commissioner shall not decline to investigate complaints for any of the following reasons:

(1) The insured is represented by an attorney in a dispute with an insurer, or is in mediation or arbitration.

(2) The insured has a civil action against an insurer.

(3) The complaint is from an attorney, if the complaint is based upon evidence or reasonable beliefs about violations of law known to an attorney because of a civil action.

(b) Consistent with the principles of res judicata and administration and judicial economy, the commissioner may defer any mediation effort or enforcement proceeding related to a complaint until the finality of a dispute, mediation, arbitration, or civil action involving the claim is known.

(c) Nothing in this section shall be construed to waive the confidential and privileged nature of all documents, materials, or other information in possession of the department pursuant to an investigation of a complaint as provided in RSA 400-A:16.

IV. In coordination with the consumer services program, the commissioner shall provide for the education of, and dissemination of information to, members of the general public concerning insurance matters. The commissioner may in person or through employees of the

department meet with individuals, organizations, and associations interested in insurance for the purpose of securing cooperation in the enforcement of the insurance laws of this state and may disseminate information concerning the insurance laws of this state for the assistance and information of the public. In addition, the commissioner shall arrange for public service announcements, website information, social media statements, and other outreach efforts reasonably designed to inform consumers of the availability of the department's consumer assistance program and how to register a complaint or make an inquiry to the department.

V. The department shall include, with each notification of final action to a complainant, or, at a minimum, with a number of randomly selected notifications of final action sufficient to assure the validity of results, a complaint handling consumer satisfaction evaluation form. This form shall clearly and concisely seek an evaluation of the department's performance in handling the complainant's grievance. The areas of evaluation shall include, but not be limited to: whether the complaint was handled in a fair and reasonable manner, evaluated thoroughly and without bias; the time required for resolution of the complaint; whether the complaint was referred and, if so, whether it was referred within a satisfactory time; whether the staff involved in handling the complaint demonstrated an adequate knowledge of the issues involved in the complaint; whether the complainant was satisfied with the result of the department's intervention; and whether the complainant would recommend the department's complaint handling services to others.

VI. The commissioner shall ascertain patterns of complaints by insurer, geographic area, insurance line, type of violation, and any other valid basis the commissioner may deem appropriate for further investigation, and periodically evaluate the complaint patterns to determine additional examination, investigative, or enforcement actions which may be taken by the commissioner, and report on all actions taken with respect to those patterns of complaints in his or her annual report to the governor and council pursuant to RSA 400-A: 26, and to the public. For the purposes of this paragraph, complaints mean those written complaints received by the commissioner under paragraph I, and written complaints received by the commissioner from any other sources, alleging misconduct or unlawful acts by insurers or production agencies.

2 Effective Date. This act shall take effect upon its passage.

2018-0279s

AMENDED ANALYSIS

This bill establishes within the insurance department a consumer services program to investigate complaints and respond to inquiries.

EDUCATION

SB 349, relative to course requirements in a career and technical education program.

Ought to Pass, Vote 5-0. Senator Watters for the committee.

> This bill includes a career and technical education program in the non-mathematics content area courses a student may take to fulfill the competency in mathematics requirement. This legislation seeks to clarify and reassert the intent of the fourth-year math program that was implemented several years ago so that it applies to career and technical education (CTE) programs.

SB 356, adding a representative from the community college system to the apprenticeship advisory council.
Ought to Pass, Vote 5-0. Senator Giuda for the committee.

This bill adds a representative from the community college system of New Hampshire (CCSNH) to the apprenticeship advisory council. CCSNH has made important strides in building apprenticeship programs and relationships with employers and community organizations statewide. Adding a representative from the CCSNH would allow them to expand their work to include others on the council as they work to expand apprenticeships to industries beyond the traditional trades, such as healthcare, IT, and advanced manufacturing.

SB 361, relative to dual and concurrent enrollment agreements between high schools and colleges and universities.
Ought to Pass with Amendment, Vote 5-0. Senator Kahn for the committee.

As amended, this legislation extends the dual and concurrent enrollment program to high school courses approved for credit by the university system of New Hampshire. It also requires the department of education and the university system to develop a model dual and concurrent enrollment agreement to be used by participating school districts.

Senate Education
January 23, 2018
2018-0244s
06/05

Amendment to SB 361

Amend RSA 188-E:25, I as inserted by section 1 of the bill by replacing it with the following:

I. "Concurrent enrollment" means courses taught at the high school by high school teachers approved by the community college system of New Hampshire (CCSNH) ***or the university system of New Hampshire,*** in which high school students earn both high school and college or university credit while students are still attending high school or a career technical education center.

Amend the bill by replacing section 2 with the following:

2 Dual and Concurrent Enrollment Program; Enrollment Requirements. Amend RSA 188-E:27, I to read as follows:

I. An interested high school student in grade 11 or 12 may enroll in a course that is designated by the CCSNH ***or the university system of New Hampshire*** as part of the dual and concurrent enrollment program.

Amend RSA 188-E:28, I as inserted by section 3 of the bill by replacing it with the following:

I. No later than July 1, 2018, the school board of each school district shall develop and adopt a policy permitting students residing in the district who are in grade 11 or 12 to participate in the dual and concurrent enrollment program. The policy shall, at a minimum, include compliance with measurable educational standards and criteria approved by the CCSNH ***and/or the university system of New Hampshire*** and that meet

the same standard of quality and rigor as courses offered on campus by the CCSNH ***and/or the university system of New Hampshire***. The policy shall also comply with the standards for accreditation and program development established by the National Alliance for Concurrent Enrollment Partnerships. The policy shall include, but not be limited to, student eligibility criteria, standards for course content, standards for faculty approval, program coordination and communication requirements, tuition and fees, textbooks and materials, course grading policy, data collection, maintenance, and security, revenue and expenditure reporting, and process for renewal of the agreement.

Amend RSA 188-E:28, III as inserted by section 3 of the bill by replacing it with the following:

III. The department of education and the university system of New Hampshire shall develop and approve a model dual and concurrent enrollment agreement that shall be used by the school board of a school district participating in the dual and concurrent enrollment agreement program. The model agreement shall include standards established by the university system of New Hampshire, and shall include elements, standards, and criteria that have been approved by the department of education, and shall serve as the framework for the development, implementation, and administration of the dual and concurrent enrollment program in each school district by clearly defining the procedures related to concurrent and dual enrollment of high school students in college classes.

2018-0244s

AMENDED ANALYSIS

This bill:

I. Extends the dual and concurrent enrollment program to high school courses approved for credit by the community college system of New Hampshire and the university system of New Hampshire.

II. Requires the department of education and the university system to develop a model dual and concurrent enrollment agreement to be used by participating school districts.

SB 382, relative to withdrawal from cooperative school districts.
Ought to Pass, Vote 5-0. Senator Giuda for the committee.

> At the request of the Department of Education, this bill requires certain cooperative school districts to amend their articles of agreement to include a method of withdrawal from the cooperative district. Issues to be considered shall include, but are not limited to, the process for ongoing education following withdrawal or dissolution, maintenance of student records, employment issues, on-going liability issues, capital issues, and bond issues.

ENERGY AND NATURAL RESOURCES
SB 448, establishing a commission to study the establishment of a state department of energy.
Ought to Pass with Amendment, Vote 5-0. Senator Fuller Clark for the committee.

> This bill will create a commission to study the establishment of a state department of energy. Currently, state energy policy is ad-

dressed through many different state agencies, leaving the public confused about where to access information regarding energy policy and programs. SB 448 will examine the potential to create a single state agency or consolidation under another agency in order to better provide information and support to an area of policy that is both intricate and complex.

Energy and Natural Resources
January 16, 2018
2018-0158s
06/01

Amendment to SB 448

Amend RSA 162-H:23, I as inserted by section 1 of the bill by inserting after subparagraph (k) the following new subparagraphs:

(l) One representative of the New Hampshire High Tech Council, appointed by the council.

(m) The consumer advocate, or designee.

(n) The commissioner of safety, or designee.

Amend RSA 162-H:23, IV as inserted by section 1 of the bill by replacing it with the following:

IV. The members of the study commission shall elect a chairperson from among the members. The first meeting of the commission shall be called by the first-named senate member. The first meeting of the commission shall be held within 45 days of the effective date of this section. Nine members of the commission shall constitute a quorum.

EXECUTIVE DEPARTMENTS AND ADMINISTRATION

SB 531-FN, relative to the office of professional licensure and certification.

Ought to Pass, Vote 5-0. Senator Reagan for the committee.

The legislation provides for the Office of Professional Licensure and Certification to establish by rule and collect fees for boards and commissions administered by their office and to deposit these fees in the Office of Professional Licensure and Certification Fund. In addition, this creates one unit for budgetary purposes to track financing and to know when fee structures may need to be reviewed.

SB 534-FN, relative to the classification of certain state employee positions.

Ought to Pass with Amendment, Vote 5-0. Senator Reagan for the committee.

This legislation, which was a request of the Joint Committee on Employee Classification, revises the salaries and titles of certain unclassified employees in the department of health and human services, in addition to increasing certain salaries in order to recruit and retain qualified personnel. The amendment corrects a typographical error in the original bill.

Senate Executive Departments and Administration
January 24, 2018
2018-0275s
05/04

Amendment to SB 534-FN

Amend the bill by replacing sections 1 and 2 with the following:

1 Compensation of Certain State Officers; Salaries Established. Amend RSA 94:1-a, I(b) by deleting the following:

I.	EE	Department of health and human services, administrator, bureau of division of elderly services and adult community services
II.	HH	Department of information technology, chief information security officer
III.	II	Department of administrative services, assistant commissioner
IV.	II	New Hampshire hospital, chief executive officer
V.	PP	Department of health and human services, unit director, medical

2 Compensation of Certain State Officers; Salaries Established. Amend RSA 94:1-a, I(b) by inserting the following:

I.	FF	Banking department, general counsel
II.	HH	Department of administrative services, project management, innovation and operational analysis unit, director
III.	HH	New Hampshire hospital, chief operating officer
IV.	HH	Department of information technology, assistant chief information security officer
V.	II	Department of information technology, chief information security officer
VI.	JJ	Department of administrative services, assistant commissioner
VII.	JJ	Department of health and human services, associate commissioner, operations
VIII.	JJ	Department of health and human services, associate commissioner, population health
IX.	KK	Department of business and economic affairs, commissioner

Amend RSA 94:3-b, II(b) as inserted by section 3 of the bill by replacing it with the following:

(b) Associate medical examiner, department of justice, $160,000 - $240,000

Amend the bill by replacing all after section 3 with the following:

4 New Section; Bank Commissioner; General Counsel. Amend RSA 383 by inserting after section 5 the following new section:

383:5-a General Counsel. The commissioner shall appoint a general counsel, who shall serve at the pleasure of the commissioner. The general counsel shall perform such duties and exercise such powers as the commissioner may authorize.

5 Effective Date. This act shall take effect 60 days after its passage.

2018-0275s

AMENDED ANALYSIS

This bill revises the salaries for certain unclassified positions and adjusts salaries for recruitment and retention purposes. The bill also establishes the position of general counsel in the banking department.

JUDICIARY

SB 338, relative to the growing of cannabis if it becomes legal.
Interim Study, Vote 5-0. Senator Hennessey for the committee.

This bill would have allowed New Hampshire farmers to legally grow cannabis if cannabis were to become legal in the State. The

Committee is aware of the ongoing Commission that is reviewing the concept of cannabis legalization and therefore, would like the Commission to have the opportunity to study this issue before moving forward.

SB 386, relative to access to criminal records.
Ought to Pass, Vote 5-0. Senator Lasky for the committee.

This bill will allow a person to request and receive a copy of the criminal conviction of another person without requiring the individual's authorization to be notarized. Fundamentally, this removes the redundancy of confirming the identity of an individual when their identity is already confirmed through fingerprinting.

SB 558-FN, relative to discrimination based on pregnancy or lactation.
Interim Study, Vote 5-0. Senator Carson for the committee.

This bill would create a cause of action for a person who believes she has been discriminated against by an employer for breast-feeding. The Committee will be examining this issue in SB497-FN and therefore, requests the bill be moved to Interim Study to prevent any confusion.

SB 574-FN, clarifying the repayment period for parental reimbursement.
Ought to Pass with Amendment, Vote 5-0. Senator Gannon for the committee.

This bill clarifies the reimbursement period for which a parent or guardian may be required to reimburse the state for services provided in a juvenile court proceeding. The bill is a request of the Department of Health and Human Services and the Committee amended the bill to place delinquency orders in line with CHINs orders in regards to ending the obligation of parental reimbursement upon the death of a child.

Senate Judiciary
January 25, 2018
2018-0314s
05/01

Amendment to SB 574-FN

Amend the bill by inserting after section 3 the following and renumbering the original section 4 to read as 5:

4 New Subparagraph; Delinquent Children; Parental Reimbursement Obligation. Amend RSA 169-B:40, I by inserting after subparagraph (f) the following new subparagraph:

(g) If at any point during the reimbursement period, the child or recipient of services dies, no future payments from the parent or person chargeable by law for the child's support and necessities shall be required, provided that proof of death has been provided to the department of health and human services, and the reimbursement obligation shall be dismissed for payments beyond the date of death of the child or recipient. Accrued unpaid reimbursements in arrears shall continue to be paid.

2018-0314s

AMENDED ANALYSIS

This bill clarifies the reimbursement period for which a parent or guardian may be required to reimburse the state for services provided in a juvenile court proceeding. The bill also provides that in delinquency cases,

the parental reimbursement obligation ends upon the death of the child receiving the benefit of services.

PUBLIC AND MUNICIPAL AFFAIRS

SB 339, relative to voting by zoning boards of adjustment.
Ought to Pass, Vote 5-0. Senator Kahn for the committee.

This bill clarifies the number of votes required for a zoning board of adjustment to act. The committee felt that this clarification will bring the petitioner an increased level of certainty about zoning board of adjustment actions.

SB 393, relative to county audits and performance audits.
Ought to Pass with Amendment, Vote 5-0. Senator Kahn for the committee.

This bill modifies a county's authority for conducting county audits and performance audits. It will combine the county audit statutes into one and allow the county commissioners to facilitate the audits. Language is clarified regarding standards and requires a copy of the audit be sent to the Department of Revenue Administration.

Public and Municipal Affairs
January 26, 2018
2018-0317s
06/10

Amendment to SB 393

Amend RSA 28:3-a as inserted by section 1 of the bill by replacing it with the following:

28:3-a County Audits. In the event that an audit is required or requested by resolution by either the board of commissioners or the county convention, the ***county*** commissioners[~~, with the approval of the executive committee of the county convention,~~] shall engage the services of a certified public accountant qualified in municipal and county finances for the purpose of conducting an audit of the county books of [~~account~~] ***records***. The performance and scope of the audit shall be in accordance with generally-accepted auditing [~~practice~~] ***standards***. The audit shall include an examination for conformance with state and federal laws and regulations relating to county finances, including rules adopted by the commissioner of revenue administration pursuant to RSA 541-A, and shall also include an examination of any subject of county finances that may be requested either by the commissioners, by the county convention, or by the treasurer. The audit shall be completed within [~~90~~] ***120*** days following the close of the county fiscal year. The commissioners shall cause the report of the auditor, together with the customary management ***representation*** letter and [~~auditee~~] ***management*** responses, to be published with or supplementary to the annual reports of the county officers, ***with a copy forwarded to the department of revenue administration***.

TRANSPORTATION

SB 347, relative to seasonal highway weight limits.
Inexpedient to Legislate, Vote 5-0. Senator Watters for the committee.

This bill would delete the requirement that the district engineer, department of transportation, approve vehicle exclusions from seasonal highway weight limit regulations. The Senate Transportation Committee believes that since the state has a role in maintaining roads throughout New Hampshire, a district engineer should still be consulted in approving these exclusions from seasonable highway weight limit regulations.

The question is on the adoption of the Consent Calendar. Adopted.

REGULAR CALENDAR

TRANSPORTATION
SB 402, naming a portion of route 110 in Berlin in honor of Anthony B. Urban.
Ought to Pass, Vote 5-0. Senator Watters for the committee.

SENATOR WATTERS: Thank you, Mister President. I move Senate Bill 402 Ought to Pass. This bill names a portion of route 110 in Berlin in honor of Anthony B. Urban. Mister Urban was a longtime resident of Berlin, New Hampshire. He was an extremely talented educator and coach in the area and also served on many boards, commissions and the like. Mister Urban also worked in state service after retiring as a principal. As a go to person in the city of Berlin it is an appropriate honor for Mister Urban that this portion of route 110 be named for him. All members of the Transportation Committee ask for your support in the motion of Ought to Pass on Senate Bill 402, and thank you, Mister President.

(The Chair recognized Senator Woodburn.)

SENATOR WOODBURN: Thank you, Mister President. I rise in support of the motion and grateful to the Transportation Committee. I'd also like to recognize two people that are here; Pamela Urban-Morin who is Tony Urban's daughter. Glad to have her here with us today. Thank you. As well as a great friend of Tony Urban's, a retired colonel of the state police, Fred Booth. It's good to have Fred here. Thank you for your participation.

Tony urban was a legend in the state, in the North Country as an educator, teacher, principal, coach referee, community leader, police commissioner and also his work in the state government, state administrative services, state racing charitable gaming commission. He was an old-fashioned go to guy and in the city of Berlin and around the North Country so many projects bear his name. His quiet influence, his quiet effective influence at building the biomass plant in Berlin, Berlin High School's renovation many years ago in building of a new high school, the Notre Dame Arena, the attraction of Federal Prison in the city of Berlin. Tony was also a skilled political operator who knew how to bend the political system to make things better in his home community, his home town. But most of all Tony was a teacher, a mentor.

I met him on the basketball court many, many years ago when him and his brother, striking resemblance, hard to miss, they had a real presence on the court, but his presence in people's lives is really the testament of his great work. He was always there, always involved with a twinkle in the eye, occasionally a kick in the pants but it always sent you in the right direction. I met Tony and really got to learn politics from Tony as in 1980 working in Governor Hugh Gallen's reelection camp and how to properly put up signs. He was meticulous and he was just a fun person to be around. I spoke to the mayor of Berlin, Paul Grenier on my ride down this morning and he said, and I think said it better than anyone could say and certainly with knowledge that nobody has better than Mayor Grenier, that nobody in my generation has done more for the city of Berlin than Tony Urban. That was Mayor Paul Grenier and I would just conclude that he also said, you're lucky he's not alive, because if he knew you were naming this, he'd be awful mad at you. So, you know what, we said, the mayor said this is not for Tony Urban, this is for us

because we need to remember him, and we need to behave like him, and we need to be inspired by him and we will be forever with the name of this stretch. Thank you very much, Mister President.

The question is on the adoption of the motion of Ought to Pass.

A roll call was requested by Senator Woodburn, seconded by Senator Soucy.

The following Senators voted Yes: Woodburn, Giuda, Bradley, Watters, Hennessey, Gray, French, Ward, Sanborn, Daniels, Avard, Lasky, Carson, Feltes, Cavanaugh, Reagan, Soucy, Birdsell, Fuller Clark, Gannon, Innis, Morse.

The following Senators voted No: (None)

The following Senators were excused: Kahn, D'Allesandro.

Roll Call, Yeas: 22 - Nays: 0. Adopted.

MOTION OF RECONSIDERATION

Senator Bradley, having voted on the prevailing side, moved to reconsider SB 402, the bill having previously been found Ought to Pass. Adopted.

The question is on the adoption of the motion of Ought to Pass.

A roll call was requested by Senator Woodburn, seconded by Senator Soucy.

The following Senators voted Yes: Woodburn, Giuda, Bradley, Watters, Hennessey, Gray, French, Ward, Sanborn, Kahn, Daniels, Avard, Lasky, Carson, Feltes, Cavanaugh, Reagan, Soucy, Birdsell, Fuller Clark, Gannon, Innis, Morse.

The following Senators voted No: (None)

The following Senators were excused: D'Allesandro.

Roll Call, Yeas: 23 - Nays: 0. Adopted, bill ordered to Third Reading.

COMMERCE

SB 428, relative to the payment of weekly and biweekly wages.
Ought to Pass, Vote 4-1. Senator Innis for the committee.

SENATOR INNIS: Thank you, Mister President. I move Ought to Pass on Senate Bill 428. Last year the Commerce Committee passed legislation that allowed for employers to pay their employees less frequently than weekly, without requiring approval from the state. This bill works with last year's legislation to require employers to pay their employees who are paid bi-weekly within fifteen days of the completion of overtime work. The purpose of this legislation is to tighten up the statute and to bring the language of the statute into compliance with what the Senate passed last year. This bill does have the support of the Department of Labor. Please support the Commerce Committee recommendation of Ought to Pass for Senate Bill 428. Thank you, Mister President.

The question is on the adoption of the motion of Ought to Pass. Adopted, bill ordered to Third Reading.

EDUCATION

SB 355-FN, relative to the names of colleges in the community college system.
Ought to Pass with Amendment, Vote 4-1. Senator Reagan for the committee.

Senate Education
January 23, 2018
2018-0255s
04/10

Amendment to SB 355-FN

Amend the title of the bill by replacing it with the following:

AN ACT relative to the names of the colleges in the community college system and making an appropriation therefor.

Amend the bill by replacing all after the enacting clause with the following:

1 Community College System of New Hampshire; Names of Institutions. Amend RSA 188-F:13 to read as follows:

188-F:13 Names of the Colleges. The [~~names of the~~] respective colleges of the community college system of New Hampshire shall [~~be established, and may be changed, upon approval by the board of trustees and approval by the governor and council~~] ***each bear the designation "New Hampshire state college." This designation shall be followed by a specific, geographically or regionally appropriate designation to be determined by the board of trustees.***

2 Pre-Engineering and Technology Advisory Council; Membership. Amend RSA 188-E:16, I(d) to read as follows:

(d) The president of the [~~New Hampshire technical institute~~] ***New Hampshire state college in the city of Concord***, or designee.

3 Advanced Manufacturing Education Advisory Council; Membership. Amend RSA 188-E:22, I(e) to read as follows:

(e) The president of the [~~New Hampshire technical institute~~] ***New Hampshire state college in the city of Concord***, or designee.

4 Appropriation. The sum of $500,000 for the biennium ending June 30, 2019 is hereby appropriated to the community college system of New Hampshire for the payment of expenses related to the renaming and rebranding of the colleges in the community college system pursuant to section 1 of this act. This sum is in addition to any other sums appropriated to the community college system of New Hampshire for the biennium. The governor is authorized to draw a warrant for said sum out of any money in the treasury not otherwise appropriated.

5 Effective Date.

I. Section 4 of this act shall take effect July 1, 2018.

II. The remainder of this act shall take effect upon its passage.

2018-0255s

AMENDED ANALYSIS

This bill changes the names of the colleges in the community college system of New Hampshire, authorizes the community college system board of trustees to determine part of that name, and makes an appropriation for the renaming.

SENATOR REAGAN: I move Senate Bill 355-FN Ought to Pass with Amendment. The bill is an attempt to improve the marketability of the Community College System, met with some resistance from faculty members and then a deal was made to pass this and table this, so the majority of the Education Committee asks for your support in the motion of Ought to Pass with Amendment on Senate Bill 355.

The question is on the adoption of the Committee Amendment. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted.

Senator Bradley moved to Lay on the Table SB 355-FN. Adopted.

ENERGY AND NATURAL RESOURCES

SB 444, relative to cutting timber near certain waters and public highways. Ought to Pass, Vote 3-2. Senator Innis for the committee.

SENATOR INNIS: Thank you, Mister President. I move Senate Bill 444 Ought to Pass. This bill makes an exception to the restriction of the amount of trees that may be cut buy certain highways. Senate Bill 444 removes the regulatory basal area restriction adjacent to class 6 roads. A class 6 road is a road that is largely unmaintained, impassible and has seen no municipal investment in five years or more. It does not make sense to maintain an esthetic standard along a road that is not maintained nor traveled. Note that the esthetic buffer serves little purpose in terms of forest management. It is for the appearance for roads with light to heavy traffic. For class 6 roads this esthetic standard is irrelevant in the case of a professionally managed forest. The bill will expand the potential for income for timber owners and save time for the Department of Natural and Cultural Resources. The Senate Energy and Natural Resources Committee asks for your support for the motion of Ought to Pass on Senate Bill 444. Thank you.

The question is on the adoption of the motion of Ought to Pass. Adopted, bill ordered to Third Reading.

SB 445, designating the Warner River as a protected river.
Ought to Pass, Vote 5-0. Senator Bradley for the committee.

SENATOR BRADLEY: Thank you, Mister President. I move Senate Bill 445 Ought to Pass. This is a bill that designates the Warner River as a protected river under the New Hampshire Rivers Management and Protection Program. The Warner River will become the 19th river protected under this program. The river's nomination came about after the discovery of wild brook trout, which is indicative of high-water quality. The designation adds no additional regulations on private landowners beyond what local zoning ordinance requires. Some landowners expressed concerns about their ability to develop their dams on the river. Their input was welcomed into the process and many of their problems were addressed in this bill. The nomination received profound support from the surrounding communities of Sutton, Bradford, Warner, Webster, and Hopkinton. The level of community involvement and profound dedication to this river's nomination is a testament to how far this program has come. And I would just add having been and served in this building a long time, when the early days of the river protection program, the controversy surrounding a designation was significant. As the process has unfolded, as people understand it better as they realize that it does not negatively impact private property rights and it's meant as an enhancement not a detraction. The overwhelming support is indicative to how New Hampshire people have come to view this program and the fact that virtually everybody that testified on our friend from District 15's bill indicates the progress that we've made in protecting not only our rivers but our general environment. Thank you, Mister President. I urge support for the motion of Ought to Pass.

(The Chair recognized Senator Feltes.)

SENATOR FELTES: Thank you very much, Mister President. Mister President I rise for two reasons, one is just to echo everything my friend

from District 3 said, second is to thank everybody who's worked on this you know and our friend from District 8 as well has worked on this. A lot of folks locally, the Central Planning Commission, Sam Durfee, the Rivers Council, people worked on this for a number of years Mister President, and what you have is a final product that reflects a lot of local input, municipal input and stakeholder input and I just want to thank everybody who spent so much time and work and effort on this. It was a good final product and as my friend from District 3 noted, that was reflected based on the testimony at the hearing. So, thank you very much, Mister President.

The question is on the adoption of the motion of Ought to Pass. Adopted, bill ordered to Third Reading.

SB 528-FN-L, relative to dam registration fees and relative to permit fees for constructing or reconstructing a dam.
Ought to Pass with Amendment, Vote 5-0. Senator Bradley for the committee.

Energy and Natural Resources
January 24, 2018
2018-0268s
08/03

Amendment to SB 528-FN-LOCAL

Amend RSA 482:9, II(a) through (d) as inserted by section 2 of the bill by replacing it with the following:

(a) Non-hazard potential dam [~~$2,000~~] ***$2,500***
(b) Low hazard potential dam [~~$3,000~~] ***$3,500***
(c) Significant hazard potential dam [~~$4,000~~] ***$5,000***
(d) High hazard potential dam [~~$4,000~~] ***$6,000***

SENATOR BRADLEY: Thank you, Mister President. I move that Senate Bill 528 Ought to Pass with Amendment. The bill proposes an increase in dam registration fees and permit fees for constructing or reconstructing a dam. The Dam Bureau at the Department of Environmental Services is largely funded through a fee structure on dam permits as well as reconstruction projects of dams. Currently, the bureau faces a significant shortfall based on the current fee structure. Senate Bill 528 increases the fees in order to prevent allocating money to dam inspections in the next budget cycle with general fund dollars. In my opinion this represents a necessary step in ensuring that the Department of Environmental Services can inspect the quality of dams around the state. And let me just add on this bill too having lived through the dam failure in, not that I was personally involved in any way, in Alton, but as a resident of the Lakes Region, one town over from Alton, when that dam failed, somebody was swept in a car into one of the headwaters of Lake Winnipesaukee, died, the damage was extensive and it was out of that dam failure that this program was instituted in 1996. There was a fee increase about ten years ago so there hasn't been a fee increase since then. I know that not everybody likes fees in this room, I get that, but I think we would like it even less if dams failed because we didn't adequately inspect them and so I would imagine all twenty-four of us would agree with that and so it becomes a, how do we pay for it? Is it a general fund expenditure or is it up to the owners of the dams? The purpose of this legislation, why it's filed now and why the effective date is held for a year and I believe is July 1 of 2019 is to get everybody ample notice that these fee increases

are coming. There was no opposition to this bill in front of the Energy and Natural Resources Committee and I think that is a testament to the fact that Jim Gallagher at the Department of Environmental Services has run this program extraordinarily well for years. So, I commend this bill to the body and hope that we will support the unanimous recommendation of the Energy and Natural Resources Committee. Thank you. The question is on the adoption of the Committee Amendment. Adopted.

(The Chair recognized Senator Sanborn.)

SENATOR SANBORN: Thank you, Mister President. Mister President I rise with a cautionary position. As my colleague from District 3 said, there are many people in this room that are opposed to just raising fees, fines, penalties, taxes and assessments and in doing so we're looking at a specific group of people to highlight who should be paying these fees. Now I fully understand and agree with the Senator from District number 3 that we should always be concerned about the good for the general public. But in this case, it's looking to raise a fee on a small select group of people of which a dam is on their property with a concern that if the dam falters it's going to affect everyone downstream from the property. So if we are truly concerned that this is a concern for the general good of all of the residents that may or may not be in the path of something bad happening to a dam, I would suggest that if there's going to be a cost associated with that it should be looked at within the general fund and not specifically looking to raise fees on the people that own the dam fully. In addition to that I might point out that some know that this body was very accommodating and I'm very appreciative of that fact when about a year ago I was working on an issue with a dam for a fixed income living retired widow that lives just north of Concord, New Hampshire by which the Federal Government changed how dams are to be looked at and regulated and as a result of that, the state of New Hampshire decided to universally change all of its ratings on the dams in New Hampshire. The result of that action brought forth a position where again, a retired widow on a fixed income could not afford to comply with what the dam examiners wanted. This is not to say that the dam examiners are not good people, I think they're great people, I think they're trying to do a great job. But this body needs to be concerned when we make a decision that we're going to increase a fee, fine, penalty tax or assessment. If we truly believe that it is necessary and we have run our government to its efficiency level that it should be run at, and there's still some sort of a justifying need to do that, that I feel like that should be laid upon all of the people that would benefit or be harmed by it and not just a specific property owners. At that Mister President, I would ask the body to vote down this bill based upon the fee increases and if it's something that they feel they need to do in the next budget they should bring it forward and I would ask for a roll call. Thank you.

(The Chair recognized Senator Daniels for a question of Senator Bradley.)

SENATOR DANIELS: Thank you, Mister President. Thank you for taking the question. Do we know how many of these dams are owned by municipalities and what the effect, what kind of costs we're going to be passing on to local taxpayers?

SENATOR BRADLEY: I don't know how many of these dams are owned by municipalities. I know that some are, some are owned by the state, some are owned privately, some are owned by associations. In the case of the, and I guess this means I have a conflict and need to declare it in

the case of my lake that I live on or small pond, Rust Pond, the dam is owned by the association, so I think the ownership is varied. I can try to find that information out for you before it goes to your committee.

SENATOR DANIELS: Thank you.

The question is on the adoption of the motion of Ought to Pass with Amendment.

A roll call was requested by Senator Sanborn, seconded by Senator Avard.

The following Senators voted Yes: Woodburn, Bradley, Watters, Hennessey, Gray, Ward, Kahn, Lasky, Carson, Feltes, Cavanaugh, Reagan, Soucy, Fuller Clark, Gannon, Innis, Morse.

The following Senators voted No: Giuda, French, Sanborn, Daniels, Avard, Birdsell.

The following Senators were excused: D'Allesandro.

Roll Call, Yeas: 17 - Nays: 6. Adopted, bill ordered to the Committee on Finance (Rule 4-5).

EXECUTIVE DEPARTMENTS AND ADMINISTRATION
SB 371, establishing the Meldrim Thomson, Jr. Memorial Commission. Ought to Pass with Amendment, Vote 3-2. Senator Carson for the committee.

Senate Executive Departments and Administration
January 11, 2018
2018-0106s
08/04

Amendment to SB 371

Amend RSA 4:9-o, III as inserted by section 1 of the bill by replacing it with the following:

III. The commission shall select the design for the Meldrim Thomson, Jr. memorial and oversee the construction and maintenance of the memorial.

Senator Carson moved to Lay on the Table SB 371. Adopted.

SB 457-FN, waiving initial licensure fees for indigent applicants for certain professions.
Inexpedient to Legislate, Vote 3-2. Senator Reagan for the committee.

SENATOR REAGAN: I move Senate Bill 457-FN Inexpedient to Legislate. This bill would require the boards of nursing, mental health and licensing for alcohol and other drug use professionals to waive the initial license fee for applicants whose income is less that the federal poverty level. The ED&A Committee received no testimony stating license fees were a deterrent to anyone wishing to enter any of these fields due to their costs. It was also brought to the committee's attention that all students would fit in this federal poverty level category which meant all students would not have to pay for licensing fees. The ED&A Committee voted Inexpedient to Legislate and asks for your support in their recommendation.

(The Chair recognized Senator Woodburn.)

SENATOR WOODBURN: Thank you, Mister President. I would ask the body to reject this so I could have a motion of Ought to Pass and then an amendment that would make this just a not permanent, so we get a two-year review of this idea. Mister President, jobs change lives, work builds people's character and it binds their dreams to their passions.

This bill is a simple bill that would allow people who are applying for a nursing license, mental health practitioner license, license in alcohol and drug professional license to have their fees for that license waived, if they are below the poverty line. Given that New Hampshire has current shortage in the licensed professionals in these areas and the increase in need for their expertise and the services that we continue to use to combat the opioid epidemic we are facing, this legislation addresses a pressing problem with the needs for solution. During a time of crisis there's no logical reason why we should not allow our qualified professionals to assist patients in need as simply because they are currently unable to pay the license fee. So, thank you, Mister President. I hope we look favorably upon this idea. Let's get people to work, let's move people from poverty to professions and let their dreams go wild and save and help people and make this a better state and a better country and a better world. Thank you, Mister President.

(The Chair recognized Senator Gannon for a question of Senator Woodburn.)

SENATOR GANNON: The question Senator would be what if you had, all the republicans in the room echo your sentiment of getting people back to work. Where they're going into honorable professions here that pay well, what of we gave them a deferred six months to pay the fee, would that be something you might consider in your amendment?

SENATOR WOODBURN: Thank you, Senator. I certainly would be open to that and would be supportive of any effort to move people from poverty to work and let their dreams flow and their passions flow to help people. These are all professions that help people and are not the highest professions, we're not getting the lawyers, we're not trying to encourage more lawyers, we're trying to encourage people who are working in the field to help people in need, Mister President. Thank you.

(The Chair recognized Senator Giuda for a question of Senator Woodburn.)

SENATOR GIUDA: Thank you, Senator for taking my question. My question would be do we have a sense of the impact to the board of licensing and professions that this bill might have given that we are adding additional staff so we're actually going to be reducing revenues to a body that we're adding personnel to and costs to?

SENATOR WOODBURN: Very good question, thank you Senator. We have anecdotal information, we don't have the numbers, what they would be, but we know that the process in terms of these professions and the work that's going on and we have some disagreements as to how this process would be initiated in terms of all these students coming in. So, you know that's why I've agreed to an amendment of two years, let's take a look and see if the numbers are such and we need to revise it let's, it would sunset. It would go away. But I think just in this crisis point where we need these workers, let's try this.

SENATOR GIUDA: Thank you, Mister President. Do you know what the cost is for LNA or nursing license in the state?

SENATOR WOODBURN: I don't recall what the license fee for all these professions is.

SENATOR GIUDA: Thank you.

(The Chair recognized Senator Carson.)

SENATOR CARSON: Thank you very much, Mister President. I rise to support the committee vote Inexpedient to Legislate. The committee seriously considered this issue in fact we had a bill last year from our colleague

from District 7 that really got folks started thinking about it, about reducing fees or waiving fees and one thing struck me during our conversations when we exec'd this bill was the possibility of creating a student fee that would be at a reduced rate. And, Mister President, I would like the body to support our decision, it is something that I am going to work with the OLPC Board about and hopefully we can get something that we can attach to a bill coming over from the House and have a reduced fee rather than no fee whatsoever to minimize that impact that our good friend from District 2 spoke about. Thank you, Mister President.

The question is on the adoption of the motion of Inexpedient to Legislate.

A roll call was requested by Senator Woodburn, seconded by Senator Giuda.

The following Senators voted Yes: Giuda, Bradley, Gray, Ward, Sanborn, Daniels, Avard, Carson, Reagan, Birdsell, Gannon, Innis, Morse.

The following Senators voted No: Woodburn, Watters, Hennessey, French, Kahn, Lasky, Feltes, Cavanaugh, Soucy, Fuller Clark.

The following Senators were excused: D'Allesandro.

Roll Call, Yeas: 13 - Nays: 10. Adopted.

SB 460, relative to the terms and qualifications for the adjutant general and deputy adjutant general.
Inexpedient to Legislate, Vote 3-2. Senator Carson for the committee.

SENATOR CARSON: Thank you, Mister President. I move Senate Bill 460 Inexpedient to Legislate. This bill would establish a six-year term of office for the adjutant general and would change the retirement age for the adjutant and deputy adjutant general to age sixty-four. The ED&A Committee members received testimony from those who believe this legislation has more potential negative impact than advantages to these requested changes. In relation to the change in retirement age from sixty-six to sixty-four, title 10 of the US Code of Armed Forces state that the adjutant general is allowed to work until age sixty-six. Term limitations and retirement age in these positions is believed to be unnecessary. The ED&A Committee voted Inexpedient to Legislate and asks for your support in their recommendation. Thank you, Mister President.

The question is on the adoption of the motion of Inexpedient to Legislate. Adopted.

SB 465-FN, relative to documentation requirements for the department of labor.
Inexpedient to Legislate, Vote 4-1. Senator Soucy for the committee.

SENATOR SOUCY: Thank you, Mister President. Mister President, I move Senate Bill 465-FN Inexpedient to Legislate. This bill would drastically impact all of our state's labor laws. This legislation would significantly amend the youth employment law, repeal rule making authority for the Commissioner of the Department of Labor relative to youth employment and payment of wages, provide that an employer's unintentional documentation errors would not result in the imposition of a fine, repeal the requirement that employers maintain written safety plans and changes the definition of tip sharing by eliminating the prohibition of coercion. This legislation would allow an employer to not pay an employee for up to thirty days without any ramifications or consequences to that employer. This bill would have allowed under a written agreement for an intern to serve for six months without pay as a volunteer for a charitable or learning opportunity, potentially leading to significant consequences in the case of

injury because they would not be covered by workers compensation. The bill would further amend required pay which is in the current statute for employees working a two-hour minimum but would eliminate department's ability to enforce this requirement. The bill would have amended RSA 275: 49 notification requirements to employees of their rate and benefits which currently must be in writing. This legislation would have reduced it to verbal which in fact is a protection that exists now for the benefit of employers. The current statute on tip pooling and tip sharing, which is similar to our federal regulation, except for the legislature having inserted the terms voluntary and without coercion, would be completely re-written and take out those provisions that protect employees. The filing of safety summary forms which was put in place to reduce incidence of injury, it worked, and was part of a comprehensive compromise that was enacted at the time workers' compensation law came into effect is removed from this bill. For all these and many other reasons the ED&A Committee believes it's important to have legislation which protects both the employee and the employer, thus the ED&A Committee voted Inexpedient to Legislate and asks for your support in their recommendation.

Senator Carson moved to Lay on the Table.

A roll call was requested by Senator Soucy, seconded by Senator Woodburn.

The following Senators voted Yes: Giuda, Bradley, Gray, French, Ward, Sanborn, Daniels, Avard, Carson, Birdsell, Gannon, Innis, Morse.

The following Senators voted No: Woodburn, Watters, Hennessey, Kahn, Lasky, Feltes, Cavanaugh, Reagan, Soucy, Fuller Clark.

The following Senators were excused: D'Allesandro.

Roll Call, Yeas: 13 - Nays: 10. Adopted.

INTRODUCTION OF GUESTS

(The Chair recognized Senator Sanborn.)

SENATOR SANBORN: Thank you, Mister President. And I apologize for the second introduction. As I mentioned this morning, some of you may have had the opportunity to have a wonderful breakfast down in the cafeteria by the New Hampshire Cancer Society which operates in the best state in America, the most effective cancer society in America and I might say in a very jaundiced view, operating in the best Senate District in the state of New Hampshire. My fellow colleagues if you could welcome more members of the New Hampshire Cancer Society to the chambers I'd appreciate it. Thank you, Mister President.

PRESIDENT MORSE: And I'm sure Senator Sanborn was talking about District 22 and Nancy Kearny is here so, thank you.

FINANCE
SB 63, relative to record management of abuse and neglect reports and establishing a pilot program and making an appropriation therefor. Ought to Pass with Amendment, Vote 4-0. Senator Reagan for the committee.

Senate Finance
January 24, 2018
2018-0260s
05/04

Amendment to SB 63

Amend the title of the bill by replacing it with the following:

AN ACT relative to record management of abuse and neglect reports and establishing a pilot program regarding electronic storage of abuse and neglect records.

Amend the bill by deleting section 6 and renumbering the original section 7 to read as 6.

2018-0260s

AMENDED ANALYSIS

This bill revises the record retention requirements for founded, unfounded, and screened-out reports of abuse or neglect; establishes a pilot program regarding electronic storage of abuse and neglect records; and establishes certain classified positions within the department of health and human services.

SENATOR REAGAN: I move Senate Bill 63 Ought to Pass with Amendment. This bill revises the record retention requirements for founded, unfounded and screened out reports of abuse and neglect. Senate Bill 63 seeks to establish a pilot program regarding electronic storage of abuse and neglect records and makes an appropriation to fund the program. The bill also establishes certain classified positions within the Department of Health and Human Services. The Senate Finance Committee agrees with the proposed pilot program but recognizes that a funded vacant positions currently available within the department, which could enable them to begin the pilot program. Subsequently the committee amended the bill and removed the appropriation. The committee recommends passage of Senate Bill 63 as amended and asks for your support.

(The Chair recognized Senator Feltes.)

SENATOR FELTES: Thank you very much, Mister President. Mister President I rise in opposition to the committee amendment. During the testimony before Health and Human Services, John Williams and Diana Baker talked about how the committee needs to be aware that there's a significant fiscal impact to this bill even though there's no fiscal note attached. They also said this is one of the bills that did not pass the House last year on child protection, and that DCYF can use the information in these reports to establish patterns of behavior, but only if we have the information long enough. And they went on to talk about how putting the information electronically into the system is essential to tracking this information. And to be clear the bill tracks information on screened out reports for seven years, unfounded reports for ten years and it puts in place a case management and records management system but the committee amendment unfunds even a pilot of the record system. By a 4-0 vote, the Senate Finance Committee got rid of the funding for even a pilot on tracking reports in child protection. Joe Ribsam, the new head of DCYF was before Senate Finance and said he needs the money for the pilot.

Mister President, the money here to do the pilot, to get the information into the system so we can track, meaningfully track, child protection reports. There's 24,000 in fiscal year ending in FY 2018 and then 154,000 the next year for a total of 180,000. That's for a pilot, that's not even the whole state. It's a pilot. Mister President, I think we ought to put, you know, our money where our mouth is on child protection. If we're going to track these cases lets fund the system to track the cases. This is only a pilot; the committee amendment takes the money out for the pilot and makes it ineffective to track and upload the reports into our computer system. Part of the reason Mister President, myself and I think many

others voted against the budget last year is because it was woefully deficient on issues concerning child protection, including failing to fulfill many of the recommendations in the independent audit report of DCYF which was released in December of 2016. Some of those recommendations Mister President, goes to case tracking and case management which this bill is all about. So, some of the recommendations that didn't get into the budget include voluntary services, family support workers, some of those issues may be addressed this year, hopefully they weren't in the budget and it's a key reason why a number of us voted against the budget. And now we're in a situation where Senate Finance has removed even money for a pilot, a pilot on tracking child protection cases. Mister President, I just strongly disagree with this. I think we ought to vote down the committee amendment and move forward with the bill and move forward to continue our work on dealing with the child protection crisis in the state. Thank you, Mister President.

(The Chair recognized Senator Reagan.)

SENATOR REAGAN: Thank you, Mister President. Just to give some perspective here, the committee has not recommended stopping the program. The Senate Finance Committee is in favor of the program, wants to see it start and believes that the money is in the HHS budget and that there's sufficient personnel available to do it, and so while this makes us all happy to think we're doing a good thing, nothing's going to stop this program from going forward. So, I urge you to oppose the motion to do away with the amendment.

(The Chair recognized Senator Bradley.)

SENATOR BRADLEY: Thank you very much. I want to stand up and support the Finance Committee recommendation, in disagreement with my good friend from District 15. I think all of us together have taken significant measures to improve our child safety against abuse and neglect of children. Twenty new case workers were hired in the budget, those positions are largely filled. Another bill this year that you and I have co-sponsored would correct the voluntary services issue. I hope that we'll have the resources to do that as well as hire three new judges which is a recommendation of the Attorney General's Office for DCYF. The good news here is I think there's now broad agreement that we ought to do a better job of tracking these reports to have a better opportunity to ascertain when there could be a problem, and because some of the reports that are unfounded but build a pattern will help DCYF be able to better protect kids. But I have to say, when the Department of Health and Human Services came to the HHS Committee wanting eight, let me repeat that, wanting eight full-time positions to do this tracking.

Even me, who a lot of my colleagues think it's liberal Jeb again, even I blanched. Thank God. And so, the department came in with a pilot program. We said okay, knowing that when it got to the Finance Committee there was going to be this discussion over resources. I agree with my friend from District 17, that this is something with today's technology, we ought to be able to do the job of tracking without having to spend what this bill authorizes up to four positions, two for the pilot program, two more if approved by the Fiscal Committee. We ought to be able to do this without having to go to four positions and while I felt that as it came through HHS, all five of us did vote for the policy if you will but knowing the financing would be a problem. I think that the department can do this, should do this, and we ought to have the existing resources

within the department to do it. So, I didn't want to make you blanch Mister President, but that's where it's at and I would suggest you support the Finance Committee recommendation. Thank you.

(The Chair recognized Senator Daniels.)

SENATOR DANIELS: Thank you, Mister President. Just to add to the previous testimony, there was money in the capital budget for buying the scanners that the department needed for scanning in the documentation they're talking about. And what they were looking for is the positions. What happens is, when we passed the budget, there were a number of funded but vacant positions within the department so the department comes in periodically to Fiscal with positions that they they're looking at as priority for what they need and we replace unfunded positions with these funded positions and that's what we recommended that they do in this case here is that this seemed to be a high priority for the department so we recommended that they do that. I will also point out that the 4-0 vote was a bipartisan vote. Thank you, Mister President.

(The Chair recognized Senator Feltes.)

SENATOR FELTES: Thank you, Mister President. I don't believe I was one of the four, but I just want to clarify a couple things. One, as HHS made it abundantly clear, that they don't have the resources to do this. Joe Ribsam was there in Senate Finance, the new head of DCYF and said that, and number two, if we're going to put this on existing staff to do this, there's already a backlog of child protection cases, and we're going to ask existing staff to, you know upload boxes of documents into a computer system which is needed. Now this is not just a recommendation and a high priority for the department to my good friend from District 11, this is a recommendation of the independent audit of DCYF released in December of 2016. So, let's start fulfilling our obligations here. I agree that some steps were taken in the budget, I still disagree that it was willfully, I think it's willfully deficient, that's why I voted, partly the reason I voted against the budget, because of the child protection deficiencies. This is one of the issues that we can address today Mister President, and we should address and relieve this burden on the department and fulfill the recommendations of the independent audit. Thank you, Mister President.

(The Chair recognized Senator Fuller Clark for a question of Senator Feltes.)

SENATOR FULLER CLARK: Senator Feltes, would you be able to say what is the amount of money that we're actually talking about, that would be need to fund those positions?

SENATOR FELTES: Thank you very much, Senator Fuller Clark. The pilot, which was trimmed down from the, at the request of the Senator from District 3 and it was made a pilot, is 24,000 for fiscal year ending June 30, 2018 and 154,000 for fiscal year ending June 30, 2019. For a total of 180,000. That's what's needed for the pilot, not a statewide program, so we're not even, in the pilot we're not even doing what was recommended quite frankly, but the pilot, the trimmed down version, the resources, the labor needed to do all this work, to get these documents uploaded and whatnot, is $180,000.

SENATOR FULLER CLARK: Thank you.

The question is on the adoption of the Committee Amendment.

A roll call was requested by Senator Soucy, seconded by Senator Feltes.

Recess. Out of recess.

The following Senators voted Yes: Giuda, Bradley, Gray, French, Ward, Sanborn, Daniels, Avard, Carson, Reagan, Birdsell, Gannon, Innis, Morse.

The following Senators voted No: Woodburn, Watters, Hennessey, Kahn, Lasky, Feltes, Cavanaugh, Soucy, Fuller Clark.

The following Senators were excused: D'Allesandro.

Roll Call, Yeas: 14 - Nays: 9. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment.

A roll call was requested by Senator Sanborn, seconded by Senator French.

The following Senators voted Yes: Woodburn, Giuda, Bradley, Watters, Hennessey, Gray, French, Ward, Sanborn, Kahn, Daniels, Avard, Lasky, Carson, Feltes, Cavanaugh, Reagan, Soucy, Birdsell, Fuller Clark, Gannon, Innis, Morse.

The following Senators voted No: (None)

The following Senators were excused: D'Allesandro.

Roll Call, Yeas: 23 - Nays: 0. Adopted, bill ordered to Third Reading.

SB 240-FN-L, relative to the monitoring and treatment of contaminated wells.
Ought to Pass with Amendment, Vote 5-0. Senator Daniels for the committee.

Senate Finance
January 17, 2018
2018-0154s
08/03

Amendment to SB 240-FN-LOCAL

Amend RSA 485-C:6-c as inserted by section 1 of the bill by replacing it with the following:

485-C:6-c Contaminated Wells; Monitoring. Upon receiving information that a drinking water well that is not a source for a public water system exhibits the presence of a man-made contaminant, other than road salt, but the concentration does not exceed an existing ambient groundwater quality standard, the department shall determine if the contaminant is increasing in the well by primarily measuring the contaminants in the well and comparing such measurements to any previous measurements, and therefore, should be monitored and whether it is possible to identify the source of the contaminant. If a responsible party is identified as the source of the contaminant and the department determines monitoring is warranted, the department shall require the responsible party to monitor the contamination at a frequency sufficient to provide advance warning of any exceedance of the standard. If the department determines that monitoring trends or other available information reasonably suggest that the concentration of the contaminant in the well is likely to exceed the ambient groundwater quality standard prior to the next scheduled monitoring date, the responsible party shall provide treatment or an alternative supply of drinking water that meets all applicable standards and is approved by the department.

SENATOR DANIELS: Thank you, Mister President. I move Senate Bill 240-FN-LOCAL Ought to Pass with Amendment. This bill seeks to require testing of wells if certain contaminants are found. It also requires

the responsible party, if the source of the contaminant is identified, to either treat the water or provide an alternative source of drinkable water. The Senate Finance Committee amended the bill to require measurements be taken of the contaminants in a suspect well to aid the Department of Environmental Services in their determination of increased contaminants, resulting in monitoring of the suspect well. The committee recommends passage of Senate Bill 240 as amended, and asks for your support. Thank you, Mister President.

The question is on the adoption of the Committee Amendment. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to Third Reading.

SB 372-FN-A, establishing positions in the office of professional licensure and certification and making an appropriation therefor.
Ought to Pass with Amendment, Vote 5-0. Senator Reagan for the committee.

Senate Finance
January 24, 2018
2018-0262s
10/01

Amendment to SB 372-FN-A

Amend the bill by replacing section 1 with the following:

1 Office of Professional Licensure and Certification; New Classified Positions; Appropriation.

I. Three license clerk positions, labor grade 11, are hereby established as classified positions in the office of professional licensure and certification.

II. The amount necessary to pay for the positions established in paragraph I, which shall be in addition to any sums appropriated in AU 01-21-21-212010-2405 and AU 01-21-21-215010-2406 for the divisions of technical professions and health professions, is hereby appropriated to the executive director of the office of professional licensure and certification. The governor is authorized to draw a warrant for such sum out of any money in the treasury not otherwise appropriated.

2018-0262s

AMENDED ANALYSIS

This bill establishes 3 license clerk positions in the office of professional licensure and certification and makes an appropriation therefor.

This bill is a request of the office of professional licensure and certification.

SENATOR REAGAN: I move Senate Bill 372-FN-A Ought to Pass with Amendment. This bill sought authorization to hire three license clerks in the Office of Professional Licensure and Certification to replace two existing clerks. The Senate Finance Committee amended the bill to establish the three classified clerk positions in that office. Funding for the positions is provided via licensing fees. The committee recommended passage of Senate Bill 372 as amended and asks for your support.

The question is on the adoption of the Committee Amendment. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to Third Reading.

SB 467-FN-A, relative to the state art fund.
Inexpedient to Legislate, Vote 5-0. Senator Reagan for the committee.

SENATOR REAGAN: I move Senate Bill 467 Inexpedient to Legislate. This bill sought to place the State Art Fund on a more regular funding level. Supporters of the bill, however, have realized their intention requires much more time and effort in terms of such legislation. They plan to submit a more robust proposal next session. The Senate Finance Committee recommends Senate Bill 467 be found Inexpedient to Legislate, and asks for your support.

The question is on the adoption of the motion of Inexpedient to Legislate. Adopted.

SB 471, relative to the authority of municipalities to address potential natural threats.
Ought to Pass with Amendment, Vote 5-0. Senator Giuda for the committee.

Senate Finance
January 24, 2018

08/04

Amendment to SB 471

Amend RSA 21-P:37-c, II(a) as inserted by section 1 of the bill by replacing it with the following:

(a) When the President of the United States declares an area a federal disaster area and a municipality has applied for federal emergency assistance from the Federal Emergency Management Administration (FEMA), the governor, with the approval of the executive council, may approve a loan in the amount up to the anticipated assistance from FEMA from funds not otherwise appropriated.

Amend RSA 21-P:37-c as inserted by section 1 of the bill by replacing paragraphs VI and VII with the following:

VI. If the state treasury provides advance funding to a municipality that has applied for and is waiting for FEMA disaster relief funding, the interest rate to be assessed on such advance funding shall be no greater than the prevailing rate at which the state treasury is able to invest its commingled cash.

VII. If the amount of FEMA assistance a municipality receives is less than the exceptional disaster relief loan, the state treasurer, with the advice and consent of governor and council, shall negotiate terms of repayment of the difference. If the municipality and the state treasurer are unable to reach an agreement, the department of revenue administration shall include the amount in the amount apportioned for setting property tax rates.

VIII. The director of homeland security and emergency management shall administer the exceptional disaster relief loan program.

SENATOR GIUDA: Thank you, Mister President. I move Senate Bill 471 Ought to Pass with Amendment. This bill creates a procedure for issuing exceptional disaster relief loans. It provides that the government with the approval of the Executive Council may approve a loan up to the amount of anticipated assistance from FEMA from funds not otherwise appropriated. It also addresses payback of that loan by the community and the interest rate to be assessed on such advance funding. The Senate Finance Committee recommends passage of Senate Bill 471 as Amended and asks for your support. Thank you, Mister President.

The question is on the adoption of the Committee Amendment. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to Third Reading.

SB 472, establishing a committee to study the creation of an economic improvement fund.
Inexpedient to Legislate, Vote 3-2. Senator Reagan for the committee.

SENATOR REAGAN: I move Senate Bill 472 Inexpedient to Legislate. This bill sought to establish a committee to study the creation of an economic improvement fund to provide researchers at New Hampshire's public universities with additional funds necessary to support research and development activities. Members of the Senate Finance Committee were not convinced such a committee is needed. New Hampshire business entrepreneurs, such as Dean Kamen, were cited as major contributors in supporting research and development efforts in the Granite State. The committee recommends Senate Bill 472 be found Inexpedient to Legislate, and asks for your support.

Senator Bradley moved to Lay on the Table SB 472. Adopted.

SB 539-FN-A, making appropriations to the department of education for adequate education grants.
Ought to Pass with Amendment, Vote 6-0. Senator Daniels for the committee.

Senate Finance
January 24, 2018

06/10

Amendment to SB 539-FN-A

Amend the bill by replacing section 1 with the following:

1 Appropriation; Department of Education; Additional Adequate Education Grants to Certain Municipalities. The sum of $1,483,428 for the fiscal year ending June 30, 2018 is hereby appropriated to the department of education for the purpose of providing additional adequate education grants to certain municipalities as calculated in RSA 198:40-a and 198:41 in the amount of $684,498 for the fiscal year ending June 30, 2016 and $798,930 for the fiscal year ending June 30, 2017, specifically related to amounts calculated pursuant to RSA 198:40-a, II(e) which were not distributed to those municipalities in that fiscal year. Said sum shall be a charge against the education trust fund established in RSA 198:39. Notwithstanding RSA 198:42, the commissioner of the department of education shall disburse a lump sum to each municipality.

SENATOR DANIELS: Thank You, Mister President. I move Senate Bill 539-FN Ought to Pass with Amendment. This bill makes an appropriation of $1,483,428 in Fiscal Year 2018 for the Department of Education to provide additional adequate education grants to certain municipalities. The additional funding is specifically related to amounts calculated for differential aid attributable to each third-grade pupil in the average daily membership with a score below the proficient level on the reading component of the state assessment, which was not distributed in Fiscal Year 2016 and Fiscal Year 2017. The appropriation will be a charge against the Education Trust Fund. The Senate Finance Committee amended the bill as the amounts identified for each year in the original bill were inverted. The committee recommends passage of Senate Bill 539-FN as amended, and asks for your support. Thank you, Mister President.

The question is on the adoption of the Committee Amendment. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to Third Reading.

HB 549-FN, relative to beverage vendor fees.
Ought to Pass with Amendment, Vote 4-1. Senator Giuda for the committee.

Senate Finance
January 17, 2018
2018-0153s
03/08

Amendment to HB 549-FN

Amend the bill by replacing all after the enacting clause with the following:

1 Repeal. RSA 178:29, III(b), relative to beverage vendor license fee, is repealed.
2 Effective Date. This act shall take effect July 1, 2018.

2018-0153s

AMENDED ANALYSIS

This bill eliminates beverage vendor license fees.

SENATOR GIUDA: Thank you, Mister President. I move House Bill 549-FN Ought to Pass with Amendment. The bill sought to establish a new fee schedule for beverage vendor licenses. Initially an agreement was reached to reduce the current license fee for small distributors and increase the fee for larger distributors. The Liquor Commission revenue's currently at a very healthy level, elimination of some distributor operating fees may encourage production of additional products. The Senate Finance Committee amended House Bill 549-FN to repeal RSA 178:29 III-b, the beverage vendor license fee. The committee recommends passage of the bill as amended and asks for your support. Thank you, Mister President.

(The Chair recognized Senator Feltes for a question of Senator Giuda.)

SENATOR FELTES: Thank you, Mister President. Thank you Senator Giuda, for taking my question. This amendment that was put on in committee erases the bill and then repeals 178:29 III-b, the beverage vendor licenses. Do you know what the fiscal impact is of repealing the beverage vendor licenses?

SENATOR GIUDA: Thank you for the question and yes, I do. Currently the Liquor Commission is bringing in about $144.3 million. This bill would in fact reduce by 300,000 that's the totality of revenues realized by the beverage vendor licenses.

SENATOR FELTES: Okay. Thank you.

(The Chair recognized Senator Feltes.)

SENATOR FELTES: Thank you very much, Mister President. I speak in opposition to the committee amendment. You know at the same time that we're not funding $180,000 for case tracking of child protection we're getting rid of beverage vendor license which generates $300,000 a year. There was no, from what I can recall, reason to take this kind of departure from the bill Mister President, it's a radical departure from the bill that came over to us from the House. And instead of looking at the bill that came over from the House, what happened here is that got erased

and then the beverage vendor licenses all got erased. And that's 300,000 that's erased from our state's resources. So, I think we ought to be cautious about this Mister President, especially at a time when we can't find the money to fund case tracking for child protection, we shouldn't be getting rid of a system that seems to be working right now. Thank you, Mister President.

(The Chair recognized Senator Giuda.)

SENATOR GIUDA: Thank you, Mister President. The Senator from District 15 has asserted that this repeals the licensure, it does not repeal licensure, it merely repeals the vendor fees. And with respect to the fiscal impact, we are seeing our economy really roar under a Republican Governor with Republican initiated initiatives to reduce taxes and fees on businesses, our numbers are up, the time to cut taxes and fees is when you're healthy. We have an opportunity to do that, even as the Liquor Commission's revenues are increasing because of the additions we've made to their plants with new structures around the state, $300,000 is not going to bankrupt anyone, if we're going to take that ploy then let's just add taxes and fees to everything to cover all the expenses that everybody wants. But the vendor fee of $300,000 will not cause any material harm to the Liquor Commission or to the revenues of the state. Thank you, Mister President.

(The Chair recognized Senator Sanborn.)

SENATOR SANBORN: Thank you, Mister President. I will stand with a polite and lovingly comment in dispute to my good friend from District number 2; this is not a cut of fees on the business community, this is a cut on fees for all those wonderful people that actually drink beer. We actually know that when there are fees imposed by our government, laid on to individuals of the business community, those fees, fines, taxes, penalties and assessments are always then laid on to the customer. We see an increase on the cost of operation for public service, or the generation of power, the consumer pays more money. We see higher fees, higher regulations, higher cost of doing business and they ultimately fall onto the backs of the consumer. So, I am sure, at least I hope Mister President, that no one wants to be raising taxes on beer drinkers. Now for the record Mister President, based upon our ethics laws that need to be changed, I am a licensee in this business and I actually sell beer, so therefore I may or may not have a conflict on this bill but clearly, I'm still participating, but the Super Bowl is on Sunday. Who wants to be raising the cost of beer and taxes on those people that are going to be drinking Bud Light this weekend, or any other beer for that matter? So, Mister President, again a polite loving retribution to my friend from District 2, this is a tax on drinkers in this state, not a tax on business owners, it should be repealed, and I would ask for a roll call.

(The Chair recognized Senator Soucy.)

SENATOR SOUCY: Thank you, Mister President. Mister President, I rise in opposition to this bill and to this motion because this was a bill that the Commerce Committee actually heard and listened to a lot of thoughtful testimony on, none of which I would point out was in opposition. If anything, what this bill was designed to do was to attract more small businesses. This bill sponsored by a Republican committee chair in the House was actually brought to us as an effort to allow more vendors to bring their product into the state. What it does is graduate the fee schedule so only the largest manufacturers would pay a higher

rate, but it reduces fees for all of the smaller manufacturers, allowing them to bring more different products into the state and to give beer drinkers more choices. So, this is actually business friendly legislation, that as I said, no one opposed where a hearing was held. I don't know that Finance held another hearing, but where the hearing was held and people had an opportunity to weigh in, no one opposed this legislation. But lastly let me say what concerns me the most about this change is that this is a department whose primary charge is to generate revenue.

We keep asking the Liquor Commission to generate revenue and part of the reason we're doing that is because we know that there is an incredible need in this state for drug and alcohol treatment. And the funds that go to drug and alcohol treatment, the funds for the alcohol fund come from the revenues of this department. Why would we in the midst of an opioid crisis be taking away a tool for this very department charged with generating revenue? A tool that's been expanded yes, but a better-defined tool. Why would we be taking that away? This makes absolutely no sense to me. How can we promote that we are going to spend more to deal with the crisis if we take away the ability of the department that's generating money to collect the money? This makes no sense. And as I said, nobody was opposed to this. A very, very well represented industry in our state, they supported this in Commerce, so why today we have this change I don't understand, I think it's a grave mistake on our part if we support this motion. I would encourage my colleagues to think twice before we take this action. Thank you very much, Madam President.

President Pro Tempore Carson presiding.

(The Chair recognized Senator Sanborn.)

SENATOR SANBORN: So, I rise a second time to give comment to the fact there was opposition on this bill in committee because in fact I was opposed to it, spoke about it in committee several times, spoke about it in the exec session. This bill raised the cost of the fee from $1,200 to $15,000. Now the amendment done by the Finance Committee, and I compliment the chair, my good friend from the wonderful town of Milford does the right thing and it does something even better than what the Commerce Committee did; it eliminated the fee. So if we are concerned about bringing more businesses to the state of New Hampshire, if we want to lift that shingle up and open that window and say we recognize that our existing fee structure is prohibitive to encourage other businesses to come to our state, we are going to open up the open for business sign. We are going to make it even more attractive to be here. To make a suggestion that this is going to discourage businesses from coming here, to make a suggestion that this is going to reduce the revenue the state of New Hampshire is going to see by making it easier for businesses to come here, I have a gentleman I like to read a lot named Milton Friedman, I think he would disagree with that statement. We do recognize the fact that the current fee structure that we had made the fees higher than the total revenue that some companies would have by selling their products in our state. Let me repeat that for the record; our fee structure was so high, it was higher than the gross revenue that some companies would have if they came to our state. Clearly there is a problem with this.

There was a move to make it more affordable for those small businesses, the Commerce Committee went some distance, and what we have seen now from the Finance committee is the Finance Committee went the rest of the way to join the Governor in saying our state is open for busi-

ness, our state is going to do things to encourage and welcome more companies to come to our state, and if they come to our state what will happen? They'll sell more product. The result of selling more product in the economy we understand means revenue goes up not down. So if we are concerned about ensuring there is sufficient revenue, in order to address our opioid problems, address our educational problems, pay for the $125 million road bond we have which is sucking money out of the liquor fund, so I would contend if people are truly concerned about ensuring we have enough money to pay for our opioid crisis we're facing, some might want to look at why we took $125 million out of that fund to buy a road. This bill will bring new companies, this bill will bring new business, this bill will bring new revenue and if the percentage of what we're looking for to help those that are in need in our state is predicated on more revenue, there should be absolutely no reason why people should support this bill. Thank you, Madam President.

(The Chair recognized Senator Giuda.)

SENATOR GIUDA: I would like to remind the body that under the leadership of this Governor and with the assistance of this body and the House we have doubled the funding. It's not the 5 percent yet, but with 3.4 percent for the alcohol abuse fund, whatever we want to call it, and that will continue, and I believe very strongly that by eliminating these fees we will see more businesses in the state generating more revenues for the state and aiding us in reaching that 5 percent threshold. Thank you, Madam President.

(The Chair recognized Senator Kahn for a question of Senator Sanborn.)

President Morse presiding.

SENATOR KAHN: Thank you for taking my question. Would you agree that the fiscal note on this bill, relative to the $15,000 fee only applies to four businesses in the state?

SENATOR SANBORN: Senator, thank you so much for the question, and I'll agree the fact that the way that the fiscal note and the bill as amended, were structured, it did completely change from a single fee for everyone to make a graduated fee based upon how big a company is. But we also have to recognize that if enacted, it would actually double, nearly double the overall cost of the fee. So, while we dropped it on the lower end and it went up much higher on the higher end, it would essentially almost double the total income to the state of New Hampshire. So, in the end anyone with a strong background in math as I know that you have would see that if the revenue is doubling it means the fee is doubling.

SENATOR KAHN: Did any of the four vendors affected by the largest fee change, did any of them testify at the Commerce Committee?

SENATOR SANBORN: Senator, thank you so much for the question. I don't believe that they did, none of the four businesses testified because as we see so often, so often in our body, so often in our public hearings that the business community actually works for a living, hence the business community, and being able to show up between nine to five Monday through Friday can be very difficult for businesses to do.

SENATOR KAHN: Just that the fiscal note just seems pretty clear as to what's going up, what's going down. It looks like we've got about 300 firms in the state that are distributing beer affected by these fees about 200 of them would see a decrease, so I guess back to the testimony. Was there any objection from any of the industry to this bill?

SENATOR SANBORN: Senator, thank you so much for the question, and there's no question that by cutting fees, which is what this bill looks to do at some level. There is a hope and prayer that it's encouraging more economic success, because we want more companies to come here. Two-hundred is not enough for me, 300 is not enough for me. I want to see this state the place that all manufacturers come, so if we can position the state of New Hampshire as a business-friendly state and make the burden and the hurdle to get over to come here lower we will ultimately do more business and more money. Now my colleagues I hope I don't have to remind you that in addition to this fee we are still collecting thirty cents per gallon on every single gallon we sell. And in addition to that, even though I'm not a supporter and I don't advocate for it and I think it's too high, in addition to the thirty cents per gallon, we are charging 9 percent for every single penny of beer that is drawn in our state, and Senator we are tied as the highest, highest cost of rooms and meals tax in America. Tied only with our good friends on the other coast in California. So if there is a concern that our net result from this, whether or not we will see more revenue or less revenue, I would contend that the math on this of bringing more companies to New Hampshire, having more selections of people to drink to celebrate the Patriots win on Sunday, that we will have more companies, people who will buy more beer and the thirty cent per gallon tax and the 9 percent tax on top, we will actually see a net increase.

SENATOR KAHN: Wow. Thank you, Mister President.

(The Chair recognized Senator Feltes.)

SENATOR FELTES: Thank you, Mister President. There were a number of things that I was going to respond to, but I'm just going to move on and say this was not given a public hearing; it's a dramatic departure from the base bill. It may have merit, it may not. I don't think it does, but maybe the Senator from District 2 is right, that it does, but let's have a public hearing, the base bill had a public hearing in Senate Commerce, it was voted out and went to Finance, dramatic change. At a minimum this should be referred back to Senate Finance for an actual public hearing on this pretty dramatic departure from the base bill but existing law too Mister President, erasing the fees for beverage vendor licenses but keeping the fees on all the rest of the licenses. So, I think there's probably going to be some people that are going to have some input on that and so it makes sense Mister Chairman to at a minimum, re-refer this to Senate Finance for a public hearing. Thank you, Mister President.

(The Chair recognized Senator Giuda.)

SENATOR GIUDA: Thank you, Mister President. I would just submit to the body, that the absence of a complaint about a change to a fee structure is in no way correlatable to the enthusiasm that will be found within the businesses and by the drinkers of beer for the removal of the fee, and so for that reason I ask the body to support the amendment and the bill as amended. Thank you, Mister President.

(The Chair recognized Senator Soucy.)

SENATOR SOUCY: Mister President, I just want to make one more point, because it was raised by my colleague from District 15. Without a public hearing and without any input the fact that we're making a significant change simply to one section of the fees affecting one small group is going to open the floodgates to every other entity within this category. So, we're just doing this for one category of beer vendors. Now the wine people, they

didn't have any say. Why didn't we do something to reduce their fees? How about the spirits people? Where were they? Did anybody ask them if they wanted their fees reduced? So, we're narrowly, just because we had one little section in front of us, going to carve out and say no fees whatsoever and think that's responsible to the rest of the industry in the three tier system? I personally don't believe that's responsible, that's why I oppose this amendment, that's why I support the work of the House Commerce Committee, the Senate Commerce Committee to rework these fees in a fair and equitable manner and that's why this amendment should be voted down. Thank you, Mister President.

The question is on the adoption of the Committee Amendment.

A roll call was requested by Senator Giuda, seconded by Senator Avard.

The following Senators voted Yes: Giuda, Bradley, Gray, French, Ward, Sanborn, Daniels, Avard, Carson, Reagan, Birdsell, Gannon, Innis, Morse.

The following Senators voted No: Woodburn, Watters, Hennessey, Kahn, Lasky, Feltes, Cavanaugh, Soucy, Fuller Clark.

The following Senators were excused: D'Allesandro.

Roll Call, Yeas: 14 - Nays: 9. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment.

A roll call was requested by Senator Sanborn, seconded by Senator Avard.

The following Senators voted Yes: Giuda, Bradley, Watters, Gray, French, Ward, Sanborn, Daniels, Avard, Carson, Reagan, Birdsell, Gannon, Innis, Morse.

The following Senators voted No: Woodburn, Hennessey, Kahn, Lasky, Feltes, Cavanaugh, Soucy, Fuller Clark.

The following Senators were excused: D'Allesandro.

Roll Call, Yeas: 15 - Nays: 8. Adopted, bill ordered to Third Reading.

HEALTH AND HUMAN SERVICES
SB 310-FN, establishing a pilot program for community-based diversion services.
Ought to Pass, Vote 4-0. Senator Avard for the committee.

SENATOR AVARD: Thank you, Mister President. I move Senate Bill 310 Ought to Pass. This bill establishes a pilot program through which the Department of Health and Human Services shall contract with local organizations to provide community-based diversion services to prevent the need for foster care and out-of-home placements. There has been an exponential rise in the amount of children entering into foster care and one way to curb this trend is to ensure that the resources are available to families before DCYF needs to intervene. This will keep children safe and healthy at home with their families. This would be a 2-year pilot program and the department feels it could be up and running in about 3 months. So please support the committee's recommendation of Ought to Pass. Thank you, Mister President.

The question is on the adoption of the motion of Ought to Pass. Adopted, bill ordered to the Committee on Finance (Rule 4-5).

SB 378-FN, relative to an exemption from the board of registration of medical technicians.
Ought to Pass, Vote 4-0. Senator Gray for the committee.

SENATOR GRAY: Thank you, Mister President. I move Senate Bill 378 Ought to Pass. This bill would remove the requirement for certain care providers to register with the board of medical technicians. Personal care assistants are currently required to register with the board of medical technicians even though they are not providing medical care. These care providers often help with bathing, dressing and other needs a patient might have. Personal care assistants are already required to obtain a criminal background check prior to starting work. The Office of Professional Licensure and Certification as well as the Department of Health and Human Services are confident that there is enough protection in place for patients and that the requirements of registering with the board does not offer any additional benefit. Please support the committee's recommendation of Ought to Pass. Thank you, Mister President.

The question is on the adoption of the motion of Ought to Pass. Adopted, bill ordered to Third Reading.

SB 477, establishing a therapeutic cannabis medical oversight board. Ought to Pass with Amendment, Vote 4-0. Senator Hennessey for the committee.

Health and Human Services
January 25, 2018
2018-0306s
01/03

Amendment to SB 477

Amend the bill by replacing all after the enacting clause with the following:

1 New Paragraph; Use of Cannabis for Therapeutic Purposes; Rules. Amend RSA 126-X:6 by inserting after paragraph III the following new paragraph:

IV. The department shall adopt rules relative to the therapeutic cannabis medical oversight board's public hearing process pursuant to RSA 126-X:12, IV.

2 New Section; Use of Cannabis for Therapeutic Purposes; Therapeutic Cannabis Medical Oversight Board. Amend RSA 126-X by inserting after section 11 the following new section:

126-X:12 Therapeutic Cannabis Medical Oversight Board Established; Membership; Duties.

I. There is hereby established the therapeutic cannabis medical oversight board which shall monitor and contribute to the oversight of the clinical, quality, and public health related matters of the use of cannabis for therapeutic purposes under this chapter.

II. The board shall consist of the medical director, department of health and human services, or designee, a qualifying patient, appointed by the commissioner of the department, a clinical representative from an alternative treatment center, appointed by the commissioner, and 10 medical providers also appointed by the commissioner. The medical provider members shall represent the following fields:

(a) Neurology.
(b) Pain management.
(c) Oncology.
(d) Psychiatry.
(e) Pediatrics.
(f) Family or Internal Medicine.
(g) Obstetrics and Gynecology.

(h) Addiction.

(i) Palliative care.

(j) Physiatry/orthopedics.

III. At its first meeting the board shall elect by majority vote a chairperson and an alternate. A quorum shall consist of a majority of members.

IV. The board shall convene at least 2 times per year to monitor and contribute to the oversight of the clinical, quality, and public health related matters of therapeutic cannabis under this chapter by:

(a) Reviewing medical and scientific evidence pertaining to currently approved and additional qualifying conditions.

(b) Reviewing laboratory results of required testing of cannabis cultivated and/or processed by an alternative treatment center and the use of pesticides on products under RSA 126-X:6, III(a)(16).

(c) Monitoring clinical outcomes.

(d) Reviewing training protocols for dispensary staff based on models from other states.

(e) Receiving updates from alternative treatment centers on effectiveness of various strains, types of cannabinoids, and different routes of administration for specific conditions.

(f) Reviewing best practices for medical providers regarding provider education, certification of patients, and patient access to the program.

(g) Reviewing any other clinical, quality, and public health related matter relative to use of cannabis under this chapter.

V. The board may make recommendations to the commissioner to add or remove qualifying medical conditions under RSA 126-X:1, IX based on the findings pursuant to subparagraph IV(a) and after receiving input from the public through a public hearing process. The commissioner may recommend legislation based on the board's findings.

VI. On or before January 1 of each year, the board shall make a report to the president of the senate, the speaker of the house of representatives, the oversight committee on health and human services established under RSA 126-A:13, the board of medicine, the board of nursing, and the therapeutic use of cannabis advisory council established in RSA 126-X:9.

3 Effective Date. This act shall take effect 60 days after its passage.

2018-0306s

AMENDED ANALYSIS

This bill establishes the therapeutic cannabis medical oversight board which shall monitor and contribute to the oversight of the clinical, quality, and public health related matters of the use of cannabis for therapeutic purposes law under RSA 126-X.

SENATOR HENNESSEY: Thank you, Mister President. I move Senate Bill 477 Ought to Pass with Amendment. This bill establishes the therapeutic cannabis medical oversight board to monitor the clinical, public health, and consumer related matters of the use of cannabis for therapeutic purposes. The therapeutic cannabis program has been greatly expanded in the last few years and it's important to make sure that healthcare providers are monitoring the effectiveness of the program. This board will review and research additional conditions and symptoms that have been requested for inclusion in the program and make recommendations to the legislature. The committee amendment added representation from alternative treatment centers and the physiatry or orthopedic community. Please support the committee's recommendation of Ought to Pass with Amendment Thank you, Mister President

The question is on the adoption of the Committee Amendment. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to Third Reading.

SB 482-FN, relative to confidential emergency medical and trauma services data.
Ought to Pass, Vote 3-0. Senator Hennessey for the committee.

SENATOR HENNESSEY: Thank you, Mister President. I move Senate Bill 482-FN Ought to Pass. This bill establishes a privacy committee to review and approve requests for the use of emergency medical and trauma services records data for research purposes. Setting up this committee would allow the Office of Emergency Medical Services more efficient use of the data they are collecting. They would also be able to provide data to other agencies such as the Center for Disease Control and local hospitals for research purposes. This promises to improve health care outcomes for all in our state. Please support the committee's recommendation of Ought to Pass. Thank you, Mister President

The question is on the adoption of the motion of Ought to Pass. Adopted, bill ordered to Third Reading.

SB 488, relative to licensure of health care professionals employed at the Manchester Veterans Affairs Medical Center.
Ought to Pass, Vote 4-0. Senator Bradley for the committee.

SENATOR BRADLEY: Thank you, Mister President. I move Senate Bill 488 Ought to Pass. This bill would continue allowing physicians that work with or at the Manchester Veteran's Administration hospital to continue working without obtaining a New Hampshire license. With the flooding disaster that occurred at the VA, other hospitals have taken over veteran's care and many of the VA providers, health care providers have been given privileges at area hospitals to help treat patients. As some of you may recall, Governor Sununu in August issued an executive order to deal with this licensure issue. What this bill does is continue the Governor's executive order through July 1 of 2019 to ensure that as the necessary construction happens at the VA to be able to restore service that there's not a licensure problem for the health care providers at the VA. So, Mister President, I ask the body support the unanimous recommendation of the HHS Committee. Thank you.

The question is on the adoption of the motion of Ought to Pass. Adopted, bill ordered to Third Reading.

SB 549-FN-A, making an appropriation to the department of health and human services for the Sununu health services center and relative to infants born with substance abuse or withdrawal symptoms resulting from prenatal drug exposure or fetal alcohol spectrum disorder.
Ought to Pass with Amendment, Vote 4-0. Senator Gray for the committee.

Health and Human Services
January 25, 2018
2018-0310s
05/01

Amendment to SB 549-FN-A

Amend the title of the bill by replacing it with the following:

AN ACT relative to plans of safe care for infants affected by substance abuse or withdrawal symptoms from prenatal drug exposure or fetal alcohol spectrum disorder.

Amend the bill by replacing all after the enacting clause with the following:

1 New Section; Protection for Maternity and Infancy; Plan of Safe Care. Amend RSA 132 by inserting after section 10-d the following new section:

132:10-e Notification and Development of a Plan of Safe Care. Health care providers involved in the delivery or care of infants born with and identified as being affected by substance abuse or withdrawal symptoms resulting from prenatal drug exposure or a fetal alcohol spectrum disorder shall notify the department of health and human services of the occurrence of such condition. The health care provider shall develop a plan of safe care, in cooperation with the department of health and human services, division of public health services and division for children, youth and families, as appropriate, and with the infant's parents or guardians to ensure the infant's safety and well-being following release from the care of the health care provider. The plan shall take into account whether the infant's prenatal substance exposure is a result of the use of medication prescribed for the mother by a health care provider. Such exposure shall not form the basis for a referral to the department for potential abuse or neglect, but shall be included in the plan of safe care provided to the department to ensure the safety and well-being of the infant, to address health and substance use treatment needs of the infant and affected family member or caregiver, and to ensure that appropriate referrals are made and services are delivered to the infant and affected family member or caregiver.

2 Effective Date. This act shall take effect upon its passage.

2018-0310s

AMENDED ANALYSIS

This bill directs health care providers to develop, in conjunction with the department of health and human services and the child's parent or guardian, a plan of safe care for a child born with substance abuse or withdrawal symptoms resulting from prenatal drug exposure or a fetal alcohol spectrum disorder.

SENATOR GRAY: Thank you, Mister President. I move Senate Bill 549 Ought to Pass with Amendment. This bill directs health care providers to develop, in conjunction with the Department of Health and Human Services and the child's parents or guardian, a plan of safe care for the child born with substance abuse or withdrawal symptoms resulting from parental drug exposure or a fetal alcohol spectrum disorder. There has been a large increase in the number of babies being born addicted to drugs or alcohol. This bill seeks to create safe plans of care to ensure that the baby receives all the care he or she needs to recover. The committee amendment removes the appropriations to the Sununu Center and adds in protections for mothers in recovery. And I might note that this could be legal drugs or illegal drugs. Please support the committee's recommendation of Ought to Pass with Amendment. Thank you, Mister President.

The question is on the adoption of the Committee Amendment. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to Third Reading.

SB 551-FN, relative to deductibles under health insurance policies. Interim Study, Vote 4-0. Senator Bradley for the committee.

SENATOR BRADLEY: Thank you very much Mister President. I move that Senate Bill 551 be Referred for Interim Study. This bill would allow

health insurance policy holders to claim treatments deemed medically necessary by their provider but not covered by their insurance to be able to claim those costs against their deductible. The committee felt there were a lot of unanswered questions including whether it would apply to medical marijuana that might be recommended by a provider. The committee moved Interim Study to at least have a little bit more opportunity to discuss this. I would just say that all the insurance companies in the state sent letters to members of the committee and I just want to read one sentence from the letter from AHIP, the America's Health Insurance Plans, it's a umbrella group for the insurers in New Hampshire. "Efforts such as Senate Bill 551 to limit health plan design would only result in higher premiums and/or higher cost sharing. It would do nothing to address the root cause of high prescription drug prices." So, based on that information even though there would be some merit to being able to deduct any medically necessary drug as ordered by your physician against your co-pay, the committee was well aware that this would drive up the cost of health insurance which as we have heard repeatedly, is among the highest in the nation and so for that reason I ask that we Interim Study this bill. Thank you, Mister President.

(The Chair recognized Senator Sanborn.)

SENATOR SANBORN: Mister President, thank you so much and I'd like to compliment the Committee on Health and Human Services for taking up this policy issue and discussing it, acknowledging when I put the bill in, it's a very complicated issue. But I'm hoping that raise the question and have the debate about what are we doing about the cost of health insurance. And more importantly, what are we doing about the cost of health care, because granted we are seeing across the nation and we're seeing as a result of policy decisions made in this building and in Washington D.C. that the cost of health insurance continues to skyrocket. What's more concerning to me is even with the increased cost of insurance, the cost of insurance should not be confused with the cost of health care. In order to slow down the increases in the cost of insurance, we're seeing more and more, and more expenses being laid on everyday people. You know it used to be Mister President, before the implementation of the Affordable Care Act, my health insurance was $748 a month, and I paid a $5 co-pay. That was it. Today I am paying some $1,700 a month, a $75 co-pay, a $12,000 deductible on each of my family members, plus an 80/20 what they call co-insurance which means no matter what, you're still paying 20 percent of the bill and an ever increasing amount of services that are provided that are "not covered services" anymore.

This body has not gone into this discussion about what is a covered service and what should not be a covered service. We are allowing the insurance industry in an effort to give an illusion of smaller increases and premiums to lay those costs directly on the hard-working people of this state, who actually have to pay for their own insurance. So, at what point do I ask this body that we see the pain of working families, that we see the pain that they can no longer financially afford their cost of health care. How often have you as members heard someone say well, I have health insurance, but I can just no longer afford to use it? Because I can't afford the co-pay, I can't afford the co-insurance, I can't afford the deductible and for the record all the things that I need are no longer covered by the insurance. Again, I applaud the committee in looking at this bill, I do hope they study it because I do recognize it's a very complex issue. But this body, this legislature has got to come to the realization that there are just

as many people who can no longer afford their health care as there are that we're giving it to free with a fully government subsidized product. If someone needs medical care, if their doctor says for your health you need this product or you need this service or you need this prescription or you need whatever it is to get you healthy or to keep you healthy, and your insurance carrier says we don't want to cover that, shouldn't that person be allowed to deduct that expense against their deductible or their payments.

While recognizing that the insurance industry would come back and say well if people reach their deductibles early, that means we're going to have to start paying more money in the system so yes, rates might go up and I agree with that Mister President, they might go up. But at what point do we need to look at the root cause of this, something the good Senator from District number 3 just said. New Hampshire now has the highest cost of health care in America. Meaning we have the highest cost of health care on Earth. The fact that our health insurance costs are equally the highest, is nothing more than a subset of the root cause that our cost of care is the highest in America. I believe it is incumbent upon this body and our friends next door Mister President, that we have to start asking the questions, why? And what are we going to do to help cut the cost of health care? So again Mister President, I begrudgingly support the motion of Interim Study because I do know it's complex and I support the committee's position, but I do implore onto this body at some point we need to stare something in the eye and recognize it is incumbent upon us that if we are truly serious about medical care in America and medical care in this state, that it's time we start doing something. Thank you, Mister President.

(The Chair recognized Senator Bradley.)

SENATOR BRADLEY: Thank you very much. I just got up a second time to maybe explain why you know drug pricing is something that is driving the cost of insurance and health care and what insurance companies are doing, they create formularies, not every drug is on a formulary, but the reason for a formulary is to try and manage better the cost of not only the health care but the health insurance. While well-intended, this legislation would undermine exactly why insurance companies create formularies, whether we like it or not. And I just have to say, having you know, listened to an awful lot of arguments about health care, about cost, about where this country is going to go or where this state is going to go with health care, the arguments that we just heard sound strikingly similar to those who are advocating for a single payer system. I hope that's not the case, from our friend from District 9 and I know that he sponsored other pieces of legislation like associated health plans and cross state purchase of health insurance to lower the cost of health care, unfortunately Senate Bill 551, would drive that in the other direction and raise the cost of health care. Thank you, Mister President.

(The Chair recognized Senator Sanborn.)

SENATOR SANBORN: Mister President, I rise and frankly take exception to the point that someone would suggest that I support single payer health care. I am offended by that.

The question is on the adoption of the motion of Interim Study. Adopted.

Recess. Out of recess.

JUDICIARY
SB 387-FN, relative to liability of governmental units.
Ought to Pass, Vote 4-1. Senator Carson for the committee.

SENATOR CARSON: Thank you, Mister President. I move Senate Bill 387-FN Ought to Pass. This bill modifies several provisions of law relating to bodily injury actions against governmental units and raises liability limits in such actions to keep pace with inflation. Although a good portion of this bill is simply housekeeping, the main aspects are the product of long hours of work and compromise from a commission of stakeholders. The bill increases the liability of governmental units for bodily injury, personal injury, and property damage sustained by any one person from $275,000 to $325,000, and for an overall incident from $925,000 to $1 million. It is important Mister President, to note that the legislature has not raised this liability for thirty years. There are those that argue these changes are too small and those that argue that they are too large which truly reflects the compromise inherent in this bill. This is a much-needed change to our statutes, and therefore, the majority of the Judiciary Committee asks for your support in the motion of Ought to Pass on Senate Bill 387-FN. Thank you, Mister President.

The question is on the adoption of the motion of Ought to Pass. Adopted, bill ordered to Third Reading.

SB 390-FN, establishing the office of solicitor general in the department of justice and establishing an unclassified attorney position in the department of justice.
Ought to Pass, Vote 4-1. Senator Carson for the committee.

SENATOR CARSON: Thank you, Mister President. I move Senate Bill 390-FN Ought to Pass. This bill establishes the office of the solicitor general in the division of legal counsel at the Attorney General's Office, and establishes a full-time attorney position in the Attorney General's Office for the purpose of implementing and establishing a training program for regional, county, and state prosecutors. Establishing a New Hampshire solicitor general will enhance the quality of appellant work of the state in front of the New Hampshire Supreme Court, the United States Courts of Appeals for the First Circuit, and the US Supreme Court, by combining those practicing criminal and civil law within one office. Furthermore, the bill will consolidate the training programs of regional, county, and state prosecutors. This creation of a uniform training program will not only achieve efficiencies, but will also enhance the training program to have an added emphasis on knowledge basis and skill development of those prosecutors representing the State. Therefore, the majority of the Judiciary Committee asks for your support in the motion of Ought to Pass on Senate Bill 390-FN. Thank you, Mister President.

The question is on the adoption of the motion of Ought to Pass. Adopted, bill ordered to the Committee on Finance (Rule 4-5).

SB 492-FN, prohibiting bump stocks in New Hampshire.
Interim Study, Vote 3-2. Senator Carson for the committee.

SENATOR CARSON: Thank you, Mister President. I move that Senate Bill 492-FN be Interim Studied. This bill would establish a misdemeanor offense for the sale, manufacture, possession, or use of a multi-burst trigger activator, known as bump stock. While it is clear that the intention of this legislation comes from wanting to protect our citizens from mass shootings, the reality is that this bill will not achieve that. For decades it has been possible to create bump fire with something as simple as a belt loop or a wooden dowel and attempting to ban a bump stock will not change that fact. Furthermore, various parts of this legislation are incredibly broad and vague, creating multiple unintended consequences,

including unnecessarily prohibiting devices New Hampshire citizens lawfully use in competitions, hunting, and self-defense that have nothing to do with bump fire. Finally, Mister President, the Federal Bureau of Alcohol, Tobacco, Firearms and Explosives recently opened a federal rulemaking procedure regarding regulating bump stocks, which included a public comment period that closed earlier this week. Therefore, it is important to take the time to hear what the Federal Government proposes before moving forward on this issue. Due to these reasons and concerns, the majority of the Judiciary Committee asks for your support in the motion of Interim Study on Senate Bill 492-FN. Thank you very much, Mister President.

(The Chair recognized Senator Lasky.)

SENATOR LASKY: Thank you, Mister President. I rise in opposition to the committee motion of Interim Study. After the hearing on Senate Bill 492, it did become evident that there was much work needed on this proposed bill. But the minority of the Judiciary Committee does not feel that Interim Study will accomplish that work. What I would like to do is I hope that I urge you to overturn the committee report of Interim Study so that I may offer an amendment that proposes a bipartisan commission with differing groups of people in it to work on a meaningful study of this subject of bump stock devices. So again, I hope you will overturn the Interim Study so that I may propose an amendment. Thank you.

(The Chair recognized Senator Woodburn.)

SENATOR WOODBURN: Thank you, Mister President. I come from a place where there's more guns than people. And my rural North Country district includes 28 percent of the state's land mass, an area larger than two states and seventeen foreign countries. Guns are part of our culture and are recognized as an essential tool. There also comes a lot of common sense and it is that understanding of the culture and the value of my region that I insert myself in this debate and this discussion. Bump stocks are devices that convert semi-automatic weapons to automatic ones. These are the ones that became famous as a result of the deadly shooting in Las Vegas last October. It was the deadliest mass shooting in American history, fifty-eight people were killed and over five–hundred were injured. And after that tragedy, Governor Sununu was quoted in the Union Leader as saying that he would be happy to take a look at it. It is that spirit of compromise that is essential and I appreciate that. I look forward to working with him. Republican governors of Massachusetts and New Jersey have most recently passed legislation with their support to ban bump stocks. In the few minutes that I've spoken a bump stock gun could spray 1,600 to 3,200 bullets in that short period of time that I've spoken. Now this is a hard one, because we have a bill that we have three options; we can kill it, we can pass it, or we can study it. And I appreciate the Republican majority's willingness to have a meaningful study, I applaud their recognition of the validity of this issue and this is a great day for those people who believe in common sense gun safety legislation because the true options that we have are studies, we have a study that is an interim study which we have an opportunity to review this because they believe in the merits of the bill and need to work on some of the details, we need to make change that brings everybody along, leaves no one out. And we also have, thanks to the Senator from Nashua, we have another study which would bring in opponents and proponents and other stakeholders into the process. Either one I think, the common sense demonstrated by our Governor of being open to

banning bump stocks, and the legislature to be able to look at how we can craft something that's truly the New Hampshire way. So, I think we can't lose. The only way we lose is if we defeat it and we're not doing that today. So, this is a great, great day, common sense prevails in the great state of New Hampshire and we are, I'm pleased, I'm happy, whichever direction we go is a great day for New Hampshire. So, thank you, Mister President.

Recess. Out of recess.

INTRODUCTION OF GUESTS

(The Chair recognized Senator Bradley.)

SENATOR BRADLEY: Thank you very much, Mister President. A very special person is here today. I introduced her a year ago and now I get to introduce Karen McNiff as my fiancée. The only other thing I have to say is thank you for saying yes.

(The Chair recognized Senator Bradley.)

SENATOR BRADLEY. Thank you very much, Mister President. You know I think it's very important that we look back at the hearing report that occurred on this bill. The Judiciary Committee heard from an engineer who works I believe at Sig Arms which is a large manufacturer in New Hampshire of some of the best firearms in the world, arms that police force and the members of our military use routinely. But just going from the hearing report from what Mister Spreadbury said, who is a manufacturing engineer, the bill was poorly written by someone who doesn't understand the workings of the firearm. Bump stocks are what bump fire is. Or it was written so vaguely as to encompass an astounding number of things. And he goes on to say it's another attempt to turn law-abiding gun owners into criminals overnight. I think that's pretty precautionary and a lot of testimony that the Judiciary Committee heard is that with the exception of muzzleloaders, bolt action rifles or single shot rifles the vagueness of the legislation, the way it's written, the fact that it used a definition that is used multi-burst trigger activator in California is confusing, it's vague and it's problematic.

So, while our friend introduced this legislation, this needs a lot more work and way more work I think than we can do at this point in time without, as our friend from Londonderry said, the Bureau of Alcohol, Tobacco and Firearms doing extensive research and the public comment period actually just ended on this legislation. I'm very afraid listening to some of the other testimony about all the other rifles that people use routinely for hunting, for target practice and other things in New Hampshire that are not muzzleloaders, single shot, or bolt action that under this definition could potentially have been banned and confiscated. I don't think that's what any of us intend, I don't think it's what any of us want, and that's why I think that the current motion of Interim Study is exactly where we should go so that we can wait for the Bureau of Alcohol, Tobacco and Firearms to fully explore this subject and make a recommendation that all fifty states potentially would abide by as opposed to state by state. So, with that and wanting to protect the second amendment and not take away people's constitutional rights and ban guns or some guns I would urge the body to vote for Interim Study.

(The Chair recognized Senator Lasky.)

SENATOR LASKY: Thank you, Mister President. The Majority Leader from District 3 is correct. We do need further work on this bill. It was

obvious from the testimony, which I sit on Judiciary that we did hear, that there could be and with the passage of the bill as it is, could be some unintended consequences. But in my mind and as I said before, Interim Study is not the way to go because it will not bring in the various stakeholders, we will not have the time to listen to what the Federal Government may do or have our Governor fully weigh in. Defeating Interim Study shows that we are wanting a really meaningful study or commission on this subject, which so many people after the heinous acts in Las Vegas and Connecticut are aware of, that something needs to be done. So again, I urge you to vote down Interim Study so that we can bring stakeholders from both positions on board, have a number of people weighing in and we can come up with really a good bill that does what I believe everybody in this body wants to do. So, I thank you, Mister President.

(The Chair recognized Senator Hennessey for a question of Senator Bradley.)

SENATOR HENNESSEY: My question is whether you are aware that the National Rifle Association who obviously hold the second amendment dear have come out saying something needs to be done about bump stocks and that it is part of, that it needs to be studied in a more complete way?

SENATOR BRADLEY: I'm not aware of that, but if that is the case, I think what the Bureau of Alcohol, Tobacco and Firearms is doing in the comment period that just closed is the appropriate way to proceed. I think that you and I, I hope you and I would agree that we need to protect and defend the second amendment and people's constitutional right to protect their lives, their loved ones and their liberties, that we shouldn't be, whether deliberately or inadvertently, banning guns and I think that where this was approved under the prior administration and that Bureau of Alcohol, Tobacco and Firearms I believe in 2010, that's the appropriate place at least in my humble opinion for that kind of discussion to take place.

SENATOR HENNESSEY: Yes, I believe that the second amendment is an important document. I also believe that the intent of the second amendment did not include devices such as bump stocks. So, I think it has to do with your interpretation of the second amendment and not my interpretation which is common sense.

SENATOR BRADLEY: And again, the reason why I go back to the second amendment and the actual language is that the committee, and you sit on it, heard pretty significant testimony that the way this bill was written with the exception of muzzleloaders, single shot rifles and bolt action rifles could ban all other rifles in New Hampshire. I don't think that's the sponsor's intent, at least I hope it isn't. I don't think it's the Judiciary Committee's intent, at least the minority, I hope it isn't. But this is a complicated issue, it's a highly technical issue and obviously it's a fundamental constitutional issue. I think that with Alcohol, Tobacco and Firearms, yeah, ATF looking at this now, we should wait and see what happens and, yeah wait and see what happens and take whatever course of action in the future is appropriate.

SENATOR HENNESSEY: Thank you.

(The Chair recognized Senator Woodburn for a question of Senator Bradley.)

SENATOR WOODBURN: First congratulations, Senator.

SENATOR BRADLEY: Thank you.

SENATOR WOODBURN: I'm just trying to understand that if your concern is this is a poorly written bill and if you're concerned that it jeopardizes the second amendment, why would you want to study it, either a good deep study or a light study? I mean why not defeat it if it's a bad bill?

SENATOR BRADLEY: Well I hope you're concerned that your language may deprive people of their constitutional rights to own, you know, the kind of guns that people in your district routinely own because they hunt, they target shoot, they defend their lives, loved ones and liberties. I don't think that we, I think that we should wait for the Alcohol, Tobacco and Firearms Bureau to make recommendations and remember, bump stocks were approved in 2010 by the prior administration and I think it's appropriate since that's where the manufacturers of the so-called bump stocks sought the approval, that's where this discussion needs to happen in my opinion and I think we'd be better served in New Hampshire to have a, if there's going to be any action on this, to have very tight definition that everybody knows what they want and we're not you know using California's definition of multi-burst trigger activator which no one really knows what it means. When I talk to people in the second amendment community, it's not defined they don't know what it means and that's where I think your legislation if we were to go forward with it is problematic and that's why I think Interim Study's the right course and we wait and see what ATF does if anything and react to it in the future.

SENATOR WOODBURN: I just want to make sure I understand, but the issue we're facing here today is not to pass my bill, it is do we study it in a deep dive as Senator Lasky is suggesting or do we do a more shallow dive as the committee has recommended. Either one is a win for gun safety. So, I appreciate any direction we go. There's no, in my belief any effort here today to pass this legislation, it's which way we study it.

SENATOR BRADLEY: And the deep dive I think is what's happening at ATF and that's the appropriate thing.

SENATOR WOODBURN: Thank you.

(The Chair recognized Senator Soucy for a question of Senator Lasky.)

SENATOR SOUCY: Senator I just want to make sure since there are many questions mentioned about the technology and I for one can't speak to that myself. If we were to vote down Interim Study and you were to have the opportunity to offer your amendment, do you include as one of the stakeholders a gun manufacturer who could speak to the issue of technology?

SENATOR LASKY: Thank you for the question. Absolutely and I don't know if I'm permitted to read from the amendment but if I were and that I can speak to it there would be somebody from the gun manufacturer, there would be stakeholders of all kinds that we heard from at the hearing.

SENATOR SOUCY: Thank you.

(The Chair recognized Senator Fuller Clark for a question of Senator Bradley.)

SENATOR FULLER CLARK: Thank you very much, for taking my question. I just heard you say that this was a highly technical and complex issue, and by recommending Interim Study it's going to go back to a committee that doesn't really have that technical expertise. They would just be dependent upon whatever would be recommended you're saying from the ATF. Why wouldn't we want to bring together a group of stakeholders from all sides of the issue and work out a solution that

won't jeopardize the second amendment rights but at the same time is going to deal with this issue of trying to take automatic weapons out of the hands of ordinary citizens? I mean I got an email that said please kill this bill because what it will do is prevent hunters from being able to go out into the woods. Now would you tell me does a hunter need an automatic weapon? So, that's one part of the question but the larger part of the question is why doesn't it make more sense given how highly complex and controversial this issue is, that we should put together a true study committee to bring together voices from all sides and all experts?

SENATOR BRADLEY: I appreciate the spirit in which the question was asked and one of the things that as I have read the hearing report repeatedly, the engineer from Sig Arms said that the bump stock does not make a gun do anything that the gun cannot already do without it. And in listening to some of the other testimony, bump stocks, I mean people are talking about attaching rubber bands to the trigger somehow and dowels, I mean it's things I don't understand, I'll tell you that. So I think it's more than just an implement and you know I guess I would say that if it was good enough in the prior administration to leave this to ATF, I think it's good enough for us now to leave the expertise to ATF and then react to that and that's why I think the study of the specific study committee in New Hampshire is just not necessary. I think, you know let's wait for the process at ATF to unfold and go from there.

SENATOR FULLER CLARK: Time and time again I've heard that New Hampshire needs to go its own way and craft recommendations and legislations that are suitable to our state. So why in this case would we not want to take the recommendations from the ATF but have them examined closely and debated within a true study committee?

SENATOR BRADLEY: Well and remember, ATF approved this when they were asked by a manufacturer to determine if it was an implement that was legal or not. ATF approved these in 2010 so I think that's where you know the process should unfold, especially in light of the fact that the definition apparently in the bill came from California and a lot of people seem to think it would deprive people of the ability to own any kind of rifle except the three I've cited; muzzleloaders, bolt action, single shot. So, we may disagree on who would be best to study, but I think if it was good enough in 2010 for ATF to do it, I believe it's more than adequate in 2017.

SENATOR FULLER CLARK: Thank you.

(The Chair recognized Senator Hennessey for a question of Senator Bradley.)

SENATOR HENNESSEY: This is just a quick clarifying question for my benefit and maybe the benefit of others here. Do you believe that New Hampshire citizens have a second amendment right to own bump stocks?

SENATOR BRADLEY: I think, again, let me say what the engineer said, okay? The bump stock does not make a gun do anything the gun cannot already do without it. So, in order to answer your question, the question I think you're trying to get at is a bump stock turn a semi-automatic gun which is allowed under the second amendment because every time you want to shoot the gun you have to pull the trigger, that's allowed. The bump stock doesn't, if my understanding is correct, override the fact that it still requires a trigger pull. It just changes the pace of that trigger pull and it's used in particular in target shooting, and so that's a question I think would be best and should be best answered by the ATF. They answered it once already in 2010 under the prior administration, they ought to look at it again in light of you know new information if you will and answer it again.

SENATOR HENNESSEY: Thank you, so just because I'm not sure what your answer just told me, you do believe that I as a citizen of New Hampshire have a second amendment right to own a bump stock rifle?

SENATOR BRADLEY: I think we all have under the second amendment the right to protect our lives, our loved ones and our liberties with the protections that the second amendment affords. There have been some machine guns for instance that have long been illegal. So, I need more information to answer your question.

SENATOR HENNESSEY: Thank you.

The question is on the adoption of the motion of Interim Study.

A roll call was requested by Senator Sanborn, seconded by Senator Avard.

The following Senators voted Yes: Giuda, Bradley, Gray, French, Ward, Sanborn, Daniels, Avard, Carson, Reagan, Birdsell, Gannon, Innis, Morse.

The following Senators voted No: Woodburn, Watters, Hennessey, Kahn, Lasky, Feltes, Cavanaugh, Soucy, Fuller Clark.

The following Senators were excused: D'Allesandro.

Roll Call, Yeas: 14 - Nays: 9. Adopted.

PUBLIC AND MUNICIPAL AFFAIRS

SB 507, proclaiming June as post-traumatic stress injury (PTSI) awareness month.

Ought to Pass, Vote 5-0. Senator Birdsell for the committee.

SENATOR BIRDSELL: Thank you, Mister President. I move Senate Bill 507 Ought to Pass. This bill establishes June 27th as post-traumatic stress injury awareness day and June as post-traumatic stress injury month. The committee found it a beneficial opportunity to create a PTSI awareness month and day to educate citizens on the realities of this affliction. New Hampshire citizens who serve our state and our country, our military and veterans, our first responders, police officers, fire fighters and anyone who suffers from the PTSI deserve dignity in their treatment free from the stigma often associated with it. Please support the committee recommendation of Ought to Pass. Thank you, Mister President.

The question is on the adoption of the motion of Ought to Pass. Adopted, bill ordered to Third Reading.

TRANSPORTATION

SB 521-FN, authorizing Sophia's Fund to issue decals for multi-use decal plates.

Ought to Pass, Vote 5-0. Senator Gannon for the committee.

SENATOR GANNON: Thank you, Mister President. I move Senate Bill 521-FN Ought to Pass. This bill authorizes Sophia's Fund to issue decals for multi-use decal plates. Sophia's Fund is dedicated to helping families in their crusade against cancer, either financially or otherwise. This organization assists with life changes, raising awareness to gain greater support in the local and national communities and ultimately strives to help families to focus their energy on the battle. I brought this forward, this legislation on behalf of a constituent and friend of mine, Tony Stoddard and his family. The Stoddard's lost their young son and brother Cole to neuroblastoma six years ago. This bill would allow their family and others to purchase a decal supporting Sophia's Fund, an organization that gave so much to their family during such a difficult time. Honoring Cole and other children in this way would bring great joy to the Stoddard family, especially to Mrs. Stoddard who longs to see that decal on the plate, as well as countless other New Hampshire citizens. Since there are other pieces of legislation

this session that deal with decals for multi-use decal plates, some of which need amendments in order to be passed into law properly, a subsequent motion will be offered, but I hope each of you can support. All members of the Transportation Committee ask for your support in the motion of Ought to Pass on Senate Bill 521-FN. Thank you, Mister President.

The question is on the adoption of the motion of Ought to Pass. Adopted.

Senator Birdsell moved to Lay on the Table SB 521-FN. Adopted.

CONSENT CALENDAR REPORTS REMOVED

PRESIDENT MORSE: We are at the conclusion of the regular calendar and will take up the one bill that was removed from the consent calendar.

JUDICIARY
SB 496-FN, relative to mediation for child support arrearages over $5,000. Ought to Pass with Amendment, Vote 5-0. Senator Carson for the committee.

Senate Judiciary
January 25, 2018
2018-0301s
04/05

Amendment to SB 496-FN

Amend the title of the bill by replacing it with the following:

AN ACT relative to mediation for certain child support arrearages.

Amend the bill by replacing section 1 with the following:

1 Parental Rights and Responsibilities; Support. Amend RSA 461-A:14, XVIII to read as follows:

XVIII. Any motion for contempt of a court order regarding nonpayment of child support, if filed by a parent, shall be reviewed by the court within 30 days. ***Any claim involving an arrearage for a period of 8 weeks or more may be scheduled for mediation through the court within 30 days of the filing of the motion for contempt of court unless a hearing on the motion is scheduled earlier.***

2018-0301s

AMENDED ANALYSIS

This bill permits mediation for child support arrearages for a period of 8 weeks or more to be scheduled through the court.

SENATOR CARSON: Thank you very much, Mister President. This bill would permit mediation for child support arrearages on any claim involving an arrearage for a period of eight weeks or more. The committee amended the bill in order for the filing of the motion to be time based rather than amount based. Thank you, Mister President.

The question is on the adoption of the Committee Amendment. Adopted.

Senator Carson offered a Floor Amendment.

Sen. Carson, Dist 14
February 1, 2018
2018-0419s
04/01

Floor Amendment to SB 496-FN

Amend the title of the bill by replacing it with the following:

AN ACT relative to mediation for certain child support arrearages.

Amend the bill by replacing section 1 with the following:

1 Parental Rights and Responsibilities; Support. Amend RSA 461-A:14, XVIII to read as follows:

XVIII. Any motion for contempt of a court order regarding nonpayment of child support, if filed by a parent, shall be reviewed by the court within 30 days. ***When the arrearage equals or exceeds the equivalent of 8 weeks of child support under the existing order, the matter may be scheduled for mediation through the court within 30 days of the filing of the motion for contempt of court unless a hearing on the motion is scheduled earlier.***

2018-0419s

AMENDED ANALYSIS

This bill permits mediation for child support arrearages for a period equaling or exceeding 8 weeks to be scheduled through the court.

SENATOR CARSON: Thank you, Mister President. What this amendment does is merely tweaks the language a bit. It came from the court system and they said they needed to make just a few word changes here and there in order for it to work for them, so thank you very much.

The question is on the adoption of the Floor Amendment. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to Third Reading.

MOTION TO ADJOURN FROM EARLY SESSION

Senator Bradley moved that the Senate adjourn from the Early Session, that the business of the Late Session be in order at the present time, that all bills and resolutions ordered to Third Reading be, by this resolution, read a third time, all titles be the same as adopted, and that they be passed at the present time.

Adopted. Adjournment from the Early Session.

LATE SESSION

LIST OF RULE 6-25'S FOR THE DAY

Senator Sanborn: HB 549-FN, SB 63, SB 240-FN-L, SB 303, SB 310-FN, SB 312, SB 315, SB 319, SB 338, SB 339, SB 347, SB 348, SB 349, SB 355-FN, SB 356, SB 361, SB 371, SB 372-FN-A, SB 378-FN, SB 382, SB 386, SB 387-FN, SB 390-FN, SB 393, SB 428, SB 429-FN, SB 444, SB 445, SB 448, SB 457-FN, SB 460, SB 465-FN, SB 467-FN-A, SB 471, SB 472, SB 477, SB 482-FN, SB 488, SB 492-FN, SB 496-FN, SB 507, SB 521-FN, SB 528-FN-L, SB 531-FN, SB 534,FN, SB 539-FN-A, SB 549-FN-A, SB 551-FN, SB 558-FN, SB 574-FN,

ANNOUNCEMENTS

(The Chair recognized Senator Woodburn.)

SENATOR WOODBURN: Thank you, Mister President. In the spirit of last week's 300th anniversary of the New Hampshire State Library, I wanted to just recognize a few books that were written and published. There's one by our former colleague, Senator Wayne King, who has authored *Sacred Trust*, which is described in its introduction as a monkey-wrench gang meets third industrial revolutions. It's a fictional account of unlikely compatriots who tackle a power line project; and a great read, great interesting story, and thanks, Senator King, for bringing that to us.

And another one in my home area of the North Country town of Groveton, Jamie Sayen has written a book. *If You Had a Job for Life: Story of a Company Town*, which is an oral history of the town, the village of Groveton within the town of Northumberland and the mill that dominated, and has since come down, and it captures the story of the history of that place, and I would recommend it to all of you. Thank you, Mister President.

PRESIDENT MORSE: I just want to make sure that I congratulate Jeb and Karen, and look forward to using that Jeb and Karen term for a long time. Congratulations!

Without objection, all personal privileges and unanimous consent shall be entered into the permanent *Journal of the Senate.* (Rule 2-16 and Rule 2-17). Adopted.

SENATOR BRADLEY: Before I get to the motion, Mister Chairman, I want to thank Senator Woodburn for supplying food today. Senator Woodburn and I have discussed moving forward, a way of dealing with the food having the cafeteria downstairs supply us with food. I'm seeing a lot of heads nod. Kristy, our crack Chief of Staff, has estimated it will cost each of us somewhere between $65 and $70 for the rest of the session. Brother, do you like to eat? There's no free lunch. So, if anybody has a problem, please either see myself or Senator Woodburn, but I think that is what we want to do going forward. Alright, thank you Mister President. For your side, Senator Woodburn, for our side, me, okay, or Kristy. Does that work, Jeff? Okay.

LATE SESSION

Third Reading and Final Passage

HB 549-FN, relative to beverage vendor fees.
SB 63, relative to record management of abuse and neglect reports and establishing a pilot program regarding electronic storage of abuse and neglect records.
SB 240-FN-LOCAL, relative to the monitoring and treatment of contaminated wells.
SB 303, relative to a security freeze on a consumer's credit report.
SB 312, clarifying the New Hampshire Foundation Act.
SB 315, relative to the definitions of beverage and of mead.
SB 319, relative to exempt securities.
SB 339, relative to voting by zoning boards of adjustment.
SB 348, relative to senior-specific certifications or designations for securities broker-dealers.
SB 349, relative to course requirements in a career and technical education program.
SB 356, adding a representative from the community college system to the apprenticeship advisory council.
SB 372-FN-A, establishing positions in the office of professional licensure and certification and making an appropriation therefor.
SB 378-FN, relative to an exemption from the board of registration of medical technicians.
SB 382, relative to withdrawal from cooperative school districts.
SB 386, relative to access to criminal records.
SB 387-FN, relative to liability of governmental units.
SB 393, relative to county audits and performance audits.
SB 402, naming a portion of route 110 in Berlin in honor of Anthony B. Urban.
SB 428, relative to the payment of weekly and biweekly wages.
SB 444, relative to cutting timber near certain waters and public highways.

SB 445, designating the Warner River as a protected river.
SB 448, establishing a commission to study the establishment of a state department of energy.
SB 471, relative to the authority of municipalities to address potential natural threats.
SB 477, establishing a therapeutic cannabis medical oversight board.
SB 482-FN, relative to confidential emergency medical and trauma services data.
SB 488, relative to licensure of health care professionals employed at the Manchester Veterans Affairs Medical Center.
SB 496-FN, relative to mediation for certain child support arrearages.
SB 507, proclaiming June as post-traumatic stress injury (PTSI) awareness month.
SB 539-FN-A, making appropriations to the department of education for adequate education grants.
SB 549-FN-A, relative to plans of safe care for infants affected by substance abuse or withdrawal symptoms from prenatal drug exposure or fetal alcohol spectrum disorder.
SB 574-FN, clarifying the repayment period for parental reimbursement.

MOTION TO RECESS TO CALL OF THE CHAIR

Senator Bradley moved that the business of the day being completed, that the Senate recess to the Call of the Chair for the purposes of introducing legislation, referring bills to committee, scheduling hearings, sending and receiving messages, and processing enrolled bill reports and amendments and when we recess, we recess to the Call of the Chair.

Adopted. The Senate is in recess to the Call of the Chair.

HOUSE MESSAGE

The House of Representatives has referred for Interim Study the following entitled Bills sent down from the Senate:

SB 205-FN-A, establishing the small business jobs fund and tax credit.

HOUSE MESSAGE

The House of Representatives has passed Bills with the following titles, in the passage of which it asks the concurrence of the Senate:

HB 587-FN, relative to conversion therapy seeking to change a person's sexual orientation.
HB 1202-LOCAL, relative to town revolving funds for group net metering.
HB 1251, relative to indicia for payment of taxes on the transfer of real property.
HB 1256, relative to decal fees for multi-use veterans decal plates.
HB 1260, relative to the payout value of bingo games at private campgrounds and hotels.
HB 1276, adding an exemption for certain raffles conducted by charitable organizations.
HB 1292, relative to the effective dates of changes to the rates for the business profits tax and the business enterprise tax.
HB 1322, relative to risk-based capital for health maintenance organizations.
HB 1332, allowing warrant articles to be split by the deliberative session.
HB 1334, establishing a commission to review the structure of motor vehicle laws.
HB 1346, establishing a commission to study the New Hampshire veterans cemetery.

HB 1349, relative to biological products and diagnostic reagents for animal use.
HB 1357, relative to the delivery of articles to a prisoner in a state or county correctional facility.
HB 1364, relative to use of amber lights on vehicles.
HB 1370, relative to a school's emergency management plan.
HB 1392, relative to tallies of votes on budget items or warrant articles.
HB 1402, relative to ordinances regarding forestry activities.
HB 1407, repealing the prohibition on the use of milk containers.
HB 1455, relative to vehicle operation at uncontrolled intersections.
HB 1509-FN, authorizing Granite Pathways to issue decals for multi-use decal number plates.
HB 1513-FN, authorizing the New Hampshire Law Enforcement Officers Memorial Association to issue decals for multi-use decal plates.
HB 1518, repealing the requirement that motor vehicle lighting and safety equipment be approved by the director of the division of motor vehicles.
HB 1537, relative to a second opinion on health care matters for state or county prisoners.
HB 1538-FN, authorizing Friends of the Hampton Falls Bandstand, Inc. to issue decals for multi-use decal plates.
HB 1546-FN, authorizing Seacoast Youth Services to issue decals for multi-use decal plates.
HB 1551, relative to the retention of records of individualized education programs.
HB 1564-FN, relative to sexual assault of a victim who is incarcerated in a correctional institution by a person with supervisory or disciplinary authority over the victim.
HB 1614, relative to the international registration plan.
HB 1651, establishing a committee to study the use of liquid de-icers on roads.
HB 1675, relative to state house Internet service and relative to calendars and journals of the house and senate.
HB 1731-FN, relative to regulating bicycles.
HB 1739-FN, prohibiting female genital mutilation.
HB 1785, changing "hearing impaired" to "deaf" or "hard of hearing" in the New Hampshire laws.
HJR 5, that the New Hampshire house of representatives and senate reject hate, bigotry, and violence in all their forms.

INTRODUCTION OF LEGISLATION

Senator Bradley offered the following Resolution:

RESOLVED, That in accordance with the list in the possession of the Senate Clerk, the following legislation shall be by this Resolution read a first and second time by the therein listed title and referred to the therein designated committee. Adopted.

First and Second Reading and Referral

HB 101-FN, relative to certification for solid waste operators. (Energy and Natural Resources)
HB 134-FN, relative to causes for divorce. (Judiciary)
HB 135, relative to the submission of evidence prior to hearings in divorce cases. (Judiciary)
HB 169-FN, relative to limits on wagers in charitable games of chance. (Ways and Means)
HB 252, relative to pro se litigants under the right-to-know law. (Judiciary)

HB 263, relative to facilities licenses for charitable gaming. (Ways and Means)
HB 267, establishing the New Hampshire transportation council. (Transportation)
HB 287, establishing a committee to study decriminalizing sex work. (Judiciary)
HB 298, relative to licensing requirements for apprentice plumbers. (Executive Departments and Administration)
HB 314, relative to autonomous vehicles. (Transportation)
HB 317, prohibiting the public utilities commission from increasing the system benefits charge without legislative approval. (Energy and Natural Resources)
HB 410, relative to the legislative youth advisory council. (Executive Departments and Administration)
HB 485-FN, relative to standards for emerging contaminants in drinking water. (Executive Departments and Administration)
HB 492, relative to electric personal assistive mobility devices. (Transportation)
HB 500, relative to organizations that are authorized to issue decals. (Transportation)
HB 523, establishing a committee to study the use and regulation of biometric information. (Commerce)

REPORT OF COMMITTEE ON ENROLLED BILLS

The committee on Enrolled Bills has examined and found correctly Enrolled the following entitled House and/or Senate Bills:

SB 48, establishing a commission to study the efficiency and effectiveness of fish and game department operations.
SB 132, relative to historic burial grounds and cemeteries.
SB 247-FN-A, preventing childhood lead poisoning from paint and water.

Senator Avard moved adoption of the Report of Committee on Enrolled Bills. Adopted.

Out of Recess. Call the Senate to Order.

MOTION TO ADJOURN FROM LATE SESSION

Senator Bradley moved that the Senate adjourn from the Late Session.

Adopted. Adjournment from the Late Session.

February 15, 2018

The Senate reconvened at 10:00 a.m., a quorum being present.

The Reverend Jason Wells, chaplain to the Senate, offered the following meditative thoughts and prayer:

Donald Knuth wrote his life's work starting in 1962. That life's work was called The Art of Computer Programming. Since then he has written three volumes and is now still working on volume four. Of course, we know computers changed a lot since 1962. It's amazing that he has books that are a standard reference for computer programmers even when the books were first written fifty-five years ago. When that pace of change is so fast, how does Donald Knuth stay on top of it? He doesn't. He refuses to stay on top of everything. He acknowledges that his role in life is not to be on top of things, but his job is to be on the bottom of things. That

is when the change of pace is fast, when the deadlines are short and frequent, we make an effort to slow down. We find the things that don't change. We find the values that endure, the truths that are fundamental and timeless. We prefer not to be on top of everything, but down on the bottom of things.

Before I move into my closing prayer and move on, as you all move on to the State of the State Address I hope to bring forth just a moment of silence and reflection–that's usually the way to get to the bottom of things, is by stopping and listening to God. Of course, a moment of silence for Senator Sam Cataldo, who was buried last week. I enjoyed having him as one of the Senators who every time I came here I knew he would bring me a prayer request for something, and I will always remember him for his connection in that way. But, of course, we also hold out a moment of silence as we listen to God, once again, as we listen out of our grief for the events in the shooting in Florida yesterday. And we hope to hear from the God of those fundamental truths and values the directions God would have us take, and the choices we ought to take at this moment.

Let us pray.

Eternal God, for whom a thousand years in your sight are like a day when it is past, as we move into the State of the State Address, as we fly through hearings and deadlines toward crossover day, keep us deeply rooted in our values, that we stay honest with ourselves, that we speak to each other on the deep level of the heart, and to find for ourselves, for our state, for our nation, and the world, that we find for ourselves true peace. Amen.

Senator Watters led the Pledge of Allegiance.

INTRODUCTION OF PAGES

(The Chair recognized Senator Avard.)

SENATOR AVARD: Thank you, Mister President. I'd like to introduce one of our pages, Jacqueline Hale. How are you? Welcome. You're seventeen years old, you're from Brookline, New Hampshire and attend the Hollis-Brookline High School and your favorite subject is social studies. Good for you; mine too. Your extracurricular activities are field hockey, coaching basketball, theater, vocal performance which is akin to my heart, baby sitting, Red Cross Club and photography. Welcome.

We have another page here, Gabi or Gabrielle Frugard and she's eighteen years old, she's in the twelfth grade and her hometown is Brookline, her school is of course Hollis-Brookline High School. Her favorite subject is literature and her extracurricular activities is Red Cross Club and she's the president, field hockey player and she works at the You You Japanese Restaurant, if you like sushi, that's the place to go in Nashua.

HOUSE MESSAGE

The House of Representatives is ready to meet with the honorable Senate in Joint Convention for the purpose of hearing the State of the State Address by his Excellency, Governor Sununu.

Senator Bradley offered the following Resolution:

RESOLVED that the Senate is ready to meet with the honorable House of Representatives in Joint Convention for the purpose of hearing the State of the State Address by his Excellency, Governor Chris Sununu. Adopted.

Recess to meet in Joint Convention. Out of recess.

SPECIAL ORDER

Without objection, the following bills are special ordered to Thursday, February 22, 2018. Adopted.

EDUCATION
SB 431, relative to non-academic surveys required to be filed by school districts to maintain federal funding.

EXECUTIVE DEPARTMENTS AND ADMINISTRATION
SB 570-FN, relative to the work requirement for the child care scholarship program.

FN REPORT FOR FEBRUARY 15, 2018

Senator Daniels recommends the waiver of referral to the Finance Committee, Senate Rule 4-5, for the following bills with a fiscal note or an appropriation of funds:

CONSENT CALENDAR:

COMMERCE
SB 414-FN, establishing a condominium dispute resolution board.

HEALTH AND HUMAN SERVICES
SB 550-FN, relative to drop in or walk in clinics.

REGULAR CALENDAR:

ELECTION LAW AND INTERNAL AFFAIRS
SB 440-FN, relative to prohibited political contributions.

EXECUTIVE DEPARTMENTS AND ADMINISTRATION
SB 536-FN, relative to eligibility for death benefits for court security officers.
SB 570-FN, relative to the work requirement for the child care scholarship program.

HEALTH AND HUMAN SERVICES
SB 545-FN, increasing the age for sales and possession of tobacco products.
SB 552-FN, relative to transportation of trauma victims by first responders.

PUBLIC AND MUNICIPAL AFFAIRS
SB 504-FN, relative to sales of tax-deeded property.

Senator Daniels recommends the following bills be ordered to the Finance Committee upon being found Ought to Pass/Ought to Pass with Amendment:

CONSENT CALENDAR:

COMMERCE
SB 353-FN, relative to direct shippers of alcohol—if Inexpedient to Legislate recommendation is overturned.

EDUCATION
SB 432-FN-L, relative to an elective course in SAT preparation—if Inexpedient to Legislate recommendation is overturned.

ENERGY AND NATURAL RESOURCES
SB 529-FN, authorizing river maintenance in the town of Warren.

EXECUTIVE DEPARTMENTS AND ADMINISTRATION
SB 538-FN, including police officers of the capital area police unit in group II of the retirement system.

REGULAR CALENDAR:

COMMERCE
SB 352-FN, relative to examinations of injured employees under workers' compensation law.
SB 554-FN, relative to the minimum hourly rate and employer-sponsored health benefits—if Inexpedient to Legislate recommendation is overturned.

ENERGY AND NATURAL RESOURCES
SB 450-FN-A, establishing an advisory commission for the department of environmental services relative to the delegation of authority of the National Pollutant Discharge Elimination System Program.

EXECUTIVE DEPARTMENTS AND ADMINISTRATION
SB 533-FN, relative to the composition and compensation of the personnel appeals board.
SB 535-FN, relative to licensure for the practice of professional art therapy.
SB 578-FN, relative to unclassified positions within the department of health and human services.

HEALTH AND HUMAN SERVICES
SB 573-FN-A, relative to the controlled drug prescription health and safety program and making an appropriation therefor.

Without objection, the FN Report is adopted.

CONSENT CALENDAR REPORTS REMOVED

COMMERCE
SB 353-FN, by Senator Morse

EDUCATION
SB 357, by Senator Daniels
SB 432-FN-L, by Senator Gannon

HEALTH AND HUMAN SERVICES
SB 474, by Senator Bradley

CONSENT CALENDAR

Senator Bradley moved that the Consent Calendar, with the relevant amendments as printed in the day's Calendar be adopted and that all such bills found Ought-to-Pass be ordered as follows:

FN bills not waived under Senate Rule 4-5, to the Committee on Finance; non-FN bills approved for referral to Finance by the day's FN report, to the Committee on Finance; and all other bills, to Third Reading.

COMMERCE
SB 311, clarifying rules of construction under the New Hampshire Trust Code.
Ought to Pass, Vote 5-0. Senator French for the committee.

> The current wills chapter provides that children and their descendants who were inadvertently omitted from a will would receive the same share of the estate as if there had never been a will. This bill would amend the wills chapter to make it clear it was never intended to apply to trusts. Wills that are intended to disinherit children are carefully drafted with specific language to avoid any question of inadvertent omission. This clarifies the statute which has been practice for many years.

SB 414-FN, establishing a condominium dispute resolution board.
Interim Study, Vote 5-0. Senator Innis for the committee.

This legislation would give condo owners and sometimes condo boards a chance to have their grievances heard without the cost of going to court. Although this bill is needed in a few cases, the committee felt that this bill needs further consideration and refinement and in its current form it may cause unintended consequences with the condo boards that are running smoothly.

SB 415, relative to condominium unit owners' special meetings.
Ought to Pass with Amendment, Vote 5-0. Senator Sanborn for the committee.

Currently 50% of ownership of a condo association is required to call for an informational meeting. This bill lowers that to 33% and allows the condo owners to request a special meeting. If a special meeting is held, the members can only change the membership of the board which would be stated on the notice of the special meeting.

Commerce
February 7, 2018
2018-0510s
10/05

Amendment to SB 415

Amend RSA 356-B:37, II as inserted by section 1 of the bill by replacing it with the following:

II. An association shall hold a special meeting of unit owners to address any matter affecting the unit owners or the association if its president, a majority of the board of directors, or unit owners having at least 33 percent, or any lower percentage specified in the bylaws, of the votes in the association request that the secretary call the meeting. If the association does not notify unit owners of a special meeting within 30 days after the requisite number or percentage of unit owners request the secretary to do so, the requesting members may directly notify all the unit owners of [~~an informational~~] ***the special*** meeting, the purpose of which shall be to present the issue to fellow residents and unit owners ***and to vote on the removal or replacement of one or more members of the board of directors as set forth in the meeting notice***. Only matters described in the meeting notice required by RSA 356-B:37-a may be considered at a special meeting.

2018-0510s

AMENDED ANALYSIS

This bill provides that requesting members of a condominium unit owners' association may give notice of a special meeting to vote on a duly noticed proposal, including the removal or replacement of a member of the board of directors.

SB 417, relative to days of rest for employees of recreation camps and youth skill camps.
Ought to Pass, Vote 5-0. Senator Innis for the committee.

This bill exempts employees of a recreation camp from the laws prohibiting Sunday work. Currently, the only way to work on Sunday is to apply for a waiver and this bill would allow these employees to work Sundays if they wish to do so. This is a small technical change to help our camp industry all across the state of NH.

EDUCATION
SB 359, relative to notice to school districts of out-of-home placements.

Ought to Pass with Amendment, Vote 5-0. Senator Kahn for the committee.

As amended, this bill requires the department of health and human services to notify a school district of a child's Out-of-Home Placement recommended by the department through an administrative process or initiated by the department through a juvenile court proceeding. Out-of-home placements includes instances of child protection, child delinquency or children in need of services cases. The department will notify the child's school district as soon as possible of development of a transition plan and will work with the school district on a change in placement that is consistent with the best interest of the child and assures the child's educational stability. Transition plans will reflect the objective of having the least disruption to the child's education. This amendment was developed by the department and reflects a consensus of stakeholders who provided testimony to the Committee.

Senate Education
February 6, 2018
2018-0487s
05/10

Amendment to SB 359

Amend the bill by replacing all after the enacting clause with the following:

1 Child Protection Act; Notice to School District of Out-of-Home Placement; Development of Transition Plan. Amend RSA 169-C:20-a to read as follows:

169-C:20-a Notice to School District of Out-of-Home Placement; ***Development of*** Transition Plan [~~Required~~].

I. If the department of health and human services recommends or initiates an out-of-home placement or a change in placement [~~that will result in a change of school assignment~~], whether within or out of the district, the department shall notify the school district as soon as possible ***of the change in placement and shall work with the school district to determine how, consistent with the best interest of the child, to assure the child's educational stability*** [~~to allow the school district to participate in the facilitation of a successful transition of the child from one school to the next~~].

II. ***When necessary to transition the child to a different school or school district,*** the department and school district shall develop a transition plan for the child. The objective of the plan shall be to minimize the number of placements for the child and to facilitate any change in placement or school assignment with the least [~~emotional and mental impact to the child~~] ***disruption to the child's education***. To the extent appropriate, the child may be involved in the formation of the plan.

2 New Section; Delinquent Children; Notice to School District of Out-of-Home Placement; Development of Transition Plan. Amend RSA 169-B by inserting after section 22 the following new section:

169-B:22-a Notice to School District of Out-of-Home Placement; Development of Transition Plan.

I. If the department of health and human services recommends or initiates an out-of-home placement or a change in placement, whether within or out of the district, the department shall notify the school dis-

trict as soon as possible of the change in placement and shall work with the school district to determine how, consistent with the best interest of the child, to assure the child's educational stability.

II. When necessary to transition the child to a different school or school district, the department and school district shall develop a transition plan for the child. The objective of the plan shall be to minimize the number of placements for the child and to facilitate any change in placement or school assignment with the least disruption to the child's education. To the extent appropriate, the child may be involved in the formation of the plan.

3 New Section; Children in Need of Services; Notice to School District of Out-of-Home Placement; Development of Transition Plan. Amend RSA 169-D by inserting after section 18-a the following new section:

169-D:18-b Notice to School District of Out-of-Home Placement; Development of Transition Plan.

I. If the department of health and human services recommends or initiates an out-of-home placement or a change in placement, whether within or out of the district, the department shall notify the school district as soon as possible of the change in placement and shall work with the school district to determine how, consistent with the best interest of the child, to assure the child's educational stability.

II. When necessary to transition the child to a different school or school district, the department and school district shall develop a transition plan for the child. The objective of the plan shall be to minimize the number of placements for the child and to facilitate any change in placement or school assignment with the least disruption to the child's education. To the extent appropriate, the child may be involved in the formation of the plan.

4 Effective Date. This act shall take effect 60 days after its passage.

2018-0487s

AMENDED ANALYSIS

This bill requires the department of health and human services to notify the child's school district of an out-of-home placement recommended or initiated by the department in a juvenile court proceeding.

SB 433, relative to the annual filing of statistical reports to the department of education.

Ought to Pass, Vote 5-0. Senator Kahn for the committee.

> This bill permits public education agencies to submit annual statistical reports to the Department of Education electronically. Currently, a written signature is required to submit such reports. Electronic submission would be an option available to public education agencies.

SB 434, relative to school nurse certification.

Ought to Pass with Amendment, Vote 5-0. Senator Watters for the committee.

> This bill makes certain requirements for school nurse certifications and sets out a process for the selection of school nurses. Largely, this bill corrects a drafting error from a policy adoption last session in order to give clarity to current law. The committee amended the legislation to make a further clarification, recommended by the department of education, in order to accommodate those who cannot meet the requirements for certification who have already been working in the field.

Senate Education
February 6, 2018

08/05

Amendment to SB 434

Amend RSA 200:29, IV as inserted by section 2 of the bill by replacing it with the following:

IV.(a) All school nurses hired on or before September 1, 2018 and having applied for certification by March 1, 2019 shall not be subject to the certification requirements listed in paragraph II but shall be required to hold certification pursuant to rules adopted by the state board of education.

(b) All school nurses hired after September 1, 2018 and before July 1, 2022 holding an associates' degree in nursing, and all nurses hired before September 1, 2018 who did not meet the application deadline in subparagraph (a), shall be enrolled in a registered nurse to bachelor of science, nursing program and shall complete such program within 6 years of the date of initial school nurse certification pursuant to rules adopted by the state board of education.

(c) All school nurses hired after the effective date of this paragraph holding a bachelor's degree or higher in nursing shall hold certification pursuant to rules adopted by the state board of education.

(d) All school nurses hired on or after July 1, 2022, shall meet the certification requirements listed in paragraph II pursuant to rules adopted by the state board of education.

Amend the bill by replacing section 3 with the following:

3 Effective Date. This act shall take effect upon its passage.

SB 435, relative to alternative programs for granting credit leading to graduation.
Ought to Pass with Amendment, Vote 5-0. Senator Ward for the committee.

This bill requires the state board of education to adopt rules for approving alternative programs for granting credits leading to graduation. This legislation will help to ensure that students who are participating in a program, such as a sport or musical activity, outside of class, may be able to receive credits towards graduation for participating in such programs.

06/04

Amendment to SB 435

Amend RSA 193-E:2-a, V(a) as inserted by section 1 of the bill by replacing it with the following:

V.***(a)*** The general court requires the state board of education and the department of education to institute procedures for maintaining, updating, improving, and refining the minimum standards for public school approval for each area of education identified in paragraph I. Each school district shall be responsible for maintaining, updating, improving, and refining curriculum. The curriculum shall present educational goals, broad pedagogical approaches and strategies for assisting students in the develop-

ment of the skills, competencies, and knowledge called for by the minimum standards for public school approval for each area of education identified in paragraph I. It is the responsibility of local teachers, administrators, and school boards to identify and implement approaches best suited for the students in their communities to acquire the skills and knowledge included in the curriculum, to determine the scope, organization, and sequence of course offerings, and to choose the methods of instruction, the activities, and the materials to be used.

SB 437, relative to the robotics education development program.
Ought to Pass with Amendment, Vote 5-0. Senator Giuda for the committee.

This bill adds eligibility criteria for grants to schools from the robotics education fund and also provides for additional grants in the event that funds remain in the fund after all initial requests have been met. The committee amended the bill to ensure that the program that the school seeks to participate in has demonstrated gains in students' STEM outcomes, as decided by the department of education.

Senate Education
February 6, 2018
2018-0492s
06/05

Amendment to SB 437

Amend RSA 188-E:24-a, II(c) as inserted by section 1 of the bill by replacing it with the following:

(c) That the program the school seeks to participate in has demonstrated gains in students' STEM outcomes as determined by the department of education.

Amend RSA 188-E:24-a, IV as inserted by section 1 of the bill by replacing it with the following:

[~~V~~] ***IV. Subject to the provisions of subparagraph V,*** no school shall receive more than one grant every 2 years, however, a school district may receive multiple grant awards.

Amend RSA 188-E:24-a, V(b) as inserted by section 1 of the bill by replacing it with the following:

(b) In the event that additional funds exist in the fund after all initial grant application requests have been met, the commissioner shall award schools additional grants for additional requested teams in accordance with subparagraph (a). If a school receives a grant for any additional teams, such grant shall be made at the same time as the grant for the initial team. In the event that a school received a grant or grants in the prior year and qualifies for an additional team or teams, such grant shall be made in the usual manner.

SB 441, relative to final grades in schools.
Ought to Pass, Vote 5-0. Senator Ward for the committee.

This bill provides that the state board of education shall require school districts to adopt a policy that a student's grade, as determined by his or her teacher, is final. This bill seeks to remedy situations in which a student's grade has been changed without informing the teacher on record.

SB 442, relative to surety indemnification requirements for private post-secondary career schools.

Ought to Pass, Vote 5-0. Senator Kahn for the committee.

This bill amends the surety bond required of private, postsecondary, career schools and establishes a procedure for license suspension. The current surety bond of 10 percent of gross tuition or a minimum of $10,000 is not sufficient to the range in of courses or programs offered at postsecondary career schools. Amending this law to an amount sufficient to reimburse the tuition of any student contract which cannot be fulfilled and a minimum of $10,000 strikes a balance between student protection and not creating undue hurdles for businesses that choose to operate in New Hampshire.

ELECTION LAW AND INTERNAL AFFAIRS
SB 320, relative to checklists used at elections.
Ought to Pass, Vote 5-0. Senator Gray for the committee.

This is a housekeeping bill to correct changes in the language of RSA 659:98 and 669:25 that referred to paragraphs no longer in existence. The bill also clarifies language in RSA 654:25 which had been misinterpreted.

ENERGY AND NATURAL RESOURCES
SB 366, relative to members of the site evaluation committee.
Ought to Pass with Amendment, Vote 5-0. Senator Bradley for the committee.

This bill changes certain requirements concerning membership on the Site Evaluation Committee and comes at the request of the Public Utilities Commission. SB 366 is meant to facilitate the workings of the SEC to adequately address its responsibilities, given the submission of complex applications and required hearings to get input from the general public. Currently, the SEC operates with a limited pool of public members to serve on the full committee and subcommittees. SB 366 will allow for a greater pool of public members to fill positions on committees.

Amendment to SB 366

Amend RSA 162-H:3, V as inserted by section 2 of the bill by replacing it with the following:

V. Seven members of the committee shall constitute a quorum for the purpose of conducting the committee's business.

Amend RSA 162-H:4-a, II as inserted by section 5 of the bill by replacing it with the following:

II. When considering the issuance of a certificate or a petition of jurisdiction, a subcommittee shall have no fewer than 7 members. [~~The 2~~] ***Two*** public members shall serve on each subcommittee with the remaining 5 or more members selected by the chairperson from among the state agency members of the committee. Each selected member may designate a senior administrative employee or staff attorney from his or her respective agency to sit in his or her place on the subcommittee. The chairperson shall designate one member or designee to be the presiding officer who shall be an attorney whenever possible. Five members of the subcommittee shall constitute a quorum for the purpose of conducting the subcommittee's business.

SB 529-FN, authorizing river maintenance in the town of Warren.
Ought to Pass with Amendment, Vote 5-0. Senator Innis for the committee.

This bill, as amended, requires the Department of Environmental Services to conduct a study to determine options and costs for a solution to the perennial damage caused by the Baker River in the town of Warren and makes an appropriation for such study. The bill allocates $1.00 to DES to conduct the study. This allocation is meant to be a placeholder until DES comes up with a cost estimate for the study and design.

Energy and Natural Resources

08/04

Amendment to SB 529-FN

Amend the title of the bill by replacing it with the following:

AN ACT requiring the department of environmental services to conduct a study regarding the Baker River in the town of Warren and making an appropriation for such study.

Amend the bill by replacing all after the enacting clause with the following:

1 Department of Environmental Services; Baker River Study. The department of environmental services shall conduct a study to determine options and costs for a permanent solution to the perennial damage caused by the Baker River in the town of Warren. The department of environmental services shall consult with the department of transportation, the fish and game department, and the department of natural and cultural resources on the design of such permanent solution.

2 Appropriation. The sum of $1 for the fiscal year ending June 30, 2019 is hereby appropriated to the department of environmental services for the purpose of the study required in section 1 of this act. This appropriation is in addition to any other funds appropriated to the department of environmental services. The governor is authorized to draw a warrant for said sum out of any money in the treasury not otherwise appropriated.

3 Effective Date. This act shall take effect July 1, 2018.

2018-0391s

AMENDED ANALYSIS

This bill requires the department of environmental services to conduct a study to determine options and costs for a solution to the perennial damage caused by the Baker River in the town of Warren and makes an appropriation for such study.

EXECUTIVE DEPARTMENTS AND ADMINISTRATION
SB 327, relative to the medical review subcommittee of the board of medicine and time limits for allegations of professional misconduct before the board.
Ought to Pass, Vote 5-0. Senator Cavanaugh for the committee.

The bill removes the requirement that a member of the medical review subcommittee be from the board of medicine and will reduce the time limitation for allegations of professional misconduct enforced by the board of medicine. The 5-year limitation period is in line with all boards under the Office of Professional Licensure and Certification.

SB 329, relative to inspections of county correctional facilities.
Inexpedient to Legislate, Vote 5-0. Senator Soucy for the committee.

This bill removes the requirement that the county commissioners make a written report to the attorney general after inspection of a county correctional facility. At the request of the prime sponsor this bill was Inexpedient to Legislate.

SB 374, relative to adoption of emergency medical and trauma services protocols.
Ought to Pass, Vote 5-0. Senator Gannon for the committee.

This bill exempts the adoption of emergency medical and trauma services protocols from the rulemaking process under RSA 541-A. This will assist in streamlining the protocol adoption process, while maintaining public and stakeholder input in the process, both informal and formal.

SB 456, relative to the appointment of the state medical director for emergency medical services.
Ought to Pass with Amendment, Vote 5-0. Senator Soucy for the committee.

This legislation as amended, requires the Commissioner of the Department of Safety to appoint, following consultation with the Emergency Medical Services Control Board, the state medical director for Emergency Medical Services. The legislation will allow the Bureau of Emergency Medical Services to explore alternatives to the volunteer state medical director position, which has been unchanged since the beginning of the Emergency Medical Services in New Hampshire, despite significant advancement and increasing demands pertaining to this role.

Senate Executive Departments and Administration

Amendment to SB 456

Amend RSA 153-A:7, II(c) as inserted by section 1 of the bill by replacing it with the following:

(c) Appoint, following consultation with the emergency medical services medical control board, the state medical director for emergency medical services, who shall be academically and technically qualified to hold the position.

SB 538-FN, including police officers of the capital area police unit in group II of the retirement system.
Ought to Pass with Amendment, Vote 5-0. Senator Carson for the committee.

The legislation clarifies the status of police officers of the Capital Area Police Unit and will include these officers in Group II of the New Hampshire Retirement System. These officers have the same responsibilities as other police officers. Their main focus is at the state office complex. The amendment was brought forward to clarify where their positions are located and was a request of the local police department.

Senate Executive Departments and Administration
February 7, 2018
2018-0521s
10/05

Amendment to SB 538-FN

Amend the title of the bill by replacing it with the following:

AN ACT including police officers of the state office complex police force in group II of the retirement system.

Amend the bill by replacing all after the enacting clause with the following:

1 Department of Safety; Duties of Commissioner; State Office Complex Police Force. Amend RSA 21-P:4, XI to read as follows:

XI. Have the discretion to grant to [~~security~~] ***police*** officers of the [~~New Hampshire hospital security force~~] ***state office complex police force*** such titles, ranks, and police powers as the commissioner deems necessary [~~up to and including that of ex officio constables~~] including the power of arrest for violations of the criminal and motor vehicle laws and the power to serve criminal process, and may limit such powers as deemed necessary. They shall have general police powers on the state office campus and New Hampshire hospital grounds and when [~~in hot pursuit of~~] ***attempting to apprehend*** a person who has committed a crime on the campus or escaped from the hospital, and when acting to transport a patient to or from the hospital, the court, or another mental health facility***, or when acting to transport to or from a police station or correctional facility***.

2 State Office Complex Police Force. Amend RSA 21-P:7-b to read as follows:

21-P:7-b [~~New Hampshire Hospital Security Force~~] ***State Office Complex Police Force.*** The commissioner of safety is authorized to organize a [~~hospital security force~~] ***state office complex police force*** for the purpose of patrolling the New Hampshire hospital's buildings, roads, and grounds of the campus of the state office park south and providing for general security on the campus. The [~~hospital security force~~] ***state office complex police force*** shall be under the immediate control of and responsible to the commissioner of safety or his or her designee.

3 Department of Safety; Memorandum of Understanding; State Office Complex Police Force. Amend RSA 21-P:7-c to read as follows:

21-P:7-c Authority of [~~Hospital Security Force~~] ***State Office Complex Police Force*** Officers; Memorandum of Understanding; Funding.

I. All [~~security~~] ***police*** officers of the [~~hospital security force~~] ***state office complex police force*** shall possess such police powers as are granted to them by the commissioner of safety pursuant to RSA 21-P:4, XI[~~. All officers of the hospital security force hired after the effective date of this paragraph shall be required to meet the training standards required generally of~~] ***and shall be fully certified as*** police [~~offers~~] ***officers*** by the police standards and training council pursuant to RSA 106-L [~~and~~]**.** In addition ***they*** shall receive additional training in dealing with persons with mental illness as specified by the commissioner of safety after consultation with the chief executive officer of the New Hampshire hospital.

II. The commissioner of the department of health and human services shall enter into a memorandum of understanding with the commissioner of safety for the purposes of delineating the functions, duties, and responsibilities of the department of safety in regard to the provision

of security and dispatch services to the New Hampshire hospital. The memorandum of understanding shall include, but not be limited to: responding to emergencies within New Hampshire hospital, maintaining the security of the hospital buildings, insuring the safety of patients, staff, and visitors, apprehending involuntarily committed persons who leave the hospital without authorization, accepting custody of involuntary admissions, transporting patients for medical, legal, and other purposes, investigating cases of abuse, neglect, sexual assault, and other criminal conduct, providing training, and conducting searches and seizures of contraband. In addition, the department of safety shall provide dispatch services including, but not limited to: monitoring hospital access between 8 p.m. and 8 a.m., operating and monitoring video security systems, receiving incoming communications, assessing the priority of the call and dispatching appropriate assistance, coordinating emergency preparedness procedures, receiving incoming fire calls and alarms, and operating the switchboard between 8 p.m. and 8 a.m. and at other times as needed.

III. Within the limits of funds budgeted for [~~hospital security force~~] ***state office complex police force*** positions, the department of health and human services shall maintain the funding for the [~~hospital security force~~] ***state office complex police force*** and pay the department of safety for providing these services.

4 New Subparagraph; Retirement System; Group II Permanent Policeman; State Office Complex Police Force Added. Amend RSA 100-A:1, VII by inserting after subparagraph (f) the following new subparagraph:

(g) A police officer of the state office complex police force who:

(1) Has the responsibilities granted by the commissioner of safety under RSA 21-P:4, XI;

(2) Has full general arrest powers;

(3) As a job requirement is fully certified as a full-time police officer by the New Hampshire police standards and training council; and

(4) As a job requirement meets all physical, mental, educational, and other qualifications for continuing certification as a full-time police officer as established by the police standards and training council.

5 Retirement System; Group II; Exclusion of Security Officers Deleted. Amend RSA 100-A:1, VII-a (b) to read as follows:

(b) Any bingo or lucky 7 inspector, [~~security officer appointed pursuant to RSA 21-P:7-b,~~] any juvenile probation and parole officer, or any person employed in the bureau of trails of the department of natural and cultural resources; or

6 Effective Date. This act shall take effect July 1, 2019.

2018-0521s

AMENDED ANALYSIS

This bill clarifies the status of police officers of the state office complex police force and includes such officers in group II of the New Hampshire retirement system.

HEALTH AND HUMAN SERVICES

SB 332, relative to medication synchronization.

Ought to Pass with Amendment, Vote 5-0. Senator Gray for the committee.

This bill would require insurance companies to offer prescription synchronization for the management of chronic conditions. Health care outcomes improve when patients are able to take their medi-

cation as prescribed and not miss doses. Allowing patients to synchronize their prescription refills will remove a large burden for patients, especially for patients with complex medical or mobility issues. The committee amendment clears up any concerns the insurance carriers had about how payment would be processed for the synchronization.

Health and Human Services
January 31, 2018
2018-0418s
01/04

Amendment to SB 332

Amend the bill by replacing all after the enacting clause with the following:

1 New Section; Medication Synchronization. Amend RSA 415 by inserting after section 26 the following new section:

415:27 Medication Synchronization.

I. An individual or group health insurance plan or policy providing prescription drug coverage in New Hampshire, shall permit and apply a prorated, daily cost-sharing rate to covered prescriptions for a chronic condition that are dispensed by an in-network pharmacy for less than a 30-day supply if the prescriber and pharmacist determine the fill or refill to be in the best interest of the patient for the management or treatment of a chronic, long-term care condition and the patient requests or agrees to less than a 30-day supply for the purpose of synchronizing the patient's medications. For the purposes of this paragraph, the insured's or enrollee's maintenance prescription drugs to be synchronized shall meet all of the following requirements:

(a) They are covered by the policy, certificate, or contract described in this chapter.

(b) They are used for the management and treatment of a chronic, long-term care condition and have authorized refills that remain available to the insured or enrollee.

(c) Except as otherwise provided in this paragraph, they are not a controlled substance included in schedules II-V.

(d) They meet all utilization management requirements specific to the maintenance-prescription drugs at the time of the request to synchronize the insured's or enrollee's multiple, maintenance-prescription drugs.

(e) They are of a formulation that can be effectively split over required short-fill periods to achieve synchronization.

(f) They do not have quantity limits or dose-optimization criteria or requirements that will be violated when synchronizing the insured's or enrollee's multiple, maintenance-prescription drugs.

II. The plan or policy described in paragraph I shall apply a prorated, daily cost-sharing rate for maintenance-prescription drugs that are dispensed by an in-network pharmacy for the purpose of synchronizing the insured's or enrollee's multiple, maintenance-prescription drugs.

III. The plan or policy described in paragraph I shall not reimburse or pay any dispensing fee that is prorated. The insurer shall only pay or reimburse a dispensing fee that is based on each maintenance-prescription drug dispensed.

IV. A synchronization shall only occur once per year per maintenance-prescription drug.

2 New Section; Medication Synchronization; Managed Care Plan. Amend RSA 420-J by inserting after section 18 the following new section:

420-J:19 Medication Synchronization.

I. An individual or group health insurance plan or policy providing prescription drug coverage in New Hampshire, shall permit and apply a prorated, daily cost-sharing rate to covered prescriptions for a chronic condition that are dispensed by an in-network pharmacy for less than a 30-day supply if the prescriber and pharmacist determine the fill or refill to be in the best interest of the patient for the management or treatment of a chronic, long-term care condition and the patient requests or agrees to less than a 30-day supply for the purpose of synchronizing the patient's medications. For the purposes of this paragraph, the insured's or enrollee's maintenance prescription drugs to be synchronized shall meet all of the following requirements:

(a) They are covered by the policy, certificate, or contract described in this chapter.

(b) They are used for the management and treatment of a chronic, long-term care condition and have authorized refills that remain available to the insured or enrollee.

(c) Except as otherwise provided in this paragraph, they are not a controlled substance included in schedules II-V.

(d) They meet all utilization management requirements specific to the maintenance-prescription drugs at the time of the request to synchronize the insured's or enrollee's multiple, maintenance-prescription drugs.

(e) They are of a formulation that can be effectively split over required short-fill periods to achieve synchronization.

(f) They do not have quantity limits or dose-optimization criteria or requirements that will be violated when synchronizing the insured's or enrollee's multiple, maintenance-prescription drugs.

II. The plan or policy described in paragraph I shall apply a prorated, daily cost-sharing rate for maintenance-prescription drugs that are dispensed by an in-network pharmacy for the purpose of synchronizing the insured's or enrollee's multiple, maintenance-prescription drugs.

III. The plan or policy described in paragraph I shall not reimburse or pay any dispensing fee that is prorated. The insurer shall only pay or reimburse a dispensing fee that is based on each maintenance-prescription drug dispensed.

IV. A synchronization shall only occur once per year per maintenance-prescription drug.

3 Effective Date. This act shall take effect January 1, 2019.

2018-0418s

AMENDED ANALYSIS

This bill requires insurers offering health insurance policies with prescription drug coverage to allow covered persons to synchronize the dispensing dates of their prescription drugs.

SB 379, relative to retroactive denials of previously paid claims.
Ought to Pass with Amendment, Vote 5-0. Senator Avard for the committee.

This bill would reduce the amount of time an insurance company can retroactively deny claims already paid to providers from 18 months to 12 months. Small provider offices struggle when insurance companies retroactively deny claims already paid and then ask for repayment or reduce payment on another claim. The committee recognized the need for insurance companies to have this ability but because of the increased need for providers, especially mental health and substance use treatment, a compromise was needed on the ability to retroactively deny claims and the ability for providers to be able to practice.

Health and Human Services
January 31, 2018
2018-0416s
01/05

Amendment to SB 379

Amend the bill by replacing sections 1 and 2 with the following:

1 Accident and Health Insurance; Retroactive Denials. Amend the introductory paragraph of RSA 415:6-i, II(b) to read as follows:

(b) The time which has elapsed since the date of payment of the challenged claim does not exceed [~~18~~] ***12*** months. The retroactive denial of a previously paid claim may be permitted beyond [~~18~~] ***12*** months from the date of payment only for the following reasons:

2 Managed Care Law; Retroactive Denials. Amend the introductory paragraph of RSA 420-J:8-b, II(b) to read as follows:

(b) The time which has elapsed since the date of payment of the challenged claim does not exceed [~~18~~] ***12*** months. The retroactive denial of a previously paid claim may be permitted beyond [~~18~~] ***12*** months from the date of payment only for the following reasons:

SB 476, establishing a committee to study reinstituting the unemployed parent program.
Ought to Pass with Amendment, Vote 5-0. Senator Fuller Clark for the committee.

This bill establishes a committee to study reinstating the unemployed parent program that provides access to the HHS division of family assistance work program, which is the only TANIF program available to two parent families that have suffered loss of income as a result of unemployment. This program was very successful before it was ended in 2011. Putting families back to work is essential in reducing the number of children in New Hampshire going to bed every night hungry. This bill was a recommendation from the commission to study childhood hunger.

Health and Human Services
February 7, 2018
2018-0516s
05/10

Amendment to SB 476

Amend subparagraph I(b) of section 2 of the bill by replacing it with the following:

(b) One member of the senate, appointed by the president of the senate.

Amend the bill by replacing section 4 with the following:

4 Chairperson; Quorum. The members of the study committee shall elect a chairperson from among the members. The first meeting of the committee shall be called by the senate member. The first meeting of the committee shall be held within 45 days of the effective date of this section. Three members of the committee shall constitute a quorum.

SB 481, establishing a committee to study the impact of pharmacy benefit manager operations on cost, administration, and distribution of prescription drugs.
Ought to Pass with Amendment, Vote 5-0. Senator Hennessey for the committee.

This bill establishes a committee to study the impact of pharmacy benefit manager operations on cost, administration, and distribution of prescription drugs. The role of the pharmacy benefit manager has evolved considerably since first appearing. It is important to make sure that the intended goals of PBMs are being met and that the industry is continuing to act in the best interest of the consumer.

Health and Human Services
February 7, 2018
2018-0511s
01/04

Amendment to SB 481

Amend subparagraph I(a) as inserted by section 3 of the bill by replacing it with the following:

(a) One member of the senate, appointed by the president of the senate.

Amend the bill by replacing paragraph I of section 4 with the following:

4 Duties. The committee shall:

I. Study the role pharmacy benefit managers (PBM) play in the cost, administration, and distribution of prescription drugs. The committee's study shall include, but not be limited to:

(a) The effects of PBMs on the overall costs of health insurers.

(b) PBMs use of "clawbacks" and "gag clauses" and the impact on consumer costs and rebates.

(c) The impact of PBMs with respect to retail pharmacy pricing decisions.

(d) A review of appropriate PBM oversight and the potential for such oversight to aid in lowering drug costs to consumers.

(e) A review of the potential differences in costs for insurers that use PBMs to manage pharmacy benefits and insurers that independently manage this benefit.

(f) Access to pharmacies.

SB 486, establishing a commission to study enhancing the prescription drug donation program.
Ought to Pass with Amendment, Vote 5-0. Senator Fuller Clark for the committee.

This bill establishes a commission to study enhancing the program of donating, accepting, and dispensing unused drugs established in RSA 318:58. The commission will convene all relevant stakeholders to determine how best to strengthen and expand this program. The board of pharmacy testified that they are ready to support the commission in providing whatever information they may need.

Health and Human Services
February 7, 2018
2018-0513s
01/06

Amendment to SB 486

Amend RSA 318:58-a, I(a) as inserted by section 1 of the bill by replacing it with the following:

(a) The members of the commission shall be as follows:

(1) One member of the senate, appointed by the president of the senate.

(2) Three members of the house of representatives, appointed by the speaker of the house of representatives.

(3) The commissioner of the department of health and human services, or designee.

(4) The executive director of the New Hampshire Pharmacists Association, or designee.

(5) The executive director of the New Hampshire Providers Association, or designee.

(6) The executive director of AARP New Hampshire, or designee.

(7) A member of the New Hampshire High Tech Council's Bio-Tech/MedTech Cluster, appointed by the council.

(8) A public member with experience providing access to affordable prescription drugs in under served communities, appointed by the governor.

SB 550-FN, relative to drop in or walk in clinics.
Interim Study, Vote 5-0. Senator Fuller Clark for the committee.

This bill would have removed the requirement for walk in clinics to receive a facility license from the department of health and human services. The committee agreed that the requirements to obtain a facility license are not onerous and that the facility license plays a part in ensuring safe healthcare delivery for all patients. Interim Study will allow stakeholders an opportunity to try and find a compromise on the issue.

The question is on the adoption of the Consent Calendar. Adopted.

REGULAR CALENDAR

COMMERCE
SB 316, relative to the regulation of online auctions.
Ought to Pass with Amendment, Vote 4-1. Senator French for the committee.

Commerce
February 7, 2018
2018-0507s
05/03

Amendment to SB 316

Amend the bill by replacing section 1 with the following:

1 New Paragraph; Auctioneers; Exceptions; Internet Auctions. Amend RSA 311-B:13 by inserting after paragraph V the following new paragraph:

VI. Any auction conducted over the Internet shall be exempt from the requirements of this chapter.

2018-0507s

AMENDED ANALYSIS

This bill exempts auctions conducted over the Internet from the requirements of RSA 311-B.

SENATOR FRENCH: Thank you, Mister President. I move Ought to Pass with Amendment on SB 316. For the record I am an auctioneer, I've been an auctioneer for forty years and licensed as such. I also sell online but I will be participating in this bill. This bill will codify in statute what already is common practice which will allow people to sell for others on online auctions. The Board of Auctioneers is under the jurisdiction of the secretary of state and he agrees with this legislation. So I ask that you support the committee recommendation of Ought to Pass with Amendment on SB 316. Thank you, Mister President.

The question is on the adoption of the Committee Amendment. Adopted.

(The Chair recognized Senator Fuller Clark.)

SENATOR FULLER CLARK: Thank you very much, President Morse. I rise in opposition to Ought to Pass on this legislation. I don't understand why we would be removing regulations from a key segment of the auctioneering industry in our state and putting those who just do live auctioneering at a disadvantage to those with regard to online because those auctioneers online don't have any obligations and we're exposing our consumers to great risk. And it is going to do away with appropriate licensure and consumer protection at a time when frankly we are seeing more and more auctions taking place online and we're not just talking about real estate auctions, we're talking about auctions, all different kinds of auctions and there's no way to be able to prevent scams or frauds or theft with regard to these online auctions if we pass this bill. Thank you.

(The Chair recognized Senator Sanborn.)

SENATOR SANBORN: Thank you, Mister President. I ask the body to support the Commerce Committee position on the bill of Ought to Pass as Amended. We have to remember that we just heard the Governor speak, the State of the State Address. Part of that State of the State address was New Hampshire is now one of the most heavily regulated states in America. We know that there are forty-two other states in this country that do not have any regulation or licensing required for auctioneers. Our opportunity to join the forty-two states and recognize that we are overregulating the businesses and individuals in the state is an important one. So I ask that the body support the motion of Ought to Pass with Amendment. Thank you, Mister President.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to Third Reading.

SB 352-FN, relative to examinations of injured employees under workers' compensation law.
Ought to Pass, Vote 3-2. Senator Soucy for the committee.

Recess. Out of recess.

SENATOR SOUCY: Thank you, Mister President. Mister President, I rise on behalf of the Commerce Committee in support of Senate Bill 352. This bill would allow workers who are covered under workers' compensation to seek an independent medical exam when the worker is dissatisfied with the employer or employers' carriers' provider determination. This bill, contrary to some of the concerns that has been raised, has nothing to do with medical treatment. Medical treatment remains the same. This is specifically in the case of when an employee has had an independent medical examination, a specific determination has been made. This is end of treatment, this is when a decision has been rendered that that worker would then be allowed to seek an independent medical exam. Essentially the legislation creates parity; parity within a system where many people both on the employer and employees side came together decades ago to come up with our workers' compensation system, to set clear guidelines and clear rules. Since that time some insurance carriers and products have changed, this further clarifies that if you have access to insurance that is not under a managed care program you would have the same access to an IME as others would. Thank you, I'm losing my breath. So I would ask on behalf of the Commerce Committee that you vote Ought to Pass. Thank you, Mister President.

(The Chair recognized Senator Sanborn.)

SENATOR SANBORN: Thank you, Mister President. Mister President, I rise and ask the body to vote against the Ought to Pass motion so I can introduce a second motion. And I appreciate the comments from my colleague in Senate District 18. We have to understand and remember there are two parts of workers' comp. Workers' comp was established to support both workers and the business community if someone got hurt on the job, that they would have no cost for their injury. Over time the workers' comp program actually established and expanded to essentially a two part program, where there is a first part about ensuring that that injured employee seeks and obtains the medical care that they need for their injury and over time we've established a second benefit of long term indemnity payments, disability payments that if an employee as a result of their injuries has long term or can make their case or their doctor can make their case that their injury has long term systemic challenges that they're able to receive up to 85 percent of their gross pay what could be for life.

We know when this program came it was an added benefit to people to be there for them, making sure they get the help if they're injured, and then the question is, is their injury long term and debilitating. As my colleague has indicated, this is not about the first half; this is not about the first half that if someone gets hurt they go to a doctor, they get the care that they need. What the independent medical exam is about is determining whether or not that person has a long term systemic injury. So what this bill looks to do is to allow someone who if they don't like what their doctor says, go find another doctor who might change their opinion or provide a different medical outcome at the expense of the business community. Now we know Mister President, there's essentially one a day at this point under the workers' comp program, one a day, where people are going for an IME. We have to be very careful that, remember these are already independent in the first case so if someone is just unhappy with what that doctor says, allowing or beginning a system that will allow people to go in search of other medical opinions to lead to a potential other outcome might be a step too far. So Mister President, again I'd ask that the body reject the Ought to Pass motion so I could make a subsequent motion. Thank you very much.

(The Chair recognized Senator Soucy.)

SENATOR SOUCY: If I may speak for a second time Mister President, just to clarify once again; this isn't the treating physician. This is the independent medical exam. Under the current law if you're covered by managed care and a determination is rendered as the result of an independent medical examination, you have an opportunity to seek a second exam. The law's very clear about that. What you don't get to do is if you're not covered by a managed care system, you don't get to shop around. The independent medical exam has already occurred. You would, like the folks who are covered by managed care, get that second opinion. What happens now when they don't is that frequently they're not able to make their case. This is a parity situation, this doesn't increase the number of claims, this doesn't increase the number of injured workers, what this says is that once you've reached the point of determination, if you have one type of insurance you're entitled to an independent medical exam, if you have another type you're not. You can get it, but you have to get it at your own expense. That's not fairness, this bill is to affect a discrete

group of people and to create parity within our existing process. Simple as that, parity whether or not you have a managed care program or you're covered by another type of insurance. Thank you, Mister President.

(The Chair recognized Senator Sanborn.)

SENATOR SANBORN: Thank you, Mister President. I rise to, I apologize I didn't provide and for the record as an employer I do carry workers' comp insurance for my employees so I may or may not have a conflict under ethics laws I'm still participating. We have to remember when you start looking at the expenses coming out of the workers' comp system that as of today there's actually been an inversion where only 40 percent of the payments today are actually for medical expenses and 60 percent are the payments made out every year at this point on a workers' comp are actually for long term indemnity payments. We also know that there is a difference between someone under Medicaid or a managed care that doesn't have that ability to pick their doctor and what we're talking about in this subject matter here, where employees actually have the ability to pick their doctor or in this case are looking for a second opinion, again at the expense of the business community. So again my colleagues I'd ask that you reject the Ought to Pass motion so we can make a subsequent motion. Thank you, Mister President.

The question is on the adoption of the motion of Ought to Pass.

A roll call was requested by Senator Sanborn, seconded by Senator Avard.

The following Senators voted Yes: Woodburn, Watters, Hennessey, Kahn, Lasky, Feltes, Cavanaugh, Soucy, D'Allesandro, Fuller Clark.

The following Senators voted No: Giuda, Bradley, Gray, French, Ward, Sanborn, Daniels, Avard, Carson, Reagan, Birdsell, Gannon, Innis, Morse.

Roll Call, Yeas: 10 - Nays: 14. Failed.

Senator Sanborn moved Inexpedient to Legislate.

(The Chair recognized Senator Carson.)

SENATOR CARSON: Thank you, Mister President. I rise to ask the body not to vote ITL. I believe that there should be an alternative motion here. I know that I have questions, questions that were raised during the debate and I believe perhaps a motion of Interim Study might be more appropriate here to answer the questions because if there truly is not equality and parity between these two systems, I really think that we should take a look at it and decide what we need to do in order to ensure that. Thank you very much, Mister President.

Senator Sanborn withdrew Inexpedient to Legislate.

Senator Sanborn moved Refer to Interim Study.

A roll call was requested by Senator Avard, seconded by Senator Sanborn.

The following Senators voted Yes: Woodburn, Bradley, Watters, Hennessey, Gray, French, Ward, Kahn, Daniels, Avard, Lasky, Carson, Feltes, Cavanaugh, Reagan, Soucy, Birdsell, D'Allesandro, Fuller Clark, Gannon, Innis, Morse.

The following Senators voted No: Giuda, Sanborn.

Roll Call, Yeas: 22 - Nays: 2. Adopted.

SB 416, relative to transportation network company drivers.
Ought to Pass, Vote 3-2. Senator Innis for the committee.

SENATOR INNIS: Thank you, Mister President. I move Ought to Pass on Senate Bill 416. This legislation is intended to create certainty as to the classification of individuals who use transportation network company digital platforms to transport customers. The bill creates a presumption that a TNC driver is an independent contractor if all five criteria laid out in the bill are met. It also provides guidance to our state agencies without removing their authority to investigate all cases and enforce the employment law of our state. From the ride sharing drivers perspective it further spells out their employment status and continues to afford them the freedom and flexibility to pick and choose their own hours and ride sharing platforms, something the overwhelming majority of drivers surveyed indicate is very important to them is picking their own hours and choosing a particular platform at one time or another and drivers often switch between Lyft and Uber and others. New Hampshire consumers have made it loud and clear, they want ride sharing services and this legislation will help add clarity and certainty for both regulators and the industry in our laws and encourage continued growth of this business. Please vote Ought to Pass on Senate Bill 416 to create TNC drivers as independent contractors. Thank you, Mister President.

(The Chair recognized Senator Feltes.)

SENATOR FELTES: Thank you very much, Mister President. Mister President, I rise in opposition of Ought to Pass on this piece of legislation. For those who were here a couple of years ago, my good friend from District 18 and others worked in a bipartisan way to establish the regulatory framework for ride sharing. Part of that debate and discussion as my friend from District 18 and 19 will remember, was a conversation about independent contractor status. It was expressly left out of that bill. And subsequent to passing this a couple of years ago and working in a bipartisan way, ride sharing has ballooned throughout our state. It's thriving, it's a thriving part of our economy in Manchester and Concord and around the state. So the notion that this particular piece of legislation is necessary is just not true. We put in place, working in a bipartisan way, a business friendly framework to allow ride sharing to exist and it's ballooned in a big way. So what does this do? This creates a special exemption for a particular type of industry from our independent contractor statutes. We already have a misclassification problem Mister President, in the state of New Hampshire with respect to misclassifying people independent contractors when they're actually employees and as a consequence those folks, when they get injured they don't have workers' comp, those folks when they lose their job they don't have unemployment insurance, those folks don't have the kind of rights that should exist for people who are employees. So why not allow as is the law today, a case by case evaluation of whether or not these drivers are independent contractors, of whether or not those specific drivers are employees? That's it; that's the existing law. But it seems as though people just want to change the law, change the rules of the game and call everybody de facto independent contractors. Why not play by the same set of rules every other industry plays by? That's what this is about. And I don't think it's fair to change the rules for one specific industry. So respectfully, I would encourage us to vote down Ought to Pass.

(The Chair recognized Senator Sanborn.)

SENATOR SANBORN: Thank you, Mister President. Mister President I rise and ask the body to support the Senator from District 24's position of Ought to Pass on this. And many of us were here during the ride sharing

bill that went on and we do understand that classification of employees was left out so here we are today trying to fix that, as one would think that we would. So as I heard my colleague from District number 15 say ride sharing is booming, I think his words were it's ballooning and it's thriving, because yes that's what the free market actually does, it allows for businesses to come to our state to balloon, to thrive and be successful. Now the question is whether or not someone should be an indentured employee of an organization or whether they're not; are they a subcontractor or are they working for themselves. So in this case we have to remember that people in ride sharing organizations are driving their own car, not a company car, not something from the ride sharing organizations, they're driving their own car. They're setting their own hours, no ride sharing corporation comes in and says you have to work this time to this time, this day to this day. You can set your own hours. You make the decision where you want to drive your car offering your service. I, for the record, have friends who actually participate in this. Some days they roll out of bed and say I'm going to go to Boston today and set up my shop in Boston. Other days they say let's go to Portsmouth. There are other ride sharing people that say I'm going to participate in many ride sharing organizations, there are several of them that are available today, I'm going to go out and put my shingle on my car for several of them. Now does that sound like someone's an employee, or does that sound like someone who's running their small business for themselves? Mister President, I would submit to you that that sounds like people who are actually running their own small business for themselves and we should recognize the fact, as this law does, that we are baking in the legislation that these truly are not employees but independent contractors. So I'd ask that the body support the legislation and the recommendation of the Commerce Committee. Thank you, Mister President.

(The Chair recognized Senator Fuller Clark.)

SENATOR FULLER CLARK: Thank you very much. I would encourage you to overrule the Ought to Pass. I too was involved in the ride sharing negotiations several years ago. This issue of employee versus independent contractor was not left out, it was part of the agreement that was made moving forward to put the laws on the books that we have today. And I would ask others here, we know that such entities like Lyft and Uber, they provide insurance for their employees, they provide certain protections for the people who drive for them. They've been willing and agreed to do that if they suddenly become independent employees there are many protections that are going to be lost if they become independent contractors as opposed to employees. So I'm disheartened that we would sit at the table; that we spent many hours we would hammer out a compromise and now we see a bill coming forward that flies in the face of that compromise.

The question is on the adoption of the motion of Ought to Pass.

A roll call was requested by Senator Sanborn, seconded by Senator French.

The following Senators voted Yes: Giuda, Bradley, Gray, French, Ward, Sanborn, Daniels, Avard, Carson, Reagan, Birdsell, Gannon, Innis, Morse.

The following Senators voted No: Woodburn, Watters, Hennessey, Kahn, Lasky, Feltes, Cavanaugh, Soucy, D'Allesandro, Fuller Clark.

Roll Call, Yeas: 14 - Nays: 10. Adopted, bill ordered to Third Reading.

ANNOUNCEMENTS

PRESIDENT MORSE: For the Senators, we recently lost one of our former colleagues, Senator Sam Cataldo, and Cheryl has come here, now, to join us. I have a few words, but when I finish if any of the Senators want to say something I'm sure it will be appreciated.

Sam passed suddenly on the morning of February 3, 2018 in Farmington. He was a young 80 year old active man touching the lives of many with numerous involvements in the public eye for countless years. He was born in 1937 in Lawrence, Massachusetts; graduated from Central Catholic in Lawrence in 1956. He enlisted in the United States Air Force on June 29, 1956. He had a varied and extensive career. His work history included research and development for Avco; technical writer for Raytheon; private contractor for Seabrook Nuclear Power Plant; owner of Cristy's Beachway Pizza; cemetery superintendent at Saint Mary's in Lawrence, Massachusetts; computer instructor; Cessna Pilot; multi-engine land of 8,000 hours; decontamination project manager; nuclear trainee consultant; nuclear sight superintendent. He served on countless committees, and was a supporter of many programs; a member of the Knights of Columbus; a member of the Sons of Italy; supporter of a veteran's kid; lifetime member of the NRA; advisor to the New Hampshire Health and Human Service Radiological Assessment Team; member of the Strafford County Delegation; a member of the Nursing Home subcommittee; New Hampshire GOP delegate; treasurer of Strafford County Republican Committee; Budget Committee in Farmington; 2009 Norris Cotton award recognition of service in the Republican Party; Chairman to the Radio Frequency Identification Commission; Uses of Biodiesel for Home Heating and Renewable Energy; commission member of New Hampshire Estuaries Project in the Great Bay; study committee member for Low Income Assistance Program; Hazardous Material Program for New Hampshire; statutory committee for New Hampshire Automated Information Systems Board; Nuclear Waste Policy Advisory Board; Gas Utility Reconstruction Oversight; Telecommunications Oversight Committee; and original author and sponsor of establishing a geothermal project for the state of New Hampshire.

Many of you knew Sam and remembered him fondly. I'd like to share just a few things that have been said about him. Senator D'Allesandro, you said Sam was one of a kind, and a dedicated public servant. Senator Reagan, who shared an office with Senator Cataldo at the State House for years, recalled godfather like jabs in an interview with the *Concord Monitor*. He always said he was Sicilian, and joked that you shouldn't mess with him.

Senator Cataldo retired from the Senate in 2016 to be able to spend time with his family. He wrote this: "I have had the utmost pleasure of serving my constituents in District 6 as a state Senator. I am thankful for all the support I have received throughout my time in the legislature. In all my professional careers and roles I have served in, being a state Senator has been the most rewarding work I have been able to do in my life".

I think we all share his deep admiration. He was a truly genuine, caring man, as well as a thoughtful and committed public servant. His love and concern for the state and his community was evident to his ongoing participation in public life, and his service and personality will surely be missed by many throughout the state. I wrote this, and Susan and I continue to share our thoughts and prayers as I know all of you do. Cheryl, I'm so sorry.

CHERYL CATALDO: Thank you.

(The Chair recognized Senator D'Allesandro.)

SENATOR D'ALLESANDRO: Thank you, Mister President, and very kind words, and well-spoken and well written, so thank you. Sammy was a good fellow, tutto Italiano, which was very important to me, and very important to him. There isn't anybody that would go to the hospital and have two knees replaced at the same time, but Sammy did it, and he was back here in that seat quickly. He was a one of a kind guy; a one of a kind guy. Now in my coaching days I coached against Lawrence Central Catholic when I was at Bishop Bradley High School in Manchester. And Sammy was there during the great days when Lawrence Central was a powerhouse. They did well in football, they did well in basketball, and he talked to me many times about his football playing days. So, we had something in common. But, you know, when we leave this earth we all say we wanted to make a difference. And, Sammy had a unique way, but he did make a difference and we enjoyed him. I think his constituents were well served. The tragedy of the loss is we all go too soon. You know, but you can't pick the time, and it is what it is. The tragedy is you leave a wonderful family behind, and they've got to carry on. So the legacy of Sam Cataldo is you and the family, la famiglia, as we used to say. Mille grazie. Thank you, Mister President.

(The Chair recognized Senator Bradley.)

SENATOR BRADLEY: Thank you very much. It was really interesting, Cheryl, to hear such a long list of accomplishments. We just knew Sam as Sam–one of the most decent, kind, caring, compassionate people ever to serve in this body. And, he loved you in ways that are unexpressible, always talked about you, and his legacy will live on through you.

(The Chair recognized Senator Carson.)

SENATOR CARSON: Thank you, Mister President. Cheryl, it was a true honor to be able to serve with your husband. I worked with him on a number of committees here in the Senate, and Sam was, probably, one of the strongest, most principled, and honorable men that I have served with. I think everyone here knows that when Sam made up his mind, that was it. Don't, don't, don't try to get him to change his mind it's just not going to happen. But, he was someone that we could all work with, we could depend on him, his word was good. And when he said something he meant it. And in today's political climate sometimes that just doesn't happen. So it really and truly was an honor to work with him. I think he set a tone, and he set an example for all of us to follow. He will surely be missed, not only by me, but I know members of this body as well as members of the public, because he stood for them, and that's what we're supposed to do is to stand for the people we represent. So, please accept my deepest condolences. He will be missed.

CHERYL CATALDO: Thank you to all of you. He respected every single one of you, no matter what side of the aisle you were on, and he talked about all of you with high regard. Right now I know he'd be extremely humble, honored, and saying what the heck are they doing. So, I thank all of you. I wish you all the best. Thank you so much for what you did for Sam; this was his life. I mean he slept, ate, and did everything for New Hampshire. This was him totally. And thank you.

PRESIDENT MORSE: I know there are several Senators that want to speak. We'll do it at the end of the session. Thank you, thank you, Cheryl.

CHERYL CATALDO: Thank you. Thank you to all of you, and I wish you all the best, and do well with New Hampshire.

SB 419, relative to votes by condominium unit owners.
Inexpedient to Legislate, Vote 3-2. Senator Sanborn for the committee.

Senator Bradley moved to Lay on the Table SB 419. Adopted.

SB 554-FN, relative to the minimum hourly rate and employer-sponsored health benefits.
Inexpedient to Legislate, Vote 3-2. Senator Innis for the committee.

SENATOR INNIS: Thank you, Mister President. I move Inexpedient to Legislate on Senate Bill 554. This bill establishes an hourly minimum rate for workers to be paid, based in part on whether or not the employer provides health benefits to its employees through an employer sponsored health plan. Minimum wage increases, when there's a market drive for it. This bill is not a market driven force to raise the minimum wage, it is a mandated increase. This works against the very principles of free markets. Most places in New Hampshire do not pay the minimum wage of 7.25 per hour, in fact they're paying $10 an hour and up and this bill is unnecessary and will result in New Hampshire jobs being lost and it will hurt business owners as well as the people that it's purported to help. Just as a quick example, I do own an inn in the state of New Hampshire and I do have employees, however I intend to participate in this particular bill. The Great Island Inn has one housekeeper. That housekeeper is paid $15 an hour plus tips. On June 1st the rate will go to 17.50 per hour. That's the rate that you have to pay in the seacoast of New Hampshire to get and keep good people. The minimum wage of $7.25 an hour is designed as a starting wage; it's a wage for low skilled people to get experience, it is a way for young people to enter into the workforce and start to build their resume and to learn along the way. It's very important that we recognize the incredible force of the free market, it is driving the minimum wage up effectively, well beyond some of the numbers that are proposed in this very bill. With that I ask that you please join me in voting Senate Bill 554 Inexpedient to Legislate. Thank you, Mister President.

(The Chair recognized Senator Soucy.)

SENATOR SOUCY: Thank you, Mister President. Mister President, I rise in opposition to the current motion. As many of you know this is an issue I feel very passionately about and have worked on for a number of years and will continue, continue in this fight to try and shed some light on what the plight is the minimum wage workers in our state. You know it's interesting having listened this morning across the hall when the Governor said, you know, we don't want to rely on Washington, we don't want to be like Washington. Well I would suggest to you that that's essentially what we do when it comes to the minimum wage. Majority of states in our union set a minimum wage. New Hampshire was one of the first states in the union to set a minimum wage and yet in 2011 we ceded that control to the Federal Government, to Washington D.C. If we complain about dysfunction then we should take a step today and set our own state minimum wage. There's no question I think whether you're in Portsmouth or Rye or whether you're in Pittsburg or whether you're in Manchester, $7.25 is not a livable wage or a sustainable wage. It's not a wage just for young people. There are working families who depend on an hourly wage, who work multiple jobs at a low hourly wage, who are, in fact, struggling, who, in fact, qualify for state assistance.

You know what this legislation does recognize though, is that not only do we need to set the wage and set it at a more meaningful level, more representative of what businesses are actually paying in this state, but that we also need to take into account that there are great employers who offer perhaps a lower hourly wage but couple that with a benefit, an employer sponsored health plan. And this legislation recognizes that in cases where someone was offering such a plan we would want them to get the benefit and recognize that should be coupled with what they would be paying for a wage.

It's interesting as well to note that in this past year, as of, actually as of January 1st of this year, eighteen states, eighteen have increased their minimum wage. Just look at what our neighboring states have done. Right now Massachusetts, $11 an hour, Vermont 10.50 an hour, Connecticut, Rhode Island, $10.10 an hour. That's their minimum. And we're a state that wants to attract workers, wants to be competitive, where's ours? We defer to the federal minimum wage, $7.25. That's not attractive, that's not a good policy statement in the state of New Hampshire.

When I talk to businesses in my district both large and small, they say that the greatest challenge they face is attracting workers, and there is nobody in, doesn't matter what industry that can find people for some of these low waged jobs, if they're paying below $10 an hour. So what is our fear in setting it? Now a few of you have said to me, you know you're right nobody really pays 7.25 we should increase it, but yet I can't get a dollar amount. Is there a dollar amount that some of you would be willing to increase it to? I'm more than willing to listen. If the schedule I've set is a little too aggressive, needs to be spaced out, I'm willing to work on that compromise. But what I'm not willing to stand for is the fact that New Hampshire, in all of New England and compared to most other states has the lowest wage. It's not right. The businesses that pay 7.25 an hour honestly to people who are trying to make ends meet, I think are looking for a government subsidy. Because you can't make ends meet and support yourself on that low a wage. This is a plight that I said I've been working on for a number of years and will continue to work on and as I said I remain more than willing to discuss the rate or the rate of acceleration of the rate, but what's unacceptable is to stay at the 7.25. With that, I thank you Mister President. I ask you to defeat this motion, and I would ask for a roll call. Thank you.

(The Chair recognized Senator Giuda.)

SENATOR GIUDA: Thank you, Mister President. I would submit that employees don't come to a company based on what the state's minimum wage is, they come to a company based on what the company's willing to pay. I have never had an employee in my small business that asked what the state minimum wage was. They did ask what I was willing to pay and if it wasn't sufficient, they exercised the force of the free market and they went somewhere else, and I was forced to raise my wage. That's the way it's supposed to work in a free market economy. We don't introduce the artificial stimuli or lack of stimulus of government suppression of the right of the business to set its own wage in a free market. Thank you, Mister Chairman.

(The Chair recognized Senator Innis.)

SENATOR INNIS: Thank you, Mister President. One of the nice things about looking at the minimum wage right now is that we have some data from other cities and states that have actually done it. And if we

look to the west coast, to the Emerald City, we find a city that raised its minimum wage to $15 an hour. And the city of Seattle commissioned a study to be conducted by the University of Washington and economists of that institution. And I'm sure they expected a particular result when they got the answers. I think the result they got was somewhat different. The researchers write: the costs to low-wage workers in Seattle outweighed the benefits by a ratio of three to one. The cost to low-wage workers outweighed the benefits three to one. Why? Many employers have cut payrolls, they're reducing hiring, they're reducing hours, they're eliminating positions because people are becoming too expensive. The study estimates, the average low-wage worker in the city of Seattle lost, lost $125 due to the hike in the minimum wage. Now if you don't trust the west coast, a professor at MIT, David Otter has reviewed the study conducted by the University of Washington and finds it credible. So if you prefer an iPad when you order food, if you want to hurt the very people you say that you want to help, this bill should be passed. If, on the other hand you want to keep people working, you want to help those people who need help the most and if you truly want to help low-wage workers, then support ITL. Thank you, Mister President.

The question is on the adoption of the motion of Inexpedient to Legislate.

A roll call was requested by Senator Soucy, seconded by Senator Sanborn.

The following Senators voted Yes: Giuda, Bradley, Gray, French, Ward, Sanborn, Daniels, Avard, Carson, Reagan, Birdsell, Gannon, Innis, Morse.

The following Senators voted No: Woodburn, Watters, Hennessey, Kahn, Lasky, Feltes, Cavanaugh, Soucy, D'Allesandro, Fuller Clark.

Roll Call, Yeas: 14 - Nays: 10. Adopted.

EDUCATION
SB 436, relative to tuition in the community college system.
Ought to Pass with Amendment, Vote 4-1. Senator Watters for the committee.

Senate Education
February 6, 2018
2018-0484s
04/08

Amendment to SB 436

Amend the bill by replacing section 1 with the following:

1 New Paragraph; Community College System of New Hampshire; Tuition Waived. Amend RSA 188-F:15 by inserting after paragraph II the following new paragraph:

III. The board of trustees shall have the authority to allow a tuition discount for less than full-time employees. The board of trustees may establish criteria with respect to length of service, hours worked, percent of discount, and eligible courses.

2018-0484s

AMENDED ANALYSIS

This bill authorizes the community college system board of trustees to establish a tuition discount for less than full-time employees.

SENATOR WATTERS: Thank you, Mister President. I move Senate Bill 436 Ought to Pass with Amendment. The bill as amended would authorize the community college system board of trustees to establish a tuition

discount for less than full-time employees. Due to the way the current statute is written, it appeared as though the board of trustees of the system schools lack the authority to grant such a benefit. They can and do so now for full-time employees and then if they chose to do so for part-time employees, this would give them the authority to do that. The language of this bill seeks to clarify current statute and give authority to provide tuition discounts. Therefore the majority of the Education Committee asks for your support in the motion of Ought to Pass with Amendment on Senate Bill 436. Thank you, Mister President.

The question is on the adoption of the Committee Amendment. Adopted.

(The Chair recognized Senator Carson.)

SENATOR CARSON: Thank you, Mister President. I'd like, at this point, to make a declaration that I have a conflict of interest with this bill and I will not be participating in the discussion.

(The Chair recognized Senator Giuda.)

SENATOR GIUDA: Thank you, Mister President. I was the one out of the 4-1 vote. In subsequent correspondence and communication with the university folks and the community college folks I have had my concern satisfied, and so therefore I will be voting in support of this bill. Thank you.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to Third Reading.

ELECTION LAW AND INTERNAL AFFAIRS
SB 362, requiring disclosure of federal income tax returns by presidential and vice-presidential candidates.
Inexpedient to Legislate, Vote 3-2. Senator Birdsell for the committee.

SENATOR BIRDSELL: Thank you, Mister President. I move Senate Bill 362 Inexpedient to Legislate. This bill requires disclosure of federal income tax returns by presidential and vice-presidential candidates and posting of the returns on the secretary of state's website. The committee felt that this legislation will place requirements on filing for office above and beyond what is required in the federal constitution. Additionally, it may lay the foundation for future requirements of other documents such as, let's say, health records. Even California Governor Jerry Brown, who is not known for his conservative views, vetoed a similar bill, stating that it is dangerous when individual states try to regulate elections. And I'd like to, if I could, Mister President, read Governor Brown's veto message:

> To members of the California State Senate, I'm returning Senate Bill 149 without my signature. This bill requires any candidate for president to disclose five years of his or her income tax returns before their name can be placed on California's primary election ballot. Although tax returns are by law confidential, many presidential candidates have voluntarily released them. This bill is a response to President Trump's refusal to release his returns during the last election. While I recognize the political attractiveness, even the merits of getting President Trump's tax return, I worry about the political perils of individual states seeking to regulate presidential elections in this manner. First, it may not be constitutional. Second, it sets a slippery slope precedent. Today we require tax returns but what next? Five years of health records, a certified birth certificate, high school report cards, and will these requirements vary depending on which political party is in power? The qualified candidate's ability to appear on the ballot is fun-

> damental to our democratic system. For that reason I hesitate to start down a road that well might lead to an ever escalating set of different state requirements for presidential candidates.

And I might add, Mister President that presidential requirements are currently determined by the Constitution of the United States and any change to the requirements should be put through, I think, a constitutional amendment. But Arkansas did try to, Arkansas was one of the states that tried to change the requirements and term limits and U.S. term limits, *Inc. v. Thornton*, which was appealed to the Supreme Court and Justice John Paul Stevens cut right to the logical inconsistencies of states altering the qualifications for federal offices. He is quoted as saying:

> As the framers recognize, electing representatives to the national legislature was a new right and rising from the Constitution itself. The tenth amendment also provides no basis for concluding that the states possess reserved power to add qualifications to those that are fixed in the Constitution. Instead, any state power to set the qualifications for membership in Congress must arrive not from the reserved powers of state sovereignty but rather the delegated powers of the national sovereignty. In the absence of any constitutional delegation, the states of power to add qualifications to those numerated in the Constitution such a power does not exist.

So with that Mister President, I ask for please support the committee recommendation of Inexpedient to Legislate. Thank you, Mister President.

(The Chair recognized Senator Hennessey.)

SENATOR HENNESSEY: Thank you, Mister President. I rise in favor of Senate Bill 362, or in opposition of the ITL vote in committee. Tax returns provide voters with essential information about a candidate's potential conflicts of interest, his or her business arrangements, financial standing, charitable donations and more which is why since 1940 there has been one President who has not submitted tax returns. This is a non-partisan issue. The financial transparency that tax returns provide is an absolutely necessary for someone seeking the most powerful office in the world. They provide the full sense of a candidate's financial picture. The standard financial disclosure does not provide enough. Without disclosed tax returns, Americans are left in the dark and without vital information about a candidate's background and motives. Don't we want to know everything we can about the person who will lead our country and the world? I do. Tax returns provide information about a candidate's financial ties to foreign businesses and governments as well. Without tax returns it's impossible to understand the scope of those deals and how they might affect a candidate's decisions in office. Unlike members of Congress, our President is exempt from many conflict of interest laws. Without knowing what any conflicts of interest a candidate might have ahead of time how can we have an informed electorate? I pay my taxes and have every year. To support the nation's infrastructure, to support our children's education system, our national defense and other critical public investments. Shouldn't I know whether my President and Vice President pay their taxes and pay their fair shares?

I also want to know whether a candidate's tax plans would benefit her or him directly. For the past forty years every major party political nominee has made her or his tax returns public except for one as I said; our current President. Until now it was assumed that candidates would do the right

thing by our voters. Seventy-four percent of all likely American voters say that they wanted our current President to release his tax returns. Since January 20, 2017 several million people have signed a petition on the White House website calling on the President to immediately release his tax returns to no avail. Legislation to require presidential candidates to disclose their tax returns has already been introduced in more than half of the United States. This bill ensures greater transparency, rather than providing obstacles for valid access. And by the way, constitutional law scholars who have examined this have said that these laws are legitimate. We are so proud to be the first in the nation, let's set an example of greater transparency, a bipartisan goal, and vote down the ITL so that another motion can be made. Thank you, Mister President.

(The Chair recognized Senator Giuda.)

SENATOR GIUDA: Thank you, Mister President. I will run the risk of quoting scripture to this august body. A house divided against itself cannot stand. I would submit that the premise behind this bill has nothing whatsoever to do with truly wondering whether or not the President's income and investments, okay, are of interest to the American people, but more particularly whether the disclosure of wealth might be of greater interest to a particular political party which chooses to seize on divisiveness and class warfare and focus on the politics of separation rather than uniting the people of this country behind the principals, okay, of opportunity. Rather than setting wealth as the enemy of the poor we should set it as an aspiration, rather than setting race as something it divides we should look at the differences between us as something that makes us greater. There is one particular party here that makes great benefit in dividing the people of the country by setting specious criteria to segregate candidates. I don't care what the President of the United States makes, I care what he does. Eminently successful. I care about for example, the fact that he has hired many women and many minorities, the fact that his businesses are exemplars of how businesses should conduct themselves. I am in admiration of a man that has been a billionaire not once but twice and has provided tens of thousands of jobs and benefits for all his employees; black, white, foreign, native born regardless of race, creed or color. And so for that reason I will be voting against this bill, because I think it seeks only to divide the people that right now is in critical need of uniting. Thank you, Mister President.

(The Chair recognized Senator Sanborn for a question of Senator Hennessey.)

SENATOR SANBORN: Thank you so much for taking my question. Senator, like you I believe in full transparency, in fact I'm very thankful to this body to have passed the bill I had sponsored a year ago for better transparency at state elections as well. So in the effort of better transparency, would you support an effort that would be put forward to require that every one for every elected office including the State Senate and the House, and all local elections would include people's tax returns for three years as well as a full declaration of their assets and liabilities?

SENATOR HENNESSEY: Thank you for the question, and I have not considered that because I don't think it is the same thing at all. It's like saying if you do one little bit for the most important person arguably in the world that everybody else has to do the same thing. So I don't see that and I'd just like to also say that I'd also like to thank you for not stooping to insults about the party that I represent in order to make your point.

The question is on the adoption of the motion of Inexpedient to Legislate.

A roll call was requested by Senator Sanborn, seconded by Senator Giuda.

The following Senators voted Yes: Giuda, Bradley, Gray, French, Ward, Sanborn, Daniels, Avard, Carson, Reagan, Birdsell, Gannon, Innis, Morse.

The following Senators voted No: Woodburn, Watters, Hennessey, Kahn, Lasky, Feltes, Cavanaugh, Soucy, D'Allesandro, Fuller Clark.

Roll Call, Yeas: 14 - Nays: 10. Adopted.

SB 363, prohibiting political expenditures by foreign nationals. Ought to Pass with Amendment, Vote 4-0. Senator Woodburn for the committee.

Election Law and Internal Affairs
February 6, 2018
2018-0480s
03/06

Amendment to SB 363

Amend the bill by replacing section 2 with the following:

2 Effective Date. This act shall take effect upon its passage.

SENATOR WOODBURN: Thank you Mister President. I move Senate Bill 363 Ought to Pass as Amended. This bill as amended will prohibit political expenditures by foreign nationals in the state of New Hampshire. Over the past few years there has been a lot of controversy surrounding the issues, especially around the area of the Russian influence on our last election. But this bill takes a proactive step in shoring up our laws to prevent any ambiguity. Federal law already prohibits foreign nationals from contributing to political campaigns or activities. New Hampshire will be reinforcing that law with SB 363 making it clear that the financial influencing of campaigns or elections by foreign nationals is not permitted in our great state. The majority of the committee asks that you please support this and recommend Ought to Pass as Amended. Thank you, Mister President.

The question is on the adoption of the Committee Amendment. Adopted.

(The Chair recognized Senator Sanborn.)

SENATOR SANBORN: Thank you, Mister President. I rise and with great respect to my friend from Hanover, in this case she might be slightly offended by it and I apologize for that, but there were actions that were taken in the Election Law Committee to specifically try to point out, discredit, one of our Senators by a liberal activist group and as it related around this bill. And it saddened and disappointed me that a group like this would go out and find a foreign national to make a donation to one of our State Senators without their knowing about it or to come back and highlight it within the committee process, and I think frankly that minimizes and waters down the debate we should be having here. And I truly hope that those types of actions don't happen again because I think frankly it embarrasses all of us. Thank you, Mister President.

(The Chair recognized Senator Woodburn.)

SENATOR WOODBURN: Thank you, Mister President, for allowing me to speak a second time. I did want to just respond as a fellow member of the Election Law Committee, that the Senator from Bedford brought up an issue that a moment upon hearing that joined in outrage about that

action. But before we start casting actions of individuals against entire parties I think we should together recognize that this is an effort to try to, we came together unanimously to say foreign nationals cannot and should not participate. It's a long time coming, I fought hard on this issue, gotten lots of bruises as a result, but we came together and thank you very much for your support and efforts on this.

The question is on the adoption of the motion of Ought to Pass with Amendment.

A roll call was requested by Senator Sanborn, seconded by Senator Hennessey.

(The Chair recognized Senator Giuda for a question of Senator Birdsell.)

SENATOR GIUDA: If a foreign national owns property in our state, is that addressed under this statute, or under this proposed law?

SENATOR BIRDSELL: Actually I don't even think it's even relative because actually this is, foreign nationals is actually in federal law, foreign nationals cannot donate to state or federal candidates and basically we're just codifying what the federal law says.

SENATOR GIUDA: Thank you, Madam Chair. Thank you, Mister President.

The following Senators voted Yes: Woodburn, Giuda, Bradley, Watters, Hennessey, Gray, French, Ward, Sanborn, Kahn, Daniels, Avard, Lasky, Carson, Feltes, Cavanaugh, Reagan, Soucy, Birdsell, D'Allesandro, Fuller Clark, Gannon, Innis, Morse.

The following Senators voted No: (None)

Roll Call, Yeas: 24 - Nays: 0. Adopted, bill ordered to Third Reading.

SB 364, establishing a commission to study the establishment of a searchable database to verify that each vote was properly recorded.
Inexpedient to Legislate, Vote 3-2. Senator Gray for the committee.

SENATOR GRAY: Thank you, Mister President. I move Senate Bill 364 Inexpedient to Legislate. This bill would establish a commission to study the instituting of a searchable database to verify that each vote was properly recorded in an election. The state right now in certifying the votes, there's four different methods of counting, making sure that each vote is accounted for plus our system of recounts. The committee felt that the process in place now is sufficient to verify that each vote and this legislation is unnecessary at this time. Please support the committee recommendation of Inexpedient to Legislate. Thank you, Mister President.

The question is on the adoption of the motion of Inexpedient to Legislate. Adopted.

SB 439, repealing the authority to share voter information or data with other states.
Inexpedient to Legislate, Vote 3-1. Senator Sanborn for the committee.

SENATOR SANBORN: Thank you Mister President. Mister President, I move Senate Bill 439 Inexpedient to Legislate. This bill would repeal the authority to share limited voter information, or data, with other states by removing New Hampshire from the Crosscheck Voter Database which is designed to detect possible voter fraud. The committee felt that the benefits of being involved in Crosscheck outweighed the arguments against it. Especially when considering that the alternative program, which is a single program called ERIC, doesn't only require a lot more

voter data with more frequency and more cost to the taxpayers of New Hampshire. We also know that ERIC is an organization that is funded by one side of a political party, which is actually using the information for voter advocacy. If we are actually trying to ensure that we have voters who are not voting in several different states, our ability to actually share information in a concerted effort between all secretary of states is important. Now Mister President, you may hear others who stand up and say, well the Crosscheck program is not accurate. It has a 99 percent failure rate, Mister President. But Mister President, that would be good news. Because if 99 percent of the people are actually not voting in multiple states, I think we would all consider that to be good news. So therefore, some suggest that because it's 99 percent false positive that that would be bad when, in fact, we would want it to be the reciprocal, where there is no chance of voter fraud, there is no duplication of voter records. So I ask that you please support the committee recommendation of Inexpedient to Legislate. Thank you, Mister President.

(The Chair recognized Senator Lasky for a question of Senator Sanborn.)

SENATOR LASKY: Senator, I'd like to know with all the evidence that was presented to you, etcetera, what gives you confidence, besides the fact of what you just mentioned, which was erroneous information, that gives you confidence in Crosscheck, and that we should continue with that program?

SENATOR SANBORN: Senator, thank you so much for the question. What gives me confidence is the secretary of state's office themselves, who I believe are good arbiters of our election system, who truly represent, in a non-partisan manner, trying to make the most effective and fair elections we can so when the people who are in charge of the program, who I personally trust specifically, come in and suggest that the program we have today works, I would listen to their recommendation.

SENATOR LASKY: Thank you.

SENATOR SANBORN: Thank you.

(The Chair recognized Senator Lasky.)

SENATOR LASKY: Thank you, Mister President, and thank you, Senator Feltes. I rise in opposition to the committee report of Inexpedient to Legislate on Senate Bill 439. We've all taken great pride over the years and rightly so, in our state's strong tradition of clean and fair elections. And our reputation has been a model for the way elections should be run. And as the Senator said, we have great faith in our secretary of state's office and the work that he and the office has done over the years. This is not about that. It's that tradition that we've been working to make sure we continue and that we have clean voter rolls and elections that are without any implications of impropriety. Much has been said of late, of voter fraud, and while we may differ on the extent of it, I believe we agree on this. We all want our elections to be as secure and free of even the perception of fraud as possible, which is why we must not continue our relationship with the Crosscheck program.

New Hampshire joined Crosscheck in 2016 with the best of intentions, to ensure the integrity of our state's elections. The program works by comparing data across states to identify and eliminate duplicate voter registrations. But since its inception, and particularly of late, Crosscheck has shown to be a system that serves only to put voter information at risk, while disqualifying eligible voters. It's been proven to be severely

inaccurate, using incomplete data points, has also shown itself to be a major threat to Granite Staters personal information. The program's data is hosted on an unencrypted and insecure server with over simplified and unchanged passwords that they often shared over email. Security experts have said the program could be breached by a novice hacker. In fact just three weeks ago, private information from Kansas was made public in Florida. Inadvertently, but nevertheless it was including names, birthdates and partial social security numbers. In addition to security breaches, Crosscheck fails to keep voter rolls accurate. According to a study published last year, Crosscheck's program would eliminate about two-hundred registrations, used to cast legitimate votes, for every one registration that might have a double vote. That's where the 99 percent comes from; an error rate. That's a success rate of 1 percent or wrong 99 percent of the time. Not a particularly great record. Other states who once used Crosscheck have picked up on the disaster of using it. Kentucky became the eighth state recently to leave the program citing security concerns and unreliable results. Even its home state, where Senator Kobach is from, Kansas, no longer will use Crosscheck.

As elected officials and concerned Granite Staters, we are all very much concerned and dedicated to the goal of ensuring accurate voter rolls, and secure elections. As a matter of fact, the chairwoman of the Election Law Committee has said many times in this chamber that very thing and how important that is. Remaining in the Crosscheck program is not the way to achieve our goals. As so many of our national leaders, government leaders including the secretary of state has said lately our 2018 elections are in grave jeopardy of being breached once again by the Russians. Do we want New Hampshire to be a state that gives our elections away for free to Russian hackers? I think not. I implore you; do not, the evidence is there, the nails are in the coffin, that Crosscheck is no longer a reputable organization or system that we should be using to ensure that our data is clean and free of fraud.

So don't continue to just talk the talk regarding the secure elections. It's beyond time to look at what is really our goal. Today this body can come together, Democrats and Republicans, and truly do something positive to eliminate any election fraud. Start by overturning the ITL, and I will offer an amendment that allows us to enter the ERIC program. That program was alluded to by my colleague and it is an independent non-profit organization owned and fully funded by the participating states, twenty-three of whom belong now. And many of them or most of them are not given to be Democratic states, such as West Virginia, Ohio, Pennsylvania and I could go on and list all twenty-three. So it is not a one-sided organization. But first we need to overturn the ITL and I implore you to do that today. Thank you, Mister President.

(The Chair recognized Senator Feltes.)

SENATOR FELTES: Thank you very much, Mister President. Mister President in addition to what my colleague from Nashua just said I wanted to just add a couple things. We've seen that a number of states have gotten out of this program because they've determined it to be an unsecure program. And some of those states don't have the kind of bipartisan value of privacy that New Hampshire has. We pride ourselves on the privacy of our information, and using what has been determined to be by many states an unsecure system to share information is counter to, in my view the New Hampshire way. What we've seen also Mister President, is in response to President Trump's now disbanded commis-

sion, there's some problems in some of the information that we collect, including, there was confidential information on victims of domestic violence that was about to be sent to that commission down in Washington, D.C. It's the same kind of information that's collected and filtered through this Crosscheck system. I don't think, Mister President that the protections are in place in our existing system to ensure people's privacy and confidentiality including victims of domestic violence. I don't think that's in place, I think if folks believe that we need to do another system like Crosscheck, then I think the system is the system that the Senator from Nashua is talking about, ERIC, if people want to do that, that's the right system. This has been proven to be unsecure Mister President, I think it's important that we recognize some of the problems and pivot consistent with our values. Thank you, Mister President.

(The Chair recognized Senator Soucy for a question of Senator Lasky.)

SENATOR SOUCY: Senator, I've heard mention of a concern that this other program, ERIC, has a cost associated with it. Would you please address, I don't know if you've had discussions with your city clerk, but would you please address the concern that's been raised at the local level and I think here at the state that because Crosscheck generates so many false positives, there is an inordinate amount of work being done to double check those. So in fact a system that generates fewer, because it has more data points might actually be more cost effective for our state?

SENATOR LASKY: Thank you for the question, Senator. Yes, I was in contact with ERIC, and that organization has told us that as I mentioned the states that participate in the organization pay a fee and most fees according to the type of work you want them to do, and the number of registrations or voter registrations. Our cost would be about, they estimate to be about $19,000. Not only do we have that in HAVA funds, which could be used for this, but in answer to your question, I have spoken to the city clerk in Nashua. Nashua, this last time was given 1,300 duplicate voter registrations. Many of which she knew personally, from being clerk in the city, that were active voters. So before this was even given to the secretary of state's office, there were corrections that just by living in the city, the clerk knew. So the cost of resources, the cost of time is as you said could become more than what is needed to pay for ERIC. The other pro with ERIC is that it brings in voter registrations, if we were to ask them to do that, they would help in getting us new voter, people to vote. Cost, you know sometimes you get what you pay for. You know we have the example of two banks, one's free, but it might just share your personal information. Would you go with that bank or would you want to put your money and maybe a little extra money into that bank where your information would be secure, and you'd be able to sleep at night knowing that? So that's my answer to that question.

SENATOR SOUCY: Thank you.

(The Chair recognized Senator Birdsell.)

SENATOR BIRDSELL: Thank you, Mister President. I have to disagree greatly with my District 13 Senator. Crosscheck, I spoke with the secretary of state, and dealing between Crosscheck and ERIC. Crosscheck requires first, last name, date of birth, voter ID, mailing address, physical address, last four numbers of the social security number. So there are numerous data points that they do use. The secretary of state with regards

to New Hampshire information, the secretary of state double encrypts the info that goes over and requires special passwords and Crosscheck needs to call the secretary of state for those passwords, a one-time issue happened, one incident that was brought up where the password was sent in an email. Happened once and the password was not accurate. States like Massachusetts go into Crosscheck, come out of Crosscheck typically in non-election years. New Hampshire right now is not in it because we are not in an election year, we will get back into it come, after the general. Massachusetts is considering going to ERIC because ERIC does much more of the work that is required and granted the secretary of state's office does a lot of the work that ERIC would do. But ERIC is not cheap. ERIC is short for Electronic Registration Information Center. It requires a complete set of our data, of our voter records and licensing including some information on the DMV, and every sixty days that voter list needs to be submitted to be updated. It costs a one-time membership fee of $25,000 and the annual dues can go anywhere from 19 to $60,000. So this and this organization is obviously much better for the motor voter states which is one of the reasons why Massachusetts is considering going to ERIC. Also if we're so worried about the data information that we're afraid is going to be released, let's look at Perkin's Coie, the law firm that is participating in the lawsuit on SB 3. They filed suit and they are requesting full access to our database. Now what can be worse than having a D.C. law firm having full access to our database? So with that Mister President, I ask to please support the majority committee of ITL on SB 439. Thank you.

(The Chair recognized Senator Fuller Clark for a question of Senator Lasky.)

SENATOR FULLER CLARK: Senator Lasky, could you tell me what is the status of Kansas with regard to having engaged Crosscheck or not having engaged Crosscheck?

SENATOR LASKY: They are trying to legislate their own individual act to deal with their elections, but they are now no longer, as I understand it, in the Crosscheck system.

SENATOR FULLER CLARK: And is it not true that that is actually where Crosscheck is based is in the state of Kansas?

SENATOR LASKY: Yes, it was originally initiated there.

(The Chair recognized Senator Lasky for a question of Senator Birdsell.)

SENATOR LASKY: Thank you. Senator, why is it of late, or in the past several months, do you believe that eight states have taken their information away from Crosscheck because of what they believe is unreliability?

SENATOR BIRDSELL: I can't answer for those states, I know what New Hampshire is doing and what they're doing is they're encrypting. They're double encrypting the information, and right now New Hampshire has no interest in getting out of it as far as the secretary of state's office is concerned.

SENATOR LASKY: Thank you.

(The Chair recognized Senator Gray for a question of Senator Lasky.)

SENATOR GRAY: Senator Lasky, it is my understanding that the data, meaning the social security numbers are filed somewhere, and to some of the data, I believe, that ERIC requires was not added to the registration form in New Hampshire until just a few years ago, and that there has been no effort to go back and fill in that data. How is ERIC, or any

other program, since there are prohibitions between sharing DMV records with the election records, how is ERIC, or any other program, going to cut down on the number of false hits when we don't even have that data in our database?

SENATOR LASKY: Well, I could answer that a lot of ways because I've introduced a lot of bills for utilization of that information to protect our voter registration, which have all been turned down in the name of potential voter fraud. So, but beyond that, I imagine that they will work with the information that they have on hand. The most damning thing against Crosscheck I believe is the fact that they use an unencrypted server. They have been shown to be unreliable. It has been proven here by what we have gotten back and why the secretary of state's office is so adamant about continuing with this particular program, aside from cost, when it has been shown and as I stated from Nashua alone, the errors are more than we should be accepting from an organization or system that is supposed to take care of our voter records.

SENATOR GRAY: There's many points in your response to me that I would like to address, but I'll limit myself to the unprotected server. Right now, the only data that I've seen, and that's the data that was provided at the committee meeting, was the data from a newspaper article that talked about that server being unprotected. I've heard from others.

PRESIDENT MORSE: Senator, is there a question?

SENATOR GRAY: I'm trying to get there, Senator.

SENATOR LASKY: I have an answer.

SENATOR GRAY: But others say that the secretary of state in New Hampshire has investigated those claims and found they are unfounded. Would you believe that newspaper article is a better source than the secretary of state? That was the question.

SENATOR LASKY: That's rather a Sophie's Choice question. But besides that Senator, that if I sent the committee a lot of information that I've received from independent organizations and reputable organizations who have looked into Crosscheck. And it wasn't just from a newspaper article that may have ultimately ended up there, but I believe that the information that I've looked at and I did send to the committee to look at is more than sufficient to at least give us pause to at this point to get out of that Crosscheck system and if you want to wait before going into another one, so be it. I'm not going to take any more questions, thank you.

The question is on the adoption of the motion of Inexpedient to Legislate.

A roll call was requested by Senator Soucy, seconded by Senator Birdsell.

The following Senators voted Yes: Giuda, Bradley, Gray, French, Ward, Sanborn, Daniels, Avard, Carson, Reagan, Birdsell, Gannon, Innis, Morse.

The following Senators voted No: Woodburn, Watters, Hennessey, Kahn, Lasky, Feltes, Cavanaugh, Soucy, D'Allesandro, Fuller Clark.

Roll Call, Yeas: 14 - Nays: 10. Adopted.

SB 440-FN, relative to prohibited political contributions.
Interim Study, Vote 3-1. Senator Gray for the committee.

SENATOR GRAY: Thank you Mister President. I move Senate Bill 440-FN be referred to Interim Study. This bill would establish a prohibition on receiving contributions in violation of the law relative to prohibited political contributions. The intent is to close a loop hole in the campaign

finance law that allows candidates to illegally accept and spend contributions in a primary campaign beyond the limits already established in state law without penalty. The committee felt that the bill needed more consideration in regards to the penalties given for violation of the law and possibly added language to define the violation details. Please support the committee recommendation in the motion to Refer to Interim Study. Thank you Mister President.

(The Chair recognized Senator Lasky.)

SENATOR LASKY: Thank you, Mister President. My colleague and Chair is…I'm sorry. At any rate, I rise in opposition to the committee report. The Senator from District 6 was correct and that is what the bill was intended to do. This was in response to someone violating the statute as it is now in I believe it was 2016. It was sent to the Ballot Law Commission who found the person to be in error of spending campaign funds that were not allowable to be spent. The Ballot Law Commission said and basically remanded the case back to the legislature to fix because it said while the legislature speaks to the process there is no penalization, or penalty for breaking the law. This is in response to, this bill is in response to what the Ballot Law Commission asked the legislature to do. I don't believe it needs any more study, if that is in reality what might be done. What it does is just gives teeth to the fact of what is already in statute, what is already against the law and I believe it's something that we ought to pass now. So I am in opposition to the Interim Study motion and I would like you to overturn that so I can offer an Ought to Pass motion. Thank you.

The question is on the adoption of the motion of Interim Study. Adopted.

ENERGY AND NATURAL RESOURCES
SB 450-FN-A, establishing an advisory commission for the department of environmental services relative to the delegation of authority of the National Pollutant Discharge Elimination System Program.
Ought to Pass with Amendment, Vote 5-0. Senator Bradley for the committee.

Energy and Natural Resources
January 31, 2018
2018-0393s
08/10

Amendment to SB 450-FN-A

Amend RSA 149-Q:2 as inserted by section 1 of the bill by replacing it with the following:

149-Q:2 Membership and Compensation. The members of the commission shall be as follows:

I. One member of an affected nuclear facility, appointed by the governor.

II. Two members of the Business and Industry Association, appointed by the association.

III. One member representing both the New Hampshire Rivers Council and New Hampshire Lakes Association, appointed by those organizations.

IV. Three geographically dispersed members representing affected water and sewer facilities appointed by the New Hampshire Municipal Association.

V. One member of the Granite State Hydropower Association, appointed by that association.

VI. One member of the New Hampshire Association of Realtors, appointed by that association.

VII. One member of the Associated General Contractors of New Hampshire, appointed by that association.

VIII. One member of the New Hampshire Water Pollution Control Association, appointed by that association.

IX. One member representing affected public utilities, appointed by the governor.

X. One member representing an affected regional planning commission, appointed by the Association of New Hampshire Regional Planning Commissions.

XI. The commissioner of the department of transportation, or designee.

XII. One member of an environmental group, appointed by the governor.

Amend RSA 149-Q:4 as inserted by section 1 of the bill by replacing it with the following:

149-Q:4 Chairperson; Quorum. The members of the study commission shall elect a chairperson from among the members. The first meeting of the commission shall be called by the first-named senate member. The first meeting of the commission shall be held within 45 days of the effective date of this section. Seven members of the commission shall constitute a quorum.

Amend the bill by replacing section 2 with the following:

2 Appropriation. The sum of $350,000 for the fiscal year ending June 30, 2019 is hereby appropriated to the commissioner of the department of environmental services for the purposes of hiring a consultant to assist the department and the NPDES advisory commission in proposing the report required by RSA 149-Q:5. The governor is hereby authorized to draw a warrant for said sum out of any money in the treasury not otherwise appropriated.

SENATOR BRADLEY: Thank you, Mister President. I move Senate Bill 450 Ought to Pass with Amendment. This bill establishes an advisory commission for the Department of Environmental Services to study the delegation of authority for the National Pollutant Discharge Elimination System that currently resides with the Environmental Protection Agency be delegated to the state of New Hampshire. This bill is the result of a study commission that was created by our friend from Bedford's bill, Senate Bill 121 last session. That study commission examined the potential of delegation of authority to the Department of Environmental Services for the National Pollutant Discharge Elimination System Program. The commission realized the process to obtain delegated authority is far more complex than any of us originally believed. There are strong merits for New Hampshire to assume responsibility and delegation of this program. State assumption of the program is more cost effective and hopefully less bureaucratic than the Environmental Protection Agency, but in particular, environmental regulators in Concord better know our municipalities and our bodies of water better than the EPA. However, delegation of this authority will come at a significant cost.

Other states that have delegated authority employ a relatively and in some cases rather high fee structure on the regulated entities or use general fund dollars. This is why the Energy and Natural Resources Committee

recommended a commission that will look at the delegation of authority with DES to make recommendations whether the legislature should seek that authorization in the future. There are a number of laws that would have to be updated, that's one of the reasons why this legislation recommends the DES have an appropriation for a consultant to assist in that program. This is a long term process. It's something that has merit for the state of New Hampshire but it's also something that does cost money. This is a reasonable way to proceed and I would commend the body to adopt to adopt the report on the Energy and Natural Resources Committee. Thank you.

The question is on the adoption of the Committee Amendment. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to the Committee on Finance (Rule 4-5).

Recess. Out of recess.

EXECUTIVE DEPARTMENTS AND ADMINISTRATION
SB 533-FN, relative to the composition and compensation of the personnel appeals board.
Ought to Pass, Vote 4-0. Senator Carson for the committee.

SENATOR CARSON: Thank you, Mister President. I move Senate Bill 533-FN, Ought to Pass. This legislation changes the composition of the Personnel Appeals Board, increases its membership and compensation, and adjusts its quorum. The Board's governing statutes have not been updated since 1988. This legislation will assist in making sure the New Hampshire Personnel Appeal Board can successfully complete its duties. During the public hearing on this legislation a copy of the Board's Fiscal Year 2017 Annual Report was distributed to the committee members. Within the annual report were the changes that were requested by the Board, and are reflected in this legislation. The ED & A Committee voted 4 to 0, Ought to Pass and asks for your support in their recommendation. Thank you, Mister President.

The question is on the adoption of the motion of Ought to Pass. Adopted, bill ordered to the Committee on Finance (Rule 4-5).

SB 535-FN, relative to licensure for the practice of professional art therapy. Ought to Pass with Amendment, Vote 5-0. Senator Reagan for the committee.

Senate Executive Departments and Administration
February 7, 2018
2018-0522s
10/01

Amendment to SB 535-FN

Amend the title of the bill by replacing it with the following:

AN ACT relative to licensure for the practice of professional art therapy and establishing an advisory council on alternative mental health therapies, and relative to certain revenues from the sale of commemorative liquor bottles of historic significance.

Amend the introductory paragraph of RSA 326-L:6 as inserted by section 1 of the bill by replacing it with the following:

326-L:6 Rulemaking. The executive director, with the advice of the advisory council on alternative mental health therapies under RSA 330-D, shall adopt rules for the following:

Amend the bill by inserting after section 2 the following and renumbering the original section 3 to read as 5:

3 New Chapter; Advisory Council on Alternative Mental Health Therapies. Amend RSA by inserting after chapter 330-C the following new chapter:

CHAPTER 330-D
ADVISORY COUNCIL ON ALTERNATIVE
MENTAL HEALTH THERAPIES

330-D:1 Advisory Council on Alternative Mental Health Therapies. The executive director shall establish the advisory council on alternative mental health therapies. The council shall consist of 3 persons who are licensees or certificate holders in the state of New Hampshire in an alternative mental health therapy. Each member shall be appointed to a term of 3 years, provided that initial terms may be staggered. No member shall serve more than 2 consecutive full terms. Each member of the advisory council shall receive as compensation the sum of $45 for each day actually devoted to the work of the advisory council and shall be reimbursed for necessary traveling expenses incurred in the discharge of such duty. The advisory council shall:

I. Review the educational and experience requirements of applicants for licensure or certification of an alternative mental health therapy.

II. Review the continuing education requirements for renewing licensure or certification of an alternative mental health therapy.

III. Advise the executive director regarding the implementation of requirements for licensure or certification of an alternative mental health therapy and the adoption of necessary rules.

4 New Paragraph; Historical Fund; Sale of Commemorative Bottles; Transfer of Revenues. Amend RSA 177:8 by inserting after paragraph II the following new paragraph:

III. Notwithstanding provisions of paragraph II, revenue from commemorative bottles sold under this section between July 1, 2018 and December 31, 2019 shall be credited to the New Hampshire state house bicentennial education and commemoration fund in RSA 17-R:3.

2018-0522s

AMENDED ANALYSIS

This bill regulates persons engaged in the practice of professional art therapy and establishes an advisory council on alternative mental health therapies. The bill also credits revenue from the sales of commemorative liquor bottles until December 31, 2019 to the New Hampshire state house bicentennial education and commemoration fund.

SENATOR REAGAN: Thank you, Mister President. I move Senate Bill 535 Ought to Pass with Amendment. The legislation, as amended, will establish an Advisory Council on Alternative Mental Health Therapies, and will allow certain revenues from the sale of commemorative liquor bottles of historic significance to be credited to the New Hampshire State House Bicentennial Education and Commemoration Fund. The executive director of the Advisory Council on Alternative Mental Health Therapies shall establish the council, consisting of three people who are licensees or certificate holders in the state of New Hampshire in alternative mental health therapy. It will be tasked to review educational and experience requirements of applicants for licensure or certification; review continuing education requirements for renewing licensure or

certification; and, advise the executive director with regard to implementation requirements for licensure or certification; and, adoption of necessary rules. The ED & A Committee voted 5 to 0, Ought to Pass with Amendment and asks for your support in its recommendation. Thank you, Mister President.

The Chair ruled sections of the Committee Amendment non-germane.

Without objection, Senate Rule 3-17 is suspended to allow consideration of the non-germane Committee Amendment. Adopted by the necessary 2/3 vote.

(The Chair recognized Senator Watters.)

SENATOR WATTERS: Thank you, Mister President. I rise particularly to thank the committee and the Senator from District 17 for their good work on this bill. We had a good hearing; heard from the art therapists about a credentialed national degree and they need to find a way to recognize that and I think the committee wisely saw that this is an issue that might affect other credentialed alternative therapies and I think took very wise steps on it. I also appreciate that this bill is the vehicle for meaning that we can raise a glass to celebrate the bicentennial of the State House and the funding from the commemorative liquor bottles that we produced on that theme over the next year and a half will be dedicated to that fund and go to the bicentennial commission for those purposes. Thank you, colleagues. Thank you, Mister President.

The question is on the adoption of the Committee Amendment. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to the Committee on Finance (Rule 4-5).

SB 536-FN, relative to eligibility for death benefits for court security officers.
Ought to Pass, Vote 4-0. Senator Reagan for the committee.

SENATOR REAGAN: Thank you, Mister President. I move Senate Bill 536 Ought to Pass. This legislation includes eligibility for death benefits for court security officers and bailiffs for those killed in the line of duty. These officers do everything that police officers do; three-quarters of these officers are former law enforcement. They are trained to use force; they are armed and are trained in the use of firearms, in addition to attending a two week training course on court security and safety, not only for the public, but for the safety of our judges and staffs. This legislation will classify these officers in RSA as law enforcement officers with the power of arrest. The ED & A Committee voted favorably Ought to Pass and asks for your support in this recommendation. Thank you, Mister President.

(The Chair recognized Senator D'Allesandro.)

SENATOR D'ALLESANDRO: Thank you, Mister President. Mister President, I sponsored the original bill for the death benefit a number of years ago. I think it's been used five times since that bill has been passed. Since that time the addition of these people to that bill is an essential because of what's now taking place in our courtrooms. Violent behavior has been persistent in the courtrooms, particularly as it relates to domestic violence and other very, very serious crimes. The perpetrators of the crimes are very dangerous and sometimes cause some real consternation within the courtroom itself. These people that are added to the death benefit risk their lives protecting those in the court. It is what it is. They protect their

lives, and as a result of that they run the risk of getting killed. So it's an essential aspect that we, in fairness, we add this to the death benefit provision. Hopefully it doesn't happen, hopefully. But indeed if it does, think of the families that are left that have to be taken care of. You know, it's a crime in a way that we have to do this kind of legislation in light of what's happening in the society. Our society is changing dramatically and as a result of this we have to protect out public servants. Thank you, Mister President.

The question is on the adoption of the motion of Ought to Pass. Adopted, bill ordered to Third Reading.

SB 578-FN, relative to unclassified positions within the department of health and human services.
Ought to Pass, Vote 4-0. Senator Reagan for the committee.

SENATOR REAGAN: Thank you, Mister President. I move Senate Bill 578 Ought to Pass. This legislation clarifies terms of appointment and salary for several unclassified positions within the Department of Health and Human Services. It will also clarify the approval process of the Governor and Council for these unclassified positions. The ED & A Committee voted Ought to Pass and asks for your support in their recommendation. Thank you, Mister President.

The question is on the adoption of the motion of Ought to Pass. Adopted, bill ordered to the Committee on Finance (Rule 4-5).

Recess. Out of recess.

SPECIAL ORDER

Without objection, the following bills are special ordered to the Call of the Chair. Adopted.

FINANCE
CACR 21, relative to alcohol and drug abuse prevention. Providing that a portion of liquor commission revenue shall be used for alcohol and drug abuse prevention.
SB 542-FN, relative to the use of funds in the revenue stabilization reserve account for public health emergencies.
HB 561-FN, relative to part-time employment of a retirement system retiree by a participating employer.

HEALTH AND HUMAN SERVICES
SB 381, deleting immunization/vaccination requirements for Hepatitis B.
SB 545-FN, increasing the age for sales and possession of tobacco products.

FINANCE
SB 310-FN, establishing a pilot program for community-based diversion services.
Ought to Pass with Amendment, Vote 6-0. Senator Feltes for the committee.

Senate Finance
February 7, 2018
2018-0504s
05/03

Amendment to SB 310-FN

Amend the title of the bill by replacing it with the following:

AN ACT establishing a committee to study the feasibility of establishing community-based services pilot programs.

Amend the bill by replacing all after the enacting clause with the following:

1 Committee Established. There is established a committee to study the feasibility of establishing community-based services pilot programs.

2 Membership and Compensation.

I. The members of the committee shall be as follows:

(a) Two members of the senate, appointed by the president of the senate.

(b) Three members of the house of representatives, appointed by the speaker of the house of representatives.

II. Members of the committee shall receive mileage at the legislative rate when attending to the duties of the committee.

3 Duties. The committee shall determine if community-based services pilot programs would be effective in preventing children from entering the foster care system by addressing potential issues before they rise to a crisis level that result in children being removed from the home. The committee may solicit information and testimony from any individual or entity the committee deems relevant to its study.

4 Chairperson; Quorum. The members of the study committee shall elect a chairperson from among the members. The first meeting of the committee shall be called by the first-named senate member. The first meeting of the committee shall be held within 45 days of the effective date of this section. Three members of the committee shall constitute a quorum.

5 Report. The committee shall report its findings and any recommendations for proposed legislation to the president of the senate, the speaker of the house of representatives, the senate clerk, the house clerk, the governor, and the state library on or before November 1, 2018.

6 Effective Date. This act shall take effect upon its passage.

2018-0504s

AMENDED ANALYSIS

This bill establishes a committee to study the feasibility of establishing community-based services pilot programs.

SENATOR FELTES: Thank you, Mister President. I move Senate Bill 310-FN Ought to Pass With Amendment. This bill establishes a pilot program through which the Department of Health and Human Services shall contract with local organizations to provide community-based diversion services to prevent the need for foster care and other out-of-home placements. The amendment establishes a study committee to determine if community-based services pilot programs would be effective in preventing children from entering the foster care system by addressing potential issues before they rise to a crisis level that would result in children being removed from the home. The committee recommends passage of Senate Bill 310-FN as amended, and asks for your support. Thank you, Mister President.

The question is on the adoption of the Committee Amendment. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to Third Reading.

SB 390-FN, establishing the office of solicitor general in the department of justice and establishing an unclassified attorney position in the department of justice.
Ought to Pass with Amendment, Vote 5-1. Senator Reagan for the committee.

Senate Finance
February 7, 2018
2018-0505s
04/05

Amendment to SB 390-FN

Amend the bill by replacing section 6 with the following:

6 Effective Date. This act shall take effect July 1, 2019.

SENATOR REAGAN: Thank you, Mister President. I move Senate Bill 390 Ought to Pass with Amendment. This bill would establish the office of Solicitor General in the Department of Justice. Since the office would be staffed by positions that already exist in the department, there would be no fiscal impact. SB 390 also creates a full-time attorney position within the Department responsible for establishing and implementing a training program for regional, county and state prosecutors. The amendment merely changes the effective date to coincide with the next fiscal budget. The committee recommends passage of Senate Bill 390 as amended, and asks for your support. Thank you, Mister President.

The question is on the adoption of the Committee Amendment. Adopted.

Senator Bradley offered a Floor Amendment.

Sen. Bradley, Dist 3
February 12, 2018
2018-0564s
04/03

Floor Amendment to SB 390-FN

Amend the bill by replacing section 6 with the following:

6 Effective Date.
I. Section 3 of this act shall take effect July 1, 2019.
II. The remainder of this act shall take effect 60 days after its passage.

SENATOR BRADLEY: Thank you, Mister President. This was a request of the Attorney General, Gordon MacDonald, that we make section 3 the act, effective on July 1 of 2019. That's the only change in the bill.

The question is on the adoption of the Floor Amendment. Adopted.

(The Chair recognized Senator D'Allesandro.)

SENATOR D'ALLESANDRO: Thank you, Mister President. Mister President, I rise in opposition to Senate Bill 390. A) It seems to me we have ten counties, they all have a county attorney, they all have a full staff and if they're not trained, shame on us. We need a solicitor general like Carter needs more little liver pills. The solicitor general of the United States of America represents the country in court. He's not there to train people on how to act. We have people within the office that can do this. Again, we have full staffs at the county level. Full staffs at the county level. The county attorneys are elected by the public, they have a full staff to do the job that the county needs done. I cannot see the reason to add another person, another staff person to the attorney general's office to do training. We can get a lot of training, and that should have been done for a long time. But indeed at a time when we're trying to do things in the opioid situation, the foster grandparents needs to be funded, home care health services need to be funded, it seems to me we ought to look in the direction of helping people. There is, in my opinion, no need to train county attorneys. There's plenty of

methodologies to train those attorneys. So I would hope that my colleagues go along with sending this back where it belongs, in the circular file. Thank you, Mister President.

(The Chair recognized Senator Gannon.)

SENATOR GANNON: Thank you, Mister Chair. Senator, where part of the reason is that there's a lot of appellate work done and that this would free up the time in the office so one person could focus on appellate work, training, I've talked to a couple of the county attorneys and they're welcome to have a uniform process of training so we'd have one training system for all the attorneys in every county in New Hampshire. And that's why the bill is where it is. Thank you.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to Third Reading.

SB 429-FN, establishing a consumer services program within the insurance department.
Ought to Pass, Vote 6-0. Senator Feltes for the committee.

SENATOR FELTES: Thank you very much, Mister President. I move Senate Bill 429-FN Ought to Pass. This bill requires the Insurance Commissioner to maintain a program to investigate complaints and respond to inquiries received, and, when warranted, refer matters for enforcement, further investigation, or examination against insurers, producers, or any other entity subject to the regulatory authority of the insurance commissioner. As Senate Bill 429-FN does not impose additional duties on the Insurance Department beyond what is already assumed, the committee recommends passage of Senate Bill 429-FN, and asks for your support. Thank you, Mister President.

The question is on the adoption of the motion of Ought to Pass. Adopted, bill ordered to Third Reading.

SB 470-FN, relative to positions within the insurance department.
Ought to Pass, Vote 4-2. Senator D'Allesandro for the committee.

SENATOR D'ALLESANDRO: Thank you, Mister President. I move Senate Bill 470-FN Ought to Pass. This bill establishes the unclassified position of Communications Director within the Insurance Department. It abolishes a classified position, and transfers the remaining appropriations for the abolished classified position to fund the new unclassified position. The incumbent in the abolished position shall be offered the new position. SB 470-FN also renames the position of Insurance Fraud Attorney to Insurance Fraud Director with no change in salary grade. That's a good one. That's called a zero sum game. The committee recommends passage of Senate Bill 470-FN, and asks for your support. Thank you, Mister President.

The question is on the adoption of the motion of Ought to Pass. Adopted, bill ordered to Third Reading.

Senator Morse is in opposition to the motion of Ought to Pass on SB 470-FN.

SB 531-FN, relative to the office of professional licensure and certification.
Ought to Pass, Vote 6-0. Senator Reagan for the committee.

SENATOR REAGAN: Thank you, Mister President. I move Senate Bill 531 Ought to Pass. This bill authorizes the Office of Professional Licensure and Certification, OPLC, to establish fees in accordance with RSA 541-A for all boards, commissions and councils administered by the OPLC, and to collect such fees for deposit into a separate, non-lapsing fund continually appropriated to the office for the purpose of paying all costs and salaries

associated with the OPLC. Current general fund unrestricted revenue would become restricted revenue and deposited into the newly created OPLC Fund to pay OPLC expenditures beginning in fiscal year 2019. The committee recommends passage of Senate Bill 531-FN, and asks for your support. Thank you, Mister President.

The question is on the adoption of the motion of Ought to Pass. Adopted, bill ordered to Third Reading.

SB 534-FN, relative to the classification of certain state employee positions. Ought to Pass, Vote 6-0. Senator Reagan for the committee.

SENATOR REAGAN: Thank you, Mister President. I move Senate Bill 534 Ought to Pass. This bill revises the salaries and titles of certain unclassified employees in the Department of Health and Human Services, and adjusts salaries for certain unclassified employees in the Department of Health and Human Services, Administrative Services and Justice, for recruitment or retention purposes under RSA 94:3-b. SB 534 also establishes the position of General Counsel in the Banking Department. As most of this bill is the result of work done by the Joint Committee on Employee Classification with information supplied to it by the Korn Ferry Hay Group, the committee recommends passage of Senate Bill 534, and asks for your support. Thank you, Mister President.

The question is on the adoption of the motion of Ought to Pass. Adopted, bill ordered to Third Reading.

SB 579-FN, relative to penalties for welfare fraud.
Ought to Pass, Vote 6-0. Senator Feltes for the committee.

SENATOR FELTES: Thank you, Mister President. I move Senate Bill 579-FN Ought To Pass. This bill increases the statutory damage amounts for welfare fraud to align the statute with other felony and misdemeanor crimes involving fraud. Senate Bill 579-FN would align welfare fraud penalties with those for other theft-like convictions and other offenses established back in 2010. As the bill raises the threshold for classification as a felony offense, it may result in cases being brought as misdemeanors that, under the current statutory scheme, would be brought as felonies. This would have the effect of decreasing state costs. The changes will also result in more efficient prosecution of welfare fraud cases. The committee recommends Senate Bill 579-FN Ought To Pass and asks for your support. Thank you, Mister President.

The question is on the adoption of the motion of Ought to Pass. Adopted, bill ordered to Third Reading.

SB 580, creating class lines within the department of transportation. Ought to Pass with Amendment, Vote 6-0. Senator D'Allesandro for the committee.

Senate Finance
February 7, 2018
2018-0506s
06/08

Amendment to SB 580

Amend the title of the bill by replacing it with the following:

AN ACT relative to the creation of new class lines within the department of transportation and the department of health and human services, and amending a capital budget appropriation to allow for door replacements at the New Hampshire hospital.

Amend the bill by replacing all after the enacting clause with the following:

1 Transfers Authorized. Amend RSA 9:16-a, I and II to read as follows:

I. Notwithstanding any other provision of law, every department as defined in RSA 9:1 is hereby authorized to transfer funds within and among all accounting units within said department, provided that any transfer of $75,000 or more shall require prior approval of the fiscal committee of the general court and the governor and council, and provided that no funds may be transferred in violation of the provisions of RSA 9:17-a, 9:17-b, or 9:17-c or in violation of any restrictions otherwise provided by law or to or from any account[~~, except accounts in the department of health and human services and the department of transportation,~~] which is not composed of the same funding source mix.

II. Notwithstanding any other provision of law except RSA 9:17-c, and subject to the approval of the fiscal committee of the general court and the governor and council, the commissioner of the department of administrative services***, the commissioner of the department of health and human services***, ***and the commissioner of the department of transportation*** [~~is~~] ***are*** hereby authorized to transfer funds within and among all accounting units and/or class codes within the department, and is further authorized to create new class codes within the department into which funds may be transferred or placed, as the commissioner deems necessary and appropriate to address present or projected budget deficits, or to respond to changes in federal laws, regulations, or programs, and otherwise as necessary for the efficient management of the department; provided that if a transfer does not include new class codes, only transfers over $75,000 shall require prior approval of the fiscal committee of the general court and the governor and council.

2 New Paragraph; Appropriations; Department of Transportation; Transfers Authorized. Amend RSA 9:16-a by inserting after paragraph II the following new paragraph:

II-a. Notwithstanding any other provision of law, the commissioner of the department of transportation is hereby authorized to transfer funds from any funding source mix within and among all accounting units and establish new accounting units and/or expenditures classes within the department, provided that if a transfer does not include new accounting units or expenditure classes, only transfers of $75,000 or more shall require prior approval of the fiscal committee of the general court and the governor and council, and provided that no funds may be transferred in violation of the provisions of RSA 9:17-a, RSA 9:17-b, or RSA 9:17-c or in violation of any restrictions otherwise provided by law.

II-b. Notwithstanding any other provision of law, the commissioner of the department of health and human services is hereby authorized to transfer funds from any funding source mix within and among all accounting units and establish new accounting units and/or expenditures classes within the department, provided that if a transfer does not include new accounting units or expenditure classes, only transfers of $75,000 or more shall require prior approval of the fiscal committee of the general court and the governor and council.

3 Appropriations; Department of Transportation; Transfers Authorized. Amend RSA 9:16-a, III to read as follows:

III. The $75,000 threshold under paragraphs [~~I-II~~] ***I-II-b*** shall be applied at the accounting unit level on a cumulative basis within the fiscal year. Once the threshold has been reached, the approval of the fiscal committee of the general court and the governor and council shall be required for subsequent transfers within the fiscal year.

4 Department of Health and Human Services; Capital Budget; Appropriation; Purpose Amended. Amend 2011, 253:1, VII, D, extended by 2013, 195:47, 60, amended by 2014, 121:3, extended by 2015, 220:23, 61, extended by 2017, 228:22, 82, to read as follows:

D. APS Repairs/Renovations-Roof, Windows and Curtain Wall ***and*** ***Door Replacements or Other Related Upgrades*** 3,675,000

5 Effective Date.

I. Sections 1-3 of this act shall take effect July 1, 2018.

II. The remainder of this act shall take effect upon its passage.

2018-0506s

AMENDED ANALYSIS

This bill:

I. Creates class lines within the department of transportation.

II. Creates class lines within the department of health and human services.

III. Amends the capital budget to allow for door replacements at the New Hampshire hospital.

SENATOR D'ALLESANDRO: Thank you, Mister President. I move Senate Bill 580 Ought to Pass with Amendment. This bill originally created class lines within the Department of Transportation. The amendment also creates class lines within the Department of Health and Human Services, and amends the Capital Budget to allow for door replacements at the New Hampshire Hospital. Department of Health and Human Services previously had this transfer authority. The language to continue the authority was inadvertently omitted during last year's committee of conference process in the formulation of the budget. The department also wants to use unexpended funds from a prior capital project at New Hampshire Hospital for door replacements and other upgrades at the hospital in anticipation of receiving its joint commission on accreditation this August and September. The committee recommends passage of Senate Bill 580 as amended, and asks for your support. Thank you, Mister President.

The question is on the adoption of the Committee Amendment. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to Third Reading.

HEALTH AND HUMAN SERVICES

SB 473, relative to employment contract restrictions upon health care providers.

Ought to Pass, Vote 4-1. Senator Avard for the committee.

SENATOR AVARD: Thank you, Mister President. I move Senate Bill 473 Ought to Pass. This bill would prohibit non-compete clauses from contracts for certain health care providers. In 2016 the legislature passed a bill, SB 417, which created a prohibition of non-compete clauses in contracts for physicians. Senate Bill 473 would increase that prohibition to include all other healthcare providers under RSA 310-A. Non-compete clauses often have geographic restrictions that prohibit someone from taking another job inside a certain radius. This could push providers away from their patients and sometimes force them to leave the state. In a time where our state is currently suffering from a lack of health care workers and we need to do everything in our power to keep these

workers in our state treating the patients that need their care. Please support the committee's recommendation of Ought to Pass. Thank you Mister President.

(The Chair recognized Senator Kahn.)

SENATOR KAHN: Thank you, Mister President. So I guess I may be a little bit confused by the bill and maybe as I stumble my objection through, there might be clarification. My concern about non-compete is that we seem to swing in two different directions here. One is if there are non-compete, if there are investments and the rationale for a non-compete clause, I assume from my experience is that if there are investments necessary in order to set up that person in the practice by whoever has done the hiring, that there ought to be a means and a period of time in which that investment can be amortized. If that's equipment and that has a period of amortization, it might be five years and the IRS schedule. In the same sense, this might go too far in prohibiting that there not be non-compete clauses and I think in both instances it's the responsibility of both parties to negotiate the right medium. And so leaving them unchecked, leaving them totally excluded, I think are two extremes that don't represent the complexity of the issue. And so it's for that purpose that I rise in objection to this, and again there may be something in here that I'm not understanding.

(The Chair recognized Senator Fuller Clark.)

SENATOR FULLER CLARK: Yes, I rise in support of Senate Bill 473 and would agree with Senator Avard that we need to be as flexible as possible in keeping health care workers in the state of New Hampshire. And one of the problems that we've seen is that while people go to work for major hospitals, they have very little leverage over the kinds of tasks that they're asked to do, the kind of pay that they're receiving. In many instances I've heard that, you know once people go to work for the hospital under this contract, that their pay is cut, that the hours that they're demanded by the hospital go up, and they leave because they feel like they're not being treated fairly and appropriately and then because of the non-compete clause they have to leave the area. The relationships that they've built up with people that they look after are broken, and I think that given how important it is that we have a varied and diverse source of medical trainees and specialists, that we should not tie them under a compete clause and I understand the issue about hospitals making these investments, but on the other hand, you know they are making those investments not just for the person that they're hiring, but for the sake of their patients. And I believe that if they were more supportive of the people they're hiring, those people would not be leaving. And so I think it's important to eliminate the non-compete clause. We did it for physicians, we haven't seen any really significant negative impact from that, and I think we should extend it to everyone who's working in the health care field because of the challenges that we're facing. Thank you.

(The Chair recognized Senator Sanborn.)

SENATOR SANBORN: Thank you, Mister President. Very quick, I'd just like to thank the HHS Committee for considering the bill. As you know I was the prime sponsor of the bill last time, of what we thought we were eliminating mandatory non-competes on all medical providers and what turned out to be just MD's and the fact that we've come back in to consider this and found it to be favorable, I'm very appreciative and the health care industry is as well. So thank you for your work. I appreciate it.

PRESIDENT MORSE: I'll declare a conflict, in three months from now, but the reality is I probably do have one, but I'm still going to vote.

The question is on the adoption of the motion of Ought to Pass. Adopted, bill ordered to Third Reading.

SB 483, relative to procedures for dispensing controlled drugs.
Ought to Pass with Amendment, Vote 4-0. Senator Fuller Clark for the committee.

Health and Human Services
February 1, 2018
2018-0425s
10/06

Amendment to SB 483

Amend RSA 318:47-l as inserted by section 1 of the bill by replacing it with the following:

318:47-l Procedures for Dispensing Controlled Drugs. Only a patient for whom a prescription was written, the owner of an animal for which a prescription was written, or an authorized representative of the patient or animal owner, as defined in rules adopted by the pharmacy board, after consultation with the commissioner of health and human services, may pick up a prescription for a schedule II, III, or IV controlled substance. Prior to dispensing a prescription for a schedule II, III, or IV controlled substance to a patient not personally known to the pharmacist, the pharmacy technician, or the pharmacy intern, the pharmacist, pharmacy technician, or pharmacy intern shall require the individual receiving the drug to provide a signature and show valid and current government-issued photographic identification as evidence that the individual is the patient for whom the prescription was written, the owner of the animal for which the prescription was written, or the authorized representative of the patient or animal owner.

SENATOR FULLER CLARK: Thank you very much, Mister President. I rise in support of Senate Bill 483 Ought to Pass with Amendment. This bill establishes a procedure for patients or their authorized representatives to pick up a prescription for a schedule II, III or IV controlled drug at a pharmacy. This bill would require individuals picking up prescriptions for someone other than themselves to be authorized by the intended recipient of the medication. This is an important step to ensure that controlled medications including opioids are not being diverted from their intended use. The committee amendment clarifies that the pharmacy technician or pharmacy intern may also verify the identity of the person picking up the medication. Please support the committee's recommendation of Ought to Pass with Amendment and thank you Mister President.

The question is on the adoption of the Committee Amendment. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to Third Reading.

SB 489, establishing a committee to study parental alienation in New Hampshire.
Ought to Pass with Amendment, Vote 4-1. Senator Avard for the committee.

Health and Human Services
February 7, 2018
2018-0514s
05/10

Amendment to SB 489

Amend subparagraph I(a) of section 2 of the bill by replacing it with the following:

(a) One member of the senate, appointed by the president of the senate.

Amend the bill by replacing section 4 with the following:

4 Chairperson; Quorum. The members of the study committee shall elect a chairperson from among the members. The first meeting of the committee shall be called by the senate member. The first meeting of the committee shall be held within 45 days of the effective date of this section. Three members of the committee shall constitute a quorum.

SENATOR AVARD: Thank you Mister President. I move Senate Bill 489 Ought to Pass with Amendment. This bill establishes a committee to study parental alienation in New Hampshire. Parental alienation is a form of child abuse where one parent, often following divorce or separation, creates a fear or hatred of another parent that is experienced by the child or children. This is an incredibly tragic situation that is occurring in our state. The committee will allow all of the stakeholders to work together to see if they can identify to the extent in which this is occurring in New Hampshire, as well as see if there are any services or resources that would benefit the children that have experienced this as children and as adults that have experienced this when children were involved. Please support the committee's recommendation of Ought to Pass with Amendment and thank you Mister President.

The question is on the adoption of the Committee Amendment. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to Third Reading.

SB 552-FN, relative to transportation of trauma victims by first responders. Interim Study, Vote 5-0. Senator Giuda for the committee.

SENATOR GIUDA: Thank you, Mister President, and members of the Senate. I sponsored this bill as a result of what happened to my wife and in the hearings on the bill and would have authorized a trauma victim's legal representative to specify which trauma hospital the patient can be transported to by first responders. It became clear that there are many more legs to this legislation than initially appeared. And as the prime sponsor of the bill, I agreed with the chairman of the committee that Interim Study would be a good place for this bill. I am working personally with the first responders over in the Department of Safety to bring protocols that are appropriate and up to national standards for the transmission of potential brain injured patients to our first responder community. And so for that reason I would support the committee's recommendation of Interim Study and ask you to do the same. Thank you, Mister President.

The question is on the adoption of the motion of Interim Study. Adopted.

SB 573-FN-A, relative to the controlled drug prescription health and safety program and making an appropriation therefor.
Ought to Pass with Amendment, Vote 5-0. Senator Avard for the committee.

Health and Human Services
February 1, 2018
2018-0426s
01/10

Amendment to SB 573-FN-A

Amend RSA 318-B:33, II-b as inserted by section 1 of the bill by replacing it with the following:

II-b. The chief medical examiner and delegates may register and access the program.

Amend the introductory paragraph of RSA 318-B:35, I(a) as inserted by section 2 of the bill by replacing it with the following:

(a) By electronic or written request to prescribers [~~and~~], dispensers***, and the chief medical examiner and delegates*** within the state who are registered with the program:

2018-0426s

AMENDED ANALYSIS

This bill allows the chief medical examiner and delegates to register and access the controlled drug prescription health and safety program.

This bill also makes an appropriation to the controlled drug prescription health and safety program.

This bill is a request of the controlled drug prescription health and safety program, established in RSA 318-B:32.

SENATOR AVARD: Thank you, Mister President. I move Senate Bill 573 Ought to Pass with Amendment. This bill has two parts. The first part would allow the Office of the Medical Examiner direct access to prescription drug monitoring program for the purposes of conducting investigations. Currently the office needs to request reports from programs administrators and allowing them to direct access would increase their office efficiency. The second part of the bill deals with the long-term funding of the PDMP. This would take 5 percent of the revenues collected from license fees of the medical boards and place them in the PDMP. It is important that the program receive the funding it needs to do the job the legislature has asked it to do. The committee amendment that was requested by the attorney general's office clarifies language to make it consistent with other language used by the medical examiner's office. Please support the committee's recommendation of Ought to Pass with Amendment. Thank you Mister President.

The question is on the adoption of the Committee Amendment. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to the Committee on Finance (Rule 4-5).

PUBLIC AND MUNICIPAL AFFAIRS
SB 394, enabling municipalities to establish term limits for elected officials.
Inexpedient to Legislate, Vote 4-0. Senator Kahn for the committee.

SENATOR KAHN: Thank you, Mister President. I move that Senate Bill 394 is Inexpedient to Legislate. This bill would enable municipalities to establish term limits for elected officials. The committee reviewed this and felt that the legislation needs further clarification before it receives and goes forward. It's very selective as to which offices and municipalities

or towns to which the term limits would apply, and specifically needs some language that would clarify charter towns and cities that can establish those term limits and for which offices. Therefore, the committee asks that you please support the recommendation of Inexpedient to Legislate. Thank you, Mister President.

The question is on the adoption of the motion of Inexpedient to Legislate. Adopted.

Recess. Out of recess.

SPECIAL ORDER

Without objection, the following bill is special ordered to Thursday, February 22, 2018. Adopted.

PUBLIC AND MUNICIPAL AFFAIRS
SB 503, relative to increasing the maximum amount of the optional veterans' tax credit.

SB 504-FN, relative to sales of tax-deeded property.
Ought to Pass with Amendment, Vote 4-0. Senator Gray for the committee.

Public and Municipal Affairs
February 8, 2018
2018-0525s
06/10

Amendment to SB 504-FN

Amend RSA 80:80, I-III as inserted by section 1 of the bill by replacing them with the following:

I. No transfer of any tax lien upon real estate acquired by a town or city as a result of the execution of the real estate tax lien by the tax collector for nonpayment of taxes thereon shall be made to any person by the municipality during the 2-year period allowed for redemption, nor shall title to any real estate taken by a town or city in default of redemption be conveyed to any person, unless the town, by majority vote at the annual meeting, or city council by vote, shall authorize the [~~selectmen or the mayor~~] ***governing body*** to transfer such lien or to convey such property by deed.

II. If the [~~selectmen or mayor are~~] ***governing body is*** so authorized to convey such property by deed, either a public auction shall be held, or the property may be sold by advertised sealed bids. The [~~selectmen or mayor~~] ***governing body*** shall have the power to establish a minimum amount for which the property is to be sold and the terms and conditions of the sale.

II-a. If the [~~selectmen or mayor are~~] ***governing body is*** authorized to transfer such liens during the 2-year redemption period, either a public auction shall be held, or the liens may be sold by advertised sealed bids. The [~~selectmen or mayor~~] ***governing body*** may establish minimum bids, and may set the terms and conditions of the sale. Such liens may be sold singly or in combination, but no fractional interest in any lien shall be sold. Such transfer shall not affect the right of the owner or others with a legal interest in the land to redeem the tax lien pursuant to RSA 80:69, or make partial payments in redemption pursuant to RSA 80:71, but the transferee shall become the lienholder for purposes of RSA 80:72 and 80:76.

III. The [~~selectmen~~] ***governing body*** may, by a specific article in the town warrant, or [~~the mayor ***may***~~,] by ordinance, [~~may~~] be autho-

rized to dispose of [~~a lien~~] ***liens*** or tax deeded [~~property~~] ***properties*** in a manner ***other*** than [~~otherwise~~] ***as*** provided in this section, as justice may require. ***Before proceeding under this provision, the governing body shall make an affirmative finding that disposal by a method other than sealed bid or public auction is in the public interest.*** Amend RSA 80:80, VI as inserted by section 1 of the bill by replacing it with the following:

VI. For purposes of this section, the authority to dispose of the property "as justice may require" shall include the power of the [~~selectmen or mayor~~] ***governing body*** to***:***

(a) Engage a real estate agent or broker to list and sell the property, including a sale conditional on the buyer's obtaining development approvals;

(b) Sell undeveloped parcels to abutters for consolidation into adjoining lots for the purpose of affordable housing development, preserving open space, or reducing development density; or

(c) Convey the property to a former owner, or to a third party for benefit of a former owner, upon such reasonable terms as may be agreed to in writing, including the authority of the municipality to retain a mortgage interest in the property, or to reimpose its tax lien, contingent upon an agreed payment schedule, which need not necessarily reflect any prior redemption amount. Any such agreement shall be recorded in the registry of deeds. This paragraph shall not be construed to obligate any municipality to make any such conveyance or agreement.

2018-0525s

AMENDED ANALYSIS

This bill permits the governing body to dispose of liens or tax deeded property other than by sealed bid or public auction if it is in the public interest.

SENATOR GRAY: Thank you, Mister President. I move Senate Bill 504-FN Ought to Pass with Amendment. This bill as amended permits a governing body to dispose of liens or tax deeded property other than by sealed bid or public auction if it is in the public interest. Parcels could be sold to abutters for purposes of constructing an affordable housing development, preserving open spaces or reducing development density. The committee felt that listing the properties on the open market is in the best interest of the taxpayers. It will give more transparency to the citizens of the town by allowing them to have a say in how the property is used and protect the property values. I ask you please to support the committee's recommendation of Ought to Pass with Amendment. Thank you, Mister President.

The question is on the adoption of the Committee Amendment. Adopted.

(The Chair recognized Senator French.)

SENATOR FRENCH: Thank you. I'd just like to disclose that as an auctioneer and a real estate broker I will be participating.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to Third Reading.

SB 505, requiring abutter notice of the construction of a crematory. Ought to Pass, Vote 4-0. Senator Ward for the committee.

SENATOR WARD: Thank you, Mister President. I move Senate Bill 505 Ought to Pass. This bill requires abutter notice of the construction of

a crematory. The committee felt that this legislation was appropriate given the sensitive nature of the crematory business, and the emotional and physical effect it may have on nearby property owners. Studies have shown that the operation of a crematory produces odors and smoke that may be unpleasant to those in the immediate vicinity. This notice will allow the affected abutter to appeal to the town zoning board if they have objections. I ask that you please support the committee's recommendation of Ought to Pass. Thank you, Mister President.

The question is on the adoption of the motion of Ought to Pass. Adopted, bill ordered to Third Reading.

SB 508, establishing a committee to study the prevalence of post-traumatic stress disorder (PTSD) among first responders.
Ought to Pass with Amendment, Vote 4-0. Senator Ward for the committee.

Public and Municipal Affairs
February 8, 2018
2018-0535s
08/04

Amendment to SB 508

Amend the title of the bill by replacing it with the following:

AN ACT establishing a committee to study the prevalence of post-traumatic stress disorder (PTSD) and other related disorders among first responders.

Amend1 the bill by replacing section 1-3 with the following:

1 Committee Established. There is established a committee to study the prevalence of post-traumatic stress disorder (PTSD) and other related disorders among first responders.

2 Membership and Compensation.

I. The members of the committee shall be as follows:

(a) Two members of the senate, appointed by the president of the senate.

(b) Three members of the house of representatives, appointed by the speaker of the house of representatives.

II. Members of the committee shall receive mileage at the legislative rate when attending to the duties of the committee.

3 Duties. The committee shall study the prevalence of post-traumatic stress disorder and other related disorders among first responders, including police officers, fire persons, and emergency medical service providers, and consider how to mitigate cases of PTSD and other related disorders in those fields.

2018-0535s

AMENDED ANALYSIS

This bill establishes a committee to study the prevalence of post-traumatic stress disorder and other related disorders among first responders.

SENATOR WARD: Thank you, Mister President. I move Senate Bill 508 Ought to Pass with Amendment. This bill as amended establishes a committee to study the prevalence of post-traumatic stress disorder and other related disorders among first responders. The committee found that post-traumatic stress is a chronic condition which is taking a toll on first responders and emergency room personnel. The impact of repeated

exposures to the worst of crime and medical situations is evident in the mental health of these public servants. Studies have shown that the rates of depression and suicide are much higher among first responders. This established committee will take a deeper look at post-traumatic stress and other related disorders to investigate its prevalence and treatment options available. Recognizing the problem publicly is an important step towards reducing the stigma of mental health disorders among the best of our society. I ask you to please support the committee's recommendation of Ought to Pass with Amendment.

The question is on the adoption of the Committee Amendment. Adopted.

(The Chair recognized Senator Avard.)

SENATOR AVARD: Thank you, Mister President. As the prime sponsor of this bill I first want to thank the Dean of the Senate. He was the first person I asked to co-sponsor this and I walked into his office and it was a matter of seconds before he just said yes, no problem. And this is a bipartisan bill. We all understand that our first responders are critical to our infrastructure here in New Hampshire. A year back I went on a ride-along with Officer Casey Finn from Manchester, and when I went on the ride along with the officer I had to put on this vest, and I had to sign a release form, and it became very real at that moment. And the first call that we went on to, the people, it was a domestic violence situation and the people were yelling at him before he even got out of the car, and crossing the road. This is what our first responders have to go through on a routine basis. This eventually has its toll. I was just talking to the chief from Franklin, you know when I was a city councilor there, there was a fire where three people lost their lives. To this day it still troubles him. It's a scar that is right there, right on the surface. It's everywhere, it's in their minds it's in their heart and they have to deal with this. I know first responders from EMS people that have suffered based upon what they've seen. They protect us from a lot of things. So I'm happy for the co-sponsors on this bill and I'm happy to look into this and see how we can help. So I just wanted to say that.

(The Chair recognized Senator Soucy.)

SENATOR SOUCY: Thank you, Mister President. Mister President I rise neither in support and opposition of Senate Bill 508, but I rise to emphasize that our firefighters, police officers and emergency service workers are on the front lines, protecting us and our homes, patrolling our streets and rushing to the scene of the most serious and tragic incidents that occur in our communities each and every day, whenever they're called, whenever they're needed. And we can only imagine the things that they see on a daily basis. You know last session we recognized their exposure to traumatic events and long lasting effects with the passage of Senate Bill 507, sponsored by our colleague from District 3. In the committee our colleague highlighted not only the armed forces who suffer from PTSD, but also our first responders, and I'm grateful that the chamber last year recognized how important this is. However I believe this bill questions a little bit some of the previous work we did on proclaiming June PTSI Awareness Month. In testimony we received in both Public and Municipal Affairs and the Commerce Committee just in recent weeks, multiple studies were cited affirming the prevalence of PTSD in the first responder community. And I guess I just ask all of you to consider the weight of that evidence since so many of us serve on those committees, the academic peer reviewed and published studies

spanning decades about the incidence and prevalence of PTSD among our first responders. And having recognized all of that and heard all of that and for many of us who've done ride-alongs, witnessed all of that, I just question at this point whether five legislators are going to be able to gather additional information to move this issue forward. You know the chamber has taken several steps in the right direction with respect to mental and behavioral health issues. However I think if we wait another year to study this it just means that the people that we already recognize as being on the front lines, as already having PTSD, will just wait that much longer for services. So I hope that we can take steps this year to advance this process a little more rapidly. Thank you, Mister President.

(The Chair recognized Senator Kahn.)

SENATOR KAHN: Thank you, Mister President. As a member of the Public and Municipal Affairs Committee I voted in support of this, I'm still in support of this. However, I just want to clarify a concern raised in the committee and that is that we do have another Senate Bill that deals with trying to provide worker's compensation for first responders that face post-traumatic stress disorders and without creating any prejudice to the Senate Bill 553 which is still moving through committee, but also not creating prejudice either way, that I don't think that this study interferes with us continuing to act on Senate Bill 553 on creating the unemployment compensation concern and trying to address it. I think there's a lot known about PTSD that first responders face. I think there's a lot of rationale for continuing to study and understand how to try to mitigate as this bill says, try to mitigate the effects of PTSI. But one thing that we can do, going forward is to consider the compensation for first responders when they need treatment and how we can go about doing that and delivering that. So I hope that we can allow the both of these serve a purpose during this session and carry both ideas forward. Thank you, Mister President.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to Third Reading.

SB 509, allowing municipalities to require income and expense information of business properties for tax appraisals.
Inexpedient to Legislate, Vote 4-0. Senator Birdsell for the committee.

SENATOR BIRDSELL: Thank you, Mister President. I move Senate Bill 509 Inexpedient to Legislate. This bill would allow towns and cities to require owners of business property to provide upon request income and expense information for purposes to determine market value. The committee felt that requiring business owners to provide this information to the municipality was an overreach of government. Historically, the factors that decide fair market value are investigated and provided by the municipality's property assessors. The committee found no justification to transfer that burden to the business owner. Therefore, I would ask you to support the committee's recommendation of Inexpedient to Legislate. Thank you, Mister President.

The question is on the adoption of the motion of Inexpedient to Legislate. Adopted.

SB 510, relative to municipal notice of leases on tax-exempt property.
Ought to Pass with Amendment, Vote 3-1. Senator Gray for the committee.

Public and Municipal Affairs
February 8, 2018
2018-0523s
05/04

Amendment to SB 510

Amend RSA 72:23, I(b)(1)(B) as inserted by section 1 of the bill by replacing it with the following:

(B) The lessors of all leases and other agreements, the terms of which provide for the use or occupation by others of real or personal property owned by the state or a county, city, town, school district, or village district, including those properties identified under subparagraph (d), shall notify the municipality of the lease and other agreement by April 15 of each year.

Amend the bill by replacing section 2 with the following:

2 Effective Date. This act shall take effect January 1, 2019.

2018-0523s

AMENDED ANALYSIS

This bill requires lessors of tax-exempt public property to annually notify the municipality of the lease or any similar use or occupancy agreement.

SENATOR GRAY: Thank you, Mister President. I move Senate Bill 510 Ought to Pass with Amendment. The bill as amended requires lessors of the tax-exempt public property to annually notify the municipality of the lease or other agreement by April 15. According to New Hampshire statute RSA 72:23, if a public tax exempt property leases a portion of that property to a non-profit business, the portion becomes taxable. Currently the reporting requirements for the lessors is to notify the assessors of the leases are unclear and therefore the municipality loses out on tax revenue. The committee asks you to support the recommendation of Ought to Pass with Amendment. Thank you Mister President.

The question is on the adoption of the Committee Amendment. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to Third Reading.

SB 513, establishing September as New Hampshire recovery month. Ought to Pass, Vote 4-0. Senator Birdsell for the committee.

SENATOR BIRDSELL: Thank you, Mister President. I move Senate Bill 513 Ought to Pass. This bill establishes September as New Hampshire Recovery Month. Unfortunately, there are many in our state who are struggling with opioid and various other addictions. Establishing a recovery month pays tribute to those who live in recovery every day and acknowledges the triumphs and struggles involved. Furthermore, it will help educate and encourage those who are struggling with addiction and the general public with the message that treatment works and recovery is possible. Nationally, September is recognized as Recovery Month and with this bill New Hampshire can reinforce our recognition of the importance of treatment and recovery. Therefore, I ask that you please support the committee's recommendation of Ought to Pass. Thank you Mister President.

(The Chair recognized Senator Watters.)

SENATOR WATTERS: Thank you, Mister President and colleagues. I rise to give my deep thanks to the committee on this. I also want to give

great thanks to the members of the recovery community who came out to support this and we may have some here today with us in the gallery, I wasn't sure if there was people that were going to come. I also particularly want to thank the Governor for in previous years having celebrated this with a proclamation and I speak for myself and my brothers and sisters in the recovery community, for me thirty-four years of one day at a time now and I think this is a really nice moment for New Hampshire to say that we, here in New Hampshire, want to recognize this in our state statute as recovery month. Thank you, Mister President.

The question is on the adoption of the motion of Ought to Pass. Adopted, bill ordered to Third Reading.

MOTION OF RECONSIDERATION

Senator Bradley, having voted on the prevailing side, moved to reconsider SB 513, the bill having previously been found Ought to Pass. Adopted.

The question is on the adoption of the motion of Ought to Pass.

A roll call was requested by Senator Avard, seconded by Senator Giuda.

The following Senators voted Yes: Woodburn, Giuda, Bradley, Watters, Hennessey, Gray, French, Ward, Sanborn, Kahn, Daniels, Avard, Lasky, Carson, Feltes, Cavanaugh, Reagan, Soucy, Birdsell, D'Allesandro, Fuller Clark, Gannon, Innis, Morse.

The following Senators voted No: (None)

Roll Call, Yeas: 24 - Nays: 0. Adopted, bill ordered to Third Reading.

FINANCE

CACR 21, relative to alcohol and drug abuse prevention. Providing that a portion of liquor commission revenue shall be used for alcohol and drug abuse prevention.

Inexpedient to Legislate, Vote 4-2. Senator Daniels for the committee.

SENATOR DANIELS: Thank You, Mister President. I move CACR 21 Inexpedient to Legislate. We all agree that we are battling an opioid crisis, but this is a fight that we can win without a constitutional amendment that would require 5 percent of the previous fiscal year gross profits derived from the New Hampshire Liquor Commission from the sale of liquor be appropriated and used exclusively for alcohol and other drug abuse prevention, treatment, and recovery services. We have taken some very positive steps and calculated steps to address this issue head on. The legislature over the past few years has been extremely responsive to the various and ever changing needs of the opioid crisis. And we've established a comprehensive plan to address crucial needs including prevention, treatment and recovery efforts in all corners of the state. In fiscal year '18- '19 budget alone, we doubled the state funding, sending over 70 million to communities to fight this crisis. This funding includes: $601,678 for the Office of Substance Abuse Disorder and Behavioral Health, $6,889,167 for drug court funding, $1,938,247 for drug task forces, $1,605,431 for regional drug task force, $900,000 for prevention drug monitoring program, $250,000 for the residential substance abuse, $56,902,879 for the Bureau of Drug and Alcohol Services, $4,495,000 to establish a drug border drug interdiction program. That's a total of $73,582,402 we have allocated toward this fight in just the last year. Add to that the 40 percent of funds that were left unspent in the Alcohol Fund at the end of the last biennium, which was approximately $3 million and another $26 million via the Medicaid expansion and we

have over $102 million we are using, or plan to use, in this biennium to counter alcohol and drug abuse. It is now time to do our due diligence and acquire clear and convincing evidence of the effectiveness of these funds before appropriating additional monies.

Another important thing to remember is that CACR 21 would establish an unprecedented mandate for specific spending in the constitution. We will continue to fight this crisis with diligence, perseverance and commitment. We only need a constitutional amendment if we willingly abrogate our responsibility to be accountable to the effectiveness of the funds we have already dedicated to this endeavor. We will win this battle. We will not need any additional funding with this. And when we win, we will not need the additional funding that this constitutional amendment seeks. And we will win Mister President, for losing is not in our character. For that reason, I ask the body to support the Finance Committee's recommendation of ITL on CACR 21. Thank you, Mister President.

(The Chair recognized Senator Woodburn.)

SENATOR WOODBURN: Thank you, Mister President. I rise in opposition. Yesterday a group of legislators and members of the faith community gathered across the street at St. Paul's Episcopal Church to celebrate Ash Wednesday and our great Senate Chaplain provided a sermon that really tested all of us there and he asked us to take a look at the state of our soul. And he pushed us to assess our own selves and how we sometimes have a tendency, particularly in this business to over play our response and our decency and morality and our open mindedness, which sometimes gets caught in the fight of the day. He illustrated that call with a story from C. S. Lewis and after a hard day of work C. S. was walking with a buddy of his to the local pub to enjoy a pint. And along the way he was approached by a man, a kind of befuddled man, maybe we'd call him homeless today, who was asking for change and C. S. took the change out and handed it to the guy and his attentive friend said, "you know he's only going to spend it on booze," and C. S. said, "that's what I was going to spend it on." So that's the situation that we're in, this CACR is a simple, asking for 5 percent of the gross profits from our state liquor stores. New Hampshire is famous for its frugality, and it borderlines at times on abandonment. We spend less than most states, we provide less treatment and access to treatment than most states, the vast majority and we have near record deaths, near record overdoses. We see families, communities, private property, schools, law enforcement, health care taxed by this epidemic. It's ravaging our communities and we need to address it. And we have the state liquor store, a monopoly, a tremendously successful monopoly that makes $700 million a year. And we're asking is that 5 percent of the gross profits go to the alcohol fund to fight substance abuse, treatment, recovery, intervention, prevention.

The state of New Hampshire, a state that pushes booze on its highways, needs to be pushing treatment, recovery and services that we need to provide in people in need. We are the wealthiest state in the nation, yet we spend 12 times more money on a tax cut for the wealthiest among us, than we do on substance abuse, treatment and recovery. You know this alcohol fund has become a political football, I have the history here, the great history of this idea, dating back to Senator Ned Gordon's proposal which was vetoed by a Democratic Governor. And in that day he brought in, and I think the Dean of the Senate was here, he brought in cases of beer and put little drops to show how much actually went into the alcohol fund. And it was the idea on an Alexandria student that said we

should be for taking and spending money on alcohol in the state of New Hampshire that we should be helping those who are addicted to it. And it wrote in perpetuity, in perpetuity. They thought in 2000, in perpetuity, but we all know what happened. We all know it was funded once at 5 percent, and we know this legislature– I was a member here– that we fully funded it and then we dropped the number down, and we played games. Well the party is over. The party is over. We need to take this issue, take the alcohol fund, put it in the constitution so we can solve this problem, we can solve this problem, but we can't solve it with small ideas, small investments, we need to make a concerted real serious effort.

You know substance abuse, we talked about how proud we are, how proud we are to have a day in September, and that's a great thing. But let's not just have a day in September, let's really make a serious investment. Substance abuse whether it be alcohol or opioids, is kind of like what Mark Twain said about the weather; everybody talks about it, but nobody does anything. Let's do something today, let's not wait, let's act, let's take this out of politics, let's put it in the constitution and ensure it's not touching these legislative hands, it's going directly to the services that people need, let's get the job done. Thank you, Mister President.

(The Chair recognized Senator Sanborn.)

SENATOR SANBORN: Thank you very much. I rise and thank my good friend from the North Country for your comments, because this is one of the most important conversations we can have. And you're absolutely right my good friend, we cannot solve this problem with money alone. Our conversation needs to change from dollars to sense. We have to go and look at how good of a job are we doing, not how much money are we throwing at the job. We have to recognize the fact that we all, every single one of us, know we have a crisis, every single one of us have participated, every single one of us have brought ideas to the table. But our solution to this problem isn't just about money. You know I heard our Governor speaking this morning about all the things that we have been able to do that he has led on, that we have supported him on. We talked about we now have a teen addiction center. We now have a center specifically for pregnant moms. The Governor spoke today about the fact that we are considering today in one of our committees, establishing New Hampshire as the first place in America that'll specifically designate us as a workplace recovery-free center. That we recognize people are struggling on the jobs that we, in the state of New Hampshire, are trying to come up with a program to solve the problem, not just with money but with programs that'll make it work for us. When I first came here and we first began discussing this problem we were spending $4.5 million dollars on the opioid crisis. Today from my calculation, this year we're going to spend over $150 million dollars. We talked about the $70 million from my good friend the Finance Chair, we know in Medicaid expansion we spent another $27 million. I know from one specific insurer, just one of the insurers in this state, they have paid out over 139,000 individual claims for $53 million in new substance treatment in 2017 alone.

My friend, our issue today isn't, are we throwing enough resources at this problem? Our issue today is are we being effective with the money that we're spending? Now we all recognize today that we have seen that even with all the resources available some of our providers of support have struggled and in fact have failed. It's not due to lack of trying, it's due to what my concern is: our need to continue to really understand what our problem is and come up with good long term solutions that help our

people. My friend, you know how passionately I personally believe that we need to make a prescription drug monitoring program mandatory. We have to shut off the faucet from creating new addicts. Something this legislature could do without spending any money. You know how this body itself led the charge to recognize that peer to peer recovery is a viable alternative we should be looking at and I thank you so much for coming to the table and helping to pass direct funding to that organization, which is actually seeing results. Our need today is solutions; our need today is an accountability of the money that we're spending in order to get these opioid overdoses down, in order to get the deaths down. So as the Governor said, craft this solution. I know we all care about this, I know we are all working on this, I know I've seen the Governor, I've heard the Governor. It's so important to him and every single one of us in here, so I implore this body to change this direction from whenever there's a problem, it's only about money. Two, we have a problem and let's see how we solve it. So with that I ask the body to vote down this amendment on the constitutional amendment and let's find solutions with the resources we know we're using today to make them more effective to help the people we have. Thank you, Mister President.

(The Chair recognized Senator Watters for a question of Senator Woodburn.)

SENATOR WATTERS: Thank you, Senator for taking my question. You know I'm sure we share our appreciation of the work that the Senator from District 11 and the previous Senator from District 2 and really the whole body has done on increasing funding, but wouldn't you say that there's something that now all money is really just fundable that there's a particular responsibility since we are a state control on liquor that it suggested a particular responsibility that we decided to make money off of this that we need to dedicate money from that sale towards recovery services?

SENATOR WOODBURN: Thank you for the question, Senator. Of course we have a moral responsibility to make sure as people who are pushing, the state who is pushing booze on our highways, we have a moral responsibility to do more. And when I hear all this that we're doing too much, we're doing too much; if it was your kid, you'd be doing more, you'd be doing everything possible to get your kid clean. That's what you'd be doing, and that's what I'd be doing, and that's what we should be doing.

SENATOR WATTERS: Thank you, Mister President. Also we heard the Senator from District 11 suggest that it would be unprecedented to put an expenditure stream like this into the constitution, but isn't it the case that to get politics out of it we have the road toll in the constitution and the pension fund in the constitution?

SENATOR WOODBURN: That's correct, Senator, and also we have the lottery, which is also a protected fund. So this, it's been a process to protect from the politics of usual to be able to ensure that these priorities get funded.

SENATOR WATTERS: Thank you, Senator.

(The Chair recognized Senator D'Allesandro.)

SENATOR D'ALLESANDRO: Thank you, Mister President. Mister President, I rise in support of the amendment. I'd like to talk to my colleagues as mothers and fathers, sisters and brothers of a person who is an alcoholic. What if your kid comes home one night stumbling and drunk. You thank God he got home, but he drove that car home and he could have

been in an accident. I was in this chamber when we voted this piece of legislation into law. That piece of legislation mandated that 5 percent went into a fund because we wanted to protect our children, we wanted to protect our families. Our Chair of Finance has given really a great iteration on the money we are spending and I applaud that. I applaud the fact that we have spent more money than other legislatures have spent. But there was a need, so we addressed the need.

When Senator Gordon sat in that seat and sponsored this bill, along with Representative Lemire, it was the culmination of years of activity, years of the carnage that takes place on our highways. There are more people dying in this state from alcohol than anything else. DWI's; look at them, look at the crashes on the highway, look at them on a daily basis. That's alcohol. What's our basic way of treating alcohol? What is it? It's Alcoholics Anonymous. As I said in my committee; they meet every Saturday morning in my district at a local restaurant. You know how full that room is? It's packed. It's packed with women, it's packed with young people, it's packed with older people. What are they there for? They're there to be part of a brotherhood that hopefully supports them and keeps them from returning to the most dangerous demon in the world, alcohol. The demon rum is pervasive, and it's been around since the beginning of time, since the beginning of time.

We have an opportunity as a legislature to do something that our fellow Senators did. They fully funded the program. And Mister President, I applaud you in terms of restoring money to that program and getting it to the level where it is. But I'm very, very suspicious of suspension. There are seven pages of suspensions in the budget that we passed. Seven pages of suspensions. You can suspend any time, and we do it, we do it on a regular basis. If you put this in the constitution you can't suspend it. Very few people have suspended the constitution. One was Abraham Lincoln when he suspended habeas corpus during the Civil War. Had a reason for it. But we didn't like it. We don't like our children dying.

I'm a coach I've been a coach all of my life. My players, many, many of whom, great Americans, but a few of them alcoholics. I'll cite you one example of a kid that I coached at Manchester Central High School, who was in an automobile accident when he was at the University of New Hampshire. He was driving on that Durham Road, and Senator Watters knows about that road because the kids drive it all the time on their way to Portsmouth to drink, because Durham was dry during those days. Gets in an automobile accident and becomes a paraplegic; a paraplegic, his life is gone. His life is gone; a kid who had the kind of potential that would make us all feel really good about it. He had potential. He ends up a paraplegic. Alright, thankfully he was able to recover and pull himself out. The quarterback of my football team at Bishop Bradley High School, he died walking up and down Elm Street. He died as a drunk. Went in the service, where you could get a beer for ten cents when you went to the PX. They gave it to you because you were fighting, you were defending this country and what do they give you? Alcohol. My friend who was in the corps knows that, and you could buy it at the PX for a very minimum price. We have an opportunity to save those lives. Boy, that's a wonderful, wonderful thing when you can save a life. We've got to think about that. We've got to think about our commitments here.

Senator Gordon was a brave guy. He's now a judge. Ask Senator Gordon how many cases he deals with on a regular basis. Republican Senator Gordon not a Democrat, Republican Senator. Ask him how many DWI's

he deals with from the bench, and what do we do? We put them in jail. Now that's a big cure isn't it? We put them in jail. How long must they go to jail? They've got to go for at least a year, so we fill up the jail, we've got a full house in Concord, we've got a full house in Berlin. How many are there for alcohol related problems, how many? At a cost of what, $35,000 a year? Think of it. Think about that Corrections budget, and how it grows and grows and grows. So we have an opportunity. It's not easy to do this, it's not easy to make this commitment, but we have to make a commitment to saving the lives of human beings. I've got three kids, I've got nine grandchildren, I have two great-grandchildren. You think my grandsons aren't going to drink? They're not going to go out some day and have a few beers or something when they shouldn't? Yeah. And what have I got to do? I've got to be on them all the time. Yeah, you've got to be on them, don't do that, don't let yourself be caught in that trap. But on the other hand let them how about all the kids that were caught in that trap? Don't we have a responsibility to take care of them? We, as Senator Woodburn pointed out, we sell alcohol, we are a control state. You know what that meant in the old days? We would control the sale of alcohol, we were going to control it. We are the second leading seller of alcohol in America. Only Pennsylvania supersedes us. Only Pennsylvania and our profit margin is greater than Pennsylvania's. So we're in the business. If you're in the business, you've got to deal with the repercussions. And we've got to wake up to that fact. It may not happen here today, but we are going to have to live with this for the rest of our lives, because that kid, our neighbor, our friend, that youngster you had in school; one of them is going to die. One of them is going to have a serious accident, and what have we done to protect them? We were supposed to be teaching in the schools, we were supposed to be spending money on PSAs about drinking and driving, drinking and driving, about over drinking. It hurts everybody across the board. So my plea to my colleagues is think about it. Just think about it, and think about what you would do if that case came home to roost on your door. Think about it. I think about it every day. When I see my grandson play, I go to him, I put my arms around him, I give him a kiss and I say, boy I'm glad you're safe from playing hockey, and I tell him please don't get involved in drinking. Just don't do it. Because if you do we're all going to suffer. It's a plea for you to think about it, just think about it. Every vote counts I understand that and I understand how to count, I know that too, I've been here long enough to know that. But I can say this, we have a responsibility. Don't lose your moral compass, because it's something that we'll have hopefully for the rest of our lives. We're only going to be here for a short period of time. But what we do here remains basically in perpetuity. Thank you, Mister President.

(The Chair recognized Senator Fuller Clark.)

SENATOR FULLER CLARK: Thank you. It's a little hard to speak after Senator D'Allesandro made such a compelling statement. I think it's important to put in context that both Republican majorities and Democratic majorities in the past have abrogated their responsibility. Time and time again when there was pressure on our budget, our general fund, we did not honor that 5 percent commitment that we had agreed to under the leadership as you heard of Senator Gordon. Right now on a daily basis we have fifty to sixty people waiting in emergency rooms around the state because we don't have the adequate number of treatment centers. We don't have the treatment centers for people who are suffering from alcohol. But the number of people with alcoholic problems in this state

is going up, it's not going down. And the opiate addiction crisis has sort of pushed that out of the way but we have a responsibility both to those people who are struggling with alcohol addiction and also with the opiate addiction and other types of addiction with regard to drugs. And I heard what our good Senator said from Senator District 9 about what we need to look at how effective we're being and not look at the resources. Well we can't be effective without resources to move forward. We've seen that in the last year from the amount of money that we've upped to spend on the opiate crisis, but where are we right now? We still have the highest number of deaths or second highest number of deaths in the country. We cannot solve these problems around addiction by investing only halfway. And we can't put this money at risk in the future by continually letting it be part of the discussion about how we're going to allocate our general funds from one year to the next. By voting for this CACR we're going to protect those monies for the future and make sure that we have them, not only to address those people who are suffering from addiction, but also to do a much more intensive education around the problems related to addiction and that costs money to do that. So I'm just here to say that we all have abrogated our responsibility at one time or another. But now we have an opportunity to put that program in a lockbox so it continues in the humanitarian way that it was set up to do to address the citizens of this state who are struggling with a wide range of addiction. Thank you.

(The Chair recognized Senator Bradley.)

SENATOR BRADLEY: Thank you very much, Mister President. You know I find it interesting as I often do when we have these significant issues that come to this floor and how we all try to do the best that we can for our state and for our constituents, and I think we have. Maybe not perfect, but we've done a lot. We've done more than a lot. To my friend from the North Country; we haven't thought small, we've made a commitment. Senator from District 11 outlined that commitment that we've made over the last several years. Now our friend in the chair and our friend from Senate District 11 are the mathematicians here but I think what we're arguing about is the difference between 3.4 percent and 5 percent, which if I have it correct is $3 million and if I listen carefully to the great job that our Senate Finance Chair just did listing all of the initiatives that we've funded it's over $100 million. So have we met our responsibilities? Absolutely. Have we abrogated them? Clearly not. Have we invested in substance abuse? Absolutely. Have we treated the substance abuse and mental health crisis, as moral imperatives? Absolutely. My friend from District 11 talked about the dollars spent; let's talk about what some of those dollars have bought. The prescription drug monitoring program, which has been upgraded, and legislation that I believe while I was out of the room we voted on, we'll put it on a secure funding basis. We changed prior authorization law, I think our friend from Concord had a lot to do with that, and our former colleague from District 24 had a lot to do with that. The Governor called for creating an outpatient drug treatment center at the Sununu Center, it's in the process of being built. Our friend from the House, Representative Rosenwald, led the effort on reforming prescribing guidelines. We've done a huge amount to put more state troopers on the road and fund Granite Hammer to try to interdict drugs coming into our state.

Former Governor Hassan led the effort to have appropriate penalties for dealers of heroin and fentanyl. That was changed a couple of years

ago. We have put millions of dollars into this crisis, and somehow we are arguing about whether it's 3.4 percent, which it is today, or 5 percent misses the big picture of what we've done. But because words like abrogated responsibility or not fulfilling a commitment or not investing in the necessary funding for New Hampshire, I just have to ask the question; wasn't the 2015 budget vetoed, when we raised the alcohol fund to 1.7 percent? And didn't some of us vote against the budget that raised the funding level from 1.7 to 3.4 percent? If we want to talk about moral imperatives, let's talk about the 23,000 people that all of us ought to be thinking about, that need us to reauthorize our Medicaid expansion law. Some of us don't like it, some of us like it, some of us want it changed. That's a moral imperative. That should be a bipartisan moral imperative. It's going to call for each and every one of us to think about not only those 23,000 people, but the 50,000 people who benefit from that and get outside our comfort zone and not make the perfect the enemy of the good. That's our moral imperative. We have met, as our friend from Milford so eloquently described, the funding imperatives for substance abuse and I think we can and should do more, but this is not the right way to do it, which is why I ask for you to vote Inexpedient to Legislate on this, and remember what our moral imperatives really are and the issues that will come before us in the very near future. Thank you, Mister President.

Recess. Out of recess.

PRESIDENT MORSE: I do think we have some guests still from the Vesta Roy group. Welcome. We have more than a few members in the Senate who have gone through the program. Some of them are here working today and it's a great program and we thank Speaker Sytek for still being involved with it. I know she didn't come upstairs but we wanted her to, so thank you very much and thank you for coming in.

(The Chair recognized Senator Woodburn.)

SENATOR WOODBURN: Thank you, Mister President. I just want to hopefully end this conversation with just the salient point that this is not about the percentage, it is about the commitment that we've made as a legislature and enshrining it in our constitution. Thank you, Mister President.

PARLIAMENTARY INQUIRY

(The Chair recognized Senator Sanborn for a parliamentary inquiry.)

SENATOR SANBORN: My inquiry would be is being this as a vote to recommend passage of a resolution for ITL versus passage, is it a 50 percent vote plus one or is it 2/3 at this point?

PRESIDENT MORSE: You'd need thirteen votes to adopt the Inexpedient to Legislate.

SENATOR SANBORN: You'd need thirteen to adopt Inexpedient. Thank you, Mister President.

The question is on the adoption of the motion of Inexpedient to Legislate.

A roll call was requested by Senator Daniels, seconded by Senator Sanborn.

The following Senators voted Yes: Giuda, Bradley, Gray, French, Ward, Sanborn, Daniels, Avard, Carson, Reagan, Birdsell, Gannon, Innis, Morse.

The following Senators voted No: Woodburn, Watters, Hennessey, Kahn, Lasky, Feltes, Cavanaugh, Soucy, D'Allesandro, Fuller Clark.

Roll Call, Yeas: 14 - Nays: 10. Adopted.

SB 542-FN, relative to the use of funds in the revenue stabilization reserve account for public health emergencies.
Inexpedient to Legislate, Vote 4-2. Senator Daniels for the committee.

SENATOR DANIELS: Thank you, Mister President. I move Senate Bill 542-FN Inexpedient to Legislate. This bill permits the withdrawal of funds from the Revenue Stabilization Reserve Account or the Rainy Day Fund, to address a public health emergency declared by the Governor or by the General Court. SB 542 would allow the fund to be accessed without requiring proof that funding or other resources appropriated by the state for a public health emergency have been exhausted, or are being used most effectively. This bill fails to develop a compelling plan on how to utilize these critical funds. Members of the Senate Finance Committee believe the legislature has a responsibility to the citizens of New Hampshire to protect the Rainy Day Fund. Drawing from it should only be done in a cautious and well-thought out manner. The committee recommends Senate Bill 542 be found Inexpedient to Legislate and asks for your support. Thank you, Mister President.

(The Chair recognized Senator Feltes.)

SENATOR FELTES: Thank you very much, Mister President. Mister President, I rise in opposition to the recommendation of Inexpedient to Legislate. It's a rainy day right now, on the opioid epidemic. Using a portion of the Rainy Day Fund to combat the opioid epidemic makes good sense. It also makes good sense in terms of potentially in terms of mental health Mister President, something that the Governor and folks in this chamber have made a priority and the Governor made a priority in his speech earlier and certainly more resources need to be directed in the mental health crisis. We have an issue based on hearing from law enforcement that meth is a growing problem in our state in terms of public health. This bill allows the Governor to declare a public health emergency and then allocate up to 10 percent of the Rainy Day Fund in order to combat that public health emergency. And it allows the Governor the discretion to work with the stakeholders, work with the commissioner, work with the law enforcement community to develop a plan which with the oversight by the Fiscal Committee and Executive Council can get out the door to combat this epidemic. Now let me address some of the arguments against this that we've heard. We've heard one argument that this is one time spending and we don't do one time spends. That's not accurate, we've done that a lot over the last few years, we've done it on the PDMP, we've done it on recovery and transitional housing, we've done it on Granite Hammer, there are plenty of efforts that we can do in a constructive way that we have done in a constructive way, in a bipartisan way with one time spends to combat the opioid epidemic. There's an argument that it's not clearly laid out what the Governor must do in the legislation, but that's intentional. We wanted to give Governor Sununu the discretion to develop a plan, working with the Governor's Commission to combat the epidemic. Third, there's an argument about the rainy day fund, but the indication from the treasurer is that this will not affect our bond rating if up to 10 percent of the rainy day fund was used to combat the opioid epidemic.

And lastly, we've heard that we spent a lot of money already and that there isn't measurement of effectiveness; there are reports on effectiveness on the return on investment in everything that we spent, and the Governor went to Washington D.C. to ask President Trump for $350 million. This would authorize up to $10 million. The notion that the Governor does not have an ability to construct a plan to spend $10 million is inaccurate. He asked for $350 million. The last argument that we've heard is just a political argument that this is a political gotcha thing. I'm not going to respond to that. It's I think a completely inaccurate argument. Everybody here is serious about combatting these crises. So to just cast it as a political gotcha I think is troubling. Lastly, I'll just say this; I know this is a creative idea that some don't see as perfect, but as my friend from Wolfeboro said sometimes you have step out of your comfort zone and not let the perfect be the enemy of the good. This is an idea without raising taxes or fees that we can do right now to combat these public health emergencies. So, I'd respectfully request that we overturn the motion of ITL and we move forward with Ought to Pass. Thank you, Mister President.

The question is on the adoption of the motion of Inexpedient to Legislate.

A roll call was requested by Senator Woodburn, seconded by Senator Sanborn.

The following Senators voted Yes: Giuda, Bradley, Gray, French, Ward, Sanborn, Daniels, Avard, Carson, Reagan, Birdsell, Gannon, Innis, Morse.

The following Senators voted No: Woodburn, Watters, Hennessey, Kahn, Lasky, Feltes, Cavanaugh, Soucy, D'Allesandro, Fuller Clark.

Roll Call, Yeas: 14 - Nays: 10. Adopted.

HB 561-FN, relative to part-time employment of a retirement system retiree by a participating employer.
Inexpedient to Legislate, Vote 4-2. Senator Reagan for the committee.

SENATOR REAGAN: Thank you, Mister President. I move House Bill 561 Inexpedient to Legislate. This bill changes the already arbitrary limit on employment of a retirement system retiree to an annual 1,300 hour limit, or up to 1,600 hours if a surcharge is paid by the retired member and the employer. The bill also arbitrarily prohibits part-time employment in the first twenty-eight days after retirement. Finally, House Bill 561 establishes a punitive and arbitrary penalty for retired members who exceed the annual arbitrary part-time hour limits. A majority of the Senate Finance Committee believes this bill will force trained, competent retirees to seek part-time employment outside of our New Hampshire towns, counties, cities and state, and will cost taxpayers more to fill public safety needs statewide, and will do nothing, and all recognize this, to help the financial status of the retirement system. Moreover, HB 561 creates problems in municipalities that have always had part-time position, and have difficulty recruiting and retaining qualified part-time workers. The committee recommends House Bill 561 Inexpedient to Legislate and on behalf of the towns and cities and counties in the state, asks for your support on Inexpedient to Legislate.

(The Chair recognized Senator Carson.)

SENATOR CARSON: Thank you very much, Mister President. I rise to speak against the ITL motion and ask the body to overturn the ITL motion so that I can offer a subsequent motion. Mister President, we have discussed this issue quite a bit in this chamber since January and

I'd like to remind people of a few things. First of all, my colleague from Senate District 4 and I spent a good portion of the summer, all fall and even during the Christmas holidays working on the Decennial Commission. And this was in part, a recommendation of the Decennial Commission. As you all are aware, the original amendment capped the hours at 1,040. This was voted on and adopted by the commission, but when we brought that forward it really seemed to cause a lot of problems because most municipalities in this state hired individuals to work the twenty-five hours a week, which comes out to 1,300 hours a year. We felt we did not want to harm the municipalities or the people that were working there so we kept that 1,300 hours in place. These folks who do this are not going to be harmed, nor are the municipalities in any way. These folks are going to be able to work, in fact the documents that we received from the retirement system showed that most people worked on the average of twenty hours a week. The folks that do work the 1,300 hours a week are the folks that are seasonal workers, folks that are in our good friend from Senate District 24, their district out at Hampton Beach and at the state parks, again because they're going to be working basically a full-time job during a very short intense period of time.

The retirement system asks for a penalty because there are people that do go over the allotted amount of time which is 1,660 hours per year, and they had no mechanism to punish these folks who broke the law. This is already existing law. There are no new dates in there, there's the 1,300 hours is in statute, as well as the 1,660. The only change is the Decennial Commission realized that people that work more than thirty hours a week are essentially working a full time job. These folks are not paying into the system, and I'd like to remind all of you that New Hampshire is one of fourteen states in this country that allows our retired workers to go back to work. The vast majority and including the federal government say no. Once you are retired you are retired, that's it, there's no going back to work for the Federal Government, there's no going back to work for any other agency. But we realize that this is a critical need in the state of New Hampshire, and so we allow our retirees to go back to work. But is it wrong to put rails around it? We talk about people crossing the border. We have a lot of our New Hampshire folks that go down to work in Massachusetts. Why? Because Massachusetts has an arbitrary 940 hours a year. That's all that their folks can work if they come back to work. So our New Hampshire folks can go down to work in Massachusetts and they can work as long as they want, and quite frankly people from Massachusetts come up here and do the same thing because they don't have to abide by that 940 hours a year. Why are we doing this Mister President? And my good friend from Senate District 17 is correct. When we had the discussions, there was a discussion of the fact that okay this is not a problem, but I'd like to say yet. This is not a problem yet.

The actuaries are watching this issue very closely and we have a choice today. We can either wait like we have done in the past, until we face an untenable position much like we faced in 2011 where we had to make some pretty darn hard decisions, and they were not easy decisions. Or do we do it today? Do we do it today and say okay, this is a potential problem, let's fix it today. I am for fixing the problem today and I'd also like to point out one thing that we did learn, which I think surprised many members of the committee was the real problem that we have in attracting police officers to come work in the state of New Hampshire,

and that is one reason why municipalities are going to retired individuals. I don't see this ending anytime soon, until we start doing something about attracting police officers, young men and women to come and work for us, so this problem is only going to get worse as time goes on. I have already started discussions with the Governor's office to see about what can we do, what can we do. We have great programs in our colleges as well as our community college systems. What are we doing connecting these students to police departments to get them employed when they graduate from these criminal justice programs. Those are things that we can do, but we have to be prepared, we have to be prepared. Let's take care of this today and I'd also like to remind you the legislation also grandfathers anyone who's currently working. So somebody who retired under a certain set of rules, this is not going to touch them. This is not going to touch them. Another point that was brought out during the public hearing, the suggestion was made to ask for the surcharge, and the people in the room thought that was a great idea, and in fact I received a letter from a selectwoman of Francestown who thought that was a great idea and they wouldn't mind paying that 5 percent, because they are not paying the full rate. They are not going to pay the full rate. So again Mister President, I don't want to deliberate the point anymore, we had good extensive discussions here concerning this issue. I would ask again all of you to overturn the Inexpedient to Legislate so I can offer a motion of Ought to Pass. Thank you very much, Mister President.

(The Chair recognized Senator Daniels.)

SENATOR DANIELS: Thank you, Mister President. Just in the way of disclosure, I am a selectman in the town of Milford and I understand that that isn't violating our ethics laws, but I just wanted to disclose that so that you can understand some of the perspective that I'm coming from. And Mister President, make no mistake we are penalizing our cities and towns for having needs that exceed our expectations and I believe the Senator from District 14 just acknowledged that by saying that the town would be paying a penalty. Understand also that we are taxing retirees because they want or they need to work more than twenty-five hours. Simply put, House Bill 561 suppresses local control without regard to the financial or resource needs of the communities that we're supposed to be representing. Mentioned in 2001 we put the current plan in place, but understand that was a thirty year plan put in place, some of where the expectations that there was going to be no change over that thirty years in terms of employment or status. And that's unrealistic. We know that the pension system is a living entity and it's subject to changing on a day to day basis. Acknowledging that the pension system needs to be addressed, we won't fix this gaping wound in the system with this band-aid approach. I'll be the first to stand here and welcome anyone to work with me to come up with a way that we can fix the system, but we should not be doing it piecemeal. We should not be trying to fix the system with proposed solutions that just exacerbate or create additional problems at the local level. And with that I would ask you to please join me in voting ITL on House Bill 561. Thank you, Mister President.

(The Chair recognized Senator Sanborn.)

SENATOR SANBORN: Thank you, Mister President. I rise in support of the motion of ITL and I know we're all coming here from very different places, like my colleague from District 11 is so concerned about his role in select board and working for towns. I hear other words about the fact that you know many or some of us Mister President, were here the

last time we took a real hard look at the retirement system when it was $5 billion upside down and I think it's still $5 billion upside down. So there's no question that we have to do something if we're to try and get our hands around and cure the problem. But my challenge with this bill is using the force of government to tell people how much they can work. What is that all about? What does it mean for any of us to think that we should be sitting here debating and trying to pass a bill that limits how much people can work? It's not my value set, I don't think it's the value set of many people in this room. So if for no other reason tha you believe people deserve a right to work and government should not be telling them that they're going to limit the hours that they can work, I would ask people to support the ITL. Thank you, Mister President.

(The Chair recognized Senator Bradley.)

SENATOR BRADLEY: Thank you very much. I rise to speak against the committee recommendation of Inexpedient to Legislate, and to support my colleague from Londonderry. Boy, Yogi Berra said it right, it's déjà vu all over again and here we are, here we are debating retirement. It was in 2011 that I was the sponsor of Senate Bill 3 and there's still people in the state that won't talk to me as a result of my efforts to try to bring some sanity to the retirement system. We made some really necessary reform. Employees paid higher rates; we limited the amount of sick time and vacation time and special duty details that could be put into your last three years which became five years that determined your average. And we made the age of retirement gradually increase. The reforms that we made were comprehensive. There was one piece that I thought this piece, the double dipping piece, that we came to a reasonable place on with the thirty-two hours and anybody that worked above thirty-two hours would have to go back in the retirement system. It seemed like a reasonable compromise at the time, but we've watched what's happened. That's the problem. There are too many, whether it's municipalities, counties, schools, even the state where people have retired, so the get their retirement salary and then they go back to work at thirty-two hours or less and don't pay into the system, and so that skewers the actuarial rates. Now I will agree with the folks that think we should kill this bill, it's not yet a problem. The actuaries are watching this carefully. There are 500 people doing this today, roughly, 491? 490. But if we don't fix this today it's going to be 1,000 in a couple of years or 2,000 in the future because it's a loophole. We didn't do a good enough job of making it at a level that people could fill the part-time, legitimately part-time positions and not have an impact on the system.

And I said it then and this is why Yogi Berra is so prescient that it's déjà vu all over again. You can take your medicine today when it's easier to take or you can wait and it becomes more bitter and harder to swallow. And if this becomes a problem, then it becomes a bigger problem and the cure is tougher. And so what as our friend from Londonderry proposed, which was not amended in the Finance Committee, it's pretty reasonable. It's not a penalty. The towns that are going to pay this 5 percent, it's not a penalty. They're going to pay one way or the other, they have to have actuarially sound rates, so it's either going to come on the full-time employees or this little bit on the 25 to 32 hour employees of 5 percent. They're going to pay one way or the other. And for the individual, yeah it's 3 percent but they're getting the right to get a retirement check and then go back to work and not contribute to the retirement system, so I don't think in any manner, shape or form it's punitive. That's why

the Union Leader supported it; time for a fix. It's not punitive, it's not piecemeal, it's the one thing that we should have fixed better in 2003. Every position, those 490 positions are exempted and if you overturn the committee recommendation and we move on an Ought to Pass motion, I will introduce a Floor Amendment that will extend the effective date up to January 1 of 2019 that will give all the employers in the state of New Hampshire ample notice and time to plan for the fact that anything done under the current law stays in effect going forward. In other words, open season on grandfathering somewhat further into the future. Because I agree with the folks who say that it's not a problem yet, but I don't want to be in the situation that we were in when the employers had unrealistically low rates. The benefits that were paid under the retirement system were over and above what was mandated by law and the rate of return set by the actuaries was too low, created a $5 billion problem. We can do something about it today or we can let the problem grow, we can hear no evil, see no evil, speak no evil but that problem will grow and the fixes will be worse in the future. This is a reasonable proposal of our friend from Londonderry, it protects all the employers and it protects all the individuals. So I'd ask the folks that voted for this bill in the past to overturn the committee report so that we can move with an Ought to Pass, make sure that this loophole is closed, be fair to all employers and all employees and move that effective date out on a Floor Amendment. Thank you, Mister President.

PRESIDENT MORSE: All I know is we got through twenty bills when you weren't here Senator Bradley.

(The Chair recognized Senator Reagan.)

SENATOR REAGAN: Thank you, Mister President. We keep hearing this argument that this is going to make the system worse, when by actual testimony received we heard that the actuary stated this does not make the situation any worse. But we keep bringing that up as an argument to make us want to support this. It is, we heard another argument that we can't find police officers to fill all the vacant police officer jobs, and we're going to fix that by barring trained police officers from working in our towns. It just defies logic. This isn't a logical argument. You don't make a thing better by making the situation worse. Double dipping, for this to be double dipping would mean that these people who are then working as retirees were going to get another pension; that they were going to get two pensions from the same system. That's double dipping. These are single dipper retirees who are now working. So these arguments defy imagination, and I was on the first Decennial Commission, a long time ago, and one of the calculations that I was able to make was every dollar that you add to the retirement system gives you a greater than a dollar liability and that's why we are where we are today. You don't make an annuity better by adding liability to it. And that's what this effort is. This is an effort to hire more full-time people to increase that future liability to the retirement system. You'll fix this system when you stop putting people into it. And the actuaries know that and they maybe even said it, we just haven't heard it here yet. Vote no, support your communities that we're here to represent, vote no on this and do not tie their hands from where they're going to get employees. It's a situation that's not improving.

The question is on the adoption of the motion of Inexpedient to Legislate.

A roll call was requested by Senator Avard, seconded by Senator Sanborn.

The following Senators voted Yes: Giuda, Gray, French, Ward, Sanborn, Daniels, Avard, Reagan, Gannon, Innis, Morse.

The following Senators voted No: Woodburn, Bradley, Watters, Hennessey, Kahn, Lasky, Carson, Feltes, Cavanaugh, Soucy, Birdsell, D'Allesandro, Fuller Clark.

Roll Call, Yeas: 11 - Nays: 13. Failed.

Senator Bradley moved Ought to Pass.

Senator Bradley offered a Floor Amendment.

Sen. Bradley, Dist 3
Sen. Carson, Dist 14
February 13, 2018
2018-0611s
10/05

Floor Amendment to HB 561-FN

Amend the bill by replacing section 7 with the following:

7 Effective Date. This act shall take effect January 1, 2019.

SENATOR BRADLEY: Thank you, Mister President. As I indicated previously this moves out the effective date from passage to January 1, 2019. This adds the protections I talked about for employers to be able to take advantage of any existing employee having the grandfathering provision. So it gives an extra six to eight months of grandfathering. I think it's fair to everyone involved. Thank you, Mister President.

The question is on the adoption of the Floor Amendment. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to Third Reading.

Senator Morse is in opposition to the motion of Ought to Pass with Amendment on HB 561-FN.

HEALTH AND HUMAN SERVICES
SB 381, deleting immunization/vaccination requirements for Hepatitis B. Inexpedient to Legislate, Vote 4-1. Senator Hennessey for the committee.

SENATOR HENNESSEY: Thank you, Mister President. I move Senate Bill 381 Inexpedient to Legislate. This bill declares that a parent or legal guardian shall not be required to have their child immunized against Hepatitis B in order to enter daycare or public school. Hepatitis B is a dangerous and infectious disease that is spread through bodily fluids. Currently we require children to have received 3 doses of the Hep B vaccine by the time they enter day care or the school system. There is no requirement for vaccination at birth. Although risk of transmission is low the disease can be spread from shared personal items or for example from biting. The disease is more dangerous for children because if a child becomes infected the disease can become chronic leading to a lifetime of issues that include liver disease and cancer. The vaccine is an important part of our states public health keeping the incidence of Hep B low here. Removal of the requirement for immunization could lead to a significant increase in the number of children and adults suffering from this devastating and incurable disease. Please support the committee's recommendation of Inexpedient to Legislate. Thank you Mister President.

(The Chair recognized Senator Daniels.)

SENATOR DANIELS: Thank you, Mister President. I rise opposed to the motion of Inexpedient to Legislate. I want to state that Hepatitis B is an adult disease spread by adult activities. The vaccine is not routinely recommended for adults. It is recommended for high risk individuals, so why would we require it for babies who have even less risk? Hepatitis B has no record of incidence in New Hampshire day care or school children as reported by DHHS. There has been no proven incidence of Hepatitis B spread in a day care or school through saliva or tears or biting, by sharing toothbrushes or cups or by school sports. Any studies suggesting such spread is possible are only hypothetical and not proven. I want to address a comment that was just made that immunization as a baby or at birth is not required. I'm holding a document from Health and Human Services entitled Immunization; Minimum Dose Requirements for Child Care. And under, it says Hep B, Hepatitis B vaccine three doses given at birth, age one to two months, sixteen to eighteen months. There's a chart further into that document that says immunizations by age group, and it has two columns. One is the child's age and then the second column is the child should receive. So if we look under two to three months, it says the child should have received two doses of Hep B. So that goes back to the initial document here that says that it's given at birth. If you look further under four to five months it still is two doses of Hep B. And then from sixteen to fourteen months it's three doses of Hep B. So just by the documentation on our website it clearly states that a dose is given and required at birth. Now we followed Hep B vaccinations. They have been reported seventy-five babies have reportedly died since this vaccine was required in 1996. In addition, the vaccines have also shown to be a causative factor in SIDS death per published in the federal vaccine injury compensation claim. So I just want to bring that to your attention, because what we're doing is we're putting at risk babies who basically have no risk. They're allowed into daycares now and by again, by our own Department of Health and Human Services, it seems like there have been no reported incidences of it and yet we have experienced seventy-four deaths since '96. Thank you, Mister President.

(The Chair recognized Senator Hennessey.)

SENATOR HENNESSEY: Now I just wanted to respond based on the testimony we heard in committee, and we heard all those arguments and we also heard from experts who deal with this every day who and from medical world, physicians who said that there is no evidence whatsoever that any of those deaths had to do with Hep B, it's like saying it could have been, they died from the fact that they had a physical examination at that age because it's part of the routine at certain ages. So there's no evidence of that. I understand the concern but there's no evidence of that. They also said the only babies that are required to have it at birth and not even required, no babies are required to have it at birth, but the ones that for whom it's recommended are those who have a mother who has Hep B, and then the likelihood that the baby has Hep B is very high and the baby is surprisingly likely to get some pretty significant organ dysfunction as well as cancer. So I did, I think the language in what you read says something like they may get it at blah blah blah, but it doesn't say they are required to get it then and if it does it's misinformation because that's not what's happening and we heard from the horse's mouth that that's not what's happening. And that in fact it is a childhood disease, there are children who carry it. Unfortunately, there are also and I brought this up although I hate to bring it up again, we would like to think it doesn't happen, but there we hear all too often of

children being abused in school and day care centers so that's another way they could get it. They can get it, though these doctors said it can even be airborne. So if a child sneezes and has Hep B or has been exposed may just be a carrier of Hep B, another child can get it, the teacher can get it, it's a very infectious and dangerous disease. And very low risk immunization. Thank you.

(The Chair recognized Senator Bradley.)

SENATOR BRADLEY: What else is new, right? That was quite a sigh he just had. So to my friend from Milford, I agreed with you on one, disagreed with you on the other, on this bill I find myself riding the rail and hope I don't get too many splinters. I share your concern about a requirement to vaccinate a baby at birth for Hepatitis B or in fact any other vaccines. In full disclosure, I have four kids that were vaccinated before they got to school, not right at birth and I feel that's appropriate and it is what's allowed under New Hampshire regulations. So I have a letter which I'll give you a copy of from the Health and Human Services Department signed by Elizabeth Daly, the Chief of the Bureau of Infectious Disease Control as well as Lisa Morris the Director of that division. And they say in it that the department has stated that Hepatitis B immunization is not required at birth according to the letter. Now what is recommended by the CDC is vaccination at birth, but under New Hampshire law and rule what is required as they go further down in this letter, parents may choose to initiate the Hepatitis B vaccine series at any time as long as it's completed before age three if enrolled in child care or prior to kindergarten if enrolled in school. The reason I belabor this point and standing up here to read this is because it will go into the permanent record. So that the folks I think that you're trying to represent should take this letter as what the status of the rule and the law is that whether you probably think we shouldn't have Hepatitis B required for parents and I appreciate that, what I want to convey to you is that through the efforts of the committee, we clarified what a lot of the folks that reached out to you and wanted you to sponsor the bill, that they don't have to vaccinate at birth, despite the fact that it's a CDC recommendation. Thank you, Mister President.

(The Chair recognized Senator Fuller Clark for a question of Senator Bradley.)

SENATOR FULLER CLARK: Thank you for taking my question Senator Bradley. Would you be able to speak more fully about what it was heard with the children are not susceptible to exposure, and that it's an adult problem, and yet in actuality the reason that we apparently have such a low number of small children with Hepatitis B is because of the vaccination, but I wondered if you could speak to the issue of how it's transferred to young children because that seems to be where there is an argument?

SENATOR BRADLEY: To my friend from Portsmouth, I actually agree with our friend from Milford that the likelihood of Hepatitis B being transferred in virtually all circumstances in New Hampshire to youngsters is pretty small. That being said we did hear testimony from Doctor Chan, of the department as well as Doctor Knirk who is our colleague now in the House of Representatives. Doctor Knirk is in my District so I've known him, he's a retired surgeon, and he testified that Hepatitis is a communicable disease in children from birth on, that Hepatitis lives on an open surface for seven days and the disease can be spread from shared items such as a toothbrush or of a drinking glass. So while I agree with

our friend that the likelihood of transfer of Hepatitis B is very remote in New Hampshire, based on the medical testimony it's possible. So what I wanted to do and I think what those of us who voted ITL wanted to do is to make sure that our friend from Milford's constituents were very concerned that it's mandated at birth, that we clarify that and I hope that that letter clarifies it for you and if it doesn't, and you feel that we need further clarification, I'm willing to work to make sure that that is the case in the future.

SENATOR FULLER CLARK: Is there not a risk for mothers who have Hepatitis B or HIV transferring it to a baby at the time of birth?

SENATOR BRADLEY: You got me, Senator. I'm not a doctor. I know your husband's a doctor he probably can answer that question better than I. I need to look at the hearing report to be able to answer it and I just can't. You could be right but I can't be sure.

(The Chair recognized Senator Fuller Clark.)

SENATOR FULLER CLARK: I just want to make it clear that given the fact that we are looking at a drug epidemic in the state and we did hear that one of the ways that is transferred to newborns is through the birth process, and so that is a critical time, but again you're not required to have it a birth, it is recommended that you have it at birth because of that risk. Thank you.

(The Chair recognized Senator Daniels.)

SENATOR DANIELS: Thank you, Mister President for allowing me to speak a second time. I do want to confirm that the letter that Senator Bradley gave me says that there is no requirements for Hepatitis B vaccine at birth, dose in New Hampshire, but the state's own website where the people go to get their information it says and I quote, "Immunization minimum dose requirements for child care. Hep B, Hepatitis B vaccine three doses given at birth, ages one to two months, six to eighteen months." So regardless of what way it is, we've got a real problem when our own department can't even decide. They put out a letter saying that there's no requirements and at the same time they've gone on the website, something for the public that says that there is a requirement. So I would still ask that you vote down the motion so we can bring forward an alternate motion. Thank you, Mister President.

The question is on the adoption of the motion of Inexpedient to Legislate.

A roll call was requested by Senator Avard, seconded by Senator Sanborn.

The following Senators voted Yes: Woodburn, Bradley, Watters, Hennessey, Gray, Kahn, Lasky, Carson, Feltes, Cavanaugh, Soucy, D'Allesandro, Fuller Clark, Gannon, Innis.

The following Senators voted No: Giuda, French, Ward, Sanborn, Daniels, Avard, Reagan, Birdsell, Morse.

Roll Call, Yeas: 15 - Nays: 9. Adopted.

SB 545-FN, increasing the age for sales and possession of tobacco products. Ought to Pass, Vote 3-2. Senator Hennessey for the committee.

Senator Gray moved to Lay on the Table SB 545-FN. Adopted.

CONSENT CALENDAR REPORTS REMOVED

PRESIDENT MORSE: We are at the conclusion of the regular calendar and will take up the bills that were removed from the consent calendar.

COMMERCE
SB 353-FN, relative to direct shippers of alcohol.
Inexpedient to Legislate, Vote 5-0. Senator Sanborn for the committee.

Senator Bradley moved to Lay on the Table SB 353-FN. Adopted.

EDUCATION
SB 357, relative to safe school zones.
Ought to Pass with Amendment, Vote 5-0. Senator Giuda for the committee.

Senate Education
January 30, 2018
2018-0369s
06/01

Amendment to SB 357

Amend the title of the bill by replacing it with the following:

AN ACT relative to safe school zones and relative to syringe service programs.

Amend the bill by inserting after section 1 the following and renumbering the original section 2 to read as 3:

2 Syringe Service Programs in Drug-Free School Zones Prohibited; Exceptions. Amend RSA 318-B:45 to read as follows:

318-B:45 Syringe Service Programs in Drug-Free School Zones Prohibited. No syringe service program shall be located within a drug-free school zone as defined in RSA 193-B:1, II. ***Exceptions to this prohibition may be granted by the applicable school district superintendent when a request is initiated by a syringe service program administrator.***

2018-0369s

AMENDED ANALYSIS

This bill:

I. Requires school employees to report crimes that would prevent a person from being hired as a teacher.

II. Permits school district superintendents to grant certain exceptions to the prohibition on locating syringe service programs in a drug-free zone.

SENATOR GIUDA: Thank you, Mister President. At the request of the Department of Education this bill requires school employees to report crimes that would prevent a person from being hired as a teacher at the request of the New Hampshire Hospital Association, committee included in legislation a provision to allow school districts superintendent to have a syringe service program operating in school zones. And I would ask that you support the committee recommendation. Thank you, Mister President.

The question is on the adoption of the Committee Amendment. Adopted.

(The Chair recognized Senator Daniels.)

SENATOR DANIELS: Thank you, Mister President. I asked that this be taken off the Consent Calendar for one reason. This last summer I was on the needle exchange commission and we talked a lot about needle exchange, places where they would be. There was no talk, no focus whatsoever on diabetes or anything other than drug abuse and I just think

it's ludicrous that someone can set up a needle exchange program with drug users in a drug-free school zone. That just does not make sense to me, so I would ask that you overturn the Ought to Pass so I can bring an Inexpedient motion. Thank you, Mister President.

(The Chair recognized Senator Sanborn for a question of Senator Daniels.)

SENATOR SANBORN: Senator Daniels, I'd ask that it be more appropriate to ask if we could divide the question?

SENATOR DANIELS: That'd be fine.

SENATOR SANBORN: Mister President, I apologize, I don't have it in front of me. I was asking the Senator if he would like to divide it of which we'd get the division numbers and pages down, or just a straight overturn.

SENATOR DANIELS: Mister President, is the question divisible?

Recess. Out of recess.

SPECIAL ORDER

Without objection, Senator Bradley moved to special order SB 357-FN to Thursday, February 22, 2018. Adopted.

SB 432-FN-L, relative to an elective course in SAT preparation. Inexpedient to Legislate, Vote 5-0. Senator Watters for the committee.

SENATOR WATTERS: Thank you, Mister President. I move Inexpedient to Legislate. This bill requires school boards to offer an elective course in SAT preparation in each high school throughout New Hampshire. Although this bill was well-intentioned to provide credits for students in taking a class that will further prepare them to take the SAT, the financial burden of this legislation will fall on the taxpayers. Further other options through which students can take the SAT preparation course. However I understand that there will be a subsequent, substitute motion offered here so I do ask that the body overturn the recommendation of ITL. Thank you.

(The Chair recognized Senator Gannon.)

SENATOR GANNON: Thank you, Mister President. I rise in opposition to this ITL motion. I would ask that the body vote down the Inexpedient to Legislate motion so that I may offer a subsequent motion and a Floor Amendment that I think produces a great compromise and a study commission to the benefit of all the students of New Hampshire. Thank you.

The question is on the adoption of the motion of Inexpedient to Legislate. Failed.

Senator Gannon moved Ought to Pass.

Senator Gannon offered a Floor Amendment.

Sen. Gannon, Dist 23
February 14, 2018
2018-0649s
06/05

Floor Amendment to SB 432-FN-LOCAL

Amend the title of the bill by replacing it with the following:

AN ACT establishing a commission to study whether it is in the best interest of students to require schools to offer an SAT preparation course as an elective.

Amend the bill by replacing all after the enacting clause with the following:

1 New Section; Commission Established. Amend RSA 186 by inserting after section 11-e the following new section:

186:11-f Commission Established; SAT Preparation Course.

I. There is established a commission to study whether it is in the best interest of students to require schools to offer an SAT preparation course as an elective.

II. The members of the commission shall be as follows:

(a) One member of the senate, appointed by the president of the senate.

(b) Two members of the house of representatives, appointed by the speaker of the house of representatives.

(c) One member of the New Hampshire School Boards Association, appointed by the association.

(d) One member of the New Hampshire School Administrators Association, appointed by the association.

III. Legislative members of the commission shall receive mileage at the legislative rate when attending to the duties of the commission.

IV. The commission shall study:

(a) SAT results for students taking various SAT preparation courses offered in the state compared to the results of students taking online SAT preparation courses, or no course.

(b) The costs of offering SAT preparation courses.

(c) Whether offering a course for credit benefits students.

V. The members of the study commission shall elect a chairperson from among the members. The first meeting of the commission shall be called by the senate member. The first meeting of the commission shall be held within 45 days of the effective date of this section. Two members of the commission shall constitute a quorum.

VI. The commission shall report its findings and any recommendations for proposed legislation to the president of the senate, the speaker of the house of representatives, the senate clerk, the house clerk, the governor, and the state library on or before November 1, 2018.

2 Repeal. RSA 186:11-f, relative to commission to study whether it is in the best interest of students to require schools to offer an SAT preparation course as an elective, is repealed.

3 Effective Date.

I. Section 2 of this act shall take effect November 1, 2018.

II. The remainder of this act shall take effect upon its passage.

2018-0649s

AMENDED ANALYSIS

This bill establishes a commission to study whether it is in the best interest of students to require schools to offer an SAT preparation course as an elective.

SENATOR GANNON: Thank you, Mister President. I would like to offer the Floor Amendment that's being handed out. The amendment is an excellent compromise to an important piece of legislation. The amendment would establish a commission to study school boards offering an elective course in SAT preparation at each high school. The commission would involve important members of the education arena including the New Hampshire School Board Association, the New Hampshire School Administrators Association and only one Senator, I might add. And what it would study whether it is in the best interest to students to apply or

to offer and SAT prep as an elective during the day. Schools such as in Groveton, District 1, nothing. They don't offer any SAT course. You're not on a level playing field; you're not going to be able to compete. Sorry, Martha, Senator, you're also in such a district. Winnacunnet has no SAT prep. I want everyone to have the same footing as Senator Watters in Dover, Senator Ward in Hillsborough, and in 3 Senator Bradley in Milton. I met with the Milton principal, she told me it costs her nothing, she takes a teacher who's free doing a study period, all her teachers she said were able to offer SAT preps. So it's a no cost added thing I believe but we need to study it further and again I want the students in all of our communities to be on as level a playing field as possible. Thank you, Mister President.

(The Chair recognized Senator Carson for a question of Senator Gannon.)

SENATOR CARSON: Thank you for taking my question. Since you're creating the commission with one Senator are you offering to serve on the commission?

SENATOR GANNON: I certainly would, Ma'am, yes.

SENATOR CARSON: Okay I want to get you on the record on that one, Senator. Thank you.

The question is on the adoption of the Floor Amendment. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to the Committee on Finance (Rule 4-5).

HEALTH AND HUMAN SERVICES
SB 474, establishing a committee to study group home rate parity. Ought to Pass, Vote 5-0. Senator Fuller Clark for the committee.

SENATOR FULLER CLARK: Thank you very much. We know that there are group homes where it costs more and the wage scales a different from one group home to another and I would ask you to agree with the committee to move this study forward.

Senator Bradley offered a Floor Amendment.

Sen. Bradley, Dist 3
February 13, 2018
2018-0600s
01/03

Floor Amendment to SB 474

Amend paragraph I(a) as inserted by section 2 of the bill by replacing it with the following:

(a) One member of the senate, appointed by the president of the senate.

Amend the bill by replacing section 4 with the following:

4 Chairperson; Quorum. The members of the study committee shall elect a chairperson from among the members. The first meeting of the committee shall be called by the first-named senate member. The first meeting of the committee shall be held within 45 days of the effective date of this section. Three members of the committee shall constitute a quorum.

SENATOR BRADLEY: Thank you very much, I apologize to the body for missing the fact that we had two Senators on this study committee and so if you will adopt my Floor Amendment which is 0600 I would be most grateful.

The question is on the adoption of the Floor Amendment. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to Third Reading.

HOUSE MESSAGE

The House of Representatives concurs with the Senate in the passage of the following entitled Bill, with amendment, in the passage of which amendment the House asks the concurrence of the Senate:

SB 215-FN, permitting the university system of New Hampshire and the community college system of New Hampshire to participate in the state health insurance plan.

(The Chair recognized Senator Feltes.)

SENATOR FELTES: Thank you, Mister President. Mister President, I respectfully ask that we vote no on the recommendation of nonconcurrence to concur. This went through a long process in the House, passed ED&A, went to House Finance, they retained it, they worked on it they came to a unanimous vote in Hose Finance working with Commissioner Arlinghaus who supports this bill. It's not a mandate it sets up metrics and makes good sense and I thank the House Finance Committee for all its work and I think we ought to move it forward and simply concur. So I would move that we vote no to non-concur so that we can concur. Thank you, Mister President.

Senator Reagan moved Nonconcurrence. Failed.

Senator Feltes moved Concurrence. Adopted.

MOTION TO ADJOURN FROM EARLY SESSION

Senator Bradley moved that the Senate adjourn from the Early Session, that the business of the Late Session be in order at the present time, that all bills and resolutions ordered to Third Reading be, by this resolution, read a third time, all titles be the same as adopted, and that they be passed at the present time.

Adopted. Adjournment from the Early Session.

LATE SESSION

LIST OF RULE 6-25'S FOR THE DAY

Senator Carson: SB 215-FN, SB 436
Senator French: SB 504-FN
Senator Kahn: SB 215-FN
Senator Sanborn: CACR 21, HB 561-FN, SB 310-FN, SB 311, SB 215-FN, SB 316, SB 320, SB 327, SB 329, SB 332, SB 352-FN, SB 353-FN, SB 357, SB 359, SB 362, SB 363, SB 364, SB 366, SB 374, SB 379, SB 381, SB 390-FN, SB 394, SB 414-FN, SB 415, SB 416, SB 417, SB 419, SB 429-FN, SB 431, SB 432-FN-L, SB 433, SB 434, SB 435, SB 436, SB 437, SB 439, SB 440-FN, SB 441, SB 442, SB 450-FN-A, SB 456, SB 470-FN, SB 473, SB 474, SB 476, SB 481, SB 483, SB 486, SB 489, SB 503, SB 504-FN, SB 505, SB 508, SB 509, SB 510, SB 513, SB 529-FN, SB 531-FN, SB 533-FN, SB 534-FN, SB 535-FN, SB 536-FN, SB 538-FN, SB 542-FN, SB 545-FN, SB 550-FN, SB 552-FN, SB 554-FN, SB 570-FN, SB 573-FN-A, SB 578-FN, SB 579-FN, SB 580

ANNOUNCEMENTS

(The Chair recognized Senator Bradley.)

SENATOR BRADLEY: Thank you; personal privilege. Last week in the debate about Senate Bill 492 I mistakenly indicated that a gun manufacturer, SIG Sauer, had a position on Senate Bill 492. I'd like to read a letter from Dave Cuzzie, who is their government affairs representative.

> Senator Bradley: SIG Sauer has no position on Senate Bill 492, relative to the banning of bump stocks. On behalf of the company I respectively request you correct the record from the Senate Session on February 1, 2018 during which it was stated that a company employee provided testimony in his professional capacity in opposition to the bill. SIG Sauer has never taken a position on Senate Bill 492 and has had, and will not have, any involvement of any kind in any aspect of any activity pertinent to the bill. The company was unaware an employee was testifying in his personal capacity on this bill. Neither the employee nor any other party mentioned the company in written or oral testimony, and the employee made clear, in all forms of his testimony, that he was testifying in his personal capacity. Thank you for ensuring the Senate record accurately reflects that SIG Sauer has no position of any kind on Senate Bill 492. I appreciate your attention to this request.

That's signed by Dave Cuzzie. I apologize. I think you can see where my confusion came from when I testified. Thank you.

(The Chair recognized Senator Gray.)

SENATOR GRAY: Thank you. I rise for personal privilege. I would like to add to the remarks about my predecessor, Senator Cataldo, and, also another Senator who has passed away since.

Senator Cataldo was my friend. Senator Cataldo and I really got to know each other at the Strafford County Republican meetings, and when Cheryl decided that it was time that Senator Cataldo do something else, he helped me tremendously to get to where I am today, to the election. One of the things that we did is at the Rochester Fair. We had a booth there and Sam and I spent many hours together. And every time that he would introduce himself, and that he was running for executive council, he would always say vote for Sam. Well, there was another booth just down from where we were that was doing embroidery, and the red hat that you saw on Sam's casket, if you went to the wake, was one of the ones he ordered that day. And when he got the hat, he looked at me and said don't tell Cheryl. So, I didn't know how he was going to do that when he got home. But one thing about Sam is we've all got wonderful stories, whether you were first or last in line there were still plenty of stories to tell about Sam.

In addition to that, we also lost another Senator from District 6, and that's Lou Bergeron. The Bergeron family, if you've lived in Rochester, you know, back a 'ways, certainly he was one of ten children, and that even one of his sisters, Ann, was married to another Senator, Senator Torr. So, it's a long-standing tradition between the Bergeron's and a few of the other families that if you lived in Rochester you knew the Bergeron's. Great Senator, great insurance commissioner, be sadly missed. He was living down in Florida at the time; was suffering from dementia, and there will be a service later in the spring, from what I'm told, but arrangements for that have not been made. So, it is a heavy heart, we've actually lost two Senators from District 6, and thank you for your attention.

(The Chair recognized Senator D'Allesandro.)

SENATOR D'ALLESANDRO: Thank you, Mister President; a point of personal privilege. To date, in the United States of America, we have had 18 school shootings. Eighteen school shootings. Yesterday I was driving to the hockey rink to see my grandson play and I heard on NPR about the shooting in Florida. Seventeen people were shot down, 14 other people were injured. An assault weapon was used; an individual who had mental illness used that weapon, he acquired that weapon, and he killed 17 people. Seventeen mothers and fathers won't have a kid to come home to. They won't have a child. As I said to you, I embrace my children, I embrace my grandchildren, and I want to cry to think that 18 times this year someone has killed children in a school setting. When are we going to wake up? And when are we going to have background checks for everybody? This is so disheartening to me. I heard a child speak this morning who was there who hid in the closet. That child was in fear for her life and there is somebody with an automatic weapon just killing people at random and then he leaves the school gets in with the group and carries out this terrible carnage.

Eighteen times, 18 times this has happened! We are the only place in the world where this happens, the only place in the world and it happens too often. You know I talked to my wife this morning about this and I said, geez, I want to bring this up to my colleagues because I am heartbroken for the families; never mind the kids are dead. You can't bring a kid back. You spend your whole life thinking about your child and then you come home and that child is not there, killed by a random act of violence. We can't let that happen. We just can't let that happen. You know we thought the Connecticut incident was going to solve our problems. They killed little kids in Connecticut, little children. I am just heartbroken and I had to say this, it was on my mind all day. And I think guns are a problem. They are a problem. We've got to do something about it.

I'll end by saying in the Marine Corps I was taught to kill. I was taught to kill, and if the enemy came I was going to kill them. I was gung ho! I was gung ho when I was in the corps, with a clip with two rounds I was going to kill anybody that came my way. Different thought today. When I see what is going on around the country. So, my heart goes out to the families, to the mothers, and the fathers who came home last night without children. How about the families of the children that weren't identified? They weren't identified for a period of time. So you didn't know if your kid was dead or not. God, you would think can that happen in America? Can that happen in our society? I don't know. So, I am very depressed about that. Thank you, Mister President.

(The Chair recognized Senator Woodburn.)

SENATOR WOODBURN: Thank you, Mister President. I rise to make comments of personal privilege. The 46th Annual Snowmobile Association's Easter Seals Ride-In occurred recently in Gorham. The snowmobile clubs competed with each other to raise funds for the Easter Seals Camp Sno-Mo, a camp for children with disabilities and special health care needs in Gilmanton Iron Works. This year 106 snowmobile clubs raised over $105,000 which is used to send more than 100 special needs kids to summer camp. They raised 3.2 million since its inception in the 1970s. Nelly Roache is the chairperson. Her dedicated committee includes

Cheryl Spillane, Terry Callum, Jennifer Parker, Melissa Binette, Andrea Rojas-Graham. Easter Seals' child representative was six-year-old Elliot Perry, the son of B.J. and Carrie Perry. Mister President, the event is always inspiring and emotional; made so as I have visited at Camp Sno-Mo and witnessed the difference these camps make.

The event was a vivid reminder of the remarkable work of 106 volunteer snowmobile clubs do to build and maintain 7,000 miles of trails from Salem to Pittsburg, Conway to Lebanon. In fact, there are more snowmobile trails in the state of New Hampshire than highways. They are a sophisticated organization that rely almost entirely on the generosity of property owners who allow the trails to cross their property.

Not only do the trails encourage wholesome outdoor recreation activity, but they are also a major economic driver generating over $580 million of economic activity annually. All of this is done with no general fund dollars since the entire system is self-funded through registration fees, membership dues, and some federal RTP grants funded through the federal gas tax on off-highway vehicles.

I want to recognize the state's Trails Bureau Chief, Chris Gamache, and his capable staff: Beth Palmer, President of the New Hampshire Snowmobile Association; and Dan Gould, the Executive Director.

The combination of the willing landowners, local clubs, dedicated volunteers, self-funding, along with some state coordination–it's a model we should always strive to emulate since it shows how great things get accomplished with little or no impact on taxpayers. Thank you, Mister President.

(The Chair recognized Senator Giuda.)

SENATOR GIUDA: Thank you, Mister President, members of the Senate. I had the privilege of flying aircraft for fifty years, and in my final ten I flew with my favorite route which was from Tokyo to Guam. We left at 11 o'clock at night with a full airplane, 300 people, and the quiet over the Pacific was only enhanced by the Southern Cross that shone through the front window of my cockpit. On that journey we passed over small Pacific islands, and that is the reason I rise to speak.

On February 19, 1945, United States Marines assaulted the beaches of a tiny Pacific island, four miles in width, and two miles wide, I'm sorry, length, 650 miles south of Tokyo. They faced an entrenched enemy 22,000 strong, committed to fight to the death because they knew that losing this island was the death knell for the Japanese Empire. The name of this island in Japanese is Iwo To. We know it today, and around the world, as Iwo Jima. In this amphibious assault, on what is considered the most heavily fortified objective in the history of warfare. The Japanese defenders suffered 21,844 killed and 216 captured. Marine's suffered 6,812 Marines killed or missing, and 19,217 wounded. Iwo Jima accounted for one-third of the total Marine Corp casualties in World War II. It was the only major battle in the Pacific in which U.S. casualties exceeded the total number of enemy killed. Progress in the fighting on that island averaged 400 yards a day using flame throwers, grenades, demolition charges, naval artillery. They were opposed, literally, at every step by an enemy who was committed to die rather than surrender. The capture of Iwo Jima enabled the United States to provide fighter escorts for B-29 Superfortresses attacking the Japanese homeland from the Marianas Islands: Guam, Tinian, and Saipan. Over 2,400 emergency landings took place on Iwo before the end of the war six months later. B-29s launched from Tinian, an island

in the Marianas, were escorted by fighters from Iwo Jima, bombed Hiroshima and Nagasaki saving over a million lives by precipitating the surrender of Imperial Japan.

During the two-month long battle for Iwo Jima, 27 U.S. military personnel were awarded the Medal of Honor for their actions. Of those 27, 22 were presented to Marines, and the others to United States Navy sailors, four of whom were Navy Hospital corpsmen. Iwo Jima accounted for over one-quarter of the 82 Medals of Honor awarded to Marines in the entirety of World War II. Inscribed on the Iwo Jima monument at Arlington National Cemetery are the following words: "Uncommon valor was a common virtue." And in the words of General James Jones, 32nd Commandant of the Marine Corps, "The valor and sacrifice of Marines and sailors who fought on Iwo Jima is today and forever the standard by which we judge what we are and what we might become."

Mister President, on this day, the last day we as a body assembled before the February 19th Anniversary of the assault on Iwo Jima, I ask the honorable members of the Senate to rise with me and offer one minute of silence as a very small tribute to the incredible heroism and bloody sacrifices of the Marines who fought.

Thank you, Mister President, and members of the Senate.

PRESIDENT MORSE: I wanted to take a minute to recognize our recent 40 Under 40 recipient, our Chief of Staff, Kristy Merrill. She has served with me in the Senate for much of her tenure, and while I'd like to think I've taught her everything, she gave credit to her parents for everything. So I guess I'm learning even more. Kristy has remained committed and thoughtful in everything she does, and it is clear she truly loves the state of New Hampshire and wants the very best for our state. She's an insightful leader who works very hard each and every day to make sure that wheels keep spinning in the Senate, which is no small task. It's been an honor to work alongside her, and I think of no one more deserving than Kristy to receive this honor. I hope you all join me in, now, congratulating her.

And last, but least, several of you just–it is least–several of you just received a letter that you're now serving on Finance for one purpose, and that is health care. So, the Committee of Health that Senator Bradley chairs will now sit on Finance for the purpose of taking up a health care bill when the amendment's ready. It will be a bill being released as soon as Senator Bradley gets off the floor tonight, that he used as a place holder that is not the bill that we've been working on for about two or three months now. So, that will come out tonight, and you can comment on it if you want, but that's not the bill we're going to be debating. As soon as we get the amendments ready and ready to be put out in public, we'll put them out. We'd like to do that as soon as possible. So, for everyone that's going to make a major commitment to hear this health care bill, thank you.

Without objection, all personal privileges and unanimous consent shall be entered into the permanent *Journal of the Senate.* (Rule 2-16 and Rule 2-17). Adopted.

LATE SESSION

Third Reading and Final Passage

HB 561-FN, relative to part-time employment of a retirement system retiree by a participating employer.

SB 310-FN, establishing a committee to study the feasibility of establishing community-based services pilot programs.
SB 311, clarifying rules of construction under the New Hampshire Trust Code.

SB 429-FN, establishing a consumer services program within the insurance department.
SB 433, relative to the annual filing of statistical reports to the department of education.
SB 434, relative to school nurse certification.
SB 435, relative to alternative programs for granting credit leading to graduation.
SB 436, relative to tuition in the community college system.
SB 437, relative to the robotics education development program.
SB 441, relative to final grades in schools.
SB 442, relative to surety indemnification requirements for private postsecondary career schools.
SB 456, relative to the appointment of the state medical director for emergency medical services.
SB 470-FN, relative to positions within the insurance department.
SB 473, relative to employment contract restrictions upon health care providers.
SB 474, establishing a committee to study group home rate parity.
SB 476, establishing a committee to study reinstituting the unemployed parent program.
SB 481, establishing a committee to study the impact of pharmacy benefit manager operations on cost, administration, and distribution of prescription drugs.
SB 483, relative to procedures for dispensing controlled drugs.
SB 486, establishing a commission to study enhancing the prescription drug donation program.
SB 489, establishing a committee to study parental alienation in New Hampshire.
SB 504-FN, relative to sales of tax-deeded property.
SB 505, requiring abutter notice of the construction of a crematory.

SB 508, establishing a committee to study the prevalence of post-traumatic stress disorder (PTSD) and other related disorders among first responders.
SB 510, relative to municipal notice of leases on tax-exempt property.
SB 513, establishing September as New Hampshire recovery month.
SB 531-FN, relative to the office of professional licensure and certification.
SB 534-FN, relative to the classification of certain state employee positions.
SB 536-FN, relative to eligibility for death benefits for court security officers.
SB 579-FN, relative to penalties for welfare fraud.
SB 580, relative to the creation of new class lines within the department of transportation and the department of health and human services, and amending a capital budget appropriation to allow for door replacements at the New Hampshire hospital.

MOTION TO RECESS TO CALL OF THE CHAIR

Senator Bradley moved that the business of the day being completed, that the Senate recess to the Call of the Chair for the purposes of introducing legislation, referring bills to committee, scheduling hearings, sending and receiving messages, and processing enrolled bill reports and amendments and when we recess, we recess to the Call of the Chair.

Adopted. The Senate is in recess to the Call of the Chair.

HOUSE MESSAGE

The House of Representatives has passed Bills with the following titles, in the passage of which it asks the concurrence of the Senate:

HB 114, relative to minimum electric renewable portfolio standards.
HB 124-FN, relative to certain aircraft registration fees and airways tolls.
HB 141, relative to electric renewable energy classes.
HB 193, relative to traffic control measures.
HB 388-FN, relative to special number plates for veterans.
HB 1278, naming the rest area in Colebrook after Frederick W. King, Sr.
HB 1386, establishing a joint committee on employee relations.
HB 1581, relative to commencement of an administrative license suspension.
HCR 13, condemning hate crimes and any other form of racism in New Hampshire.

HOUSE MESSAGE

The House of Representatives has voted to Lay On The Table the following entitled Bill(s) sent down from the Senate:

SB 33, relative to the definition of political advocacy organization.

HOUSE MESSAGE

The House of Representatives has referred for Interim Study the following entitled Bills sent down from the Senate:

SB 128-FN, relative to the policy goal of electric utility restructuring.

HOUSE MESSAGE

The House of Representatives refuses to concur with the Senate in the passage of the following entitled Bills sent down from the Senate:

SB 160, authorizing religious nonmedical personnel, consistent with Centers for Medicare and Medicaid Services guidelines, to certify eligibility for walking disability plates and placards.

INTRODUCTION OF LEGISLATION

Senator Bradley offered the following Resolution:

RESOLVED, That in accordance with the list in the possession of the Senate Clerk, the following legislation shall be by this Resolution read a first and second time by the therein listed title and referred to the therein designated committee. Adopted.

First and Second Reading and Referral

HB 114, relative to minimum electric renewable portfolio standards. (Energy and Natural Resources)
HB 124-FN, relative to certain aircraft registration fees and airways tolls. (Ways and Means)
HB 141, relative to electric renewable energy classes. (Energy and Natural Resources)

HB 1581, relative to commencement of an administrative license suspension. (Transportation)
HB 1614, relative to the international registration plan. (Transportation)
HB 1651, establishing a committee to study the use of liquid de-icers on roads. (Transportation)
HB 1675, relative to state house Internet service and relative to calendars and journals of the house and senate. (Rules and Enrolled Bills)
HB 1731-FN, relative to regulating bicycles. (Transportation)
HB 1739-FN, prohibiting female genital mutilation. (Judiciary)
HB 1785, changing "hearing impaired" to "deaf" or "hard of hearing" in the New Hampshire laws. (Health and Human Services)

INTRODUCTION OF LEGISLATION

Senator Bradley offered the following Resolution:

RESOLVED, That in accordance with the list in the possession of the Senate Clerk, the following legislation shall be by this Resolution read a first and second time by the therein listed title and referred to the therein designated committee. Adopted.

First and Second Reading and Referral

18-2956
SB 313-FN, reforming New Hampshire's Medicaid and Premium Assistance Program. (Bradley, Dist 3; Morse, Dist 22; S. Schmidt, Carr. 6; Umberger, Carr. 2; Danielson, Hills. 7; Kotowski, Merr. 24; Finance)

18-2707
SB 593-FN, relative to the penalty for capital murder. (Avard, Dist 12; Daniels, Dist 11; Ward, Dist 8; Giuda, Dist 2; French, Dist 7; Woodburn, Dist 1; Watters, Dist 4; Fuller Clark, Dist 21; Feltes, Dist 15; Soucy, Dist 18; Hennessey, Dist 5; Kahn, Dist 10; Lasky, Dist 13; McGuire, Merr. 29; O'Leary, Hills. 13; Cushing, Rock. 21; Kotowski, Merr. 24; Souza, Hills. 43; Judiciary)

Out of Recess. Call the Senate to Order.

MOTION TO ADJOURN FROM LATE SESSION

Senator Bradley moved that the Senate adjourn from the Late Session.

Adopted. Adjournment from the Late Session.

February 22, 2018

The Senate reconvened at 10:00 a.m., a quorum being present.

The Reverend Jon Hopkins, chaplain to the Senate, offered the following prayer:

Dear God, today we bring the needs of our government before you and ask you to bless our state through these leaders. We pray for the members of the Senate to find peace and direction; for these men and women to act and lead according to wisdom and justice; a house divided against itself cannot stand. Therefore, we pray for them to be unified in righteousness for the sake of our state. We stand here today and remember that we stand on the shoulders of all the other men and women who served in government before us. Remember today the prayer of President George Washington, "that thou wilt find the hearts of its citizens to cultivate a spirit of subordination and obedience to government, and entertain a brotherly affection and love for one another and for fellow citizens of the United States of America at large; and finally that thou will most graciously be pleased to dispose all of us to do justice, to love mercy, and demean ourselves with charity, humility and pacific temper of mind." Remember today the words of Abraham Lincoln, "With malice toward none, with charity for all, with firmness in the right as God gives us to see the right, let us finish the work we are in." Be with us today as we work to continue the work of our great state of New Hampshire that serves to bring about good for all of our citizens. Amen.

Senator Hennessey led the Pledge of Allegiance.

INTRODUCTION OF GUESTS

(The Chair recognized Senator Cavanaugh.)

SENATOR CAVANAUGH: Thank you, Mister President. Today we are honored to have the Manchester Central School's State Champions for the 2017 season. Congratulations! This team is led by Coach Peter Lally, who finished his 34th year as the head coach of the team. Congratulations! I have some interesting stats about this team: the regular season record of the team was 18 and 1; this team also came in and finished first in New England, and number six in the United States. Now all year there was only five goals scored on this team; that is impressive, as well. Through the playoffs they had to go through powerhouses in the state of New Hampshire. They beat Pinkerton Academy 2-0; they beat Con-

cord 1-0; and in the final against Bedford it was a 0-0 tie in regulation, they went to an overtime period of 0-0, then to a shoot-out just like the women's hockey team last night. So they won 1-0 in overtime, and I'm glad you're here, and congratulations!

I'd just like to read the resolutions that you'll all get:

NEW HAMPSHIRE STATE SENATE

A RESOLUTION, be it known that the New Hampshire Senate extends its congratulations to Manchester Central High School in recognition of winning the 2017 Division I State Girls Soccer Championship; and

Be it further known that the New Hampshire Senate extends its best wishes and continued success.

Senator Kevin Cavanaugh and, who couldn't be here today because he is sick, is Senator Lou D'Allesandro and he extends his congratulations. Thank you.

PETER LALLY: Thank you, Senator Cavanaugh and Senator Morse. The girls that are up here are perfect examples of a student athlete; they are the best of the best. They are fabulous kids, they are excellent students, and they are pretty good soccer players. As the years go by the age gap gets broader and broader, but there isn't anyone I'd rather spend time with then these girls that are up here. So, thank you for having us. I appreciate it.

PRESIDENT MORSE: Thank you girls. Congratulations! Thank you, Senator Cavanaugh.

INTRODUCTION OF PAGES

(The Chair recognized Senator Bradley.)

SENATOR BRADLEY: Thank you very much, Mister President. I'm really pleased to, I think for the second time in my ten years here, have two Pages from Moultonborough Academy.

So, welcome Zoe Norton. Zoe is sixteen. She's in the tenth grade at Moultonborough Academy. Her favorite subject is biology. She is President of the student council, and plays soccer–so you have a great team to emulate–basketball, and lacrosse. In her future she plans to go to college somewhere in Boston, major in biology, with a goal to work in the medical field as an adult. Just like Senator Morse's daughter, so that's a great opportunity for you. Thank you very much for being here Zoe.

And our second Page is Jessica Bakas. So, she is also from Moultonborough Academy. She's fifteen and one-half years old, and she's in the tenth grade. Her extracurricular activities include competition dance, the Nordic ski team–and I just have to say, wasn't that the most exciting gold medal yesterday? So, there's your future–guitar lessons, key club, student council, and youth leadership club. Jessica plans to attend a prestigious college, and intern at the White House–we like that–and she also plans to become either an FBI or CIA agent involved in counter-terrorism, and then getting involved with the U.S. government. Her key goal in life is she wants to change the world. There're a lot of things that you can do. Welcome to the Senate.

SPECIAL ORDER

Without objection, the following bills are special ordered to the next session. Adopted.

EDUCATION
SB 431, relative to non-academic surveys required to be filed by school districts to maintain federal funding.

ELECTION LAW AND INTERNAL AFFAIRS
SB 438, relative to the postponement of local elections.

EXECUTIVE DEPARTMENTS AND ADMINISTRATION
SB 570-FN, relative to the work requirement for the child care scholarship program.

FN REPORT FOR FEBRUARY 22, 2018

Senator Daniels recommends the waiver of referral to the Finance Committee, Senate Rule 4-5, for the following bills with a fiscal note or an appropriation of funds:

CONSENT CALENDAR:

EDUCATION
SB 524-FN, relative to head injury policies for the community college system of New Hampshire and the university system of New Hampshire.

HEALTH AND HUMAN SERVICES
SB 591-FN, relative to accreditation of health care providers by pharmacy benefit managers.

PUBLIC AND MUNICIPAL AFFAIRS
SB 514-FN, establishing a commission to create a New Hampshire recovery monument.

REGULAR CALENDAR:

EXECUTIVE DEPARTMENTS AND ADMINISTRATION
SB 570-FN, relative to the work requirement for the child care scholarship program.

JUDICIARY
SB 502-FN, relative to transparency and standards for acquisition transactions in health care.

TRANSPORTATION
SB 520-FN, authorizing New Hampshire Food Bank to issue decals for multi-use decal plates.
SB 561-FN, relative to the installation of a traffic light or beacon.
SB 575-FN, relative to electric vehicle charging stations.

WAYS AND MEANS
SB 406-FN, requiring background checks for access to Internal Revenue Service federal tax information.

Senator Daniels recommends the following bills be ordered to the Finance Committee upon being found Ought to Pass/Ought to Pass with Amendment:

REGULAR CALENDAR:

EDUCATION
SB 523-FN, requiring public school students to receive training in cardiopulmonary resuscitation and the use of an automated external defibrillator device—if Inexpedient to Legislate recommendation is overturned.

TRANSPORTATION
SB 560-FN-L, relative to updating the state trails plan and making an appropriation therefor.

WAYS AND MEANS
SB 301-FN, temporarily reducing the real estate transfer tax for first-time home buyers—if Inexpedient to Legislate recommendation is overturned.
SB 404-FN-A, phasing out the tax on interest and dividends.
SB 408-FN, licensing historic racing.
SB 409-FN, relative to the taxation of moist snuff tobacco products—if Interim Study recommendation is overturned.
SB 565-FN, relative to aircraft registration fees and airways tolls.
SB 586-FN-A-L, relative to casino gambling—if Interim Study recommendation is overturned.

Without objection, the FN Report is adopted.

CONSENT CALENDAR REPORTS REMOVED

HEALTH AND HUMAN SERVICES
SB 484, by Senator Bradley

PUBLIC AND MUNICIPAL AFFAIRS
SB 512, by Senator Gray

CONSENT CALENDAR

Senator Bradley moved that the Consent Calendar, with the relevant amendments as printed in the day's Calendar be adopted and that all such bills found Ought-to-Pass be ordered to Third Reading.

COMMERCE
SB 424, relative to property and casualty insurance.
Ought to Pass, Vote 5-0. Senator Innis for the committee.

> This bill makes certain changes in the laws relative to property and casualty insurance and was a request of the Insurance Department. The bill amends the Adjuster Licensing statute to clarify that fact-gatherers working for a licensed adjuster are exempted from the licensing requirement. It clarifies the Changes in Coverage statute to require that notice of any changes in coverage not requested by a policyholder be given at the time of renewal. The bill removes a requirement to report certain data to the department unless specifically requested. Lastly, the bill amends the statute regulating cancellation notices issued by commercial carriers to clarify that they are required to provide a 10-day notice only if that notice is being issued within 60 days of the policy's effective date.

EDUCATION
SB 524-FN, relative to head injury policies for the community college system of New Hampshire and the university system of New Hampshire.
Ought to Pass with Amendment, Vote 5-0. Senator Watters for the committee.

> This bill requires the university system of New Hampshire and the community college system of New Hampshire to develop head injury policies for student-athletes. The Committee Amendment to the legislation eliminates the need for a fiscal note attached to this bill. This bill makes sure that students and coaches are aware of concussion risks and offers appropriate definitions, similar to what is already in statute for school sports. The bill also requires that guideline procedures and forms are developed by looking to the appropriate governing bodies for each group. Finally, this legislation ensures limitations from liability if proper procedures are followed.

Senate Education

Amendment to SB 524-FN

Amend the bill by replacing all after the enacting clause with the following:

1 New Subdivision; University System of New Hampshire; Head Injury Policies for Student-Athletes. Amend RSA 187-A by inserting after section 42 the following new subdivision:

Head Injury Policies for Student-Athletes

187-A:43 Definitions. As used in this subdivision:

I. "Head injury" means injuries to the scalp, skull, or brain caused by trauma, and shall include a concussion which is the most common type of sports-related brain injury.

II. "Health care provider" means a person who is licensed, certified, or otherwise statutorily authorized by the state to provide medical treatment and is trained in the evaluation and management of concussions.

III. "Institution property" means all real property, physical plant, and equipment used for institution purposes.

IV. "Student-athlete" means a student of the university system of New Hampshire who is involved in the institution's varsity athletic teams.

187-A:44 Head Injury Policies for Student-Athletes.

I. The athletic department of each institution in the university system of New Hampshire shall have guidelines, procedures, and other pertinent information and forms, developed in accordance with the National Collegiate Athletic Association or other national authority governing the institution's sports programs, to govern procedures for evaluation and treatment of concussion and head injury, including return to play and continuing evaluation, and to inform coaches and student-athletes of the nature and risk of concussion and head injury including continuing to play after concussion or head injury, and of chronic traumatic encephalopathy and other brain pathologies. On an annual basis, the athletic department of each institution shall distribute a concussion and head injury information sheet to all student-athletes.

II. At the beginning of a student-athlete's participation in a collision or contact sport, or a sport that requires the use of a helmet or the use of the head in contact with a ball, the institution shall provide the opportunity for neurocognitive testing.

187-A:45 Removal of a Student-Athlete.

I. An employee coach, official, licensed athletic trainer, or health care provider who suspects that a student-athlete has sustained a concussion or head injury in a practice or game shall follow the institutional policy and procedures for removal from play and practice.

II. Upon the removal of a student athlete from play or practice, a licensed athletic trainer or health care provider shall follow the institutional policy and procedures for evaluation, treatment, and return to play.

III. No person who authorizes a student-athlete to return to play shall be liable for civil damages resulting from any act or omission in the rendering of such care, other than acts or omissions constituting gross negligence or willful or wanton misconduct.

187-A:46 Further Dissemination of Concussion and Head Injury Information. The appropriate department of each institution in the university system of New Hampshire shall develop a centralized resource related

to the nature, risk, and treatment of concussion and head injury for reference by students participating in non-varsity athletics sponsored and supervised by campus recreation or similar departments.

187-A:47 Limitation of Liability. An employee of a university system of New Hampshire institution, or volunteer or employee of a company under contract to such institution, shall be immune from civil liability for good faith conduct arising from or pertaining to the injury or death of a student-athlete or a participant in any non-varsity athletics sponsored and supervised by campus recreation or similar departments, provided the action or inaction was in compliance with this subdivision and the institution's policies relative to the management of concussions and head injuries. The institutions may provide concussion guidelines to other organizations sponsoring athletic activities on institution property, however the institution shall not be required to enforce compliance with such guidelines.

2 New Subdivision; Community College System of New Hampshire; Head Injury Policies for Student-Athletes. Amend RSA 188-F by inserting after section 67 the following new subdivision:

Head Injury Policies for Student-Athletes

188-F:68 Definitions. As used in this subdivision:

I. "Head injury" means injuries to the scalp, skull, or brain caused by trauma, and shall include a concussion which is the most common type of sports-related brain injury.

II. "Health care provider" means a person who is licensed, certified, or otherwise statutorily authorized by the state to provide medical treatment and is trained in the evaluation and management of concussions.

III. "Institution property" means all real property, physical plant, and equipment used for institution purposes.

IV. "Student-athlete" means a student of the community college system of New Hampshire who is involved in the institution's varsity athletic teams.

188-F:69 Head Injury Policies for Student-Athletes.

I. The athletic department of each institution in the community college system of New Hampshire shall have guidelines, procedures, and other pertinent information and forms, developed in accordance with the National Collegiate Athletic Association or other national authority governing the institution's sports programs, to govern procedures for evaluation and treatment of concussion and head injury, including return to play and continuing evaluation, and to inform coaches and student-athletes of the nature and risk of concussion and head injury including continuing to play after concussion or head injury, and of chronic traumatic encephalopathy and other brain pathologies. On an annual basis, the athletic department of each institution shall distribute a concussion and head injury information sheet to all student-athletes.

II. At the beginning of a student-athlete's participation in a collision or contact sport, or a sport that requires the use of a helmet or the use of the head in contact with a ball, the institution shall provide the opportunity for neurocognitive testing.

188-F:70 Removal of a Student-Athlete.

I. An employee coach, official, licensed athletic trainer, or health care provider who suspects that a student-athlete has sustained a concussion or head injury in a practice or game shall follow the institutional policy and procedures for removal from play and practice.

II. Upon the removal of a student athlete from play or practice, a licensed athletic trainer or health care provider shall follow the institutional policy and procedures for evaluation, treatment, and return to play.

III. No person who authorizes a student-athlete to return to play shall be liable for civil damages resulting from any act or omission in the rendering of such care, other than acts or omissions constituting gross negligence or willful or wanton misconduct.

188-F:71 Further Dissemination of Concussion and Head Injury Information. The appropriate department of each institution in the community college system of New Hampshire shall develop a centralized resource related to the nature, risk, and treatment of concussion and head injury for reference by students participating in non-varsity athletics sponsored and supervised by campus recreation or similar departments.

188-F:72 Limitation of Liability. An employee of a community college system of New Hampshire institution, or volunteer or employee of a company under contract to such institution, shall be immune from civil liability for good faith conduct arising from or pertaining to the injury or death of a student-athlete or a participant in any non-varsity athletics sponsored and supervised by campus recreation or similar departments, provided the action or inaction was in compliance with this subdivision and the institution's policies relative to the management of concussions and head injuries. The institutions may provide concussion guidelines to other organizations sponsoring athletic activities on institution property, however the institution shall not be required to enforce compliance with such guidelines.

3 Effective Date. This act shall take effect 60 days after its passage.

ENERGY AND NATURAL RESOURCES

SB 368, establishing an exemption from shoreland protection permitting requirements for maintenance and repairs of existing roads and for borings and test wells.

Ought to Pass with Amendment, Vote 5-0. Senator Bradley for the committee.

> This bill establishes an exemption for the Department of Transportation from shoreland protection permitting requirements for maintenance and repairs of existing roads and for borings and test wells. This bill is a request of the Department of Transportation. The amendment clarifies that the commissioner of Department of Environmental Services may enter into a memorandum of agreement with the commissioner of Department of Transportation, providing that the Department of Transportation has incorporated appropriate protective practices in its projects that are equivalent to the requirements set by the Department of Environmental Services.

Energy and Natural Resources
February 14, 2018
2018-0656s
08/06

Amendment to SB 368

Amend RSA 483-B:5-b, IX as inserted by section 1 of the bill by replacing it with the following:

IX. The commissioner of the department of environmental services may enter into a memorandum of agreement with the commissioner of the department of transportation for the construction of new roads, and the maintenance of existing roads, not covered by paragraph VII, provided that the department of transportation has incorporated appropriate protective practices in its projects which are substantially equivalent to the requirements established by the department of environmental services under this chapter.

HEALTH AND HUMAN SERVICES
SB 479, relative to the oversight commission on children's services. Ought to Pass with Amendment, Vote 5-0. Senator Avard for the committee.

This bill would change the reporting requirements for the newly created Office of the Child Advocate. The changes would require the office to file its annual report with the children's services oversight committee that is tasked with monitoring children's services in the state. The amendment makes the Committee to review Child Abuse Fatalities a permanent committee. This committee has been instrumental in pushing many of the reforms at DCYF and it is important that they are able to continue to do their work.

Health and Human Services
February 14, 2018
2018-0661s
05/04

Amendment to SB 479

Amend the title of the bill by replacing it with the following:

AN ACT relative to the oversight commission on children's services and relative to the commission to review child abuse fatalities.

Amend the bill by replacing all after section 2 with the following:

3 Commission to Review Child Abuse Fatalities; Reporting Requirement. RSA 169-C:39-k, V is repealed and reenacted to read as follows:

V. On or before November 1, 2018, and each November 1 thereafter, the commission shall submit an annual report of its findings and any recommendations for proposed legislation to the president of the senate, the speaker of the house of representatives, the senate clerk, the house clerk, the governor, and the state library.

4 Repeal. The following are repealed:

I. RSA 170-G:19, V, relative to the reporting requirement of the commission on children's services.

II. 2015; 127:5, relative to the prospective repeal of the commission to review child abuse fatalities.

5 Effective Date. This act shall take effect upon its passage.

2018-0661s

AMENDED ANALYSIS

This bill:

I. Requires the office of the child advocate to submit its annual report to the oversight commission on children's services, clarifies the duties of the commission, and repeals the commission's reporting requirement.

II. Makes the commission to review child abuse fatalities permanent and establishes an annual reporting requirement.

SB 480, limiting the use of electroconvulsive therapy.
Inexpedient to Legislate, Vote 5-0. Senator Bradley for the committee.

This bill would have created a prohibition on Electroconvulsive therapy (ECT) for minors under 16 years of age and it would have limited its use in other circumstances as well. After more review and study of testimony the committee determined that ECT is a therapy that often has a lot of success in treating patients with severe mental

health diseases. The committee was satisfied that there are enough safeguards in place to protect patients making this bill no longer necessary.

SB 485, establishing a committee to study the relationship between concierge medicine and the Affordable Care Act.
Ought to Pass with Amendment, Vote 5-0. Senator Avard for the committee.

This bill established a commission to study the relationship between concierge medicine and the Affordable Care Act. In times of turbulent and rising healthcare costs it is important to make sure that consumers are informed of what services are available to them. Concierge services are become more popular and it is important to know how they fit in New Hampshire and Federal Insurance law.

Health and Human Services
February 15, 2018
2018-0664s
01/04

Amendment to SB 485

Amend the title of the bill by replacing it with the following:

AN ACT establishing a committee to study the relationship between concierge medicine and New Hampshire and federal health insurance law.

Amend subparagraph I(a) as inserted by section 2 of the bill by replacing it with the following:

(a) One member of the senate, appointed by the president of the senate.

Amend paragraph I as inserted by section 3 of the bill by replacing it with the following:

I. The committee's study shall include, but not be limited to, studying the issue of concierge medicine and whether it is permitted under New Hampshire and federal health insurance law. The committee shall also examine whether the costs of concierge medicine may be applied to the deductible required under New Hampshire and federal health insurance law.

2018-0664s

AMENDED ANALYSIS

This bill establishes a committee to study concierge medicine in relation to New Hampshire and federal health insurance law.

SB 547, relative to unused prescription drugs.
Interim Study, Vote 5-0. Senator Gray for the committee.

This bill would have required that all towns create a place for residents to dispose of unused prescription drugs. The committee received information that the number of towns voluntarily providing this service is rapidly increasing and that requiring this of municipalities could be considered an unfunded mandate. The committee also received information about other very cost effective methods of safe disposal of unused medications that would not place a large financial burden on the towns.

SB 591-FN, relative to accreditation of health care providers by pharmacy benefit managers.
Ought to Pass with Amendment, Vote 5-0. Senator Bradley for the committee.

This bill would prohibit pharmacy benefit managers from requiring accreditation of providers. This is currently in the law with a sunset of this summer. This bill extends the sunset for another two years to hopefully allow time for all of the parties to reach a compromise. This bill is a compromise of the PBM industry and the NH Independent Pharmacies.

Health and Human Services
February 14, 2018
2018-0653s
01/03

Amendment to SB 591-FN

Amend the bill by replacing all after the enacting clause with the following:

1 New Subparagraph; Managed Care Law; Provider Contracts; Pharmacy Benefit Managers. Amend RSA 420-J:8, XV by inserting after subparagraph (c) the following new subparagraph:

(d) A pharmacy benefit manager shall not require accreditation of providers other than requirements set forth by the New Hampshire pharmacy board or other state or federal entity.

2 Repeal. RSA 420-J:8, XV(d), relative to prohibiting pharmacy benefit managers to require providers to obtain certain accreditation, is repealed.

3 Effective Date.

I. Section 2 of this act shall take effect June 30, 2020.

II. The remainder of this act shall take effect upon its passage.

2018-0653s

AMENDED ANALYSIS

This bill prohibits certain practices of pharmacy benefit managers except under certain circumstances until June 30, 2020.

JUDICIARY
SB 389, relative to administrative fees on restitution.
Ought to Pass, Vote 5-0. Senator Hennessey for the committee.

This bill provides that defendants shall only pay an administrative fee on a restitution payment when that payment is collected by the Department of Corrections, Division of Field Services. When restitution is paid almost immediately at the court without any processing efforts by the Department of Corrections there is no need for a processing fee to be assessed. Currently, the Supreme Court has been waiving this fee in these scenarios, and the bill will simply codify this appropriate practice.

SB 493, establishing a committee to study the codification of the exculpatory evidence schedule and related law enforcement protocols.
Ought to Pass, Vote 5-0. Senator Carson for the committee.

This bill establishes a committee to study whether or not to codify in statute the Exculpatory Evidence Schedule (EES), formerly known as the "Laurie list," and the related law enforcement protocols established by the Attorney General in a law enforcement memoran-

dum dated March 21, 2017. The establishment of this committee will allow House and Senate members the opportunity to come together and find common ground on this important issue.

SB 494, relative to access to child abuse or neglect information by certain legislative committees.
Inexpedient to Legislate, Vote 5-0. Senator French for the committee.

This bill would permit the Senate and House Judiciary Committees to review the confidential records of child protection cases and would permit any party or attorney to an abuse or neglect case to testify before the Legislature regarding the case. Although this is a very well written piece of legislation, the Committee believes that due to the recent creation of the Office of Child Advocate and the fact that individuals already have the ability to share their confidential records with legislators that it is not appropriate for this legislation to move forward at this time.

SB 495, relative to certain court orders in a divorce/custody matter.
Inexpedient to Legislate, Vote 5-0. Senator Hennessey for the committee.

This bill would limit the court's authority to order that a child be vaccinated over the objection of one of the parents. The Committee found that this issue should continue to be handled by the courts and therefore, believes this legislation should not move forward.

PUBLIC AND MUNICIPAL AFFAIRS
SB 341, allowing municipalities to adopt a property tax exemption for certain disabled veterans.
Ought to Pass with Amendment, Vote 5-0. Senator Gray for the committee.

This bill as amended raises the optional property tax credit for certain totally and permanently disabled veterans from a maximum of $2,000 to a maximum of $4,000.

Public and Municipal Affairs
February 9, 2018
2018-0646s
05/10

Amendment to SB 341

Amend the title of the bill by replacing it with the following:

AN ACT relative to the veterans' property tax credit for service-connected disability.

Amend the bill by replacing all after the enacting clause with the following:

1 Tax Credit for Service-Connected Total Disability. Amend RSA 72:35, I-a to read as follows:

I-a. The optional tax credit for service-connected total disability, upon adoption by a city or town pursuant to RSA 72:27-a, shall be an amount from $701 up to [~~$2,000~~] ***$4,000***. The optional tax credit for service-connected total disability shall replace the standard tax credit in its entirety and shall not be in addition thereto.

2 Effective Date. This act shall take effect January 1, 2019.

2018-0646s

AMENDED ANALYSIS

This bill increases the maximum property tax credit for service-connected total disability from $2000 to $4000.

SB 514-FN, establishing a commission to create a New Hampshire recovery monument.
Ought to Pass with Amendment, Vote 5-0. Senator Kahn for the committee.

This bill as amended establishes a commission to create a New Hampshire recovery memorial. This commission will oversee the location, design, construction, maintenance, and task of raising funds for the memorial.

Public and Municipal Affairs
February 14, 2018
2018-0660s
08/10

Amendment to SB 514-FN

Amend the title of the bill by replacing it with the following:

AN ACT establishing a commission to create a New Hampshire recovery memorial.

Amend the bill by replacing all after the enacting clause with the following:

1 New Subdivision; New Hampshire Recovery Memorial Commission. Amend RSA 4 by inserting after section 9-m the following new subdivision:

New Hampshire Recovery Memorial Commission

4:9-n Commission Established; Special Account.

I. A commission is established to oversee the location, design, construction, and maintenance of a New Hampshire recovery memorial and to privately raise and expend all the funds necessary for its construction and maintenance. The governor is authorized to accept for the commission, in the name of the state, the gifts of money, which are donated to construct and maintain the memorial. Notwithstanding any other provision of law, the commission may accept donated in-kind services, goods, and materials for the construction and maintenance of the memorial without governor and council approval.

II. The gifts of money, which are donated to contract, construct, and maintain the memorial, shall be placed in a special nonlapsing account in the state treasury, to be expended for the purposes of the New Hampshire recovery memorial. Any money remaining in the special account after construction of the memorial is completed shall be used for the care, maintenance, repair, additions to the memorial. Any funds left in the special account after annual care, maintenance, and repair of the memorial shall be deposited in the alcohol abuse prevention treatment fund under RSA 176-A:1. Notwithstanding any other provision of law, the commission may expend the money raised or accepted as a gift without the approval of governor and council, to contract for the construction and perpetual maintenance of the memorial.

III. The commission shall remain in existence upon the completion of the memorial for the purpose of overseeing maintenance and approving any change to the memorial, as well as approving memorial activities, celebrations, and commemorations associated with recovery and deemed appropriate for occurrence at the memorial site, as permitted by the municipal rules where the memorial is located.

4:9-o Commission Membership and Duties. The members of the commission established in RSA 4:9-n shall be as follows:

(a) One senator, appointed by the president of the senate.

(b) Two representatives, appointed by the speaker of the house of representatives.

(c) Two directors of recovery organizations, appointed by the governor.

(d) Two persons in recovery, appointed by the governor.

(e) Two family members of persons lost to substance use disorder, appointed by the governor.

(f) The chairperson of the recovery task force of the governor's commission on alcohol and drug abuse, prevention, treatment, and recovery, or designee.

(g) The president of New Futures, or designee.

(h) The director of National Alliance for Mental Illness, New Hampshire (NAMI-NH), or designee.

(i) The commissioner of the department of health and human services, or designee.

II. Legislative members of the commission shall receive mileage at the legislative rate while attending to the duties of the commission. The members of the commission shall elect a chairperson from among the members. The first named house member shall call the first meeting of the commission. Seven members of the commission shall constitute a quorum.

III. The commission shall select the location and design for the New Hampshire recovery memorial and oversee the construction and maintenance of the memorial.

IV. The commission shall privately raise all the money necessary for the planning, design, construction, and maintenance of the New Hampshire recovery memorial.

2 New Subparagraph; New Hampshire Recovery Memorial Fund. Amend RSA 6:12, I(b) by inserting after subparagraph 339 the following new subparagraph:

(340) Moneys deposited into the New Hampshire recovery memorial special account established in RSA 4:9-n.

3 Effective Date. This act shall take effect 60 days after its passage.

2018-0660s

AMENDED ANALYSIS

This bill establishes a commission to create a New Hampshire recovery memorial.

TRANSPORTATION

SB 398, relative to information contained in certain motor vehicle records.
Ought to Pass, Vote 5-0. Senator Watters for the committee.

This bill allows access to records of motor vehicle accidents by authorized legal representatives. Last session, this statute was amended extensively to guarantee that certain individuals were able to get information from police departments concerning accidents. After learning that some local police departments did not interpret the statute the way that it was intended, this legislation seeks to further clarify this language.

SB 515, relative to commemorative license plates.
Ought to Pass, Vote 5-0. Senator Ward for the committee.

This bill adds the sestercentennial, the celebration of 250 years, to the town and city anniversaries eligible for commemorate license plates.

SB 518, relative to agency reports of real property owned or leased by the department.
Ought to Pass, Vote 5-0. Senator Watters for the committee.

> At the request of the Department of Transportation, this bill exempts the DOT from the requirement to make a report identifying all real property owned or leased by the agency. The Department has their own database where it monitors these properties already. Because of this, they believe that these reports are a duplication of efforts.

SB 519, relative to the purchase of property for the construction of roads.
Ought to Pass with Amendment, Vote 5-0. Senator Watters for the committee.

> This bill permits the commissioner of transportation to purchase land if a commission determines that there is occasion for laying out of a highway. The committee amended the bill to add the governor to those who may determine that there is occasion for the laying out of a highway. This legislation serves as an important clarification to a bill that contained vague language last session.

Senate Transportation
February 14, 2018
2018-0625s
06/10

Amendment to SB 519

Amend the bill by inserting after section 1 the following and renumbering the original section 2 to read as 4:

2 Layout of State Highways. Amend the introductory paragraph of RSA 230:13, II to read as follows:

II. The [~~commission~~] ***commissioner*** may acquire [~~such~~] ***private or public*** property ***and property rights*** as [~~it~~] ***he or she*** determines reasonably necessary to:

3 Limited Access Highways; Occasion for Layout. Amend RSA 230:45 to read as follows:

230:45 Occasion for Layout; Layout. The governor, with the advice of the council, on the governor's own motion or a special committee of 3 persons appointed by the governor and council for the purpose, may determine, upon hearing, whether there is occasion for the laying out or alteration of a limited access facility including service roads as proposed by the commissioner of transportation; and, if so, the commissioner may purchase land or other property as proposed and shall lay out the remainder of such facility, service roads, or alteration thereof. The [~~commission appointed by the governor and council to lay out any limited access facility~~] ***commissioner*** may acquire private or public property and property rights for such facility and service roads, including rights of access, air, view, and light, by gift, devise, purchase, or condemnation in the same manner as provided for acquiring property for class I highways. Property rights acquired under the provisions of this section may be in fee simple or in the form of easements, including property acquired by condemnation proceedings. The commissioner, in his or her discretion, may acquire an entire lot, block, or tract of land if, by so doing, the interests of the public will be best served even though the entire lot, block, or tract is not immediately needed for the right-of-way proper. The commissioner of transportation, with the approval of the governor and council, may sell, convey, transfer, or lease any surplus property, real or personal, at public or private sale.

2018-0625s

AMENDED ANALYSIS

This bill permits the commissioner of transportation to purchase land if the governor or a commission determines that there is occasion for the laying out of a highway.

This bill is a request of the department of transportation.

The question is on the adoption of the Consent Calendar. Adopted.

Senators Carson and D'Allesandro are excused for the day.

REGULAR CALENDAR

COMMERCE
SB 425, relative to limited liability companies.
Ought to Pass, Vote 4-0. Senator Innis for the committee.

SENATOR INNIS: Thank you, Mister President. I move Ought to Pass on Senate Bill 425. The legislature undertook a rewrite of the limited liability company statutes a few years ago, and we have made incremental improvements to that act over time. This bill represents the latest change. With an LLC you have current members, and you may have former members as well as transferees. When you have a membership you have complete and total rights. If you leave the LLC, you may still have an LLC interest or the right to allocation of profits and losses. Section IV of the original legislation states that former members and transferees are entitled to fiduciary rights against the LLC. That was intended to provide protection to people who had that right by reason of the death of an LLC member, such as a spouse. This gives them the right to income, but not the right to share in management. However, the original wording took it too far. It gives actual fiduciary rights to people who never had a contract in the first place. Under the current law, a former member who got kicked out could really tie up the company and keep it from functioning, which is the reason for the elimination of this section. A second change clarifies that when you have a merger of LLCs it can be with what we call a foreign LLC. In this case a foreign LLC is an LLC that is not incorporated within the state of New Hampshire. So, a foreign LLC could be a Vermont LLC, for example. Please join the Senate Commerce Committee in voting Senate Bill 425 Ought to Pass. Thank you, Mister President.

The question is on the adoption of the motion of Ought to Pass. Adopted, bill ordered to Third Reading.

EDUCATION
SB 357, relative to safe school zones and relative to syringe service programs.
Ought to Pass with Amendment, Vote 5-0. Senator Giuda for the committee.

Recess. Out of recess.

Senator Giuda moved Rerefer.

(The Chair recognized Senator Hennessey.)

SENATOR HENNESSEY: Thank you, Mister President. I believe there is nothing that we do in this body, nothing that's more important than protecting our children from violence.

PRESIDENT MORSE: Senator, we're speaking to the recommit motion.

SENATOR HENNESSEY: Yes.

PRESIDENT MORSE: To the recommit motion.

SENATOR HENNESSEY: Correct.

PRESIDENT MORSE: Okay.

SENATOR HENNESSEY: I believe that not one child in New Hampshire should be afraid to go to school, and that not one parent should fear for their child's safety when they're dropped off.

PRESIDENT MORSE: The member's out of order. We're speaking to the Rerefer motion, Senator. Do you support the Rerefer motion or do you not support the Rerefer motion?

SENATOR HENNESSEY: I was going to get to that. Would you like me to say it first?

PRESIDENT MORSE: Do you support the Rerefer motion or do you not support the Rerefer motion?

SENATOR HENNESSEY: I am reluctantly supporting the recommit, but I would like to explain why.

PRESIDENT MORSE: Senator, we're not having a debate on the amendment. The amendment's an important piece of legislation, but I thought your question of the Chair was going to be are we going to take this amendment up that you're introducing in Education. The Education Chair has indicated yes, if that was your question.

SENATOR HENNESSEY: No, my understanding was that I was allowed to speak on this issue right now.

PRESIDENT MORSE: No, you're allowed to speak on Rerefer.

SENATOR HENNESSEY: That's what I thought I was speaking on. I was speaking about why it's important, an important issue, and why I am reluctantly Rereferring.

Recess. Out of recess.

The question is on the motion of Rerefer to Committee.

(The Chair recognized Senator Hennessey.)

SENATOR HENNESSEY: I would like to apologize for not realizing that I should have said at the very beginning that I am supporting this motion for recommitting, and I would just like to say that I'm disappointed that we are not addressing this issue faster and sooner because in the meantime children are dying, and we have a lot of people outside who are very concerned about that. Thank you.

PARLIAMENTARY INQUIRY

(The Chair recognized Senator Soucy for a parliamentary inquiry.)

SEANTOR SOUCY: Thank you, Mister President. Mister President, if I support this motion to recommit because I believe it will give an opportunity for the public to weigh in on this important issue, and give this body an opportunity to have a full debate, would I vote yes on the motion to recommit?

PRESIDENT MORSE: If you're in favor you're going to vote to vote aye, if you're opposed you're going vote no.

The question is on the adoption of the motion of Rerefer to Committee. Adopted.

PRESIDENT MORSE: I apologize, I misspoke; it's not recommit, it's re-refer.

SB 523-FN, requiring public school students to receive training in cardiopulmonary resuscitation and the use of an automated external defibrillator device.
Inexpedient to Legislate, Vote 3-2. Senator Ward for the committee.

SENATOR WARD: Thank you, Mister President. I move Senate Bill 523-FN Inexpedient to Legislate. This bill would create a state wide law requiring students to receive training in CPR and the use of an automated external defibrillator device. There is no doubt that training in CPR and how to use a defibrillator device is important. However, the majority of the Education Committee feels as though this training should be an option for districts and schools and not a requirement. Further, the amount of chest compressions needed during CPR have recently changed and the amount of effort needed to execute that may be too difficult for some. In addition, many of the students already have basic CPR through their Boy and Girls Scout troops or lifeguard training. I ask for your support in the motion of Inexpedient to Legislate on Senate Bill 523. Thank you, Mister President.

(The Chair recognized Senator Hennessey.)

SENATOR HENNESSEY: Thank you. I am rising simply to say that I would like to thank the committee for their work on this bill which I was the prime sponsor and was asked to file on behalf of cardiologists at Dartmouth Hitchcock. I also, due to unfortunate circumstances, was not able to do as much preparation as I should have, and I apologize for that because I think it will be fixed and come back later. Thank you.

The question is on the adoption of the motion of Inexpedient to Legislate. Adopted.

FINANCE
SB 334-FN, relative to temporary licensure of allied health professionals from nearby states.
Ought to Pass with Amendment, Vote 5-1. Senator Daniels for the committee.

Senate Finance
February 13, 2018
2018-0610s
10/04

Amendment to SB 334-FN

Amend the title of the bill by replacing it with the following:

AN ACT relative to temporary licenses for occupations and professions for persons from other states.

Amend the bill by replacing all after the enacting clause with the following:

1 New Section; Occupations and Professions; General Provisions; Temporary Licenses or Permits. Amend RSA 332-G by inserting after section 12 the following new section:

332-G:13 Temporary Licenses or Permits. The board or commission for any occupation or profession regulated under this title for which existing statutes or rules do not allow for the issuance of a temporary license or permit to an applicant for full licensure while awaiting a determination for such licensure, shall adopt rules as necessary to allow a temporary

license or permit to be issued to a person who is currently licensed in any state of the United States or the District of Columbia for 120 days while the person has a pending application for licensure with the respective board or commission regulated under this title. An applicant for a temporary license or permit to practice, who is currently licensed in any state of the United States or the District of Columbia shall:

I. Hold an active unencumbered license; and

II. Have committed no acts or omissions which are grounds for disciplinary action in another jurisdiction, or, if such acts have been committed, would be grounds for disciplinary action.

2 Effective Date. This act shall take effect upon its passage.

2018-0610s

AMENDED ANALYSIS

This bill requires boards and commissions of regulated occupations and professions to allow for a temporary license or permit for an applicant for full licensure for 120 days while awaiting a determination for such licensure.

SENATOR DANIELS: Thank you, Mister President. I move Senate Bill 334-FN Ought To Pass With Amendment. This bill originally allowed certain allied health professionals licensed in the five other New England States and New York to be granted a temporary license to practice in New Hampshire while applying for a regular license. The amendment expanded access to temporary permits to currently licensed professionals of any occupation regulated under RSA 332-G. It also expanded eligibility for temporary permits for 120 days to currently licensed applicants from any state and the District of Columbia. The Committee recommends passage of Senate Bill 334-FN as amended, and asks for your support. Thank you, Mister President.

(The Chair recognized Senator Sanborn.)

SENATOR SANBORN: Thank you, Mister President. I rise and would like to thank the Finance Chair and the members of the Finance Committee for allowing me to introduce this amendment to that committee, and for them having a hearing, discussing it and passing it. We know today in New Hampshire we have some of the lowest unemployment rates in America. There is barely a company in this state that is not desperate for new potential employees. Understanding that we have one of the most rigorous licensing processes in America, some 360 different jobs in this state that require licensing, passage of this amendment, which will allow people from any state in America to come here and operate for 120 days while they go through our licensing process clearly sends a real message that we want to encourage people to come here, encourage people to work, and start working today. So, again, Mister President, and to my good friend, the Chair of Finance, thank you very much for giving us the opportunity because when we talk about our need to bring people here to start working tomorrow, this bill will actually do that, and I appreciate your consideration as does all the employers in New Hampshire. Thank you, Mister President.

(The Chair recognized Senator Kahn.)

SENATOR KAHN: Thank you, Mister President. I rise in opposition to the amendment, and I ask my colleagues to vote this amendment down, and then Ought to Pass on the underlying bill. I do that recognizing that we went through a hearing in Health and Human Services; that

hearing was focused on the importance and urgency, workforce urgency, in the allied health fields. We accepted testimony from hospitals, nursing homes, the Board of Allied Health, and the Office of Professional Licensing and Certification. They all were in favor of the bill. We did the research on current reciprocity and national compact agreements in those seven allied health fields. And we gave evidence of, in fact, delays in the licensing, and it was documented by the employers. This amendment, while heard in the Finance Committee, I would say the process has not been thorough. The Office of Professional Licensure and Certification was not in attendance in the meeting. They did not testify at the meeting. There was no fiscal analysis which, in fact, had it been done, that office is very concerned about the work load. There are 47 boards for professional licensure and certification in the state. This bill would require each of them to go through rulemaking to adopt provisional licensing procedures. We already have taken up the consideration of the work load in that office. That it needs more staff, that it's behind on what it's doing, but we don't know which–I mean I know the allied health fields that they're behind on. I've heard testimony on that. I don't think anybody in the body has heard testimony that we're behind on every board and every certification in the state. We also don't know what goes into each certification and licensure in the state. For instance, I don't know what goes in to reflexology, structural integrators, and Asian body work therapists, but that's something that we license in the state of New Hampshire. I do know somewhat what goes into guardian ad litem. And I'd be very concerned that we accepted reciprocity on guardian ad litem from other states without knowing what was going into the training for those guardian ad litems in other states and that we were allowing them to come into the state and be licensed in that manner because we have a shortage of guardian ad litems. I don't know what goes into a septic system evaluator. I could go on with the other 46 licensures and certifications, but I do know what goes into Allied Health Professionals, and the committee knew clearly what goes into it. This body passed this motion by a vote of 24-0; it was then referred to the Finance Committee. I asked that we–and in the words of our colleague from Senate District 3–I think this is a sideshow. I don't think this is the main act. The main act in this bill was to address a workforce shortage in allied health. To open this up without understanding of the implications, creating an understanding the cost that there is to this I think is not well conceived. This should go through the proper legislative hearing introduction process. My constituents are very interested in this underlying bill. There are jobs in nursing homes, and in hospitals where the applicants are so rare they need to get people into the workforce that are qualified. It's documented what the qualifications are. They're common across the states. I ask that you vote down this amendment, and that we move Ought to Pass on the underlying bill for Senate Bill 334. Thank you, Mister President.

(The Chair recognized Senator Watters.)

SENATOR WATTERS: Thank you, Mister President, and colleagues. I, too, rise in opposition to the Finance Committee Amendment. I will say though to the Senator from District 9 that I sympathize a great deal in that we ought to look at this. I mean I've been on ED&A and I understand that this temporary licensure may be an issue that we really could do for many others than addressing an immediate crisis here. I think the Senator from District 10 has indicated to us many of the unintended results of moving this way right now, but I just wanted to focus on one particular problem that would arise for electrical workers, electricians.

Most electrical work takes less than 180 days. I mean if you're getting a house wired you're going to hope it's less than 180 days, right? But most jobs are less than 180 days. And we do have, I believe it's with fifteen states, compacts so the licenses are represented. But if somebody comes in on one of these 6 month licenses from a non-compact state and they do the work by our state statute that work cannot get inspected. The electrical inspector can only have an inspection pass for that work and let that resident be lived in if it's from one of these compact states. So we might be in a situation where somebody comes in and does the job, the homeowner there and thinking they had a licensed electrician doing it and suddenly come to find out that they can't get an inspection and occupancy. So I think, actually, I think these kinds of things really could be worked out if we looked at the broader issue, but right now let's pass the underlying bill, you know, get this immediate thing done, and then certainly let's look at the other issues that the Senator from District 9 has raised. Thank you.

(The Chair recognized Senator Giuda.)

SENATOR GIUDA: Thank you, Mister President. I rise in support of the amendment and the bill. I fully recognize the concerns of my colleague from District 10 and District number 4, but I note that in the language of the bill it states that each of the licensure boards will present to Rules conditions for issuance of the temporary license, and I have every faith that those bodies will do the due diligence necessary to protect our citizens under their current stratagem for doing so before permitting someone from out of state to just come in at will. They will review those licenses and take a look at those qualifications as part of the rule making process. Thank you, Mister President.

(The Chair recognized Senator Bradley.)

SENATOR BRADLEY: Thank you very much. Senate Bill 334 did go through the Health Committee. We heard compelling testimony on a licensed, or several license professions that are probably among the most critical to have licensed are health care professions. There is an absolute necessity for this 120 day temporary licensure. There was universal support for the bill. I salute my colleague from District 10 for sponsoring it, and I think I recall being a co-sponsor with you because it was a good idea. I agree with our friend from District 2 that there are safeguards built into the bill. You, obviously, have to have an unencumbered license in any of the other jurisdictions, committed no acts or omissions that are grounds for any disciplinary action in another jurisdiction that would be subject to discipline. So I think that for a temporary 120 day license this is a realistic, given our work force shortages and trying to attract people to the most livable state in the nation, is a realistic way to proceed, and I urge the body to adopt the amendment. Thank you, Mister President.

(The Chair recognized Senator Sanborn.)

SENATOR SANBORN: Thank you, Mister President. I rise again and again with complete respect to my colleague from District number 10, but would like to remind the body that yesterday we celebrated some twenty-one state police, who due to an emergency, went down to Puerto Rico in one of their times of need. We also know that whenever we either have an ice storm in New Hampshire or time and time again we have sent licensed electricians from our utilities as far away as Florida and the Midwest to help other states that are in need. We hear all the time that the bravest of the brave firemen and EMTs–EMTs have to

be licensed in our state–go to all places in the Midwest whenever there are challenges, and whenever there's the need, and our people stand up and call. Mister President, the reason I bring this up to the body to consider is these are all licensed industries that we recognize that in times of need our state goes forward and the other states accept those employees and their capabilities and their licenses and their ability to do work. Now some of us would suggest, just like in the health care field, there is a crisis. There is a crisis of not enough employees in our state and what can we do to try to help all of the employers in this state make our economy grow, and make our economy thrive? Senators, this isn't the bill to eliminate licensing, this is a bill just to recognize that if someone makes the decision to move to New Hampshire and apply for a license in New Hampshire that they'll be able to work on day number one. We are just recognizing the fact that they hold an electricians license in another state. That they've been through the process, they've been in the training of that other state. Now sure I can understand, Mister President, whether or not we want to have a debate today as to whether or not we trust other states or do we trust their licensing boards, but at some level we have to have trust. At some level we have to recognize that there are people across this country who are mobile, who might be looking for a better opportunity, who might be looking for a better job. And, if you're like most of us that work for a living, you can't give up two, three, four, six, ten, twelve weeks, or three or four months without a paycheck. So, we created a barrier for people that says we need you, but you have to go through our licensing process before you can work here. This to me is a great compromise that, again, is very specific; we'll let you come here for a short period of time, but to work here you've got to apply for a license, you've got to apply for what we do, and you can't have had your license revoked or some malfeasance done in your home state. The last thing I'd remind this body is what this bill recognizes is things like what about those military families that are transferred over here? We celebrate on a regular basis my friends from Portsmouth about we now have tankers coming in, and we now have people at the military base in Portsmouth, and people are transferred in and out with their spouses. Shouldn't we give them that ability to come here and work and apply for a license while their spouse is working? I think this is truly, truly common sense. I think that in America today we have to be able to recognize that people have the capacity; and for us, bringing people here, keeping the door open while they get their license done, is just common sense. And, Mister President, I would ask for a roll call on this vote. Thank you.

(The Chair recognized Senator Kahn.)

SENAOTR KAHN: Thank you, Mister President. Thank you, Mister President. I rise, again, colleagues, I can appeal to you, and I want to appeal to you–if you need a fear factor, think about guardian ad litems. People who are appointed by the court to represent people who are aged and have no capacity to represent themselves; think about kids who are caught up in custody and other kinds of child welfare issues, who get appointed a guardian ad litem and have no opportunity for a defense and representation for themselves. Do we want to have that kind of license automatically authorized in this state without licensure certification going through the state of New Hampshire? It is not equal to a physical therapist who goes through an accredited baccalaureate degree program in one state, gets their certification and comes to New Hampshire to work. If that appeal doesn't work for you, try the process appeal. The

Office of Professional Licensure and Certification was not aware that Senate Bill 334 was amended. And if that doesn't work try the fiscal analysis because their argument to me was forty-seven boards going through rule making, and I'll trust my colleague from District 9 that it's 361 separate kinds of certifications is a lot of rulemaking; that they're going to have to shepherd through a process and we never did the fiscal analysis. On those three bases, I just ask, stick to the underlying bill, let's vote down the amendment, put it through a legislative process so it can be considered not through the amendment that has been proposed, and let's move to address the critical shortage needs that there are in these seven allied health fields. Thank you, Mister President.

(The Chair recognized Senator Feltes.)

SENATOR FELTES: Thank you, Mister President. Mister President, I was one of the persons who voted for this in committee. I can say that when I reviewed it in committee, the amendment from our colleague from District 9, I understood it to apply to the same professions, but opening it up to all states. Subsequent to that, and upon further review it not only opens up to all states, it opens up to all professions. And so, I'm just not in a place to be comfortable voting for all professions. I think the HHS Committee heard a public hearing on specific professions. So, at this time I'm going to change my vote, Mister President because the amendment is much broader than I understood when I voted for it. Thank you, Mister President.

(The Chair recognized Senator Soucy for a question of Senator Daniels.)

SENATOR SOUCY: Thank you, Mister President. Thank you, Senator. Senator, in consideration of this amendment did you take any testimony from anyone outside of the allied health groups that were part of the original bill?

SENATOR DANIELS: I had one person approach me representing athletic trainers, which are part of the allied health but were not included in the bill to begin with and he wondered why. Upon further research I discovered that there was an additional occupation that was part of allied health that was not included either. So, I talked to him subsequent to this amendment. He said he was fine with that. Beyond that there was no more testimony.

SENATOR SOUCY: Senator, would you believe I spoke to several people last night who expressed grave concern at not being able to weigh in on this discussion that were members of professions outside of the originally passed legislation?

SENATOR DANIELS: I would believe that.

SENATOR SOUCY: One of the issues that was raised by some of these folks was an issue of liability and the consumer concerns that were raised by the Senator from District 4 that we may actually be putting more people in New Hampshire in a very bad spot thinking someone has a New Hampshire license, has acquired a New Hampshire license with all of the terms and conditions that apply to their profession.

SENATOR DANIELS: I would submit to you that we ran into the same situation where the respiratory care person who comes into New Hampshire may not have the New Hampshire qualifications. I mean if I have a respiratory problem, I'm now being treated by someone who isn't necessarily meeting the New Hampshire standards but they have 120 days. If that's acceptable, I don't see why the other professions are not also acceptable.

SENATOR SOUCY: Thank you.

The question is on the adoption of the Committee Amendment.

A roll call was requested by Senator Sanborn, seconded by Senator Giuda.

The following Senators voted Yes: Giuda, Bradley, Gray, French, Ward, Sanborn, Daniels, Avard, Reagan, Birdsell, Gannon, Innis, Morse.

The following Senators voted No: Woodburn, Watters, Hennessey, Kahn, Lasky, Feltes, Cavanaugh, Soucy, Fuller Clark.

The following Senators were excused: Carson, D'Allesandro.

Roll Call, Yeas: 13 - Nays: 9. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment.

A roll call was requested by Senator Sanborn, seconded by Senator Avard.

The following Senators voted Yes: Giuda, Bradley, Gray, French, Ward, Sanborn, Kahn, Daniels, Avard, Reagan, Birdsell, Gannon, Innis, Morse.

The following Senators voted No: Woodburn, Watters, Hennessey, Lasky, Feltes, Cavanaugh, Soucy, Fuller Clark.

The following Senators were excused: Carson, D'Allesandro.

Roll Call, Yeas: 14 - Nays: 8. Adopted, bill ordered to Third Reading.

SB 361, relative to dual and concurrent enrollment agreements between high schools and colleges and universities.
Inexpedient to Legislate, Vote 4-2. Senator Giuda for the committee.

Senator Giuda moved to Lay on the Table SB 361. Adopted.

PARLIAMENTARY INQUIRY

(The Chair recognized Senator Kahn for a parliamentary inquiry.)

SENATOR KAHN: Thank you, Mister President. The inquiry is if I know that the university system of New Hampshire offers dual enrollment courses and there are school board agreements that need to be adopted that do not include the university system of New Hampshire in those policy agreements, would I have voted against the motion to table?

PRESIDENT MORSE: Again, Senator Kahn, if you were in favor you would've said aye, if you were opposed you would've said no. The ayes voted to table.

SB 468-FN-A, relative to fines and penalties collected by the department of environmental services.
Ought to Pass with Amendment, Vote 5-1. Senator Daniels for the committee.

Senate Finance
February 13, 2018
2018-0609s
05/10

Amendment to SB 468-FN-A

Amend the bill by deleting sections 11-13 and renumbering the original sections 14-15 to read as 11-12, respectively.

Amend the bill by replacing section 12 with the following:

12 Effective Date. This act shall take effect July 1, 2019.

SENATOR DANIELS: Thank you, Mister President. I move Senate Bill 468 Ought to Pass with Amendment. This bill requires certain fines and penalties collected by the Department of Environmental Services to be deposited into the general fund rather than in dedicated funds. The amendment does two things: it changes the effective date of the bill to July 1, 2019, to enable the determination of funding during the next budget process; and (2) to avoid the loss of approximately $280,000 to the administrative assessment account within the aquatic resource compensatory mitigation fund–they need to shorten that. Committee members agreed to delete sections of Senate Bill 468 and exempt the fund from the requirements of the bill. The committee recommends passage of Senate Bill 468 as amended, and asks for your support. Thank you, Mister President.

The question is on the adoption of the Committee Amendment. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to Third Reading.

SB 544-FN, providing that 2 percent of insurance tax collections be deposited in the fire standards and training and emergency medical services fund. Ought to Pass with Amendment, Vote 5-0. Senator Daniels for the committee.

Senate Finance
February 14, 2018
2018-0615s
08/03

Amendment to SB 544-FN

Amend the bill by replacing all after the enacting clause with the following:

1 General Provisions; Fire Standards and Training and Emergency Medical Services Fund. Amend RSA 21-P:12-d to read as follows:

21-P:12-d Fire Standards and Training and Emergency Medical Services Fund.

I. There is established in the office of the state treasurer a separate, nonlapsing fund to be known as the fire standards and training and emergency medical services fund from which the state treasurer shall pay expenses incurred in the administration of the division of fire standards and training and emergency medical services, under RSA 21-P:12-a, the division of fire safety, under RSA 21-P:12, the division of homeland security and emergency management, and the position of fireworks inspector, under RSA 160-C:17. If the expenditure of additional funds over budget estimates was unanticipated and is necessary for the proper functioning of the division of fire standards and training and emergency medical services, the division of fire safety, or the division of homeland security and emergency management, the commissioner of the department of safety may transfer funds, with the prior approval of the fiscal committee of the general court, from this fund to the department of safety for such purposes.

II. On May 1 of each year, the state treasurer shall transfer an amount equal to 2 percent of the total amount collected pursuant to RSA 400-A:32, RSA 405:29, RSA 406-B:11, RSA 406-B:16, and RSA 406-B:17 in the preceding state fiscal year, from the general fund into the fire standards and training and emergency medical services fund established in paragraph I, provided however, the year-end balance of the fire standards and training and emergency medical services fund shall not exceed $2,000,000.

2 Effective Date. This act shall take effect 60 days after its passage.

2018-0615s

AMENDED ANALYSIS

This bill allows for annual transfers of certain money from the general fund to the fire standards and training and emergency medical resources fund.

SENATOR DANIELS: Thank you, Mister President. I move Senate Bill 544-FN Ought to Pass with Amendment. This bill annually transfers two percent of the insurance premium tax revenue collected under RSA 400-A:32 I-II from the general fund to the fire standards and training and emergency medical resources fund. This will ensure the continuation of the best training possible for New Hampshire's first responders. The amendment addresses concerns expressed by the Department of Insurance regarding a potential retaliatory tax impact. The committee recommends passage of Senate Bill 544 as amended, and asks for your support. Thank you, Mister President.

(The Chair recognized Senator Kahn for a question of Senator Daniels.)

SENATOR KAHN: Thank you, Mister President. I'm curious–what is the fiscal impact of this legislation?

SENATOR DANIELS: It was determined to be indeterminable, but if the fund exceeds $2 million it will go to the general fund. So I mean, coming off the insurance premium tax it could vary from year to year. Whatever the two percent is will go in there, but if that fire standards and training fund reaches $2 million then no more will go to that fund, it will be diverted to the general fund.

SENATOR KAHN: Thank you, Senator. That means that this is a recurring fund. Whatever is unspent in one year will flow over into the subsequent year and continue to be at a $2 million minimum?

SENATOR DANIELS: That means if the fund is expended but there is something left in it, then it will be refilled through the tax until it reaches the 2 million. So it is continuous.

SENATOR KAHN: Thank you, Senator. Thank you, Mister President.

The question is on the adoption of the Committee Amendment. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to Third Reading.

SB 576-FN, deleting the suspension of home health services rate setting. Inexpedient to Legislate, Vote 3-2. Senator Reagan for the committee.

SENATOR REAGAN: Thank you, Mister President. I move Senate Bill 576-FN Inexpedient to Legislate. This bill sought to repeal Chapter 156:77, Laws of 2017, which suspends for the fiscal year 2018-2019 biennium the statutory process for rate setting for home health services. This bill would require the Department of Health and Human Services to adopt rules establishing a rate-setting methodology, "which establishes unit Medicaid reimbursement rates for home health services which reflect the average cost to deliver services.". DHHS would then be required to establish annually on or before October 1st unit rates for "home health services paid under Medicaid which better reflect the average cost to deliver services.". The Department would have to provide a biennial report on rates for home health services beginning November 1st. Discussion on the establishment of rates by the Department and any potential subsequent increase in rates, raised concerns of increasing costs outside of the current budget. Citing a

desire to continue this discussion during next year's budget process, while avoiding the possibility of a budget shortfall, the committee recommends Senate Bill 576 be found Inexpedient to Legislate, and asks for your support. Thank you, Mister President.

Senator Bradley moved to Lay on the Table SB 576-FN. Adopted.

HEALTH AND HUMAN SERVICES
SB 490, establishing a commission to study end-of-life choices.
Ought to Pass with Amendment, Vote 3-2. Senator Bradley for the committee.

Health and Human Services
February 14, 2018
2018-0652s
01/04

Amendment to SB 490

Amend RSA 137-J:38, I(a) as inserted by section 1 of the bill by replacing it with the following:

I.(a) There is established a commission to study end-of-life choices. The members of the commission shall be as follows:

(1) One member of the senate, appointed by the president of the senate.

(2) Two members of the house of representatives, appointed by the speaker of the house of representatives.

(3) The commissioner of the department of health and human services, or designee.

(4) A representative of the New Hampshire Medical Society, appointed by the society.

(5) A representative of the New Hampshire Hospital Association, appointed by the association.

(6) The executive director of the American Civil Liberties Union of New Hampshire, or designee.

(7) The executive director of the Disabilities Rights Center of New Hampshire, or designee.

(8) The executive director of the New Hampshire Hospice and Palliative Care Organization, or designee.

(9) A New Hampshire attorney who specializes in senior and elder law, appointed by the New Hampshire chapter of the National Academy of Elder Law Attorneys.

(10) A religious leader from a New Hampshire-based interfaith council, appointed by the speaker of the house of representatives.

(11) A religious leader from a New Hampshire-based interfaith council, appointed by the president of the senate.

(12) A member of an organization representing disabled persons, appointed by the governor.

Amend RSA 137-J:38, II(a) as inserted by section 1 of the bill by replacing it with the following:

II.(a) The commission's study shall include, but not be limited to, reviewing RSA 137-J, investigating the positive and negative effects of potential legislation relating to palliative care and end-of-life choices, innovation practices of other states, how to encourage careful and responsible deliberation about this issue, and any other matter the commission deems relevant to its objective.

SENATOR BRADLEY: Thank you, Mister President. This bill would create a commission to study end of life choices in New Hampshire. The

commission's study would include, but not be limited to, reviewing RSA 137-J, which deals with advanced directives, investigating the positive and negative effects of potential legislation relating to palliative care and end-of-life choices. And I would just like to say, as there was some discussion about what end of life choices mean, to me it's not about assisted suicide, but rather about the choices that my mom made to not have chemotherapy or radiation for cancer at an advanced age. The Committee Amendment added language regarding palliative care and expanded the commission to include another member from the disabled community. Thank you, Mister President.

(The Chair recognized Senator Giuda for a question of Senator Bradley.)

SENATOR GIUDA: Thank you, Senator, for taking my question. Based on your comments, is that to be interpreted as this committee will not study assisted suicide? Is that a directive comment, or is that just your opinion?

SENATOR BRADLEY: I think it's my opinion as to what end of life choices mean. I don't think the language was so restrictive that if members chose to talk about that that they'd be prohibited from that. But I think there was an assumption that end of life choices meant assisted suicide, and I was trying to clarify, at least in my opinion, that end of life choices mean many things other than assisted suicide.

SENATOR GIUDA: Thank you, Mister President. But it does not specifically exclude the consideration by the commission of assisted suicide?

SENATOR BRADLEY: The language does not state in any way, manner, or form assisted suicide. So, you and I may disagree about what that actually means, but I will tell you it does not say assisted suicide.

SENATOR GIUDA: But it does not preclude it. Thank you.

(The Chair recognized Senator Daniels for a question of Senator Bradley.)

SENATOR DANIELS: I noticed in the makeup of the committee that we have already an executive director of the Disability Rights Center on there, and that you have added on a member of an organization representing disabled persons. I mean, isn't that really a duplication?

SENATOR BRADLEY: Well, it is a duplication but here's why: there was compelling testimony from representatives of disabled organizations, and I felt that it was important to have ample voices from that community and so we added a second member from the disabled community.

SENATOR DANIELS: I know that the Catholic Diocese has come out against this bill. I do not see them represented anywhere in the makeup of this committee. Can you explain that, please?

SENATOR BRADLEY: I don't have the language in front of me, I apologize. I left my notebook upstairs and I'm not as technologically proficient as the Chair of the Finance Committee, but I do believe that there were two members from religious organizations to be appointed.

SENATOR DANIELS: It specifically says interfaith councils. I understand councils as to be multiple denominations together like the New Hampshire Council of Churches. So, in reading that, that's why I brought up that because they are not a council, they are a diocese, and…

SENATOR BRADLEY: And in my reading of the language and the amendment they are also not excluded. So depending on the appointment process a representative of the diocese could be appointed to this commission.

SENATOR DANIELS: Thank you, Mister President.

(The Chair recognized Senator Hennessey.)

SENATOR HENNESSEY: Thank you, Mister President. I would like to, first of all, I'm standing to speak, or to request that you vote down this Committee Amendment so that I may introduce a Floor Amendment, and I wanted to say that I don't even like saying that because I like this amendment and I think there were a couple of things that were left out of it, so for me it's more of a housekeeping. We had hoped to have the word "palliative care" in the title, which it is not. So the other amendment would do that. And the other is just to add a couple balancing members of the committee that I personally thought were going to be on it, and I think we acted quickly. So, I would like to thank the Senator from District 3 for his very good work on this and for speaking to it, but I would like to ask that we do not vote in favor of this particular amendment so that I may introduce another one.

(The Chair recognized Senator Gannon.)

SENATOR GANNON: Mister President, I believe in the sanctity of human life. I went through, just like Senator Hennessey, last year it was my father. I'm in the middle of losing my mother, and I think that this commission will demean the value of human life, and that's all. Thank you.

(The Chair recognized Senator Fuller Clark.)

SENATOR FULLER CLARK: Thank you very much, Mister President. I rise in opposition to the motion of ITL, and would like to speak in favor of overturning that and talk a little bit about what the committee heard during the testimony. We heard from the prime sponsor that the purpose of this study is to address end of life choices for those individuals who have received a diagnosis of having a terminal illness with less than six months to live. And we should, I believe, enable those individuals who are dying to have certain choices or options. This is a study that would not put those options in place, but would look at how to provide palliative care and support to a dying individual. Anyone of us who may be facing a pending death in the near future should be allowed to determine when and how we wish to end our lives. And I would like to recommend to all of you Diane Rehm's book entitled *On My Own*, which she wrote about the agony of watching her husband John, who was terminally ill, starve himself to death over the course of ten days because there was no other option available. So I would urge my committee members, all of us who are aging and concerned with how we will pass out of this world, to allow this study to go forward. And, in closing I'd just like to read to you one of the quotes from Diane Rehm's book which says, quote, "Each and every one of us should have the right to choose when diagnosed with a terminal illness. The idea of suffering as being noble does not persuade me that extending life for the sake of someone else's religious beliefs or social philosophy is fair or even reasonable. Let each one of us make our own decisions when facing a terminal illness." Thank you.

(The Chair recognized Senator Giuda.)

SENATOR GIUDA: I rise in opposition to the amendment and to the bill in its entirety, Mister President. As many of us here are involved in life or death situations in the protracted life under conditions that some might consider inconvenient or horrific, nonetheless, we are opening the door to assisted suicide. Palliative care procedures in place in the state at present are entirely adequate, and entirely accessible with living directives, end of life directives currently available through lawyers and through legal aid societies. So, for that reason I speak as a humble, but

intense supporter of human life from conception to the point of death, natural death. And I will fight vehemently against the introduction of any bill that opens the door to demeaning human life, and demeaning the value of suffering, which if you believe in an afterlife, the value of suffering enriches the life of those who suffer and the life of those who care for them. I can't say it any more eloquently than that, and I thank you, Mister President.

(The Chair recognized Senator Watters.)

SENATOR WATTERS: Thank you, Mister President, and colleagues. I rise in support of the Ought to Pass motion. I'm a co-sponsor of the bill, but I co-sponsored it with my own understanding that this was not a commission that would be directed towards approving or developing a position on physician assisted suicide. I have grave reservations about that, and I wouldn't be supporting the bill if I really thought that's what the purpose of the commission was. I speak in part as the son of a veteran's administration doctor who helped countless, countless veterans to their final moments at the Newington VA Hospital. And, also, without any details referenced, family situations in which this has been end-of-life care and these decisions have been very difficult personal and family decisions. I'm encouraged to hear the words about including palliative care here, and understanding that the concerns of faith groups and the disabled are going to be understood and listened to as they will be members of the commission. I do share of some of the concerns voiced in the committee reporting from the disabled community. Of course there're also some people in the disabled community who see this commission as offering them an opportunity to have more choices involved when they, whatever it may be about the end of life. So, I just wanted to note that this is a serious subject. I think in good effort here this commission, as we have attempted previously, will wrestle with questions and many questions that aren't going to be solved by this commission, haven't been solved by other states around the country, but we ought to have this discussion in New Hampshire. Thank you, Mister President.

(The Chair recognized Senator Hennessey.)

SENATOR HENNESSEY: Thank you. I would like to change what I said last time, which is that I believe that the amendment that I have, Floor Amendment that I have brought is actually more supplemental than changing the Senator from District 3's amendment. So I would recommend at this point that we vote in favor of the amendment and then I will be offering something that adds to that amendment. I don't think they're mutually exclusive. I'd also like to say that this, to echo what was said by the Senator from District 3, and I will speak to that, perhaps, more later. But those of us who have had people at the end of life are aware that those people who have been told they have six months or less to live actually would rather live not die. Their greatest wish is that they actually were not going to die in six months. This is not suicide, and I can tell you that my father, among them, felt very strongly that this is not suicide. He wanted to watch his great-grandchildren grow up. That was his greatest wish. But he was not going to keep living, and he was in a great deal of pain. And while I would also agree that there are times when suffering builds character, and while I also agree that the sanctity of life is very important, I also believe that we should be recognizing the wishes of those who are in this very unusual position of being told that they have six months or less to live. So I'll speak to that, but I wanted to change my mind about the amendment. Thank you.

(The Chair recognized Senator Sanborn.)

SENATOR SANBORN: Thank you, Mister President. Mister President, I rise and I appreciate all of the heartfelt conversations that all of the Senators have brought forth today because all of us have struggled with this issue. Some of us struggle with it every day with their family, their loved ones, themselves, and the part that I find so remarkable about this conversation, and I do believe this is one of the most important issues we discuss here, and the issue is the free will of man versus the power of our government; the free will of man versus technology; and the free will of man versus our belief in what the afterlife brings us. This isn't a debate that I believe there is a right side or a wrong side because at the end of the day, Mister President, I believe in free will. All of us that have watched loved ones, family members, participated ourselves in very dubious medical times, shouldn't those people have a right to exercise free will? Now I recognize the fact there's always this concern of whether or not people are exercising their free will to make the ultimate decision, and whether or not they're in the right state of mind, or they have the right capacity. And we need to make sure, clearly, that we're providing some level of check and balance to ensure that people are in a position where they have and can make a freedom choice. I think it's ultimately important for us to recognize the fact that our debate here isn't about a policy, isn't about a standard. It's about ensuring people have free will. We might find it uncomfortable, but don't we have to respect their position? So, I ask the committee to consider that when they think of their vote. Thank you very much, Mister President.

The question is on the adoption of the Committee Amendment.

A roll call was requested by Senator Avard, seconded by Senator Giuda.

The following Senators voted Yes: Woodburn, Bradley, Watters, Hennessey, Sanborn, Kahn, Lasky, Feltes, Cavanaugh, Fuller Clark.

The following Senators voted No: Giuda, Gray, French, Ward, Daniels, Avard, Reagan, Soucy, Birdsell, Gannon, Innis, Morse.

The following Senators were excused: Carson, D'Allesandro.

Roll Call, Yeas: 10 - Nays: 12. Failed.

Senator Hennessey offered a Floor Amendment.

Sen. Hennessey, Dist 5
February 22, 2018
2018-0827s
01/05

Floor Amendment to SB 490

Amend the title of the bill by replacing it with the following:

AN ACT establishing a commission to study palliative care and end-of-life choices.

Amend the bill by replacing the section heading and subdivision heading as inserted by section 1 of the bill with the following:

1 New Subdivision; Commission to Study Palliative Care and End-of-Life Choices. Amend RSA 137-J by inserting after section 37 the following new subdivision:

Commission to Study Palliative Care and End-of-Life Choices

Amend the introductory paragraph of RSA 137-J:38, I(a) as inserted by section 1 of the bill by replacing it with the following:

I.(a) There is established a commission to study palliative care and end-of-life choices. The members of the commission shall be as follows:

Amend RSA 137-J:38, I(a) as inserted by section 1 of the bill by inserting after subparagraph (12) the following new subparagraph:

(13) Two individuals with terminal illness, appointed by the governor.

Amend the bill by replacing section 2 with the following:

2 Repeal. RSA 137-J:38, relative to a commission to study palliative care and end-of-life choices, is repealed.

2018-0827s

AMENDED ANALYSIS

This bill establishes a commission to study palliative care and end of life choices.

SENATOR HENNESSEY: One of the most frustrating things for me as a rookie in the Senate has been how to get a message across. I know that this bill and the amendment that I am offering to the bill are, I know, and I want you to understand that they are not about what you are calling assisted suicide. What this amendment does, as I briefly described before, is to add palliative care to what the commission is studying; and also to add, because we have people in the disabled community, in fact two representatives; and from the religious organizations, including two representatives. I think in order to truly understand what this issue is I have added two people who are terminally ill. I agree with the Senator from District 21. It was recommended to me to read the book by Diane Rehm, and I certainly do recommend it to all of you, especially if you have not been through the process of working with, or helping somebody who is terminally ill. I just want to make clear that this amendment, as well as the bill itself, is comprised, the body of the commission is comprised of compassionate, thoughtful men and women, and I just ask that you put aside your preconceived notions about such laws. This is not, not a commission to study suicide. It is not anything that is considered suicide. Many states use the title "Death with Dignity." There is a very important difference between "Death with Dignity" and suicide. The term suicide does not apply to terminally ill people who would prefer to live, but who are facing certain death within months and they'd like a gentler, kinder way to die. In Vermont it's called patient choice and control at the end of life, and specifically states that terminating one's life under the law is not suicide. You have to be at least 18 years old. You have to be a Vermont resident, and you have to be mentally and physically capable of communicating your health care decisions. You have to be able to speak it. You have to be able to be the individual who is asking for it. It cannot be the individual's husband, the individual's mother, the individual's son. It must be the person who is deemed by two doctors to be very likely to die within six months, probably sooner, and they need to see a counselor who can then say that this person is of sound mind and can make this decision themselves. And the process generally takes about two weeks. So it's not as if you go in and get a pill and you take it. One of the things I found so interesting in studying this issue, and by the way, I did not know that my father was dying when I put this issue together. But boy, did it have an impact on me watching it happen. And I think anyone in this room who has watched a parent, a child, or anyone in their lives die in horrible pain, even though we know it may only last four to five or

six months, it is excruciating, absolutely excruciating. So let's say there are one-hundred people who get this prescription, which is actually a pill that they have to administer to themselves, no one else can give it to them, they have to take it themselves; and once they get it, twenty to twenty-five percent do not actually ever use it because they realize now they have a choice; their husband can't give it to them, their parents can't give it to them, nobody can give it to them. In fact, some people are feeling that that's, in fact, discriminatory because there are people who can't give it to themselves. So I recognize that end-of-life, I mean, end-of-life is a really, really hard thing to talk about; it's very difficult to talk about. I would give everything I own to have my father back for another two months, another month, another day, but that wasn't going to happen. That was not in the cards. He was 92 about to be 93. He was in terrible pain, and he was dying. I couldn't change that. So please understand that using the term suicide is a terrible insult to people like my father who wanted nothing more than to live. Thank you.

(The Chair recognized Senator Woodburn.)

SENATOR WOODBURN: Thank you, Mister President. I just wanted to add–I rise in favor of the amendment and the underlying committee. This is a study commission. And I just want to share a story that I wrote about as a columnist for *New Hampshire Magazine* about a retired cleric in 2001 who was dying and went to talk to his medical provider, who then the police found out and came to his house and told him they were going to arrest him unless he went voluntarily. They handcuffed him to his wheelchair and brought him to the state hospital, held him for a hearing, and he died on the gurney. No dignity. No respect and the heavy hand of government around his arms. And it's the role of government, the legitimacy of our laws. I think this is an important discussion to have; a difficult discussion, but an important discussion to have of the role of government. That's what this is all about. Thank you, Mister President.

(The Chair recognized Senator Daniels.)

SENATOR DANIELS: Thank you, Mister President. I rise in opposition to the amendment. Like the past amendment, this amendment also has a deficiency in the makeup of the study committee that I mentioned before. Also, in my twenty-two years in the legislature, the term "end-of-life" has always equated to assisted suicide, and even when the member talks about someone being given a pill, the person giving that pill is assisting in that suicide. The final decision may be that person, but if that person decides to take that pill, which would end their life, that becomes assisted. So, for those reasons I oppose this amendment and the bill. Thank you, Mister President.

(The Chair recognized Senator Hennessey for a question of Senator Daniels.)

SENATOR HENNESSEY: I'm just curious where you–because this is not something I considered in writing this bill. Where do you draw the line? Should we also make sure that people from all other faiths are represented, or is there a reason why the Catholic Diocese should get preference in terms of being on this commission?

SENATOR DANIELS: Thank you for the question. I bring out the Catholic Diocese specifically because I receive communication from them that they were opposed to this. I have experienced that interfaith councils and dioceses may differ on different positions on different bills, and so I saw a void in not including an organization on there that I knew was

opposed to euthanasia or assisted suicide, and that was my reason to try and fill in the gap to make sure that you would have a conversation that had both sides represented at the table. Thank you.

(The Chair recognized Senator Lasky for a question of Senator Daniels.)

SENATOR LASKY: Senator, you stated that all end-of-life commissions, decisions, or whatever amounts to suicide in the end. Did I hear you correctly?

SENATOR DANIELS: No, you did not. I stated that in my twenty-two years in the legislature, whenever the term "end-of-life" has shown up it has always equated to assisted suicide.

SENATOR LASKY: Okay. I served on an end-of-life commission many years back in the House. I did not find that to be the case. But I wonder how you differentiate between what might be legitimate end-of-life decisions and suicide? I guess in my mind I'm hearing you equate the two terms.

SENATOR DANIELS: No, I'm simply saying that we can use the term "end-of-life" and say that it doesn't mean assisted suicide, and that may be the intent of the members in here. But even in our debate here today we have had testimony come out that we are actually talking about assisted suicide even though it says "end-of-life." So I'm saying that when this bill leaves this chamber, end-of life, whatever somebody perceives it to be, whether it's non-assisted suicide or whether it's assisted suicide, there are no guidelines on this to say that there are boundaries that we are not going outside when it gets to the study committee.

SENATOR LASKY: Thank you.

The question is on the adoption of the Floor Amendment.

A roll call was requested by Senator Daniels, seconded by Senator Avard.

The following Senators voted Yes: Woodburn, Bradley, Watters, Hennessey, Sanborn, Kahn, Lasky, Feltes, Cavanaugh, Fuller Clark.

The following Senators voted No: Giuda, Gray, French, Ward, Daniels, Avard, Reagan, Soucy, Birdsell, Gannon, Innis, Morse.

The following Senators were excused: Carson, D'Allesandro.

Roll Call, Yeas: 10 - Nays: 12. Failed.

Recess. Out of recess.

(The Chair recognized Senator Giuda.)

SENATOR GIUDA: I would ask the members to vote down the Ought to Pass so that I may introduce a subsequent motion, Inexpedient to Legislate. Thank you.

The question is on the adoption of the motion of Ought to Pass.

A roll call was requested by Senator Hennessey, seconded by Senator Avard.

The following Senators voted Yes: Woodburn, Bradley, Watters, Hennessey, Sanborn, Kahn, Lasky, Feltes, Cavanaugh, Fuller Clark.

The following Senators voted No: Giuda, Gray, French, Ward, Daniels, Avard, Reagan, Soucy, Birdsell, Gannon, Innis, Morse.

The following Senators were excused: Carson, D'Allesandro.

Roll Call, Yeas: 10 - Nays: 12. Failed.

Senator Giuda moved Inexpedient to Legislate.

A roll call was requested by Senator Avard, seconded by Senator Giuda.

The following Senators voted Yes: Giuda, Gray, French, Ward, Daniels, Avard, Reagan, Soucy, Birdsell, Gannon, Innis, Morse.

The following Senators voted No: Woodburn, Bradley, Watters, Hennessey, Sanborn, Kahn, Lasky, Feltes, Cavanaugh, Fuller Clark.

The following Senators were excused: Carson, D'Allesandro.

Roll Call, Yeas: 12 - Nays: 10. Adopted.

JUDICIARY
SB 337, relative to the human rights commission.
Interim Study, Vote 5-0. Senator Lasky for the committee.

Senator Lasky moved to Lay on the Table SB 337. Adopted.

SB 502-FN, relative to transparency and standards for acquisition transactions in health care.
Ought to Pass, Vote 4-1. Senator Lasky for the committee.

SENATOR LASKY: Thank you, Mister President. I move Senate Bill 502-FN Ought to Pass. This bill clarifies the standards for acquisition transactions involving health care charitable trusts and the review required by the Director of Charitable Trusts. By providing more tools for the Charitable Trusts Unit to review these transactions, New Hampshire will be better able to ensure that access to quality and affordable physical and mental health services will be available after any merger. During these challenging times in our state, it is essential that we are diligent in ensuring the needs of our communities are being met. This bill will lead hospitals looking to merge to specifically consider the access to quality and affordable physical and mental health that they will provide. This will promote more integrated care and be an important step in dealing with the mental health and opioid crises we are facing. Hospitals need to recognize that mental health care is a vital part of their mission and end the separation of physical and mental health care within their overall charge. Therefore, the majority of the Judiciary Committee asks for your support in the motion of Ought to Pass on Senate Bill 502-FN. Thank you, Mister President.

The question is on the adoption of the motion of Ought to Pass. Adopted, bill ordered to Third Reading.

PUBLIC AND MUNICIPAL AFFAIRS
SB 430, relative to priority of liens for liability for support of assisted persons.
Inexpedient to Legislate, Vote 4-1. Senator Birdsell for the committee.

SENATOR BIRDSELL: Thank you, Mister President. I move Senate Bill 430 Inexpedient to Legislate. This bill would change the priority of liens on real estate relative to liability for support of assisted persons given by the municipality. Moving forward with this legislation would disrupt the balance between lenders and municipalities. Presently, a condition of granting a loan is that the lender will be in the priority position when a lien is placed. Putting municipalities in that priority position would limit lenders ability to participate in the secondary mortgage market resulting in less financing opportunities for property buyers. The committee felt that this legislation would have a negative impact on the lending market in NH that would far outweigh the benefits to the municipalities if it should pass. Therefore, I ask that you please support the committee's recommendation of Inexpedient to Legislate.

(The Chair recognized Senator Kahn.)

SENATOR KAHN: Thank you, Mister President. I brought this bill forward because we have a statute under Public Safety and Welfare that states, "Whenever a person in any town is poor and unable to support himself,"–it says himself–"he shall be relieved and maintained by the overseers of public welfare of such [a] town." (RSA 165:1, I) Alright, so this issue has been before the State Senate in 1998, 2008, and again this year. This is an issue that's likely to come back. In '88 supported by Senator Janeway; 2008 Senator Odell. It's not quite right, and I appreciate the time that the Public and Municipal Affairs Committee, and in particular my colleague from District 8 has spent considering this bill. But here's the crux of this: we have statutes that give a priority lien to a town for unpaid taxes. We have another statute that provides the same priority for hazardous and dilapidated buildings. We have another statute that provides a priority lien for court enforcement of unpaid municipal electric, gas, and water and sewer. We have a statute that requires welfare payments, and some of those welfare payments go to support the mortgage lenders. But, because those are usually at the end of a foreclosure possibility, when that foreclosure occurs the last entity in line is the municipality. We don't want to discourage these welfare payments. We don't want to funnel them through a filter that says anything but a mortgage payment because we think that we could collect it. But we're not there yet, and I appreciate the work of the Bankers Association, and the Municipal Association, but more evidence needs to be brought on this. Somebody needs to test whether the secondary mortgage market really would dry up in the event that one other kind of condition for collection, a very narrow kind of collection on welfare liens, relative to mortgage payments to banks on behalf of welfare recipients really would negate the sale of primary mortgages to the secondary market. But that evidence doesn't exist today. So that's why I don't disagree with what's coming before you as far as the committee recommendation, but I do believe we all need to do more homework on this. One: what is the impact of these welfare liens in our towns and municipalities, and our counties; and then the Municipal Association and the Bankers need to do some more work. What other states have addressed this and have they been successful with the secondary mortgage market. Thank you colleagues for letting me discuss the issue a little bit further on the floor, and thank you, Mister President.

The question is on the adoption of the motion of Inexpedient to Legislate. Adopted.

SB 503, relative to increasing the maximum amount of the optional veterans' tax credit.
Inexpedient to Legislate, Vote 4-0. Senator Gray for the committee.

SENATOR GRAY: Mister President, first I need to declare that I am a veteran in the United States Army, a Vietnam veteran, so that this bill could affect me financially, and I still choose to participate.

I move that Senate Bill 503 be Inexpedient to Legislate. The bill will allow towns and cities to adopt an increased amount in the optional veterans' tax credit against property taxes. The committee felt that the recent changes in the veteran's tax credit should be evaluated before additional legislation is enacted. I'd like to take a moment to review some of that additional legislation. If we go back approximately about five years the veterans tax incentives were three-fold: for the regular veterans credit it was $200 credit; for 100 percent disabled service connected

disability it was $2,000 credit; and for 100 percent disabled veteran war related with loss of limbs or loss of eyesight, and who had obtained their house through assistance from the government, that they would get an exemption, they would pay no taxes. Since then, we've raised that 200 to 500. We didn't do anything for those 100 percent disabled veterans who are currently getting a credit for 2,000. We added all veterans. So, instead of having to be just a veteran who served during one of the times of war that were designated in the legislation we added all the veterans. We still didn't do anything for that 100 percent disabled veteran. We got two bills this time in the committee. We got a bill from the good Senator from District 23, and the good Senator from District 11. The committee spent a long time studying those bills, and studying all the options that are out there right now. And, thankfully, you passed Senate Bill 341 on the Consent Calendar which raises that tax credit for that 100 percent disabled veteran from 2,000 to 4,000. So, it used to be 200, 2,000 exemption, now it's 500, or will be if the House passes it; 4,000 in exemption. Nice normal progression. People are going to tell you that there are veterans. We ought to do everything we can for them. Shortening that gap between the regular veteran and the 100 percent disabled veteran is not the right way to go. If we're going to spend money on veterans, veterans that are suffering from the effects of agent orange, veterans that are suffering from PTSD, we've got bills that work on PTSD this term and I voted for all of those. We need to recognize the veterans who are homeless right now. We need to do a lot of things, but to further increase from 500 to 750, or as we voted last year to raise it to 1,000, in my opinion is not appropriate. I want to help the veterans, I want to help the 100 percent disabled veterans, I want to help those that are homeless, I want to help those that are suffering from injuries they received before I go and raise this one again. Thank you, Mister President.

(The Chair recognized Senator Birdsell.)

SENATOR BIRDSELL: Mister President, I'm declaring that I'm a veteran of the United States Coast Guard and could financially benefit from this legislation, but I will be participating.

(The Chair recognized Senator Gannon for a question of Senator Gray.)

SENATOR GANNON: Just one question, Senator Gray. It's an easy question. How many are 100 percent? Do you have the figure, or are we talking of ten, twenty, thirty, hundred–100 percent disable veterans?

SENATOR GRAY: I had the numbers for Rochester, but I don't have them with me, and I don't have them for the state.

SENATOR GANNON: That's fine, that's fine.

(The Chair recognized Senator Gannon.)

SENATOR GANNON: Thank you, Mister President. I rise to ask you to vote against the ITL motion so I may introduce a more appropriate Floor Amendment so we can pass the bill as we did last session. I don't believe this is the appropriate time to speak further on the issue, is it? No, it would just be to introduce. Okay. Thank you, Mister President.

PRESIDENT MORSE: We have to vote down the Inexpedient to get to your point.

SENATOR GANNON: Okay. Thank you.

(The Chair recognized Senator Giuda.)

SENATOR GIUDA: Thank you, Mister President. I just rise to claim that I am a United States Marine Corp veteran and could be affected by the legislation, and I will be participating.

(The Chair recognized Senator Daniels.)

SENATOR DANIELS: Thank you, Mister President. And I rise to declare that I am a veteran, and may benefit from the passage of this, but I will be participating.

(The Chair recognized Senator Gannon.)

SENATOR GANNON: I'm sorry, my parliamentary procedures–I am not there, Sir. So at this time is this the proper time, Sir, to ask to introduce an ITL motion? No.

PRESIDENT MORSE: Senator Gannon, you want to get to an Ought to Pass motion, the current motion is Inexpedient to Legislate.

(The Chair recognized Senator Sanborn.)

SENATOR SANBORN: Thank you, Mister President. Mister President, I rise with my good friend from Senate District number 23, and ask the body to reject the current motion of ITL so we can have a robust debate on the merits of the bill. So if you'd like to have a debate on the merits of the bill, I'd ask that you would reject the motion of ITL. Thank you, Mister President.

The question is on the adoption of the motion of Inexpedient to Legislate.

A roll call was requested by Senator Sanborn, seconded by Senator Avard.

The following Senators voted Yes: Giuda, Gray, French, Ward, Kahn, Avard, Reagan, Birdsell, Fuller Clark, Innis, Morse.

The following Senators voted No: Woodburn, Bradley, Watters, Hennessey, Sanborn, Daniels, Lasky, Feltes, Cavanaugh, Soucy, Gannon.

The following Senators were excused: Carson, D'Allesandro.

Roll Call, Yeas: 11 - Nays: 11. Failed.

Senator Gannon moved Ought to Pass.

Senator Gannon offered a Floor Amendment.

Sen. Gannon, Dist 23
February 21, 2018
2018-0793s
05/04

Floor Amendment to SB 503

Amend the bill by replacing section 1 with the following:

1 Property Taxation; Optional Veterans' Tax Credit. Amend RSA 72:28, II to read as follows:

II. The optional veterans' tax credit, upon adoption by a city or town pursuant to RSA 72:27-a, shall be an amount from $51 up to [~~$500~~] ***$750***. The optional veterans' tax credit shall replace the standard veterans' tax credit in its entirety and shall not be in addition thereto.

2018-0793s

AMENDED ANALYSIS

This bill allows towns and cities to adopt an increase of the optional veterans' tax credit against property taxes up to $750.

SENATOR GANNON: Thank you, Mister President. As we voted last year, I discussed how we are capped at $500. My small town of Sandown wants to have local control. They want to decide how much that they can or can't afford. Three-quarters of all towns now in New Hampshire are capped at the $500 limit. The Veterans Advisory Council has backed my bill, as has the House Veterans Caucus. They believe we should let local control decide. I made a promise to a Gold Star mother last year that I would give my best effort to pass this bill. I got a little lazy and almost let it slip through committee, and I apologize to her and you guys. Again, the issue is local control. I don't need to tell you any more stories. I believe the veterans, the veterans that I see are the privates, the corporals; $250 is going to make a lot of difference to many of these men, and I would ask that you make a vote with my Ought to Pass motion. Thank you.

The question is on the adoption of the Floor Amendment.

A roll call was requested by Senator Avard, seconded by Senator Sanborn.

The following Senators voted Yes: Woodburn, Giuda, Bradley, Watters, Hennessey, Gray, French, Ward, Sanborn, Kahn, Daniels, Avard, Lasky, Feltes, Cavanaugh, Reagan, Soucy, Birdsell, Fuller Clark, Gannon, Innis, Morse.

The following Senators voted No: (None)

The following Senators were excused: Carson, D'Allesandro.

Roll Call, Yeas: 22 - Nays: 0. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment.

A roll call was requested by Senator Gannon, seconded by Senator Sanborn.

The following Senators voted Yes: Woodburn, Giuda, Bradley, Watters, Hennessey, Gray, French, Ward, Sanborn, Kahn, Daniels, Avard, Lasky, Feltes, Cavanaugh, Reagan, Soucy, Birdsell, Fuller Clark, Gannon, Innis, Morse.

The following Senators voted No: (None)

The following Senators were excused: Carson, D'Allesandro.

Roll Call, Yeas: 22 - Nays: 0. Adopted, bill ordered to Third Reading.

TRANSPORTATION

SB 516, prohibiting the use of motorcycle-only roadside checkpoints. Ought to Pass, Vote 4-1. Senator Cavanaugh for the committee.

SENATOR CAVANAUGH: Thank you, Mister President. I move Senate Bill 516 Ought to Pass. This bill would prohibit the enforcement of motorcycle noise level restrictions at motorcycle only roadside checkpoints. Having motorcycle only checkpoints effectively singles out those who choose to ride as a form of transportation or recreationally. The number of individuals who choose to ride and misuse their motorcycles is vastly outnumbered by those who respectfully operate their motorcycles within the appropriate noise levels. Further, the sound level of motorcycles is nearly impossible to test in the field. The current test requires that there be an eight foot, uninterrupted circle around the bike with no background noise in order to read the level of sound decibels properly. Because motorcycle only checkpoints single out riders and use an arbitrary testing method, the majority of the Transportation Committee believes these checkpoints

should be eliminated. Therefore, I ask you to support the motion of Ought to Pass on Senate Bill 516. My colleague, Senator Birdsell, will offer an amendment, which I also support. Thank you, Mister President.

(The Chair recognized Senator Gannon.)

SENATOR GANNON: Thank you, Mister President. I was the dissenting vote on this bill. So, I decided to call District 21's good police chief and we discussed it, and I said–because that was the whole thing in the hearing was that Portsmouth had already started doing these tests. It was on the news, and it said that they were going to do these in the summer. The police chief told me he had no intention of doing it in the summer, and that he had never done a roadside checkpoint exclusively for motorcycles. They also have a new test device. The new test device is coming out this week. He has two officers, and it takes care of the background noise, it takes care of rain, and he has two officers who are going to be trained and tested. They're not going to use roadside checkpoints. They're only going to pull when they hear that the pipes are too loud; they're going to pull you over. If you're having dinner downtown Portsmouth and you can't hear when you're sitting out in that nice café with your wife, Mister President, I think you shouldn't be interrupted, and if the police decide that it's above their acceptable noise limit, if they're only pulling you over because of the noise you are not a protected class, they have the right to have their own, local ordinances. There is no actual case or controversy, as this whole bill seemed to be predicated on the Portsmouth police in what they were supposed to be doing. The news media said, again, that they were going to have summer checkpoints. I've been assured that isn't the case. It's just a wild rumor. We're looking here to fix a problem that really doesn't exist. There are no roadside checkpoints, and I feel as there's no actual case or controversy we shouldn't be passing this legislation. Thank you.

(The Chair recognized Senator Sanborn.)

SENATOR SANBORN: Thank you, Mister President. Mister President, I rise as a proud member of the Harley Owner's Association of America; ride a motorcycle; have been involved in discussions with the best men and women in law enforcement about the sound of my pipes, and so therefore, I may or may not have a conflict in this matter, but I'm still participating. And all I have to say is loud pipes saves lives. Thank you, Mister President.

Senator Birdsell offered a Floor Amendment.

Sen. Birdsell, Dist 19
February 15, 2018
2018-0666s
03/05

Floor Amendment to SB 516

Amend the title of the bill by replacing it with the following:

AN ACT prohibiting motorcycle-only checkpoints.

Amend the bill by replacing all after the enacting clause with the following:

1 New Section; Motorcycle-Only Checkpoints Prohibited. Amend RSA 265 by inserting after section 1-a the following new section:

265:1-b Motorcycle-Only Checkpoints Prohibited. No law enforcement officer or agency shall establish or conduct motorcycle-only checkpoints.

2 Effective Date. This act shall take effect upon its passage.

2018-0666s

AMENDED ANALYSIS

This bill prohibits motorcycle-only checkpoints.

SENATOR BIRDSELL: Mister President, it came to our attention in testimony from one of the co-sponsors who came to speak that there was a technical problem with the bill, and we neglected to get it before we exec'd it, but what we're doing is the amendment changes the RSA. The bill itself amends RSA 266:59-a. However, it should be amending RSA 265 and the amendment corrects that. Thank you, Mister President.

The question is on the adoption of the Floor Amendment. Adopted.

(The Chair recognized Senator Giuda for a question of Senator Birdsell.)

SENATOR GIUDA: Thank you for taking my question, Senator. My question is are there circumstances in which motorcycles would rightfully be targeted, for lack of a better word; safety or some other reason? Is there any reason that we would have to target a motorcycle?

SENATOR BIRDSELL: In the hearing we did hear from two to three pages worth of witnesses that did say that it did happen in and around the Portsmouth area. Typically what was happening was the motorcycles–I don't know whether it was monthly–but they would go to the Veterans Memorial and it would start happening then. We had no testimony that stated that they weren't doing it. So, it was the motorcyclists came in and testified that they had been stopped.

SENATOR GIUDA: Thank you.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to Third Reading.

SB 517, establishing an electric vehicle charging stations infrastructure commission.
Ought to Pass with Amendment, Vote 5-0. Senator Watters for the committee.

Senate Transportation
February 14, 2018
2018-0618s
03/04

Amendment to SB 517

Amend RSA 4-G:1, II as inserted by section 1 of the bill by inserting after subparagraph (g) the following new subparagraph:

(h) A representative of Unitil, appointed by its president.

SENATOR WATTERS: Thank you, Mister President. I move Senate Bill 517 Ought to Pass with Amendment. This legislation establishes an electric vehicle charging stations infrastructure commission. This commission will allow New Hampshire to do some careful planning for electric vehicles and the infrastructure that they need. Further, it will guarantee New Hampshire's participation among other states in the growth of electric vehicle infrastructure. The committee amended the bill to add a representative from Unitil to the commission, and I have a Floor Amendment that adds a couple of other folks who want to be on this as well. All members of the Transportation Committee ask for your support in the motion of Ought to Pass with Amendment on Senate Bill 517. Thank you, Mister President.

The question is on the adoption of the Committee Amendment. Adopted.

Senator Watters offered a Floor Amendment.

Sen. Watters, Dist 4
February 20, 2018
2018-0746s
03/04

Floor Amendment to SB 517

Amend RSA 4-G:1, II(a) as inserted by section 1 of the bill by inserting after subparagraph (3) the following new subparagraph:

(4) Department of environmental services.

Amend RSA 4-G:1, II as inserted by section 1 of the bill by inserting after subparagraph (h) the following new subparagraph:

(i) A representative of the electric vehicle charging infrastructure manufacturers industry, appointed by the governor.

SENATOR WATTERS: Thank you, Mister President. In committee we had thought that the Department of Environmental Services was represented by another entity, but it turns out that it was not particularly represented by that so we added it to the list of state departments that are added. After the committee acted on the bill we also heard from the electric vehicle charging manufacturers and they said they had been involved in similar commissions elsewhere in the United States, and would like to have the opportunity to have a representative help us understand perspectives from the manufacturers. Thank you, Mister President.

The question is on the adoption of the Floor Amendment. Adopted.

(The Chair recognized Senator Watters.)

SENATOR WATTERS: Thank you, Mister President. Sorry to repeatedly rise, but I just wanted to take a moment, colleagues, just to let you know what we're trying to do with the commission and, also, to understand what the commission is doing as opposed to what a bill we're going to consider in a few minutes will be doing.

It was the concern in this bill that New Hampshire be well positioned to take advantage of the new technologies that are emerging in the automotive industry, and transportation industry, and particularly the economic advantages that are going to come from this in the future. The commission has members, as you will see; everybody who has an interest in this was included on the commission, and we've just added some more folks, as well. In particular under the duties I just want to note that it's not just electric vehicles, but there're also other zero emission infrastructures. So, if the commission choses it can look at the hydrogen powered vehicles as well. And then, also, you know, we'll look at what we need to do to have a suitable infrastructure for electric vehicles charging. While there may be relatively few of these vehicles yet in New Hampshire, the sales are growing quickly. And then particularly in eastern Massachusetts and in bordering states, who have large incentives for electric vehicles, there are many, many, many more being registered. And we'd like them to be able to, you know, get up to Conway and have a meal and know they can get their vehicle charged and get home. And, also, I've spoken to a head of one of our largest bus companies and said he's told his sons that in ten years they're going to have a fleet of all electric buses that they'll be running. So, we need to be ready for this in the trucking industry, as well.

We need to look at their availability on public property, as well. Where should they be on our highway system, and also if it's on public property should we make sure that there's not proprietary technology of one manufacturer or one type of automobile, but if it's on public property that everybody gets to use it. And where should they be in these corridors, and what partnerships might we have we other states? There's a western compact now of eight states that says that we will plan together as to where these will be so that people will know every certain number of miles on the highway system they can get it. We also, as other states look into, maybe we could look into whether we want to have any kind of tax credits offered for private rental or business installation of these.

And then, in general, look at changes needed to state laws, rules, practices, including building codes and public utilities commission rules to further develop a zero emission vehicle technology and infrastructure. I'm particularly here responding to a new study by Deloitte on the kind of revolutionary technology of electric vehicles, but more particularly in the battery storage issue. Deloitte says that as we get these networks out there, whether it's the wall in your house, or whether it's the batteries within these vehicles, that this may replace the need for peak demand generation facilities. And so that if we look at how not only the power goes into these vehicles, but how it might be drawn out of these vehicles and out of these batteries, and replace the need for our utilities to build peak demand stations.

And then, finally, the commission is going to look at funding sources. You know, we're unlikely to be putting state money into this, or very much, or any at all–other states do that–but I don't think that's what we'd do. We're going to look at some partnerships, look at available grants here, and the Volkswagen settlement–I want to applaud the Governor for his leadership and also the Senator from District 15, the Senator from District 3, and others who have been working on the Volkswagen settlement funding, which part of that settlement directs that some of it is directed towards electric vehicle charging stations.

So, I just want to take a few minutes to let folks who aren't on Transportation know that this is really an important economic part of the state's future, and we ought to get ourselves ready for it. Thank you, Mister President.

(The Chair recognized Senator Giuda for a question of Senator Watters.)

SENATOR GIUDA: Thank you, Mister President. Thank you for taking my question, Senator. Sitting on Ways and Means and watching our highway funds plateau, or perhaps start down as these electric vehicles come up. Would it be appropriate to include in that commission's study possibilities of taxing mechanisms for the electric vehicles that will not pay a gasoline tax that is the backstay of our entire transportation funding?

SENATOR WATTERS: Thank you for your question and it's a question that's been wrestled with in both bodies over the last few years. I think that really is more appropriately taken up as a separate issue, and here we need to figure out the electric vehicle charging infrastructure. And, as you say, as they come we're going to have to do something about the road toll, perhaps, but I think that's another discussion.

PRESIDENT MORSE: Not if it's going to be about taxes.

SENATOR WATTERS: No, that's why it's not here.

SENATOR GIUDA: Thank you, Mister President. And the question is not about any new tax, it's a question of replacing the tax that's not being funded, and not so much about the tax itself but about potential mechanisms on these charging stations that might enable the state to charge for a volt of electricity just as we charge for a gallon of gas. Just to include that discussion in the development of the technology.

SENATOR WATTERS: Thank you for the question. I thought it really… this commission needs to look at the infrastructure and not tax policy. But on your particular question of charging for the electricity and the capacity to do that, that is addressed in the bill we will be discussing in a few moments, Senate Bill 575.

SENATOR GIUDA: Thank you.

SENATOR WATTERS: Thank you.

SENATOR GIUDA: Thank you, Mister President.

(The Chair recognized Senator Sanborn.)

SENATOR SANBORN: Thank you, Mister President. Mister President, I rise and poorly paraphrase President Reagan when he said if it's doing well, government wants to tax it; when it's not doing well, government wants to subsidize it; and if it's new, government wants to regulate it. I ask my members of the body to actually reject this bill. It is not our place because there's a new technology that people might decide that they want it for competitive reasons, or whatever, to put in charging stations. Shouldn't we be leaving that to the free market? There is no problem here. There's no problem here we're trying to solve. We're seeing electric cars come, we're seeing most manufacturers make them, we're seeing charging stations raised up everywhere. And, quite frankly, Mister President, I don't even know who approved the charging stations at the state of New Hampshire in the building because I don't remember seeing that in the budget, but they popped up anyway. So, why on God's green earth are we sitting here trying to create yet another commission to regulate how people live their lives; that now government's going to tell us where they can put their charging station, how big their charging station can be, what type of batteries they can use and what they can't use. Why don't we just let people charge? So, I ask the body to reject this commission as voting for it will clearly indicate your belief in government. Thank you, Mister President.

(The Chair recognized Senator Innis for a question of Senator Sanborn.)

SENATOR INNIS: Would you believe that guests show up at our Inn with electric cars and expect to charge for free?

SENATOR SANBORN: Thank you so much for the question. Senator thanks so much for the question because I couldn't conceive with the amount of money you charge for a room that they would have any money left to pay for their own charging station.

SENATOR INNIS: Well, we will install one and there will be a surcharge for using it. And I think it's a perfect example of the free market at work. Thank you, Mister President.

SENATOR SANBORN: Thank you very much.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to Third Reading.

Senator Morse is in opposition to the motion of Ought to Pass with Amendment on SB 517.

SB 520-FN, authorizing New Hampshire Food Bank to issue decals for multi-use decal plates.
Ought to Pass with Amendment, Vote 5-0. Senator Birdsell for the committee.

Senate Transportation
February 14, 2018
2018-0617s
03/04

Amendment to SB 520-FN

Amend the title of the bill by replacing it with the following:

AN ACT authorizing New Hampshire Catholic Charities to issue decals for multi-use decal plates to benefit the New Hampshire Food Bank.

Amend the bill by replacing section 1 with the following:

1 Multi-Use Decal Plates; Authorized Organizations. Amend RSA 261-B:9 to read as follows:

261-B:9 Authorized [~~Organization~~] ***Organizations***. The ***following organizations are authorized to issue decals under this chapter:***

I. Rotary District 7870 Foundation [~~is authorized to issue decals under this chapter~~].

II. New Hampshire Catholic Charities, provided that all proceeds from decals issued by New Hampshire Catholic Charities shall be for the benefit of the New Hampshire Food Bank.

2018-0617s

AMENDED ANALYSIS

This bill authorizes New Hampshire Catholic Charities to issue decals for multi-use decal plates to benefit the New Hampshire Food Bank.

SENATOR BIRDSELL: Thank you, Mister President. I move Senate Bill 520-FN Ought to Pass with Amendment. This bill authorizes the New Hampshire Food Bank to issue decals for multi-use decal number plates. All of you are likely familiar with the great work that the New Hampshire Food Bank does in providing many New Hampshire citizens with the basic necessities. Allowing the New Hampshire Food Bank to issue decals will help them in continuing to raise awareness for this important cause. The committee amended the legislation to ensure that the proper tax identification name was listed for the legislation since the New Hampshire Food Bank is a subsidiary of New Hampshire Catholic Charities. Since there are several pieces of legislation this session that deal with decals for multi-use decal plates, some of which need amendments in order to be passed into law properly, a subsequent motion will be offered that I hope each of you can support. This will ensure that all pieces of similar legislation are passed properly. All the members of the Transportation Committee ask for your support in the motion of Ought to Pass with Amendment on Senate Bill 520-FN. Thank you, Mister President.

The question is on the adoption of the Committee Amendment. Adopted.

Senator Bradley moved to Lay on the Table SB 520-FN. Adopted.

MOTION TO REMOVE FROM THE TABLE

Senator Bradley moved to remove SB 520-FN from the Table. Adopted.

The pending motion is Ought to Pass with Amendment.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted.

Senator Bradley moved to Lay on the Table SB 520-FN. Adopted.

SB 560-FN-L, relative to updating the state trails plan and making an appropriation therefor.
Ought to Pass with Amendment, Vote 5-0. Senator Gannon for the committee.

Senate Transportation
February 14, 2018
2018-0623s
06/03

Amendment to SB 560-FN-LOCAL

Amend the bill by replacing section 1 with the following:

1 New Section; New Hampshire State Rail Trails Plan. Amend RSA 21-L by inserting after section 12-b the following new section:

21-L:12-c New Hampshire State Rail Trails Plan. The department of transportation, in cooperation with the department of natural and cultural resources, and in consultation with the regional planning commissions, shall update the New Hampshire state trails plan dated 2005 by June 30, 2020 and every 10 years thereafter, to include an up-to-date analysis of trail use. The updated plan shall be entitled the New Hampshire state rail trails plan. In updating the plan, the departments shall:

I. Hire a qualified consulting firm to complete and disseminate the plan.

II. Include a statewide economic-impact analysis on the value of rail trails.

III. Consider maintenance and cost of maintenance for rail trails, including responsibility of the state for the underlying structural integrity of abandoned rail corridors, while permitting trail organizations and towns to perform routine maintenance of trail surfaces and other amenities.

IV. Establish a tier system for prioritizing state investments in rail trail projects, based on criteria such as geography, connectivity to other rail trails, proximity to population centers and natural attractions, statewide and national significance, and other criteria as deemed appropriate. Develop recommendations for a state funding mechanism to support rail trail projects and the management structure of said fund.

V. Develop a template trail management agreement outlining responsibilities of state, local, and private organizations involved with management of state-owned rail trails.

VI. Compile and maintain a list of rail trail organizations and the areas of the state each serves.

VII. Identify best practices for acquiring insurance for volunteer rail trail management groups.

VIII. Document commitment by the state that it supports the development of rail trails for
their transportation, recreation, tourism, and other economic value.

IX. Consider encroachment by abutting property owners and how to ensure the integrity of publicly owned rail trail corridors. This may include reestablishing property lines with abutting private property owners.

X. Establish a state rail trail plan advisory committee including but not limited to:

(a) The commissioner of the department of transportation, or designee.

(b) The commissioner of the department of natural and cultural resources, or designee.

(c) The commissioner of the department of business and economic affairs, or designee.

(d) Two representatives from the regional planning commissions, appointed by the governor.

(e) Two members of the state legislature, appointed by the president of the senate.

(f) Two representatives of regional chambers of commerce or trail related businesses, appointed by the governor.

(g) One representative from the division of state parks statewide trails advisory committee, appointed by the committee.

(h) One representative from the department of transportation complete streets advisory committee, appointed by the committee.

(i) One representative from statewide or regional bicycling or walking organizations, appointed by the governor.

(j) One representative from equestrian organizations, appointed by the governor.

(k) One representative of OHRV clubs, appointed by the governor.

(l) One representative of the New Hampshire Snowmobile Association, appointed by the association.

XI. Hold a minimum of 3 public hearings, each in a different area of the state, to solicit public comment to shape the plan and make the final plan available on the department of transportation website.

XII. Provide a pamphlet at state information centers regarding the state trails plan.

SENATOR GANNON: Thank you, Mister President. I move Senate Bill 560-FN-L Ought to Pass with Amendment. This bill requires the Department of Transportation to update the state trails plan and makes an appropriation for this. The legislation also creates a project advisory committee for the updating of the plan. The committee amended the bill to correct all references of "trails plan" to the proper title, which is "rail trails plan." Say that three times fast. Updating the state rail trails plan is important for New Hampshire trail development in the future to ensure that there is proper space for all vehicles or bikes on trails and whoever else wishes to use these trails and utilize them, including animals. Both the Department of Natural and Cultural Resources and the Department of Transportation are in favor of this legislation and worked effectively together throughout a study committee to address these issues. All members of the Transportation Committee ask for your support in the motion of Ought to Pass with Amendment on Senate Bill 560-FN. Thank you, Mister President.

(The Chair recognized Senator Giuda for a question of Senator Gannon.)

SENATOR GIUDA: Thank you for taking my question. I'm in support of this bill, but my question is this: we're having significant difficulties with the DOT in the trail system throughout the state, throughout my district repeatedly, and, in fact, we have a meeting tonight in Tilton with DOT again. Is there any provision in this process for incorporating the voices of ATVs and snowmobile people that are also users of those trails, as DOT individuals, for the record, have specifically spoken against the use of ATVs on the trail system?

SENATOR GANNON: Might I defer to my Chair?

(The Chair recognized Senator Birdsell.)

SENATOR GANNON: Thank you.

SENATOR BIRDSELL: Thank you. Actually, yes, and in the bill, line… in the committee we put members of the OHRV clubs, snowmobile clubs, and appointed by the Governor. So they will be on the committee.

SENATOR GIUDA: Thank you, Madam Chair. Thank you, Mister President.

The question is on the adoption of the Committee Amendment. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to the Committee on Finance (Rule 4-5).

SB 561-FN, relative to the installation of a traffic light or beacon. Ought to Pass with Amendment, Vote 5-0. Senator Birdsell for the committee.

Senate Transportation
February 14, 2018
2018-0624s
06/05

Amendment to SB 561-FN

Amend the title of the bill by replacing it with the following:

AN ACT naming a bridge over the Little River between the towns of Plaistow and Atkinson the Lance Corporal Dimitri Gavriel bridge.

Amend the bill by replacing all after the enacting clause with the following:

1 Town of Plaistow; Town of Atkinson; Lance Corporal Dimitri Gavriel Bridge. Pursuant to RSA 4:43, the bridge on Route 121 which spans the Little River and the Pan Am railway line on the border of the town of Plaistow and the town of Atkinson is hereby named the Lance Corporal Dimitri Gavriel Bridge. A suitable marker may be placed at the site of the bridge.

2 Signage. The cost of design, construction, maintenance, and installation of any signage, replacement signage, or other markers required under this act shall not be a charge to the state. However, the design, construction, and installation of any signage or other markers required under section 1 of this act shall be approved by the department of transportation.

3 Effective Date. This act shall take effect 60 days after its passage.

2018-0624s

AMENDED ANALYSIS

This bill names a certain bridge spanning the Little River between Plaistow and Atkinson the Lance Corporal Dimitri Gavriel Bridge.

Senator Bradley presiding.

SENATOR BIRDSELL: Thank you, Mister President. I move Senate Bill 561-FN Ought to Pass with Amendment. As introduced, this bill would require the Department of Transportation to install a beacon at the intersection in Melvin Village. At the bill's hearing, the prime sponsor informed the committee that the issue had been resolved amicably and that there was no longer need for the legislation. However, the Senate President asked for a hearing on a replace-all amendment, which would allow for a bridge between Plaistow and Atkinson to be named after Lance Corporal

Dimitri Gavriel. After consultation with his family, they would prefer his name to read Dimitrios on the sign, and so I would like to offer a Floor Amendment after we take up the Committee Amendment to make that adjustment. It is my understanding that the Senate President will be speaking further to the incredible character and courageousness of Lance Corporal Gavriel following these actions. All members of the Transportation Committee ask for your support in passing the Committee Amendment on Senate Bill 561-FN. Thank you, Mister President.

(The Chair recognized Senator Morse.)

SENATOR MORSE: Thank you, Mister President. I ask for your support of the Committee Amendment on Senate Bill 561. This legislation was actually the idea of an old friend, Chris Pignatelli, who has helped us to rightfully honor the great defender of our country. Lance Corporal Dimitrios Gavriel was the first in his family to be born in America. He attended Timberlane High School in Plaistow where he was a standout student, state champion heavy weight wrestler, and well known in his community. After high school Dimitrios attended and graduated from Brown University. He moved to New York in the early 2000s where he began a career as an investment analyst on Wall Street working for companies like Payne Webber, J.P. Morgan, and Bank of America. He had found early success in the banking industry, but was deeply affected by September 11th terrorist attacks. During the attacks two of his Brown fraternity brothers died in the World Trade Center. We know that Dimitrios was speaking to one of his friends on the phone while he desperately tried to escape from the building. As you can imagine, these events moved Dimitrios to leave his successful career behind on Wall Street to join the Marines saying that he owed it to his friends and others who had died in the tragic events on September 11th, 2001. Dimitrios shed nearly forty pounds from his six foot one frame to cope with the lingering knee and ankle injuries from wrestling in order to complete the grueling thirteen week Parris Island boot camp. He believed that he could be an active force in eradicating the wrong by joining the military. As Dimitrios' mom said, he joined during war time and he was so proud of that. Lance Corporal Gavriel's journey eventually led him to be deployed to Iraq where he actively fought in Operation Iraq Freedom. His parents learned that he was on the front lines of duty only weeks before his death, since Dimitrios did not want to tell them and have them worry about his role as a rifleman. On November 19th, 2004 Dimitrios sustained an injury to his leg and was in line to receive a Purple Heart. However, he chose to courageously return to his unit and continue to fight. Only eight days later he was killed by an explosion in a man-on-man fighting in Fallujah. As his parents have said, our only consolation is he went for a noble cause and his death was worthy of what he believed. It was a heavy price to pay but knowing him like we did he would've given his life to dismantle all of these ideas and ideals he held. Lance Corporal Gavriel was buried in Arlington National Cemetery and awarded two Purple Hearts by President George W. Bush. Memorials have been erected in his honor in New York and at Brown University. A scholarship fund has also been set up in his name at Timberlane High School. But today we are here to bring this hero and his legacy back to the place where he grew up. Naming a bridge over Little River between Plaistow and Atkinson after Lance Corporal Gavriel. It's just a small way that New Hampshire can honor and remember such an incredibly courageous man and a leader. His service to our nation and willingness to defend our freedoms has had a lifelong impact on his

friends and family, everyone in his community, and all of those he met. I'd like to share one last thing. After he passed away, Dimitrios' parents found that he had been keeping a journal of poems, and thought ever since he graduated from Brown University. His family released some of those writings that chronicled his life experiences. A twenty-three-year old Dimitrios wrote, "I have heard that great men often kept journals. I'd like to be one of the great men." I think that I speak for each of us in this chamber in saying that Dimitrios indeed became a great man and so much more. I hope you'll join me in supporting this legislation. Thank you, Mister President.

The question is on the adoption of the Committee Amendment.

A roll call was requested by Senator Birdsell, seconded by Senator Avard.

The following Senators voted Yes: Woodburn, Giuda, Watters, Hennessey, Gray, French, Ward, Sanborn, Kahn, Daniels, Avard, Lasky, Feltes, Cavanaugh, Reagan, Soucy, Birdsell, Fuller Clark, Morse, Gannon, Innis, Bradley.

The following Senators voted No: (None)

The following Senators were excused: Carson, D'Allesandro.

Roll Call, Yeas: 22 - Nays: 0. Adopted.

Senator Birdsell offered a Floor Amendment.

Sen. Birdsell, Dist 19
February 21, 2018
2018-0811s
06/05

Floor Amendment to SB 561-FN

Amend the title of the bill by replacing it with the following:

AN ACT naming a bridge over the Little River between the towns of Plaistow and Atkinson the Lance Corporal Dimitrios Gavriel bridge.

Amend the bill by replacing section 1 with the following:

1 Town of Plaistow; Town of Atkinson; Lance Corporal Dimitrios Gavriel Bridge. Pursuant to RSA 4:43, the bridge on Route 121 which spans the Little River and the Pan Am railway line on the border of the town of Plaistow and the town of Atkinson is hereby named the Lance Corporal Dimitrios Gavriel Bridge. A suitable marker may be placed at the site of the bridge.

2018-0811s

AMENDED ANALYSIS

This bill names a certain bridge spanning the Little River between Plaistow and Atkinson the Lance Corporal Dimitrios Gavriel Bridge.

SENATOR BIRDSELL: Thank you, Mister President. I'd like to introduce Floor Amendment 2018-0811s to update the spelling of Lance Corporal Dimitri Gavriel to Dimitrios recognizing the wishes of the family. I hope you will all join me in support of this amendment. Thank you, Mister President.

(The Chair recognized Senator Giuda.)

SENATOR GIUDA: Thank you, Mister President and members of the Senate. I rise to humbly honor the family that reared this fine person,

the community that raised this fine person, and the nation that gave him the opportunity to serve. I mourn with his family as a Marine and as a member of this body, and I thank God that our nation continues to produce such men and women. Thank you, Mister President.

The question is on the adoption of the Floor Amendment. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment.

A roll call was requested by Senator Soucy, seconded by Senator Birdsell.

The following Senators voted Yes: Woodburn, Giuda, Watters, Hennessey, Gray, French, Ward, Sanborn, Kahn, Daniels, Avard, Lasky, Feltes, Cavanaugh, Reagan, Soucy, Birdsell, Fuller Clark, Morse, Gannon, Innis, Bradley.

The following Senators voted No: (None)

The following Senators were excused: Carson, D'Allesandro.

Roll Call, Yeas: 22 - Nays: 0. Adopted, bill ordered to Third Reading.

President Morse presiding.

SB 575-FN, relative to electric vehicle charging stations.
Ought to Pass with Amendment, Vote 5-0. Senator Watters for the committee.

Senate Transportation
February 14, 2018
2018-0620s
03/01

Amendment to SB 575-FN

Amend RSA 236:132, II-III as inserted by section 1 of the bill by replacing them with the following:

II. "Electric vehicle" means any battery electric vehicle, fuel cell electric vehicle, or plug-in hybrid electric vehicle.

III. "Fuel cell electric vehicle" means any vehicle that operates solely by use of a hydrogen fuel cell.

Amend RSA 236:132 as inserted by section 1 of the bill by deleting paragraph VI and renumbering the original paragraphs VII-IX to read as VI-VIII, respectively.

Amend RSA 236:133, III as inserted by section 1 of the bill by replacing it with the following:

III. All publicly funded chargers installed after the effective date of this paragraph that are accessible to the public shall be networked to apply the Open Charge Point Protocol communication standard that allows charging stations and central systems from different vendors to communicate.

Amend RSA 236:133, V(a)(5)-(6) as inserted by section 1 of the bill by replacing them with the following:

(5) Interruptible rates;
(6) Load management techniques; and
(7) Demand charges.

SENATOR WATTERS: Thank you, Mister President. I move Senate Bill 575 Ought to Pass with Amendment. This bill establishes needed protocols concerning electric vehicle charging stations. As amended, the legislation creates needed definitions, similar to those adopted in

other states. Further, the bill sets forth standard signage as is provided by the Federal Highway Administration for electric vehicle charging stations. This legislation also ensures that any type of electric vehicle, as is current practice, will be able to be charged at any given station, not just a particular brand of car. The bill also includes guidelines on parking, and then needed policies by the PUC for charging electricity at charging stations. In other words that you're not a utility if you're selling electricity at your library charging station. And then also some language needed by the Public Utilities Commission that tariff documents for utilities would include language governing electricity resale; and also request that the PUC give some consideration in the next couple of years for how we're going to be setting electric vehicle charging station rates. As I mentioned earlier, electric vehicle infrastructure is extremely important for New Hampshire's economic future, transportation needs, and economic growth. All members of the Transportation Committee ask for your support in the motion of Ought to Pass with Amendment on Senate Bill 575. Thank you, Mister President.

The question is on the adoption of the Committee Amendment. Adopted.

(The Chair recognized Senator Sanborn.)

SENATOR SANBORN: Thank you, Mister President. I rise, and although I typically agree with much of my friend from District 4 says on a regular basis I have to question to myself how on God's green earth, since we're talking about green energy, do we have charging stations at the toll booth we have going northbound and southbound? How do we have charging stations all over this state if government hasn't come here today to tell us how to do it? It befuddles me that we have charging stations all over America today and government hasn't weighed in to tell us how to do it. So why are we making that decision today? So I'm not sure. Should we be taking the charging stations we have down? Are they illegal? Are they not working? Are we charging the wrong amount of money or, consequently, maybe we should reject this bill and let the free market continue to do what the free market does? Now for the record I'm not sure I would've launched a convertible into the atmosphere like the owner of Tesla did last month, but it's not our place to try to regulate absolutely every part of our life if it doesn't need regulating. If there's not a problem that needs to be solved I'm not sure we should be doing it. So with that, Mister President, clearly I'm not going to vote for this bill, and I hope the rest of the body does not as well because it's something we do not need to be regulating today. Thank you, Mister President.

The question is on the adoption of the motion of Ought to Pass with Amendment.

A roll call was requested by Senator Sanborn, seconded by Senator Birdsell.

The following Senators voted Yes: Woodburn, Giuda, Bradley, Watters, Hennessey, Gray, Ward, Kahn, Daniels, Avard, Lasky, Feltes, Cavanaugh, Reagan, Soucy, Birdsell, Fuller Clark, Gannon, Innis.

The following Senators voted No: French, Sanborn, Morse.

The following Senators were excused: Carson, D'Allesandro.

Roll Call, Yeas: 19 - Nays: 3. Adopted, bill ordered to Third Reading.

WAYS AND MEANS
SB 301-FN, temporarily reducing the real estate transfer tax for first-time home buyers.
Inexpedient to Legislate, Vote 3-2. Senator Feltes for the committee.

SENATOR FELTES: Thank you, Mister President. Mister President, I move Senate Bill 301 Inexpedient to Legislate. This bill sought to reduce the real estate transfer tax for first time home buyers. Without any offset for the revenue loss this bill would cause, a majority of the Ways and Means Committee did not feel comfortable moving forward with the bill. Given the amount of business tax cuts the legislature had already enacted, a cautious approach with regard to any further cuts to our state's revenue stream would be prudent. The Ways and Means Committee asks for your support of the motion of Inexpedient to Legislate.

Mister President, having read the prepared remarks on behalf of the committee, I would now encourage the body to vote no on ITL because a reasonable compromise amendment is forthcoming. Thank you, Mister President.

(The Chair recognized Senator Bradley.)

SENATOR BRADLEY: Thank you very much. I appreciate the final words from my good friend from Concord. In the sense of bipartisaness, I will be introducing an amendment if we overturn the committee ITL and move forward with this bill that I think will provide a small incentive for first time home buyers to come to New Hampshire, or if they're already here to stay in New Hampshire and purchase a home. Thank you, Mister President.

The question is on the adoption of the motion of Inexpedient to Legislate. Failed.

Senator Bradley moved Ought to Pass.

Senator Bradley offered a Floor Amendment.

Sen. Bradley, Dist 3
Sen. Feltes, Dist 15
February 22, 2018
2018-0820s
10/03

Floor Amendment to SB 301-FN

Amend RSA 78-B:1-b, II(a)(1) as inserted by section 2 of the bill by replacing it with the following:

(1) The purchase of residential real estate, the price of which does not exceed $300,000;

2018-0820s

AMENDED ANALYSIS

This bill reduces, for a 2-year period, the rate of the tax on the transfer of real property for first time home buyers, provided the purchase price does not exceed $300,000. The bill also requires the department of revenue administration to report on the usage of the reduced rate.

SENATOR BRADLEY: This amendment that I worked on with our friend from Concord sets an upper limit of a first time home of $300,000 which means a maximum tax reduction of $750 for a $300,000 home. It's $250 for every $100,000 of value for the home. I think at that level we're actually targeting first time home buyers with a reasonable ceiling, but we're actually starting to talk about real money and a real inducement to purchase in New Hampshire. I would also note that the Department of Revenue is asked to do a study, if you will, of the impact of this incentive which lasts for two years. So, it's not long term, it's meant to be short

term. I know that there're some people in this room that wished they could've taken advantage of it, but let's get it passed and then see how it helps the market in New Hampshire and helps us attract millennials to our state. Thank you, Mister President.

(The Chair recognized Senator Sanborn for a question of Senator Bradley.)

SENATOR SANBORN: Thank you, Mister President. Mister President, I rise and thought what might be a rhetorical question to the Senator of District 3, but being I think I have an understanding of how he'd answer the question I'm not sure I need to ask it. The committee, and I apologize to the body, I don't have my notes here and you guys know I like to actually look at my numbers before I talk about them. But if my memory serves, the average selling price of a house in New Hampshire is $222,000 I think. And, if I remember right, and I encourage my committee members to correct me if I miss this, but I thought the fiscal note we had added up was going to be about $7.5 million a year without a funding source to it; and although you know I typically like cutting taxes, my question to the Senator is, have you guys done an analysis of what the difference is capping at 300, knowing the average is 222, and that the fiscal note I think is about $7.5 million a year, have you all done that analysis?

SENATOR BRADLEY: No, I haven't. Obviously, with a 3-2 Inexpedient to Legislate motion, I approached one of the three who voted Inexpedient, our friend from Concord, who we worked on this amendment together to try to get the support for the policy, and I thank you for having voted for it in committee so that we can move forward with this and provide some threshold over which the revenue loss will not exceed. So, it can only lower the revenue loss, but I don't know how much it is.

SENATOR SANBORN: Thank you, Senator. Thank you, Mister President.

(The Chair recognized Senator Giuda for a question of Senator Bradley.)

SENATOR GIUDA: Thank you, Mister President. I'm wondering if as an incentive to home buyers, first time, we might consider, instead of a number for the sale value, an exemption for the dollar value up to $300,000. So someone might buy a house more expensive than that as a first time buyer, as an executive of a new startup, or something like that, that they would also benefit as a potential first time home buyer.

SENATOR BRADLEY: I think the thought in coming up with the amendment was that we're trying to protect the revenue of the state of New Hampshire but at the same time encourage the first time homebuyers that need the most help. And that's why the amendment was put forward.

SENATOR GIUDA: Thank you.

The question is on the adoption of the Floor Amendment. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment.

A roll call was requested by Senator Fuller Clark, seconded by Senator Sanborn.

The following Senators voted Yes: Woodburn, Giuda, Bradley, Watters, Hennessey, Gray, French, Ward, Sanborn, Kahn, Daniels, Avard, Lasky, Feltes, Cavanaugh, Reagan, Soucy, Birdsell, Fuller Clark, Gannon, Innis, Morse.

The following Senators voted No: (None)

The following Senators were excused: Carson, D'Allesandro.

Roll Call, Yeas: 22 - Nays: 0. Adopted, bill ordered to the Committee on Finance (Rule 4-5).

SB 404-FN-A, phasing out the tax on interest and dividends.
Ought to Pass, Vote 3-2. Senator Daniels for the committee.

SENATOR DANIELS: Thank you, Mister President. I move Senate Bill 404 Ought to Pass. This bill will phase out the interest and dividends tax in New Hampshire over several years, incrementally lowering the current 5 percent tax rate by 1 percent each year starting in 2020 until it is fully phased out in 2024. This will provide widespread tax relief for a large segment of New Hampshire residents. Additionally, it will not disrupt the current revenue picture as it does not become effective until the next biennium. The hope is that this will help protect the financially vulnerable older population and encourage them to maintain residency in New Hampshire. The Ways and Means Committee asks for your support for the motion of Ought to Pass. Thank you, Mister President.

(The Chair recognized Senator Feltes.)

SENATOR FELTES: Thank you very much, Mister President. Mister President, I rise in opposition to the committee recommendation of Ought to Pass. We've had this conversation last year on a similar bill. However, the bill last year eliminated the interest and dividends tax right away, this one phases in the elimination of the interest and dividends tax. The evaluation, although I don't have a new evaluation this year from the Institute of Taxation and Economic Policy, based on the evaluation of last year's bill 80 percent of the benefits of getting rid of this tax go to the wealthiest 20 percent of Granite Staters–80 percent of the benefits to the wealthiest 20 percent. There's this notion that this is going to help financially vulnerable senior citizens in the Granite State. If that were the focus of this, then we would raise the exemption a little bit. But, that's not this bill. This bill is meant to get rid of this tax; it's going to cost in the next biennium a significant amount of money depending on your revenue estimates upwards of $80 to $100 million, and that's a hit that I don't think our budget can take especially in the midst of an opioid epidemic, a mental health crisis, education infrastructure and other needs that the state has. So, I would encourage us to vote down this. Last year we voted I think yes, and then moved to table at some point, but I would just encourage that we vote this down. Thank you, Mister President.

(The Chair recognized Senator Watters.)

SENATOR WATTERS: Thank you, Mister President. I rise to make a declaration that as noted in my financial filing I am subject to this tax, although I would not be, under this bill, affected any differently than anyone else who would be affected by the bill, so I will participate.

(The Chair recognized Senator Sanborn.)

SENATOR SANBORN: Thank you, Mister President. Mister President, I rise for two things. One, to also declare, based upon our current ethics laws, which I continue to find are punitive to the business community, I am compelled to say that I may or may not have an impact to this bill but yet I'm still participating, and I'd like the opportunity to speak as well.

Thank you, Mister President. So, what do we talk about? We hear the good Senator from District number 3 almost every week talk about what–

"The New Hampshire Advantage." And what do we talk about on "The New Hampshire Advantage?" We have no sales tax, and we have no income tax; that's what makes one of the things that makes New Hampshire such a special, special place. But the truth is we do have an income tax. So every time we hear someone say, or talk about "The Advantage of New Hampshire" of not having a sales or income tax, it actually is not a correct statement because we do tax some people's income. The interest and dividends tax–when you receive income from your retirement account we have a tax on that; that is a tax on your income. In this state it's 5 percent. We know, I personally, Mister President and members of this committee have had more conversations than I care to have in the past four or five years, I cannot remember the number of conversations I have had of people saying that they're moving their residence to Florida because Florida does not have a tax on income; they're exempt from that. We know that people with any level of means, especially those in retirement because they're not working every single week, have that ability to move wherever they want. And we see time and time again they're moving out of our state, and they're moving to places that do not have an income tax. So I believe, and yes to my good friend from Senate District number 15, that I have had several bills on this issue. I believe it's a very important issue for us.

Point number two is, we talk year after year–I prime sponsor these bills so I'm proud to say that I do; that I am here to cut people's taxes. I'm not here to hold the line; I'm here to give people their money back in their pocket. And we have done a tremendous amount to encourage economic development and watch the business community grow. I'm proud of it–good decisions; our economy's growing because of it. But we have done very little to actually cut taxes for every day hard working people or those in retirement. So this would be a vote to support those in retirement.

And the third thing, Mister President, I'm assuming if this bill does go to Finance, and hopefully it passes there, we'll be having this discussion, as well, showing a glaring problem, glaring problem with our fiscal note process today because I find it curious that my good friend from District number 15 would suggest this bill has $100 million impact on a revenue stream that only brings in $65 million. We see from the fiscal note that they actually suggested that the fiscal impact would be double the entire amount of the income that the state receives. At $65 million if we've got 1 percent per year or five years it would have a fiscal impact of about $13 million. But at one point in the fiscal note it says that it would have a fiscal impact of $58 million. So, Mister President, I did not stay at a Holiday Inn last night but I cannot conceive how a fiscal note that cuts $13 million that adds up to $58 million, but I'm sure we'll be having that discussion at a later date.

But in the end good policy; good policy for us, good policy for the state we'll send a very clear message, and I'm fortunate Senator D'Allesandro is not here today because of all the work he's done in the trust industry–thirteen bills at this point, I think, this body has passed on a unanimous vote every single time. Every single year I have been here we have passed bills to encourage trust money to come to New Hampshire. We have brought in more business that almost any other industry we have seen while those same people now are saying the same thing. Why New Hampshire since you have an income tax? This is our opportunity to eliminate, finally, New Hampshire's income tax, and I would encourage the body to support it. Thank you, Mister President.

(The Chair recognized Senator Hennessey.)

SENATOR HENNESSEY: Thank you, Mister President. I'm just rising to declare that I am subject to this tax and may or may not be affected by the results, but I intend to participate.

(The Chair recognized Senator Kahn.)

SENATOR KAHN: Thank you, Mister President. I, too, am subject to the tax. I don't feel that it differs for me than any others, so I will participate, and I also rise to speak in opposition to this. You know, I can't imagine that President Reagan would disagree with this thought either. That if you were going to be cutting revenues we ought to be showing the taxpayers how we're cutting expenses so that we understand what the tradeoffs are. But I got to say there's something about our deliberations that really flabbergasts me, and it is that we're so willing to show a reduction in revenues without showing the taxpayers what the cost is. What are we giving up? So it's unknown. A hundred million there, $100 million there, couple million…earlier today a few million more on a break for incoming people, new home buyers. I'm trying to keep track of this so that maybe I could be responsible to my taxpayers, but it's getting…how can I? It's just, it's hundreds of millions, and I don't see the impact. Moving to Florida from New Hampshire has to be for more than just the interest and dividends tax, I just venture. And we are already the state that ranks seventh in the per capita millionaires residing in our state. I think we've done pretty well by millionaires in this state. I don't think we need to do this, and I certainly am going to be voting against this motion. Thank you, Mister President.

(The Chair recognized Senator Fuller Clark.)

SENATOR FULLER CLARK: Thank you, Mister President. I rise, also, to declare a conflict of interest as I and my spouse are subject to the interest and dividends tax, but I don't believe any more than it would impact on others, and I intend to participate.

The question is on the adoption of the motion of Ought to Pass.

A roll call was requested by Senator Kahn, seconded by Senator Giuda.

PARLIAMENTARY INQUIRY

(The Chair recognized Senator Sanborn for a parliamentary inquiry.)

SENATOR SANBORN: The quorum is how many today in the Senate?

PRESIDENT MORSE: It's the same 13 as always.

SENATOR SANBORN: Thank you. I think we were at 12 a minute ago.

PRESIDENT MORSE: You've got to count me.

Recess. Out of recess.

PRESIDENT MORSE: Just so you know, Senator Bradley, the Clerk says you have to sit in your seat even if you're not participating.

Recess. Out of recess.

The following Senators voted Yes: Giuda, Gray, French, Ward, Sanborn, Daniels, Avard, Reagan, Birdsell, Gannon, Innis, Morse.

The following Senators voted No: Woodburn, Watters, Hennessey, Kahn, Lasky, Feltes, Cavanaugh, Soucy, Fuller Clark.

The following Senators filed a Declaration of Intent: Bradley.

The following Senators were excused: Carson, D'Allesandro.

Roll Call, Yeas: 12 - Nays: 9. Adopted, bill ordered to the Committee on Finance (Rule 4-5).

SB 406-FN, requiring background checks for access to Internal Revenue Service federal tax information.
Ought to Pass, Vote 5-0. Senator Sanborn for the committee.

SENATOR SANBORN: Thank you, Mister President. I move Senate Bill 406 Ought to Pass. This bill requires state employees who have access to federal tax information from the IRS to complete a federal background investigation and criminal record check. The use of federal tax information is essential to the work of the DRA, and many other agencies, particularly related to audits and compliance, as well as DHHS Division of Child Support Services, Department Of Justice, Employment Security, Safety, Information Technology Service and more. Ultimately, every New Hampshire state agency will need to be in compliance with the IRS rule regulating requiring IT security as mandated by IRS publication 1075 to implement such background checks. This bill would amend the existing authority to complete federal background checks on new employees, while requiring ongoing background checks on current employees every ten years. One provision in this bill amends RSA 21-G which is the general executive branch statute that gives agencies that receive federal tax information the authority to complete federal background checks. The important thing to know is that this is a federal requirement and if New Hampshire does not take the necessary steps to be compliant, the state could lose access to federal tax information and that would severely inhibit agencies abilities to complete their work, which would have a negative impact on the state revenues, particularly with regard to the DRA. The Ways and Means Committee asks for your support for the motion of Ought to Pass. Thank you, Mister President.

The question is on the adoption of the motion of Ought to Pass. Adopted, bill ordered to Third Reading.

SB 408-FN, licensing historic racing.
Ought to Pass with Amendment, Vote 5-0. Senator Giuda for the committee.

Senate Ways and Means
February 14, 2018
2018-0655s
08/04

Amendment to SB 408-FN

Amend RSA 284:15-e, I as inserted by section 5 of the bill by replacing it with the following:

I. Any person, association, corporation, or any other type of entity who holds a license under RSA 284 to accept pari-mutuel wagers may accept wagers on historic horse races.

Amend RSA 284:22-b, I(b)(1) as inserted by section 6 of the bill by replacing it with the following:

(1) Any person who, as of December 31, 2017, holds a license under RSA 284; or

Amend the bill by replacing all after section 6 with the following:

7 Effective Date. This act shall take effect upon its passage.

SENATOR GIUDA: Thank you, Mister President, members of the Senate. I move Senate Bill 408 Ought to Pass with Amendment. This bill establishes definitions and regulations for pari-mutuel wagering on historic horse races. In addition to boosting a struggling industry, this legislation will provide our citizens with a new form of entertainment; has the potential to benefit charities as well, specifically looking to 100 to 130 new jobs for 27 entities, $6 million in additional state revenue, and $2.5 million to the charities that will be affected. For those not familiar with the activity, historical horse racing offers the ability to wager on a race that has already taken place. A player is given certain handicapping information from which to base their wager, but no information is provided that would reveal the name of the horse, the jockey, or the date of the race or its location, until the race is complete. The Committee Amendment makes some minor technical corrections that were inadvertently left out of the original bill. It also changes the effective date to upon passage. The Ways and Means Committee respectfully asks for your support for the motion of Ought to Pass with Amendment. Thank you, and giddy up, Mister President.

The question is on the adoption of the Committee Amendment. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to the Committee on Finance (Rule 4-5).

SB 409-FN, relative to the taxation of moist snuff tobacco products. Interim Study, Vote 5-0. Senator Daniels for the committee.

SENATOR DANIELS: Thank you, Mister President. I move Senate Bill 409 be referred to Interim Study. This bill would have established a tax for moist snuff as a tobacco product. The stakeholders have asked that the bill be referred to Interim Study as they continue to work together toward a more agreeable outcome for all parties. The Ways and Means Committee asks for your support for the motion of refer to Interim Study. Thank you, Mister President.

The question is on the adoption of the motion of Interim Study. Adopted.

SB 565-FN, relative to aircraft registration fees and airways tolls. Ought to Pass, Vote 4-1. Senator Giuda for the committee.

SENATOR GIUDA: Thank you, Mister President, members of the Senate. I rise in support to move Senate Bill 565 Ought to Pass. This bill modifies registration and operating fees for aircraft and adjusts the distribution of operating fee revenue. Current practice relies solely on aircraft registration fees as the funding source for the Bureau of Aeronautics. This is both unsustainable and detrimental to the industry. Our aircraft registration fees are exorbitant compared to our neighboring states. As an example, Massachusetts charges $300 a year. We have numerous instances where a similar aircraft would be charged, in a two year period, $138,000. This is a disincentive to corporations to locate their headquarters here because they like their jets where they have their CEOs. Based on the current formula, folks with the largest, newest airplanes can pay up to $300,000 a year for one year of registration; this is a significant disincentive. In Massachusetts, as I said, they have set the fee at $300 per aircraft per year no matter what. This legislation is imperative in order to bring business back to New Hampshire. It establishes a reasonable, acceptable level of registration fees, and changes the funding scheme to one that is simple and forward looking. When more aircraft come to New Hampshire as a result of the bill, the increase in fuel sales will eventually make up for the lost revenue and surpass it. The Ways and Means Committee asks your support for the motion of Ought to Pass, and I thank you, Mister President.

(The Chair recognized Senator Feltes for a question of Senator Giuda.)

SENATOR FELTES: Thank you, Mister President, and thank you, Senator Giuda, for taking my question. The fiscal impact to the Aeronautics Division of DOT is listed at least $674,000 per year. How are they going to cope with that? Is there going to be layoffs? What's your solution to that division?

SENATOR GIUDA: The actual fiscal impact will be about a quarter of a million less than that because there's another source that we just required to be put into that–a Bureau of Aeronautics that the FBA required that was going to the general fund prior. So it's down closer to $375,000 a year. Department of Transportation is going to have to "eat it" on this. Essentially, we either fix it or we're going to lose more aircraft. We have about 40 percent of our revenue generated by about four operators in the state. They have made noises, and I would as well. Look at this as an economic decision; we have had numbers of corporate aircraft leave or decide not to come. As recently as a month ago we had one aircraft worth $22 million; because the fees were so exorbitant they chose to go where? To Hanscom Field. So, the revenue impact will be on DOT, and it will be up to DOT to resolve that issue. But, as I said, the fuel revenues will ultimately catch up to and then surpass that. I see that happening within three to four years at the most.

SENATOR FELTES: Thank you.

(The Chair recognized Senator Cavanaugh.)

SENATOR CAVANAUGH: Thank you, Mister President. I rise in opposition of this bill. I've spoken with the Director from the Manchester Airport, and they oppose this because of the lack of funding for the Aeronautics Bureau. And, per the airport, they haven't had any complaints about registration fees; all of their hangers are full, and there is currently a waiting list for corporate jets. Lowering fees they feel would just divert funding away from the state, and I just ask you to oppose this bill. Thank you, Mister President.

(The Chair recognized Senator Lasky.)

SENATOR LASKY: Thank you, Mister President. I rise in favor of the Ought to Pass motion. This is extremely significant, and I have been hearing it for years from owners in Nashua, airport people in Nashua, and I believe we've tried to do something about this for many years. And it brings in, or it can bring in significant income to the city of Nashua and our airport; and, without it the loss would be great. So I urge you to go with the committee's report of Ought to Pass. Thank you.

(The Chair recognized Senator Sanborn.)

SENATOR SANBORN: Thank you, Mister President. I rise as I, obviously, chair Ways and Means. We've had a lot of conversations about this, and while I hear the concern that my friend from Concord has relative to where are we to make up $300,000, I would submit to you that this is a train heading down the tracks already; that we're losing private aircraft, after private aircraft, after private aircraft because when the option is to pay $300,000 in New Hampshire or pay $300 in Massachusetts, that's beyond a simple question. Now the only thing that's giving us any, any hope, and save at this point, is we do know that corporations, and their corporate offices, and their CEOs do like to be near their aircraft, so they have access to it. But we are beyond punitive in our rates at this point; we're not even competitive, we're not in the right town. And we heard

testimony from some operations over at Pease Air Force Base, which the Senator from District 21 knows well, that right now is looking to purchase several, and when I say several we're talking double digit levels of private aircraft, and they're questioning whether or not we'll actually take delivery of them in New Hampshire or somewhere else. I look at this as actually an opportunity to generate money because we have to remember, Senator from Concord, there's two aspects from this. There's the annual registration, and that's all we're talking about here; but the second half of that is where an airplane is typically parked it needs fuel in order to run. So if we have that ability to go back and re-entice all of these aircraft to come back to New Hampshire, we have to consider what we will gain from the fuel tax on aviation fuel, what we'll gain from the servicing contracts, what we'll gain from the storage contracts, what we'll gain from all the other ancillary aspects of revenue of parking your shiny little jet in our state. So net, net, net, the committee does feel that the advantages of passing this bill will actually see an increase in revenue, although this specific section of that of just the registration fee might go down. I encourage the body to pass the bill. Thank you, Mister President.

(The Chair recognized Senator Avard.)

SENATOR AVARD: Thank you, Mister President. I have to agree with my colleagues from District 2 and 13 having toured the airports, having, over the last five years, heard about the dilemma that they're under I strongly support this bill. We've basically lost, I guess what you would call "market share" because we're out pricing ourselves, and we need to fix this dilemma. And I do believe that if we make this big fix there will be a huge effect on our economy, both Nashua and statewide. I believe there are about 200 airports in our state, from what I understand. But Nashua and Manchester being the largest of them, and Pease, I believe. But I just strongly ask the body to support this, and I would ask also for a roll call.

(The Chair recognized Senator Giuda.)

SENATOR GIUDA: Thank you, Mister President. The issue is one of competition, okay? Corporations compete, or states compete for corporations to locate headquarters. And Massachusetts has absolutely crushed us deliberately with acts like $300 no matter if it's a Gulfstream V that will go from here to Tokyo in 11 hours, or if it's an Accession 150. They have eliminated the sales tax on aircraft and aircraft parts. They want that aviation business in Massachusetts. We have to compete or we will continue to lose, and ultimately the funding structure will completely collapse. Thank you, Mister President.

(The Chair recognized Senator Feltes.)

SENATOR FELTES: Mister President, what we're doing here is giving owners of corporate jets a break, and in response the Department of Transportation is going to eat it; and so people are going to lose their jobs. I just think that if there's a plan, if there's a plan for the Department of Transportation to make them whole, I think it's reasonable. But, at least given the current construction of the bill, and in light of the fact that there isn't any forecasting, I think, that is credible to say that the revenue losses will be recouped through additional fuel tax, I just think it's not ready for prime time. Thank you, Mister President.

(The Chair recognized Senator Soucy.)

SENATOR SOUCY: Thank you, Mister President. I, too, rise in opposition to this motion for many of the same reasons that were expressed

by my colleague from Senate District 16. We are talking about airports statewide, but I would point out that the Manchester Airport is the largest airport. Certainly part of my district, and I would say one of the major economic drivers in our state. They have grave concerns about this legislation because of what it would do to the Department of Transportation. I would also point out that unlike other state agencies, the Department of Transportation's funds primarily come from the highway fund. The use of highway funds is restricted. They are not able to transfer those funds for other uses, and for those reasons I would also oppose this legislation and encourage my colleagues to do the same. Thank you, Mister President.

(The Chair recognized Senator Bradley.)

SENATOR BRADLEY: Thank you very much. I think what we have here is the classic definition of a death spiral; and I think our friend from Nashua, and our friend from Nashua really identified it. And what are we talking–several hundred thousand dollars. I mean, let's not be penny wise and pound foolish. If we want to attract corporate headquarters here let's not, you know, shoot the messenger. Let's make sure we bring the airplanes back. That's what this bill does. Thank you.

The question is on the adoption of the motion of Ought to Pass.

A roll call was requested by Senator Avard, seconded by Senator Lasky.

The following Senators voted Yes: Woodburn, Giuda, Bradley, Watters, Gray, French, Ward, Sanborn, Kahn, Daniels, Avard, Lasky, Reagan, Birdsell, Fuller Clark, Gannon, Innis, Morse.

The following Senators voted No: Hennessey, Feltes, Cavanaugh, Soucy.

The following Senators were excused: Carson, D'Allesandro.

Roll Call, Yeas: 18 - Nays: 4. Adopted, bill ordered to the Committee on Finance (Rule 4-5).

SB 586-FN-A-L, relative to casino gambling.
Interim Study, Vote 3-2. Senator Sanborn for the committee.

Senator Sanborn moved to Lay on the Table SB 586-FN-A-L. Adopted.

CONSENT CALENDAR REPORTS REMOVED

PRESIDENT MORSE: We are at the conclusion of the regular calendar and will take up the bills that were removed from the consent calendar.

HEALTH AND HUMAN SERVICES
SB 484, reestablishing the commission to address child hunger in New Hampshire.
Ought to Pass with Amendment, Vote 5-0. Senator Fuller Clark for the committee.

Health and Human Services
February 15, 2018
2018-0659s
05/04

Amendment to SB 484

Amend RSA 161:13, I(a) as inserted by section 1 of the bill by replacing it with the following:

(a) One member of the senate, appointed by the senate president.

Amend RSA 161:13, III as inserted by section 1 of the bill by replacing it with the following:

III. The members of the commission shall elect a chairperson from among the members. The first meeting of the commission shall be called by the senate member. The first meeting of the commission shall be held within 45 days of the effective date of this section. Seven members of the commission shall constitute a quorum. The senate health and human services committee staff shall provide clerical, administrative, and research services to the commission as may be needed.

SENATOR FULLER CLARK: I'm so sorry. Thank you very much; I should've been paying closer attention. We were talking about 484– establishes a commission to address child hunger in New Hampshire, and without this legislation, which will reestablish the Commission to Address Child Hunger in New Hampshire, the commission will not be able to continue to approve ways to reduce child hunger in our state. Currently more than 20 percent of our children go to bed hungry every night, and the number has been increasing. Thank you very much.

The question is on the adoption of the Committee Amendment. Adopted.

Senator Bradley offered a Floor Amendment.

Sen. Bradley, Dist 3
February 21, 2018
2018-0776s
05/03

Floor Amendment to SB 484

Amend RSA 161:13, III as inserted by section 1 of the bill by replacing it with the following:

III. The members of the commission shall elect a chairperson from among the members. The first meeting of the commission shall be called by the senate member. The first meeting of the commission shall be held within 45 days of the effective date of this section. Seven members of the commission shall constitute a quorum.

SENATOR BRADLEY: Thank you very much, Mister President. When this bill was heard by the Health and Human Services Committee, I missed the fact that the staff person, that would be Kyle, would have been assigned to this committee; that's not normally what we do for these commissions. This amendment corrects that. Thank you.

The question is on the adoption of the Floor Amendment. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to Third Reading.

PUBLIC AND MUNICIPAL AFFAIRS
SB 512, relative to compact sections of towns.
Ought to Pass with Amendment, Vote 5-0. Senator Ward for the committee.

Public and Municipal Affairs
February 14, 2018
2018-0651s
06/01

Amendment to SB 512

Amend the bill by replacing section 1 with the following:

V.***(a)*** The commissioner of transportation may establish compact sections in the following cities and towns:

Amherst Keene
Bedford Laconia
Berlin Lebanon
Claremont Londonderry
Concord Manchester
Derry Merrimack
Dover Milford
Durham Nashua
Exeter Pelham
Franklin Portsmouth
Goffstown Rochester
Hampton Salem
Hanover Somersworth
Hudson

(b) The commissioner of transportation may establish compact sections in such other cities and towns as agreed between the department and the municipality. In addition to the authority in RSA 229:5, IV, the commissioner may review and adjust the compact limits for established compacts by agreement with the municipality.

SENATOR WARD: Senate Bill 512, relative to compact sections of towns. This bill, as amended, permits the commissioner of transportation to establish compact sections in cities and towns upon request of the municipality without having to make improvements to the road first.

(The Chair recognized Senator Gray.)

SENATOR GRAY: I would ask the body to vote down the Committee Amendment. The Committee Amendment is missing the sentence that would tell you which RSA that it amends. So I would ask you to vote that down so that we can have a Floor Amendment that will correct that situation.

The question is on the adoption of the Committee Amendment. Failed.

Senator Gray offered a Floor Amendment.

Sen. Gray, Dist 6
February 21, 2018
2018-0809s
06/01

Floor Amendment to SB 512

Amend the bill by replacing section 1 with the following:

1 Highway System; Establishing Compact Sections by Agreement with Municipalities. Amend RSA 229:5, V to read as follows:

V.***(a)*** The commissioner of transportation may establish compact sections in the following cities and towns:
Amherst Keene
Bedford Laconia
Berlin Lebanon
Claremont Londonderry
Concord Manchester
Derry Merrimack
Dover Milford
Durham Nashua
Exeter Pelham
Franklin Portsmouth

Goffstown Rochester
Hampton Salem
Hanover Somersworth
Hudson

(b) The commissioner of transportation may establish compact sections in such other cities and towns as agreed between the department and the municipality. In addition to the authority in RSA 229:5, IV, the commissioner may review and adjust the compact limits for established compacts by agreement with the municipality.

SENATOR GRAY: I move amendment 2018-0809s. This corrects the error that we had, and adds, if you look at the amendment lines 2-4 in there which now does tell you which RSA is being amended. Thank you, Mister President.

The question is on the adoption of the Floor Amendment. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to Third Reading.

MOTION TO ADJOURN FROM EARLY SESSION

Senator Bradley moved that the Senate adjourn from the Early Session, that the business of the Late Session be in order at the present time, that all bills and resolutions ordered to Third Reading be, by this resolution, read a third time, all titles be the same as adopted, and that they be passed at the present time.

Adopted. Adjournment from the Early Session.

LATE SESSION

LIST OF RULE 6-25'S FOR THE DAY

Senator Birdsell: SB 503
Senator Bradley: SB 404-FN-A
Senator Daniels: SB 503
Senator Fuller Clark: SB 404-FN-A, SB 565-FN
Senator Giuda: SB 503
Senator Gray: SB 503
Senator Hennessey: SB 404-FN-A
Senator Lasky: SB 404-FN-A
Senator Sanborn: SB 301-FN, SB 334-FN, SB 337, SB 341, SB 357, SB 361, SB 368, SB 389, SB 398, SB 404-FN-A, SB 406-FN, SB 408-FN, SB 409-FN,SB 424, SB 425, SB 430, SB 431, SB 438, SB 468-FN-A, SB 479, SB 480, SB 484, SB 485, SB 490, SB 493, SB 494, SB 495, SB 502-FN, SB 503, SB 512, SB 514-FN, SB 515, SB 516, SB 517, SB 518, SB 519, SB 520-FN, SB 523-FN, SB 524-FN, SB 544-FN, SB 547, SB 560-FN-L, SB 561-FN, SB 565-FN, SB 570-FN, SB 575-FN, SB 576-FN, SB 586-FN-A-L, SB 591-FN
Senator Watters: SB 404-FN-A
Senator Woodburn: SB 334-FN

LATE SESSION

Third Reading and Final Passage

SB 334-FN, relative to temporary licenses for occupations and professions for persons from other states.
SB 341, relative to the veterans' property tax credit for service-connected disability.

SB 368, establishing an exemption from shoreland protection permitting requirements for maintenance and repairs of existing roads and for borings and test wells.
SB 389, relative to administrative fees on restitution.
SB 398, relative to information contained in certain motor vehicle records.
SB 406-FN, requiring background checks for access to Internal Revenue Service federal tax information.
SB 424, relative to property and casualty insurance.
SB 425, relative to limited liability companies.
SB 468-FN-A, relative to fines and penalties collected by the department of environmental services.
SB 479, relative to the oversight commission on children's services and relative to the commission to review child abuse fatalities.
SB 484, reestablishing the commission to address child hunger in New Hampshire.
SB 485, establishing a committee to study the relationship between concierge medicine and New Hampshire and federal health insurance law.
SB 493, establishing a committee to study the codification of the exculpatory evidence schedule and related law enforcement protocols.
SB 502-FN, relative to transparency and standards for acquisition transactions in health care.
SB 503, relative to increasing the maximum amount of the optional veterans' tax credit.
SB 512, relative to compact sections of towns.
SB 514-FN, establishing a commission to create a New Hampshire recovery memorial.
SB 515, relative to commemorative license plates.
SB 516, prohibiting motorcycle-only checkpoints.
SB 517, establishing an electric vehicle charging stations infrastructure commission.
SB 518, relative to agency reports of real property owned or leased by the department.
SB 519, relative to the purchase of property for the construction of roads.
SB 524-FN, relative to head injury policies for the community college system of New Hampshire and the university system of New Hampshire.
SB 544-FN, providing that 2 percent of insurance tax collections be deposited in the fire standards and training and emergency medical services fund.
SB 561-FN, naming a bridge over the Little River between the towns of Plaistow and Atkinson the Lance Corporal Dimitrios Gavriel bridge.
SB 575-FN, relative to electric vehicle charging stations.
SB 591-FN, relative to accreditation of health care providers by pharmacy benefit managers.

MOTION TO RECESS TO CALL OF THE CHAIR

Senator Bradley moved that the business of the day being completed, that the Senate recess to the Call of the Chair for the purposes of introducing legislation, referring bills to committee, scheduling hearings, sending and receiving messages, and processing enrolled bill reports and amendments and when we recess, we recess to the Call of the Chair.

Adopted. The Senate is in recess to the Call of the Chair.

HOUSE MESSAGE

The House of Representatives has passed Bills with the following titles, in the passage of which it asks the concurrence of the Senate:

CACR 16, Relating to privacy. Providing that an individual's right to live free of governmental intrusion is natural, essential, and inherent.
HB 1217, amending the certification requirements for school nurses.
HB 1227, relative to an unattended idling vehicle on private property.
HB 1237, relative to the definition of "public at large."
HB 1243, relative to exemptions from property attachments.
HB 1247, relative to administering oaths to certain state officers.
HB 1252-FN, relative to certificates of insurance.
HB 1265, relative to the release of criminal conviction records.
HB 1280-FN, relative to bow and arrow hunting licenses for permanently disabled military veterans.
HB 1281, establishing an executive order registry.
HB 1283, prohibiting sobriety checkpoints.
HB 1284, relative to the reports required by the incapacitated and vulnerable adult fatality review committee.
HB 1285, relative to dancers and entertainers in premises serving alcoholic beverages.
HB 1288, relative to petitions for annulment.
HB 1289, relative to trespassing domestic fowl.
HB 1303, relative to the purposes of revolving funds in towns.
HB 1304, relative to the authorization for forensic audits by a county convention.
HB 1310, establishing a committee to study all non-regulatory boards and commissions.
HB 1329, relative to eyewitness identification procedures.
HB 1335, relative to the cybersecurity software used by the state of New Hampshire.
HB 1352-FN, eliminating the nonresident freshwater bait dealers license.
HB 1356, relative to data sharing between the department of environmental services and the department of health and human services.
HB 1361, relative to county audits.
HB 1374, relative to financial regulation technicals.
HB 1401, relative to the New Hampshire accountancy act.
HB 1404, relative to the competing harms defense.
HB 1416-FN, repealing the prohibition on bottle rockets.
HB 1420-FN, relative to a criminal penalty for driving after certification as an habitual offender.
HB 1425-FN, relative to simple assault.
HB 1441-FN, establishing the office of the ombudsman in the department of state.
HB 1446, relative to childhood cancer awareness month.
HB 1458, relative to exempting certain rules governing marine species from the administrative procedures act.
HB 1467, relative to the penalty for driving after revocation or suspension.
HB 1468, establishing a commission to study legislative oversight activities related to the department of health and human services.
HB 1472, relative to the state building code provisions for energy conservation in new building construction.
HB 1477-FN, relative to annulment of arrests or convictions for possession of 3/4 of an ounce of marijuana, or less.
HB 1483, amending the wiretapping and eavesdropping statute to include private communication networks.
HB 1494, relative to the definition of academic standards.
HB 1498, relative to alternate certification pathways for career and technical education instructors.

HB 1545, relative to the statewide interoperability executive committee.
HB 1554-FN, increasing exemptions under the interest and dividends tax and decreasing the total amount of research and development credits against business taxes.
HB 1565-FN, relative to requiring the secure psychiatric unit to be accredited as a psychiatric hospital and making an appropriation therefor.
HB 1593, authorizing a school district meeting to adopt an article authorizing the trustees of the trust fund to charge certain expenses against capital reserve funds.
HB 1598-LOCAL, relative to the vote to withdraw from a cooperative school district.
HB 1622, relative to organization of the department of information technology.
HB 1637, requiring school districts to establish policies relating to suspensions and expulsions.
HB 1638, declaring April 7, 2018 as tabletop gaming day in New Hampshire.
HB 1664, relative to terms of appointment of members of governing boards for allied health professionals.
HB 1673-FN-LOCAL, relative to the interest charged on late and delinquent property tax payments.
HB 1674, relative to computer science and digital skills required for an adequate education.
HB 1676-FN, repealing the licensing requirement for open-air shows and repealing the laws related to the keeping of billiard tables.
HB 1738, transferring the division of film and digital media to the division of travel and tourism in the department of business and economic affairs.
HB 1740, relative to costs of blood testing orders.
HB 1791-FN, allowing pharmacists to disclose information relative to lower cost drugs under the managed care law.
HB 1808, repealing certain inactive dedicated funds.

Out of Recess. Call the Senate to Order.

MOTION TO ADJOURN FROM LATE SESSION

Senator Bradley moved that the Senate adjourn from the Late Session.

Adopted. Adjournment from the Late Session.

March 8, 2018

The Senate reconvened at 1:00 p.m., a quorum being present.

Senator Birdsell offered the following prayer:

O God, from whom all power comes, by whose divine will all must abide. We pray to keep everyone safe in the aftermath of yet another New England Northeaster. We thank you for our civil liberties and freedom for our opportunities and our privileges. We beg of you to bless, assist and enlighten the Senators in this body today and always. May they prove worthy of the confidence placed in them by their fellow citizens. May they be just and upright in their thinking, honest in all their actions and ever be guided by a true conscience of the legislation they propose or vote on. Hold in your protective hands our military and first responders. Forgive us all our mistakes and selfish tendencies and help prepare us by our good deeds for an eternal union with you. Dear Christ Our Lord, Amen.

Senator Gray led the Pledge of Allegiance.

INTRODUCTION OF GUESTS

(The Chair recognized Senator Woodburn.)

SENATOR WOODBURN: I'm not sure they're here Mister President. I'm very proud to have the White Mountain School in Bethlehem, New Hampshire, a great preparatory school. They're down for two days visiting Concord and our state government. Welcome to the Statehouse.

(The Chair recognized Senator Gannon.)

SENATOR GANNON: I would be introducing my daughter who's somewhere in the building, but not here, because she's studying for AP Physics and Calculus. So, Katie wherever you are keep studying.

INTRODUCTION OF PAGES

Senator Birdsell introduced Catherine McCarthy and Cole Fournier from Pinkerton Academy, serving as Senate Pages for the day.

FN REPORT FOR MARCH 8, 2018

Senator Daniels recommends the waiver of referral to the Finance Committee, Senate Rule 4-5, for the following bills with a fiscal note or an appropriation of funds:

CONSENT CALENDAR:

HEALTH AND HUMAN SERVICES
SB 581-FN, relative to pharmacy benefit managers under the managed care law.

JUDICIARY
SB 391-FN, relative to sexual assault survivors' rights.
SB 497-FN, relative to breast-feeding.
SB 498-FN, relative to information on property seized pursuant to a criminal proceeding.
SB 556-FN, relative to changes in bail procedures and procedures for annulment of a criminal record.
SB 584-FN, prohibiting electroconvulsive therapy on children 16 years of age or under.

REGULAR CALENDAR:

COMMERCE
SB 317-FN, relative to veterans' preference in public employment.
SB 566-FN, relative to unemployment compensation for school bus drivers and monitors.

ELECTION LAW AND INTERNAL AFFAIRS
SB 527-FN-L, relative to absentee voting.

EXECUTIVE DEPARTMENTS AND ADMINISTRATION
SB 370-FN, adopting the emergency medical services personnel licensure interstate compact.
SB 462-FN, relative to occupational licensure, certification, or registration for persons with criminal records, and relative to license applicants for barbering, cosmetology, esthetics, and manicuring.
SB 570-FN, relative to the work requirement for the child care scholarship program.
SB 588-FN, relative to inspections of laboratories.
SB 589-FN, relative to regulation of certified recovery support workers.

HEALTH AND HUMAN SERVICES
SB 546-FN, relative to purchasing alliances.

TRANSPORTATION
SB 559-FN-A, making an appropriation for a sound barrier on the Everett Turnpike in Bedford.
SB 585-FN, authorizing the New Hampshire Breast Cancer Coalition to issue decals for multi-use decal plates.

WAYS AND MEANS
SB 410-FN, establishing a registration fee for canoes and kayaks.
SB 411-FN-A, eliminating the cap on the research and development tax credit.

Senator Daniels recommends the following bills be ordered to the Finance Committee upon being found Ought to Pass/Ought to Pass with Amendment:

CONSENT CALENDAR:

EDUCATION
SB 525-FN, prohibiting the distribution of higher education and adult education financial assistance to any student who is not a legal resident—if Inexpedient to Legislate recommendation is overturned.

HEALTH AND HUMAN SERVICES
SB 548-FN, relative to therapeutic intervention needs of infants diagnosed with neonatal abstinence syndrome (NAS).
SB 572-FN, relative to the individual health insurance market—if Interim Study recommendation is overturned.
SB 583-FN, establishing a pilot program to eliminate employment barriers for certain parents.

JUDICIARY
SB 555-FN-A, establishing a citizens' right-to-know appeals commission and a right-to-know law ombudsman and making an appropriation therefor.
SB 557-FN, establishing a board of housing development appeals.

REGULAR CALENDAR:

COMMERCE
SB 553-FN, relative to mental health parity for workers' compensation—if Interim Study recommendation is overturned.
SB 567-FN, relative to workforce development and job training.

EDUCATION
SB 526-FN, relative to school breakfast programs.
SB 568-FN, relative to criminal history record checks for school employees and certain volunteers.

ENERGY AND NATURAL RESOURCES
SB 309-FN, relative to standards for perfluorochemicals in drinking water, ambient groundwater, and surface water.
SB 530-FN, relative to high voltage electric transmission lines in highway rights-of-ways—if Interim Study recommendation is overturned.
SB 569-FN, relative to animal cruelty.
SB 577, requiring the public utilities commission to consider its order affecting the Burgess BioPower plant in Berlin.

EXECUTIVE DEPARTMENTS AND ADMINISTRATION
SB 463-FN, establishing an architectural paint can recycling program—if Inexpedient to Legislate recommendation is overturned.
SB 532-FN, relative to group II status of certain department of corrections officials.

SB 571-FN, requiring the department of health and human services to perform an efficiency audit—if Inexpedient to Legislate recommendation is overturned.

HEALTH AND HUMAN SERVICES
SB 582-FN, relative to caseload standards for child protective service workers in the department of health and human services.
SB 590-FN-A, making a supplemental appropriation to the state loan repayment program, relative to emergency involuntary admissions, and relative to the child protection act and making appropriations therefor.
SB 592-FN-A, relative to the child welfare system.

TRANSPORTATION
SB 562-FN, allowing the waiver of fees for reinstatement of a driver's license and registration in cases of demonstrated financial hardship—if Inexpedient to Legislate recommendation is overturned.

WAYS AND MEANS
SB 563-FN, establishing a recovery friendly workplace initiatives tax credit against business taxes administered by the community development finance authority.
SB 564-FN-A, relative to a business tax exemption and a workforce development program for regenerative manufacturing businesses.
SB 587-L, relative to the collection of fees for public parking facilities—if Inexpedient to Legislate recommendation is overturned.

Senator Daniels recommends the waiver of referral to the Finance Committee, Senate Rule 4-5, for the following bill which is still in its respective committee:

JUDICIARY
SB 593-FN, relative to the penalty for capital murder.

Without objection, the FN Report is adopted.

CONSENT CALENDAR REPORTS REMOVED

EDUCATION
SB 525-FN, by Senator Sanborn

ENERGY AND NATURAL RESOURCES
SB 446, by Senator Bradley

HEALTH AND HUMAN SERVICES
SB 581-FN, by Senator Bradley

JUDICIARY
SB 388, by Senator Woodburn

TRANSPORTATION
HB 1278, by Senator Gray

CONSENT CALENDAR

Senator Bradley moved that the Consent Calendars, with the relevant amendments as printed in the day's Calendars be adopted and that all such bills found Ought-to-Pass be ordered as follows:

FN bills not waived under Senate Rule 4-5, to the Committee on Finance; non-FN bills approved for referral to Finance by the day's FN report, to the Committee on Finance; and all other bills, to Third Reading.

EDUCATION
HB 1370, relative to a school's emergency management plan.

Ought to Pass with Amendment, Vote 5-0. Senator Giuda for the committee.

This bill requires the department of education to provide a copy of a school's emergency management plan, as updated, to the director of homeland security and emergency management, department of safety. This bill makes an important change based on legislation passed last year to ensure that these emergency plans are given to all who may need them. These emergency plans include those that deal with active shooters. The committee amended the bill to clarify language that these plans will also be provided to local emergency authorities.

Senate Education
March 6, 2018

06/05

Amendment to HB 1370

Amend RSA 189:64, II as inserted by section 1 of the bill by replacing it with the following:

II. ***Each school shall provide*** the plan ***to, and coordinate the plan [***~~shall be coordinated~~] with***,*** local emergency authorities and with the emergency operations plan in the municipality in which the school is located. Each school shall review its plan at least annually and update the plan, as necessary, and shall submit the updated plan to the department of education by September 1. If after review, the plan is unchanged, the school shall notify the department by September 1 that the plan is unchanged. ***The department shall provide a copy of any updated plan to the director of homeland security and emergency management, department of safely.*** The director of homeland security and emergency management, department of safety shall assist school districts in conducting training for and providing support to school districts in the development, implementation, and review of an emergency response plan, as may be needed.

2018-0963s

AMENDED ANALYSIS

This bill requires the department of education to provide a copy of a school's emergency management plan, as updated, to the director of homeland security and emergency management, department of safety.

This bill also requires a school to provide its emergency management plan to, and coordinate it with, local emergency authorities.

HEALTH AND HUMAN SERVICES
SB 478, establishing an advisory council on lactation.
Ought to Pass with Amendment, Vote 5-0. Senator Fuller Clark for the committee.

This bill would amend and reauthorize the advisory council on pregnancy and lactation. This council has made large strides in providing information and services to pregnant and lactating women as well as employers. It is important that the work of the council continues in order to ensure that our state becomes a more welcoming place for young people to start and raise a family.

Health and Human Services
March 6, 2018
2018-0977s
08/03

Amendment to SB 478

Amend the bill by replacing sections 1 and 2 with the following:

1 New Section; Advisory Council on Lactation. Amend RSA 275 by inserting after section 76 the following new section:

275:77 Advisory Council on Lactation.

I. There is hereby established an advisory council on pregnancy and lactation. The advisory council shall be comprised of:

(a) One member of the senate, appointed by the senate president.

(b) Two members of the house of representatives, one from the majority party and one from the minority party, appointed by the speaker of the house of representatives.

(c) The commissioner of the department of labor, or designee.

(d) The commissioner of the department of transportation, or a designee from the division of aeronautics, rail, and transit.

(e) Two members from the business community, one from a business with 50 or more employees and one from a business with less than 50 employees, both appointed by the governor.

(f) A member of the New Hampshire Business and Industry Association, appointed by the president of that association.

(g) One individual representing women of color regarding health equity, appointed by the president of the New Hampshire chapter of the American Civil Liberties Union.

(h) One member from the New Hampshire Medical Society representing obstetrics and gynecology, appointed by the president of that association.

(i) The executive director of the human rights commission, or a member of the commission's board.

(j) One member from National Education Association for New Hampshire, appointed by the president of that association

(k) One member from the department of health and human services, division of public health, appointed by the director of that division.

(l) A representative from the Women, Infants, and Children program (WIC), appointed by the commissioner of the department of health and human services.

(m) A certified midwife, appointed by the midwifery council established in RSA 326-D:3.

(n) The president of the New Hampshire Breastfeeding Rights Coalition and the Rustik Baby Project, or designee.

(o) The chairperson of the New Hampshire breastfeeding task force, or designee.

(p) A hospital administrator from a certified baby-friendly hospital, appointed by the governor.

(q) A mother who is breastfeeding a child or children, appointed by the governor.

(r) An attorney with experience in human rights issues, appointed by the New Hampshire commission for human rights.

II. The advisory council shall:

(a) Examine best practices on behalf of pregnant women and lactating mothers in New Hampshire.

(b) Research availability of accommodations and support for lactating mothers in the public arena, including but not limited to transportation hubs, educational institutions, government buildings, and courts and correctional facilities.

(c) Review definition of sex discrimination and disparate treatment related to pregnancy and lactation on federal and state levels in order to consider amendments to existing statutes.

(d) Review federal and state definitions of reasonable accommodations and clarify definitions for state laws as it related to pregnancy and lactation accommodations.

(e) Clarify that lactation is a medical condition related to pregnancy.

(f) Review the history of pregnancy and lactation legislation in New Hampshire.

III. Legislative members shall receive mileage at the legislative rate while attending to the duties of the advisory council.

IV. The advisory council may meet as often as necessary to accomplish its goals and meetings may be held by conference call. A minimum of 3 meetings per year shall be open to the public.

V. The advisory council shall submit an interim report on November 1, 2018, and a final report on November 1, 2019, detailing its activities and findings, together with any recommendations for proposed legislation, to the president of the senate, the speaker of the house of representatives, and the governor.

2 Transition. The advisory council on pregnancy and lactation established in RSA 275:77 shall continue the work of the advisory council on lactation established in RSA 275:76, but repealed by 2016, 232:3, I.

SB 548-FN, relative to therapeutic intervention needs of infants diagnosed with neonatal abstinence syndrome (NAS).
Ought to Pass with Amendment, Vote 5-0. Senator Hennessey for the committee.

> This bill as amended would create a pilot program in four geographically dispersed locations to help in creating services for Neonatal Abstinence Syndrome. This is a debilitating condition that infants born to mothers with substance use disorders suffer from. This problem is on the rise in New Hampshire and we need to make sure there are services available for some of the most vulnerable people in our society.

Health and Human Services
March 6, 2018
2018-0987s
01/04

Amendment to SB 548-FN

Amend the title of the bill by replacing it with the following:

AN ACT relative to therapeutic intervention needs of infants diagnosed with neonatal abstinence syndrome and making an appropriation therefor.

Amend the introductory paragraph of paragraph I as inserted by section 1 of the bill by replacing it with the following:

I. The commissioner of the department of health and human services shall establish a 3-year pilot program in 4 geographically dispersed areas in New Hampshire that provides therapeutic intervention to infants diagnosed with neonatal abstinence syndrome (NAS) and their families and caregivers. The program shall:

Amend paragraph V as inserted by section 1 of the bill by replacing it with the following:

V. The commissioner shall make an interim report relative to the progression of the program on or before November 1, 2019 and a final report on or before November 1, 2020, together with any recommendations for legislation, to the president of the senate, the speaker of the house of representatives, and the governor.

Amend the bill by replacing all after section 2 with the following:

3 Appropriation. The sum of $589,000 for the fiscal year ending June 30, 2019 is hereby appropriated to the department of health and human services for the purposes of this act. This appropriation shall be in addition to any other moneys appropriated to the department of health and human services. The governor is authorized to draw a warrant for said sum out of any money in the treasury not otherwise appropriated.

4 Effective Date.

I. Section 2 of this act shall take effect November 1, 2020.

II. The remainder of this act shall take effect upon its passage.

2018-0987s

AMENDED ANALYSIS

This bill requires the commissioner of the department of health and human services to establish a 3-year pilot program that provides therapeutic intervention to infants diagnosed with neonatal abstinence syndrome.

This bill makes an appropriation for the purposes of the bill.

SB 572-FN, relative to the individual health insurance market.
Interim Study, Vote 5-0. Senator Bradley for the committee.

This bill would have sought to remove the Medicaid expansion population out of the individual market and into their own risk pool. Currently there is legislation in the process that would remove the Medicaid expansion population from the individual market and into the managed care population making this bill no longer necessary.

SB 583-FN, establishing a pilot program to eliminate employment barriers for certain parents.
Ought to Pass, Vote 5-0. Senator Bradley for the committee.

This bill establishes a 2-year pilot program for case management and employment counseling for certain parents enrolled in the New Hampshire employment program or otherwise eligible for TANF. Having a criminal record is a clearly identified barrier to employment. This pilot program would provide services to individuals, eligible for TANF, to help annul their criminal record with the goal of them obtaining full time employment. This bill does not change the annulment statutes or process but simply helps individuals get the services needed to work through the annulment process. This program would be funded completely with TANF reserve dollars.

JUDICIARY

SB 391-FN, relative to sexual assault survivors' rights.
Ought to Pass with Amendment, Vote 5-0. Senator Lasky for the committee.

This bill will establish a sexual assault survivors' commission tasked with consulting on policy with law enforcement, prosecution, forensic examiners, health care providers, and representatives

of sexual assault survivor advocacy organizations. The commission will work with stakeholders to disseminate and implement best practices in dealing with cases of sexual assault and work in development, outreach, engagement, and training associated with victim-centered care for sexual-assault survivors.

Senate Judiciary
March 6, 2018

04/10

Amendment to SB 391-FN

Amend the title of the bill by replacing it with the following:

AN ACT establishing a sexual assault survivors' rights commission.

Amend the bill by replacing all after the enacting clause with the following:

1 New Subdivision; Department of Justice; Sexual Assault Survivors' Rights Commission. Amend RSA 21-M by inserting after section 17 the following new subdivision:

Sexual Assault Survivors' Rights Commission

21-M:18 Sexual Assault Survivors' Commission.

I. There is established a sexual assault survivors' rights commission to develop, coordinate, and disseminate best practices regarding the care and treatment of sexual assault survivors and the preservation of forensic evidence. The commission shall consist of the following members:

(a) Four members of the house of representatives, appointed by the speaker of the house of representatives.

(b) One senator, appointed by the president of the senate.

(c) The attorney general, or designee.

(d) The commissioner of the department of health and human services, or designee.

II. The commission shall consult with and solicit advice and testimony from law enforcement personnel, prosecution, forensic laboratory personnel, counseling, forensic examiners, health care providers and representatives from not less than 3 national organizations and state coalitions with demonstrated expertise in sexual assault prevention, sexual assault advocacy, or representation of sexual assault victims, particularly representatives of underserved or ethnic minority communities.

III. The commission shall:

(a) Improve the coordination of the dissemination and implementation of best practices and protocols regarding the care and treatment of sexual assault survivors and the preservation of evidence to hospital administrators, physicians, forensic examiners, medical associations, and health care professionals.

(b) Develop and implement, where appropriate, clinical guidelines and other incentives to encourage the adoption and implementation of best practices and protocols regarding the care and treatment of sexual assault survivors and the preservation of evidence among hospital administrators, physicians, forensic examiners, and other medical associations and health care professionals.

(c) Improve the coordination of the dissemination and implementation of best practices regarding the care and treatment of sexual assault survivors and the preservation of evidence to state and county attorneys, state and local law enforcement agencies, health care facilities, and forensic laboratory directors and managers.

(d) Develop and implement, where appropriate, incentives to encourage the adoption or implementation of best practices regarding the care and treatment of sexual assault survivors and the preservation of evidence among state and county attorneys, state and local law enforcement agencies, health care facilities, and forensic laboratory directors and managers.

(e) Collect feedback from state and local law enforcement agencies, victim services, forensic science practitioners, and health care professionals to inform development of future best practices clinical guidelines regarding the care and treatment of sexual assault survivors.

(f) Perform other activities, such as activities relating to development, dissemination, outreach, engagement, or training associated with advancing victim-centered care for sexual assault survivors.

IV. The members of the commission shall elect a chairperson from among the members. The first meeting of the commission shall be called by the senate member. The first meeting of the commission shall be held within 45 days of the effective date of this section. The commission shall meet not fewer than 2 times and not more than 5 times each year. Four members of the commission shall constitute a quorum.

V. Not later than one year after the effective date of this section, and annually thereafter, the commission shall submit a report its findings and any recommendations for proposed legislation to the president of the senate, the speaker of the house of representatives, the senate clerk, the house clerk, the governor, and the state library.

2 Effective Date. This act shall take effect upon its passage.

2018-0956s

AMENDED ANALYSIS

This bill establishes a sexual assault survivors' right commission.

SB 497-FN, relative to breast-feeding.
Ought to Pass with Amendment, Vote 5-0. Senator Gannon for the committee.

This bill will allow an individual who has been discriminated against in employment or housing due to pregnancy or a medical condition which results from pregnancy to file a discrimination claim with the State Commission for Human Rights or seek an immediate injunction in superior court. Under this bill, individuals will have an avenue to pursue discrimination claims through superior court, as a claim with the State Commission for Human Rights can take an extended amount of time.

Senate Judiciary
February 13, 2018
2018-0586s
08/04

Amendment to SB 497-FN

Amend RSA 132:10-d as inserted by section 1 of the bill by replacing it with the following:

132:10-d Breast-feeding. Breast-feeding a child does not constitute an act of indecent exposure and to restrict or limit the right of a mother to breast-feed her child is discriminatory. ***A person who has been discriminated against in employment or housing due to pregnancy or a medical condition which results from pregnancy may file a***

discrimination claim with the state commission for human rights under RSA 354-A or may seek immediate injunctive relief in superior court.

2018-0586s

AMENDED ANALYSIS

This bill creates a cause of action for a person who has been discriminated against in employment or housing due to pregnancy or a medical condition which results from pregnancy.

SB 498-FN, relative to information on property seized pursuant to a criminal proceeding.
Ought to Pass with Amendment, Vote 5-0. Senator French for the committee.

This bill requires the Attorney General to post an annual report on the Department of Justice's website detailing forfeiture activity in the state. The information required is already compiled by the Attorney General's Office and this bill will simply adjust the manner of posting to create improved transparency within the State.

Senate Judiciary
March 2, 2018
2018-0899s
04/06

Amendment to SB 498-FN

Amend the title of the bill by replacing it with the following:

AN ACT requiring an annual report detailing activity related to forfeiture of personal property.

Amend the bill by replacing all after the enacting clause with the following:

1 New Section; Forfeitures of Personal Property; Report. Amend RSA 617 by inserting after section 11 the following new section:

617:12 Report.

I. The attorney general, no later than 120 days after the close of the fiscal year, shall post a report on the department of justice website detailing forfeiture activity in the state, for the preceding fiscal year, including the type, approximate value, and disposition of the property seized, and the amount of any proceeds received or expended at the state and local levels. The report shall provide a categorized accounting of all proceeds expended. Summary data on seizures, forfeitures, and expenditures of forfeiture proceeds shall be provided by the law enforcement agency in disaggregated form to the attorney general.

II. The attorney general may include proposed legislative recommendations to improve policies to ensure that seizures and forfeitures are undertaken and reported in a manner that is fair to crime victims, innocent property owners, secured interest holders, citizens, and law enforcement officers.

2 Effective Date. This act shall take effect 60 days after its passage.

2018-0899s

AMENDED ANALYSIS

This bill requires the attorney general to post an annual report on the department's website detailing activity related to forfeiture of personal property.

SB 500, amending references to firearms terminology.
Ought to Pass with Amendment, Vote 5-0. Senator French for the committee.

This bill will amend current state statutes by condensing and clarifying firearm terminology and the Fish and Game statute. The bill further removes the prohibition of carrying a loaded rifle or shotgun in or on a stationary motor vehicle, OHRV, snowmobile, or aircraft for the purposes of protecting livestock and crops.

Senate Judiciary
March 6, 2018
2018-0966s
04/10

Amendment to SB 500

Amend the bill by replacing all after the enacting clause with the following:

1 Pistols and Revolvers. Amend RSA 159:12, II(a) to read as follows:

(a) Fathers, mothers, grandparents, guardians, administrators or executors who give a ***pistol or*** revolver to their children or wards or to heirs to an estate.

2 Protection of Persons From Domestic Violence; Definitions. Amend RSA 173-B:1, XI to read as follows:

XI. "Firearm" means any weapon, including a starter gun, which will [~~or~~]***,*** is designed to***,*** or may readily be converted to expel a projectile by [~~force of gunpowder~~] ***the action of an explosive***.

3 General Provisions as to Fish and Game; Definitions. Amend RSA 207:1, I to read as follows:

I. ***Air Rifle: A gun operated by a compressed air or nonflammable gas cylinder by which a projectile of any size or kind can be discharged or propelled.***

I-a. Angling: The taking of fish by line in hand, or rod in hand to which is attached a cast of artificial flies, or an artificial bait, or hooks or other devices for the attachment of bait. A person may have in use not more than 2 such lines at one time. Nothing in this title shall prohibit the use of a rod-holder in a boat.

4 New Paragraph; General Provisions as to Fish and Game; Definitions. Amend RSA 207:1 by inserting after paragraph V the following new paragraph:

V-a. "Firearm" means any weapon, including a starter gun, which will, is designed to, or may readily be converted to expel a projectile by the action of an explosive.

5 New Paragraph; General Provisions as to Fish and Game; Definitions. Amend RSA 207:1 by inserting after paragraph XIV the following new paragraph:

XIV-a. "Loaded" shall mean a round in the chamber fully dischargeable by pulling the trigger.

6 General Provisions as to Fish and Game; Lawful Methods of Taking. Amend RSA 207:3, I to read as follows:

I. Wildlife shall be taken in the daytime between 1/2 hour before sunrise and 1/2 hour after sunset with a gun***, firearm, muzzleloader, or air rifle,*** fired at arm's length***,*** or bow and arrow ***or crossbow***, unless otherwise specifically permitted.

7 Hunting From Motor Vehicle, OHRV, Snowmobile, Boat, or Aircraft. Amend RSA 207:7, II-IV to read as follows:

II. No person shall [~~have or~~] carry, in or on a motor vehicle, OHRV, snowmobile, or aircraft, [~~whether~~] ***when*** moving [~~or stationary~~], a cocked crossbow, a loaded rifle or loaded shotgun, [~~or a rifle or shotgun with a cartridge in a magazine or clip attached to the gun~~] ***except a person or a person's agent while in the act of protecting his or her interest in their livestock or crops. Such person or the person's agent may carry a loaded rifle or shotgun while traveling through or between farming or agricultural areas while in the course of protecting his or her interest in their livestock or crops***.

III. No person shall have in or on a boat or other craft while being propelled by mechanical power, or in a boat or other craft being towed by a boat or other craft propelled by mechanical power, a cocked crossbow, a loaded rifle or loaded shotgun[~~, or a rifle or shotgun with a cartridge in a magazine or clip attached to the gun~~].

IV. The provisions of this section shall not apply to law enforcement officers carrying guns ***or firearms*** in the line of duty.

8 Game Animals; Bow and Arrow. Amend RSA 208:5, V to read as follows:

V. The licensee shall [~~not~~] be entitled to carry [~~any~~] firearms while hunting under the provisions of this section, unless such licensee [~~also possesses a valid firearms hunting license or a valid license to carry firearms issued pursuant to RSA 159~~] ***is prohibited by state or federal law from carrying a firearm***.

9 Hunting, Fishing, Trapping; Refusing Licenses. Amend RSA 214:17 to read as follows:

214:17 Refusing Licenses; Appeal. The executive director and his agents shall refuse to issue any license to hunt if it appears that the applicant is [~~not a suitable person to carry firearms~~] ***prohibited by state or federal law from carrying a firearm***. Any person who has been refused a license by an agent shall have the right of appeal to the executive director, whose decision, given after hearing, shall [~~be final~~] ***not be reviewable for a period of one year from the date of the refusal***. Any attempt to secure a license from another agency, after having been refused by an agency and before appealing to the executive director, and any attempt to secure a license from any source in the same year that the executive director, on appeal, has decided that the applicant is [~~not a suitable person to carry firearms~~] ***prohibited by state or federal law from carrying a firearm***, shall be a violation of the provisions of this chapter.

10 Obstructing Governmental Operations; Taking a Firearm From a Law Enforcement Officer. Amend RSA 642:3-a, V(a) to read as follows:

(a) "Firearm" [~~has the meaning given that term in section 921 of Title 18 of the United States Code~~] ***means any weapon, including a starter gun, which will, is designed to, or may be readily converted to expel a projectile by the action of an explosive***.

11 Repeal. RSA 214:18, relative to the executive director's authority to suspend or revoke the license of a physically or mentally improper or incompetent person, is repealed.

12 Effective Date. This act shall take effect 60 days after its passage.

2018-0966s

AMENDED ANALYSIS

This bill amends the definition of firearm in certain statutes. The bill also removes the prohibition on carrying a loaded rifle or shotgun in or on a stationary motor vehicle, OHRV, snowmobile, or aircraft. The bill also defines air rifle for the purpose of the fish and game laws.

The bill also allows the taking of wildlife with a muzzleloader, crossbow, or air rifle.

SB 555-FN-A, establishing a citizens' right-to-know appeals commission and a right-to-know law ombudsman and making an appropriation therefor.
Ought to Pass with Amendment, Vote 5-0. Senator French for the committee.

This bill establishes procedures to streamline the resolution of complaints under RSA 91-A, establishes the citizens' right-to-know appeals commission and the office of the right-to-know ombudsman, and establishes an alternative process to resolve right-to-know complaints. The Committee amended the bill in order to clarify appropriate oversight parameters for the Commission and to implement workable deadlines for public bodies to respond to complaints.

Senate Judiciary
March 6, 2018
2018-0971s
01/04

Amendment to SB 555-FN-A

Amend the bill by replacing all after section 2 with the following:

3 New Sections; Citizens' Right-to-Know Appeals Commission; Office of the Ombudsman; Complaint Process; Appeals. Amend RSA 91-A by inserting after section 7 the following new sections:

91-A:7-a Citizens' Right-to-Know Appeals Commission Established. There is established a commission to provide oversight for an alternative right-to-know complaint resolution process.

I. The members of the commission shall be as follows:

(a) One member of the senate, appointed by the president of the senate.

(b) Two members of the house of representatives, appointed by the speaker of the house of representatives.

(c) A member, appointed by the chief justice of the supreme court.

(d) The secretary of state, or designee.

(e) A representative of Right to Know NH, appointed by that organization.

(f) Ten citizen members, one from each county, no more than 4 of whom shall be current, local, county, state or federal employees or currently serving in any elected or appointed capacity with any political subdivision, public agency or public institution; and 10 alternate members, one from each county, no more than 4 of whom shall be current local, county, state, or federal employees or currently serving in any elected or appointed capacity with any political subdivision public agency or public institution; all appointed by the governor with advice and consent of the council.

II. The members of the commission shall serve without compensation, but shall be reimbursed for necessary travel and other necessary expenses. Legislative members shall receive mileage at the legislative rate when attending to the duties of the commission.

III. Legislative members of the commission shall serve a term coterminous with their term in office. The members appointed under subparagraph I(g) shall serve for a term of 3 years, except that the initial appointment of such members shall be for staggered terms of one, 2, and 3 years. No member shall serve more than 3 consecutive terms. No mem-

ber under subparagraph I(g) shall be a current lobbyist or an attorney for any entity subject to this chapter, or an attorney for any organization representing the interests of such entity. Nor shall any such member be employed by any such lobbyist or attorney. The member appointed under subparagraph I(d) shall recuse himself or herself from any court proceedings involving appeals under this chapter. The members appointed under subparagraphs I (c)-(f) shall be advisory only members who shall advise the voting members on questions of law and existing policy governing RSA 91-A.

IV. The commission shall:

(a) Establish rules of procedure, pursuant to RSA 541-A, to accomplish the mission of the commission to make resolution of complaints under this chapter fast, easy, and inexpensive.

(b) Make recommendations to the legislature concerning proposed changes to this chapter.

(c) Create, and update annually, educational materials relative to this chapter.

V. The members of the commission shall elect a chairperson and a vice chairperson annually from among the voting members. The first meeting of the commission shall be called by the senate member. The first meeting of the commission shall be held within 45 days of the effective date of this section. Seven voting members of the commission shall constitute a quorum.

VI. The commission shall be administratively attached to the department of state.

VII. Beginning November 1, 2019, and each November 1 thereafter, the commission shall submit an annual report of its findings and any recommendations for proposed legislation to the president of the senate, the speaker of the house of representatives, and the governor. The report shall also include the total number of complaints received, the number of complaints received concerning public records and public meetings, the number of complaints received concerning state and county agencies, municipalities, school administrative units, and other public entities, the number of complaints in which a ruling was rendered by the ombudsman, the number of violations of each provision of this chapter found by the ombudsman, and the number of ombudsman rulings that were appealed to the superior court, including whether the appeal was from a complainant or a public agency or official, and whether the ombudsman's ruling was sustained before the superior court.

91-A:7-b Office Established. There is hereby established the office of the right-to-know ombudsman to be administratively attached to the department of state under RSA 21-G:10. The ombudsman shall be appointed by the governor and council, after consultation with the commission, and shall have the following minimum qualifications:

I. Be a member of the New Hampshire bar.

II. Have a minimum of 10 years full-time practice of law in any jurisdiction.

III. Be experienced with and knowledgeable of the provisions of this chapter, the federal Freedom of Information Act, and other states laws regarding right-to-know.

IV. Complete a minimum of 3 hours of continuing legal education courses or other training relevant to the provisions of this chapter.

91-A:7-c Complaint Process.

I. Any party aggrieved by a violation of this chapter shall have the option to either petition the superior court or file a signed, written com-

plaint with the office of the ombudsman, established under RSA 91-A:7-b. Any signed, written complaint filed with the ombudsman shall attach, if applicable, the request served on the public agency or official and the written response of the public agency or official. The complaint shall be deemed sufficient if it states facts constituting a violation of this chapter.

II. Once a complaint has been filed and provided by the ombudsman to the public body or public agency, the public body or public agency shall have 20 calendar days to submit an acknowledgment of the complaint and an answer to the complaint, which shall include applicable law and, if applicable, a justification for any refusal to or delay in producing the requested information. This 20-day deadline may be extended to a reasonable time frame by the ombudsman for good cause.

III. In reviewing complaints filed with the ombudsman, the ombudsman shall be authorized to:

(a) Compel timely delivery of records within a reasonable time, regardless of medium, and conduct a confidential in-camera review of records where the ombudsman concludes that it is necessary and appropriate under the law.

(b) Compel interviews with the parties.

(c) Order attendance at hearings within a reasonable time if the ombudsman determines that a hearing is necessary.

(d) Issue findings in writing to all parties.

(e) Order a public body or public agency to disclose requested records within a reasonable time, provide access to meetings, or otherwise comply with the provisions of this chapter, subject to appeal.

(f) Make any finding and order any other remedy to the same extent as provided by the court under RSA 91-A:8.

IV. The ombudsman may draw negative inferences from a party's failure to participate and comply with orders during the review process.

V. In implementing the provisions of this section, the ombudsman shall follow the procedures established by the commission.

VI. The ombudsman shall determine whether there have been any violations of this chapter and issue a ruling within 30 calendar days following receipt of the parties' submissions. This 30-day deadline may be extended to a reasonable time frame by the ombudsman for good cause. The ombudsman may also expedite resolution of the complaint upon a showing of good cause. Rulings on expedited complaints shall be issued within 10 business days, or sooner where necessary.

VII. The ombudsman shall, where necessary and appropriate under the law, access governmental records in camera that a public body or public agency believes are exempt in order to make a ruling concerning whether the public body or public agency shall release the records or portions thereof to the public. The ombudsman shall maintain the confidentiality of records provided to the ombudsman by a public body or public agency under this section and shall return the records to the public body or public agency when the ombudsman's review is complete. All records submitted to the ombudsman for in camera review shall be exempt from the public disclosure provisions of RSA 91-A.

VIII. Nothing in this section shall affect the ability of a person to seek relief in superior court under RSA 91-A:7, I in lieu of this process.

91-A:7-d Appeal and Enforcement.

I. Any party may appeal the ombudsman's final ruling to the superior court by filing a notice of appeal in superior court no more than 30 calendar days after the ombudsman's ruling is issued. The ombudsman's ruling shall be attached to the document initiating the appeal,

admitted as a full exhibit by the superior court, considered by the judge during deliberations, and specifically addressed in the court's written order. Citizen-initiated appeals shall have no filing fee or surcharge. The public body or public agency shall pay the sheriff's service costs if the public body or public agency, or its attorney, declines to accept service. Nothing in this section shall prevent a superior court from staying an ombudsman's decision pending appeal to the superior court.

II. A superior court appeal of the ombudsman's ruling shall review the ruling de novo.

III. If the ombudsman's final ruling is not appealed, the ombudsman shall, after the deadline has passed, follow up with all parties, as required, to verify compliance with rulings issued.

IV. The ombudsman's final rulings which are not appealed may be registered in the superior court as judgments and enforceable through contempt of court. If such action is necessary to enforce compliance, all costs and fees, including reasonable attorney fees, shall be paid by the noncompliant public body or public agency.

91-A:7-e Rulemaking. The commission, in consultation with the secretary of state, shall adopt rules pursuant to RSA 541-A relative to:

I. Establishing procedures to streamline the process of resolving complaints under this chapter.

II. Content of educational materials under RSA 91-A:7-a.

III. Other matters necessary to the proper administration of RSA 91-A:7-a through RSA 91-A:7-d.

4 Appropriation. The sum of $48,000 for the fiscal year ending June 30, 2019 is hereby appropriated to the department of state for the purpose of compensating the position of ombudsman established in RSA 91-A:7-b as inserted by section 3 of this act. This appropriation is in addition to any other funds appropriated to the department of state. The governor is authorized to draw a warrant for said sum out of any money in the treasury not otherwise appropriated.

5 Effective Date.

I. Sections 1 and 4 of this act and, RSA 91-A:7-a and RSA 91-A:7-e as inserted by section 3 of this act shall take effect July 1, 2018.

II. The remainder of this act shall take effect April 1, 2019.

SB 556-FN, relative to changes in bail procedures and procedures for annulment of a criminal record.

Ought to Pass with Amendment, Vote 5-0. Senator French for the committee.

> This bill revises the procedures for the granting of bail, amends the procedure for annulment of violations and class B misdemeanors depending on the date of conviction, and amends the requirements for demonstrating indigency for the purpose of annulment of a criminal record. The Committee amended the bill to clarify the language and to ensure that the appropriate procedures are in place.

Senate Judiciary
March 6, 2018

04/01

Amendment to SB 556-FN

Amend RSA 597:2, III(a) and the introductory paragraph of RSA 597:2, III(b) as inserted by section 2 of the bill by replacing them with the following:

III.(a) The court shall order the pre-arraignment or pretrial release of the person on his or her personal recognizance, or upon execution of an unsecured appearance bond in an amount specified by the court, or cash or corporate surety bail, subject to the condition that the person not commit a crime during the period of his or her release, and subject to such further condition or combination of conditions that the court may require unless the court determines by a preponderance of the evidence that such release will not reasonably assure the appearance of the person as required. A person who the court determines to be a danger to the safety of that person or the public shall be governed by the provisions of paragraph IV, except that such dangerousness determination shall not be based solely on evidence of drug or alcohol addiction or homelessness.

(b) In determining the amount of the unsecured appearance bond or cash or corporate surety bail under subparagraph II(a), if any, the court:

Amend RSA 597:2, IX as inserted by section 2 of the bill by replacing it with the following:

IX. Upon the appearance of a person charged with a class A or class B misdemeanor, the court shall issue an order that, pending arraignment, the person be released on his or her personal recognizance, unless the court determines pursuant to paragraph IV that such release will endanger the safety of the person or the public. The court shall appoint an attorney to represent any indigent person charged with a class B misdemeanor denied release for the purpose of representing such person at any detention hearing.

Amend the bill by replacing section 6 with the following:

6 Annulment of Criminal Records. Amend RSA 651:5, III(a) and (b) to read as follows:

(a)***(1)*** For a violation ***with a conviction date prior to January 1, 2019 or a violation with a conviction date on or after January 1, 2019 that was not the highest offense of conviction***, one year, unless the underlying conviction was for an offense specified under RSA 259:39.

(2) For a violation with a conviction date on or after January 1, 2019 where the violation was the highest offense of conviction, unless the underlying conviction was for an offense specified under RSA 259:39, or another violation for which there is an enhanced penalty for a subsequent conviction, after the person has completed all the terms and conditions of the sentence. If the court determines the conviction is eligible for annulment, the court shall submit a notice of its determination to the person convicted of the offense and to the prosecutor. The prosecutor shall have 20 days from the date of receipt of the notice to object to the annulment on the ground that the offense is not eligible for annulment or that the person has not completed all the terms and conditions of the sentence. If the prosecutor fails to timely object or the court denies the prosecutor's objection, the court shall annul the conviction.

(b)***(1)*** For a class B misdemeanor ***with a conviction date prior to January 1, 2019 or a class B misdemeanor with a conviction date on or after January 1, 2019 that was not the highest offense of conviction,*** except as provided in subparagraphs (f) and (h), 2 years.

(2) For a class B misdemeanor with a conviction date on or after January 1, 2019 where the class B misdemeanor was the highest offense of conviction, except as provided in subparagraphs (f) and (h), 2 years after the person has completed all the terms

and conditions of the sentence. If the court determines that a class B misdemeanor is eligible for annulment after 2 years, the court shall submit a notice of its determination to the person convicted of the offense and to the prosecutor. The prosecutor shall have 20 days from the date of receipt of the notice to object to the annulment on the ground that the offense is not eligible for annulment or that the person has not completed all the terms and conditions of the sentence. If the prosecutor fails to timely object or the court denies the prosecutor's objection, the court shall annul the conviction.

Amend the bill by inserting after section 8 the following and renumbering the original section 9 to read as 11:

9 Annulment of Criminal Records. Amend RSA 651:5, III(d)-(e) to read as follows:

(d) For a class B felony except as provided in [~~subparagraph~~] ***subparagraphs*** (g) ***and (i)***, 5 years.

(e) For a class A felony, ***except as provided in subparagraph (i),*** 10 years.

10 Annulment of Criminal Records. Amend RSA 651:5, III(i) to read as follows:

(i) For a class A misdemeanor ***or felony offense*** under RSA 318-B:26, II[~~(d) or (e)~~], 2 years.

SB 557-FN, establishing a board of housing development appeals. Ought to Pass with Amendment, Vote 5-0. Senator Gannon for the committee.

> This bill establishes a board with concurrent, appellate jurisdiction with the superior court regarding municipal decisions on housing and housing developments. This will give housing developers the opportunity to challenge adverse local land use decisions outside of costly trial court. The Committee amended the bill to clarify the jurisdiction.

Senate Judiciary
March 6, 2018
2018-0967s
03/04

Amendment to SB 557-FN

Amend RSA 679:7 as inserted by section 1 of the bill by replacing it with the following:

679:7 Jurisdiction; Court Appeals.

I. In matters within its authority the board shall have concurrent, appellate jurisdiction with the superior court. An election by an applicant to bring an action before the board shall be deemed a waiver of any right to bring an action in the superior court; as such, the board shall retain jurisdiction of any matter originally brought before it.

II. In an appeal of a local decision on housing or housing development, any claim that is within the board's authority under RSA 679:5 and that has previously been or is subsequently included in an appeal in superior court by abutters or any other aggrieved or injured party who can demonstrate legal standing to appeal pursuant to RSA 677:4 or RSA 677:15 shall automatically be stayed by the court to provide the party with standing the opportunity to intervene in the matter before the board. If intervenor status is granted, the stay of the court action regarding those claims shall

continue during the pendency of the appeal to the board. After the board has decided the appeal, the court shall dismiss the matter before it to the extent the matter has been resolved by the board. Any claim included in an appeal to superior court that is not within the board's authority shall not be subject to automatic stay by the court.

Amend the bill by replacing section 2 with the following:

2 Effective Date. This act shall take effect July 1, 2019.

SB 584-FN, prohibiting electroconvulsive therapy on children 16 years of age or under.
Inexpedient to Legislate, Vote 5-0. Senator Hennessey for the committee.

This bill would have prohibited children under the age of 16 from receiving electroconvulsive therapy as treatment for medical conditions. The Committee heard testimony that this treatment is rarely used on children and only in situations where the individual has not responded to other neurological treatments. Electroconvulsive therapy is widely accepted evidence based practice and it should continue to be allowed in medically necessary cases.

PUBLIC AND MUNICIPAL AFFAIRS
SB 340, relative to department of revenue administration guidelines for municipal audits.
Ought to Pass with Amendment, Vote 5-0. Senator Gray for the committee.

This bill as amended limits an audit of municipal accounts to events and transactions that occurred subsequent to the last completed audit. It also will categorize compliance into three separate sections of the final audit report. The first will categorize findings testing current assessing practices, the second will examine the permanent records and the third section will summarize compliance in a single conclusion statement.

Public and Municipal Affairs
February 21, 2018

03/05

Amendment to SB 340

Amend the title of the bill by replacing it with the following:

AN ACT relative to the commissioner of revenue administration's assessment report.

Amend the bill by replacing all after the enacting clause with the following:

1 New Paragraph; Revenue Administration; Assessment Report. Amend RSA 21-J:11-a by inserting after paragraph III the following new paragraph:

IV. The report shall separately categorize compliance with findings that test current assessing practices since the year of the prior assessment report, examine permanent records, and summarize compliance in a single conclusion statement.

2 Effective Date. This act shall take effect 60 days after its passage.

2018-0803s

AMENDED ANALYSIS

This bill establishes additional requirements for the commissioner of revenue administration's assessment report.

TRANSPORTATION
SB 346, relative to requiring enhanced technology ignition interlock devices. Ought to Pass with Amendment, Vote 5-0. Senator Birdsell for the committee.

As amended, this bill requires that all ignition interlock devices required to be installed after the effective date of the legislation be enhanced technology interlock devices. This bill also eliminates the authority of the department of safety to order installation of an ignition interlock device in DWI cases not involving alcohol. Further, the bill requires that the interlock device, equipped with a camera, will transmit data as events occur. This bill is important in order to ensure that these devices are being used properly and by those for whom they were intended.

Senate Transportation
February 20, 2018
2018-0739s
03/04

Amendment to SB 346

Amend the bill by replacing sections 1 and 2 with the following:

1 Words and Phrases Defined; Enhanced Technology Interlock Device. Amend RSA 259:28-b to read as follows:

259:28-b Enhanced Technology Ignition Interlock Device. "Enhanced technology ignition interlock device" shall mean an ignition interlock device equipped with a camera and which [~~is capable of transmitting data as events occur~~] ***will transmit data as events occur and is capable of capturing and encoding as events occur a digital or photographic image of the vehicle driver including the time, date, and breath alcohol level of all breath attempts. Images and data shall be stored by the manufacturer for 3 years***.

2 New Paragraph; Alcohol Ignition Interlock Program. Amend RSA 265-A:36 by inserting after paragraph IV the following new paragraph:

IV-a. Wherever the term "alcohol ignition interlock device" or "ignition interlock device" is referred to in this chapter or in department administrative rules, it shall mean an enhanced technology ignition interlock device, as defined in RSA 259:28-b. A device installed on or before January 1, 2019 that is not an enhanced technology ignition interlock device may, if it is recalibrated within 30 days of installation and every 60 days thereafter, continue to be operated in the vehicle in which it was installed until January 1, 2022 or such time as the vehicle is replaced with a different vehicle, whichever occurs first, at which time it shall be replaced with an enhanced technology ignition interlock device.

Amend the bill by replacing all after section 3 with the following:

4 Alcohol Ignition Interlock Device; Recalibration. RSA 265-A:36, VI(a) is repealed and reenacted to read as follows:

(a) Provide recalibration of each enhanced technology ignition interlock device no less frequently than every 180 days unless otherwise ordered by the court;

5 Alcohol Ignition Interlock Device; Recalibration. Amend RSA 265-A:36, VI(g) to read as follows:

(g) Provide reports to the department when data specified in department rules becomes available. ***The reports shall be provided no less frequently than every 60 days.*** The department shall make data from the reports available to the director of the division of motor vehicles, appropriate prosecutor, prosecuting agency, treatment provider, proba-

tion officer, and defense attorney by means of authorizing the interlock provider to provide these entities with secure electronic access to the data via the interlock provider's web-based portal.

6 Effective Date.

I. Section 4 of this act shall take effect January 1, 2022.

II. The remainder of this act shall take effect January 1, 2019.

2018-0739s

AMENDED ANALYSIS

This bill requires that all ignition interlock devices required to be installed after the effective date of the bill be enhanced technology ignition interlock devices. This bill also eliminates the authority of the department of safety to order installation of an ignition interlock device in DWI cases not involving alcohol.

SB 401, relative to repair of roads not maintained by a municipality.
Ought to Pass with Amendment, Vote 5-0. Senator Birdsell for the committee.

This bill requires an owner of land that abuts a road that is not maintained by a municipality to repair and maintain his or her share of such road. The committee amended the bill in order to use similar language from the state of Vermont, to add a residential-only provision, and to make an exemption for class VI roads.

Senate Transportation
February 21, 2018
2018-0810s
03/06

Amendment to SB 401

Amend RSA 231:89-a, II as inserted by section 1 of the bill by replacing it with the following:

II. In the absence of an express agreement or requirement governing maintenance of a private road, when more than one residential owner enjoys a common benefit from a private road, each residential owner shall contribute rateably to the cost of maintaining the private road, and shall have the right to bring a civil action to enforce the requirement of this paragraph. This paragraph shall not apply to any highway defined in RSA 229:5.

SB 522, relative to alteration of speed limits.
Ought to Pass with Amendment, Vote 5-0. Senator Cavanaugh for the committee.

This bill eliminates certain restrictions on local authorities' power to decrease speed limits. The committee amended the bill to modify the authorization for local authorities to alter these speed limits, at the request of the prime sponsor. As other modes of transportation, such as bicycling, become more common, it is appropriate to allow municipalities to control the speed limits to be able to lower them to lesser limits as they deem appropriate in certain areas.

Senate Transportation
February 21, 2018
2018-0759s
03/08

Amendment to SB 522

Amend the bill by replacing section 1 with the following:

1 Alteration of Speed Limits. RSA 265:63 is repealed and reenacted to read as follows:

265:63 Alteration of Limits.

I. Notwithstanding the provisions of RSA 265:60, or any other law to the contrary, whenever local authorities in their respective jurisdictions determine on the basis of an engineering or traffic investigation that the prima facie speed permitted under this chapter is greater or less than is reasonable and safe under the conditions found to exist upon any way or part of a way, the local authority may determine and declare a reasonable and safe prima facie limit thereon which:

(a) Decreases the limit within any city or within any business or urban residence district or compact section of any city or town.

(b) Decreases the limit within a rural residential district.

(c) Increases the limit within an urban district but not to more than 60 miles per hour.

(d) Decreases the limit at intersections.

II. Local authorities in their respective jurisdictions shall determine by an engineering or traffic investigation the proper prima facie speed for all streets and shall declare a reasonable and safe prima facie limit thereon.

III. Local authorities shall not be required to hire outside consultants to determine the proper prima facie speed limits as provided in paragraphs I and II if the local community has sufficient staff to conduct the required engineering or traffic investigation.

IV. Local authorities shall not be required to conduct any additional investigation or study of a limit that, prior to the effective date of this paragraph, has been determined to be a reasonable and safe prima facie limit and appropriate signs giving notice thereof have been erected.

V. Any altered limit established as hereinabove authorized shall be effective at all times or during hours of darkness or at other times as may be determined when appropriate signs giving notice thereof are erected upon such street or way.

VI. Except for any way located in a compact section of any city or town designated pursuant to RSA 229:5, V, any alteration of limits on state highways or extensions thereof in a municipality by local authorities shall not be effective until such alteration has been approved by the commissioner of transportation.

VII. Notwithstanding the other provisions of this section, local authorities shall modify the speed limits authorized herein so that said speed limits shall not exceed the temporary prima facie speed limits established for the state highway system under RSA 265:62, II, so long as the same are in effect.

2018-0759s

AMENDED ANALYSIS

This bill modifies the authorization for local authorities to alter speed limits.

HB 1334, establishing a commission to review the structure of motor vehicle laws.

Ought to Pass, Vote 5-0. Senator Gannon for the committee.

> At the request of the Department of Safety, this bill establishes a commission to review the structure of motor vehicle laws. Since these laws have not been reviewed or updated since 1980, this commission is important in order to ensure that laws are up to date and as effective as possible.

The question is on the adoption of the Consent Calendar. Adopted.

REGULAR CALENDAR

EDUCATION
SB 431, relative to non-academic surveys required to be filed by school districts to maintain federal funding.
Inexpedient to Legislate, Vote 3-2. Senator Reagan for the committee.

SENATOR REAGAN: Thank you, Mister President. I move Senate Bill 431 Inexpedient to Legislate. This bill would exempt certain surveys from the consent requirement for non-academic surveys and provide an opt-out for certain surveys. In 2017 the legislature dealt with the same issue in Senate Bill 43. At that time Senate Bill 43 created an opt-in structure, where no student would be required to volunteer or submit to a non-academic survey or questionnaire without written consent of a parent or legal guardian. The majority of the committee believes that the opt-in survey is still the best option and that parents and students should not be responsible for collecting various organizations data for them. Therefore, I ask your support in the motion of Inexpedient to Legislate on Senate Bill 431. Thank you, Mister President.

(The Chair recognized Senator Watters.)

SENATOR WATTERS: Thank you, Mister President, and colleagues. I rise in opposition to the motion of Inexpedient to Legislate. As the chair of Senate Education has mentioned, this is a kind of a follow on to a discussion we've had last year, and other times as well. It has to deal with non-academic surveys that are often in our schools. You're probably most familiar with the student risk behavior survey which is done every two years over a wide range of topics and issues, and is very useful. That survey, we decided last year should be an opt-out. Parents are informed that it's going to occur and it was recognized as such great value, and also recognized the principle of opt-out instead of opt-in, that if you have opt-out you might be in the 80 percent or even higher of students who take it so you get a good data set, if you have opt-in you're down to 20's or low 30's and you get junk data, basically. We were told that last year and we considered that and I think it was important that the Chair of Senate Education and all this body recognized that really opt-out made a lot of sense and the case had been made for opt-out. During that time of hearings last year, we were told by many folks working at schools, working for Health and Human Services, school board members and so on that if we lost the opt-out provision on other kinds of surveys related to grants for example about student health or about sex abuse prevention, education and referrals about mental health issues, that we would be apt to lose those grants. And now we're a year later and Senator Gray I think understanding the issue that was raised, introduced this bill. I mean he knew in his own district that Rochester schools lose $1.2 million in essential grants, as a tax cap community they're not likely to find that money elsewhere to provide services dealing with student health.

Now what happens in these programs; grants are written, grant money is received from various federal and other kinds of and state and other agencies or through university research, and they want to know whether or not their grant proposals are effective. Are students actually getting, seeing better behaviors or are they reaching students or are there good results from that research? And it is quite clear because of these folks that provide these services are dealing with forty, fifty, sixty, seventy years of how to do this work and the scientists know that if you don't have good data, you really cannot evaluate the success of your programs.

So, here's what we heard in the testimony. We heard from New Futures, we heard from New Hampshire Health Collaborative and we heard particularly from the Concord schools, and the totals are hard to kind of calculate which is which category but I thought we immediately heard about $30.6 million worth of grants would be lost and particularly heard from HEART, from Concord, the second start program that says you know one of four children in the school system in Concord had parents who had a substance use, behavioral health, a problem and that meant the 1,475 students would not get help through that program if they didn't have it and they said that they made a referral of about fifty students a month to get additional health services because of what we reported to them and the service that they conducted. We also heard from Laconia School District about what it would lose as well. Now since the time of the hearing I happened to have some conversation with members of the Governor's Commission on Alcohol and Drugs and I've also talked to members of the Governor's Drug Task Force and they said, you know maybe $10.2 million we might lose. And I would say in those areas in particular, we had heard a lot of talk on the floor in the last few weeks about how much money we've put in in the budgets to try to do something about substance abuse disorders and I would say here we are about to throw away $40 million. Now I don't know where we're going to find to replace that but there it is.

And then also a couple of weeks ago I was at that event One Billion Rising which is for survivors of sex abuse, particularly child sex abuse, Haven is an organization that you may know in Rockingham County and Strafford County area. They serve about 10,000 of the 40,000 students there for child sexual abuse prevention, education and other groups all across the state do this kind of work in our schools. And I asked them about this and they say well if anything, we really need to show and to demonstrate to the funders that give us money to do this work in your schools, because the state's not providing that money, even though the state passed the law requiring that we do child sex abuse prevention education, we passed that law, we didn't put any money to it, so the schools go out and they get these kinds of grants, they said well we think we'd lose that. And I heard a story about you know one fourth grader who you know they go back two or three times and a fourth grader went up to one of the providers and said, you know there was a boy who was doing something that he shouldn't be doing, made me uncomfortable touching me and I went to a trusted adult just like you said and asked them to make him stop and it stopped. Now I know it's an anecdote, one child but that's what these programs are about and the surveys they have to do to demonstrate that they're having an impact there. And I'm just, you know the frustration I feel is that we're all going to vote most of us for Marsy's Law, right? It has more to do with the victims of child sex abuse. Well I'm glad we're going to help the victims because we're going to create more victims if we don't fund this kind of services for our children.

Now what is the opposition to this? As I said before, there's been a recognition in Senate Education and in this body that opt-out is a good way to go on a really important survey. So why do these have to be opt-in? Well what do we hear from? We hear from a small group of parents. You know I get the emails from Senate Education; it's about twenty emails I get, say we shouldn't have these things forced upon our kids, it's intrusion, they don't like maybe they don't like because certain topics like drugs or sex abuse are being talked about, you know you get various things there. It's a relatively small group. And what gets me about it is that

right now if they don't want their student to be the class and they get informed about these, they can say just my kid doesn't take it, but they don't want anybody else's kid to take it either. So, what's the point here, twenty or thirty people are telling us that the hundreds of thousands of students in our communities who are being benefitted by these grants, these programs, that they don't want them to get it either. Why can't they just be happy opting out when they want to opt-out instead of saying everybody has to lose these kinds of services?

Well, we have an option here, there was discussion in the hearings about well okay if we're going to have opt-out, let's say the local school boards can make that decision about to do an opt-out instead of an opt-in and what they have to do and I have a Floor Amendment that would say and we discussed this in the hearings, okay if they're going to do the opt-out route, they've got to have a public hearing, the survey has to be available, the grant that they're going to apply for before they can accept the plan has a public hearing about it, parents can come in at, you know we hear a lot of talk here about how the local school board and our constitution says that education's supposed to be local for the most part, right? So why not let the school board sufficiently notice things? Here's the survey, here's what the programming is, here's what the grant is, have a public hearing and decide. And I think that makes a lot of sense particularly because what I've heard from local school boards is that we're not even applying for grants, some of these grants anymore because this is what might happen. It's really discouraging that we might deny these services.

And finally, I'd like to say this who might say, well why can't these researchers get 90 percent return on opt-in? Well they had forty, fifty, sixty years of experience trying to do that you even try to get students to you know get a note from their parents to go on a field trip for example and you can see what happens with that. And the other part of it too, is that do you really want all that grant money going to some elaborate incredible procedure trying to contact every parent or guardian in the school district and have all the money go to that instead of the money going to provide services to the students? Well we can vote down the ITL, I can give you my Floor Amendment, we can let our students get behavioral help with drug and sex abuse prevention education that they need. Thank you, Mister President.

(The Chair recognized Senator Innis.)

SENATOR INNIS: I'll be brief Mister President, thank you. You know I argued last year that this is important data that we gather about high school students and as an academic researcher and someone who uses data like this, I have a deep understanding of its importance. And when I look at some of the things that the surveys measure; social behavior, family life, sexual orientation, drug use I can imagine being able to build a statistical case that tells us the likelihood that a young person will become a drug addict later in life or an alcoholic, or perhaps an abuser of other people. If we don't gather this information, we're missing opportunities to shape our future, to build better public policy and to build a better life for the people of New Hampshire. We need this data. It's important data to have.

I know from doing surveys where people opted in, if you got 40 percent you were gold. Forty percent is not enough with this population, it does not give you the level of statistical significance and confidence that you need to draw firm conclusions. This is something that really needs to

happen. So, we want to use this research to build the case, based on risk exposures at a young age and help to avoid serious situations at a later age. I think we need to overturn the ITL because supporting the ITL to me is saying we don't need information, we don't want information, we'll just go with anecdotal evidence the rest of our lives and we'll throw money at things as they come at us even though we might have been able to prevent them ten years prior had we had the data. Thank you, Mister President.

(The Chair recognized Senator Cavanaugh for a question of Senator Watters.)

SENATOR CAVANAUGH: Thank you for taking my question. The total was $40 million?

SENATOR WATTERS: Thank you for the question. And counting. From what I understood and sometimes hard to categorize, it was about 30.2 million that we were hearing through Health and Human Services and maybe another 10.2 that I was hearing about from the Governor's Council and the Drug Task Force and then you know I'm not exactly sure, of course I know the Haven group and they have you know $7 million of grants, but I assume across the state there's many, many things and there's the 1.2 million in Senator Gray's district so I think there's so much more than we even know until this hits the brick wall.

SENATOR CAVANAUGH: If those programs aren't funded with that, whatever that total amount is, would the local property taxpayers have to pick that up, then. If they wanted to keep those programs going?

SENATOR WATTERS: Well thank you for the question, and a good question. I can't imagine corporate property tax payers maybe in Manchester, property taxpayers under a tax cap in Rochester or in Somersworth and Dover or you know over in my district could possibly even hit another million or two under the cap.

SENATOR CAVANAUGH: Thank you.

(The Chair recognized Senator D'Allesandro.)

SENATOR D'ALLESANDRO: Thank you, Mister President. Mister President, I rise against the ITL. We had a bipartisan discussion here by two distinguished colleagues, who gave you a wonderful iteration as to why this should be overturned. But I think the key for us we're a data driven society. We need this data to make significant decisions as we move forward. We're all pressed. I live in a tax cap community. That tax cap affects education. It affects education in a very, very significant way. So, I ask my colleagues, heed the information that was brought forward by the Senator from Dover and the Senator from Newcastle as to why overturning this is so important. It's important to all of us and the communities that we represent. We're a data driven society. We all know that because we make decisions in this body based on the data that's provided to us without that data, those decisions are not going to be as solid or as qualified as they should be. Thank you, Mister President.

(The Chair recognized Senator Sanborn for a question of Senator Reagan.)

SENATOR SANBORN: Senator, thank you for taking the question. It was my understanding if I heard the Senator from District 4 correct about his concern about federal money coming in if this bill were to go along the lines being recommended, that the Commissioner of Education had actually come back with a letter to indicate there would be no loss of federal funds or grants. Is that correct?

SENATOR REAGAN: I believe that the Senator from Senate District 3 has that letter.

SENATOR SANBORN: Thank you.

(The Chair recognized Senator Avard.)

SENATOR AVARD: Thank you, Mister President. I rise in support of the ITL and basically, we have federal law that says if you're going to ask your kids about their sexual orientation, if you're going to ask them about their drug use, if you're going to ask them about anything personal like that, all we're asking is that you go through the gate keeper. And who's the gate keeper? It's the parents. The state right now supports parental rights. If we do not support the ITL we will again attack parental rights. If a stranger comes up to your child and says what is your sexual preference? What is your use of illegal drugs? Or and on and on, you'd be upset. What we're saying is the parents have to give written notice; yes, you can ask these questions. If the surveys aren't complete it's because the parents said no. Why is the state usurping the rights of parents, and assuming their yes? If a person goes to any place of employment and these questions are asked, such as your sexual preference, any type of medical, are you depressed and on and on and on, you're going to have a legal fight. Why is it okay for strangers to ask these questions to your children in school? By the way Mister President, nobody's saying they can't ask these questions. All we're saying is you need written permission from the parents, which lines up with federal law, and we just passed this last year. Thank you, Mister President.

(The Chair recognized Senator Gray.)

SENATOR GRAY: Thank you, Mister President. I rise only to talk to one particular issue and that was brought up by the good Senator from District 4 that some remarks that were attributed to me. After this bill was filed and came out of committee, there was a lot of discussion about losing money. And I asked the proponents of the bill, I asked my school district, I asked many, many, many people to come and show me the regulation requirement that identifies what participation rate or what other law there is out there that says I'm going to lose money. No one to this date has shown me that. The best argument that I have gotten which goes along with the good Senator from District 24 is the quality of the data. But again, I got up here only to speak about the money. I have not been shown and I have tried to get the actual wording in the federal laws that would say I would lose money and it has not been provided to me.

(The Chair recognized Senator Kahn.)

SENATOR KAHN: Thank you, Mister President. I rise in opposition to the ITL and to ask that the body vote against the ITL and give an opportunity to think about another way of getting parental input and allowing for some local control by school boards in exercising the determination of the receipt of federal funds. We're a state that is in the bottom ten among the fifty, relative to our receipt of federal dollars per capita. We're only going to see ourselves even in a deeper hole, deficit to our subsidy of all the other states. I think there is another way to do it and I appreciate the Senator from District 4 trying to find where is that niche to try to make sure that their parental rights and input on the seeking and administration of federal grants that that voice will be heard and yet we can proceed with receipt of these funds and judging whether programs work. And here's where I think to my colleague from

District 6, this is what is going to put the gates on the federal funds. Granting agencies ask for the evidence that the program worked. It is the efficacy of our efforts that we're trying to demonstrate through some post grant effort, a collection of information that's going to provide evidence back to those agencies that funded it for a specific purpose. How do we collect that information with any reliability if the participation rates are down in the 20 and 30 percent, and that's not made up information, that's known information? Researchers know that the difference between an opt-in response rate and an opt-out response rate, and it's extreme. Grantors know the difference. We will lose those dollars. It's our race to the bottom as far as seeking federal dollars per capita and I think there is a local choice here to be made and we ought to vote down this ITL, give us a chance to have a discussion of an amendment that would provide for that local choice. Thank you, Mister President.

(The Chair recognized Senator Bradley.)

SENATOR BRADLEY: Thank you very much, Mister President. You know I find myself as I usually do appreciating both sides of a debate, because there's usually a lot of merit on both sides of a debate. And I have to say I spent a lot of quality time with our colleague from District 6 talking about this issue, as he is the prime sponsor, I wanted to better understand it. And when I first started discussing it with him, I was inclined to agree with him that we should vote for the bill and change our policy. But as I listened to what his research, which he just talked about, indicated there may be a fear that we're going to lose grants, but nobody can point to the fact that we're absolutely going to. It's at this point, supposition. And I think we need to be clear in this room that none of us want to lose these grants whether they're federal funds or other funds. None of us in this room want to create more victims, there's no race to the bottom here. But what we have is a policy that we just adopted last year and I'm always a firm believer that we ought to let things, we ought to let things work, and see where it goes. If we've adopted a policy and yes, it's very difficult in this building and that policy that Brother Avard fought long and hard for last year has now been in effect for only several months. Let's let it work. And so, after our conversation with our colleague from District 6, I did reach out to the Commissioner of Education and I posed the question; okay there's a fear about losing grants, do we have a strategy in place to minimize that risk and make sure we don't lose those grants and I do have a letter, I'm not going to read the entire letter. I'll make it available to anybody that wants it. I should have done that previously, I've had a few other things on my mind today. We'll get to them shortly. But I think that the commissioner has a strategy in place to minimize that risk and therefore given the fact of the emotional debate we had last year about Senate Bill 43, the desire to make sure that parents are as involved as the should be in their children's education while at the same time understanding the validity of these surveys. I think that we can safely forego this legislation at this point in time, with the assurance that the commissioner I think has provided in this letter that the Education Department is going to do everything possible to maximize the participation in these surveys so that we will be able to achieve the necessary threshold so that New Hampshire is open for receiving these grants. So therefore, I ask the body to stay with the recommendation of the Education Committee and vote yes on the ITL motion. Thank you.

(The Chair recognized Senator Watters for a question of Senator Bradley.)

SENATOR WATTERS: Thank you Senator, for taking my question. Does the commissioner's letter speak to the $30.6 million that are not coming through Education but are coming through Health and Human Services, New Futures, New Hampshire's Behavioral Collaborative?

SENATOR BRADLEY: The commissioner talks about the fact that he has a strategy in place to ensure that there's better relationships between parents and the administration of schools so that there, as he says in his letter, is a trusting and respectful relationship. Once, I think in his view and I think we should let this work, those trusting relationships are fostered through a contract that he has, a three year, $1 million contract with scholastic, I believe that we will be able to achieve what you want Senator Watters, which is access to these grants but at the same time what our friend from District 12 wants which is respecting the rights of parents.

SENATOR WATTERS: Does his letter speak to the, what I heard from the Governor's Commission of Alcohol and for the Drug Task Force about its 10.2 million or the 18.5 million immediate loss which we heard about from Kim Haley of Second Start?

SENATOR BRADLEY: I'm not going to answer the same question that I did on the previous grants, I think he has a strategy in place and I go back to what our friend from District 6 said about all the research that he did, not being able to point to any specific federal law or requirement that would absolutely preclude these kind of grants in New Hampshire. I would agree with you though, we need to monitor this carefully. And I think we need to let the policy of opt-in work, because I think it better protects parents and their kids from some of these surveys that some parents find objectionable, and monitor. See how it works, and make sure that we follow up and have the kind of oversight of the Education Department that I think the commissioner relishes to make sure that he's doing his job, to make sure that the strategy that he has in place actually works.

SENATOR WATTERS: So, you know, as your answers have indicated the letter has nothing to do with where the majority of grants are coming from so I guess my question is if we lose say 30 to 40 or plus million dollars of grants over the next year will you commit to finding that funding in the next budget to replace it?

SENATOR BRADLEY: I think what I would commit to is taking a second look at the legislation that we're voting on today. If I'm wrong and the commissioner's wrong that the strategy in place doesn't work, like anything else on life, you have to adjust to changing circumstances. I hope I've proven that I have the ability to do that.

SENATOR WATTERS: Thank you.

The question is on the adoption of the motion of Inexpedient to Legislate.

A roll call was requested by Senator Avard, seconded by Senator Sanborn.

The following Senators voted Yes: Giuda, Bradley, Gray, French, Ward, Sanborn, Daniels, Avard, Carson, Reagan, Birdsell, Gannon, Morse.

The following Senators voted No: Woodburn, Watters, Hennessey, Kahn, Lasky, Feltes, Cavanaugh, Soucy, D'Allesandro, Fuller Clark, Innis.

Roll Call, Yeas: 13 - Nays: 11. Adopted.

ELECTION LAW AND INTERNAL AFFAIRS
SB 438, relative to the postponement of local elections.
Ought to Pass with Amendment, Vote 4-0. Senator Birdsell for the committee.

Election Law and Internal Affairs
February 13, 2018
2018-0591s
06/03

Amendment to SB 438

Amend RSA 669:1, V(b)(1) as inserted by section 2 of the bill by replacing it with the following:

(b)(1) The moderator, or if the moderator is unavailable, the clerk, notifies the secretary of state that an extreme weather emergency or an imminent serious threat to public health or safety makes conducting the election when and where scheduled impossible. Prior to deciding to notify the secretary of state, to the extent practical, the moderator shall consult, with the jurisdiction's governing body, clerk, and as appropriate for the circumstances the fire chief, police chief, and emergency management director. If the consultation with the governing body includes a quorum of that body, the consultation shall be exempt from the notice and public meeting requirements of RSA 91-A.

Amend RSA 669:1, VI(b) as inserted by section 2 of the bill by replacing it with the following:

(b) All other statutory provisions associated with a postponed election under this section shall also be extended the same 2 weeks, except that supervisors of the checklist shall not be required to meet again until the postponed town election day. If the election is postponed to a date that follows the date of the business meeting, the end of the term of the moderator established in RSA 40:1 shall be extended through the completion of all election day duties or until the qualification of a successor, whichever is later. Any school district election coordinated with a town under RSA 671:26-a or otherwise held in conjunction with the town election shall also be subject to the provisions of this section.

Amend the bill by replacing all after section 3 with the following:

4 New Section; Town Meetings; Elections; Definitions. Amend RSA 39 by inserting after section 1-c the following new section:

39:1-d Definitions. Notwithstanding any other provision of law, for the purposes of all statutes pertaining to annual and special meetings of towns, school districts, and village districts:

I. "Election" means the choosing of officers by official ballot and in towns, school districts, and village districts that have adopted the official ballot referendum form of meeting as authorized by RSA 40:13, voting on warrant articles by use of official ballot. "Election" shall include any voting where a voter has a right to vote by absentee ballot as established by part I, article 11 of the New Hampshire constitution and RSA 669, RSA 670, and RSA 671. Elections are governed by RSA 669, RSA 670, and RSA 671 and the election provisions of RSA 40:13.

II. "Meeting" means the discussion of business of the towns, school districts, or village districts and voting on warrant articles only by voice, division, or secret "yes-no" ballot vote. Meeting shall include the deliberative session of an annual meeting in towns, school districts, and village

districts that have adopted the official ballot referendum form of meeting as authorized by RSA 40:13. Meetings are governed by RSA 39 and RSA 40.

5 New Section; Town Elections and Meetings; Definitions. Amend RSA 669 by inserting after section 1 the following new section:

669:1-a Definitions. Notwithstanding any other provision of law, for the purposes of all statutes pertaining to town elections:

I. "Election" means the choosing of officers by official ballot and in towns that have adopted the official ballot referendum form of meeting as authorized by RSA 40:13, voting on warrant articles by use of official ballot. "Election" shall include any voting where a voter has a right to vote by absentee ballot as established by part I, article 11 of the New Hampshire constitution and RSA 669. Town elections are governed by RSA 669 and the election provisions of RSA 40:13.

II. "Meeting" means the discussion of business of the town and voting on warrant articles only by voice, division, or secret "yes-no" ballot vote. "Meeting" shall include the deliberative session of an annual meeting in towns that have adopted the official ballot referendum form of meeting as authorized by RSA 40:13. Meetings are governed by RSA 39 and RSA 40.

6 New Sections; Elections and Meetings; Definitions; Emergency Postponement. Amend RSA 670 by inserting after section 1 the following new sections:

670:1-a Definitions. Notwithstanding any other provision of law, for the purposes of all statutes pertaining to village district elections:

I. "Election" means the choosing of officers by official ballot and in village districts that have adopted the official ballot referendum form of meeting as authorized by RSA 40:13, voting on warrant articles by use of official ballot. "Election" shall include any voting where a voter has a right to vote by absentee ballot as established by part I, article 11 of the New Hampshire constitution and RSA 670. Elections are governed by RSA 670 and the election provisions of RSA 40:13.

II. "Meeting" means the discussion of business of the village district and voting on warrant articles only by voice, division, or secret "yes-no" ballot vote. "Meeting" shall include the deliberative session of an annual meeting in village districts that have adopted the official ballot referendum form of meeting as authorized by RSA 40:13. Meetings are governed by RSA 39 and RSA 40.

670:1-b Postponing a Village District Election When There is a State of Emergency. A village district election that is held in conjunction with a town election shall be postponed when the town election is postponed as authorized by RSA 669:1, V. A village district election that is not held in conjunction with town elections, may be postponed in the same manner as provided for a town election in RSA 669:1, V and VI.

7 New Sections; Definitions; Emergency Postponement. Amend RSA 671 by inserting after section 1 the following new sections:

671:1-a Elections and Meetings; Definitions. Notwithstanding any other provision of law, for the purposes of all statutes pertaining to school district elections:

I. "Election" means the choosing of officers by official ballot and in school districts that have adopted the official ballot referendum form of meeting as authorized by RSA 40:13, voting on warrant articles by use of official ballot. "Election" shall include any voting where a voter has a right to vote by absentee ballot as established by part I, article 11 of the New Hampshire constitution and RSA 671. School district elections are governed by RSA 671 and the election provisions of RSA 40:13.

II. "Meeting" means the discussion of business of the school district and voting on warrant articles only by voice, division, or secret "yes-no" ballot vote. "Meeting" shall include the deliberative session of an annual meeting in school districts that have adopted the official ballot referendum form of meeting as authorized by RSA 40:13. Meetings are governed by RSA 39 and RSA 40.

671:1-b Postponing a School District Election When There is a State of Emergency. A school district election that is held in conjunction with a town election shall be postponed when the town election is postponed as authorized by RSA 669:1, V. A school district election that is not held in conjunction with town elections, may be postponed in the same manner as provided for a town election in RSA 669:1, V and VI.

8 Town Meeting; Moderator; Duties. Amend RSA 40:4, II to read as follows:

II. In the event a weather emergency occurs on or before the date of a deliberative session or [~~voting day of a~~] meeting in a town, which the moderator reasonably believes may cause the roads to be hazardous or unsafe, the moderator may, up to 2 hours***, but not more than 24 hours,*** prior to the scheduled session, postpone and reschedule the deliberative session [~~or voting day of the~~] meeting to another reasonable date, place, and time certain. The date originally scheduled shall continue to be deemed the ***date of the*** deliberative session or [~~voting day of the~~] meeting for purposes of satisfying statutory meeting date requirements; provided, that in towns or districts that have adopted RSA 40:13, the postponement shall not delay the deliberative session more than 72 hours. The moderator shall employ whatever means are available to inform citizens of the postponement and the rescheduled deliberative session or [~~voting day~~] ***meeting***.

9 Effective Date. This act shall take effect 60 days after its passage.

SENATOR BIRDSELL: Thank you, Mister President. I move Senate Bill 438 Ought to Pass with Amendment. This bill as amended provides for the postponement of local elections. It is the result of a study committee established to address issues brought on last year when municipalities had to postpone elections due to a snow emergency. At that time there was confusion about the process of postponement, what type of notice has to be given, how to handle absentee ballots and the legitimacy of the votes cast. This legislation creates a uniform process that will provide clarity for the municipalities, should they need to postpone in the future. It gives the moderator clear authority to postpone an election and outlines the procedure to do that. To eliminate confusion, it clarifies the process of postponing and rescheduling for those in multi-town districts as well as those, for those who are not. It also addresses what notice has to be given and to whom. The bill will mitigate confusion for moderators in bringing uniformity between towns across the state. The Election Law and Internal Affairs Committee asks for your support in the motion of Ought to Pass with Amendment on Senate Bill 438. Thank you, Mister President.

(The Chair recognized Senator Fuller Clark.)

SENATOR FULLER CLARK: Thank you very much, Mister President. I rise in opposition to the Committee Amendment and I would ask you to vote down that Committee Amendment so that I may bring forth an amendment that will allow for criteria of local elections to remain at the local level and at the same time will clarify certain concerns that could arise with such postponement and puts in place a uniform process for

all municipalities, but leaves the ultimate decision to the moderator and in consultation with other local officials and departments. And I would like to speak to why I believe the bill as amended before you should not go forward.

There are several key issues related to this legislation. The first one is that there is the language in the amendment that ends up providing separate definitions for elections and for meetings, and yet in reality the way local municipalities function, that their local elections are part of their meetings. So, this is going to cause great confusion going forward, not only with regard to the elections of individuals but also with regard to other items that may be on the ballot that particular day.

Secondly, there is confusion whether or not this amendment actually is simply notification or is it asking permission of the secretary of state, which then leaves the power in the hands of the secretary of state. In the amendment there is clarification on section regarding, let me just refer this to you, section on line 25 and 20 in the original bill, which was clarified where they broke out that it would continue to include two separate types of events; one is weather events and one also are issues around natural disasters and other safety events. But what happens is they left in the statement that's in the original bill on line 37 that says if the secretary of state fails to respond to a request to postpone within four hours of notification, the moderator may postpone the election. Well there's real conflict between request to the secretary of state and notifying the secretary of state which says in the end for those first four hours, the secretary of state is the authority to make the decision of whether or not a local election should be postponed.

In addition, there's a challenge about uniformity. It's possible to preside, which the amendment I'm bringing before you would do, is uniformity in terms of the procedures that would be followed but not uniformity in terms of leaving that decision up to someone at the state level, when we know that local conditions can vary from one community to another and that the best entities to make those decisions are local officials. And in addition to that, there is a history where over two-hundred years local authorities have had control over local elections; they print the ballots, they handle the total of the ballots, they handle letting the community know the results of those ballots. None of those areas involve the secretary of state because these are local elections. If we allow this amendment to go forward it really flies in the face of a tradition in our state that has allowed town meetings, which includes local elections, deliberative sessions to continue as they have always been understood rather than breaking them out and creating enormous chaos and confusion going forward. So, I would ask you to vote down this amendment, let me bring forth another amendment that will address many of the issues that were raised by the committee and the commission and provide answers to those concerns. Thank you.

(The Chair recognized Senator Woodburn.)

SENATOR WOODBURN: Thank you, Mister President. I rise in support of Senate Bill 438 and the compromise that really started a year ago with the big storm that hit us. I have fifty-eight communities in my district. I have a lot of local officials. We elect everything in the North Country. In the town of Jefferson, they elect a Hog Reeve, which is the man whom is marrying a Jefferson woman and they put everybody on the ballot and elect those people and you don't have to be from the town.

And since I am marrying a Jefferson woman, I could be Hog Reeve in the town of Jefferson while I live in Whitefield which is an amazing thing. I love local control and I love local government. As a former supervisor of the checklist, assistant town moderator, Harold Burns who sat in this seat, former Speaker, former Senator from District 1, town moderator school district moderator and I fought the fight to retain local control that towns could do what they want to do. It was one of the most contentious issues. Senate President had the wisdom and I had the unfortunate responsibility of accepting his appointment on this study commission and we did what we're supposed to do. We sat down and we tried to iron out a compromise. The Senator from District 3 knows, everyone hates you when you're done at the end of a compromise. They don't like different pieces of it, but we did good work. We did great work.

This compromise I think meets the needs of our modern community and respects the heritage of our local control in our communities around New Hampshire. It balances local control with state mandate, feudalism with state control. And I want to just address, because I think this is the critical point that brought me to this compromise; we were having discussions as the spectrum between notice and permission. Two different places and if we shorten that notice period it would put the pressure on the secretary of state's office to not be able to control this. I believe we were able to make this decision, much closer to notice and far from permission. This is not asking for permission. It sets that four hour to make it practically impossible unless there is some suspicion that there is an issue. It's a beautiful day and a town decides to cancel their elections and we're like what happened? We can't even ask the question. We can't even ask the question. So, I think we hit the balance and then it went to Senate Elections. Now I ask you, any one of you, let's find some things where we're able to compromise on Senate Elections, it's been a contentious issue, okay? We all have very strong opinions, but 4-0, we did the work for a year. Why do we serve on these committees when we hammer out these compromises and then the last minute we're in these situations where the work that we did didn't quite do enough and I appreciate everyone's opinion and I love, we all want the same thing, but let's support the work of the committee, let's support the work of the people that tried to find a balance and let's try to move this process forward and give that consistency that we think our state needs to be able to move forward respecting local control and our traditions, but also having some degree of uniformity in the state of New Hampshire. Thank you, Mister President.

(The Chair recognized Senator Sanborn for a question of Senator Woodburn.)

SENATOR SANBORN: My good friend, thank you for taking my question although my first thought was I was going to rise to see if I could vote to have you hog tied, but more to the point would be, my understanding is that the attorney general issued a letter that I think many people in the body got relative to the point of declaring that allowing municipalities to actually determine the date of elections would actually be illegal and that right is in the sole responsibility of the secretary of state himself. Have you seen that letter and can you confirm that?

SENATOR WOODBURN: Thank you Senator, I have seen it and I do think it requires us to do something to be able to give that clarification and again I think that the solution that we came through, this hard-earned compromise is the best way to go.

SENATOR SANBORN: Thank you, Senator. Thank you, Mister President.

(The Chair recognized Senator Fuller Clark for a question of Senator Sanborn.)

SENATOR FULLER CLARK: I wonder Senator Sanborn, if you are aware in that letter that we received from the attorney general that he very conveniently left out a section of the statute that he cited. He cited that RSA 40:4 authorized the moderator in the event of a weather emergency under the conditions described in the statute to postpone the business meeting or the judicial former town meeting or deliberative session or the voting day. That language or the voting day is not included in his memo so he doesn't really address, you know, if you were to keep that language it's clear that in the statute, local communities, the moderators in local communities do have that authority and I would like to know why the attorney general left out the end of that phrase?

SENATOR SANBORN: Senator, thank you so much for the question. I must say for the record, the attorney general's a personal friend of mine and I think one of the most highest and fair persons our state as ever seen, so to suggest that he would conveniently leave something out would be something I would respectfully disagree with you with. Now all that being said, I believe clearly this continues to be a challenge as we hear from both sides today. And at the end of the day, there is a question between who has the right to move town meetings and who has the right to make the decision on elections. And it's clear to me in my reading of the letter and the conversations I've had, although so you know I have up until very recently been on your side of this issue, having had conversations, having read the letter, it leads me to believe that the clarification that we need today would dictate that the secretary of state should have full control over this.

SENATOR FULLER CLARK: Thank you very much for your answer.

(The Chair recognized Senator Kahn.)

SENATOR KAHN: Thank you, Mister President. Briefly, I think that the work that has been done in this body over the last year gets us to the place of talking about tipping one way or the other. I think there's a lot of credibility and a lot of good work that's gone into this. It's unusual that I would hear from thirteen of fifteen towns that I represent in District 10. All thirteen have communicated with me either through a moderator, through the chair of the selectman's board or the city manager, or town administrator, their opposition to the current amendment. And in favor of an amendment that I believe Senator Fuller Clark is intending to bring forward. For that reason, I'm going to vote against the current amendment in the hopes that we will bring forth another that is similar but tips that balance just a little bit closer as Senator Woodburn was saying, a little bit closer towards that notification route, and I think that that is in keeping with our fidelity to those who are elected to administer the elections in our towns. Thank you, Mister President.

The question is on the adoption of the Committee Amendment.

A roll call was requested by Senator Fuller Clark, seconded by Senator Sanborn.

The following Senators voted Yes: Woodburn, Giuda, Bradley, Gray, French, Sanborn, Avard, Carson, Feltes, Reagan, Soucy, Birdsell, D'Allesandro, Gannon, Morse.

The following Senators voted No: Watters, Hennessey, Ward, Kahn, Daniels, Lasky, Cavanaugh, Fuller Clark, Innis.

Roll Call, Yeas: 15 - Nays: 9. Adopted.

Senator Fuller Clark offered a Floor Amendment.

Sen. Fuller Clark, Dist 21
February 22, 2018
2018-0822s
06/01

Floor Amendment to SB 438

Amend the bill by replacing all after the enacting clause with the following:

1 Statement of Purpose. The general court recognizes that existing law prescribes the dates for annual town meetings, but also gives town moderators the authority to postpone a meeting in the event of a weather emergency. The general court further recognizes that in most towns, the annual meeting consists of 2 sessions — a voting session for the election of officers and voting on certain other matters by official ballot, and a session often referred to as the deliberative session or business session, at which items to be voted on are debated and amended, and at which final votes may or may not be taken, depending on the form of town meeting the town has adopted. The general court recognizes that the official ballot voting session includes the election of officers and that it is an integral, long-standing part of the town meeting, not a separate event. Because of questions that were raised about the process of postponing town meeting during the severe snowstorm on town meeting day in March 2017, this act is intended to clarify and improve the existing process for postponing either or both sessions of the annual town meeting.

2 Duties of Moderator; Postponement of Town Meeting; Date for Rescheduled Meeting; Absentee Ballots. Amend RSA 40:4 to read as follows:

40:4 Duties.

I. The moderator shall preside in the town meetings, regulate the business thereof, decide questions of order, and make a public declaration of every vote passed, and may prescribe rules of proceeding; but such rules may be altered by the town.

II.***(a)*** In the event a weather emergency occurs on or before the date of [~~a~~] ***the*** deliberative session***, business session,*** or ***official ballot*** voting [~~day~~] ***session*** of a ***town*** meeting [~~in a town~~], which the moderator reasonably believes may cause the roads to be hazardous or unsafe, the moderator may, up to 2 hours***, but not more than 24 hours,*** prior to the scheduled session, postpone and reschedule the [~~deliberative~~] session [~~or voting day of the meeting~~] to [~~another reasonable~~] ***a*** date, place, and time certain***, as provided in subparagraph II(c). To the extent practical, prior to making a decision to postpone, the moderator shall consult with the governing body, the clerk, and as appropriate for the circumstances, the police chief, the fire chief, and the local emergency management director.***

(b) In the event an accident, natural disaster, or other emergency occurs which the moderator reasonably believes may render use of the meeting location unsafe or which destroys the ballots or makes them unusable, the moderator may, at any time prior to the scheduled session, postpone and reschedule the session to a date, place, and time certain, as provided in subparagraph II(c). To the extent practical, prior to making a decision to postpone the moderator shall consult with the

governing body, the clerk, and as appropriate for the circumstances, the police chief, the fire chief, and the local emergency management director.

(c) The rescheduled date for an official ballot voting session shall be the second Tuesday following the date originally scheduled. The moderator shall reschedule the business session or deliberative session of a meeting to a reasonable date, place, and time certain, subject to subparagraph II(d). The moderator shall employ whatever means are available to inform citizens of the postponement and the rescheduled date or dates, as well as information on obtaining absentee ballots for the rescheduled dates. The rescheduling of school district elections in multi-town school districts shall be governed by RSA 671:22-a.

(d) The date originally scheduled shall continue to be deemed the deliberative session***, business session,*** or ***official ballot*** voting [~~day~~] ***session*** of the meeting for purposes of satisfying statutory meeting date requirements; provided, that in towns or districts that have adopted RSA 40:13, the postponement shall not delay the deliberative session more than 72 hours. [~~The moderator shall employ whatever means are available to inform citizens of the postponement and the rescheduled deliberative session or voting day.~~]

III. If the official ballot voting session is rescheduled as provided in paragraph II, any absentee ballots that have been issued based on a voter's absence or inability to appear at the polls on the original election date shall remain valid and shall be accepted if properly executed and received by the clerk no later than 5:00 p.m. on the rescheduled election date, regardless of whether the voter is absent or unable to appear at the polls on the rescheduled election date. In addition, voters who satisfy the requirements for voting by absentee ballot on the rescheduled election date may vote by absentee ballot, and all references to the day of the election in the provisions of RSA 657 and RSA 659 related to absentee ballots shall be deemed to refer to the day of the rescheduled election.

IV. For purposes of this section:

(a) "Business session" means, in a town that has not adopted the provisions of RSA 40:13, the session of a town meeting at which voters discuss, deliberate, and vote on matters other than the election of officers by official ballot and other questions that are placed on the official ballot.

(b) "Deliberative session" means the first session of a meeting in a town that has adopted the provisions of RSA 40:13.

(c) "Official ballot voting session" means the session of a town meeting at which voters vote on the election of officers and other matters by official ballot.

3 City Elections; Postponement for Emergency. Amend RSA 44:11 to read as follows:

44:11 Times.

I. The meeting of the voters of each ward for the election of city and ward officers shall be held on such day as may be fixed by law or by ordinance of the city council but in no event shall it be held in conjunction with a biennial election; and all ward and city officers who are chosen by the people shall hold their respective offices for the term and from the day fixed by law or ordinance, and until others are appointed in their stead. The prohibitions in this section shall not apply to a special election held to fill a vacancy for the office of a city or a ward officer.

II. In the event of a weather or other emergency as described in RSA 40:4, II, the election may be postponed and rescheduled

in the manner provided in that section for the rescheduling of a town meeting official ballot voting session, except that all references to the moderator shall be deemed to refer to the city clerk.

4 Town Elections; Date Subject to Postponement. Amend RSA 669:1, I to read as follows:

I. ***Subject to RSA 40:4,*** all towns shall hold an election annually for the election of town officers on the second Tuesday in March, except those towns which have adopted an alternative date under RSA 40:14 or those towns which have adopted the provisions of RSA 31:94-a and have, by majority vote at a previous town meeting, decided to elect officers on the second Tuesday in May.

5 New Section; School District Elections; Rescheduling. Amend RSA 671 by inserting after section 22 the following new section:

671:22-a Rescheduling Elections. In the case of a school district that comprises one or more preexisting districts and holds its elections in conjunction with the town elections in the component towns as provided in this subdivision, the town moderators in each town shall, in the event of an emergency described in RSA 40:4, II, use their best efforts to agree on rescheduling the town and school district elections. Unless the moderators from all towns in the district agree to reschedule their elections, all town and school district elections shall proceed on the date originally scheduled.

6 Effective Date. This act shall take effect January 1, 2019.

2018-0822s

AMENDED ANALYSIS

This bill provides for the postponement of local elections.

SENATOR FULLER CLARK: As you will see, this amendment includes a statement of purpose that makes it clear that the authority rests with moderators to postpone a meeting in the event of weather emergency other event. It recognizes that the annual meeting consists of two sessions; a voting session for the election of officers and voting on certain other matters of the official ballot and a session often referred to as the deliberative session or business meeting, depending on the form of the town meeting the town has adopted.

If you move to under the duties and if you look at line 21 in the amendment it clarifies that in the event of a weather emergency on or before the date the deliberative session, business session or official ballot voting session which is replacing the voting day of a town meeting which the moderator reasonably has made the roads to be hazardous or unsafe says that he may up to two hours but not more than twenty-four hours prior to the scheduled session, postpone or reschedule the session to another date, place and time certain as provided in the following paragraph 2C. This language is language that is also existing in the amendment that you've just passed, as well as the following phrase, to the extent practical and prior to making a decision to postpone the moderator shall consult with a governing body, the clerk and as appropriate for circumstances the police chief, the fire chief and the local emergency management director. It also goes on to set apart the same is true for the event of an accident, natural disaster or other emergency, over which the moderator reasonably believes may render use of the meeting location unsafe or that destroys the ballot or makes them unusable. On page 2 this language continues and it makes it clear again that the moderator shall seek, shall consult with a government body the clerk and as appropriate circumstances the police chief, the fire chief and the emergency management director.

Going further it specifies that this meeting shall take place two weeks to the same Tuesday following the day originally scheduled. This is part of creating the uniformity of how that postponement will be handled by each community. Secondly it goes on to say that if the official ballot session is rescheduled, any absentee ballots that have been issued based on a voter's absence or inability to appear at the polls on the original election date shall remain valid. That was one of the questions that was posed; what would happen to those absentee ballots that had been cast for the original election day?

It further goes on to clarify what a business session is, what a deliberative session is and what an official ballot voting session is, that it is a session of a town meeting. It is not separate from the town meeting which is one of the statutory confusions in the amendment that you've just passed. Finally, you will see that it answers another question on line 9 on page 3 that has to do with how this should be handled with regard to cities and in addition to that, above that on line 3 it makes it clear that if you have problems with– but that it also makes it clear, it's down here further, under the school districts in section 18 that if you have school district elections that you have to have all of those communities agree on rescheduling the town and school district elections unless the moderators from all the towns in the district agree to reschedule their elections all towns and school district elections shall proceed on the date originally scheduled. That answered another major concern; what was going to happen between school elections and local municipal elections.

So I believe that this is the appropriate way to go forward that it is important that we do have a uniform system in place but that we shouldn't be taking away local control over local elections and one of the issues that's been talked about with regard to this issue of having uniformity is that you may have just as we had last night, a variety of weather conditions in different parts of the state. Why would you want to have all those communities being treated the same way or if they're not being treated the same way, why would the secretary of state be expected to respond to those many communities within a four hour period? And we heard from Senator Woodburn that while you know that was just a gesture, he didn't think they possibly could respond in four hours so that ultimately the authority would divest to the moderators. Let's leave it with the moderators, let's not have this confusion between notification and then having the secretary of state having to respond to a request it makes no sense from a procedural point of view and it makes no sense from the history of how we have handled local elections up to this point. It does resolve some of the questions if in a very rare instance we would have a repetition of what happened last year on March 14th, or some other concerns such as a safety issue where you might have to lock down a school where elections are taking place and you're going to need to do that immediately, you're not going to be able to wait to notify the secretary of state and then wait four hours for him to respond to your request before he fails to respond to your request, you now have the authority. Let's leave that authority where it belongs, it's clearly defined in state statute, regardless of what we heard from the attorney general's office and it is the appropriate and proper way to move forward. So, I urge you to vote for this amendment. Thank you.

(The Chair recognized Senator Birdsell.)

SENATOR BIRDSELL: Thank you, Mister President. I ask the body to vote down this amendment. While it has a lot in common with the com-

mittee amendment, I believe and there are some things that are left out. One the rescheduling of an election as a result of a state of emergency, the committee amendment addresses that. This current amendment doesn't address it in full. Informing voters on how to obtain absentee ballots for rescheduled elections, the committee amendment addresses that. This current amendment does not address that.

Rescheduling of multi-town school districts, we go into detail on our committee amendment on how to do that, this allows a moderator, moderators are required to be unanimous in order to reschedule the elections, so if you have a town that has decided to reschedule and it's a multi-town school district and they don't agree, now you've got discrepancy in what school districts are going to be rescheduling their elections.

The committee amendment also addresses rescheduling of village districts. All of these municipal associations have asked us in sub-committee to put these in, and that's why we made sure that we addressed these. Rescheduling due to emergency that renders polling locations unstable, unusable or unsafe prior to election, we do address that in our committee amendment. One of the things in our amendment was brought up, the public meetings, there was concern that when the moderators were working with the public officials that it would be considered a public meeting and required a 91-A, we addressed that in our amendment. This does not. So, I ask you this amendment we have here is deficient, and I ask you to vote this down and continue with the bill. Thank you.

(The Chair recognized Senator Kahn for a question of Senator Fuller Clark.)

SENATOR KAHN: Relative to the rescheduling of a school district's meeting or election as you described the three different forms in which balloting might take place, is it as clear as what I read on page 3 in line 24 that all the school districts need to agree on a rescheduling, otherwise they need to proceed with the previously scheduled date?

SENATOR FULLER CLARK: The language is unless the moderators from all towns in the district agree to reschedule their elections all town and school district elections shall proceed on the day originally scheduled. So, you're not going to see that one community is still going to continue by postponing its election and another is not if it also involves the school districts. There has to be agreement across the board either to not postpone or to postpone.

SENATOR KAHN: Thank you. Thank you, Mister President.

The question is on the adoption of the Floor Amendment.

A roll call was requested by Senator Fuller Clark, seconded by Senator Birdsell.

The following Senators voted Yes: Watters, Hennessey, Kahn, Daniels, Lasky, Feltes, Cavanaugh, Fuller Clark.

The following Senators voted No: Woodburn, Giuda, Bradley, Gray, French, Ward, Sanborn, Avard, Carson, Reagan, Soucy, Birdsell, D'Allesandro, Gannon, Innis, Morse.

Roll Call, Yeas: 8 - Nays: 16. Failed.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to Third Reading.

SB 527-FN-L, relative to absentee voting.
Ought to Pass with Amendment, Vote 2-0. Senator Birdsell for the committee.

Election Law and Internal Affairs

Amendment to SB 527-FN-LOCAL

Amend the bill by replacing all after the enacting clause with the following:

1 Absentee Voting Application Form. Amend RSA 657:4, I to read as follows:

I. Prior to any state election, the secretary of state shall prepare the appropriate application forms for absentee ballots worded in substantially the following form. The secretary of state shall insert the names of all parties qualified as set forth in RSA 652:11 in the list of parties on the application form. The secretary of state shall prepare the application forms in such quantity as he or she deems necessary:

Absence (Excluding Absence Due to Residence Outside the United States), Religious Observance, and Disability:

I hereby declare that (check one):

_____ I am a duly qualified voter who is currently registered to vote in this town/ward.

_____ I am absent from the town/city where I am domiciled and will be until after the next election, or I am unable to register in person due to a disability, and request that the forms necessary for absentee voter registration be sent to me with the absentee ballot.

I will be entitled to vote by absentee ballot because (check one):

_____ I plan to be absent on the day of the election from the city, town, or unincorporated place where I am domiciled.

_____ I am requesting a ballot for the presidential primary election and I may be absent on the day of the election from the city, town, or unincorporated place where I am domiciled, but the date of the election has not been announced. I understand that I may only make such a request 14 days after the filing period for candidates has closed, and that if I will not be absent on the date of the election I am not eligible to vote by absentee ballot.

_____ I cannot appear in public on election day because of observance of a religious commitment.

_____ I am unable to vote in person due to a disability.

_____ I cannot appear at any time during polling hours at my polling place because of an employment obligation. For the purposes of this application, the term "employment shall include the care of children and infirm adults, with or without compensation.

Any person who votes or attempts to vote using an absentee ballot who is not entitled to vote by absentee ballot shall be guilty of a misdemeanor. RSA 657:24.

I am requesting an official absentee ballot for the following election (check one):

_____ Presidential Primary to be held on _____
(MM/DD/YYYY)

(The date may appear as blank when the date is not known.)

_____ State Primary to be held on _____
(MM/DD/YYYY)

_____ General Election

For primary elections, I am a member of or I am now declaring my affiliation with the (check one):

_____ Republican Party

_____ Democratic Party

and am requesting a ballot for that party's primary.

Please print:

Applicant's Name:

_____

(Last) (First) (Middle) (Sr., Jr., II., III)

Applicant's Voting Domicile (home address):

_____

(Street Number) (Street Name) (Apt/Unit) (City/Town) (Ward) (Zip Code)

Mail the ballot to me at this address (if different than the home address):

_____

(Street Number) (Street Name) (Apt/Unit) (City/Town) (Ward) (Zip Code)

Applicant's Phone Number [~~(optional)~~]: _____

Applicant's Email Address [~~(optional)~~]: _____

Applicant's Signature: _____

Date Signed: _____

(MM/DD/YYYY)

I attest that I assisted the applicant in executing this form because he or she has a disability.

Signature _____

Print Name _____

If your absentee ballot affidavit envelope does not have the printed name and signature of a person who assisted you with voting, your signature will be compared to your signature on the absentee ballot affidavit to verify your identity. If your signatures do not appear to be made by the same person, your absentee ballot may not be counted.

The applicant must sign this form to receive an absentee ballot. ***[***~~The signature on this form must match the signature on the affidavit envelope in which the absentee ballot is returned, or the ballot may be rejected.~~] Any person who ***witnesses and*** assists a voter with a disability in executing this form shall [~~make a statement acknowledging the assistance on~~] ***print and sign his or her name in the space provided on*** the application form [~~to assist the moderator when comparing signatures on election day~~]. ***The clerk and moderator will not compare the voter's signature on the application with the signature on the absentee ballot affidavit when a person assisting the voter has signed the statement that assistance was provided.***

2 New Section; Verification of In-Person Absentee Voter. Amend RSA 657 by inserting after section 17 the following new section:

657:17-a Verification of In-Person Absentee Voter.

I. An absentee voter who returns his or her completed absentee ballot to the clerk's office in person shall be treated as a verified voter provided:

(a) The voter voluntarily shows the clerk a photo identification that meets the requirements of RSA 659:13; or

(b) The voter voluntarily completes a challenged voter affidavit in the same manner as is required for an election day voter who does not present a qualified voter identification.

II. The clerk shall mark the absentee ballot affidavit enveloped "voter verified" and note on the clerk's list of absentee voters that the voter has been verified. The verified voter's signatures on the application for an absentee ballot shall not be compared to the voter's signature on the absentee ballot affidavit on election day.

III. A voter who does not present a qualified photo identification and who does not complete a challenged voter affidavit shall not be treated as a verified voter, and his or her signatures on the application for an absentee ballot shall be compared to his or her signature on the absentee ballot affidavit on election day in the same manner as other absentee voters.

3 Announcement by Moderator. Amend RSA 659:50 to read as follows:

659:50 Announcement by Moderator.

I. The moderator shall begin processing absentee ballots by clearly announcing that he or she is about to open the envelopes which were delivered to him or her. The moderator shall then remove the envelope containing the ballots of each absentee voter and***, for those absentee ballots where the absentee voter has not been verified by the clerk as provided in RSA 657:17-a,*** shall compare the signature on the affidavit with the signature on the application for the ballot. If:

[~~I.~~] ***(a)*** The name of the voter is on the checklist; and

[~~II.~~] ***(b)*** The affidavit appears to be properly executed; and

[~~III.~~] ***(c)*** [~~The signature~~] ***If the affidavit shows that the voter received assistance, the absentee voter shall be processed as verified. Otherwise, the signatures*** on the affidavit ***shall be examined to determine if it*** appears to be executed by the same person who signed the application[~~, unless the voter received assistance because the voter is blind or has a disability; and~~]**.**

[~~IV~~] ***II. For the absentee ballots processed in accordance with paragraph I and those where the clerk has previously verified the absentee voter in accordance with RSA 657:17-a, if*** the signatures appear to be the signatures of a duly qualified voter who has not voted at the election; then the moderator shall publicly announce the name of the absentee voter, except that with respect to any voter who has been included in the address confidentiality program under RSA 7:43 or who has been granted a protective order under RSA 173-B, the moderator shall identify such voters as "confidential voter number 1" and "confidential voter number 2," and so forth. If these conditions are not met, the moderator shall follow the procedure provided in RSA 659:53.

4 Effective Date. This act shall take effect 60 days after its passage.

2018-0717s

AMENDED ANALYSIS

This bill establishes additional procedures for verification of absentee voters.

SENATOR BIRDSELL: Thank you, Mister President. I move Senate Bill 527-FN Ought to Pass with Amendment. This bill as amended establishes procedures for verification of absentee voter documents before Election Day. The new procedures will allow the town clerk to accept and verify an absentee ballot when assistance is given to the disabled voter. Also, the clerk may verify the absentee ballot of a voter who shows photo ID when handing in the ballot or when the voter completes a challenged voter affidavit. The committee felt that creating a way to verify a portion of the absentee ballots before an election would help moderators and election officials process votes more efficiently and ensure a greater number of absentee ballots will be counted. I ask that you please support the committee's recommendation of Ought to Pass with Amendment. Thank you, Mister President.

The question is on the adoption of the Committee Amendment. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to Third Reading.

ENERGY AND NATURAL RESOURCES
SB 443, relative to the jurisdiction of counties concerning retail electric supply.
Ought to Pass, Vote 4-0. Senator Feltes for the committee.

SENATOR FELTES: Thank you, Mister President. I move Senate Bill 443 Ought to Pass. This bill permits certain county governments to access certified competitive retail electric supply markets. Currently county governments that are located within the service territory of the municipal electric utility are not allowed to access competitive electric suppliers. Senate Bill 443 will permit these county governments who access third party energy suppliers. In doing so it may help reduce taxpayer costs on electricity as well improve market competition for retail rates. The Senate Energy and Natural Resources Committee asks for your support of the motion of Ought to Pass on Senate Bill 443. Thank you.

The question is on the adoption of the motion of Ought to Pass. Adopted, bill ordered to Third Reading.

SB 451, relative to wildlife trafficking.
Ought to Pass with Amendment, Vote 4-0. Senator Feltes for the committee.

Energy and Natural Resources
February 20, 2018

04/10

Amendment to SB 451

Amend RSA 212-C:1, I as inserted by section 1 of the bill by replacing it with the following:

I. "Covered animal species" means any species of:
(a) Elephant (superfamily Elephantidae).
(b) Rhinoceros (family Rhinocerotidae).
(c) Tiger (species Panthera tigris).
(d) Lion (species Panthera leo).
(e) Leopard (species Panthera pardus).
(f) Cheetah (species Acinonyx jubatus).
(g) Jaguar (species Panthera onca).
(h) Pangolin (family Manidae).
(i) Endangered shark, as listed by the Convention on International Trade in Endangered Species of Wild Fauna and Flora.
(j) Endangered ray, as listed by the Convention on International Trade in Endangered Species of Wild Fauna and Flora.
(k) Endangered sea turtle, as listed by the Convention on International Trade in Endangered Species of Wild Fauna and Flora.
(l) Endangered whale, as listed by the Convention on International Trade in Endangered Species of Wild Fauna and Flora.

Amend RSA 212-C:2, II(b) as inserted by section 1 of the bill by replacing it with the following:

(b) When the activity, and any sport-hunted item that is legally obtained in accordance with federal law, are authorized by federal law.
Amend RSA 212-C:2, III as inserted by section 1 of the bill by replacing it with the following:

III. There is a presumption of possession with intent to sell a covered animal species part or product when the part or product is possessed by a retail or wholesale establishment or other forum engaged in the business of buying or selling of similar items, and a finding of intent to sell is supported by any other evidence which independently establishes such intent.

Amend RSA 212-C:2, IV-VI as inserted by section 1 of the bill by replacing them with the following:

IV. A person who violates this section shall be guilty of a violation and may be fined not more than $1,000, or an amount equal to 2 times the total value of the covered animal species part or product that is the subject of the violation, whichever is greater. The circuit court and the superior court shall have concurrent jurisdiction to hear matters brought under this chapter. If the appraised value of the covered animal species part or product exceeds $25,000 or if the prosecuting entity seeks relief unavailable in the circuit court, the matter shall be transferred to the superior court for adjudication.

V. Any covered animal species part or product that has been seized by a law enforcement officer pursuant to this chapter shall be appraised to determine its value. During the pendency of any criminal matter, the court shall provide an opportunity for a hearing to determine who shall maintain custody of the items, how the items shall be preserved, liability for any costs incurred to preserve the items, and such other matters as may be required to protect the property until a final dispositional order has been entered.

VI. If the owner of the covered animal species part or product is found not guilty, the property shall be returned to the owner. If the owner is found guilty, the covered items shall be forfeited to the fish and game department. Any fines assessed by the court shall be used first to reimburse the entity ordered to preserve the property prior to adjudication, and thereafter, to the fish and game department to reimburse for any costs incurred in final disposition of the items, and finally to the entity which successfully prosecuted the matter.

VII. The executive director of the fish and game department may adopt rules pursuant to RSA 541-A relative to:

(a) The purchase, sale, offer for sale, or possession with intent to sell, of parts or products of any animal species that so closely resemble in appearance parts or products of a covered animal species that law enforcement personnel would have substantial difficulty in attempting to differentiate between the species.

(b) The method and manner to be used in appraising the value of any covered animal species part or product seized by law enforcement or abandoned into the care or custody of the department.

(c) A prohibition against commercial sale of any covered animal species part or product in its custody or ownership.

(d) The method and manner used to determine ownership of any covered animal species part or product abandoned to its care or custody other than by order of a court of competent jurisdiction.

(e) The noncommercial disposition of covered animal species parts or products to:

(1) A legal beneficiary of an estate, trust, or other inheritance;

(2) A bona fide scientific or educational institution for scientific or educational purposes; or

(3) Any enrolled member of a federally-recognized Indian tribe.

(f) The destruction of covered animal species parts or products not otherwise disposed of in accordance with this chapter.

SENATOR FELTES: Thank you, Mister President. I move Senate Bill 451 Ought to Pass with Amendment. This bill establishes a prohibition of wildlife trafficking. This bill as amended bans the importation of items from endangered species and regulates the intrastate sale of these items. The bill expands a list of covered animals that are protected, the legislation outlines exceptions to the prohibition such as non-commercial transfers like family heirlooms, possession of a firearm or a knife that contains an animal part of donations of an item to a scientific or educational institute. Senate Bill 451 will emulate what other states around the country have started to do; ban the intrastate sale of items connected to wildlife trafficking. The Senate Energy and Natural Resources Committee asks for your support of the motion of Ought to Pass with Amendment on Senate Bill 451. Thank you.

(The Chair recognized Senator Gannon for a question of Senator Feltes.)

SENATOR GANNON: Just a small question, I don't mean to waste the body's time at all. I go to Florida a lot. I saw sharks were on the thing. They often have sharks in little bottles, they sell tails, they sell tons of shark things in Florida. Are we going to be, is there going to be an intrastate commerce clause problem, we're going to prohibit this in every tourist town in Florida?

SENATOR FELTES: Well, thank you very much for the question, Senator Gannon. The answer is no problem.

SENATOR GANNON: That's all? Thank you, then. Thank you.

(The Chair recognized Senator Giuda for a question of Senator Feltes.)

SENATOR GIUDA: Thank you, Mister President. Thank you, Senator, for taking my question. Very quickly; old pianos have keys that are ivory keys. Would this bill impact that and the interstate sale of those?

SENATOR FELTES: Thank you very much for that question Senator Giuda. In response to your question as in response to Senator Gannon's question, no problem.

SENATOR GIUDA: Thank you.

The question is on the adoption of the Committee Amendment. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to Third Reading.

SB 569-FN, relative to animal cruelty.
Ought to Pass with Amendment, Vote 4-0. Senator Bradley for the committee.

Energy and Natural Resources
February 20, 2018
2018-0720s
08/04

Amendment to SB 569-FN

Amend the title of the bill by replacing it with the following:

AN ACT relative to animal cruelty and establishing a commission to study certain language applicable to the transfer of animals.

Amend RSA 437:1 as inserted by section 2 of the bill by replacing it with the following:

437:1 Definitions. In this subdivision:

I. "Animal rescue facility" means any non-profit organization which is tax exempt under Section 501(c)(3) of the United States Internal Revenue

Code or is licensed or registered as an animal rescue facility or similar entity with a state regulatory agency, and whose mission and practice is, in whole or in significant part, the rescue of homeless or abandoned animals and the placement of those animals in permanent homes. "Animal rescue facility" shall not include any person which is, or is housed on the premises of, a breeder or broker, obtains dogs, cats, or ferrets from a breeder or broker in exchange for payment or compensation, or resells dogs, cats, or ferrets obtained from a breeder or broker and provides payment or compensation to such breeder or broker.

II. "Animal shelter facility" means a facility, including the building and the immediate surrounding area, which is used to house or contain animals and which is owned, operated, and maintained by a duly incorporated humane society, animal welfare society, society for the prevention of cruelty to animals, or other nonprofit organization devoted to the welfare, protection, and humane treatment of animals, and also a public pound for the housing of strays or a pound operated by any person, excluding veterinarians, who contracts with a municipality to serve that function.

III. "Breeding female" means an unspayed female dog, 12 months of age or older kept or maintained for the purpose of breeding and selling the dog's offspring.

IV. "Broker" means a person acting as an agent or intermediary in negotiating or transferring dogs, cats, or ferrets when transfer to the final owner occurs in New Hampshire.

V. "Commercial kennel" means a person that keeps, maintains, or owns 7 or more breeding female dogs or transfers 10 or more litters or 50 or more puppies in any 12-month period. "Commercial kennel" includes a person that keeps, maintains, or owns dogs on the same property as another person who also keeps, maintains, or owns dogs and the total number of breeding female dogs on the property is 7 or more. The term "commercial" shall not be taken into consideration for any zoning purposes.

VI. "Commissioner" means the commissioner of the department of agriculture, markets, and food.

VII. "Person" means any person, firm, business, corporation, or other entity.

VIII. "Pet store" means any person licensed to keep, maintain, and transfer certain live animals, birds, and fish at retail to the public.

IX. "Pet vendor" means any person engaged in the business of transferring live animals or birds customarily used as household pets to the public, with or without a fee or donation required, and whether or not a physical facility is owned by the licensee in New Hampshire, when transfer to the final owner occurs within New Hampshire. Pet vendor includes animal rescue facilities, animal shelter facilities, brokers, commercial kennels, and pet stores.

X. "Transfer" means transfer of ownership of live animals or birds from any person to a member of the public.

Amend the introductory paragraph of RSA 437:3 as inserted by section 3 of the bill by replacing it with the following:

437:3 Requirements. No pet vendor shall transfer animals or birds without a license. A pet vendor shall apply to the commissioner for a license giving such information as the commissioner shall require. The application shall include proof that the zoning enforcement official of the municipality wherein any facility is to be maintained has certified that the facility conforms to the municipal zoning regulations. The application shall be accompanied by a non-refundable $200 fee. ***A license shall be***

issued if, after inspection, the department or a person appointed by the department finds that all premises, buildings, and other enclosures comply with the requirements of paragraph I. If the premises, buildings, and other enclosures do not comply, the applicant may reapply within 30 days of the initial inspection. If, after a second application and inspection, the premises, buildings, and other enclosures still do not comply with the requirements of paragraph I, no license shall be issued. All licenses shall expire on June 30 of each year and be subject to renewal upon submission of a new application. No licenses shall be transferable. ***The department may suspend or revoke a license at any time, if in the judgment of the department the conditions under which the license was issued are not being maintained. Upon receipt of a written complaint from a person or agency alleging violation of this subdivision, the department shall investigate said complaint within a reasonable time.*** A pet vendor licensed under this subdivision shall:

Amend RSA 437:4, I(d) and (e) as inserted by section 4 of the bill by replacing them with the following:

[~~IV.~~] ***(d)*** The licensee ceased to operate the business for which the license was issued; or

[~~V.~~] ***(e)*** The applicant or licensee held any similar license issued in another jurisdiction ***or by the United States Department of Agriculture*** which was revoked or suspended by that jurisdiction as a result of engaging in conduct prohibited by RSA 437 during the preceding 5 years.

Amend RSA 644:8, IV-b(d) as inserted by section 10 of the bill by replacing it with the following:

(d) If the court determines by a preponderance of the evidence that the animal or animals has been or is being abused or neglected in violation of paragraph III or III-a or when there is a clear and imminent danger to the animal's health or life and there is not sufficient time to obtain a court order, then the court shall set a renewable bond or other security in an amount sufficient to cover the reasonable costs of providing the confiscated animal with humane care and adequate and necessary veterinary services for a period of 30 days. When determining the reasonable costs of providing humane care, the court shall consider the income of the animal's owner.

Amend RSA 644:8, IV-b(e)(1) as inserted by section 10 of the bill by replacing it with the following:

(e)(1) If the court orders a bond or other security to be posted, then the amount of funds necessary for 30 days of the animal's care, as determined by the court, shall be posted with the municipal or county treasurer. The owner shall be ordered to deposit the same amount every 30 days thereafter until the final disposition of the criminal matter, unless he or she requests a hearing no less than 5 business days prior to the expiration of a 30-day period. If the required funds are not deposited within 5 business days of the issuance of the order setting the amount of funds, or 5 business days after the expiration of a 30-day period, then the animal is forfeited to the petitioner by operation of law. If the owner is unable to pay the bond, the court shall not fine the owner for nonpayment.

Amend the bill by replacing section 11 with the following:

11 Appropriation. In addition to any sums appropriated in the state operating budget, the sum of $200,000 for the fiscal year ending June

30, 2019 is hereby appropriated to the commissioner of the department of agriculture, markets, and food, to support the increase in oversight and inspections of pet vendors. The governor is authorized to draw a warrant for said sum out of any money in the treasury not otherwise appropriated.

Amend the bill by replacing all after section 11 with the following:

12 Group Licenses. Amend RSA 466:6, I to read as follows:

I. The owner or keeper of [~~5~~] **7** or more dogs shall annually by April 30 pay the required fee and obtain a license authorizing the owner or keeper to keep the dogs upon the premises described in the license, or off the premises while under such owner's or keeper's control. Such owner or keeper shall not be required to obtain a "commercial kennel" license under RSA 466:4, III unless such person has a commercial kennel as defined under RSA 466:4, III.

13 New Paragraph; Group Licenses. Amend RSA 466:6 by inserting after paragraph V the following new paragraph:

VI. On June 1st of each year, the municipality shall, to the extent practicable, notify the department of agriculture, markets, and food of the number of group licenses issued in the previous year.

14 New Subdivision; Animal Transfer Study Commission. Amend RSA 437 by inserting after section 22 the following new subdivision:

Animal Transfer Study Commission

437:23 Animal Transfer Study Commission.

I. There is established a commission to study RSA 437:1 as it pertains to the definition of "in the business of transferring live animals or birds customarily used as household pets to the public."

II. The members of the commission shall be as follows:

(a) One member of the senate, appointed by the president of the senate.

(b) One member of the house of representatives who is a member of the environment and agriculture committee, appointed by the speaker of the house of representatives.

(c) The commissioner of the department of agriculture, markets, and food, or designee.

(d) One member representing dog owner and breeder interests, appointed by the governor.

(e) One member representing a humane organization, appointed by the governor.

(f) One member representing an animal rescue organization subject to RSA 437:1, appointed by the governor.

(g) One member representing pet stores, appointed by the governor.

(h) The attorney general, or designee.

(i) One member from the New Hampshire Veterinary Medical Association, appointed by that organization.

III. Legislative members of the commission shall receive mileage at the legislative rate when attending to the duties of the commission.

IV. The commission shall study and make clarifying recommendations for the phrase "in the business of transferring animals" as it applies to licensed pet vendors under RSA 437:1.

V. The members of the study commission shall elect a chairperson from among the members. The first meeting of the commission shall be called by the senate member. The first meeting of the commission shall be held within 45 days of the effective date of this section. Four members of the commission shall constitute a quorum.

VI. The commission shall report its findings and any recommendations for proposed legislation to the chairperson of the senate energy and natural resources committee, the chairperson of the house environment and agriculture committee, the senate clerk, the house clerk, and the state library on or before November 1, 2018.

15 Repeal. RSA 437:23, relative to the animal transfer study commission, is repealed.

16 Effective Date.

I. Sections 1-13 of this act shall take effect January 1, 2019.

II. Section 15 of this act shall take effect November 1, 2018.

III. The remainder of this act shall take effect upon its passage.

2018-0720s

AMENDED ANALYSIS

This bill:

I. Defines "breeding female" for dogs.

II. Requires inspection of premises before issuance of a license to transfer animals or birds.

III. Allows the suspension or revocation of a license to transfer animals or birds if conditions under which the license was issued are not maintained.

IV. Allows for a person caring for an animal confiscated during an animal cruelty trial to petition the town for a bond to cover the cost of animal care.

V. Makes an appropriation to the department of agriculture, markets, and food to increase oversight of pet vendors.

VI. Establishes a commission to study certain language applicable to the transfer of animals.

SENATOR BRADLEY: Thank you, Mister President. I move Senate Bill 569 Ought to Pass with Amendment. This bill defines a breeding female dog, it requires inspections of premises before issue of a license to transfer animals or birds and allows the suspension or revocation of a license to transfer animals or birds of conditions under which the license was issued was not maintained. The bill also allows for a person caring for an animal confiscated during an animal cruelty trial to petition the town for a bond to cover the cost of animal care. The bill also makes an appropriation to the Department of Agriculture to increase oversight of pet vendors and establishes a commission to study certain language applicable to the transfer of animals.

Now let me just say this; I think probably everybody has read some of the stories about the incident that happened in my town. And when that occurred, I spoke with our Wolfeboro Police Chief and others and offered to try to bring in legislation that would bring people together on ways to minimize animal cruelty and unfortunately, it's not just what happened in my town, it's what's happened in a number of your towns too. Very problematic. And I have to admit, I didn't realize or know all that much about animal husbandry issues, agricultural issues associated with animals. I know a little bit about hiking above tree line with dogs, but beyond that maybe not too much about the breeding of dogs. So, the first thing I did in the Senate Conference Room was get a large group of people to talk through the issues. There were veterinarians, there were representatives from the Governor's Commission on Animal

Cruelty, there were dog breeders, there were people from the Municipal Association, law enforcement was there, the Department of Agriculture participated, folks from the Farm Bureau and others I'm sure that I've forgotten. We went through the points, oh and the Humane Society and Animal Rescue shelters, how could I possibly forget. We went through the various points of the draft amendment, paragraph by paragraph, sentence by sentence trying to find common ground and compromise, which I think most of you know is what I try to do. And then we had the hearing, and there were an awful lot of people there, people that supported the bill, flat out, people that supported it in concept but didn't like all the details and there were some people the just could not support the bill.

And so, there was a long hearing, thank you, Senator for conducting a good hearing. We listened carefully in the committee and we came up with I think further compromises that make this a good bill that preserves the rights of hobby breeders that breed a certain species of dog. We came up with rights that, or compromises, excuse me, that protect the accused if there is an animal cruelty case. We exempted all agricultural husbandry practices from this. The compromise for the dog breeders, we went from five breeding females to seven and we defined a breeding female as a female that breeds but it has to be at least twelve months old. We put reasonability language in the cost of care provisions, an income determinant for a judge to look at and we said inspections should be every two years. These were some of the compromises that went into this bill. What we're left with is something that should not be a problem for responsible dog breeders but gives the state and local officials better opportunity to prevent the animal cruelty cases that we're seeing happen with way too much frequency in our state.

One of the things I've learned is that because our regulations are different and quite frankly more lax than our neighboring states around us, people are actually coming to New Hampshire. And that certainly from what I've been told, the situation in my town. And the police chief in Wolfeboro's told me that the current law would not have allowed any inspections to try to head off problems. And I understand, and I think we all understand, that we want to protect the rights of law abiding and responsible citizens. We have those debates all the time, and yet at the same time we do have problems. And the problem that happened in my town or the problem that happened in Bristol or Alexandria or Berlin or Croydon, they're pretty significant. This bill allows us to do it and protect animals from cruelty, from abuse, protect the rights of people that have had their animals confiscated in a pending situation before trial. If they pay for cost of care, they can maintain control of their animals with due process. This is a reasonable compromise that I would hope that everybody can live with and I would ask for your vote for the committee amendment and then Ought to Pass on the bill. Thank you.

(The Chair recognized Senator Avard for a question of Senator Bradley.)

SENATOR AVARD: Thank you Senator, for taking my question, there might be a couple. First of all, in our testimony that we heard is it true that one person moved from one state to basically your area because our state was actually lax?

SENATOR BRADLEY: That is what I have been told, in the situation in my town by the police chief and local authorities.

SENATOR AVARD: Would this affect anybody who is breeding six female dogs?

SENATOR BRADLEY: No, it wouldn't affect anybody breeding seven or less dogs and the definition of a breeding female, that dog has to be at least twelve months of age so that's a new provision. And kept or maintained for the purpose of breeding and selling the dogs offspring. That's an important consideration here because I'd probably never do it, but some people like to have a lot of pets. And so, you could have more as I understand this language and I think we worked on it long and hard. More than seven females that are un-spayed but you're not breeding them. So, you're not a commercial kennel therefore you're not subject to the inspections.

SENATOR AVARD: Thank you for taking my question. With regards to the police officers that came to testify. This bill basically protects especially some of the small towns and small police departments that actually have to go in, such as in Croydon, where the police officer actually testified, he cried after, after he saw the abuses. But not only was it emotionally draining it drains their budgets as well.

SENATOR BRADLEY: So, we certainly heard that testimony from the police chief in the town of Croydon and I can assure you that the cost of care situation for taxpayers in my town would have decimated the budget of the police department in the town of Wolfeboro. Now look, there is some controversy about how much the cost of care should be. That's why we put the word reasonable in this amendment to make sure that a judge has control over what the reasonable cost of care should be as well as at the suggestion of our friend from Concord, language that says, you know you have to take into consideration the income level of somebody. In my town situation the police department would have been decimated and to get back to the question that you raised the police chief in my town, Chief Rondeau, who I've known for a long, long time, testified recently in the trial and when asked said that the situation he faced when he went into that home was worse than anything he had seen in Iraq. And that's pretty telling, and so I think for all of us we need to recognize what's happening, not by responsible dog breeders but by irresponsible. And unfortunately, I don't think we can sweep this under the rug or ignore it. And I thank you for your support and for the support of others on the committee because I think this is something we do need to fix.

SENATOR AVARD: Because it's a concern and this went on for a couple of days, and we wanted to cover a number of bases but with regards to funds and due process and the concerns that people have with regards to that more or less the due process, people just walking in and accusing you, could you talk a little bit more about the due process and the protections of the individual civil rights?

SENATOR BRADLEY: Well, first of all we exempted all livestock, slaughter, that kind of thing. That's not where the problem is. The farmers in our state to the best of my knowledge, really run great operations, and why in another bill that we'll be debating on the floor next week there were so many of them that turned out talking about inspections of a different nature. They should be exempted. We exempted them. And so, we built protections in with the standard of preponderance of the evidence to protect those I think better that are accused of animal cruelty and give them an opportunity if they post a bond to maintain ownership of their animals during the trial. Animals are seen as evidence. That's you know, the fact of the matter in a trial and unlike a computer or confiscated contraband or something like that that can just be stored on a shelf, animals can't be stored on a shelf and it's very expensive. In the situation that is near and dear to me in my town, the costs so far are

over a million dollars. And even if you think those costs are excessive, discount it by two thirds. You still have over $300,000. For most of our towns I think all of you would understand how devastating that would be to a budget.

SENATOR AVARD: Thank you.

(The Chair recognized Senator Hennessey for a question of Senator Bradley.)

SENATOR HENNESSEY: I got some mail about gaming animals and you know for hunting or for I don't know what else they do to gaming with animals that's legal. But can you explain to me how this affects those people?

SENATOR BRADLEY: So, there was testimony at the hearing about what are known as hobby breeders or specialty breeders which may breed huskies for instance for sled dog racing, and that would be one kind. And that's why I suggested that we move the definition of breeding female from five breeding females to seven to better protect those hobby breeders and why we put the definition of a breeding female in that there's an actual breeding female not a pet. And it's interesting, I don't know if I can find it but I had a letter here somewhere. Somebody who I think had attended the hearing and wrote a letter and suggested that we move it for five to six. We moved it from five to seven. And I think that's an appropriate compromise.

SENATOR HENNESSEY: Thank you.

(The Chair recognized Senator Giuda for a question of Senator Bradley.)

SENATOR GIUDA: Thank you Senator, for taking my question. Suppose someone has six breeding females, and they're in a deplorable state. Does this bill authorize any action to be taken in that case?

SENATOR BRADLEY: Existing law would have to be followed. The new law would say seven and so it would be much harder to define. They would not be defined as a commercial kennel subject to inspection but they'd still be subject to all the animal cruelty laws. So, in an effort to find a compromise to protect, you know responsible breeders, I chose seven. Started at five, Maine is five, Vermont is three. I think that that's a reasonable compromise.

SENATOR GIUDA: Thank you, Mister President and thank you Senator, for taking my question. How do we determine if a person has seven or more or five or six whether there's an intent to breed or to sell?

SENATOR BRADLEY: So, there is paperwork that goes with transferring of animals, okay? And the current law says that a commercial kennel is defined by ten or more litters or fifty or more puppies in any twelve month period. So that is retained, okay? But the paperwork supervision to determine that is very difficult for the Department of Agriculture. And so other states have done well with the term breeding females and a number. Now we're, under this compromise that I believe is acceptable, we'll be slightly higher than Maine or Vermont but still give either the Department of Agriculture or local official's better opportunity to actually inspect. And I think that in the situations I've talked about, whether it was the Chihuahuas in Croydon, in Senator Ward's district or the Great Danes in my district or the Shepherds I think that were in a fire and perished, inspections would lead to minimizing problems in the first instance and I don't think would undermine responsible breeders in what they're doing.

SENATOR GIUDA: Thank you, Mister President. Thank you.

The question is on the adoption of the Committee Amendment. Adopted.

Senator Birdsell offered a Floor Amendment.

Sen. Birdsell, Dist 19
March 7, 2018
2018-1020s
01/03

Floor Amendment to SB 569-FN

Amend RSA 437:1, III as inserted by section 2 of the bill by replacing it with the following:

III. "Breeding female" means an unspayed female dog, 24 months of age or older kept or maintained for the purpose of breeding and selling the dog's offspring.

SENATOR BIRDSELL: Thank you, Mister President. This comes at an interesting time because when we were talking about this yesterday and I looked at the description of a breeding female, I asked the question only because my sister recently bought a German Shepherd dog from a New Skete Monastery in New York last summer and when she picked her up, and I found out just recently when I went down to visit them that they recommend now, at least with German Shepherds, I don't know about other dogs but I'm sure it is, that they recommend anywhere from between one and four heat cycles before they get the dog fixed. And where a heat cycle is can a dog and my sister's dog just went into hers at eight months, so now the current language is twelve months. So, this amendment I'm presenting gives the age of twenty-four months just so that if there are breeds out there that recommend, like the German Shepherds and some of the hunting dogs, that they push out a little bit to see if they're worthy of breeding for hunting purposes. I'm asking you to vote in the affirmative for increasing the age of unspayed female to extending it out to twenty-four months. Thank you, Mister President.

(The Chair recognized Senator Giuda for a question of Senator Birdsell.)

SENATOR GIUDA: Thank you for taking my question. If a person were to be a commercial breeder and were to breed an animal in that first heat cycle, instead of following the recommendation of the vets and breeders that are professional and accredited, would that be cruelty, if they did it at twelve months?

SENATOR BIRDSELL: Well, the dog has to be in the heat cycle in order to be bred. I don't know, I don't think so. But still in order for a maturity value, the at least the New Skete Monastery and the new recommendations are having the females go anywhere from one heat cycle to four heat cycles and I think it has, I believe it has a lot to do with the cancer in their later years.

SENATOR GIUDA: Thank you, Mister President.

(The Chair recognized Senator Bradley.)

SENATOR BRADLEY: Thank you very much, I think this is, while I'm not thrilled with this, I think it's an acceptable compromise and I can live with it.

The question is on the adoption of the Floor Amendment. Adopted.

Senator Bradley offered a Floor Amendment.

Sen. Bradley, Dist 3
March 5, 2018
2018-0938s
08/10

Floor Amendment to SB 569-FN

Amend RSA 437:4, I as inserted by section 4 of the bill by deleting subparagraph (f).

Amend the bill by replacing sections 11 and 12 with the following:

11 Appropriation. In addition to any sums appropriated in the state operating budget, the sum of $200,000 for the fiscal year ending June 30, 2019 is hereby appropriated to the commissioner of the department of agriculture, markets, and food. The governor is authorized to draw a warrant for said sum out of any money in the treasury not otherwise appropriated.

12 Inspectors; Authorization. The commissioner of the department of agriculture, markets and food is authorized to hire 2 inspectors to support the increase in oversight and inspections of pet vendors.

2018-0938s

AMENDED ANALYSIS

This bill:

I. Defines "breeding female" for dogs.

II. Requires inspection of premises before issuance of a license to transfer animals or birds.

III. Allows the suspension or revocation of a license to transfer animals or birds if conditions under which the license was issued are not maintained.

IV. Allows for a person caring for an animal confiscated during an animal cruelty trial to petition the town for a bond to cover the cost of animal care.

V. Makes an appropriation to the department of agriculture, markets, and food, and authorizes the commissioner to hire 2 inspectors to increase oversight of pet vendors.

VI. Establishes a commission to study certain language applicable to the transfer of animals.

SENATOR BRADLEY: I neglected, it must be because I haven't studied under the tutelage of you Mister President, on the Finance Committee. I put an appropriation in the bill but not an authorization to create the two inspectors that the appropriation is supposed to cover. This was brought to my attention by our former colleague, now Commissioner Jasper, so I would ask; this is consistent with the intent of the bill. Thank you.

The question is on the adoption of the Floor Amendment. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment.

A roll call was requested by Senator Feltes, seconded by Senator French.

The following Senators voted Yes: Woodburn, Bradley, Watters, Hennessey, Gray, Ward, Kahn, Avard, Lasky, Carson, Feltes, Cavanaugh, Reagan, Soucy, D'Allesandro, Fuller Clark, Gannon, Innis, Morse.

The following Senators voted No: Giuda, French, Sanborn, Daniels, Birdsell.

Roll Call, Yeas: 19 - Nays: 5. Adopted, bill ordered to the Committee on Finance (Rule 4-5).

SB 577, requiring the public utilities commission to consider its order affecting the Burgess BioPower plant in Berlin.
Ought to Pass with Amendment, Vote 4-0. Senator Bradley for the committee.

Energy and Natural Resources
February 20, 2018
2018-0721s
10/08

Amendment to SB 577

Amend the title of the bill by replacing it with the following:

AN ACT requiring the public utilities commission to consider its order affecting the Burgess BioPower plant in Berlin, prohibiting the import of certain liquid fuels, and relative to the production of useful thermal energy.

Amend the bill by replacing all after the enacting clause with the following:

1 Findings. The general court finds that the continued operation of the Burgess BioPower plant in Berlin is important to the economy of the north country and the city of Berlin, as well as the forest products industry, and important for the attainment of renewable energy portfolio standard goals and the environment, and is therefore in the public interest.

2 Public Utilities Commission; Proceedings. Within 30 days after the effective date of this act, the public utilities commission shall initiate a proceeding in order to consider how it is in the public interest to revise its Order 25,213 (Docket DE 10-195). The commission shall consider whether it is in the public interest to increase the amount of the cap on the level of the cumulative reduction factor, or to make other adjustments or revisions to the order, so that the Burgess BioPower plant can continue to operate. When considering the best way to meet the public interest the commission shall consider the impact the potential closing of, or the reduced capacity at, Burgess BioPower could have upon jobs at the plant and in the forest products industry, property tax and other impacts on the city of Berlin, renewable energy resources in New Hampshire, the impact on Eversource ratepayers, and other such factors the commission deems appropriate.

3 Sulphur Limits; Import Prohibited. Amend RSA 125-C:10-d to read as follows:

125-C:10-d Sulfur Limits of Certain Liquid Fuels.

I. ***No person shall import into the state any of the following liquid fuels:***

(a) No. 2 oil, also referred to as distillate oil, with a sulfur content greater than 0.0015 percent by weight;

(b) No. 4 oil with a sulfur content greater than 0.25 percent by weight; or

(c) Nos. 5 or 6 oil, also referred to as residual oil, with a sulfur content greater than 0.5 percent by weight.

II. Beginning on February 1, 2019 and continuing thereafter, no person shall sell, offer for sale, supply, distribute for sale or use, except for fuel remaining in storage for a device not requiring a permit pursuant to RSA 125-C:11, any of the following liquid fuels:

(a) No. 2 oil, also referred to as distillate oil, with a sulfur content greater than 0.0015 percent by weight;

(b) No. 4 oil with a sulfur content greater than 0.25 percent by weight; or

(c) Nos. 5 or 6 oil, also referred to as residual oil, with a sulfur content greater than 0.5 percent by weight.

[~~II~~] ***III***. The commissioner may temporarily allow the use of non-conforming fuels with respect to paragraph [~~I~~] ***II*** if there is a demonstrated need to do so based on an acute shortage of supply.

4 Electric Renewable Energy Classes; Useful Thermal Energy. Amend the introductory paragraph of RSA 362-F:4, I to read as follows:

I. Class I (New) shall include the production of electricity [~~or useful thermal energy~~] from any of the following, provided the source began operation after January 1, 2006, except as noted below***, or the production of useful thermal energy as noted below***:

5 Electric Renewable Energy Classes; Useful Thermal Energy. Amend RSA 362-F:4, I(e) to read as follows:

(e) Methane gas ***if the methane gas energy output is in the form of useful thermal energy provided that the unit began operation after January 1, 2013***.

6 Effective Date.

I. Section 3 of this act shall take effect 12:01 a.m. July 1, 2018.

II. Sections 4 and 5 of this act shall take effect 60 days after its passage.

III. The remainder of this act shall take effect upon its passage.

2018-0721s

AMENDED ANALYSIS

This bill:

I. Requires the public utilities commission to initiate a proceeding to consider changes to its order affecting the Burgess BioPower plant in Berlin.

II. Prohibits the import of certain liquid fuels and prohibits the sale of such fuels in 2019.

III. Changes the inclusion in electric renewable energy class I for methane gas.

SENATOR BRADLEY: Thank you again, Mister President. I move Senate Bill 577 Ought to Pass with Amendment. The bill requires the Public Utilities Commission to initiate a proceeding to consider changes to its order affecting the Burgess Biomass Plant in Berlin. The Burgess plant currently has a power purchase agreement from Eversource, subject to a PUC order that placed a cap on subsidies from ratepayers to the plant. This bill would ask that the Public Utilities Commission open a proceeding to consider if it's in the public interest to revise or alter the subsidy. The Public Utilities Commission will consider the impact of potential closing of, or the reduced capacity at the Burgess Power Plant that it could have on jobs at the plant and in the forest products industry, the property tax base of Berlin, renewable energy sources in New Hampshire and the impact on the ratepayers. During the committee process there was an amendment to Senate Bill 577 that extends the time frame for complying with the prohibition on the importation of certain liquid fuels or oil in particular. This was legislation that we considered a couple of years ago, was adopted unanimously, it was asked for by the oil dealers. What's happened is that there hasn't been a quick enough turnover

of the oil in one of the tanks and so the Department of Environmental Services asked me to file this amendment in order to ensure that this tank is in compliance with the law by extending out the time frame. I think that's a reasonable thing to do. The second amendment that's in the committee amendment changes the inclusion in electric renewable rates for Class 1 methane gas. The amendment clarifies legislative intent and allows landfill gas to be considered as thermal energy, making it eligible for Class 1 thermal renewable energy certificates under the renewable portfolio standard. Thank you, Mister President. I hope we can vote for the committee amendment and the bill.

The Chair ruled sections of the Committee Amendment non-germane.

Without objection, Senate Rule 3-17 is suspended to allow consideration of the non-germane Committee Amendment. Adopted by the necessary 2/3 vote.

The question is on the adoption of the Committee Amendment. Adopted.

Senator Feltes offered a Floor Amendment.

Sen. Feltes, Dist 15
Sen. Avard, Dist 12
February 28, 2018
2018-0884s
10/04

Floor Amendment to SB 577

Amend the bill by deleting section 4 and renumbering the original sections 5 and 6 to read as 4 and 5, respectively.

Amend paragraph II of section 5 of the bill by replacing it with the following:

II. Section 4 of this act shall take effect 60 days after its passage.

SENATOR FELTES: Thank you very much, Mister President. The chair of Senate Energy and I also serve on JLCAR together. This is an issue that we have worked on in terms of allowing methane to be a qualifying thermal energy underneath the RPS in Class 1. This is a technical amendment. When we did the amendment in committee some of the language got a little messed up. This cleans up the language to make sure that we're just applying this authorization to methane and not affecting any of the other fuels as they're currently treated under existing law. So, I'd encourage passage of this amendment and thank the chair of the committee for his work on this and thank you very much, Mister President.

Recess. Out of recess.

PRESIDENT MORSE: I just want to remind the Senate that this bill's going to Finance.

The question is on the adoption of the Floor Amendment. Adopted.

(The Chair recognized Senator Sanborn.)

SENATOR SANBORN: I apologize Mister President. Where are we at this point? Ought to Pass as Amended?

PRESIDENT MORSE: Ought to Pass as Amended.

SENATOR SANBORN: Yes, thank you for allowing me to speak, I apologize. To my colleagues, I rise in a very global perspective, acknowledging

that I have a proven record of supporting competitively produced and brought renewable energy that if you vote for this you can't say you're unhappy with high electric cost. Time and time again in this body and we all know how complicated electrical energy is and I support people having that right to make their own electricity and I support renewable energy but this is a case where we are sending a docket or telling the PUC to go consider and investigate whether or not they want to extend an above market rate for a longer period of time. When this power plant was created there were lots of reasons, economic, political that a lot of people supported it. It helps jobs in the North Country. It helps bring some economic revitalization to my good friend's districts, and I have an appreciation for that. But in an environment today where people are producing power for three cents a kilowatt, making a government induced program that's eight and a half cents a kilowatt for a long period of time makes it very difficult for people to argue against our high electric rates. If we want lower electric rates, we need to actually start focusing on using the free market and competition to actually allow it to work and not inject our government into requiring or looking or asking or considering for long term specific deals for specific companies that are specifically above high market rates. So, my struggle with this Mister President, is more about the fact that I hear every single day among the top four complaints people have in our state is the cost of electricity. Every single discussion; cost of health care, cost of electricity, not enough employees. For this body to consider asking the PUC to extend an above-market rate is hard for us, should be hard for us to swallow. Thank you, Mister President.

(The Chair recognized Senator Giuda.)

SENATOR GIUDA: Thank you, Mister President. I rise in support of the OTPA motion. I too am in favor of removing subsidies however, this is a unique situation. First, the actual cost of production is in most cases less than the cost of transmission and distribution. So, while this is a factor it is not the major factor in the high cost of electricity in our state. Secondly, this is an issue about jobs in the North Country. In my district I have two biomass plants, one has already closed, the second is hanging on for dear life and it is not this particular biomass plant. And so, the one thing that we don't understand fully and that we need to understand is that these biomass plants, the source of fuel for the plant is in New Hampshire. The revenue delivered is to New Hampshire. The families that earn livings whether logging in the woods or driving on the trucks or working in the mills or working in the power plants are all New Hampshire families, and that these plants provide those families with the ability to pay mortgages, health insurance, etcetera. And so, this is more than just an issue isolated only on one of the factors involved in the high cost of electricity. In this instance and with all biomass plants, this is an actual, if you will, an economic ecosystem within itself and for those reasons I will support this amendment. Thank you, Mister President.

(The Chair recognized Senator Woodburn.)

SENATOR WOODBURN: Thank you, Mister President. I rise also in support of this adjustment to the purchase of power agreement for the Burgess Biomass Plant in Berlin. It is crucial to the North Country, our loggers, our chippers, our haulers and those dollars that circulate are lifting all folks. In the North Country wood is good, and burning wood sometimes called wood burn, is even better. Thank you, Mister President.

The question is on the adoption of the motion of Ought to Pass with Amendment.

A roll call was requested by Senator Avard, seconded by Senator Sanborn.

Recess. Out of recess.

The following Senators voted Yes: Woodburn, Giuda, Bradley, Watters, Hennessey, Gray, French, Ward, Kahn, Daniels, Avard, Lasky, Carson, Feltes, Cavanaugh, Soucy, Birdsell, D'Allesandro, Fuller Clark, Innis.

The following Senators voted No: Sanborn, Reagan, Gannon, Morse.

Roll Call, Yeas: 20 - Nays: 4. Adopted, bill ordered to the Committee on Finance (Rule 4-5).

EXECUTIVE DEPARTMENTS AND ADMINISTRATION
SB 570-FN, relative to the work requirement for the child care scholarship program.
Ought to Pass, Vote 4-1. Senator Carson for the committee.

SENATOR CARSON: Thank you, Mister President. I move Senate Bill 570-FN Ought to Pass. This legislation will direct the Department of Health and Human Services to adopt rules which will modify the work requirement for the child care scholarship program. The adoptions of rules will include for the participation in a mental health or substance abuse treatment program. This creates an exception for the non-financial eligibility condition for child care scholarships for participation in mental health or substance use treatment programs. A step the state can take which will assist in recovery efforts. The ED&A Committee voted Ought to Pass and asks for your support in their recommendation. Thank you, Mister President.

(The Chair recognized Senator Feltes.)

SENATOR FELTES: Thank you very much, Mister President. I rise in support of the ED&A Committee's recommendation and thank the chair of ED&A and the committee for the bipartisan vote. Right now, parents of children who need to get into treatment are having to choose between taking care of their children and treatment. That's not fair to the parents, that's not fair to the children and right now we have an opportunity to correct it. This is a significant step forward to help our families Mister President, in the opioid epidemic and I would encourage us to vote yes on Ought to Pass. Thank you, Mister President.

(The Chair recognized Senator Gannon for a question of Senator Feltes.)

SENATOR GANNON: Just another brief question, you can give me a brief answer again. How many are we talking about here as a total? How many people? Do you have a rough idea how many this encompasses?

SENATOR FELTES: Thank you very much, Senator Gannon. I don't know exactly the number. I think the fiscal note says indeterminable. But whatever the number is, each person that is falling through the cracks and their children is too many. Thank you, Senator.

The question is on the adoption of the motion of Ought to Pass.

A roll call was requested by Senator Feltes, seconded by Senator Fuller Clark.

The following Senators voted Yes: Woodburn, Giuda, Bradley, Watters, Hennessey, Gray, French, Ward, Sanborn, Kahn, Daniels, Avard, Lasky, Carson, Feltes, Cavanaugh, Reagan, Soucy, Birdsell, D'Allesandro, Fuller Clark, Gannon, Innis, Morse.

The following Senators voted No: (None)

Roll Call, Yeas: 24 - Nays: 0. Adopted, bill ordered to Third Reading.

PUBLIC AND MUNICIPAL AFFAIRS
SB 506, limiting amendments to warrant articles.
Ought to Pass with Amendment, Vote 4-1. Senator Woodburn for the committee.

Public and Municipal Affairs
February 21, 2018
2018-0818s
06/08

Amendment to SB 506

Amend the bill by replacing all after the enacting clause with the following:

1 Town Meetings; Petitioned Warrant Articles. Amend RSA 39:3 to read as follows:

39:3 Articles. Upon the written application of 25 or more registered voters or 2 percent of the registered voters in town, whichever is less, although in no event shall fewer than 10 registered voters be sufficient, presented to the selectmen or one of them not later than the fifth Tuesday before the day prescribed for an annual meeting, the selectmen shall insert in their warrant for such meeting the petitioned article with only such minor textual changes as may be required. ***Such corrections shall not in any way change the intent of the article as presented in the original language of the petition.*** For the purposes of this section, the number of registered voters in a town shall be the number of voters registered prior to the last state general election. The right to have an article inserted in the warrant conferred by this section shall not be invalidated by the provisions of RSA 32. In towns with fewer than 10,000 inhabitants upon the written application of 50 or more voters or 1/4 of the voters in town, whichever is fewer, and in towns with 10,000 or more inhabitants upon the written application of 5 percent of the registered voters in the town, so presented not less than 60 days before the next annual meeting, the selectmen shall warn a special meeting to act upon any question specified in such application. The checklist for an annual or special town meeting shall be corrected by the supervisors of the checklist as provided in RSA 654:25-31. Those persons qualified to vote whose names are on the corrected checklist shall be entitled to vote at the meeting. The same checklist used at a recessed town meeting shall be used at any reconvened session of the same town meeting. In no event shall a special town meeting be held on the biennial election day.

2 School Meetings; Warrant and Articles. Amend RSA 197:6 to read as follows:

197:6 Warrant and Articles. Upon the written application of 25 or more voters or 2 percent of the voters of the school district, whichever is less, although in no event shall fewer than 10 registered voters be sufficient, presented to the school board or one of them not later than 30 days before the date prescribed for the school district meeting or the second Tuesday in March, whichever is earlier, the school board shall insert in the school district warrant for such meeting the petitioned article with only such minor textual changes as may be required. No article may be inserted after posting of said warrant. ***Petitioned articles shall not be amended except for minor textual corrections. Such corrections shall not in any way change the intent of the article as presented***

in the original petition. The right to have an article inserted in the warrant conferred by this section shall not be invalidated by the provisions of RSA 32.

3 Effective Date. This act shall take effect 60 days after its passage.

2018-0818s

AMENDED ANALYSIS

This bill limits amendments to petitioned warrant articles to minor textual corrections.

SENATOR WOODBURN: Thank you, Mister President. I move that Senate Bill 506 Ought to Pass with Amendment. This bill prohibits the amendments to be petition articles by select board members or town officials except for minor textual corrections. This would apply to town meeting warrant articles or school meeting warrant articles. The committee felt that the petitioner's original intent should be protected from town officials changing the meaning from what was presented in the original language of the petition. Once the warrant article is introduced at the deliberative session, changes can be made in the acceptance of a majority of voters as per standard practice. I ask you to support the committee's recommendation of Ought to Pass as Amended. Thank you, Mister President.

(The Chair recognized Senator Daniels for a question of Senator Woodburn.)

SENATOR DANIELS: Just a question, if a petition were put in that was not constitutional, how are we to leave the unconstitutional wording in?

SENATOR WOODBURN: That's a very good question and I think we should, I think I should divert to someone who may be able to answer that better. I don't have a good answer.

SENATOR DANIELS: Thank you.

(The Chair recognized Senator Giuda.)

SENATOR GIUDA: Thank you, Mister Chairman. I would think it would be incumbent on the select board to inform the legislative body when the article is presented that it is unconstitutional, but I think we run the risk if we start letting select boards decide what's constitutional or not before it has a viewing in front of both legal counsel and the legislative body that we run a risk of truncating first amendment or other fundamental rights.

The question is on the adoption of the Committee Amendment. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to Third Reading.

TRANSPORTATION

SB 400, relative to traveler information signs on highways.
Ought to Pass with Amendment, Vote 5-0. Senator Watters for the committee.

Senate Transportation
February 21, 2018
2018-0755s
01/04

Amendment to SB 400

Amend RSA 230:52, III as inserted by section 1 of the bill by replacing it with the following:

III. The fee charged under paragraph II to a registered nonprofit organization that maintains a museum or heritage tourism site which is open to the public and listed in the National Register of Historic Places or the New Hampshire register of historic places under RSA 227-C:33, shall be limited to the cost of the initial creation and placement of the sign, or its replacement.

2018-0755s

AMENDED ANALYSIS

This bill provides that the fee charged to certain nonprofit organizations for advertising space on a limited access highway shall be limited to the initial cost of the sign or its replacement.

SENATOR WATTERS: Thank you, Mister President. I move Senate Bill 400 Ought to Pass with Amendment. This bill provides that the fee charged to certain nonprofit organizations for advertising space on a limited access highway shall be limited to the initial cost of the sign or its replacement. The fee structures set up for these types of signs have made it difficult for non-profits to afford to advertise. I think we wisely under the leadership of Senator from District 19 a couple of years back, passed a statute that asked the Department of Transportation to make sure that these signs that have the informational placards on them were paid for by those folks who wanted the information on them. I think the unintended consequence of that was that we found that even these little non-profits and museums that we have in our districts were asked to pay not only $500 for the initial construction of the sign, but $500 a year just to keep their placard up there. So, the non-profits could no longer afford to have their signage on the highway. This legislation then would help ensure that those sites that are open to the public will not have to pay for signs done initial cost of the sign or its replacement. The committee amended the legislation in order to ensure that the non-profits, which are eligible under this legislation will include only those places which maintain a museum or heritage tours on site and are open to the public and listed in the national register or state register of historic places. The Transportation Committee asks for your support in the motion of Ought to Pass with Amendment on Senate Bill 400. Thank you, Mister President.

The question is on the adoption of the Committee Amendment. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to Third Reading.

SB 464, relative to the procedure for driveway permits.
Ought to Pass with Amendment, Vote 5-0. Senator Watters for the committee.

Senate Transportation
February 21, 2018
2018-0758s
01/10

Amendment to SB 464

Amend RSA 236:13-a, III(c) as inserted by section 1 of the bill by replacing it with the following:

(c) Extend the time for rendering a decision on the application for good cause.

SENATOR WATTERS: Thank you, Mister President. I move Senate Bill 464 Ought to Pass with Amendment. This bill establishes a procedure

for processing applications for certain excavation and driveway permits. Some developers have experienced a lack of predictability with the Department of Transportation regarding this permit process which leads to a delay in the process for months if not a whole year, and we all know for developers time is money. This can be detrimental to developers because one of the last components that will hold up the site plan from being signed is a driveway permit being issued. This legislation would seek to bring some predictability to the timing of the permit process. The Transportation Committee ask for your support in the motion of Ought to Pass with Amendment on Senate Bill 464.

(The Chair recognized Senator Giuda for a question of Senator Watters.)

SENATOR GIUDA: Thank you, Mister President. Senator, thank you for taking my question. My question is I see in the amendment in the schedule of the extending the time for rendering a decision on the application for request. What is exactly this amendment doing? I mean is it so defining a specific period of time that they need to have it done by, or I'm not sure exactly what we're doing here.

SENATOR WATTERS: Thanks for your question. So, there's basically two periods we're talking about. One is when the initial application comes in and the Department of Transportation is supposed to respond to the initial application within a certain amount of time. And then they also can ask for additional information. And so, what we were concerned about is that in both cases that that period be definable and shortened. I think it was important there to have the good cause mentioned because what we heard is that sometimes they put out the request for the additional information, they don't hear back and they try a request again and so there might be an occasion where the department says look, we really do have these reasons but they would have to specify that.

SENATOR GIUDA: Okay, thank you.

The question is on the adoption of the Committee Amendment. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to Third Reading.

SB 559-FN-A, making an appropriation for a sound barrier on the Everett Turnpike in Bedford.
Ought to Pass with Amendment, Vote 5-0. Senator Birdsell for the committee.

Senate Transportation
February 21, 2018
2018-0788s
04/05

Amendment to SB 559-FN-A

Amend the title of the bill by replacing it with the following:

AN ACT establishing a committee to study the construction of sound barriers on type I and type II highways.

Amend the bill by replacing all after the enacting clause with the following:

1 Committee Established. There is established a committee to study the construction of sound barriers on type I and type II highways.
2 Membership and Compensation.
I. The members of the committee shall be as follows:

(a) Two members of the senate, appointed by the president of the senate.

(b) Three members of the house of representatives, appointed by the speaker of the house of representatives.

II. Members of the committee shall receive mileage at the legislative rate when attending to the duties of the committee.

3 Duties. The committee shall study the construction of sound barriers on type I and type II highways. The committee shall also study:

I. The formula for cost-effectiveness.

II. Type I and type II projects and potential costs for each type.

III. The town's role in determining the costs associated with type I and type II projects.

IV. Alternate methods for funding type I and type II projects.

4 Chairperson; Quorum. The members of the study committee shall elect a chairperson from among the members. The first meeting of the committee shall be called by the first-named senate member. The first meeting of the committee shall be held within 45 days of the effective date of this section. Three members of the committee shall constitute a quorum.

5 Report. The committee shall report its findings and any recommendations for proposed legislation to the president of the senate, the speaker of the house of representatives, the senate clerk, the house clerk, the governor, and the state library on or before November 1, 2018.

6 Effective Date. This act shall take effect upon its passage.

2018-0788s

AMENDED ANALYSIS

This bill establishes a committee to study the construction of sound barriers on type I and type II highways.

SENATOR BIRDSELL: Thank you, Mister President. I move Senate Bill 559-FN Ought to Pass with Amendment. As introduced this bill would have made an appropriation to the Department of Transportation for the construction of a sound barrier on the F.E. Everett Turnpike in Bedford. The committee heard ample testimony for individuals who live and have lived in this neighborhood in Bedford for years. It is clear that the highway expansion on the Everett Turnpike has caused an increase in noise for residents in this area. However, the Department of Transportation conducted a test in this area in 2011 and found that the number of houses impacted was too low to justify the cost of building a sound barrier. Further there are so many other neighborhoods and areas throughout the state that are in the same or worse predicament that have also not received funding for such sound barriers. The committee therefore amended the language of the bill to establish a study committee that would specifically study the construction of sound barriers on type 1 and type 2 highways throughout the state, not just at this particular location in Bedford but others. This study committee would examine the formula for cost effectiveness and potential cost for sound barriers on each type of highway. Further it would examine the town's role in determining the cost associated with these projects and alternate methods for funding them. Transportation Committee believes that this is the best way to move forward with getting these types of projects addressed fairly. Therefore, I ask for your support in the motion of Ought to Pass with Amendment on Senate Bill 559-FN. Thank you, Mister President.

(The Chair recognized Senator Sanborn.)

SENATOR SANBORN: Thank you, Mister President. I rise and ask the body to turn down the amendment and allow a vote on the passage of the bill before the amendment. While I appreciate the work that the Transportation Committee did, but at the end of the day they came back and said, hey, let's study this. Wow, let's study this. I think this is the eleventh year in a row we're going to study this. Now you're talking about a small blue collar family that's owned houses ever since the fifties when the state of New Hampshire came in and wiped out a hundred yards of the wood buffer between their houses and the interstate. They spent years dealing with the state of New Hampshire as it considered whether or not it needed to save a habitat for bald eagles. Four and a half million dollars I think they spent studying whether or not they needed to save the habitat for bald eagles. The bald eagles flew away, they're not even there anymore. The state of New Hampshire came in, wiped out their land, built the road, conversation after conversation that we'll build the sound wall, don't you guys worry about it, we'll be there. State of New Hampshire will take care of it. Back then it was under $300,000. State didn't do it. Year after year after year after year, these families came up to this body, came up to the House and just said a simple thing; deliver on your promise. Why are we penalizing people because they happen to have bought houses in 1950 or built them in the fifties on two acres of land which is the only excuse that the state is giving them today? Not enough density of real estate.

You know I hear and I can appreciate the fact that today there are several of us in this room who say we'd like to have a sound wall, I hear my good friend from District 21 has said it as often as I say it. I've been saying it for years in this room. Now today we're realizing that there's plenty of people that are being subjected to excessive sound. And let's talk about excessive sound. These are people that based upon the fact that the state came in and blasted away the mountain, so they have granite facing that's fifty feet high across the street from them, put in cement Jersey barriers the entire length then have doubled the width of interstate. These are people who inside their house, inside their house the sound levels are higher than the state of New Hampshire says should be recorded outside of their house. They can't open their windows, they can't open their doors, they can't enjoy their yards, they're prisoners in their homes from what the state of New Hampshire did to them. And back when this thing could have been solved for a couple hundred grand or $300,000 the state chose not to do it. And then it was 400, 500, 600, 700, 800, 900. At one point they came in and said it would cost them a million four, even though today we know that the cost is realistic around 900,000. These people have even asked to do the work to go find competitive private bids to get the price down, and yet the state of New Hampshire will not allow them to do that.

So, when are we going to solve this problem? When are we going to solve this problem? We have a transportation fund that has money in it. Has money in it, it's not like we're broke. We have no plan. I've even suggested time and time again, what does it take for us to start this? What does it take to go to either the first neighborhood, which would be this neighborhood in full disclosure, to allocate something? We have a ten year highway plan, we spend money on roads. Earlier this year we, you know we had a nice long debate about a roundabout up in the Lakes Region. But yet these people are just getting pounded with the sound of cars and motorcycles and trucks twenty-four hours a day. We're not doing anything for them. We're not doing anything for them, and I

suggest that maybe it's time that we do. So, I ask this body to join me and vote down the amendment and let's actually start the process of doing something. And with the ten year highway plan we can look at other projects and find ways that we can fund it and actually help our constituents. So please vote down the amendment and let's pass the bill as introduced. Thank you so very much, Mister President.

(The Chair recognized Senator French for a question of Senator Sanborn.)

SENATOR FRENCH: Senator, is this the exact same neighborhood that you took me down to last year where we could not even hold a conversation in the backyard?

SENATOR SANBORN: Senator, thank you so much. I've actually invited many Senators to come down. And that's all I've asked for people; come down and listen and thankfully you were one that actually did and I appreciate the fact that you did and you're right. We had to yell, we actually had to raise our voices to even be heard, it is that kind of loud for these people.

SENATOR FRENCH: Thank you.

(The Chair recognized Senator Giuda for a question of Senator Sanborn.)

SENATOR GIUDA: Senator, did I hear you say that the state of New Hampshire DOT had pledged to put up a sound barrier when this improvement to the state highway system was made?

SENATOR SANBORN: Senator, thank you so much for the question. I appreciate it. I have been told that they were by past commissioners; the present commissioner today says they did not. So, I'll leave that as it is. Thank you.

(The Chair recognized Senator Gannon.)

SENATOR GANNON: Thank you, Mister President. I was one of the ones who voted with the 5-0 majority. Since then I have visited the neighborhood and I have found those sounds to be just unlivable. But when I voted that way, I thought we can't just help this one neighborhood there's others in the same situation. But this neighborhood is so bad it's gone on for eleven years. And then I was just thinking, the Senator from Concord, District 15 mentioned earlier, when we were doing SB 570 on the work requirement and I asked him how many people is this helping and he said Senator if it's one person. This is dozens and dozens of families that we've ignored for a decade. So, I feel at this time we should put them to the forefront and actually help someone today. So, I would go from my good Senator from District 9 and vote we override the Ought to Pass. Thank you.

(The Chair recognized Senator Watters.)

SENATOR WATTERS: Thank you, Mister President. And I really appreciate what the Senator from District 9 has said. I could give exactly the same speech about a neighborhood on Dover Point. Here's the situation we're in and I think that frankly I think the case was made and you know this kind of bill has been rejected in the past but we thought, okay we've got to try to do something about this, and that's why we brought forward this committee amendment. And just to explain briefly about this that there are type 1 projects which have federal funding in the highway fund, that have a formula that says we will pay for the sound barriers when construction is initially done with federal funds if it meets certain criteria; there's a decibel level, and then there's a number of houses and

the cost per house. Now whether that is justifiable in certain cases I think that's open to debate but that is the federal standard and that is the standard across all projects and why one may be done and one may not. Now if we accept that perhaps traffic's gotten worse or decibel level's gotten worse or something has changed or that we really just think we ought to do something for a neighborhood.

Then we have proposed a type 2 program which would say we will try to find state money to take care of these ones that hadn't been done before or if in the future they're projects under the federal highways but they wouldn't qualify so can we find some state money for it. And I think that's an important thing and that's why we have the committee established here. We were told by DOT that they, I think the figure was something like $200 million that could be potentially spent on these type 2s and I wonder where we're going to find $200 million in the ten year highway plan but I voted for this because I felt we ought to get started on it. But that's the situation we're in and there's one other thing to say too, that if we cherry pick a project right now and you know, Senator from District 9 wants his to be number one, the neighborhood in my district has more people, worse noise so you know which one's going to be first, right? But the problem is that if we do it for one and have violated the principles under which we provide funding we are open to suits by anybody else who wants one and it says well you gave it to them, you violated your criteria, so you no longer have a principle of not funding us and I think that's a problem. So, I really thought this was a terrific way to move forward that the Senator from District 19 proposed and I take it seriously. Thank you, Mister President.

(The Chair recognized Senator Daniels.)

SENATOR DANIELS: Thank you, Mister President. I rise opposed to the pending motion. Three years ago, I put in the same bill. I was on Transportation at the time and I was told, well this should really go into the ten year plan. So, the second year we tried to get it into the ten year plan and I was told well it should really should go into the budget. We've got this runaround and we just keep going around in circles when the major problem here is the metrics that are being used are not the right metrics. The metrics should be based on the volume, the sound, not how many houses within a certain density so I would ask the body to overturn the pending motion so an alternate motion can be brought forward. Thank you, Mister President.

(The Chair recognized Senator Birdsell.)

SENATOR BIRDSELL: Thank you, Mister President. I too represent Windham and I also have constituents who are affected by the 93 expansion. And I would say in looking over this information, one of the criteria that the Department of Transportation is using is the number of homes on a certain piece of property. Now many areas, and Windham is responsible as well, they have two acres or two and a half acres per lot. So, one of the criteria is that, one of the problems is that, DOT has determined that there are not enough homes impacted. Why? Because the towns have a limited amount, have space that they mandated acreage. So, the town is also part of the issue. So, this is why we want the study committee so we can look at the criteria and see if there's any changes that we can make to it. So I'd like the body to move ahead with the study committee so that we can make some improvements in the criteria that DOT has set forth and as the Senator from District 4 said, there's limited things

that we can do with the stage 1, because it is mandated by the feds but we can certainly work with the type 2 and try and make some changes for these people that are affected. I did visit Windham and it's loud, so I understand that we have an issue and I intend to bring it forth and try and make some changes so please pass the amendment and let's move forward with trying to make some change.

(The Chair recognized Senator Fuller Clark.)

SENATOR FULLER CLARK: Thank you, Mister President. I feel compelled to add the neighborhood adjacent to I-95 in Portsmouth as a community that has been waiting for a sound barrier for close to thirty years. This is a critical issue that exists for a number of communities around the state and I think what's important is to make sure that what comes out of this study finds a way to address this problem, and recognizing that we have neighborhoods everywhere that have been impacted by the expansion of our major highways. Thank you.

(The Chair recognized Senator Sanborn.)

SENATOR SANBORN: Thank you, Mister President. Mister President I rise again and I appreciate to just remind my good friend from Senate District number 4 that we are talking of two different transportation funds, yours is on a state highway this is on a road that has a toll so it is a different funding mechanism. And again, in this account the money exists. The money's in the account we just need to make the decision to spend it. We need to make the decision that we're going to finally stand up and start fighting for all of our constituents as Senator from District 23 had commented to the Senator from District 15, if it helps one person, if it helps one person let's do this. I will make a commitment to this body Senator Watters, Senator Fuller Clark. I ask this body to make the same commitment today. Vote down this amendment, help these people who have been up here for year after year after year, and let's make a decision that we do not approve the ten year highway plan until there is a funding mechanism in there that generates some sort of a solution to these people. Every year I've come here we have voted for the ten year highway plan. We've never had it in. So why don't we come together as a body and say let's make sure that any plan we have that all of us can get together, we don't need some fancy commission, not that this isn't a fancy commission, Senator. But we can come together and we can solve it. And in conclusion I am remiss and I need to thank my good friend from District 11, Senator Daniels who has put this bill in for me and others several times as he has continued to chase the process. Because every debate we've had on this every year, put in the highway plan, put in Transportation, put it in the budget. We've just been chasing it. When do we stop and just start helping people? This is what we're here for. So, I ask people again, turn down the amendment, let's pass this forward and I will commit Senator Watters, Senator Fuller Clark, let's get together and come up with a funding mechanism and work with the Chair of Transportation and not support that ten year plan until we get something in. Let's solve a problem today. It would be great. Thank you, Mister President.

PARLIAMENTARY INQUIRY

(The Chair recognized Senator Sanborn for a parliamentary inquiry.)

SENATOR SANBORN: Thank you, Mister President. Mister President, if I believe the time is right to come together and actually start delivering

on promises that we would make, with the intent that we will further come together and come up with a plan for the ten year highway plan that comes over here, would I vote no on the amendment?

PRESIDENT MORSE: If you're in favor of the amendment you're going to say aye, if you're opposed, you're going to say no.

The question is on the adoption of the Committee Amendment.

A roll call was requested by Senator Sanborn, seconded by Senator Giuda.

The following Senators voted Yes: Woodburn, Bradley, Watters, Hennessey, Gray, Ward, Kahn, Lasky, Carson, Feltes, Cavanaugh, Reagan, Soucy, Birdsell, D'Allesandro, Fuller Clark, Innis, Morse.

The following Senators voted No: Giuda, French, Sanborn, Daniels, Avard, Gannon.

Roll Call, Yeas: 18 - Nays: 6. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to Third Reading.

SB 562-FN, allowing the waiver of fees for reinstatement of a driver's license and registration in cases of demonstrated financial hardship.
Inexpedient to Legislate, Vote 4-0. Senator Birdsell for the committee.

SENATOR BIRDSELL: Thank you, Mister President. I move Senate Bill 562-FN Inexpedient to Legislate. At the request of JLCAR, this bill would allow the waiver of fees for reinstatement of a driver's license and registration in cases of a demonstrated financial hardship. Although the committee is sympathetic to this idea it became evident at the public hearing and afterwards that there's no clear language as to what would actually constitute a financial hardship. The committee has not received any information on this matter since the time of the public hearing. The Transportation Committee asks for your support on the motion Inexpedient to Legislate on Senate Bill 562-FN. Thank you, Mister President.

The question is on the adoption of the motion of Inexpedient to Legislate. Adopted.

SPECIAL ORDER

Without objection, the following bill is special ordered to 5 o'clock. Adopted.

FINANCE
SB 313-FN, reforming New Hampshire's Medicaid and Premium Assistance Program.

SB 585-FN, authorizing the New Hampshire Breast Cancer Coalition to issue decals for multi-use decal plates.
Ought to Pass, Vote 4-0. Senator Ward for the committee.

SENATOR WARD: Thank you, Mister President. I move Senate Bill 585 Ought to Pass. This bill authorizes the New Hampshire Breast Cancer Coalition to issue decals for multi-use decal plates. It is likely that nearly everyone here knows someone whose life has been affected by breast cancer. The mission of the New Hampshire Breast Cancer Coalition is to support patients here in New Hampshire who are being treated for breast cancer. This legislation would help to provide income for the coalition to provide services and assistance to women in the state, stemming from the breast cancer diagnosis. Since there are several pieces of legislation this session that deal with decals for multi-use decal plates, some of which need amendments in order to be passed into law properly. A subsequent

motion will be offered that I hope each of you can support. All members of the Transportation Committee asks for your support in the motion of Ought to Pass on Senate Bill 585-FN. Thank you, Mister President.

The question is on the adoption of the motion of Ought to Pass. Adopted.

Senator Birdsell moved to Lay on the Table SB 585-FN. Adopted.

WAYS AND MEANS

SB 563-FN, establishing a recovery friendly workplace initiatives tax credit against business taxes administered by the community development finance authority.

Ought to Pass with Amendment, Vote 4-0. Senator Sanborn for the committee.

Senate Ways and Means
February 21, 2018
2018-0787s
05/04

Amendment to SB 563-FN

Amend the bill by replacing all after the enacting clause with the following:

1 New Paragraph; Community Development Finance Authority; Recovery Friendly Workplace Initiatives Tax Credit. Amend RSA 162-L:4 by inserting after paragraph I the following new paragraph:

I-a. The authority shall dedicate the contributions received pursuant to RSA 162-L:10, I-a exclusively to investing or lending to nonprofit organizations that deliver recovery friendly workplace programs. Such contributions shall not exceed $1,000,000 in any state fiscal year. In this section, "recovery friendly workplace programs" means programs that educate employers in evidence-based practices that reduce substance misuse in the workplace and create work environments that are conducive to enabling persons in addiction and mental health recovery to sustain and re-enter the workforce as productive members of society. Such programs shall include the training of all employees, including specialized training for human resources personnel, and shall be consistent with Substance Abuse and Mental Health Services Administration (SAMHSA) standards. The term "recovery friendly workplace programs" also includes the propagation of public awareness and information that supports health and safety for employees, while promoting active community engagement that will assist in reducing the negative impact of unaddressed substance misuse and untreated mental health. On or by September 30, 2020, the authority shall make public on its website and provide a report to the governor, the president of the senate, and the speaker of the house of representatives concerning the effectiveness of the recovery friendly workplace initiatives tax credit, including, but not limited to, how many workers in recovery were attracted to and retained in the workforce.

2 New Paragraph: Community Development Finance Authority; Recovery Friendly Workplace Initiatives Tax Credit. Amend RSA 162-L:10 by inserting after paragraph I the following new paragraph:

I-a. A recovery friendly workplace initiatives tax credit equal to up to 75 percent of the contribution made during the period of July 1, 2018 through June 30, 2020 shall be allowed against any of the following individually or in combination:

(a) Taxes imposed by RSA 77-A.

(b) Taxes imposed by RSA 400-A.

(c) Taxes imposed by RSA 77-E.

3 Community Development Finance Authority; New Investment Tax Credit; Annual Limit. Amend RSA 162-L:10, IV(b) to read as follows:

(b) Contributions received by the authority for which credit is to be taken shall not exceed [~~$5,000,000~~] ***$6,000,000*** in any state fiscal year. Contributions received by the authority in excess of [~~$5,000,000~~] ***$6,000,000*** in any state fiscal year shall not be eligible for credit in such fiscal year but may be carried forward to the next succeeding fiscal year or years and shall be given priority in determining the total contributions eligible for credit in such fiscal year.

4 New Paragraph; Business Profits Tax; Recovery Friendly Workplace Initiatives Tax Credit. Amend RSA 77-A:5 by inserting after paragraph XV the following new paragraph:

XVI. The recovery friendly workplace initiatives tax credit as computed in RSA 162-L:10, I-a.

5 New Section; Business Enterprise Tax; Recovery Friendly Workplace Initiatives Tax Credit. Amend RSA 77-E by inserting after section 3-d the following new section:

77-E:3-e Recovery Friendly Workplace Initiatives Tax Credit. The recovery friendly workplace initiatives tax credit, as computed in RSA 162-L:10, I-a, shall be allowed against the tax due under this chapter.

6 Applicability. The tax credits authorized in this act shall apply to tax years beginning on and after January 1, 2019.

7 Effective Date. This act shall take effect July 1, 2018.

2018-0787s

AMENDED ANALYSIS

This bill establishes a credit against the business profits tax and the business enterprise tax for donations made to the community development finance authority for recovery friendly workplace initiatives.

SENATOR SANBORN: Thank you, Mister President. Mister President, I move Senate Bill 563 Ought to Pass with Amendment. This bill establishes a tax credit against the business profits tax and the business enterprise tax for donations made to the Community Development Finance Authority, the CDFA, for recovery friendly workplace initiatives. This bill comes as one of the agenda priorities of the Governor who has truly led a great effort on this and discussed it last week in the Executive Council chambers, where he is trying to bring forth new and innovative ways to make sure that we find better solutions, more effective solutions and solutions that work into our fight on the opioid crisis. As we know today there is a stigma against being in recovery. There is a stigma against people who are struggling with the opioid crisis. What this bill would do is to allow businesses to make donations to the CDFA, which would then give grants back to recovery organizations and businesses to help them set up employee assistance programs, to help them market and bring forward ways that businesses themselves could let people know that they are open, welcoming and accepting of those that are in recovery. This would be the first type of program that has in America where we will find a way to actually let people know that we recognize the struggles that they've had and we're there to help them out. Mister President, I commend this bill to the body, would ask for its support as amended. Thank you, Mister President.

The question is on the adoption of the Committee Amendment. Adopted.

Senator Sanborn offered a Floor Amendment.

Sen. Sanborn, Dist 9
Sen. Giuda, Dist 2
Sen. Daniels, Dist 11
Sen. D'Allesandro, Dist 20
Sen. Feltes, Dist 15

2018-0846s
10/01

Floor Amendment to SB 563-FN

Amend the introductory paragraph of RSA 162-L:10, I-a as inserted by section 2 of the bill by replacing it with the following:

I-a. A recovery friendly workplace initiatives tax credit equal to up to 75 percent of the contribution made during the period of July 1, 2018 through June 30, 2020 may be carried forward for no more than 5 succeeding tax years and shall be allowed against any of the following individually or in combination:

Amend the bill by replacing section 7 with the following:

7 Effective Date. This act shall take effect upon its passage.

SENATOR SANBORN: Thank you, Mister President. Mister President and members of the body, what this amendment does is provide us as indicated a 75 percent tax credit on contributions made between July 1, 2018 July 30, 2020 so the program would sunset but would allow a carry forward of no more than five succeeding tax periods, which would be allowed to use the money either individually or in combination. So essentially what this amendment does is again reaffirm a two year sunset and a five year tail of which the money could be appropriated. All of us; Sanborn, Giuda, Daniels, D'Allesandro and Feltes ask for your support for the amendment. Thank you, Mister President.

(The Chair recognized Senator Kahn for a question of Senator Sanborn.)

SENATOR KAHN: Thank you, Mister President. Thank you, Senator, for taking the question. The amendment just for my, for the spreadsheet, that I'm just trying to keep track of all the credits and reductions and tax collections that we're on an annual basis reducing, doesn't change from $1 million in the previously approved amendment, under your amendment?

SENATOR SANBORN: Yes, correct. Thank you very much, and I apologize I neglected to say this is an up to a $1 million total contribution level. Stays the same.

SENATOR KAHN: Thank you.

The question is on the adoption of the Floor Amendment. Adopted.

(The Chair recognized Senator Fuller Clark.)

SENATOR FULLER CLARK: I just want to speak to this bill and say that while I understand the need to address the opioid crisis in the workplace and that this bill is very well-intentioned, I'm a little disappointed that the businesses aren't able to step forward on their own and provide these services and these treatments. Thank you.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to the Committee on Finance (Rule 4-5).

SB 587-L, relative to the collection of fees for public parking facilities. Inexpedient to Legislate, Vote 3-1. Senator Sanborn for the committee.

SENATOR SANBORN: Thank you, Mister President. Mister President, I move Senate Bill 587 Inexpedient to Legislate. This bill sought to allow the city of Concord to collect an additional motor vehicle registration fee which is a process we allow in two other cities in New Hampshire today, that we have provided the authority for them to actually make a surcharge on the people's local registration. So, this bill would have sought to allow the city of Concord to collect this additional motor vehicle registration fee in order to help pay for the construction, operation and maintenance of its parking facilities. A majority of the committee did not support enabling a city to raise fees on vehicle registrations for its residents who might not use the parking facilities. In addition, we heard testimony that the city of Concord recently amended its parking fees and it looks to get a 50 percent increase from $2 million in total revenue to $3 million in total revenue, just on their increased cost of parking fees. Members of the committee felt that they should be able to use that money to better manage their parking facilities. Now all that being said, I think it's important for this body to note that today the state of New Hampshire, many members in this body, many members across the way, even the Governor down one step actually has use of parking facility, of parking meters free of charge from the city. We did have discussions within our committee as to whether or not there should be an annual appropriation back to the city of Concord to compensate them for the lack of parking revenue, and it's something that this body might want to consider at a future time. So, with that Mister President, I commit to the body of Inexpedient to Legislate on Senate Bill 587.

(The Chair recognized Senator Feltes.)

SENATOR FELTES: Thank you very much Mister President. Mister President, this body has voted to enable some increases with respect to car registration across our municipalities. Everybody here has done that for the most part voted for enabling legislation. This is enabling legislation for one community, Concord. Enabling, the republican principle of local control Mister President. The Jeffersonian principle of local control. Let the people of Concord debate and discuss whether or not to do this. The representation that they're going to increase fees another million dollars is false. What's going on here, despite the fact that I don't support increasing car registration fees, I do support the city of Concord making its own determination in the debate and discussion about car registration fees. Local control; I support it, the majority of Ways and Means does not. I ask you to vote no on ITL. Thank you.

(The Chair recognized Senator D'Allesandro.)

SENATOR D'ALLESANDRO: Thank you, Mister President. Mister President, I rise against the impending motion of Inexpedient to Legislate. You know as a body we're supposed to listen to the people that we represent. When the mayor of a city comes before us and says that the people that I represent would like to see the population number reduced from 50,000 to 40,000 so that this action can take place, it seems to me that we as a representative body should honor what the locals request. They didn't say initiate a tax, they didn't say initiate this or initiate that, what they asked for was the authority to manage their city as they see fit. And guess what; they were elected by the people of that city. Parking is the issue. We have the authority in Manchester to do what we needed to do with regard to parking. We are the largest city in the state, we have a population of 100,000. The law says at 50,000 and above you can make this decision locally. This request by the city of Concord is to be given

the authority to make a local decision. The mayor said that Concord has reduced impact fees to make it more acceptable for business and industry to come to the city. They've reduced impact fees. They asked permission to make a decision. That's all, just to make a decision. The town budget person came. They clearly articulated the rationale for this decision and they asked us as they have in the past to grant them this option.

Now we just talked about money, we talked about taking 1.4 million out of the turnpike authority to build a barrier. These people are asking us for permission to create a situation where they may have an opportunity to increase a fee that they desire. That's going to make their community better. How in God's world can we refuse this? How can we refuse giving people an opportunity to make a decision? Isn't that the decision making process? Didn't Aristotle talk about that? Huh? In Athens when we had public discussion? The Athenian concept of the decision making process? Pericles thought about it. But hear in Concord, we can't think about, we can't allow people to make decisions on their own when they come to us and ask. Madonn'! What are we doing here? Where is representative democracy at this point in time? When people ask us, ask us to give them the authority to enter into the decision making process. My colleague in District 24 an academician. What about this? Is this the Socratic method, Senator? It may well be the Socratic method, why don't we introduce it to the Senate? If it was good enough for Socrates it's good enough for me. So why in God's world don't we say, hey you want to make this decision, you make this decision? You will let the people of Concord who elected you, hold you responsible for the decision making process. Is that not the American way? I just think that this is one we all, we have discussions here every time abut spending money, yet we say to people that they can't make the decision on their own to do what they want with the money that they raise. There's an inconsistency here. Let's be consistent, let's be consistent. Thank you, Mister President.

(The Chair recognized Senator Gannon for a question of Senator Feltes.)

SENATOR GIUDA: Thank you, Mister President. Thank you, Senator, for taking my question. Is there anything in the charter or in the bylaws or in the laws of the city of Concord, I come from a town but not a city, that would prevent the city council from putting a ballot initiative forward, to see if the voters would support a $1 tax or a $5 or in this case as much as $151 tax on a vehicle?

SENATOR FELTES: Thank you very much Senator Giuda. Concord's a city, cities operate under charters, towns operate differently. Concord is a city.

SENATOR GIUDA: My question was is there anything in the charter or in the rules or the laws of the city that prevent the city council from holding a referendum or putting some sort of a ballot measure forward to request authority to put taxes on their citizens?

SENATOR FELTES: Senator Giuda, what you're suggesting is a change to state law to enable–cities.

SENATOR GIUDA: I don't need an education, a yes or no would suffice, they can't do that, is that true?

SENATOR FELTES: Well the answer to your question is you're suggesting a change to state law which would enable cities to go out for referendums on specific decisions. Now that would be a dramatic departure from how we've approached municipal law. So, if you have that amendment, I'm happy to debate it, I think a lot of people would vote no on it.

SENATOR GIUDA: I still don't understand. Is there anything that prevents the city of Concord from asking its citizens whether they want to put another tax on their vehicles?

SENATOR FELTES: Yes. State law.

SENATOR GIUDA: Thank you.

(The Chair recognized Senator Sanborn.)

SENATOR SANBORN: Thank you, Mister President. Mister President, I apologize, I did not say this before. Based upon our current ethics laws which you know I think penalize the business community, I am a taxpayer in the city of Concord, so therefore I feel compelled I must stand up and declare that this bill may or may not have an effect on me, although I do not own or register any vehicles in this town, and that said my position to speak.

I hear my friend from District 20, although I did not ask him how long he's been debating with Socrates, I do understand he's been debating for a long time. And what I heard from him say is ask us, the mayor came in and said ask us. Well, my good friend from Manchester, I did ask, because I am a business owner on Main Street. I talk to people from this community every single day. I've talked to members of the business community, I've talked to residents, I've talked to employees, I've talked to members of some of the leading advocacy organizations in this community. Not a single one of them said they supported this initiative. Not one that I spoke to. I got phone calls from the business community, I got phone calls from local residents. I got phone calls as much on this one as any bill that I have seen. People talk in this town all the time about the challenges in the past ten years, this community has had on taxes. I will tell you in full disclosure, in 2011 this town raised one of my building property taxes by 11 percent. The next year they raised it by 59 percent. Across the board tax increases. This is a city which knows if it needs to raise money, my good friend from District number 15, or my friend from District 2, has the ability to put into a budget, just like we put into our budget. If they feel they need more money, on and above the 50 percent increase they laid down this year, just on parking fines, they have that ability.

Now Mister President, I'm not here to beat up on the mayor and the people of the city, they are great people. And for the record one of the only communities in this state that this past year actually eliminated a bunch of fees and I commend them for that. I pay some of those fees. I'm very, very thankful that the city of Concord finally recognized it wanted to be more competitive and eliminated a bunch of fees Mister President, I am thankful for that. But this isn't a question as to whether or not the city of Concord has the right to raise its budget to spend more money. This is a question of whether or not the state of New Hampshire is going to give them the right to go make an increased new higher fee on every resident's car. So, us voting this bill down on an Inexpedient to Legislate basis, does not stop the city of Concord from being able to go out and raise other funds to manage, fix, repair or add additions to its parking facilities as we see they're doing one right behind you Mister President. This is only a question of funding source, not their right to fund it. So again, I would ask the body to stick with the committee on Inexpedient to Legislate measure. Thank you, Mister President.

(The Chair recognized Senator Feltes.)

SENATOR FELTES: Thank you, Mister President. Briefly, I'm not going to comment on the disputes the Senator from Bedford has with the city of Concord, I will say that in terms of the suggestion of a 50 percent increase, that's inaccurate. That's not based in fact. I'll also say this is enabling legislation; Nashua has it, the authority, Manchester has the authority. Nashua debated it and discussed it and adjusted their budgets elsewhere to deal with parking maintenance and parking garages. Manchester debated it and discussed it and they exercised their option under this. So, the city council voted 15-0 to authorize this to come to the Statehouse to enable that discussion and debate. I filed the legislation to enable the discussion and debate. Could the outcome be like Nashua? It could. Could it be like Manchester? It could too. I don't know. But let's allow the city of Concord to have that debate and discussion. Thank you, Mister President.

The question is on the adoption of the motion of Inexpedient to Legislate.

A roll call was requested by Senator Sanborn, seconded by Senator Avard.

The following Senators voted Yes: Giuda, Bradley, Gray, French, Ward, Sanborn, Daniels, Avard, Carson, Reagan, Birdsell, Gannon, Innis, Morse.

The following Senators voted No: Woodburn, Watters, Hennessey, Kahn, Lasky, Feltes, Cavanaugh, Soucy, D'Allesandro, Fuller Clark.

Roll Call, Yeas: 14 - Nays: 10. Adopted.

ADDENDUM REGULAR CALENDAR

COMMERCE
SB 317-FN, relative to veterans' preference in public employment. Interim Study, Vote 3-1. Senator Sanborn for the committee.

SENATOR SANBORN: Thank you, Mister President. Mister President, I move Senate Bill 317 to Interim Study. Mister President, our veterans make up about 10 percent of our state's population and we all support them and those who have always fought for our freedom. We know that, I think about a year ago, we passed a bill in this body to make sure that the state of New Hampshire showed preferential treatment for our veterans in municipal employment. What this bill would do is to just say if they were not given that opportunity for a job that the employees at the state of New Hampshire Mister President, would have to go find them other opportunities within the system and although we believe that is a worthwhile cause and something that maybe we should discuss, there are ramifications and potential liabilities about whether or not an employee at the state of New Hampshire would have the responsibility, and to what extent, to actually go find other opportunities if they lost that specific job itself. So, Mister President, this might send us down a slippery slope. As employers we need to hire employees who are best qualified for position offered, not because they fall into a different, certain category of people. And this bill would cause a burden to the state in having to find a new way and a new opportunity and bring that forward and we think it's something that would need further study. So please join the Commerce Committee in voting SB 317 to Interim Study. Thank you, Mister President.

(The Chair recognized Senator Carson.)

SENATOR CARSON: Thank you, Mister President. I rise to speak against the Interim Study motion and will ask the body to turn down that motion so a subsequent motion can be made. This bill was filed because I was

getting feedback from veterans across the state. That yes, we did file and we did pass legislation that gave veterans preference in state employment but most of that was predicated upon them taking some sort of an exam. There are very few state jobs that require any type of an exam. So, what I did was I worked to the Department of Administrative Services and the department, they're the ones that came up with this language. This is not an imposition, and in fact if you look at the legislation, it says the explanation shall include information for the veteran or disabled veteran regarding other public employer positions within the hiring agency for which the veteran or disabled veteran may be qualified to apply. No one is being required to find somebody another job. It is just giving them information about additional jobs. This is something that the Department of Administrative Services felt was within their purview, and something that they could do without any additional cost. So again, Mister President, I stand and ask the body to support our state's veterans as they come back from serving overseas to give them preference in employment here in New Hampshire. Thank you very much, Mister President.

(The Chair recognized Senator Lasky.)

SENATOR LASKY: Thank you, Mister President. I too rise in opposition to the committee report. The Senator from District 9 said this could possibly be a slippery slope. I think it's one we should take. We have as the Senator from District 14 said, this is not giving anybody a handout or causing any more imposition to a group of people or anyone in the state. This just gives an added boost to what our veterans are seeking. And so, I hope you will overturn the committee report so that we can have another disposition. Thank you.

(The Chair recognized Senator Daniels for a question of Senator Carson.)

SENATOR DANIELS: Could you tell me if the Department of Employment Security has on their list of open positions those that are public positions?

SENATOR CARSON: I'm sorry Senator, I can't answer that question. I don't know.

SENATOR DANIELS: Would you believe that the Department of Employment Security gives preferential treatment to veterans to begin with?

SENATOR CARSON: Yes, I would believe that.

SENATOR DANIELS: Thank you.

(The Chair recognized Senator Giuda for a question of Senator Carson.)

SENATOR GIUDA: Senator, as I'm reading the language in this bill, it states that upon written request to the veteran or disabled veteran that a department shall provide an explanation of its decision.

SENATOR CARSON: Yes.

SENATOR GIUDA: Are you aware that that's illegal in the private sector?

SENATOR CARSON: Thank you very much for your question Senator. Since this language came from the Department of Administrative Services, I would imagine that they would have already looked at this and discussed this. At no point in time was there ever any discussion about anything being illegal or unconstitutional.

SENATOR GIUDA: It is a well-established principle that a person seeking employment is not entitled to an explanation of why they are refused in the private sector.

SENATOR CARSON: Thank you.

(The Chair recognized Senator Birdsell.)

SENATOR BIRDSELL: Thank you, Mister President. In reading the language actually the information that a public employer in the language it says a public employer does not, that does not appoint a veteran or disabled veteran to a vacant position shall upon written request, so that's already in language. That's already in law. The only thing that's new is that the explanation shall include information on the veteran or disabled veteran regarding public employer positions. So, all they're adding to it is a list of the positions that if veteran is available, or that are available to the veteran. Thank you, Mister President.

The question is on the adoption of the motion of Interim Study.

A roll call was requested by Senator Carson, seconded by Senator Sanborn.

The following Senators voted Yes: Sanborn, Daniels.

The following Senators voted No: Woodburn, Giuda, Bradley, Watters, Hennessey, Gray, French, Ward, Kahn, Avard, Lasky, Carson, Feltes, Cavanaugh, Reagan, Soucy, Birdsell, D'Allesandro, Fuller Clark, Gannon, Innis, Morse.

Roll Call, Yeas: 2 - Nays: 22. Failed.

Senator Carson moved Ought to Pass.

A roll call was requested by Senator Sanborn, seconded by Senator Avard.

The following Senators voted Yes: Woodburn, Giuda, Bradley, Watters, Hennessey, Gray, French, Ward, Sanborn, Kahn, Daniels, Avard, Lasky, Carson, Feltes, Cavanaugh, Reagan, Soucy, Birdsell, D'Allesandro, Fuller Clark, Gannon, Innis, Morse.

The following Senators voted No: (None)

Roll Call, Yeas: 24 - Nays: 0. Adopted, bill ordered to Third Reading.

Recess. Out of recess.

SPECIAL ORDER

Without objection, the following bill is special ordered to the next session. Adopted.

COMMERCE
SB 318, amending the prohibitions on youth employment.

SB 351, relative to managed care programs under workers' compensation. Ought to Pass with Amendment, Vote 4-0. Senator Innis for the committee.

Commerce
March 6, 2018
2018-0975s
01/06

Amendment to SB 351

Amend the bill by replacing section 1 with the following:

1 Workers' Compensation; Managed Care Programs. Amend RSA 281-A:23-a, V to read as follows:

V. Every managed care program shall include a sufficient number of injury management facilitators, including resident injury management facilitators, who shall be qualified by reason of education, training, and experience to manage the injured employee's medical, hospital

and remedial care, vocational rehabilitation, modified duty, and return to work plans. An injury management facilitator shall work with the injured employee, employer, and medical, hospital and other providers to ensure that the injured employee receives effective, timely, and appropriate services in order to achieve maximum medical improvement and an expeditious return to work. Any person [~~employed~~] ***operating*** as an injury management facilitator [~~by~~] ***in conjunction with*** a managed care program ***under this section*** shall be approved by the commissioner with ratification by the workers' compensation advisory council. The commissioner shall, in consultation with the advisory council, by rule determine the number of facilitators which shall be sufficient.

2018-0975s

AMENDED ANALYSIS

This bill clarifies the qualifications of an injury management facilitator affiliated with managed care programs under workers' compensation.

SENATOR INNIS: Thank you, Mister President. I move Ought to Pass with Amendment on Senate Bill 351. This bill is relative to managed care programs under workers' compensation and requires approval of injury management facilitators by the Commissioner of Labor with ratification by the Workers' Compensation Advisory Council. The bill takes current practice from Rules and puts them in statute, giving the department clarification. The committee amendment changes the word employed to operating to clarify the issue for those contracted employees. Please join the Commerce Committee in voting Senate Bill 351 Ought to Pass with Amendment. Thank you, Mister President.

The question is on the adoption of the Committee Amendment. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to Third Reading.

SB 422, relative to advance notice of work schedules.
Inexpedient to Legislate, Vote 2-2. Senator Innis for the committee.

SENATOR INNIS: Thank you, Mister President. I move Inexpedient to Legislate on Senate Bill 422. The bill requires an employer to give fourteen days advance notice to work schedules to its employees which would be a burden on the business community such as the hospitality industry and the health care industry. Both of these industries rely on their employees to be flexible based on the amount of work required. This bill imposes penalties on an employer for making changes to the schedule with less than two weeks' notice. It allows for changes to the schedule for unforeseen circumstances, which is not defined in the bill or anywhere in statute. Please join the committee in voting Senate Bill 422 Inexpedient to Legislate. Thank you, Mister President.

(The Chair recognized Senator French.)

SENATOR FRENCH: Thank you, Mister President. I rise in opposition to that foolish recommendation of ITL from this committee. I ask this body to overturn that recommendation so I can bring forward an amendment that makes this a really good bill. So please follow with me Mister President, in opposing the ITL. Thank you, Mister President.

(The Chair recognized Senator Fuller Clark.)

SENATOR FULLER CLARK: Thank you very much. I too rise in opposition to this bill and on behalf of all of the working women in this state,

and recognizing that it is International Women's Day and how important it is for women to be able to have some control over their schedules going forward, and not to say that men don't need that too, but we do have carrying a lot of unpredictable obligations as parents so both men and women should be able when they're working in certain jobs to be able to be able to plan. That's all this bill is about and I would urge you to turn down the Inexpedient to Legislate and join with Senator French who will address some of the concerns that were raised in the hearing and provide us with a bill going forward that will work to give to our employees within a reasonable amount of time advance notice about their schedules. Thank you.

(The Chair recognized Senator Sanborn.)

SENATOR SANBORN: Thank you, Mister President. Mister President, first I rise as a business owner and based upon our current ethics laws which you know are punitive against business owners anyway, clearly as a business owner I may or may not have result as effect of this legislation, I'm still participating and to my dear friend and my respected colleague from Senate District number 21, I speak for every single employer in this state that we do not care if you're a man, if you're a woman, if you're tall, if you're short, if you're red, black, blue, brown, green, skinny, or fat. We care that you get up every morning, that you go to the bathroom, that you shower, that you show up. We treat everyone equally. And every time as an employer I hear some suggestion from anybody that suggests that the business community is preferential toward one person over another, it does make me upset. Because our community, our business owners in this state do not behave that way. As it relates to this bill, specifically this is a question as to whether or not you, every one of us in this room, want to financially punish, because that's what the bill does, any business that changes its schedule for its employees.

This bill requires that every business put a fourteen-day schedule out, and if there's a deviation from that, there's a penalty for it. Is that what we've come to at this point? How does a florist manage rain? How does a golf course manage the potential for rain? How does a restaurant manage the Red Sox going to game six but not game seven? Or the Patriots or the Celtics or the Bruins? How does any business know fully two weeks out every single person it needs on every single hour and then we're going to punish them if they deviate from that? Now what this is bill does not fair and doesn't say if an employee doesn't show up for work when they're scheduled that they get punished. I don't think they should, for the record. We need, we need to begin to trust the business community.

I would like to think that our economy, our state, our future, everything we do around here should at least give some deferential recognition to the fact that people try hard, business owners try hard, they have a good moral code, they have a good ethical code, they try to do the right thing every day. But they are so darn frustrated that this body, that side and this side, are standing them up against the wall every day and pinning back their ears. The single most important social program we could ever create in this state, that would solve virtually every single problem we have, is making sure people have a good job. Making sure people have a good job. And you can't be pro-job if you're not pro-business. Week after week after week we see bills come running through this body, come running through that body that tells the business community that we don't trust them, we don't think they're doing a good job, we think they're

making too much money we don't think they're doing this, we don't think they're doing that. What right do we have to continue to penalize people who are just trying to do the right thing?

Ladies and gentlemen, I hope you make a very clear statement in this and recognize the fact that it's not our job to micromanage every little business. It is not our job to sit there and tell some business owner that if they didn't get their schedule done on Monday, that they're going to have to pay a fine. That's not what we're about. It's not who we are. Please ladies and gentlemen, support the ITL.

(The Chair recognized Senator Feltes.)

SENATOR FELTES: Thank you, Mister President. Who we are is a state that values work and we value family and we value the proposition you shouldn't have to choose between the two if at all possible. Some reasonable advance notice of your work schedule allows you to plan your life, your family's life. Childcare; big issue in the state. If you're not able to figure out what your schedule is and may be a part time worker and you have childcare responsibilities, that's a cost to you and your family. If you have to change your schedule and you have to put your kid into childcare on a certain day when it wasn't already scheduled. Many cases that's an enhanced fee. If you have to take your kid out of childcare on short notice, you're still paying childcare, you're still paying it. That's a cost to working families, you want to talk about cost, that's a huge cost to working families. You want to talk about cost; caregivers. Caregivers who set up schedules, many cases have to schedule at least a few days in advance working with caretakers, in many cases working with children with disabilities, seniors with impairments. Want talk about cost, hospital costs, appointments, not incredibly easy to just switch a hospital appointment around at a moment's notice. There's a reason why the National Women's Law Center and every other group in the state working on this issue supports this bill. I'm not ecstatic about Senator French's amendment coming up, but I support it. And it is seven days which what Senator from Bedford said he provides in terms of notice to his employees. So, what's the burden? Seven days' notice on your work schedule? I think it's reasonable. And there's a big exemption for unforeseen circumstances so if we want to give some value to the notion, the value of work and the value of family and the value of not choosing between the two of them if at all possible. We'll vote down ITL and take up Senator French's amendment. Thank you very much, Mister President.

(The Chair recognized Senator Fuller Clark for a question of Senator Feltes.)

SENATOR FULLER CLARK: Senator Feltes, would you agree with me that what we heard in the testimony was that the majority of workers in the state who are paid hourly are women and that would be why I raise that issue, not because saying that businesses are treating male individuals differently than women individuals but that because we have such a high percentage of women who are hourly workers. Is that not of concern?

SENATOR FELTES: Absolutely Senator Fuller Clark. This is an issue that disproportionately affects low wage workers, especially in certain sectors and those low wage workers, many case part-time workers are disproportionately women and those working women in our state don't have the kind of reliance of some reasonable advance notice to plan their

lives and their children's lives. And so, I think Senator Fuller Clark, your remarks are well taken especially on International Women's Day. Thank you.

(The Chair recognized Senator Innis for a question of Senator Feltes.)

SENATOR INNIS: Thank you Senator for taking my question. It's a simple one. Unforeseen circumstances. Can you help me to understand what that might mean? In hospitality, whether is that an unforeseen circumstance, if all of a sudden guests don't show because they can't get there?

SENATOR FELTES: Thank you very much, Senator Innis. The answer would be yes, and another example that we had discussed in your committee was the issue of for example, you own a business in Laconia. Well, if you were to own a business in Laconia, for example it would not be an unforeseen circumstance in terms of the uptick during bike week. So that's an example of what's not an unforeseen circumstance. But things like weather related, supply chain abruptly goes out, that kind of stiff is unforeseen circumstances. Thank you very much.

SENATOR INNIS: Thank you for taking the question.

The question is on the adoption of the motion of Inexpedient to Legislate.

A roll call was requested by Senator Feltes, seconded by Senator Sanborn.

The following Senators voted Yes: Giuda, Bradley, Gray, Ward, Sanborn, Daniels, Avard, Reagan, Birdsell, Morse.

The following Senators voted No: Woodburn, Watters, Hennessey, French, Kahn, Lasky, Carson, Feltes, Cavanaugh, Soucy, D'Allesandro, Fuller Clark, Gannon, Innis.

Roll Call, Yeas: 10 - Nays: 14. Failed.

Senator Bradley moved to Lay on the Table.

A roll call was requested by Senator Soucy, seconded by Senator Feltes.

The following Senators voted Yes: Giuda, Bradley, Gray, Ward, Sanborn, Daniels, Avard, Reagan, Birdsell, Morse.

The following Senators voted No: Woodburn, Watters, Hennessey, French, Kahn, Lasky, Carson, Feltes, Cavanaugh, Soucy, D'Allesandro, Fuller Clark, Gannon, Innis.

Roll Call, Yeas: 10 - Nays: 14. Failed.

Senator French moved Ought to Pass.

Senator French offered a Floor Amendment.

Sen. French, Dist 7
March 7, 2018
2018-1002s
04/08

Floor Amendment to SB 422

Amend RSA 275:37-c, I as inserted by section 3 of the bill by replacing it with the following:

I. Employers shall provide hourly paid employees notice of the employees' work schedule at least 7 days in advance of any pay period.

Amend RSA 275:37-c as inserted by section 3 of the bill by inserting after paragraph IV the following new paragraph:

V. This section shall not apply to any employer with fewer than 15 employees.

2018-1002s

AMENDED ANALYSIS

This bill requires an employer with 15 or more employees to give advance notice of work schedules to its employees.

SENATOR FRENCH: Thank you, Mister President. I'd like to offer amendment 1002s, which changes this from fourteen days advance notice to seven. And it only applies to employers employing fewer than fifteen employees. I did not realize when this came forward that everyone didn't get seven days' notice. I thought everyone knew what they were going to, when they were going to be working the following week. So, it came to a surprise to me that they didn't. It surprised me that the lowest paid individuals in the state, the hourly workers, most of them are the lowest paid, don't know if they're going to be working next Wednesday or not. So, for those of us who say to these people, get two jobs, they can't get two jobs because they don't know if they're working next Wednesday until it gets to be Wednesday. So therefore, I'm bringing this forward, I think it's good legislation, I think we should support it and I really do believe seven days is not that much to ask. Thank you, Mister President.

(The Chair recognized Senator Lasky.)

SENATOR LASKY: Thank you, Mister President. I rise in support of this amendment. While I don't think it's absolutely the best, we hear often that compromise is who hurts most and right now I think we need to make a compromise. I think that this bill looks out for both segments, the employer and the employee, and in terms of just one example, in terms of childcare. Who is childcare most responsibility of? The woman. If a man got less than a week's notice or less or even more, he would say, okay to whomever his significant other might be or the woman that is in charge of your children. We need to do something about childcare. Well the woman definitely, you know, that's your job, and it's just the reality of the situation. So, I think that this bill as I said it before, is a compromise in terms of giving the employer some needed time if he has to change a schedule, and also giving the employee the needed time if she or he has to change their schedule. So, I urge you to pass this and let's do something to help out women on International Women's Day. Thank you.

(The Chair recognized Senator Sanborn for a question of Senator French.)

SENATOR SANBORN: Senator French, thanks for taking my question. So, your amendment if tied to the bill if it passes, specifically states requirements of this section shall not apply when regular operations of the employer are suspended due to circumstances beyond the employers control. Could you define that for me please?

SENATOR FRENCH: No, that's why we have courts. Which part?

SENATOR SANBORN: The question that I asked.

SENATOR FRENCH: Repeat your question, please. I wasn't following you here.

SENATOR SANBORN: The language specifically says that the requirements of this section shall not apply when regular operations of the employer are suspended due to circumstances beyond the employer's control.

SENATOR FRENCH: I would think in case of a fire or destroying of the building or weather.

SENATOR SANBORN: Rain?

SENATOR FRENCH: Weather, weather. I would say that would be part of it.

SENATOR SANBORN: So, if I understand you right, you're saying because it might rain or for other business because the sun might come out, because some businesses rely on rain and some business rely on sun, that just for the fact that the sun comes up and comes down and it rains or doesn't rain on any given day, that itself would be an extenuating circumstance?

SENATOR FRENCH: I would believe it would be.

SENATOR SANBORN: So explain to me Senator how if you want to put an amendment that says you want to require the business community to force people to make a schedule, but it doesn't have effect because the circumstances are that it might rain or might not rain which is the sun might come or the sun might not come up, would circumvent the need for it?

SENATOR FRENCH: The event would go on I'm sure, the day you planned the day, it may not be as successful, you may not have the same turn out, so then you may ask employees to leave. At which time you would owe them two hours pay. Because you booked their time, you've asked them to come and now you're releasing them with a penalty of two hours. Two hours.

SENATOR SANBORN: Senator, just to let you know the two hour minimum is in a much different place in law and it actually exists in law, and I'm asking you questions about the bill and the bill also says that no employer shall retaliate against any employee because the employee has exercised or may exercise his or her rights under this section. Could you describe what those rights are?

SENATOR FRENCH: That would be if you asked them to come in tomorrow and they couldn't, you couldn't retaliate against them for not being able to show up to work on a one day's notice.

SENATOR SANBORN: But Senator my understanding is this is a bill that requires a schedule. So, this isn't about asking someone if they would or would not show up or regardless if they wanted because you're suggesting the passage of your amendment that it requires a schedule.

SENATOR FRENCH: It requires a seven-day schedule and then if you needed additional employees to show up on a lesser time schedule, they could say no.

SENATOR SANBORN: So, Senator, you're acknowledging the fact that if an employer needs employees to show up…

SENATOR FRENCH: Needs.

SENATOR SANBORN: Needs. That with passage of this bill, that the employees don't show up and there's no need for them to show up.

SENATOR FRENCH: If they are unable to show up, because most hourly people will show up reasonably because they enjoy working for you. There are times when they can't, so they have the right to say no, I can't get sitting, no I have a doctor's appointment, no my father needs to be taken someplace.

SENATOR SANBORN: Thank you, Senator

President Pro Tempore Carson presiding.

(The Chair recognized Senator Morse.)

SENATOR MORSE: Thank you, Madam President. I would like to declare a conflict. I am a business owner and I certainly have more than fifteen employees. This bill has nothing to do with schedules and seven days and fifteen days. Nothing. This bill has everything to do with telling a person how to run their business. Because unlike some Senator's I believe I am helping every employee that I have in some way. I honestly believe my wife and I try our damnedest to make sure that those people have a good life. But I also am that kind of human that believes every businessman is trying to do that. Every businesswoman is trying to do that.

I honestly believe they know in order to retain employees that they have to. So, it isn't about whether or not you want to tell me today about schedules seven days ahead of time and whether or not I have to forecast the weather or anything like that. It's nothing to do with that. Because what's next? What is next that you're going to tell me to do to help my employees? Were you there at the meeting in November when I gave a bonus? Seven managers, brought them all in, said you know what, it's a good year. I'm going to do it ahead of time so that you can enjoy your holiday season. You weren't there. You didn't make the decision. You didn't have to listen to my wife afterward saying what are you doing. This is the reality. It's my business and I honestly believe I do it right. And I'm offended that you're trying to tell me I'm doing it wrong, because that's exactly what you're doing by debating this legislation. You're basically telling every business person. And I can tell you whether or not you own a business that you rent to people or you put materials up. You have a neighbor that owns a small plumbing company. You have a neighbor that owns a small lawn mowing company that has fifteen employees and every one of them when they hear about this debate, because we weren't organized enough to work against this, are going to say what are you doing? It's hard enough for me to get up in the morning and make a living. And now you want to tell me how to run my business. So, what is it tomorrow, Senator? What are you going to tell me to do tomorrow? Because that's the challenge we have right here today. It's not about this bill. It's about what's coming next. This government has spent a whole year of trying to eliminate stuff that just makes it burdensome on us as employers. That's what they've done. There's committees that come here and meet to look over what we passed over the years in rules to make sure that we eliminate it. Why? Because we're trying to drive the economy in New Hampshire, not drive people out of the economy. That's what this state's about. And we're sitting here debating a piece of legislation to tell the businessperson how they're going to function. I'm one of them. But I'm one of fifty some thousand businesses that are small. But bigger than fifteen. And you're starting with this. I can't wait to see what you propose next. Because you talk about a slippery slope? You're on it. Thank you, Madam President.

PARLIAMENTARY INQUIRY

(The Chair recognized Senator Bradley.)

SENATOR BRADLEY: I would like to move that we special order Senate Bill 313 to the conclusion of this debate. Thank you.

SPECIAL ORDER

Without objection, SB 313-FN is special ordered to after SB 422. Adopted.

(The Chair recognized Senator Gray.)

SENATOR GRAY: Thank you, Madam President. I took a look at the bill and it says seven days prior to the start of the pay period. Pay period is a very important word there, because if my pay period is one week or if my pay period is two weeks and normally an employee that we're talking about here wouldn't be longer than that but could be. That if I am going to have him work on the 13th of the month and that was a Thursday, and that my pay period starts at midnight Sunday the 9th, that the notification has to go out on the 1st, which is Saturday. Probably has to go out the day before. That is clearly you know thirteen days before the person may work if they're a person that we just bring in on Thursday, Friday and Saturday. And if it's a two week pay period it gets worse. So just the way the bill is and assuming a one week pay period, that I'm actually notifying a pay period ahead of the pay period they're going to work that they're you know and then they're actually going to do the work the next pay period makes an awful lot of problems. Down to the shipyard, I know we've got more than fifteen employees down at the shipyard, but these same things come up when you're talking about overtime. And right now, as far as I know it hasn't changed, it's forty-eight hours' notice before you're going to require somebody to work overtime. Okay? Something like that, a number of hours or a number of something would make a lot more sense than x number of days before the pay period starts, because I don't know about you, but when Renata and my wife get done with my calendar, I don't know what I'm doing the day after tomorrow. Okay? So after trying to put the numbers down in a little chart here, it just doesn't make sense to me. Thank you.

(The Chair recognized Senator Lasky.)

SENATOR LASKY: Thank you, Madam President. I'm truly sorry that this has gotten to be personal. I don't believe that this is a bill or a discussion that is about the good employer versus the bad employee or the good employee versus the bad employer. Senator Morse, I honest to God wish I had worked for a million of you who treated your employees with dignity, with courtesy and with respect. My career for good or bad, might have been a whole lot different. On the other hand, I think this is about treating employee and employer with the respect that you would demand or hope to get from a partner, from a spouse, from anyone that you would spend forty to fifty hours a week with. I believe that's all this is. There are realities that people deal with in that you need a certain number of days or hours or whatever to have your children taken care of. To perhaps get a ride if you don't have your own transportation. So, there are logistical problems that everybody deals with, employer or employee. And I see this as just trying to illuminate both sides that there is an issue here and that both sides should be treated with respect. I don't see it as a slippery slope. I know that again, in my working career if I had been treated many times like a person, that's all I wanted. I wasn't going to go asking you for flowers every Wednesday, a free lunch you know here and there, don't tell me how to wear my hair, don't tell me you know what kind of makeup I should wear, etcetera. I believe this is just about common courtesy. And so, I do hope we will take it out of the personal realm because I believe most employers want to do the right thing by their employees or else, they're not going to have them as workers. And I believe that most employees want to work hard, they need to work hard and it's for their own dignity that they do so. So, I hope that you will take it again, out of the realm of personal and just vote for this bill with the compromise amendment that Senator French has proposed. Thank you.

Without objection, Senator Woodburn moved the question. Adopted.

(The Chair recognized Senator Avard for a question of Senator French.)

SENATOR AVARD: Thank you for taking my question, Senator. Just with regards to individuals that work on per diem or if somebody's needed because a contract came through and they needed them right then and there and they weren't notified in time. Would this affect them?

SENATOR FRENCH: Per diem workers? This is hourly workers. So, in which way would affect them? You could call on them, I believe, and if they want to come in, they can, you can't retaliate against them if they choose not to.

SENATOR AVARD: Thank you for answering the question.

The question is on the adoption of the Floor Amendment.

A roll call was requested by Senator Sanborn, seconded by Senator French.

The following Senators voted Yes: Woodburn, Watters, Hennessey, French, Kahn, Lasky, Feltes, Cavanaugh, Soucy, D'Allesandro, Fuller Clark.

The following Senators voted No: Giuda, Bradley, Gray, Ward, Sanborn, Daniels, Avard, Reagan, Birdsell, Morse, Gannon, Innis, Carson.

Roll Call, Yeas: 11 - Nays: 13. Failed.

Senator Bradley moved to Lay on the Table.

A roll call was requested by Senator Avard, seconded by Senator Sanborn.

The following Senators voted Yes: Giuda, Bradley, Gray, French, Ward, Sanborn, Daniels, Avard, Reagan, Birdsell, Morse, Gannon, Innis, Carson.

The following Senators voted No: Woodburn, Watters, Hennessey, Kahn, Lasky, Feltes, Cavanaugh, Soucy, D'Allesandro, Fuller Clark.

Roll Call, Yeas: 14 - Nays: 10. Adopted.

President Morse presiding.

Recess. Out of recess.

FINANCE
SB 313-FN, reforming New Hampshire's Medicaid and Premium Assistance Program.
Ought to Pass with Amendment, Vote 10-1. Senator Bradley for the committee.

Senate Finance
March 6, 2018
2018-0984s
01/03

Amendment to SB 313-FN

Amend the title of the bill by replacing it with the following:

AN ACT reforming New Hampshire's Medicaid and Premium Assistance Program, establishing the granite workforce pilot program, and relative to certain liquor funds.

Amend the bill by replacing all after the enacting clause with the following:

1 New Chapter; New Hampshire Granite Advantage Health Care Program. Amend RSA by inserting after chapter 126-Z the following new chapter:

CHAPTER 126-AA
NEW HAMPSHIRE GRANITE ADVANTAGE HEALTH CARE PROGRAM

126-AA:1 Definitions. In this chapter:

I. "Commissioner" means the commissioner of the department of health and human services.

II. "Department" means the department of health and human services.

III. "Fund" means the New Hampshire granite advantage health care trust fund.

IV. "Program" means the New Hampshire granite advantage health care program.

V. "Remainder amount" means, for the 6-month period between January 1, 2019 and June 30, 2019 and for each single identified fiscal year thereafter for any authorized period of the granite advantage health care program, the cost of the program, including administrative costs attributable to the program, less the amount of revenue transferred from the alcohol abuse prevention and treatment fund pursuant to RSA 176-A:1, IV, less all federal reimbursement for the program that period or fiscal year, including federal reimbursement for administrative costs attributable to the program, and taxes attributable to premiums written for medical and other medical related services for the newly eligible Medicaid population as provided for under this chapter, consistent with RSA 400-A:32, III(b).

126-AA:2 New Hampshire Granite Advantage Health Care Program Established.

I.(a) The commissioner shall apply for any necessary waivers and state plan amendments to implement a 5-year demonstration program beginning on January 1, 2019 to create the New Hampshire granite advantage health care program which shall be funded exclusively from non-general fund sources, including federal funds. The commissioner shall include in an application for the necessary waivers submitted to the Centers for Medicare and Medicaid Services (CMS) a waiver of the requirement to provide 90-day retroactive coverage. To receive coverage under the program, those individuals in the new adult group who are eligible for benefits shall choose coverage offered by one of the managed care organizations (MCOs) awarded contracts as vendors under Medicaid managed care, pursuant to RSA 126-A:5, XIX(a). The program shall make coverage available in a cost-effective manner and shall provide cost transparency measures, and ensure that patients are utilizing the most appropriate level of care. Cost effectiveness shall be achieved by offering cash incentives and other forms of incentives to be offered to the insured by choosing preferred lower cost medical providers. Loss of incentives shall also be employed. MCOs shall employ reference-based pricing, cost transparency, and the use of incentives and loss of incentives to the Medicaid and newly eligible population. For the purposes of this subparagraph, "reference-based pricing" means setting a maximum amount payable for certain medical procedures.

(b) The department shall ensure through managed care contracts that MCOs incorporate measures to promote continuity of coverage, including, but not limited to, assisting over income participants in applying for coverage on the federal marketplace in New Hampshire and maintaining care and case management during the pendency of such application.

(c) The MCOs shall promote personal responsibility through the use of incentives, loss of incentives, and case management to the greatest extent practicable.

(d) Prior to submitting the waiver or state plan amendment to CMS, the commissioner shall present the waiver or state plan amendment to

the governor and the fiscal committee of the general court for approval. The program shall not commence operation until such waivers or state plan amendments have been approved by CMS. All necessary waivers and state plan amendments shall be submitted by June 30, 2018. If all waivers necessary for the program are not approved by December 1, 2018, the commissioner shall immediately notify all program participants that the program will be terminated in accordance with the federally required Special Terms and Conditions No. 11-W-003298/1.

(e) In order to combat the opioid and heroin crisis facing New Hampshire, the department shall establish behavioral health rates sufficient to ensure access to, and provider capacity for all behavioral health services including, as appropriate, establishing specific substance use disorder services rate cells for inclusion into capitated rates for managed care.

(f) Any person transitioning from the premium assistance program to the program shall not lose coverage due solely to the transition, which shall be for a period of at least 90 days. All MCOs shall honor all pre-existing authorizations for care plans and treatments for all program participants for a period of not less than 90 days after enrollment.

(g)(1) The commissioner shall include in MCO contracts with the state clinically and actuarially sound incentives designed to improve care quality and utilization and to lower the total cost of care within the Medicaid managed care program. The commissioner shall also include in the MCO contract provisions an obligation for the MCO to include provider alignment incentives to leverage the combined efforts of the parties to achieve the purposes of the incentives. Preferential auto-assignment of newly eligible members, shared incentive pools, and differential capitation rates are among the options for incentives the commissioner may employ to achieve improved performance. Initial areas to improve care quality and utilization and to lower the total cost of care may include, but are not limited to:

(A) Appropriate use of emergency departments relative to low acuity non-emergent visits.

(B) Reduction in preventable admissions and 30-day hospital readmission for all causes.

(C) Timeliness of prenatal care and reductions in neonatal abstinence births.

(D) Timeliness of follow-up after a mental illness or substance use disorder admission.

(E) Reduction of polypharmacy resulting in drug interaction harm.

(2) The commissioner shall include in MCO contracts actuarial appropriate rebate provisions for failure to implement contractually agreed upon incentive measures.

(h) Savings generated as a result of individuals disenrolled from the program for failing to meet the work and community engagement requirement shall not be included in any calculation submitted to CMS to establish federal budget neutrality of any waiver issued for the program.

(i) Consistent with the state plan amendment submitted by the department and approved by CMS, all contracts between a Medicaid managed care organization and a federally qualified health care center, as defined in section 1905(1)(2)(B) of the Social Security Act, 42 U.S.C. section 1396d(1)(2)(B), providing services in geographic areas served by the plan, shall reimburse each such center for such services as provided in 42 U.S.C. section 18022(g).

II.(a) To receive benefits under this section and to the extent allowed by federal law, the individual shall:

(1) Provide all necessary information regarding financial eligibility, assets, residency, citizenship or immigration status, and insurance coverage to the department in accordance with rules, or interim rules, including those adopted under RSA 541-A;

(2) Inform the department of any changes in financial eligibility, residency, citizenship or immigration status, and insurance coverage within 10 days of such change; and

(3) At the time of enrollment acknowledge that the program is subject to cancellation upon notice.

(b) If allowed by federal law, all resources which the individual and his or her family own shall be considered to determine eligibility under this paragraph, including cash, bank accounts, stocks, bonds, permanently unoccupied real estate, and trusts. The home in which the individual resides in, furniture, and one vehicle owned by the individual applying for benefits shall be excluded from the eligibility requirements for benefits under this paragraph. If, after counting or excluding the individual's household's resources, the total countable resources equal or fall below $25,000, he or she shall be considered asset eligible.

III.(a) Newly eligible adults who are unemployed shall be eligible to receive benefits under this paragraph if the commissioner finds that the individual is engaging in at least 100 hours per month based on an average of 25 hours per week in one or more work or other community engagement activities, as follows:

(1) Unsubsidized employment, including nonprofit organizations.

(2) Subsidized private sector employment.

(3) Subsidized public sector employment.

(4) On-the-job training.

(5) Job skills training related to employment, including credit hours earned from an accredited college or university in New Hampshire. Academic credit hours shall be credited against this requirement on an hourly basis.

(6) Job search and job readiness assistance, including, but not limited to, persons receiving unemployment benefits and other job training related services, such as job training workshops and time spent with employment counselors, offered by the department of employment security. Job search and job readiness assistance under this section shall be credited against this requirement on an hourly basis.

(7) Vocational educational training not to exceed 12 months with respect to any individual.

(8) Education directly related to employment, in the case of a recipient who has not received a high school diploma or a certificate of high school equivalency.

(9) Satisfactory attendance at secondary school or in a course of study leading to a certificate of general equivalence, in the case of a recipient who has not completed secondary school or received such a certificate.

(10) Community service or public service.

(11) Caregiver services for a nondependent relative or other person with a disabling medical or developmental condition.

(12) Participation in substance use disorder treatment.

(b) If an individual in a family receiving benefits under this paragraph refuses to engage in work or community engagement activities required in accordance with this subparagraph, the assistance shall be terminated. The commissioner shall adopt rules under RSA 541-A to de-

termine good cause and other exceptions to termination. An individual may apply for good cause exemptions which shall include, at a minimum, the following verified circumstances:

(1) The beneficiary experiences the birth, or death, of a family member living with the beneficiary.

(2) The beneficiary experiences severe inclement weather, including a natural disaster, and therefore was unable to meet the requirement.

(3) The beneficiary has a family emergency or other life-changing event such as divorce.

(4) The beneficiary is a victim of domestic violence, dating violence, sexual assault, or stalking consistent with definitions and documentation required under the Violence Against Women Reauthorization Act of 2013 under 24 C.F.R. section 5.2005 and 24 C.F.R. section 5.2009, as determined by the commissioner pursuant to rulemaking under RSA 541-A.

(c) This subparagraph shall only apply to those considered, able-bodied adults as described in section 1902(a)(10)(A)(i)(VIII) of the Social Security Act of 1935, as amended, 42 U.S.C. section 1396a(a)(10)(A)(i). In this subparagraph, "childless" means an adult who does not live with a dependent child which includes a child under 19 years of age or under 20 years of age if the child is a full-time student in a secondary school or the equivalent.

(d) This subparagraph shall not apply to:

(1) A person who is temporarily unable to participate in the requirements under subparagraph (a) due to illness, incapacity, or treatment, including inpatient treatment, as certified by a licensed physician, an advanced practice registered nurse (APRN), a licensed behavioral health professional, a licensed physician assistant, a licensed drug and alcohol counselor (LADAC), or a board-certified psychologist. The physician, APRN, licensed behavioral health professional, licensed physician assistant, LADAC, or psychologist shall certify, on a form provided by the department, the duration and limitations of the disability.

(2) A person participating in a state-certified drug court program, as certified by the administrative office of the superior court.

(3) A parent or caretaker as identified in RSA 167:82, II(g) where the required care is considered necessary by a licensed physician, APRN, board-certified psychologist, physician assistant, or licensed behavioral health professional who shall certify the duration that such care is required.

(4) A parent or caretaker of a dependent child under 13 years of age or a child with developmental disabilities who is residing with the parent or caretaker.

(5) Pregnant women.

(6) A beneficiary who has a disability as defined by the Americans with Disabilities Act (ADA), section 504 of the Rehabilitation Act, or section 1557 of the Patient Protection and Affordable Care Act and is unable to meet the requirement for reasons related to that disability; or who has an immediate family member in the home with a disability under federal disability rights laws and who is unable to meet the requirement for reasons related to the disability of that family member, or the beneficiary or an immediate family member who is living in the home or the beneficiary experiences a hospitalization or serious illness.

(7) Beneficiaries who are identified as medically frail, under 42 C.F.R section 440.315(f), and as defined in the alternative benefit plan in the state plan.

(8) Any beneficiary who is in compliance with the requirement of the Supplemental Nutritional Assistance Program (SNAP) and/or Temporary Assistance to Needy Families (TANF) employment initiatives.

(e) The commissioner shall adopt rules under RSA 541-A pertaining to the community engagement requirement. Those rules shall be consistent with the terms and conditions of any waiver issued by the Centers for Medicare and Medicaid Services for the program and shall address, at a minimum, the following:

(1) Enrollment, suspension, and disenrollment procedures in the program.

(2) Verification of compliance with community engagement activities.

(3) Verification of exemptions from participation.

(4) Opportunity to cure and re-activation following noncompliance, including not being barred from re-enrollment.

(5) Good cause exemptions.

(6) Education and training of enrollees.

IV. The commissioner shall implement the work and community engagement requirement under paragraph III beginning January 1, 2019 in accordance with the terms and conditions of any waiver approved by CMS. Verification of qualifying activities, exemptions, and enrollee status shall be accomplished in the following manner:

(a) MCOs under contract with the department shall share enrollee reported information regarding the work and community engagement requirement status obtained through standard contract activities including enrollment, outreach activities, and enrollee care management.

(b) For the period of January 1, 2019 through June 30, 2020 only, the department shall verify enrollee status to the greatest extent practicable through the verification of enrollee and MCO reported status and information, including information from the eligibility file. Enrollees shall be required to report information regarding their qualifying activities, exemptions, enrollee status, and changes in their status to the department in accordance with the department's rules.

(c) No later than January 1, 2019, the commissioner shall submit to the governor, president of the senate, and speaker of the house of representatives a plan for the implementation of a fully automated verification system that utilizes state and commercial data sources to assess compliance with all work and community engagement activities beginning on July 1, 2020. The plan shall provide an option to hire a third party vendor to manage the automated verification system.

V. A person shall not be eligible to enroll or participate in the program, unless such person verifies his or her United States citizenship by 2 forms of identification and proof of New Hampshire residency by either a New Hampshire driver's license or a nondriver's picture identification card issued pursuant to RSA 260:21.

VI. No person, organization, department, or agency shall submit the name of any person to the National Instant Criminal Background Check System (NICS) on the basis that the person has been adjudicated a "mental defective" or has been committed to a mental institution, except pursuant to a court order issued following a hearing in which the person participated and was represented by an attorney.

VII. For any person determined to be eligible and who is enrolled in the program, the MCO shall support the individual to arrange a wellness visit with his or her primary care provider, either previously identified or selected by the individual from a list of available primary care physi-

cians. The wellness visit shall include appropriate assessments of both physical and mental health, including screening for depression, mood, suicidality, and unhealthy substance use, for the purpose of developing a health wellness and care plan.

VIII. Any person receiving benefits from the program shall be responsible for providing information regarding his or her change in status or eligibility, including current contact information. The commissioner shall adopt rules, under RSA 541-A, pertaining to the opportunity to cure and for re-activation following noncompliance.

126-AA:3 The New Hampshire Granite Advantage Health Care Trust Fund.

I. There is hereby established the New Hampshire granite advantage health care trust fund which shall be accounted for distinctly and separately from all other funds and shall be non-interest bearing. The fund shall be administered by the commissioner and shall be used solely to provide coverage for the newly eligible Medicaid population as provided for under RSA 126-AA:2, and to pay for the administrative costs for the program. The commissioner may accept any gifts, grants, donations, or other funding from any source and shall deposit all such revenue received into the fund. No state general fund appropriations shall be deposited into the fund. All moneys in the fund shall be nonlapsing and shall be continually appropriated to the commissioner for the purposes of the fund. The fund shall be authorized to pay and/or reimburse the cost of medical services and cost-effective related services, including without limitation, capitation payments to managed care organizations.

II. The commissioner, as the administrator of the fund, shall have the sole authority to:

(a) Apply for federal funds to support the program.

(b) Notwithstanding any provision of law to the contrary, accept and expend federal funds as may be available for the program and the commissioner shall notify the bureau of accounting services, by letter, with a copy to the fiscal committee of the general court and the legislative budget assistant.

(c) Make payments and reimbursements from the fund as outlined in this section.

III. The commissioner shall submit a report to the governor and the fiscal committee of the general court detailing the activities and operation of the trust fund annually within 90 days of the close of each state fiscal year.

IV. On or before August 15, 2018, the commissioner, in consultation with the insurance commissioner, shall estimate the remainder amounts for the period of January 1, 2019 to June 30, 2019 and for state fiscal year 2020. The commissioner shall report the estimated annual remainder amount to the insurance commissioner, the New Hampshire Health Plan, the governor, the speaker of the house of representatives, and the president of the senate. Thereafter, on or before August 15 of each fiscal year, the commissioner, in consultation with the insurance commissioner, shall estimate the remainder amounts for both the current and next fiscal year. The commissioner shall report the estimated remainder amount to the insurance commissioner, the New Hampshire Health Plan, the governor, the speaker of the house of representatives, and the president of the senate.

V. On or before September 30, the commissioner shall calculate the estimated final remainder amount for the 6-month period between January 1, 2019 and June 30, 2019. On or before September 30 of each sub-

sequent year, the commissioner shall calculate the estimated final remainder amount for the prior fiscal year. If the actual remainder amount is greater than the prior calculated estimated remainder for any fiscal year, the difference shall be retained in the trust fund and shall be used in the calculation of future estimated remainder amounts.

VI. The commissioner of the department of health and human services, in accordance with the most current available information, shall be responsible for determining, every 6 months commencing no later than December 31, 2018, whether there is sufficient funding in the fund, to cover projected program costs for the nonfederal share for the next 6-month period. If at any time the commissioner determines that a projected shortfall exists, he or she shall terminate the program in accordance with the federally approved terms and conditions issued by CMS.

126-AA:4 Commission to Evaluate the Effectiveness and Future of the New Hampshire Granite Advantage Health Care Program.

I. There is hereby established a commission to evaluate the effectiveness and future of the New Hampshire granite advantage health care program.

(a) The members of the commission shall be as follows:

(1) Three members of the senate, appointed by the president of the senate, one of whom shall be a member of the minority party.

(2) Three members of the house of representatives, appointed by the speaker of the house of representatives, one of whom shall be a member of the minority party.

(3) The commissioner of the department of health and human services, or designee.

(4) The commissioner of the department of insurance, or designee.

(5) A representative of each managed care organization awarded contracts as vendors under the Medicaid managed care program, appointed by the governor.

(6) A representative of a hospital that operates in New Hampshire, appointed by the speaker of the house of representatives.

(7) A public member, who has health care expertise, appointed by the senate president.

(8) A public member, who currently receives coverage through the program, appointed by the speaker of the house of representatives.

(9) A public member representing the interests of taxpayers in New Hampshire, appointed by the president of the senate.

(10) A representative of the medical care advisory committee, department of health and human services, appointed by the chairperson of the committee.

(11) A licensed physician, appointed by the governor.

(12) A licensed mental health professional, appointed by the governor.

(13) A licensed substance use disorder professional, appointed by the governor.

(14) An advanced practice registered nurse (APRN), appointed by the New Hampshire Nurse Practitioner Association.

(15) The chairperson of the governor's commission on alcohol and drug abuse prevention, treatment, and recovery, or designee.

(b) Legislative members of the commission shall receive mileage at the legislative rate when attending to the duties of the commission.

II.(a) The commission shall evaluate the effectiveness and future of the program. Specifically the commission shall:

(1) Review the program's financial metrics.

(2) Review the program's product offerings.

(3) Review the program's impact on insurance premiums for individuals and small businesses.

(4) Make recommendations for future program modifications, including, but not limited to whether the program is the most cost-effective model for the long term versus a return to private market managed care.

(5) Evaluate non-general fund funding options for longer term continuation of the program, including options to accept funding from the federal government allowing a self-administered program.

(6) Review up-to-date information regarding changes in the level of uncompensated care through shared information from the department, the department of revenue administration, the insurance department, and provider organizations and the program's impact on insurance premium tax revenues and Medicaid enhancement tax revenue.

(7) Review the granite workforce pilot program.

(8) Evaluate reimbursement rates to determine if they are sufficient to ensure access to and provider capacity for all behavioral health services.

(9) Review the number of people who are found ineligible or who are dropped from the rolls of the program because of the work requirement.

(10) Review the program's provider reimbursement rates and overall financing structure to ensure it is able to provide a stable provider network and sustainable funding mechanism that serves patients, communities, and the state of New Hampshire.

(b) Any funding solutions recommended by the commission shall not include the use of new general funds.

(c) The commission shall solicit information from any person or entity the commission deems relevant to its study.

(d) The commission shall make a recommendation on or by February 1, 2019 to the commissioner concerning recommended monitoring and evaluation requirements for work and community engagement requirements, including a draft of proposed metrics for quarterly and annual reporting, including suggested costs and benefits evaluations.

III. The members of the commission shall elect a chairperson from among the members. The first meeting of the commission shall be called by the first-named senate member. The first meeting of the commission shall be held within 45 days of the effective date of this section. Ten members of the commission shall constitute a quorum.

IV. The commission shall make an interim report on or before December 1, 2020 and a final report together with its findings and any recommendations for proposed legislation to the president of the senate, the speaker of the house of representatives, the senate clerk, the house clerk, the governor, and the state library on or before December 1, 2022.

126-AA:5 Evaluation Report Required.

I. The program shall employ an outcome-based evaluation of its Medicaid program annually to:

(a) Provide accountability to patients and the overall program.

(b) Ensure that patients are making informed decisions in carrying out health care choices and utilizing the most appropriate level of care.

(c) Ensure that the use of incentives, the loss of incentives, cost transparency, and reference based pricing have been effective in lowering costs.

II. The results of the evaluation conducted under this section shall be in the form of a report to be provided to CMS, the president of the

senate, the speaker of the house of representatives, the governor, and the fiscal committee of the general court by December 31 of each year beginning in 2019.

2 Purpose Statement. The purpose of sections 3-9 of this act is to establish a pilot program by using allowable federal funds available from the Temporary Assistance to Needy Families (TANF) program to end the dependence of needy parents and low income childless adults ages 18 through 24 on governmental programs by promoting job and work preparation and placing them into high labor need jobs based on the goals set forth in 45 C.F.R. section 260.20. The long-term goal of this program is to place low-income individuals into unsubsidized jobs in high labor need areas, transition them to self-sufficiency through providing career pathways with specific skills, and assist in eliminating barriers to work such as transportation and childcare. Taken together, these measures are designed to help low-income participants break the cycle of poverty and move them from living on the margin to the middle class and beyond.

3 Granite Workforce; Pilot Program Established.

I. The commissioner of the department of health and human services shall use allowable funds from the Temporary Assistance to Needy Families (TANF) program to provide subsidies to employers in high need areas, as determined by the department of employment security based upon workforce shortages, and to create a network of assistance to remove barriers to work for low-income families. The funds shall be used to establish a pilot program, referred to as Granite Workforce, a TANF nonassistance program, which shall accept enrollments by applicants for an initial period of 6 months. The program shall be jointly administered by the department of health and human services and the department of employment security. No cash assistance shall be provided to eligible participants through Granite Workforce. The total cost of the pilot program shall not exceed $3,000,000 in federal TANF funds for the biennium ending June 30, 2019.

II. To be eligible for Granite Workforce, applicants shall be:

(a) In a household with an income up to 138 percent of the federal poverty level; and

(b) Parents aged 18 through 64 with a child under age 18 in the household;

(c) Noncustodial parents aged 18 through 64 with a child under the age of 18; or

(d) Childless adults between 18 and less than 25 years of age.

III. The department of employment security shall determine eligibility and entry into the program, using nationally recognized assessment tools for vocational and job readiness assessments. Vocational assessments shall include educational needs, vocational interest, personal values, and aptitude. The department shall use the assessment results to work with the participant to produce a long-term career plan for moving into the middle class and beyond.

IV. Except as otherwise provided in paragraph II regarding program eligibility, administrative rules governing the New Hampshire employment program, adopted under RSA 541-A as chapter He-W 600, shall apply to the Granite Workforce pilot program.

4 Granite Workforce; Subsidies for Employers.

I. Upon placement of a participant into a paying job and receiving verification of employment and wages from the employer, the department of employment security shall pay the employer a subsidy of $2,000.

II. After at least 3 full months of the continued employment of the participant and receiving verification of the continued employment and wages from the employer, the department of employment security shall pay the employer a second subsidy of $2,000.

III. If an overpayment is made, the employer shall reimburse the department that amount upon being notified by the department.

5 Referral for Barriers to Employment. The department of health and human services, in consultation with the department of employment security, shall issue a request for applications (RFAs) for community providers interested in offering case management services to participants with barriers to employment. Participants shall be identified by the department of employment security using an assessment process that screens for barriers to employment including, but not limited to, transportation, child care, substance use, mental health, and domestic violence. Thereafter, the department of employment security shall refer to community providers those individuals deemed needing assistance with removing barriers to employment. When child care is identified as a barrier to employment, the department of employment security or the community provider shall refer the individual to available child care service programs, including, specifically the child care scholarship program administered by the department of health and human services. In addition to employer subsidies authorized under this section, TANF funds allocated to the Granite Workforce program shall be used to pay for other services that eliminate barriers to work in accordance with all TANF guidelines.

6 Network of Education and Training.

I. If after the assessment conducted by the department of employment security additional job training, education, or skills development is necessary prior to job placement, the department of employment security shall address those needs by:

(a) Referring individuals to training and apprenticeship opportunities offered by the community college system of New Hampshire;

(b) Referring individuals to the department of business and economic affairs to utilize available training funds and support services;

(c) Referring individuals to education and employment programs for youth available through the department of education; or

(d) Referring individuals to training available through other colleges and training programs.

II. All industry specific skills and training will be provided for jobs in high need areas, as determined by the department of employment security based upon workforce shortages.

7 Job Placement. Upon determining the participant is job ready, the department of employment security shall place individuals into jobs with employers in high need areas, as determined by the department of employment security based upon workforce shortages. This includes, but is not limited to, high labor need jobs in the fields of healthcare, advanced manufacturing, construction/building trades, information technology, and hospitality. Training and job placement shall focus on:

I. Supporting health care/safety issues: training/jobs to combat the opioid crisis, including nurses, nursing assistants, clinicians, social workers, and treatment providers at the licensed alcohol and drug addictions counselor and licensed mental health counselor levels. Additionally, jobs to address long-term care needs, home healthcare services, and expanding mental/behavioral health services.

II. Advanced manufacturing to meet employer needs: training/jobs that include computer-aided drafting and design, electronic and mechanical engineering, precision welding, computer numerical controlled precision machining, robotics, and automation.

III. Construction/building trades to address critical infrastructure needs: training/jobs for building roads, bridges, municipality infrastructure, and ensuring safe drinking water.

IV. Information technology: training/jobs to allow businesses to excel in an ever-increasing network dependent business environment.

V. Hospitality-training/jobs to address the workforce shortage and support New Hampshire's tourism industry, to include but not be limited to hotel workers, restaurant workers, campground workers, lift operators, state park workers, and amusement park workers.

8 Reporting Requirement; Measurement of Outcomes.

I. The department of health and human services shall prepare a report on the outcomes of the Granite Workforce program using appropriate standard common performance measures. Program partners, as a condition of participation, shall be required to provide the department with the relevant data. Metrics to be measured shall include, but are not limited to:

(a) Degree of participation.

(b) Progress with overcoming barriers.

(c) Entry into employment.

(d) Job retention.

(e) Earnings gain.

(f) Movement within established federal poverty level measurements, including the Supplemental Nutrition Assistance Program (SNAP) and the New Hampshire granite advantage health care program under RSA 126-AA.

(g) Health insurance coverage provider.

(h) Attainment of education or training, including credentials.

II. The report shall be issued to the speaker of the house of representatives, president of the senate, the governor, the commission to evaluate the effectiveness and future of the New Hampshire granite advantage health care program established under RSA 126-AA:4, and the state library on or before December 1, 2019.

9 Insurance Premium Tax; New Hampshire Granite Advantage Health Care Program. Amend RSA 400-A:32, III to read as follows:

III.(a) Except as provided in subparagraph (b), the taxes imposed in paragraphs I and II of this section shall be promptly forwarded by the commissioner to the state treasurer for deposit to the general fund.

(b) Taxes imposed attributable to premiums written for medical and other medical related services for the newly eligible Medicaid population as provided for under RSA [~~126-A:5, XXIV-XXVI~~] ***126-AA*** shall be deposited into the New Hampshire [~~health protection trust fund, established in RSA 126-A:5-b~~] ***granite advantage health care trust fund established in RSA 126-AA:3***. The commissioner shall notify the state treasurer of sums for deposit into the New Hampshire [~~health protection~~] ***granite advantage health care*** trust fund no later than 30 days after receipt of said taxes***. The moneys in the trust fund may be used for the administration of the New Hampshire granite advantage health care program, established in RSA 126-AA***.

10 Plan of Operation for the High Risk Pool. Amend RSA 404-G:5-a, IV(d) to read as follows:

(d) [~~For the period of January 1, 2017 through December 31, 2018,~~] An amount not to exceed [~~50 percent of the remainder amount, as de-~~

~~fined in RSA 126-A:5-c, I(b), less the amount made available to the program pursuant to RSA 404-G:11, VI. The association shall transfer all amounts collected pursuant to this subparagraph and the amount made available to the program pursuant to RSA 404-G:11, VI to the New Hampshire health protection trust fund, established pursuant to RSA 126-A:5-b~~] ***the lesser of the remainder amount or the amount of revenue transferred from the alcohol abuse prevention and treatment fund pursuant to RSA 176-A:1, IV and taxes attributable to premiums written for medical and other medical-related services for the newly eligible Medicaid population, as defined in RSA 126-AA:1, V***.

11 New Hampshire Granite Advantage Health Care Program; Federal Match. Amend 2014, 3:10, I as amended by 2016,13:13 to read as follows:

I. If at any time the federal match rate applied to medical assistance for newly eligible adults under [~~RSA 126-A:5, XXIV-XXV between July 1, 2014 – December 31, 2016 is less than 100 percent, less than 95 percent in 2017 and less than 94 percent in 2018, of the amount as set forth in 42 U.S.C. section 1396d(y)(1), then RSA 126-A:5, XXIV and XXV shall be~~] ***RSA 126-AA is less than 94 percent in 2018, less than 93 percent in 2019, and less than 90 percent in 2020 and any year thereafter in which the program is authorized, then the program is hereby*** repealed 180 days after the event under this [~~subparagraph~~] ***paragraph*** occurs upon notification by the commissioner of the department of health and human services to the secretary of state and the director of legislative services. The commissioner shall immediately issue notice to program participants of the program's pending repeal ***consistent with the terms and conditions of any waiver approved by the Centers for Medicare and Medicaid Services for the program***.

12 Liquor Commission; Funds. Amend RSA 176:16, III to read as follows:

III. [~~3.4~~] ***Five*** percent of the previous fiscal year gross profits derived by the commission from the sale of liquor shall be deposited into the alcohol abuse prevention and treatment fund established by RSA 176-A:1. For the purpose of this section, gross profit shall be defined as total operating revenue minus the cost of sales and services as presented in the state of New Hampshire comprehensive annual financial report, statement of revenues, expenses, and changes in net position for proprietary funds.

III-a. In order to facilitate the initial funding of the granite advantage health care trust fund, established under RSA 126-AA:3, for the period of January 1 to June 30, 2019, an amount no less than 1/2 of the 5 percent of such gross profits based on the state comprehensive annual financial report for the state fiscal year 2017 shall be deposited into the alcohol abuse prevention and treatment fund no later than November 30, 2018.

13 Alcohol Abuse Prevention and Treatment Fund. Amend RSA 176-A:1, II and III to read as follows:

II. The fund shall be nonlapsing and continually appropriated for the purposes of funding alcohol education and abuse prevention and treatment programs. ***The commissioner of the department of health and human services may accept gifts, grants, donations, or other funding from any source and shall deposit all such revenue received into the fund.*** The state treasurer shall invest the moneys deposited in the fund as provided by law. Interest earned on moneys deposited in the fund shall be deposited into the fund.

III. Moneys ***received from all other sources other than the liquor commission pursuant to RSA 176:16, III*** shall be disbursed from the fund upon the authorization of the governor's commission on alcohol and drug abuse prevention, treatment, and recovery established pursuant to RSA 12-J:1. Funds disbursed shall be used for alcohol and other drug abuse prevention, treatment, and recovery services, and other purposes related to the duties of the commission under RSA 12-J:3.

IV. Moneys received from the liquor commission pursuant to RSA 176:16, III and deposited into the fund shall be transferred to the New Hampshire granite advantage health care trust fund, established under RSA 126-AA:3, for use in ensuring the delivery of substance use disorder prevention, treatment, and recovery and other behavioral health services for persons enrolled in the New Hampshire granite advantage health care program; provided, however, that any program or service approved by the governor's commission on alcohol and drug abuse prevention, treatment, and recovery that would have been funded from moneys transferred from the fund shall be paid for with federal or other funds available from within the department of health and human services. For this purpose and no later than December 1, 2018, the sum of $5,100,000 from the alcohol abuse and prevention treatment fund shall be transferred to the granite advantage health care trust fund for use in the period of January 1 to June 30, 2019. Beginning July 1, 2019 the funds deposited into the fund shall be transferred to the granite advantage health care trust fund established under RSA 126-AA:3 annually no later than June 1 for use during the forthcoming fiscal year based upon the most recently issued comprehensive annual financial report of the state.

14 Individual Health Insurance Market; Purpose. Amend RSA 404-G:1, II to read as follows:

II. Create a nonprofit, voluntary organization to facilitate the availability of affordable individual nongroup health insurance by establishing an assessment mechanism and an individual health insurance market mandatory risk sharing plan as a mechanism to distribute the risks associated within the individual nongroup market and to support the [~~marketplace premium assistance program established in RSA 126-A:5, XXV~~] ***New Hampshire granite advantage health care program established in RSA 126-AA***.

15 Individual Health Insurance Market; Definitions. Amend RSA 404-G:2, X-a to read as follows:

X-a. "Plan of operation" means the plan of operation of the risk sharing mechanism, the high risk pool, support for the program established in RSA [~~126-A:5, XXV~~] ***126-AA***, and the federally qualified high risk pool, including articles, bylaws and operating rules, procedures and policies adopted by the association.

16 Managed Care Law; Right to External Review. Amend RSA 420-J:5-a, II(a) to read as follows:

(a) Health care services provided through Medicaid, the state Children's Health Insurance Program (Title XXI of the Social Security Act), Medicare or services provided under these programs but through a contracted health carrier, except where those services are provided through private insurance coverage pursuant to the [~~marketplace premium assistance program under RSA 126-A:5, XXV~~] ***New Hampshire granite advantage health care program under RSA 126-AA*** in which case all provisions of this chapter shall apply.

17 Insurance Department; Administration Fund. Amend RSA 400-A:39, VI(a) to read as follows:

(a) Based on the annual statement filed in such year by each insurer under RSA 400-A:31, RSA 420-A:20, RSA 420-B:9, RSA 420-F:9, or other financial statement filed under RSA 415-E:11, the commissioner shall ascertain each insurer's amount of gross direct premiums written, including policy, membership and other fees, service charges, policy dividends applied in payment for insurance, and all other considerations for insurance originating from policies covering property, subjects, or risks located, resident or to be performed in New Hampshire after deducting return premiums and dividends actually returned or credited to policyholders. The premium for Medicaid managed care coverage provided by a health carrier contracting with the department of health and human services under RSA 126-A:5, XIX shall not be included in an insurer's assessable premium, except where that coverage is provided through the purchase of insurance coverage pursuant to the [~~marketplace premium assistance program under RSA 126-A:5, XXV, or through the health insurance premium payment program under RSA 126-A:5, XXIII~~] ***New Hampshire granite advantage health care program under RSA 126-AA***. If any such insurer does not otherwise timely provide the commissioner with the information necessary for such ascertainment, it shall do so on or before May 1 of each year.

18 New Subparagraph; Application of Receipts; New Hampshire Advantage Health Care Program. Amend RSA 6:12, I(b) by inserting after subparagraph (339) the following new subparagraph:

(340) Moneys deposited in the New Hampshire granite advantage health care trust fund under RSA 126-AA:3.

19 Severability. If any provision of this act or the application thereof to any person or circumstance is held invalid, the invalidity does not affect other provisions or applications of the act which can be given effect without the invalid provisions or applications, and to this end the provisions of this act are severable.

20 Contingency. RSA 126-AA:2, II(b) as inserted by section 1 of this act shall take effect on the date of certification by the commissioner of the department of health and human services to the director of legislative services and the secretary of state that 42 U.S.C. section 1396a(e)(14)(c) has been repealed or amended to permit the application of an asset test.

21 Funding; New Hampshire Granite Advantage Health Care Program. If the federal government amends 42 U.S.C. section 1396d (y)(1) to eliminate the state's share of funding for the New Hampshire granite advantage health care program, or if the federal government allows the use of savings within the Medicaid program to apply to the state's share of funding the program, or if any other state is permitted to receive funds from the federal government to allow a solely federally funded program, the commissioner of health and human services shall send a letter of notification regarding this change to the governor, the president of the senate, the speaker of the house of representatives, the commission to evaluate the effectiveness and future of the New Hampshire granite advantage health care program established in RSA 126-AA, and the chairperson of the appropriate standing committee of the house and senate. The commissioner shall apply for the necessary waivers to similarly fund the New Hampshire granite advantage health care program.

22 Repeals. The following are repealed:

I. RSA 404-G:2, X-c, relative to the marketplace premium assistance program.

II. RSA 126-AA:4, relative to the commission to evaluate the effectiveness and future of the New Hampshire granite advantage health care program.

III. RSA 126-AA, relative to the New Hampshire granite advantage health care program.

IV. RSA 126-A:5-c, relative to funding the state share of the New Hampshire health protection program.

V. RSA 126-A:5-d, relative to voluntary contribution.

VI. RSA 126-A:5, XXX, relative to the New Hampshire health protection program.

VII. RSA 6:12, I(b)(340), relative to the moneys deposited in the New Hampshire granite advantage health care trust fund.

23 Effective Date.

I. Paragraph II of section 22 of this act shall take effect December 1, 2022.

II. Paragraphs III and VII of section 22 of this act shall take effect December 31, 2023.

III. Section 1 of this act shall take effect upon its passage.

IV. RSA 126-AA:2, II(b) as inserted by section 1 of this act shall take effect as provided in section 20 of this act.

V. Section 3-8 of this act shall take effect January 1, 2019.

VI. The remainder of this act shall take effect December 31, 2018.

2018-0984s

AMENDED ANALYSIS

This bill:

I. Establishes the New Hampshire granite advantage health care program which shall replace the current New Hampshire health protection program. Under this program, those individuals eligible to receive benefits under the Medicaid program and newly eligible adults shall choose coverage offered by one of the managed care organizations contracted as vendors under the Medicaid program.

II. Establishes the granite workforce pilot program.

III. Increases the amount of liquor revenues to be deposited into the alcohol abuse prevention and treatment fund and provides that moneys deposited into the fund shall be transferred to the New Hampshire granite advantage health care trust fund for substance use disorder prevention, treatment, and recovery.

SENATOR BRADLEY: Thank you very much, Mister President. I would like to, since this is such a big piece of legislation, start right out by thanking a lot of people that have worked long and hard on this legislation. In particular saluting the chairman of the Finance Committee who ran a great process of the joint committee through a long, long, long hearing and three long work sessions. Very gracious, very good job. I'd also like to thank, where is she? Yes, our trusty Chief of Staff, not only does she work all day long but nights and weekends and is a tribute to all of us in the Senate. I'd like to thank the boss. Normally Senator Morse doesn't want to get as involved in policy as he's getting in this bill but there are a couple of numbers in here Mister President, so we're keeping you on track too but thank you for all the hard work that you've done. Commissioner Meyers, the Department of Health and Human Services commissioner as well as the new Director of Medicaid, Henry Lipman,

an awful lot of people who are up in the gallery and people all across the state that came and testified for the hearing. It's been a long process, it's been a lot of work. Senator Carson, Senator Feltes and myself and the commission. This has been a good bipartisan bicameral effort to get to the place that we're at.

Senate Bill 313 has a lot of reform in it. Good reform. It also has a lot of constants in it. Here are the things that stay the same from our past efforts. No new taxes, no new fees, no general funds. Section 11 of the bill makes it very clear as we've done in the past, if federal funds fall below the expected level, the program ends after a six month wind-down and we continue with the sole purpose trust so that funds can't be mingled for other purposes. So the constant is New Hampshire taxpayers are protected. But at the same time we have significant reforms in this bill.

The commission that my friend from Londonderry, my friend form Concord and I and many others recommended a move to manage care. And we do that and change from the current process of premium assistance for several reasons. There will be significant taxpayer savings, both state taxpayers and federal taxpayers. The actuary of the Department of Health and Human Services estimated perhaps as much as a $200 million savings. But we also take the suggestion of our friend from Bedford, who made it very clear on this floor last spring that we should be thinking about moving the premium assistance population into managed care to stabilize the individual market. That will happen under this legislation. But we also have for patients, continuity of care with a ninety day continuation of any preauthorization, as well as case management provisions to help people as they transfer off to other insurance if they are income ineligible.

Perhaps one of the things that has been least talked about in this bill are the wellness incentives. Incentives for patients, and incentives for the managed care companies so that we push people to the appropriate level of care. There are an awful lot of things that people should be using, walk in clinics for as opposed to emergency rooms. This legislation will create a structure of incentives similar to what the Compass program does for the appropriate level of care.

Funding has always been a conundrum. What we do in this bill is significant. We continue with the existing funding sources, the premium tax attributable to Medicaid and transfers from the high risk pool and additionally we use 5 percent of the gross profits from the liquor fund. I would argue that is very appropriate. First of all it will be 5 percent funded, a goal that a lot of us have had for a long time and because this program is so important to substance abuse, I believe it's only logical to use those revenues to fund the state's share.

There is a work requirement in this bill. But it's a work requirement that's been worked on in a bipartisan way, not everybody always agreeing, but I think we've gotten to a place that people will have an opportunity to fulfill their work requirement with any number of qualifying conditions, but for those that can't fulfill a work requirement there are good cause exemptions and there are outright exemptions, for instance somebody who is under the purview of the Americans With Disabilities Act. We also have a pilot program that goes back to Senator Avard's bill of last year that was an initiative of former Governor Hassan's called Granite Workforce; a six month pilot program using $3 million

of TANF funds, not general funds, TANF funds to help people transition back into the workforce. Something I think all of us think is important. It's a pilot program that will track results. There is another commission created and yes, Senator Morse has told me that if this bill passes, I might be on it again. And so those are the main pieces of this legislation.

So the question becomes why are we doing it? First of all, it's been successful. Over 50,000 people, our friends and our neighbors now have care as a result of the effort that was done by a group of six of us in this very chamber. Our friend from Manchester, the Senate President, myself, Senator Larsen, Senator Gilmour, who am I forgetting, oh, how could I forget, Senator Odell. And that bipartisan effort created the four year initiative that we have. And I would argue it's been very successful. We have a healthier workforce as a result, something important to the business community, and continued prosperity. We have reduced uncompensated care, which is a hidden tax on each and every one of us with private insurance. It just gets folded into private insurance rates when people without insurance that have fallen through the cracks of the Affordable Care Act, they don't qualify for traditional Medicaid and they don't qualify for subsidies on the exchange, end up at the emergency room. We have reduced that and that has helped keep a lid on rising health care costs until the last year when the individual market did explode and we're forced to do what we're doing in this bill, by moving people into managed care.

And lastly, I was struck at the hearing, as I think all eleven of us probably were that sat on the joint committee, with the number of people who testified as to how it had impacted their life in a positive way, people from all over the state came to Concord and said what it meant to them. But one of the statistics that I find particularly compelling is that of the 50,000 plus or minus people that are consistently enrolled in Medicaid, only 15,000 of them have been on the program since its inception, of the 130,000 people that have been on it at one time or another. To me, that's success. As their lives have changed as their lives have improved, exactly what we want to see happen, they have transitioned off of this helping hand into other forms of insurance. That's success and that's why we should re-authorize this. I ask for your support for the committee amendment, there will be I think a couple of other amendments, there will be a technical amendment that myself and Senator D'Allesandro have sponsored to fix an omission in the bill. But thank you, Mister President.

(The Chair recognized Senator Daniels.)

SENATOR DANIELS: Thank you, Mister President. I rise in opposition to the motion of Ought to Pass with Amendment and I do so for three primary reasons; Medicaid, the nation's largest social program has expanded far beyond its original intent of helping some people with limited income and resources. The Affordable Care Act, or as we know it as Obamacare, significantly expanded both eligibility for and federal funding of Medicaid. Under the expansion law as written, all U.S. citizens and legal residents with incomes up to 133 percent of the poverty line, including adults without dependent children would qualify for coverage in any state that participated in the Medicaid program. However the U.S. Supreme Court ruled in *National Federation of Independent Business versus Sibelius*, that states do not have to agree to this expansion

in order to continue to receive previously established levels of Medicaid funding. New Hampshire chose the route of expansion and as a result we have contributed to the destruction of the original intent of Medicaid. Has expansion been successful? Some would say that it has because numbers of people have been forced to go on health care. I take a different view of the so-called success.

Why are we completely scrapping the Medicaid expansion program and re-writing it? The answer is, the past program, the past version failed. It failed the group market. It promised that additional resources from the Federal Government would result in a reduced or stabilized health insurance cost. They haven't seen that. It promised to help stabilize the individual marketplace, it had just the opposite effect. Placing a pool of people whose claims cost 44 percent higher into the individual marketplace has resulted in the individual marketplace being pushed into a debt spiral, resulting in a 52 percent increase in 2018. It has failed the taxpayers who have been paying at least $200 million per year more than they needed for this program. It has also failed the beneficiaries, forcing them into a program that has not moved them towards independence and self-sufficiency, but instead has created the disincentive to independence by causing them to have a loss if they increase their salaries, so that they no longer get the Medicaid funded health insurance. Finally it has failed the public, by having a program that is easily gamed by both providers and recipients. I say this to say that this program, what we're doing is being built upon a failed program. I can't stand here and tell you that we have reached, or when we will reach, the point of no return. But it's a point that should be understood and debated.

Secondly as legislators we're the ones responsible for drafting legislation and we should not abrogate that responsibility to the commissioner to define in rules. Rules are supposed to establish the process by which legislation we passed will be enacted, and not define specific tenets of the legislation itself. On page 4, line 25 in the work requirement section of this bill, of the amendment it states that a person can earn working credit toward the 100 hour requirement by performing community service. This term is not defined. Does this include community organizing or how about working in political parties? I was told that the commissioner would define that in rules. On page 7, line 9 it states that the wellness visit will include screening for unhealthy substance use. I question what unhealthy substance meant. I was told again that the commissioner would define that in rules. These are issues that are rightfully the responsibility of the legislature to define, yet with this bill we're abrogating that responsibility for these issues and I'm sure there are others.

Finally, most all federal programs come with strings attached, and Medicaid expansion is no different. In Senate Bill 313 we must maneuver around many issues dictated by the Federal Government. Some for which we are requesting waivers, some for which we won't bother to ask for waivers because we have already reached a pre-drawn conclusion that they would not be granted. What's right for New Hampshire is not necessarily the same solution as elsewhere in the country. Yet with this bill, we're putting ourselves in a box to the detriment of what we could do to help New Hampshire residents who need this assistance. And we are allowing the Federal Government to pull the strings, also to the detriment of our residents. Let us not forget that the Affordable Care Act and Medicaid expansion exists only because the largest tax increase in American history was thrust upon the American people in the form of a

health care mandate. But we are also free to provide for our residents in an alternate way, that better suits their needs, if we have the willingness to do so. New Hampshire can and should do better. For that reason, and for those previously given I would respectfully ask you to overturn the committee recommendation so that an alternate motion can be brought forward. Thank you, Mister President.

The question is on the adoption of the Committee Amendment.

Recess. Out of recess.

A roll call was requested by Senator Avard, seconded by Senator Daniels.

The following Senators voted Yes: Woodburn, Bradley, Watters, Hennessey, Gray, Ward, Kahn, Lasky, Carson, Feltes, Cavanaugh, Reagan, Soucy, D'Allesandro, Fuller Clark, Gannon, Innis, Morse.

The following Senators voted No: Giuda, French, Sanborn, Daniels, Avard, Birdsell.

Roll Call, Yeas: 18 - Nays: 6. Adopted.

Senator Feltes offered a Floor Amendment.

Floor Amendment to SB 313-FN

Amend RSA 126-AA:3, I as inserted by section 1 of the bill by replacing it with the following:

I. There is hereby established the New Hampshire granite advantage health care trust fund which shall be accounted for distinctly and separately from all other funds and shall be non-interest bearing. The fund shall be administered by the commissioner and shall be used solely to provide coverage for the newly eligible Medicaid population as provided for under RSA 126-AA:2, and to pay for the administrative costs for the program. The commissioner may accept any gifts, grants, donations, or other funding from any source and shall deposit all such revenue received into the fund. No state general fund appropriations shall be deposited into the fund. All moneys in the fund shall be nonlapsing and shall be continually appropriated to the commissioner for the purposes of the fund. The fund shall be authorized to pay and/or reimburse the cost of medical services and cost-effective related services, including without limitation, capitation payments to managed care organizations. An amount not to exceed $1,500,000 from the fund for the biennium ending June 30, 2019 may be used to reduce barriers to work for childless adults age 25 and older, consistent with the requirements of the Granite Workforce pilot program.

SENATOR FELTES: Thank you very much, Mister President. Mister President, one of the things that was built into this bill was a variation of Gateway to Work, now Granite Workforce with TANF funds of 3 million for the biennium ending June 30, 2019 to help people get to work, and to help people comply with the work and community engagement requirement. I think we all believe in what the Senator from District 11 said is providing a path to work and independence. However there's a gap in the assistance in the current legislation, that gap is for childless adults age twenty-five and older who cannot be assisted with the TANF money. So this amendment tries to remedy and fill that gap. So if you look at lines 13 through 15 of this amendment, it says an amount not to exceed 1.5 million from the fund for the biennium ending June 30, 2019 may be used to reduce barriers to work for childless adults age twenty-five and older, consistent with the requirements of the Granite Workforce pilot program. Mister President, we heard don't use general funds; this doesn't. It uses funds from the trust fund that can only be used for Medicaid purposes. We heard use a reasonable amount for this while we don't know how many people will need this assistance, we know that we're doing 3 million in TANF right now for the other buckets of the population and I think 1.5 million is a reasonable amount to be able to help start to address barriers to work and provide people on a pathway to work and independence and in compliance with the working community engagement requirement. And we think that in all likelihood this as a reasonable amount in light of the amount of money under this bill that will be in the trust fund for that period of time. So Mister President, we all believe in a work, we all believe I think to provide pathways to work and independence. That's what this does. It goes along with the policy of Granite Workforce and it fills that gap, and so I respectfully encourage folks to give favorable consideration to amendment 1036s. Thank you, Mister President.

(The Chair recognized Senator Fuller Clark for a question of Senator Feltes.)

SENATOR FULLER CLARK: Senator Feltes, would you please explain what are the potential barriers to work that this $1.5 million might be able to help with, or what is essentially 80 percent of the individuals who are on Medicaid expansion? We're already helping the 20 percent through TANF but I would like to know what might these monies actually be needed and be used for.

SENATOR FELTES: Thank you very much, Senator Fuller Clark. The estimate of approximately 80 percent of the population is for folks ages twenty-five and greater. That's an approximate estimate. The TANF money can be used for folks that are in that age bracket who have kids, so it may not necessarily be 80 percent and that was an estimate to begin with. That being said, the type of barriers that people experience, especially in the job market that we have right now is the lack of skills training, the lack of child care assistance, the lack of transportation, sometimes there isn't public transportation in many parts of the state. And having access to transportation is very important and in some cases housing instability and homelessness, which is a huge barrier to work. In terms of child care, even our low income population who could qualify for the child care scholarship program oftentimes can't afford the cost share element of that, and it's just a little bit of help to afford the cost share, allows them the opportunity to go to work with their child in child care that's helpful for them, it's helpful for the kids and quite frankly it's helpful for all of

us and it builds up our workforce, especially right now when we have a workforce that we need to attract people and fill up jobs with over 16,000 openings. Thank you very much.

(The Chair recognized Senator Bradley.)

SENATOR BRADLEY: Thank you very much, Mister President. I rise in opposition to the proposed Floor Amendment. It was debated in the joint Finance and HHS committee. But I do appreciate the spirit in which it's offered. Obviously, the Granite Workforce Initiative is new, it's a pilot program. One of the, or two of the things that the oversight commission will have to review is that pilot program and how well it's working as well, if you look on page 14 of your calendar about a third of the way down the page, number 9, the commission will have to review the number of people who are found ineligible or who are dropped from the rolls of the program because of the work requirement. So I think it's premature at this point to have this kind of an expenditure especially in light of if you look on page 10, what are the qualifying conditions for the work and community engagement requirements. Obviously, employment is one of those qualifying conditions, training, education, job search, vocational education, public service, community service or being a caregiver. Those are all qualifying conditions. There's a lot of ways that people can qualify including volunteerism, I did not mention and I forgot to do that, as well as participation in a substance abuse program. Those are the qualifying conditions and then good cause exemptions come under the next page or I'm sorry, the bottom of that same page, page 10, if for instance there's a death of a family member, or there's a life changing event, or someone is a victim of domestic violence, those would be good cause exemptions that one could apply for and then there are the outright exemptions as you turn over to page 11, obviously medical necessity is one of those, drug court participation, being a parent or a caregiver, if you have a dependent child under thirteen, if you're pregnant, ADA qualified or medically frail. Those are all exemptions. So I go through that in detail because I believe that the way this work and community engagement is structured, people will be able to qualify, there is this oversight committee that will have to look at the results of the pilot program and then if appropriate we may have the same debate at some point in time in the future. But I actually believe that with all of the qualifying conditions, the good cause exemptions and the exemptions virtually everybody is going to be able to qualify with the work and community engagement requirement and what we do is provide opportunities for people which is what I think we all believe in. So I ask the body to vote down this Floor Amendment.

(The Chair recognized Senator Gray for a question of Senator Feltes.)

SENATOR GRAY: In response to your answer to the Senator from District 21, there was quite a bit of mention about childcare and if I look at the amendment, lines 14 and 15 it says that it's limited to childless adults over age twenty-five. Could you rectify that for me so that I can understand your comment?

SENATOR FELTES: Sure. I appreciate that Senator Gray. Childless adults over the age of twenty-five. So you know that's a good point. I mean that won't be a barrier for a childless adult.

(The Chair recognized Senator Kahn.)

SENATOR KAHN: Thank you, Mister President. I rise in support of the amendment. I think we can recognize there are people that reach an age

group in their twenties that for whatever other reasons in their lives need a boost into the workforce. I don't think this is a lot of money, and it's not for an exhaustive period of time. I think we just need to recognize this is the hand up, this is the effort to try to help our fellows and women that need that kind of boost, and I think it's a reasonable step to take. It's not a lot of money. But getting people into the workforce is obviously a major priority of this piece of legislation and having something that provides the hand up for people twenty-five and older I think is worthy of our endorsement. Thank you, Mister President.

The question is on the adoption of the Floor Amendment.

A roll call was requested by Senator Avard, seconded by Senator Daniels.

The following Senators voted Yes: Woodburn, Watters, Hennessey, Kahn, Lasky, Feltes, Cavanaugh, Soucy, D'Allesandro, Fuller Clark.

The following Senators voted No: Giuda, Bradley, Gray, French, Ward, Sanborn, Daniels, Avard, Carson, Reagan, Birdsell, Gannon, Innis, Morse.

Roll Call, Yeas: 10 - Nays: 14. Failed.

Senator Sanborn offered a Floor Amendment.

Sen. Sanborn, Dist 9
March 8, 2018
2018-1030s
03/10

Floor Amendment to SB 313-FN

Amend RSA 126-AA:2, I(a) as inserted by section 1 of the bill by replacing it with the following:

I.(a) The commissioner shall apply for any necessary waivers and state plan amendments to implement a 2-year demonstration program beginning on January 1, 2019 to create the New Hampshire granite advantage health care program which shall be funded exclusively from non-general fund sources, including federal funds. The commissioner shall include in an application for the necessary waivers submitted to the Centers for Medicare and Medicaid Services (CMS) a waiver of the requirement to provide 90-day retroactive coverage. To receive coverage under the program, those individuals in the new adult group who are eligible for benefits shall choose coverage offered by one of the managed care organizations (MCOs) awarded contracts as vendors under Medicaid managed care, pursuant to RSA 126-A:5, XIX(a). The program shall make coverage available in a cost-effective manner and shall provide cost transparency measures, and ensure that patients are utilizing the most appropriate level of care. Cost effectiveness shall be achieved by offering cash incentives and other forms of incentives to be offered to the insured by choosing preferred lower cost medical providers. Loss of incentives shall also be employed. MCOs shall employ reference-based pricing, cost transparency, and the use of incentives and loss of incentives to the Medicaid and newly eligible population. For the purposes of this subparagraph, "reference-based pricing" means setting a maximum amount payable for certain medical procedures.

Amend RSA 126-AA:4, IV as inserted by section 1 of the bill by replacing it with the following:

IV. The commission shall make an interim report on or before December 1, 2019 and a final report together with its findings and any recommendations for proposed legislation to the president of the sen-

ate, the speaker of the house of representatives, the senate clerk, the house clerk, the governor, and the state library on or before December 1, 2020.

Amend paragraphs I and II of section 23 by replacing them with the following:

I. Paragraph II of section 22 of this act shall take effect December 1, 2020.

II. Paragraphs III and VII of section 22 of this act shall take effect December 31, 2020.

SENATOR SANBORN: Thank you, Mister President. Mister President, I rise with an amendment that asks the body to consider whether or not this piece of legislation is going to go in perpetuity, because let me tell you we all know that five years around here is a lifetime or whether or not it should have a two year sunset like the last two pieces of legislation did. Mister President, I'll be talking about the bill in its final analysis later, but I want to talk specifically as to this amendment we have today. I think today fourteen states across America have brought forth legislation challenging the Affordable Care Act, now that the Federal Government has eliminated several mandates, requirements and taxes. There is barely a person in America with the exception of maybe a bunch of people in this room today who don't seem to recognize the fact that the Affordable Care Act is ending. It is unsustainable, it is unaffordable, the Federal Government is slowly and surely unwinding it and now fourteen states have come together to bring forth a lawsuit to challenge it and eliminated it. I would believe that that court case will be had before two years. No reason to wait five. In addition to that Mister President, I did hear a specific poll talk about the fact we've got to make this five years because God knows we don't want to vote on it again. Got to make it five years long because Lord knows we don't want to stand up and ask the question whether or not this is good policy. This is the biggest singular spending program other than traditional Medicaid, which has been around a lot longer than I have, that we have voted on every two years. Don't we have a responsibility to stand in front of the voters? Isn't that why we're here? The last thing we should be doing quite frankly is saying lets kick this can so far down the road because we're too afraid to stand up and ask the people to consider whether or not we should continue doing this. This is a program which Mister President, again I'll speak later on in my further remarks, that as my friend from District 11 said, financially failed in two years. That's why we're back here. Even if you support this, shouldn't there be some considerations as to whether or not we should look at it again. Or are we just going to put the kids in the boat and set sail. I'd recommend to the body that nothing in life is guaranteed, certainly not health care today. And if there are opportunities for us, we should maintain some level of frugality and the consistency and leave it up to us, the members of the body, to consider the legislation again. So again what this amendment does is it strikes out the five years and makes it two years and I would ask the body to support it and I'd ask for a roll call, Mister President.

(The Chair recognized Senator Bradley.)

SENATOR BRADLEY: Thank you very much. I think some of the reason that, there's several reasons, that we have proposed a five year authorization is that, we've known all along that in 2020 federal funding will be at the 90 percent level and how we deal with that has always been

a question mark. I think we've answered that, and so the funding I believe is stable. That's the first reason. The second reason, and I think the most important reason, we talk in this room every time we're here about substance abuse. We're in the middle of a substance abuse crisis. And we also have spent a lot of time over the last year talking about the other health care crisis that we have; the mental health crisis. You know all of us voted last year for new initiatives that would have created what are known as designated receiving facility beds. They haven't happened because it's been hard to get the resources on an interim basis to do it. So with five years of predictability that this bill will give, it will give us a much better opportunity to deal with those twin problems of mental health and substance abuse. And if for no other reason, that we should have an authorization, it is because of that. We have got to understand that continuity, predictability, a known funding stream will help the mental health community and the substance abuse community provide the resources and the infrastructure that is vitally necessary to help New Hampshire move through this crisis, and that's the most important reason in my humble opinion for a five year authorization. Five years? I've been here a long time too. It's not perpetuity, it's five years. Thank you, Mister President. And I ask that we defeat the motion.

(The Chair recognized Senator Kahn for a question of Senator Bradley.)

SENATOR KAHN: Thank you for taking the question. Isn't it the case that insurance markets need stability in order to price themselves accurately to put a program together to have some assurance that whatever risk they're taking workforce-wise, information system-wise is worthy of that investment? If we're going to get the kind of savings that you predict, isn't that kind of stability needing to be greater than two years?

SENATOR BRADLEY: You know you make a great point. I didn't mention that before, but one thing that I think hasn't been said in the discussion so far is that by combining the two Medicaid pools if you will, expansion and traditional, we will create about a 180,000 person pool. That should enable us to bring in a third managed care provider, so greater competition and greater innovation I think will be the result of that and a five year predictability stream will help in that cause also.

The question is on the adoption of the Floor Amendment.

A roll call was requested by Senator Sanborn, seconded by Senator Avard.

The following Senators voted Yes: Giuda, French, Sanborn, Daniels, Avard.

The following Senators voted No: Woodburn, Bradley, Watters, Hennessey, Gray, Ward, Kahn, Lasky, Carson, Feltes, Cavanaugh, Reagan, Soucy, Birdsell, D'Allesandro, Fuller Clark, Gannon, Innis, Morse.

Roll Call, Yeas: 5 - Nays: 19. Failed.

Senator Giuda offered a Floor Amendment.

Sen. Giuda, Dist 2
March 7, 2018
2018-0998s
01/03

Floor Amendment to SB 313-FN

Amend RSA 126-AA:2, VII as inserted by section 1 of the bill by replacing it with the following:

VII. For any person determined to be eligible and who is enrolled in the program, the MCO shall require the individual to arrange a wellness

visit with his or her primary care provider, either previously identified or selected by the individual from a list of available primary care physicians. The wellness visit shall include appropriate assessments of both physical and mental health, including screening for depression, mood, suicidality, and unhealthy or unlawful substance use, for the purpose of developing a health wellness and care plan.

SENATOR GIUDA: The current amendment that we're working on has in it language, and I quote, "for any person to be determined to be eligible and who's enrolled in the program, the managed care organization shall support the individual to arrange a wellness visit to his or her primary care provider…" Okay? Later it says, "Wellness visits shall include appropriate assessments of both physical and mental health including screening for depression, mood, suicidality and unhealthy substance abuse for the purpose of developing a health wellness and care plan." The language in the beginning of that clause is not a requirement to take a physical. Also the questionable definition of unhealthy substance abuse left to the definition of the commissioner. My amendment requires not as a point of eligibility, but once you're entered into the program, it requires any individual to take a physical, and within that physical, okay, to undergo if you will, tests for unhealthy or unlawful substance abuse. In the absence of this language we open the door to people who will use substances that are illegal, unhealthy, whichever term you'd like to use, and not be required to disclose that but can continue to get medical care, because the language is loose enough, okay, that they don't have to actually take a physical. And if you know about substance abuse, you know that many people that do it don't want to stop until they reach a point in their lives, okay, that they can get no deeper in depression or whatever the situation is. And so for this reason, okay I would ask you to consider and to vote for Floor Amendment 0998s to require a physical that would include drug screening, not as a point of eligibility, but as means to enable us to provide the very best plan of care for an individual's health. Thank you, Mister President.

(The Chair recognized Senator Feltes.)

SENATOR FELTES: Thank you, Mister President. I rise in opposition respectfully to amendment 0998s. Mandatory drug testing in public benefits has been ruled in a number of cases to be unconstitutional. So by adopting this amendment in my view we likely set the state on the path for litigation over something that's clearly unconstitutional at least in a number of other cases around the country and so I'd respectfully encourage a no vote on this amendment. Thank you very much, Mister President.

(The Chair recognized Senator Giuda.)

SENATOR GIUDA: I would agree that drug screening as a condition of eligibility is unconstitutional. It is insane to think that providing a physical or requesting, not requiring a physical that would include screening for drugs is part of that physical, is unconstitutional. We're going to spend half a billion dollars on this bill, give or take. The taxpayers are fronting the money, we open the door to not enabling people to have to take a physical. So just come take the benefits, no I don't want your physical, the question was asked in the joint committee. What happens if an applicant, an eligible person refuses to take a physical? There is no answer. This opens the door to continued drug abuse and continued health care for that or any other condition, unless we close the language to require it, not as a condition of eligibility, but as a means to arrive at a better plan of care for the individual. Thank you, Mister President.

(The Chair recognized Senator Innis for a question of Senator Giuda.)

SENATOR INNIS: Thank you for taking my question. I'm struggling with the word unlawful, with substance use. Might someone find themselves in a position where he could be arrested for using certain substances or be at risk of some sort of penalty that isn't really what we want to happen. We want them to get better and get off of these things and be able to diagnose them appropriately.

SENATOR GIUDA: Thank you for your question, but I do know that HIPAA laws preclude the exposure of this information from health care providers to anyone and that includes law enforcement, unless they have a reason, okay, that this person is caught etcetera. For that purpose I would say no it doesn't expose them to any risk.

SENATOR INNIS: Thank you.

(The Chair recognized Senator Fuller Clark for a question of Senator Giuda.)

SENATOR FULLER CLARK: Thank you for taking my question. My question is once this screening has occurred, how will the information that is uncovered during this screening be used and would the result be that someone would be dropped from employment?

SENATOR GIUDA: The information for the screening purposes is just that. It's to develop a plan of care for the health of the individual. That information is protected by HIPAA, so there's really no relationship to the employer, okay, and so for that reason to provide the best possible care that we could, okay, we want to screen people for everything that could possibly be wrong and move them forward right into the opioid or into the substance abuse treatment program, which this allows a great loophole to develop.

SENATOR FULLER CLARK: Thank you.

(The Chair recognized Senator Bradley.)

SENATOR BRADLEY: Thank you very much, Mister President. I rise in opposition to the Floor Amendment. I do have to say to my friend from District 2, I appreciate the spirit in which you offer this Floor Amendment because I think you, like I think everybody that's in this room and everybody that's in the audience believes that we should be helping people to wellness. However I think the way that this is written when you talk about line 7, unlawful substance abuse would preclude potentially substance abuse treatment for lawful substances, alcohol being one. And I think in line 4 where you say the individual shall require to arrange a wellness visit so in order to get some kind of benefit, there's at least in my mind a question of how it impacts the eligibility. I know that's not your intent, but I absolutely do think it would lead to litigation and so for those reasons I ask the body to vote down this Floor Amendment. Thank you.

(The Chair recognized Senator Fuller Clark for a question of Senator Bradley.)

SENATOR FULLER CLARK: I thank you, Senator Bradley for taking my question. My concern is if this amendment were to pass and be included, would this jeopardize the entire legislation going forward with regard to waivers that we might be requesting from the Federal Government?

SENATOR BRADLEY: I don't know the answer to that question. So the answer to that question is it's an unknown and it could well jeopardize it

and as I said before I think it could lead to litigation. I think our friend from Concord who is more learned on the law than I am believes it's definitely a problem. Let me describe sort of the process that VIII came into being. I approached providers about how we, because remember what I said, we want to give as many incentives as we could for wellness and preventative care, and early detection and screening so that people are avoiding lurching from emergency room to emergency room to emergency room and getting a continuity of care. And so we met with people in the mental health community, the medical community, the substance abuse community and worked with them on language that is not a mandate, which would clearly be a constitutional issue, but encourages that wellness that I think every one of us in this room want to see happen because it's the best for the individual and it's the best for the overall health care delivery system. But if we take it too far, there's clearly a litigation risk and clearly a CMS waiver risk. Thank you.

SENATOR FULLER CLARK: Thank you.

(The Chair recognized Senator Giuda.)

SENATOR GIUDA: Thank you, Mister President. With respect to the Senator from District 3's remarks about whether unlawful might preclude inclusion of alcohol, I would suggest that if line 7 also says unhealthy and excessive use of alcohol is definitely while not unlawful unless you're driving is unhealthy, and I think that would qualify to answer that question. With respect to waivers, it's pure speculation. As I said before, this is not a condition of eligibility, but once you're into the program, you should be required to take a physical, and that physical should include drug screening. If you don't, then people continue to get services while they're abusing the drugs, the very thing we're trying to help get them off of. And so for that reason I would ask you to please support my amendment.

(The Chair recognized Senator Woodburn for a question of Senator Giuda.)

SENATOR WOODBURN: Thank you, Senator for your comments and your amendment here. Just help me understand, I'm concerned about marijuana, medical and legal which is all the states around us including soon to be Canada to the north, as to whether, how you deal with that difference from state to state as well as those who can medically, who can use marijuana but on a federal level it's still remains to be an illegal substance. How would that be addressed here?

SENATOR GIUDA: I think that's an excellent question that does need to be addressed here. Before presenting a law that violates federal law, perhaps that's a question we need to answer, okay? Until the federal does change that law then we have a problem, and so we would come back and say we're just going to give a bye to that whole issue. Instead of addressing it and maybe asserting our rights as a state, and saying we're going to do this because we're spending taxpayer's money to help people and that loophole enables them to not get the help they might need.

The question is on the adoption of the Floor Amendment.

A roll call was requested by Senator Giuda, seconded by Senator Avard.

The following Senators voted Yes: Giuda, Sanborn, Daniels, Avard, Carson, Birdsell, Gannon.

The following Senators voted No: Woodburn, Bradley, Watters, Hennessey, Gray, French, Ward, Kahn, Lasky, Feltes, Cavanaugh, Reagan, Soucy, D'Allesandro, Fuller Clark, Innis, Morse.

Roll Call, Yeas: 7 - Nays: 17. Failed.

Senator Bradley offered a Floor Amendment.

Sen. Bradley, Dist 3
Sen. D'Allesandro, Dist 20
March 8, 2018
2018-1022s
01/03

Floor Amendment to SB 313-FN

Amend the bill by replacing section 10 with the following:

10 Plan of Operation for the High Risk Pool. Amend RSA 404-G:5-a, IV(d) to read as follows:

(d) [~~For the period of January 1, 2017 through December 31, 2018,~~] An amount not to exceed [~~50 percent of the remainder amount, as defined in RSA 126-A:5-c, I(b), less the amount made available to the program pursuant to RSA 404-G:11, VI. The association shall transfer all amounts collected pursuant to this subparagraph and the amount made available to the program pursuant to RSA 404-G:11, VI to the New Hampshire health protection trust fund, established pursuant to RSA 126-A:5-b~~] ***the lesser of the remainder amount or the amount of revenue transferred from the alcohol abuse prevention and treatment fund pursuant to RSA 176-A:1, IV and taxes attributable to premiums written for medical and other medical-related services for the newly eligible Medicaid population, as defined in RSA 126-AA:1, V. The association shall transfer all amounts collected pursuant to this subparagraph to the New Hampshire granite advantage health care trust fund established pursuant to RSA 126-AA:3.***

SENATOR BRADLEY: Thank you very much, I appreciate the support of my friend from Manchester on this amendment. In the drafting of section 10 which is on page 17 of the calendar, the last sentence was inadvertently left out which speaks to the transfer of all amounts collected pursuant to this sub-paragraph. We need to correct this drafting error and re-insert this sentence into section 10. Thank you.

The question is on the adoption of the Floor Amendment. Adopted.

(The Chair recognized Senator D'Allesandro.)

SENATOR D'ALLESANDRO: Thank you, Mister President. Mister President, I rise in support of Senate Bill 313 as amended. First of all, I want to thank the President of the Senate, the Majority Leader, Senator Feltes and everyone who had a hand in crafting this piece of legislation. Like any piece of legislation it's not perfect, but it's something that's needed and something that the people of the state of New Hampshire will appreciate. And every time we talk about one of these hot contested bills, I like to recall some things that affect me and my family and where I came from.

I am the son of two first generation Americans. My father's parents were born in Italy, my mother's parents were born in Italy. When they came to this country they had nothing, never mind insurance; insurance wasn't even a thing that they thought about. But they brought up a family and I believe I'm a product of the American dream. Had an incident when I was a kid, I was probably seven years of age, we didn't have any insurance. I had a terrible infection in my throat. That infection required surgery. But we didn't have any money, so where did I get that surgery? I got it on the

kitchen table in our house, where they came and extracted my tonsils. Had a doctor who was a family doctor, Doctor Costanza, God rest his soul, took my tonsils out. There was no thing about hospital, there was no thing about insurance. I don't know how my father paid him. I really don't to this day. But I recognize the need that people have, and I recognize in my community where 7,000 people's lives were made better because this legislature and this Senate had the courage to come forward and create the New Hampshire Health Protection Act. They had the courage and fortitude to do that, 7,000 people in my district are helped, 53,000 people in the state of New Hampshire are helped, 130,000 people went through the process. The importance of this piece of legislation is so meaningful to every one of us and the people that we represent. So meaningful. We have crafted a way to deliver this service. It's innovative, it's creative and it's going to make a difference.

When we crafted the first piece of legislation, we had Peggy Gilmour and Bob Odell along with Senator Morse and Bradley, and put this thing together. It was not easy, it's not easy this time, but it's the right thing to do. And there is a time in your life when you have to say, what's the right thing to do and you take a risk when you do the right thing. But you do it for all of the right reasons. You know, as I say, I am the product of the American dream here. I never thought I'd be standing in the New Hampshire State Senate. I used to pinch myself on the ride home and say, Jeez, I'm a Senator. I'm a Senator, God, Jesus, how did I do it? Sister Nathaniel said I'd never get out of the eighth grade. But I'm a Senator, I represent the people of my district and I go home at night and my wife always wants more out of me, Mister President, she wants more. Why aren't I more concerned? I say I'm a little bit conservative at times, but we all try to do the right thing. And this is the right thing at the right time. And when you leave this place as we're all going to do some day, we're going to say oh listen we did some things that made the lives of people better. And as Senator Bradley says over and over again, perfection is something we strive for, but reasonableness is what we get. And that's what we have here, a reasonable piece of legislation that makes sense and is good for the people that we represent.

As I say, I'm a lucky, lucky guy. You know I'm a lucky guy. A lot of great things have happened in my life because people cared for me, people were concerned about me and people helped me, you know they helped me. They reached out and provided me with assistance that I think has made me a better person. So I ask my colleagues, let's votes for this piece of legislation and let's walk out of here tonight with a good feeling in our hearts in that we have done the right thing. We have done the right thing for people and that's what we're here for, to do good things for people. And as I say, the President's taking a risk. Did it four years ago, doing it again now. I commend you for that, alright? It's courage. Bradley, taking a risk, Feltes, taking a risk. But we all take risks. That's what life's all about and if you're not willing to do that, you can't make that next step forward.

So as I said, Ray Burton, God rest his soul, created the Committee to Do the Right Thing. I was a member of that committee. He brought me on as a baby, really back in the 1970s. I was a member of the Committee to Do the Right Thing. I ask each and every one of you tonight to join the Committee to Do the Right Thing and vote for this legislation. Thank you, Mister President.

(The Chair recognized Senator Sanborn.)

SENATOR SANBORN: Thank you, Mister President. Mister President, I think this what the third time we've had this debate or fourth time, third time, I think? And only in a room like this, only in a room like this, can we burn $1 billion to save 100 million. Only in politics do people slap backs and shake hands and talk about what a great job we did to spend $1 billion for the celebration of saving $100 million. I don't think that dog hunts. I mean, look every single one of us, every single one of us I know and recognize wants to do the best thing we can for the people we represent. But we have to recognize we represent more than one people. We're supposed to represent everybody, not just the special interests, that show up with their hand out and in the government pocket.

Mister President, I am frustrated. I am frustrated that for the third time I've watched a bill that spends $400 million a year in a non-public hidden trust account that's never been disclosed to the people; that never allowed the opposite viewpoint to show up and participate. The only people that have been here are the people that get something from it or support it. That's how it's always been. That's not supposed to be how we do business here. Dozens and dozens and dozens of meetings year after year after year, third product in a row that only the people that support it showed up for, were invited to it or knew about it. And I can tell you why because I sit by the office where it happens.

Six people in this room have consistently voted against this legislation. All the groups, all this hard working middle class families that have seen their insurance go up by 50 percent. You know there's a very interesting article that came out last week in the *New York Times*, and I should have sent it to all of you to read. It was very interesting. A young woman named Gwen with her husband and their little baby and another young lady named Amelia. The *New York Times* article was very descriptive about how Gwen, her husband and their little baby lost their insurance. Each of them working full time jobs, busting their hump as hard as they possibly can only to lose their insurance that they were paying for. And all of the trials and tribulations and struggles that they went through as people who are actually trying to live independent lives in New Hampshire as middle class families, and they couldn't afford their insurance anymore. And then we had Amelia, the opera singer, knew full well how many hours she can work and stay on Medicaid expansion. Talks about in the article how she lives at home today, only works so many hours to make sure she's right on the cusp, to make sure she gets free insurance. It's not what we're supposed to be doing. That's not how this program is supposed to work but that's how this program does work. Because everyone's taking advantage of it to the best of their ability.

You know we talk on a regular basis, I hear people say throughout this entire debate, we're helping people, we're helping people, this is good for our society, this is good for the people of the state. But why is it we've never heard whether or not it's actually working? The number of people on a social program does not dictate its success. Is our society healthier? Have we spent less money for medical care? Have we done some sort of analysis of the 50,000 people to say they are healthier? Are they all getting physicals that my friend that Senate District 2 suggests that at some level some people should get? Are there less people addicted to opioids? Have we solved our opioid problem? The same thing I hear day after day after day and frankly many of us are frustrated. For those who sit there and advocate that only Medicaid expansion can solve our opioid problem. Only Medicaid expansion. The last time I checked it's

been four years. We've now spent $2 billion and it doesn't look like it's winning. So maybe we need to start questioning, is this our response to it? Because I really question whether or not it is, because there's a lot of other things we can do.

You know we can't forget the fact that when all of this started, or likely maybe need to remind ourselves, that no one was without health care. The Federal Government is very clear, no one can be denied health care. If you are sick, if you get hurt, you show up to the emergency room and you get care. So when this thing first came up, we talked about the fact that, hey look, we think too many people are going to the emergency room, there's too much charitable and bad debt, too much uncompensated care which as many of us know how the state of New Hampshire taxpayers reimburse the medical community for giving away free care. But again we spend $450 million a year roughly, so about $1 billon on this program and uncompensated care went down like $100 million. That dog don't hunt.

This program has turned into a feel good legislation that doesn't have the teeth in it or the results that people expect that they're saving money. What it's done is virtually bankrupt the middle class that has to buy their own health insurance. What have we done for them? Nothing. If we spent half the amount of time trying to help the middle class, the real middle class, then ladies and gentlemen the real middle class works for a living, struggling every single day; 30, 40, 50, 60, $70,000 a year for a family of four and all we see is the cost of their health insurance go up, and we haven't done a lot about it. Look, we knew a year ago, a year ago this week I think, that health insurance costs were going to go up 50 percent. Now I am appreciative that this piece of legislation does look to go back and finally separate the two pools but we're already hearing that because it went up, it's not going to come back down any significant amount. So again we're leaving the middle class in this state left out to dry.

I want people to have access to health care. I want everyone to know that if they are sick, or they get hurt they can get the care to make them better. So much of this argument today is about you know if you're against Medicaid expansion you don't like people or you don't care about them, and I reject that. The problem is this is not a solution. This is not a solution that helps everybody. This is a political solution to help some. We have done precious little in eight years, or the four years we've been talking about this specific piece of legislation, to actually increase access and cut costs. Now I am very thankful the Senator from District 3 has joined me year after year after year to try and do things like making insurance available across state lines and I'm very thankful for his support, but as a body between this one and the one across the house, we continue not to get it done.

I'm someone that always says what's the problem? Can't we define the problem and if we know what the problem is, what are our potential solutions? As I mentioned before, the problem was never people did not have access to care if they needed it, because we know that existed. The problem for others is people want to have the security of insurance because they feel that getting care isn't the right thing. But have we sacrificed so much to the middle class that we've ended up hurting one group of people so much more than the other? Is this a win? Is this a win for Gwen and her husband and their kid? That they can't afford insurance anymore so we can give free health insurance to able bodied adults from eighteen to sixty-four who are not sick and don't have kids? We have to

remember this is a program for able-bodied adults from eighteen to sixty-four who are not sick. And of course we have a program if you're sick. We have a program if you're poor. The qualification to get this program only means you're not working full-time. And last time I checked, we have the lowest unemployment rate in America. I don't know a single employee out there who isn't looking for someone to help. And the argument that well, they're not trained for the right job doesn't hold water as an employer because I know landscapers and plowers and shovelers and dishwashers and grocery stores are trying to find employees. But yet the rolls here have never come down. Four years in this program, we don't have any less people on it today than we started. Thirty-seven thousand people out of the 50,000 people actually had insurance when the program started. And yet they had the ability here to give up their current insurance to go get free insurance. And Mister President, I'm not sure that's what the American dream was supposed to be about.

Our job is to help people be everything they actually can be, our job is to create trampolines and not hammocks. If this program was truly a trampoline, why is it and the economy going like it's going today, that we still have in fact some would suggest, more people on today than we had two years ago? That by itself should tell us it's not working right. Now Mister President, I will give you credit and I always try to give you as much credit as I can, the fact that you guys are moving this over to traditional Medicaid should save us $400 million in the next budget. Because we're paying $661 per bellybutton per month for 50,000 people it was costing us just of $400 million. We move to managed care at $330 something per bellybutton per person for 50,000 people it's $200 million. So it is going to save money, and I'm thankful for that, because at the end of the day we have an obligation here to be, or at least to try to be conscious of how much money we're spending. But as my friend from District 11 talked about, this program has failed. It hasn't provided us the outcomes that we expect for it to have. It hasn't solved the problem that we're saying that it's going to solve. And how many more years, I think the number today is five more years we're going to spend trying to justify a program and its success with no benchmarks of how we get there. If this program's only going to lift people up, if this program's going to get people back on their feet, shouldn't there be some requirement that no one should be on it in five years? What is our measurement of success? That the same number of people are on it today that were on it five years ago? I wouldn't call that success.

Senators, we can do better than this and we do not have to do this program, because we know that not every state in America has done it. But yet we continue to have one of the worst opioid crises in America. We continue to have the highest cost of health insurance in America. We continue to have the highest cost of health care in America. So at what point do we have to ask ourselves, is what we're doing not working? So because of all of those reasons and more Mister President, I cannot support this legislation, because I do not think it solves the problem that others think that it does. I think there are other things we can do and should do that actually work for everybody and not just some. Thank you very much, Mister President.

(The Chair recognized Senator Hennessey for a question of Senator Feltes.)

SENATOR HENNESSEY: My question refers to the amendment at the very bottom of the first page, which and I'm wondering if you can give us

a little more information about the conversations within the committee and with Commissioner Meyers about the ninety day retroactive coverage mentioned in that section, and why it's in the amendment?

SENATOR FELTES: Thank you very much, Senator Hennessey. You're correct that the amendment says that the commissioner shall include in an application for necessary waivers submitted to the Center for Medicare and Medicaid Services, CMS, waiver of the requirements provide ninety day retroactive coverage, unquote. That is in the amendment it was a subject of conversation and discussion at the public hearing and at one of our committees it was represented by Commissioner Meyers that this would cost approximately $2 million to the Department of Corrections, however we would save as a state approximately 2.4 million on our state share so there would be a net at the state level of $400,000 annually in benefits. Now I should note that that doesn't factor in county calculations.

SENATOR HENNESSEY: At the bottom of that page 2, line 30 to 33, my understanding is that a key recommendation of the MCOs and other care providers was prior authorization, and my question is whether ninety days is a reasonable time limit?

SENATOR FELTES: Thank you very much, Senator Hennessey. The bipartisan unanimous vote of the Medicaid expansion commission, chaired by the chair who's now the chair here too, part of the conditions of going to Medicaid managed care that was part of the recommendations of that commission was to have the MCOs honor prior authorizations and care plans so you take people in and take them as they are and honor for a reasonable period of time. The commission did not specify what would be the amount of time for the honoring the prior authorization and care plans. Obviously there are issues that may bubble up, surgeries may be scheduled out four or five months and we have auto-assignment in this bill and sometimes people may not know that they've been transferred over to an MCO and they may get hit potentially with paperwork about the prior authorization for that surgery or maybe another care plan or prescription plan, so this was a subject of debate and conversation and some concern in terms of continuity of care. However when this came up, Commissioner Meyers specifically noted on line 33 of page 2 of the amendment, that the words not less than ninety days, coupled with existing law authorize him, on a case by case basis, to extend those authorizations longer. If there are compelling circumstances and I think certainly a surgery scheduled out several months that has been priorly approved is one of them I think, some prescription drug plans and certainly opioid and substance misuse treatment programs are others. And I think the commissioner expressed that he will look carefully at that and extend those prior authorizations and care plans where it's needed and use his discretion to promote continuity of care. So with that representation from Commissioner Meyers, I am comfortable with that provision.

SENATOR HENNESSEY: Thank you.

(The Chair recognized Senator Fuller Clark for a question of Senator Feltes.)

SENATOR FULLER CLARK: Senator Feltes, I'm here to ask you with regard to the issue of the total package of this legislation, given how hard you and so many others have worked on it and brought it to where it is today, there still is the underlying concern that it could be punitive, and I would like you to answer that question to the best of your ability and also to explain with that concern why you came to the point where you felt that you could support it?

SENATOR FELTES: Thank you, Senator Fuller Clark. I came to the point of supporting this amendment in part based on the representations from the Majority Leader, the Senate President and Commissioner Meyers that this is not punitive, that it's not intended to kick people off of health insurance, that no one would lose health insurance through no fault of their own. That coupled with the provisions of the bill led me to a conclusion that I am comfortable with this amendment. I would add to that certainly the Senate President and the Senate Majority Leader have been leaders in talking about this and certainly in this context too, to the extent that anyone is kicked off of their health insurance, that just drives up uncompensated care. And that's not good for anyone, and certainly the Senate President has been a leader on that and made those comments in committee and certainly Commissioner Meyers has made representations to the effect that no one's going to lose coverage through no fault of their own, that's why we have those good cause exemptions and he's going to exercise his discretion wisely in light of the intent of this not to be punitive. Thank you, Senator Fuller Clark.

SENATOR FULLER CLARK: I'd also like you to answer the question which was raised during the committee hearings as to what happens if someone is found ineligible or are dropped from the program. What mechanisms are in place, what procedures exist so that those individuals at least have the right of appeal?

SENATOR FELTES: Thank you very much, Senator Fuller Clark for asking this question concerning appeals. There is language on the amendment on page 6, line 9 concerning the commissioner promulgating rules on enrollment, suspension and disenrollment procedures in the program. And you're right, we had a conversation in committee about this specifically and including potential due process concerns and we asked the commissioner would that rule-making process include rules for grievance procedures and appeals, and the continuation of benefits pending an appeal decision. And Commissioner Meyers said yes to all of those questions.

SENATOR FULLER CLARK: Thank you.

(The Chair recognized Senator Sanborn for a question of Senator Daniels.)

SENATOR SANBORN: Senator, thank you so much for taking my call I may have two if the President would allow. The first is knowing that nothing is free, this program at $330 some odd per member for among 50,000 people, 200 to $300 million a year. The Federal Government alternately requires us to pay $30 million of it. Now we've heard that we're to increase the take from the liquor fund from 3.7 to 5 percent; that clearly doesn't get us there. So on one hand I see that we're no longer going to use the money from the liquor fund for what we're using it for today, so we have to find some supplement to the budget there, but the same token requires more money than I've heard allocated. So if it does as the sponsor says, doesn't raise taxes, doesn't spend general fund money, doesn't raise fees, where's the money coming from?

SENATOR DANIELS: My understanding is the money will be coming from the alcohol fund, the high risk pool and the insurance premium tax.

SENATOR SANBORN: But aren't we already spending that money, today?

SENATOR DANIELS: I further understand that we would be requesting money from the Federal Government to replace what we're spending out of the liquor fund.

SENATOR SANBORN: Thank you. Has that been confirmed?

SENATOR DANIELS: I don't think anything's definite.

SENATOR SANBORN. Thank you very much, Sir. So under part of the work requirements, so of what would be an allowable twenty-five hours per week in work requirements, it says specifically in the legislation that what would qualify as work requirements is subsidized public sector employment. Is that to mean that we're going to create or have a government program where we're paying people twenty-five hours a week and we're to give them free insurance, because that's what it sounds like to me?

SENATOR DANIELS: I'd say that that was not discussed and maybe that will be defined by the commissioner just like some of the others.

SENATOR SANBORN: In addition to that, there's also provision here that talks about the fact that in order to get twenty-five hours a week, it would also be subsidized private sector employment. Is that meant to mean that we're creating another government program we're actually going to pay 50,000 people subsidized through private employers to give them twenty-five hours a week so we can give them free insurance?

SENATOR DANIELS: I do not know how that will work.

SENATOR SANBORN: Thank you, Sir. Thank you, Mister President.

(The Chair recognized Senator Kahn for a question of Senator Feltes.)

SENATOR KAHN: If, so I'm pleased to see on page 2, item e, that one of the things that I'm most concerned about is the workforce shortage, that there is for mental health delivery in the state. And this provision says that in order to combat the crisis facing New Hampshire, the department shall establish behavioral health rates sufficient to ensure access to and provider capacity for all behavioral health services. So given that we are recognizing a goal, I'm wondering in your deliberations, what the assurances were that we'll be able to monitor this, in fact improve the delivery of the services so that people needing care get it?

SENATOR FELTES: Thank you, Senator Kahn and Senator Kahn I know that you have been an advocate on making sure that we have the workforce there in mental health capacity, working on issues related to mental health along with everybody in this chamber, some of the issues as Senate Majority Leader mentioned, haven't gotten turned out quite how we would like, but this is an important component. And on the commission that released its report November 17, 2017, a bipartisan unanimous vote on that commission, part of the condition to move to Medicaid managed care was to make sure that we take care of behavioral health service rates. And certainly that's why this language was included. You're right the language says, sufficient to ensure access to and provider capacity for behavioral health services. Behavioral health services include not just substance misuse disorder but also mental health. That captures that, and I think it's also safe to assume based on the notion that the legislature doesn't pass superfluous words, that if we say behavioral health rates sufficient to ensure access to and provider capacity for all behavioral health services, that we need that, right now it's not sufficient to ensure to access to and provider capacity for all behavioral health services. And that recommendation on behavioral health, especially in light of the epidemic that we're in, and all the good work that people in this chamber, Senate President, Senate Majority Leader, everybody is trying to do, that was a key component of why a number of people on that commission voted for that recommendation to go to Medicaid managed care.

SENATOR KAHN: Thank you. In line with that, there is, and this has to do with the alcohol treatment fund and that is number 9 in the amendment and now the bill, I'm sorry, it's number 13. But that we are applying the alcohol and drug treatment fund to our Medicaid program and the justification for that has been made well by others, but if we're going to address mental health and substance use treatment, it's got to be as the Department of Health and Human Services has described, a community-based treatment. Community-based treatment is largely funded and initiated stimulated with the alcohol and drug treatment fund. Do we have some mechanism that's been suggested that's going to enable us to continue to stimulate those kinds of programs at the community level?

SENATOR FELTES: Thank you very much, Senator Kahn. I do agree with the Majority Leader that the use of the alcohol fund is a logical and reasonable nexus to Medicaid expansion in light of the fact that that fund helps so much with reducing and treatment, prevention and recovery efforts with respect to our substance misuse crisis in the state and the fact that Medicaid expansion is the single most effective way to combat that crisis as well. So yes, I believe it's a logical and reasonable nexus. To the second part of your question is, we have had in my view reasonable assurance from Commissioner Meyers that the alcohol fund will be back filled at 3.4 percent FY '19 and '20 and I'm comfortable with those assurances and I think as you know, Senator, the work of the commission is so important and so those back fills are so important for the work of the commission and I think the commissioner has testified at the public hearing and then has also testified in committee of the omnibus finance HHS committee about that plan and I'm comfortable with those level of assurances from the commissioner.

SENATOR KAHN: Thank you, Senator. Thank you, Mister President.

(The Chair recognized Senator Woodburn.)

SENATOR WOODBURN: Thank you, Mister President. I don't want to stand in front of all that great food that's out there getting cold, and so I'll be a model of brevity. One being from the North Country I know how this program works and how it helps people. I thank you Mister President, and the Majority Leader, all the people who were involved in that and by saying food I think I'm losing my crowd. But that being said, being in the minority is not always easy, but I think on this issue I'm very, very proud of my ten minority colleagues. And we sent a letter at the beginning of this process setting some ideals and willing to be flexible and reasonable to work with the majority to get this done. And to put politics aside, focus on practical not ideological issues and to stand firm around our oath to be impartial and faithfully serve our constituencies. And in that letter that we sent to the Governor and to the leadership, we set forth the ideals that no eligible person should lose coverage and we're very proud that has happened. We wanted to make sure that we do not wreck the Medicaid and health care system that currently exists and I'm proud that this program does not do that. And third and final that this is a reliable funding source that will ensure that we will be able to do this in a way that's financially stable and we can look to the future. Thank you, Mister President. Look forward to voting on this and enjoying some dinner.

(The Chair recognized Senator French.)

SENATOR FRENCH: Thank you, Mister President. I rise in opposition of this bill. My vote will not say that I do not believe the 4 percent of

the population that this helps don't need it. My daughter will be part of that 4 percent who will be taking advantage of this. But the individual marketplace has gone up so much that I have another group of friends that for the first time in their lives cannot afford health insurance and this year are going without it. These people, Laura, Charlie, Pearl, there's thousands of these people who no longer can afford health coverage that always had it. And it's directly related to bills like this that have driven up health care insurance costs. So that is why I will be a voice of protest when I vote no on this legislation. Thank you, Mister President.

(The Chair recognized Senator Feltes.)

SENATOR FELTES: Thank you, Mister President. Just briefly, folks had mentioned, colleague from Bedford had mentioned that everybody had access to health care before Medicaid expansion, but not everybody has. Everybody gets access to health care simply in an emergency room and that's not a cost effective way to provide health care. It drives up uncompensated care, hidden tax on everyone. I just want to tell briefly a story of someone named Nancy who lives here in Concord, has shown up at a number of the roundtables on this and wasn't at the public hearing, but told the story of her son who suffering from addiction, ended up losing his job and couldn't get help because he didn't have health insurance coverage. Can't get that kind of treatment in an emergency room. He got Medicaid expansion, he got treatment and he got better. And Nancy says it was a lifesaver for her son. Literally, a lifesaver. And now her son got well and he's got a job, and he's not on Medicaid expansion. That's one example of thousands of examples of how important this is. And the legislation, certainly not close to what I would have drafted on my own, but it is a reasonable piece of legislation, and I think it's time that we move it forward for the 50,000 Granite Stater's that need it and for people like Nancy and her son. Thank you, Mister President.

(The Chair recognized Senator D'Allesandro.)

SENATOR D'ALLESANDRO: Thank you, Mister President. Mister President, I realize time is of a great deal of importance and people are getting sick and tired of the nonsense that sometimes this happens and let me just say three things. If it weren't for the courage of legislators, we wouldn't have had civil rights. If it weren't for the courage of legislators, we wouldn't have had Medicaid. If it weren't for the courage of legislators, we wouldn't have had Medicare. Those turned this country around. If it weren't for the courage of legislators, we wouldn't have had social security, and people demeaned it in terms of discussions, but as a result of that we're better people, we're a better country and we're in better shape. This debate continues but let me just say, this is the ending of my iteration. It's the courage of your convictions that makes this country what it is. You've got to stand for something. No piece of legislation is perfect, but we as human beings do the best that we can. We know there are people in need, we live in the richest state in the United States; median family income is the highest in the country, the highest in the country. We have de minimis unemployment now, we have many, many positive things. This just helps us move that barrier a little further. Thank you, Mister President.

(The Chair recognized Senator Kahn.)

SENATOR KAHN: Thank you, Mister President. I'll rise quickly to and then speak directly to child welfare. As I've talked with the medical professionals in my region as to who is accessing health care through

our Medicaid expansion program. They say over half are kids. I've heard HHS tell us that about half of our total served population is kids. I heard my colleague from District 7 say it's only 4 percent of our population but if it is half our kids, it is 15 percent of our youth population in the state. That's really significant. Kids without health care, kids without meals, kids need to be prepared for life. This is something that puts them on that path. Keeps them on that path. We need to help support our families. We've done a lot of things to do that. This bill also does that, this isn't just about mental health and wellness, this is about kids' welfare and our down streaming costs throughout their lifetime. This is a worthwhile investment in the name of families and children in this state. Thank you, Mister President.

(The Chair recognized Senator Fuller Clark.)

SENATOR FULLER CLARK: Thank you very much, Mister President. I hadn't intended to speak but some of the comments that have been made I feel the need to respond to. I think that this is a very important piece of legislation, I think it is significant in terms of the different ways that it is addressing the issue of accountability for those individuals who are in need of the support of Medicaid expansion. I do not believe that Medicaid expansion that we passed two years ago was a failure. I think it's important to understand, that we heard the question is our society healthier? We know that those individuals who went through the Medicaid expansion program are healthier. We have heard by providing them with direct access to health care rather than having to wait to go to the emergency room, that they are doing much better, that they are now able to hold a job. And we also heard that a significant number of those individuals have moved off needing this program.

Are we saving money? Yes, we are saving money. We are saving money at hospitals by reducing the number of individuals that are no longer having to just choose the emergency room. We are reducing the cost of uncompensated care. And we are able to access federal dollars that we have already sent to Washington, that we deserve to be able to take advantage of to make sure that we have the healthiest population possible.

Are there less people on opiates? No, we're still struggling with that addiction, we are not alone, it is a national crisis. But I can say that we know that treatment for opioid addiction is very long time acting and very expensive and, in some cases, as you'll see with legislation coming forward later, we need to do more outside of just passing this program to solve the problem of opioid addiction. And I think to blame the cost of health care in this state on this bill is a failed condemnation.

We have a very challenged and troubled health care system. But what is driving those costs goes way beyond what we're talking about tonight. It has to do with the outrageous increase in pharmaceutical drugs. It has to do, and in this state particularly given that we have such high insurance, that we have hospitals that have been allowed to over-expand to create expensive amenities and perhaps to have too many hospitals in certain areas of the state. We need to look at how those hospitals have driven up costs and that we haven't been vigilant enough in examining those costs and how to control them.

We need to look at the fact that there have been excessive profits in the health insurance industry across this country. With the Affordable Care Act we lowered the percentage of monies that could be taken out of health care costs that were attributed to both profits and operating

costs. It used to be that many of our health insurance companies were taking as much as 37 percent off the cost of health care to cover those operational costs and profits. Now, they're only allowed to take 20 percent. We should continue to monitor that.

So those are other key areas that are driving up our health care costs. I just wanted to respond to some of the comments have been made and to come back and say that again, even if we're concerned about what's happening to the individual health insurance market, it's not just related to this bill. And if you were able, and many of us were there, for the public hearing to hear both from individuals who have been served by this program to hear from the health insurance industry, to hear from the hospitals, to hear from businesses how this program had made a positive and significant difference. And that is why we should continue this program with the legislation that we have before us today and the amendment to Senate Bill 313. Thank you, Mister President.

(The Chair recognized Senator Bradley.)

SENATOR BRADLEY: Thank you very much, I just want to hit on a couple of things quickly. It was described that Medicaid expansion was a failure, that it didn't work. Well to me, the definition of failure is the people that didn't qualify for Medicaid and didn't qualify for insurance on the exchanges had to go to the emergency room. The emergency room lurching from crisis to crisis at the highest cost possible, that's a failure. What we have done has definitely mitigated that. We have to admit that health care costs are rising. It is prescription drugs, it's less of the subsidies called CSRs from Washington, it's insurance company losses, it's medical inflation and it is also the cost of the acuity level in Medicaid expansion. Remember we're solving that, or at least substantially mitigating it in this bill. I have to agree with our friend from Bedford, he must be enjoying the dinner, our country ought to look at some other reforms that would lower the cost of health care, associated health plans, cross state border purchases, full deductibility of all health care expenses. I happen to think they would make sense but guess what; hasn't passed in Washington. I was there for those debates and it hasn't passed here. So that leaves us with Senator D'Allesandro talking about one of my favorite expressions in life; don't make the perfect the enemy of the good. We haven't been able to drive those reforms that lower health care costs, but we are in the middle of a health care crisis, especially if you have mental health or substance abuse issues. Medicaid expansion's probably the single most important thing, if you talk to the advocates that we can do to alleviate our drug crisis. And yes, it's not resolved, there's still a long ways to go. And a lot of other strategies beyond Medicaid expansion. We've protected taxpayers, we've stabilized the individual markets, there's a lot of good reform in this bill. Let's vote, and let's take a break for dinner. Thank you, Mister President.

The question is on the adoption of the motion of Ought to Pass with Amendment.

A roll call was requested by Senator Bradley, seconded by Senator French.

The following Senators voted Yes: Woodburn, Bradley, Watters, Hennessey, Gray, Ward, Kahn, Lasky, Feltes, Cavanaugh, Reagan, Soucy, D'Allesandro, Fuller Clark, Gannon, Innis, Morse.

The following Senators voted No: Giuda, French, Sanborn, Daniels, Avard, Carson, Birdsell.

Roll Call, Yeas: 17 - Nays: 7. Adopted, bill ordered to Third Reading.

Recess. Out of recess.

COMMERCE
SB 423, relative to noncompete clauses for low-wage employees. Inexpedient to Legislate, Vote 3-1. Senator Sanborn for the committee.

SENATOR SANBORN: Thank you, Mister President. Mister President, I move Inexpedient to Legislate on Senate Bill 423. While I applaud the sponsor in his desire to put this bill in, what the bill does is prohibit an employer from requiring an employee to enter into a non-compete agreement, but only for low wage workers. As some of you in this body might know over the past few years, almost every year I think, I have sponsored legislation to prohibit non-competes and while I also have not been able to get it passed for everybody, we have been able to pass it for MDs, people in the medical community and we're hoping to continue to expand that. It is something I personally believe in, I know the sponsor I think believes in it and I remind to the body that the most successful place on earth for economic development, Silicon Valley, prohibits non-competes. But our challenge is with the premise of this bill is it should only apply to everyone, not just a select few based solely on their wages. So please join the Commerce Committee and vote SB 423 Inexpedient to Legislate. Thank you, Mister President.

(The Chair recognized Senator Watters.)

SENATOR WATTERS: Thank you, Mister President and colleagues. I rise in opposition to the ITL recommendation and hope we can vote it down so we can consider passing this bill. I guess sometimes I feel like it's *A Funny Thing Happened on the Way to the Forum*, we had a great hearing on this, many expressions of support and no opposition in the hearing a suggestion for an amendment to determine just how tip waged people would be included and so forth. But I would hope to just take a couple minutes and say what I was trying to do with this bill and it starts from a very conservative principle; every individual possesses as a form of property, the right to pursue any calling, business or profession he or she may choose. I mean that's the fundamental principle of free labor, I mean that's what serfdom was about, that's why we had a war against slavery. Everybody has a right to possession of their own free labor.

And so what the bill suggests is that for people who are making low wages, under $15 an hour, that they ought not to be required to sign a non-compete that says they can't work for another employer for a specified period of time, maybe a year or two. Or that they can't work in a particular geographical area or that they can't work for an employer that does some of the same kind of work that they had previously done. Now, there are a lot of bills that have been passed in other parts of the country as the Senator from District 9 said; California got rid of them all. Down in Massachusetts there's a kind of a hybrid that's being done, getting rid of some employment looking at low income folks. A couple of other states have done anybody making anything under $50,000. And you know I think that the principle of it is pretty clear that perhaps the advantages of non-compete sometimes is that somebody has trade secrets you know, or they have been, a lot of money has been put into their training or setting up a lab for them, or a client list or other kinds of proprietary information that is to a business. But on the other hand, the other side of it, it's a restraint of individuals' freedoms, but also, it's a restraint on the free movement of labor, people should be able to go to get other jobs.

So I put the bill in for people making under $15 an hour. And there are examples of why we need to do this. I'll give you just one; Jimmy John's, which I'm sure several of you know was brought up by the New York attorney general for violating non-compete provisions. And they said that if you've been making sandwiches at Jimmy John's you couldn't work anyplace else for six months within the same geographical area. Now what's the trade secret there, where to put the baloney, on the sandwich? And you're telling somebody that's making minimum wage that they can't go to work for another sandwich shop for six months or a year and the attorney general of New York said that non-compete agreements for low wage workers are unconscionable. They limit mobility and opportunity for vulnerable workers and bully them into staying with the threat of being sued. So that's what it's about, the language of the bill is pretty clear. If it seems appropriate to instead of just saying $15 an hour to tie the 200 percent of the minimum wage and 200 percent of the tipped minimum wage you've got about 14.50 and about 7.25, I have a Floor Amendment that would do that. Now to the point that the Senator from District 9 has made; you know I don't like non-competes and we voted a few weeks ago, and we voted last year about medical professions, right? So we're going to do it for doctors and we're not going to do it for someone making $7.25 an hour. Now let's get started somewhere. Let's get started someplace. Let's do this and you know if we, I will support other bills as well but this is a good place to start and I do hope that we'll vote no on ITL and I can bring out the amendment and we'll pass the bill. Thank you, Mister President.

The question is on the adoption of the motion of Inexpedient to Legislate.

A roll call was requested by Senator Watters, seconded by Senator Avard.

The following Senators voted Yes: Giuda, Bradley, Gray, French, Ward, Sanborn, Carson, Innis, Morse.

The following Senators voted No: Woodburn, Watters, Hennessey, Kahn, Daniels, Avard, Lasky, Feltes, Cavanaugh, Soucy, Birdsell, D'Allesandro, Fuller Clark, Gannon.

The following Senators were excused: Reagan.

Roll Call, Yeas: 9 - Nays: 14. Failed.

Senator Watters moved Ought to Pass.

Senator Watters offered a Floor Amendment.

Sen. Watters, Dist 4
March 7, 2018
2018-1018s
04/06

Floor Amendment to SB 423

Amend the bill by replacing section 1 with the following:

1 New Section; Protective Legislation; Noncompete Agreements for Low-Wage Employees. Amend RSA 275 by inserting after section 70 the following new section:

275:70-a Noncompete Agreements for Low-Wage Employees.

I. In this section:

(a) "Employer" shall have the same meaning as in RSA 279:1, X. "Employer" shall not include employees of governmental or quasi-governmental bodies.

(b) "Low-wage employee" means an employee who earns:

(1) An hourly rate equal to 200 percent of the federal minimum wage; or

(2) An hourly rate equal to 200 percent of the tipped minimum wage pursuant to RSA 279:21.

(c) "Noncompete agreement" means an agreement between an employer and a low-wage employee that restricts such low-wage employee from performing:

(1) Work for another employer for a specified period of time;

(2) Work in a specified geographical area; or

(3) Work for another employer that is similar to such low-wage employee's work for the employer who is a party to the agreement; and that is entered into after the effective date of this section.

II.(a) No employer shall require a low-wage employee to enter into a noncompete agreement.

(b) A noncompete agreement entered into between an employer and a low-wage employee shall be void and unenforceable.

2018-1018s

AMENDED ANALYSIS

This bill prohibits an employer from requiring a low-wage employee to enter into a noncompete agreement.

SENATOR WATTERS: Thank you, Mister President and colleagues. As I mentioned before it basically is the bill that offers some definitions of low wage employee and employer and it offers some definitions of noncompetes. In this case working for another employer for a specified period of time, working in a specified geographical area work for an employer that is similar to low wage employees work. Thank you, Mister President.

(The Chair recognized Senator Giuda for a question of Senator Watters.)

SENATOR GIUDA: When I look at quasi-governmental bodies, can you put some definition to that and also line number 8 so employer should not include employees of governmental or quasi-governmental bodies?

SENATOR WATTERS: Thank you for the question. I'm not sure and perhaps Mister Lehmann could tell me, whisper it to me? These are quasi-governmental bodies that are like the Pease Development Authority, so that's the kind of thing they do.

SENATOR GIUDA: Thank you.

(The Chair recognized Senator Gray for a question of Senator Watters.)

SENATOR GRAY: I'm reading line 10 and line 11; an hourly rate equal to 200 percent of the federal minimum wage. What happens if they earn more or less than 200 percent?

SENATOR WATTERS: This is…

SENATOR GRAY: I've gotten my answer, thank you.

SENATOR WATTERS: If I may answer your question, I believe that this models the federal statute that would be under that amount so that you cannot have a non-compete for.

SENATOR GRAY: But the language says equal to. It doesn't say equal to or less.

Recess. Out of recess.

PRESIDENT MORSE: There will be several bills today that end up getting special ordered because we have thirty–eight left. But as we do that,

I haven't met with Senator Woodburn, but my guess is the Senate will be in session next Wednesday afternoon, depending on how many other bills we have. But I haven't met with him yet to go over that. I did anticipate that we're not going to midnight, but right now in the Committee on Commerce we are debating Senate Bill 423 and SB 553 to the next Calendar. Smile Senator Soucy.

SPECIAL ORDER

Without objection, the following bills are special ordered to the next session. Adopted.

COMMERCE
SB 423, relative to noncompete clauses for low-wage employees.
SB 553-FN, relative to mental health parity for workers' compensation.

SB 426, relative to the commission on primary care workforce issues. Inexpedient to Legislate, Vote 3-1. Senator Sanborn for the committee.

SENATOR SANBORN: Thank you, Mister President. Mister President, I move Inexpedient to Legislate on Senate Bill 426. This was a commission that was started in 2010 to look at workforce development issues and being it's 2018 the bill came in to essentially change the dates and keep it going and the committee felt that if there was a problem that we didn't address in 2010 it's been eight years and anything we can do to try and find a way to start cutting down the number of commissions that we have and look to solve problems versus just have meetings would be a great thing, so the members of the Senate Committee on Commerce would ask you to support the motion of Inexpedient to Legislate.

(The Chair recognized Senator Hennessey.)

SENATOR HENNESSEY: Just very quickly I promise. But this is, I was stunned frankly that it went this direction because this is a commission that is operating beautifully, getting lots of very important work done and I don't think we've ever established if there's some cut-off date for the number of years it can go on. All it did was to add a couple of members to it and extend its timing and this is, this was, I was asked to put this forward by Laurie Harding for those of you who may have known her from the House. Who's very, very active and very successful in her medical field as a nurse in the Upper Valley, and has made huge differences in people's lives. This is a commission that's doing good work, so it doesn't make any sense to me why it would just be turned down because of the number of years. They're continuing to work, adding two people and having it go for another, for an extended time just will produce even more good work, so I really am having trouble understanding and I recommend that you overturn the ITL. Thank you.

(The Chair recognized Senator Soucy.)

SENATOR SOUCY: Thank you, Mister President. Mister President, I rise in opposition to the committee motion. I was there for the hearing; I was not able to participate in the exec session but what was most important to this commission was the addition of members particularly from the New Hampshire Alcohol and Drug Abuse Councilors Association. This commission is very experienced in workforce issues, has made numerous recommendations, many of which have turned into legislation, been enacted and at a time when we have workforce issues during an opioid crisis, it makes it all the more important to let an experienced group of people continue to do this good work. So I would ask my colleagues to overturn

this recommendation, this is a simple ask of adding a couple members and extending a commission that's already functioning well. Thank you, Mister President.

(The Chair recognized Senator Giuda for a question of Senator Sanborn.)

SENATOR GIUDA: Thank you, Mister President. Thank you, Chairman. Why are we looking at the 2020 final report? That's two and a half years. We already have 14, 13 workforce education and so forth programs in place?

SENATOR SANBORN: Senator, thank you so much for the question. Part of the reason that we have recommended Inexpedient to Legislate is that in general we have committees and committees and commissions and commissions that have reports that no one ever reads or keeps up on. And here's a case that the committee although well-intended, Representative Harding is one of my dearest loves of the people who have ever been in this building, but for us we need to start considering, is there a problem we're trying to solve, what is the problem and how do we solve it, put legislation in for it. In this case it's a commission that's just kicking the can down the road for two and a half years, for a report in 2020. And if they come forth with a problem next year, I'm sure we'll all be more than willing to listen to a piece of legislation to solve a problem.

SENATOR GIUDA: Thank you.

The question is on the adoption of the motion of Inexpedient to Legislate.

A roll call was requested by Senator Fuller Clark, seconded by Senator Soucy.

The following Senators voted Yes: Woodburn, Giuda, Bradley, Gray, French, Ward, Sanborn, Daniels, Avard, Birdsell, Gannon, Innis, Morse.

The following Senators voted No: Watters, Hennessey, Kahn, Lasky, Carson, Feltes, Cavanaugh, Soucy, D'Allesandro, Fuller Clark.

The following Senators were excused: Reagan.

Roll Call, Yeas: 13 - Nays: 10. Adopted.

MOTION OF RECONSIDERATION

Senator Bradley, having voted on the prevailing side, moved to reconsider SB 426, the bill having previously been found Inexpedient to Legislate. Adopted.

The question is on the adoption of the motion of Inexpedient to Legislate.

A roll call was requested by Senator Soucy, seconded by Senator Avard.

The following Senators voted Yes: Giuda, Bradley, Gray, French, Ward, Sanborn, Daniels, Avard, Birdsell, Gannon, Innis, Morse.

The following Senators voted No: Woodburn, Watters, Hennessey, Kahn, Lasky, Carson, Feltes, Cavanaugh, Soucy, D'Allesandro, Fuller Clark.

The following Senators were excused: Reagan.

Roll Call, Yeas: 12 - Nays: 11. Adopted.

SB 427, limiting the liability of successor corporations for asbestos-related claims.
Ought to Pass, Vote 4-0. Senator French for the committee.

SENATOR FRENCH: Thank you, Mister President. I move Ought to Pass on Senate Bill 427. This bill limits the liability to certain successors to the

amount of the predecessor's total gross assets at the time of the merger, plus any upward adjustment to reflect what those assets would be worth in today's dollars after inflation. The bill applies only when the original transfer successor asbestos related liability occurred before the Federal Government regulation in 1972. In the merger consolidation the successor must not have continued in the selling, manufacturing, distribution of, removing or installing asbestos containing products. Any successor that engages in wrongdoing before or after the merger would remain liable for any harm. And because of these restrictions, the impact of the bill is very limited. This bill does not leave those who have suffered asbestos related injury without recourse. Claimants will continue to have the ability to file for specific damages as well as file a claim with one of the established trusts. Please join me in voting Senate Bill 427 as Ought to Pass. Thank you, Mister President.

Senator Gannon offered a Floor Amendment.

Sen. Gannon, Dist 23
March 7, 2018
2018-1015s
06/10

Floor Amendment to SB 427

Amend RSA 507-H:5, IV as inserted by section 2 of the bill by replacing it with the following:

IV. No adjustment of the fair market value of total gross assets shall be applied to any liability insurance that may be included in the calculation of total gross assets by RSA 507-H:4, III.

Amend the section heading of RSA 507-H:7 as inserted by section 2 of the bill by replacing it with the following:

507-H:6 Scope of Act; Application.

SENATOR GANNON: It really isn't a substantive thing so it's just two drafting errors. On page 4 line 9 it should have been a 3 instead of a 2 and a similar thing it should have been a 6 instead of a 7. They were just numbering errors. And then I'd like to speak on the bill itself.

The question is on the adoption of the Floor Amendment. Adopted.

(The Chair recognized Senator Gannon.)

SENATOR GANNON: Thank you, Mister President. I heard earlier tonight from the good Senators from District 20 and District 9. They were talking about the American dream. That's one of the things our Governor and all of us send out; that New Hampshire is open for business. And how do we let the other states know we're open for business? It's fairness. We have to treat all our business laws in a fair manner. This is a quick story. I'll be, I promise I'll be under two minutes and I'll be done. New Hampshire, little company called Crown and Cork, the Senator from District 20 probably remember the little grape Nehis when you were a kid on a nice cold day, and they had cork on the inside of the bottle cap. Well that was what this company did. It was a nice mom and pop little company that grew, American success story and they wanted to acquire one of their competitors, which they did. Ninety-three days later there was a little subsidiary company was closed and they weren't really interested in it, but they were buying from a widow, she just wanted to sell the whole package, they got stuck into buying that. So they did. It was called Mundet. They sold it off ninety-three days later, it was an

insulation division, idle machinery, left over inventory, they never used it, hardly owned it. Nine years later, 1972 OSHA regulations banned the use of asbestos and then if you acquired henceforth after that you acquired business and you were aware of the dangers to asbestos, you took on the liability. Crown paid $7 million for this Mundet stock. Today that would be worth $65 million. Crown has paid out over 800 million to date. They're credit rating has been reduced to junk bonds. Any time they borrowed money in the last forty years, they've spent an extra billion dollars in interest on top of the 800 million. Crown never manufactured, they never sold, they never installed asbestos containing products. Now they've settled more than 70,000 asbestos related claims, spent close to $2 billion because of it. The company that made Mundet's insulation eventually went bankrupt. Court lawyers in several states turned to Crown because they've run out the thousand businesses that became part of the asbestos liability suit. They're gone so now the lawyers are looking to see who they can feed off of.

What does this bill do? Twenty-five other states have passed this bill or an almost identical version of this bill. The bill only applies where original transfers of successor asbestos related liabilities occurred before the Federal Government began regulating asbestos in 1972. Again, '72 is important because that was the year OSHA enacted the regs banning the use of asbestos and acquiring businesses and other businesses became aware of the asbestos danger. Additionally after the merger and consolidation of successor now must not have continued in the business of selling, manufacturing, distributing, removing or installing asbestos products. Any successor that independently engaged in wrongdoing whether before or after merger remains liable for any harm it causes. Because of these restrictions the impact of the bill is very limited. This bill is not going to leave people who have suffered horrible asbestos related injuries without recourse. There's 25 to $30 billion still in the asbestos compensation fund that they can go after. Also clients can continue to have the ability to file for civil damages as well with one of the established trusts as I said. Time trends indicate there's no end in sight for asbestos litigation. Litigants will potentially look to states like New Hampshire as they seek to avoid states that have adopted the very reforms contained in this legislation. Litigation continues to move to less palpable companies outside of the asbestos in building materials industries and threatens the continued viability of uniquely situated U.S. companies. Adoption of SB 427 will send a strong message that New Hampshire business laws are based on fairness and that New Hampshire is open for business. Thank you, Mister President.

PRESIDENT MORSE: That was a long two minutes.

(The Chair recognized Senator Soucy.)

SENATOR SOUCY: Thank you, Mister President. I rise in opposition to the pending motion, and I just want to clarify a couple things. First of all, in 1963 when Crown acquired a small $7 million competitor whose owner had recently died, and his wife was a widow. Contrary to the assertions, the FTC documents confirm, Crown did not acquire Mundet Corp. as a failing company. The company was not on the verge of going out of business or facing involuntary liquidation. Rather Crown's main purpose in acquiring this company was to control their large sales volume business, gain access to their list of long-term customers and to create a monopoly in the manufacture and sale of metal crowns. Prior to the acquisition, Mundet Corp. was one of the top metal crown manufacturers in

the U.S. Hardly two little mom and pop companies, so we need to clarify that. Crown Cork is also a thriving company. It's a large publicly traded multi-national company with net sales over $8 billion, and over $390 million in after-tax profits in 2015 alone. According to its own website, it employs 23,000 people at 149 plants in forty countries. Jeez if that's a mom and pop, I want them to be my parents, I'll tell you.

But the problem with this legislation Mister President, and my colleagues, is that the legislation creates a special exclusion from liability and would insulate asbestos corporations against all pending and future claims from asbestos victims dying of cancer. By arbitrarily limiting the liability of some asbestos corporations, the bills shifts the cost of asbestos disease onto asbestos victims and most importantly onto taxpayers. This bill sets a very bad precedent and it's clear that at the time of the acquisition, this was a sophisticated company. It knew what it was doing. It did its due diligence and you know, in life when you acquire something, you acquire liabilities but you acquire the assets, if they had found some precious metal, if they had found oil on the property, they would reap the benefit of that. At the time they had the opportunity to examine this company and determine what it really was all about. The fact that this legislation has passed in some other states, yes that's true; it's also been rejected in states like Maine and Kentucky and in the two states where it was challenged, it was found to be unconstitutional. Most importantly though, what all of us should consider is that ultimately New Hampshire employers are the ones who are going to bear the cost. Because employees are suffering from asbestos disease and they're going to see workers' compensation to substitute for their tort recovery. This is a corporate bail out and it will be at the expense of taxpayers. And for those reasons Mister President, I would encourage my colleagues to vote down this motion. Thank you.

(The Chair recognized Senator Sanborn.)

SENATOR SANBORN: Thank you, Mister President. Mister President, I rise on behalf of the Commerce Committee and ask the body to continue to support the motion of Ought to Pass. While I appreciate the comments from my Senator of District 18, there's a couple things that remain very important here; This company, Crown, never sold products in the asbestos industry. They never manufactured it, they never distributed it, they never sold it. They bought a competitor that had an ancillary business that did it. In the ninety some odd days that they had possession of these assets they never operated it, they never sold it. But yet today we see trial attorneys on top of the fact there's a $50 billion asbestos fund that still has $25 billion in it, it's never enough. Try to find every single potential liable person that they possibly can. As we heard in testimony, this company, Crown, has paid out $800 million in claims on a company they paid $7 million for and never sold any of it. When we think about what the word liability should mean, they were never driving the car, they never gave the drinks, they never held the gun, they never did anything, anything other than buy a company and for ninety days have the assets before they sold them off. Eight hundred million dollars for that event. If this company was a manufacturer, was selling, was liable for doing something wrong, I think all of us in this room would support the concept that if you make that decision there's some level of liability. In this case these people were not guilty of doing anything, so we ask the body to continue to support the Committee of Commerce recommendation. Thank you, Mister President.

The question is on the adoption of the motion of Ought to Pass with Amendment.

A roll call was requested by Senator Sanborn, seconded by Senator Soucy.

The following Senators voted Yes: Giuda, Bradley, Gray, French, Ward, Sanborn, Daniels, Avard, Carson, Birdsell, D'Allesandro, Gannon, Innis, Morse.

The following Senators voted No: Woodburn, Watters, Hennessey, Kahn, Lasky, Feltes, Cavanaugh, Soucy, Fuller Clark.

The following Senators were excused: Reagan.

Roll Call, Yeas: 14 - Nays: 9. Adopted, bill ordered to Third Reading.

SB 566-FN, relative to unemployment compensation for school bus drivers and monitors.
Ought to Pass with Amendment, Vote 3-1. Senator Lasky for the committee.

Commerce
March 6, 2018
2018-0982s
08/03

Amendment to SB 566-FN

Amend the title of the bill by replacing it with the following:

AN ACT establishing a commission to study the school bus driver shortage.

Amend the bill by replacing all after the enacting clause with the following:

1 New Section; Commission to Study the School Bus Driver Shortage. Amend RSA 189 by inserting after section 6-c the following new section:

189:6-d Commission to Study the School Bus Driver Shortage.

I. The general court finds that the shortage of school bus drivers in places like Northwood creates a significant burden on our school districts and our families. Later school start times and an inability to transport students to extracurricular activities adversely effect the education of our students. There is hereby established a commission to study the school bus driver shortage.

II. The members of the commission shall be as follows:

(a) One member of the senate, appointed by the president of the senate.

(b) Two members of the house of representatives, one of whom shall be from the labor, industrial and rehabilitative services committee and one of whom shall be from the education committee, appointed by the speaker of the house of representatives.

(c) The commissioner of the department of employment security, or designee.

(d) The director of division of motor vehicles, department of safety, or designee.

(e) The commissioner of the department of education, or designee.

(f) Two members of the New Hampshire School Transportation Association, appointed by the association.

(g) Two school bus drivers who are affiliated members of a labor organization, appointed by the labor organization's local union.

III. Legislative members of the commission shall receive mileage at the legislative rate when attending to the duties of the commission.

IV. The commission shall study the effect of bus driver shortages on school districts, the effect of search for work requirements for bus drivers collecting unemployment, and the effect of search for work requirements on seasonal employees.

V. The members of the commission shall elect a chairperson from among the members. The first meeting of the commission shall be called by the senate member. The first meeting of the commission shall be held within 45 days of the effective date of this section. Five members of the commission shall constitute a quorum.

VI. The commission shall report its findings and any recommendations for proposed legislation to the president of the senate, the speaker of the house of representatives, the senate clerk, the house clerk, the governor, and the state library on or before November 1, 2018.

2 Repeal. RSA 189:6-d, relative to the commission to study the school bus driver shortage, is repealed.

3 Effective Date.

I. Section 2 of this act shall take effect November 1, 2018.

II. The remainder of this act shall take effect upon its passage.

2018-0982s

AMENDED ANALYSIS

This bill establishes a commission to study the shortage of school bus drivers.

SENATOR LASKY: Thank you, Mister President. I move Senate Bill 566 Ought to Pass with Amendment. This school year in the town of Northwood they had an extreme shortage of bus drivers which caused them to alter school schedules. This of course disrupted the school personnel, bus drivers and families. Bus drivers are essentially seasonal and are eligible to collect unemployment during the periods of time they are not working. This legislation sought to allow bus drivers and monitors to be able to apply for unemployment and provide proof of a specific return to work date, which would eliminate the requirement for a job search. Currently bus drivers who collect unemployment in the summer are required to search for work. If they find a job, they are required to accept it. If they don't, they lose their unemployment. The problem is, if the bus companies are not notified it can take anywhere from four to eight weeks to hire and train a bus driver because of CDL requirements, background checks and etcetera. After the prime sponsor met with the Department of Employment Security, the committee was informed there would be a problem with the Federal Department of Labor because we are specifying a specific profession. If we narrow it down to include solely bus drivers as much as we have it may impact all of the unemployment compensation. For this reason, the committee amendment, which establishes a commission to study and resolve this important issue, was put in place by the committee. So I ask you to join the committee in voting Senate Bill 566 Ought to Pass with Amendment. Thank you, Mister President.

The question is on the adoption of the Committee Amendment. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to Third Reading.

SB 567-FN, relative to workforce development and job training.
Interim Study, Vote 3-1. Senator French for the committee.

SENATOR FRENCH: Thank you, Mister President. I move refer to Interim Study on Senate Bill 567. This bill would increase the unemploy-

ment compensation administrative contribution, paid by employers from the current rate of .2 percent to .4 percent, doubling that rate. The rate increase would provide an additional 4 million to the Department of Business and Economic Affairs to supplement and expand workforce development and job training programs funded by the training. Currently 2 million of the administrative contribution is deposited in the training fund, and the remainder is reserved to pay for administrative costs of the department. This bill would increase the amount by $4 million to $6 million. The Department of Employment Security indicated there could be an indirect impact on employers tax rates because annual revenue to the unemployment trust fund would decrease by 4 million, equal to the increase to the training fund. As a result, employers would pay 9.13 million in unemployment taxes in the second and third quarters of 2019. The tax rates are dependent on the balance in the trust fund and future rates would be impacted by revenue going into the fund which is the reason the majority of the Senate Commerce Committee wisely voted SB 567 to Interim Study. Thank you, Mister President.

(The Chair recognized Senator Cavanaugh.)

SENATOR CAVANAUGH: Thank you, Mister President. I'm in opposition to Interim Study. I've spoken to many business owners that look forward to this and think this will help them. Major manufacturing in Manchester thinks they can get qualified applicants to employ. Last year there were 6,000 jobs lost in New Hampshire, the most in all of New England. This bill would help recruitment and to help skill up our current workforce. People in recovery right now, one of their barriers is employment. They need a job to keep in recovery and to be successful. This would help them a pathway for employment. Later tonight, hopefully not early tomorrow morning, we will be listening to a bill that gives tax exemptions to new innovative businesses and I support that. But why wouldn't we be also helping companies with workforce development as well. We talk about the aging of New Hampshire and we want to keep young people graduating high school and graduating college in New Hampshire and when I talk about that I think of my three kids and how different they are to make it a four years school and a tech school. And my younger son, fifteen, who's saving for a truck and he wants to buy his own truck and start his own business at sixteen. His work ethic is incredible, and I don't doubt that'll happen for him. This bill will also help high schools with apprenticeship programs and kids can come out of high school if they want to do that, they'll have a leg up and they will help employers that want to employ them. So I ask you to please vote no on the Interim Study and support the original bill as presented. Thank you, Mister President.

(The Chair recognized Senator Daniels for a question of Senator Cavanaugh.)

SENATOR DANIELS: Could you please tell me; we have thirteen existing job training programs. What can't be accomplished in those thirteen programs that we must have this one?

SENATOR CAVANAUGH: Well I think this will expand that. I know the high schools I'm thinking of they don't have that apprenticeship program, that can expand and have kids that want to either go to a trade school. If they can get that help through high school, I think it'll give them way to firefighting, any kind of trade school. So I don't know what specific thirteen groups you're talking about, but I think if we expand that, help our children in high school, I think that's a positive.

SENATOR DANIELS: Thank you.

(The Chair recognized Senator Giuda.)

SENATOR GIUDA: Thank you, Mister President. This is a bill that is well-intended but utterly unnecessary. In conversations with Chancellor Gittell, our community college system is working to great lengths to integrate with our schools, at both community college and high school level to produce programs where they pipeline students through internships and through training right into corporations. So we don't need to study it, we don't need to put another program in place. What we have in place is working just fine. I would vote against this bill. Thank you.

(The Chair recognized Senator Woodburn.)

SENATOR WOODBURN: Thank you, Mister President. I rise in opposition to this motion and I'm looking at the report here, and not a single person turned up and spoke against this at committee, not one single person. One that did, Commissioner Taylor Caswell of the Business and Economic Affairs Commission, our new DRED commission, testified in support and told the committee that there are 16,000 open jobs in the state of New Hampshire. And we also learned that there are over 6,000 jobs lost since 2017, and that we are the only state, New Hampshire is the only state in New England to actually lose jobs. We have some challenges and we're not investing in the areas that we need to be. It's time for us to make the smart sensible investments and move forward and get to work. Thank you, Mister President.

(The Chair recognized Senator Sanborn.)

SENATOR SANBORN: Thank you, Mister President. I've got two words Mister President, for you tonight. And I'm going to say it three times; tax increase, tax increase, tax increase. That's what this bill looks to do. To my good friend up in Senate District number 1, the reason that no one showed up in opposition to it is because the business community has to work every day nine to five my good friend. The business community works. They count on some of us to protect them from the constant barrage of new tax increases, slipped in the unemployment compensation trust fund and all the other ways. As my friend from District 11 said, and in fact I'd have to correct him although I rarely correct my friend from District 11, after your vote tonight we now have 14 individual work training programs in the state of New Hampshire, it was thirteen under the Medicaid Expansion Bill you passed Thursday, fourteen. In fact I think actually there was a fifteenth that was voted on tonight as well. How many do we need? If the fourteen of them are not working, do we need another one? Or maybe we need to fix the ones that we have. So based upon the fact that this would be a tax increase, we have one of the highest workers compensation expenses in America. Raising the rate again tells the business community a very specific thing; lowest unemployment in America, highest cost of unemployment workers' comp we have in America. It's an imbalance. Last thing we need to be doing right now is raising taxes. So again I ask the body to support the Interim Study. Thank you, Mister President.

(The Chair recognized Senator Feltes.)

SENATOR FELTES: Thank you, Mister President. Continued misstatements, continued misstatements, continued misstatements. Those are my two words. This isn't even workers' comp, number one, and the testimony of Deputy Commissioner Laver says we didn't forecast there would

be any impact in changing the trigger one way or another in 2019. The fiscal note said something different. They had updated projections. No tax impact whatsoever 2018 and 2019, 2020 potential tax impact but they can't forecast out that long. They've testified to that; they've made it clear that the forecasting can't go beyond that. So the forecast, the reliable forecast says no tax increases, no fee increases, and this is an opportunity to invest in our workforce, skill up our workforce and continue what we're supposed to do, and you know what? In last year's budget we had zero going to workforce development and job training, zero dollars. As the Senator from District 1 noted, we lost over 6,000 jobs last year in 2017. The only state in New England to lose jobs. And though the budget, Governor Sununu's budget does give more tax breaks to big corporations, many of which were headquarters out of state but that didn't result in job growth, we've lost 6,000 jobs. What can we do? Well we can do what Taylor Caswell said, try to fill these jobs. The last thing I'll note, this notion of thirteen job training programs, that's not accurate. We have the job training fund that Senator Cavanaugh talked about, we have WIOA funds, Workforce Investment Opportunity Act money, we used to have Trade Investment Act money, that dried up and we have the soft skills work ready. There are different initiatives including the sector strategies partnerships, but we only have basically one housed program over in Commissioner Caswell's Department that works with those three programs. So we have three under one umbrella, and what this will meet is a major gap in the system for employers that need to hire people who don't have the skills right now, but can get these skills up, attracted and retained and meet those open jobs. So if we're serious about workforce development and job training, we ought to vote no on Interim Study. Let's stop studying something that we know is a problem and start acting. Thank you, Mister President.

(The Chair recognized Senator Innis.)

SENATOR INNIS: Thank you, Mister President. I like this bill. I think it does some things that are good. What I don't like is the way that we tax our businesses with unemployment taxes. And I've said this before, when the economy is going great and you're full up with employees, you're not paying much in unemployment tax at all. At the time that your business is most profitable we're not taxing you at a very high rate for unemployment. As you start laying people off as the economy begins to go down, your unemployment tax rate goes up, as your company is making less money. So what do you do? You lay off more people and your tax goes up higher and more people and it goes higher. We have a fundamental flaw in the way that we collect unemployment tax in this state. If we can fix that and do something with this bill at the same time, we might have something worthwhile. And I will commit to Senator Feltes that I will help him work on that if he will make the same commitment to me because two Dan's are better than one. But we do have a real problem with our unemployment taxes in the state and we must correct that. Thank you, Mister President.

(The Chair recognized Senator Carson.)

SENATOR CARSON: Thank you, Mister President. I rise to speak against the Interim Study motion. As a House member I actually served on a commission that was allocated $1 million for workforce development and job training. And we would meet once a month and businesses would come in and they would ask for money to train their workforce. Usually it was in computer skills or in lean manufacturing techniques, which is

what they desperately needed at the time. The employees were given a certificate for their education, something that was portable, they could take with them for whatever job they wanted. I think it is a good investment. We're not talking about college age students that are going from college to the workforce, we're talking about people that perhaps did not graduate from high school or maybe they did graduate but they've been out of the workforce for a long time. This is working together with businesses to get them employees that are trained, and those folks are learning skill that they can take with them wherever they go. I think it is a worthwhile investment in our workers here in the state of New Hampshire. Thank you very much, Mister President.

(The Chair recognized Senator Kahn.)

SENATOR KAHN: Thank you, Mister President. I think a lot's been said that I would have as well but relative to the thirteen agencies, last time I heard that, I went to the office of Senate Research. We've got to circulate that memo that it's based on because as my colleague from District 15 has said, it is not thirteen programs. It is a very narrow set that get repeated a couple of times because they got different sections that they apply different dollars to just as this is suggesting here. You may say this is six different programs, but this is one effort to try to address what in my district manufacturers, people who are struggling to stay active and growing, thriving because they need workforce. It's the number one priority that they have. I hope that we can do the right thing here and move forward to pass this bill. Thank you, Mister President.

(The Chair recognized Senator Giuda.)

SENATOR GIUDA: Thank you, Mister President. I would offer that the 6,000 jobs that were lost were not lost through the lack of workforce training programs. They were lost for other reasons. I've lost 2,000 in my own district, okay? It had nothing to do with whether we had workforce training because we had workforce training, and we have workforce training for adults in the community college system as well. So the point is this is not a necessary function, we already have it covered in the community college and already existing workforce programs and I would ask you to please vote the committee recommendation.

(The Chair recognized Senator Watters.)

SENATOR WATTERS: Thank you, Mister President. Thank you, Colleagues. I just wanted to point out very quickly that there is something new here, that we really need and will have an immediate impact. And that is to bring work ready New Hampshire into the high schools. On the career and technical education commission we have work ready came in, they said they want to go into the high schools, the high schools really need it, particularly the career and technical education folks, $500,000 means they can get in there and have a pilot program for the tenth through twelfth graders. We desperately need it; this bill would do it. Thank you.

(The Chair recognized Senator Cavanaugh.)

SENATOR CAVANAUGH: I just wanted to point out that the Community College System of New Hampshire does support this bill as well. Thank you, Mister President.

The question is on the adoption of the motion of Interim Study.

A roll call was requested by Senator Woodburn, seconded by Senator Soucy.

The following Senators voted Yes: Giuda, Bradley, Gray, French, Ward, Sanborn, Daniels, Avard, Birdsell, Gannon, Innis, Morse.

The following Senators voted No: Woodburn, Watters, Hennessey, Kahn, Lasky, Carson, Feltes, Cavanaugh, Soucy, D'Allesandro, Fuller Clark.

The following Senators were excused: Reagan.

Roll Call, Yeas: 12 - Nays: 11. Adopted.

EDUCATION
SB 526-FN, relative to school breakfast programs.
Ought to Pass with Amendment, Vote 4-1. Senator Kahn for the committee.

Senate Education
March 6, 2018
2018-0962s
05/06

Amendment to SB 526-FN

Amend the title of the bill by replacing it with the following:

AN ACT relative to school food and nutrition programs.

Amend the bill by replacing all after the enacting clause with the following:

1 School Boards; Food and Nutrition Programs. Amend RSA 189:11-a, I to read as follows:

I. Each school board shall make [~~a~~] ***at least one*** meal available during school hours to every pupil under its jurisdiction. Such meals shall be served without cost or at a reduced cost to any [~~needy~~] child who [~~is unable to pay the full cost of said meals~~] ***meets federal income eligibility guidelines***. The state board of education shall insure compliance with this section and shall establish minimum nutritional standards for such meals and shall further establish income guidelines setting forth the minimum family size annual income levels to be used in determining eligibility for free and reduced price meals. Nothing in this section shall prohibit the operation of both a breakfast and lunch program in the same school. Further any requirement of this section which conflicts with any federal statute or regulation may be waived by the state board of education.

2 School Boards; Food and Nutrition Programs. Amend RSA 189:11-a, VII(b) to read as follows:

(b) Such school which demonstrates to the department of education that an approved school wellness policy, as required under the Child Nutrition and WIC Reauthorization Act of 2004, is in effect, and that such school is providing breakfast meals to pupils that meet or exceed the United States Department of Agriculture's child nutrition criteria may apply for and receive a 3 cent reimbursement for each breakfast meal served to a pupil. The department of education shall request biennial appropriations in an amount sufficient to meet projected school breakfast reimbursements. The department of education shall prescribe forms as necessary under this paragraph. ***In addition to the $.03 state reimbursement for each breakfast served to all pupils, the department of education shall request biennial appropriations equal to the difference between the reduced and free federal reimbursement rate for breakfast so that pupils otherwise eligible for reduced price meals have access to breakfast at no cost.***

3 Applicability. For the fiscal year ending June 30, 2019, the amount required under section 2 of this act to provide breakfast at no cost to pupils otherwise eligible for reduced price meals shall be drawn from funds appropriated to the department of education in 2017, 155.

4 Effective Date. This act shall take effect July 1, 2018.

2018-0962s

AMENDED ANALYSIS

This bill requires schools to make at least one free or reduced cost meal available to children who meet federal eligibility guidelines. The bill also directs the department of education to request an appropriation sufficient to provide a free breakfast to students eligible for reduced cost meals.

SENATOR KAHN: Thank you, Mister President. I move Senate Bill 526-FN Ought to Pass with Amendment. As amended this bill requires schools to make at least one free or reduced cost meal available to children who meet federal eligibility guidelines. The bill also directs the Department of Education to request an appropriation sufficient to provide a free breakfast to students eligible for reduced cost meals. With and additional $.27 per student per day New Hampshire public schools will be able to provide a breakfast meal to 7,100 students eligible for free and reduced cost breakfast reimbursements. Based on these figures, the new total fiscal impact will be $345,000 a year. This legislation is important in order to ensure that all children are fed a breakfast and are therefore equivalently prepared to learn every school day. Therefore the majority of the Education Committee asks for your support of the motion Ought to Pass with Amendment on Senate Bill 526-FN. Thank you, Mister President. I'd like to speak to the motion.

(The Chair recognized Senator Kahn.)

SENATOR KAHN: Actually I'd rather address the whole bill and leave to Senate colleague from 21 an amendment that she's going to need to offer after we pass this one. Thank you.

The question is on the adoption of the Committee Amendment. Adopted.

Senator Fuller Clark offered a Floor Amendment.

Sen. Fuller Clark, Dist 21
March 8, 2018
2018-1028s
06/03

Floor Amendment to SB 526-FN

Amend the title of the bill by replacing it with the following:

AN ACT relative to school food and nutrition programs.

Amend the bill by replacing all after the enacting clause with the following:

1 School Boards; Food and Nutrition Programs. Amend RSA 189:11-a, I to read as follows:

I. Each school board shall make [~~a~~] ***at least one*** meal available during school hours to every pupil under its jurisdiction. Such meals shall be served without cost or at a reduced cost to any [~~needy~~] child who [~~is unable to pay the full cost of said meals~~] ***meets federal income eligibility guidelines***. The state board of education shall insure compliance with this section and shall establish minimum nutritional standards for such meals and shall further establish income guidelines setting forth

the minimum family size annual income levels to be used in determining eligibility for free and reduced price meals. Nothing in this section shall prohibit the operation of both a breakfast and lunch program in the same school. Further any requirement of this section which conflicts with any federal statute or regulation may be waived by the state board of education.

2 School Boards; Food and Nutrition Programs. Amend RSA 189:11-a, VII(b) to read as follows:

(b) Such school which demonstrates to the department of education that an approved school wellness policy, as required under the [~~Child Nutrition and WIC Reauthorization Act of 2004~~], ***Richard B. Russell National School Lunch Act 42, U.S.C. section 1758b*** is in effect, and that such school is providing breakfast meals to pupils that meet or exceed the United States Department of Agriculture's child nutrition criteria may apply for and receive a 3 cent reimbursement for each breakfast meal served to a pupil. The department of education shall request biennial appropriations in an amount sufficient to meet projected school breakfast reimbursements. The department of education shall prescribe forms as necessary under this paragraph. ***In addition to the $.03 state reimbursement for each breakfast served to all pupils, the department of education shall request biennial appropriations equal to the difference between the reduced and free federal reimbursement rates for breakfast so that pupils eligible for reduced price meals are offered breakfast at no cost.***

3 Effective Date. This act shall take effect July 1, 2018.

2018-1028s

AMENDED ANALYSIS

This bill requires schools to make at least one free or reduced cost meal available to children who meet federal eligibility guidelines. The bill also directs the department of education to request an appropriation sufficient to provide a free breakfast to students eligible for reduced cost meals.

SENATOR FULLER CLARK: And while this amendment replaces the entire bill, it only makes two significant changes to the bill that was already presented. And those are basically technical changes, but it was just simpler to provide it to you all in one entity. So you'll notice in line 21, you now have new language. It says the Richard B. Russell National School Lunch Act 42, USC section 1758B. This is now the federal legislation under which the breakfast, or free and reduced lunch program exists. Yesterday the New Hampshire Hunger Association came to me and requested that we make this amendment. The other amendment that is made is at the very end of the bill where actually section 3 was dropped which was applicability language that is no longer necessary because in line 28 it makes clear that it is the responsibility of the Department of Education to request a biennial appropriation equal to the difference between the reduced and free lunch reimbursement programs for breakfast. So that people eligible for reduced price meals are now going to be offered breakfast at no cost. And then obviously what was for the effective date became 3. So I would ask you to adopt this amendment and then I would like the opportunity to speak to the bill as amended.

(The Chair recognized Senator French for a question of Senator Fuller Clark.)

SENATOR FRENCH: On line 27 it says the state reimbursement amount is $.03 per breakfast. Is that accurate?

SENATOR FULLER CLARK: Yes.

SENATOR FRENCH: Great. Thank you.

(The Chair recognized Senator Daniels for a question of Senator Fuller Clark.)

SENATOR DANIELS: What is the fiscal impact of your amendment?

SENATOR FULLER CLARK: The fiscal impact starting next year would be $345,000 annually but as you heard would make it possible to provide a free breakfast to 7,100 additional students in New Hampshire.

SENATOR DANIELS: I understood that the previous speaker had talked about the bill being 345,000. I noticed on yours that it makes a change from one meal to at least one meal. So I would think that there would be an increase in the fiscal impact if you're offering more than one meal, where the previous one was offering one meal?

SENATOR FULLER CLARK: Let me explain to you as I understand it that under federal guidelines you are required to provide at least one meal at reduced and free, whether it's lunch or breakfast. What has happened has been that in most places, both breakfast and lunch are offered at free and reduced. In this case it would change that requirements so that if a breakfast which we all know is the most important meal of the day, but no longer would students be charged at the reduced level. There are qualifications that are put in place by the Federal Government to determine the level at which you are eligible for either free or reduced lunch. But in this case, we would remove the one component of that program for breakfast so that there is either a breakfast that's paid for or a breakfast that's free. The reduced cost would go away and that would account for the additional $345,000 annually.

SENATOR DANIELS: Thank you, Mister President.

(The Chair recognized Senator Kahn.)

SENATOR KAHN: Thank you, Mister President. I just want to explain to our colleagues what the fiscal note is on this. We currently provide breakfast to 37,000 students who have a free breakfast at a federally reimbursed rate. That federally reimbursed rate is $1.75 for that meal. The reduced program, the reduced breakfast program provides a federal reimbursement of $1.45. So it leaves this $0.30 difference. That's what 7,100 plus students face. We've already got on the books, by virtue of Senator Nancy Stiles, a $0.03 match which the Department of Education provides for each reduced breakfast program as a reimbursement to each of the districts. This would move that to by another $.27 for that 7,106 students. So that's where we end up is taking all those students who are qualified for free and reduced meals having a breakfast. That's the fiscal side to this. Think of the learning side of this. That's what's important here. You got kids who are coming to school, if they have not had breakfast, they are not prepared to learn. That's what the testimony was before the committee. That's why the committee voted to pass this and ask the Senate's support. I ask that we make this technical amendment. Let's get that through and then let's pass this so that we don't have confusion. Any student who has the need for a free or reduced breakfast is getting that meal, schools don't have to do checks of students going through lines. This is going to; we need to do this in order for students to have a fair opportunity to learn and succeed. This is how we break the chain and the cycle of poverty and deficiencies in our population. If we

can't do this I don't know where we're going on trying to lift students, lift youth in the state to try to have an equal opportunity. Thank you, Mister President.

The question is on the adoption of the Floor Amendment. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment.

A roll call was requested by Senator Fuller Clark, seconded by Senator Kahn.

The following Senators voted Yes: Woodburn, Bradley, Watters, Hennessey, Gray, French, Ward, Kahn, Lasky, Carson, Feltes, Cavanaugh, Soucy, Birdsell, D'Allesandro, Fuller Clark, Gannon, Innis, Morse.

The following Senators voted No: Giuda, Sanborn, Daniels, Avard.

The following Senators were excused: Reagan.

Roll Call, Yeas: 19 - Nays: 4. Adopted, bill ordered to the Committee on Finance (Rule 4-5).

SPECIAL ORDER

Without objection, the following bill is special ordered to the next session. Adopted.

EDUCATION
SB 568-FN, relative to criminal history record checks for school employees and certain volunteers.

ENERGY AND NATURAL RESOURCES
SB 309-FN, relative to standards for perfluorochemicals in drinking water, ambient groundwater, and surface water.
Ought to Pass with Amendment, Vote 5-0. Senator Innis for the committee.

Energy and Natural Resources
March 6, 2018
2018-0973s
08/03

Amendment to SB 309-FN

Amend the bill by replacing all after the enacting clause with the following:

1 New Subdivision; Contaminants in Drinking Water. Amend RSA 485 by inserting after section 16-d the following new subdivision:

Perfluorochemicals

485:16-e Perfluorochemicals. The commissioner shall, in consultation with the commissioner of the department of health and human services and stakeholders, and no later than January 1, 2019, initiate rulemaking to adopt a maximum contaminant limit (MCL) for perfluorooctanesulfonate (PFOS), perfluorooctanoic acid (PFOA), perfluorononanoic acid (PFNA), and perfluorohexanesulfonic acid (PFHxS) for public water systems regulated by this chapter. The commissioner shall consider the standards of other states, including the science considered by states with standards lower than those contained in health advisories from the United States Environmental Protection Agency. The commissioner shall adopt MCLs that reasonably protect public health, particularly prenatal and early childhood health, and that are reasonably supported by peer reviewed science and independent or government agency studies, pro-

vided no MCL shall exceed that contained in any MCL promulgated by the United States Environmental Protection Agency. The commissioner shall annually review the newest peer reviewed science and independent or government agency studies and undertake rulemaking in order to comply with this paragraph, if necessary.

2 New Paragraph; Ambient Groundwater Quality Standards. Amend RSA 485-C:6 by inserting after paragraph III the following new paragraph:

IV. The commissioner shall, in consultation with the commissioner of the department of health and human services and stakeholders, and no later than January 1, 2019, determine whether to revise the ambient groundwater quality standards for perfluorooctanesulfonate (PFOS), perfluorooctanoic acid (PFOA), perfluorononanoic acid (PFNA), and perfluorohexanesulfonic acid (PFHxS) established in rule in order to comply with this paragraph and shall make public his or her determination. The commissioner shall consider the standards of other states, including the science considered by states with standards lower than those contained in the lifetime health advisory promulgated by the United States Environmental Protection Agency. The commissioner shall adopt standards that reasonably protect public health, particularly prenatal and early childhood health, and that are reasonably supported by peer reviewed science and independent or government agency studies, provided no standard shall exceed that contained in any standard promulgated by the United States Environmental Protection Agency. If the commissioner determines that the standard should be changed, the commissioner shall initiate rulemaking within 60 days of making the determination. The commissioner shall annually review the newest peer reviewed science and independent or government agency studies and undertake rulemaking in order to comply with this paragraph, if necessary.

3 New Paragraph; Surface Water Quality Standards. Amend RSA 485-A:8 by inserting after paragraph II-a the following new paragraph:

II-b. The commissioner shall, in consultation with stakeholders, and no later than January 1, 2020, establish a surface water quality standard for perfluorooctanesulfonate (PFOS), perfluorooctanoic acid (PFOA), perfluorononanoic acid (PFNA), and perfluorohexanesulfonic acid (PFHxS) in Class A and Class B waters, if scientifically feasible. The commissioner shall consider the standards of other states. The commissioner shall adopt standards that reasonably protect public health, particularly prenatal and early childhood health, and that are reasonably supported by peer-reviewed science and independent or government agency studies, provided no standard shall exceed that contained in any standard promulgated by the United States Environmental Protection Agency. If the commissioner determines that the standard should be changed, the commissioner shall initiate rulemaking within 60 days of making the determination. The commissioner shall annually review the newest peer-reviewed science and independent or government agency studies and undertake rulemaking in order to comply with this paragraph, if necessary.

4 Effective Date. This act shall take effect 60 days after its passage.

SENATOR INNIS: Thank you, Mister President. I move Senate Bill 309-FN Ought to Pass with Amendment. This bill requires the Department of Environmental Services to adopt a state drinking water standard and ambient groundwater quality standard and a surface water quality standard relative to PFCs or perfluorochemicals. Water quality has been a persistent problem throughout our state affecting individuals,

families and businesses, especially in the Seacoast Region. Emerging contaminants like PFCs pose a potentially serious health threat to those in our state.

Senate Bill 309 compels the DES to adopt certain standards with regard to these chemicals in order to protect the public health. The DES will examine peer reviewed science and other methodologies undertaken by other states as well as the EPA to arrive at a set standard. The bill requires the DES to undertake an annual review of these standards to ensure that they are in line with recent scientific data. There are some differences in this bill versus last year's bill which was passed by this body. Senate Bill 309 includes a standard for surface water, something that was not included last year. In addition the amendment to the bill adds two new compounds that have been added to the list of emerging contaminants and those are PFNA and PFHXX. Do not ask me what that means, please. The bill also contains a fiscal note, which prepared in consultation with the DES. Finally the amendment adds specific dates for completion and the surface water standard deadline in 2020 if it is scientifically feasible to establish such a standard. The EPA does not have a surface water standard nor does any other state, so we want to give a little room there. It's vitally important that we set standards that protect the public health and that those standards be based on the latest peer reviewed science which is updated continuously. The Senate Energy and Natural Resources Committee asks for your support for the motion of Ought to Pass with Amendment on Senate Bill 309-FN. Thank you.

The question is on the adoption of the Committee Amendment. Adopted.

(The Chair recognized Senator Fuller Clark.)

SENATOR FULLER CLARK: Thank you very much, Mister President. I rise also in support of this legislation, Senate Bill 309 as amended. As you heard this bill is needed in order to pursue greater protections for the public health for our constituents, particularly with regard to those inhabitants that are surrounding the Great Bay and the Coakley Landfill on the Seacoast. You may have heard a lot about a cancer cluster that has been identified in that area. There's questions as to whether or not it is the result of these emerging contaminants. These PFOs, PFAs and the other entities that you heard about that have been added to Senate Bill 309. For those of us who are not scientists, sometimes hard to pronounce but we do know that these are newly emerging contaminants that we're learning more about every single year and we're seeing that different states are putting into place different standards. What this bill does is it asks of the Department of Environmental Services on an annual basis, review standards from other states, review studies from other states in addition to the studies that are being done at the national level and make adjustments as necessary, but always making sure that these are based on scientific review. In addition, the fact that this legislation calls for a new standard that is the surface water quality standard. This is a standard which currently doesn't exist. It doesn't exist anywhere in the country, but we have heard from DES here in New Hampshire that they are anxious to establish the standard, but that they will need more time as they wait for critical scientifically proven reports to come from Washington. So I urge you to support this bill. Thank you very much.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to the Committee on Finance (Rule 4-5).

SB 530-FN, relative to high voltage electric transmission lines in highway rights-of-ways.
Interim Study, Vote 4-0. Senator Fuller Clark for the committee.

SENATOR FULLER CLARK: Thank you very much. Mister President, I move Senate Bill 530-FN be referred to Interim Study. This bill clarifies the authority for the erection, installation and maintenance of high voltage electric transmission lines and highway right of ways. This bill would have required large electric transmission projects in excess of ten miles in overall length and in excess of 150 kilovolts to be placed on four existing energy infrastructure corridors including I-89, I-93, I-95 and NH Route 101. The committee felt that this bill had many questions that needed to be answered and further examination of its effects need to be reviewed more thoroughly. The Senate Energy and Natural Resources Committee asks for your support for the motion of Interim Study on Senate Bill 530-FN. Thank you, Mister President.

The question is on the adoption of the motion of Interim Study. Adopted.

EXECUTIVE DEPARTMENTS AND ADMINISTRATION
SB 370-FN, adopting the emergency medical services personnel licensure interstate compact.
Ought to Pass with Amendment, Vote 4-0. Senator Carson for the committee.

Senate Executive Departments and Administration
February 12, 2018
2018-0552s
10/08

Amendment to SB 370-FN

Amend RSA 153-A:35 as inserted by section 1 of the bill by inserting after the section heading the following new introductory paragraph:

The emergency medical services compact is adopted and entered into with all other jurisdictions that legally join the compact, which is substantially as follows:

Amend RSA 153-A:35, X(e)(3) as inserted by section 1 of the bill by replacing it with the following:

(3) The commission may levy on and collect an annual assessment from each member state or impose fees on other parties to cover the cost of the operations and activities of the commission and its staff, which must be in a total amount sufficient to cover its annual budget as approved each year for which revenue is not provided by other sources. The aggregate annual assessment amount shall be allocated based upon a formula to be determined by the commission, which shall promulgate a rule binding upon all member states, but New Hampshire shall not be assessed more than $6,000 annually. This limitation is not intended to suggest that such amount has been appropriated.

Amend RSA 153-A:35, X(f)(1) as inserted by section 1 of the bill by replacing it with the following:

(1) The members, officers, executive director, employees and representatives of the commission shall be immune from suit and liability, in their official capacity, for any claim for damage to or loss of property or personal injury or other civil liability caused by or arising out of any actual or alleged act, error, or omission that occurred, or that the person

against whom the claim is made had a reasonable basis for believing occurred within the scope of commission employment, duties or responsibilities; provided that nothing in this paragraph shall be construed to protect any such person from suit and/or liability for any damage, loss, injury, or liability caused by the intentional or willful or wanton misconduct of that person.

Amend RSA 153-A:35, XV as inserted by section 1 of the bill by replacing it with the following:

XV. Construction and Severability.

(a) This compact shall be liberally construed so as to effectuate the purposes thereof. If this compact shall be held contrary to the constitution of any state member thereto, the compact shall remain in full force and effect as to the remaining member states. Nothing in this compact supersedes state law or rules related to licensure of EMS agencies.

(b) The director of the division of fire standards and training and emergency medical services shall review decisions of the interstate commission for EMS personnel practice established pursuant to paragraph X of this compact and, upon approval by the commission of any action that will have the result of increasing the cost to the state of New Hampshire of its membership in the compact, may recommend to the general court that the state withdraw from the compact.

SENATOR CARSON: Thank you, Mister President. I move Senate Bill 370-FN Ought to Pass with Amendment. This legislation would provide proper legal protection, standardized practices and accountability for licensed EMS personnel when crossing state lines under certain circumstances. The bill, as amended, seeks to remedy the inability of Emergency Medical Services personnel licensed by one state, to practice in any other state on an intermittent basis, without first having to obtain licensure. Presently, licensed personnel in New Hampshire have to maintain multiple licenses in order to provide care across state lines. The ED&A Committee voted 4-0, Ought to Pass with Amendment, and asks for your support in this recommendation. Thank you, Mister President.

The question is on the adoption of the Committee Amendment. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to Third Reading.

SB 462-FN, relative to occupational licensure, certification, or registration for persons with criminal records, and relative to license applicants for barbering, cosmetology, esthetics, and manicuring.
Inexpedient to Legislate, Vote 4-0. Senator Carson for the committee.

SENATOR CARSON: Thank you, Mister President. I move Senate Bill 462-FN Inexpedient to Legislate. SB 462-FN would modify procedures for a person with a criminal conviction to apply for a license, certificate, or registration with a board or commission. It would also require all occupational regulatory boards and commissions to revise administrative rules and statutory changes to comply with criminal conviction procedures. In addition, it would require changes to the qualifications for licensure for barbers, cosmetologists, manicurists and estheticians. The committee listened to testimony regarding these required changes and also testimony on developing some of these new programs within the Department of Corrections. There were many questions as to who would pay for the development and training within these programs, programs which are not developed to date. It was felt that this bill would create two separate categories; one which the state pays for, and one for those

outside of prison, who would pay for their own education. There were no concrete plans to support this legislation. It was also noted; these boards currently have procedures in place for those with criminal records. The ED&A Committee voted ITL on this legislation, and asks for your support in its recommendation. Thank you, Mister President.

The question is on the adoption of the motion of Inexpedient to Legislate. Adopted.

SPECIAL ORDER

Without objection, the following bill is special ordered to the next session. Adopted.

EXECUTIVE DEPARTMENTS AND ADMINISTRATION
SB 463-FN, establishing an architectural paint can recycling program.

SB 532-FN, relative to group II status of certain department of corrections officials.
Ought to Pass with Amendment, Vote 4-0. Senator Cavanaugh for the committee.

Senate Executive Departments and Administration
March 7, 2018
2018-0997s
10/08

Amendment to SB 532-FN

Amend the bill by replacing section 1 with the following:

1 New Section; Department of Corrections; Officials; Status in Retirement System. Amend RSA 21-H by inserting after section 8-a the following new section:

21-H:8-b Status in Retirement System. For purposes of classification under RSA 100-A, any person who is or becomes the director of professional standards, the director of community corrections, the director of security and training, the director of field services, or the director of medical and psychiatric services, shall be included in the definition of correctional line personnel, as defined in RSA 100-A:1, VII under the retirement system, if such person was a group II member for at least 10 years prior to appointment in his or her position and shall remain in group II status for the duration of service in that position with the department.

SENATOR CAVANAUGH: Thank you, Mister President. I move Senate Bill 532-FN Ought to Pass with Amendment. This legislation will allow those within the Department of Corrections to move up to an advanced position of director. Presently, the director positions are classified in the retirement system as being in Group I. If someone has, for example, 10 years of service in Group II retirement and moves up to an advanced position of director, they are presently not allowed to carry their Group II status forward. The amendment clarifies those who apply for specific director positions can retain Group II retirement status. The New Hampshire Retirement System weighed in on this legislation and stated that to continue membership in Group II retirement will not add to the retirement system's unfunded actuarial accrued liability. The ED&A Committee voted 4-0 Ought to Pass with Amendment and asks for your support in their recommendation. Thank you, Mister President.

(The Chair recognized Senator Soucy.)

SENATOR SOUCY: Thank you, Mister President. Mister President, I rise with a couple concerns and was not at the executive session so wasn't able to participate in the discussion, but two primary concerns with respect to the legislation. The first being that this is legislation to encourage promotion within in which I always think is very valuable. However the legislation doesn't state that. It simply states that somebody is a group II member. They could be a group II member from any other governmental entity. But the main concern that I have Mister President, is that this is the first time that I'm aware of where we are not reclassifying an actual position. Throughout our retirement system positions are classified as one group or the other, based on certain criteria, based on working conditions, based on the people that they work with. This would be the first time where we would take a person and the status of the person would travel so the position could revert back. I think that is a potential for creating some problems in budgeting and I as I said, have a great deal of concern with this precedent setting legislation and for that reason I am opposed to it. Thank you, Mister President.

The question is on the adoption of the Committee Amendment. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to the Committee on Finance (Rule 4-5).

SB 571-FN, requiring the department of health and human services to perform an efficiency audit.
Inexpedient to Legislate, Vote 4-0. Senator Carson for the committee.

SENATOR CARSON: Thank you, Mister President. I move Senate Bill 571-FN Inexpedient to Legislate. This legislation requires the Department of Health and Human Services to perform an efficiency audit. The committee found the financial impact to the state was of great concern, and there is a performance audit process in place for this purpose. The committee believes there is no need to go outside of the current process. The ED&A Committee voted Inexpedient to Legislate and asks for your support in the recommendation. Thank you, Mister President.

The question is on the adoption of the motion of Inexpedient to Legislate. Adopted.

SB 588-FN, relative to inspections of laboratories.
Ought to Pass with Amendment, Vote 4-0. Senator Carson for the committee.

Senate Executive Departments and Administration
March 7, 2018
2018-0994s
01/04

Amendment to SB 588-FN

Amend the title of the bill by replacing it with the following:

AN ACT relative to inspections of laboratories and relative to loans for lead hazard remediation projects.

Amend the bill by replacing all after section 1 with the following:

2 Loans for Lead Hazard Remediation Projects. RSA 130-A:15-a, IV is repealed and reenacted to read as follows:

IV. The department shall adopt rules, pursuant to RSA 541-A, to establish the eligibility criteria, application process, and maximum loan amounts pursuant to this section. The rules shall also include a require-

ment that the lender record a lien for the full amount of the loan at the time the loan is issued for any property under this section. The lien shall be in the name of the lender and the state of New Hampshire. The lender shall service the loan in accordance with its standard practices. If the borrower fails to pay the loan as required by the loan documents, the lender shall mail a written notice of default to the borrower at his or her last known address, with a copy to the department. If the default is not cured, the lender may foreclose the lien in accordance with terms of the loan documents and state law. To the extent that the foreclosure proceeds do not cover at least 80 percent of the unpaid principal balance plus interest and reasonable collection expenses as provided under RSA 130-A:15-a, I, the lender may apply to the state for payment of the guaranty for any such deficiency. The state shall pay the guaranty in accordance with the terms of the loan guaranty program.

3 Contingency. Section 2 of this act shall take effect at 12:01 a.m. on the effective date of RSA 130-A:15-a as inserted by section 7 of SB 247-FN-A of the 2018 regular legislative session. If SB 247-FN-A does not become law, section 2 of this act shall not take effect.

4 Effective Date.

I. Section 2 of this act shall take effect as provided in section 3 of this act.

II. The remainder of this act shall take effect July 1, 2018.

2018-0994s

AMENDED ANALYSIS

This bill declares that laboratories certified under the Clinical Laboratory Improvement Amendments of 1988 (CLIA) shall be deemed licensed for purposes of the residential care and health facility license law.

This bill also clarifies the loan terms of the loans for lead hazard remediation projects.

SENATOR CARSON: Thank you, Mister President. I move Senate Bill 588-FN Ought to Pass with Amendment. This legislation, as introduced, was requested by the Department of Health and Human Services to simplify their laboratory inspection process. Currently, state laboratories require an annual inspection and a Clinical Laboratory Improvement Amendments of 1988 or a federal inspection every two years. This legislation would allow the Department to only conduct the CLIA inspection. The Department of Health and Human Services can assure that there are no health or safety issues by having inspections done this way. In addition, this will be a positive impact for the Department of Health and Human Services because it will allow their inspector to go out and complete other types of inspections for hospitals and their laboratories. The bill, as amended, addresses loans for the lead hazard remediation projects, outlines the process for how the loan guarantee would work, and better outlines what the process would be. The legislation has mechanisms in place to ensure lead hazard remediation projects are carefully monitored. The ED&A Committee voted Ought to Pass with Amendment and asks for your support in their recommendation. Thank you, Mister President.

The question is on the adoption of the Committee Amendment. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to Third Reading.

SB 589-FN, relative to regulation of certified recovery support workers. Ought to Pass, Vote 4-0. Senator Carson for the committee.

SENATOR CARSON: Thank you, Mister President. I move Senate Bill 589-FN Ought to Pass. This legislation establishes the Certification for Certified Recovery Support Workers in alcohol and drug use disorders and removes the regulation of such persons from the Board of Licensing for Alcohol and Drug Use Professionals. Under this legislation an advisory council will decide what the level of certification will be. Presently, CRSWs work under the LADC Board, but some have stated it was difficult trying to accomplish their certification, so difficult to attain that it was easier to give up on because of the process. The ED&A Committee voted Ought to Pass on SB 589-FN, and asks for your support in their recommendation. Thank you, Mister President.

(The Chair recognized Senator Cavanaugh.)

SENATOR CAVANAUGH: I rise to oppose the Ought to Pass recommendation from the committee. We had a lot of LADC professionals come before the committee and they said in the past there was a problem with the slow process of getting the license and they have worked with the board to correct it and it has been corrected and I just feel we're trying to fix a problem now that had already been fixed. Thank you, Mister President.

(The Chair recognized Senator Soucy.)

SENATOR SOUCY: Thank you, Mister President. I also rise in opposition to the pending motion. Not only were all the professionals who came to testify aware of and familiar with all the problems that had existed with the LADC board but they felt that not only had many of those issues been resolved but that we'd create an even greater problem if we were to create a separate board. One of the issues was separating the disciplines is that it would be unclear the career track for the two separate organizations, and the certified recovery support workers, the CRSWs, have only been in effect for a very short period of time. So you would be creating a licensing board of people who have little to no experience in their given field. The other issue that seemed to have generated this legislation was a concern that there seemed to be a conflation of Medicaid building and classification versus licensing. They're two very separate issues creating another category and another board isn't going to improve that situation. I think in the end Mister President, it's only going to make it worse. Therefore I would oppose this legislation. Thank you.

(The Chair recognized Senator Carson.)

SENATOR CARSON: Thank you, Mister President. This bill is the result of a study committee that we passed last year, to look into this very problem. We in ED&A kept getting reports that it was very, very difficult for people to get licensed. And I would like to commend Senator Reagan who chaired this committee and there's some things here that even at the time of the testimony, that Senator Reagan claims that the LADC board wasn't performing at top speed. And so I find it kind of interesting that now they claim they are. And they didn't really produce any evidence that they were other than their testimony. So I think this is an alternate route. I think that it is something that's good because we're not talking about people that are LADCs, we're talking about recovery workers, people that don't have the same level of education as an LDAC but they do have some level of training and I think we all know that we have trouble attracting LDACs as well as MLADCs and we just need these folks. And the board has just really not been very good through this process. So I would ask again the members to please support the committee recommendation. Thank you, Mister President.

The question is on the adoption of the motion of Ought to Pass.

A roll call was requested by Senator Sanborn, seconded by Senator Avard.

The following Senators voted Yes: Giuda, Bradley, Gray, French, Ward, Kahn, Daniels, Avard, Carson, Birdsell, Fuller Clark, Gannon, Innis, Morse.

The following Senators voted No: Woodburn, Watters, Hennessey, Sanborn, Lasky, Feltes, Cavanaugh, Soucy, D'Allesandro.

The following Senators were excused: Reagan.

Roll Call, Yeas: 14 - Nays: 9. Adopted, bill ordered to Third Reading.

FINANCE
SB 301-FN, temporarily reducing the real estate transfer tax for first-time home buyers.
Ought to Pass, Vote 5-0. Senator Feltes for the committee.

SENATOR FELTES: Thank You, Mister President. I move Senate Bill 301-FN Ought To Pass. This bill reduces the Real Estate Transfer tax rate for first-time home buyers from $0.75 to $0.50 per $100 of the sale price, for prices not exceeding 300,000, for a period of two years applicable to transfers from January 1, 2018 through December 31, 2019. The Department of Revenue Administration would be required to report on the number of first-time buyers using the lower rate and whether first-time home buyers increased or decreased as a result of the reduced rate. The committee recommends passage of Senate Bill 301-FN, and asks for your support. Thank you, Mister President.

(The Chair recognized Senator Kahn.)

SENATOR KAHN: Thank you, Mister President. I rise surprisingly in opposition to this. I supported this in the first vote and so what happened? I check with our recorder of deeds and I read the fiscal note on this matter. Four percent of all the fees on real estate transfer taxes go to support our counties. That's $600,000 in Cheshire County. There's some loss of revenue as a result of this bill. The point is, every time we do this to a county, the county shifts back to property taxpayers. It's not a lot of money to be lost or a lot of gain to be had on this. I guess I feel like there's a part of this that we just didn't look at. I understand the incentive, it's a good idea to have incentives for entering workforce. I don't know that this is that meaningful and I think that our counties should have been further consulted on this to find out if they thought what the impact of this would be statewide. I don't know if DRA has rendered any thoughts on this. Maybe that would be relevant to my query but it's just another thought I wanted to convey, and it may shift my vote on this. Thank you, Mister President.

(The Chair recognized Senator D'Allesandro.)

SENATOR D'ALLESANDRO: Thank you, Mister President. I rise against the Ought to Pass. We do a lot of things with taxation and we want to encourage first home buyers, that's a wonderful thing. But we couple a lot of these taxes. And this pointed out by Senator Kahn, the counties lose because of the 4 percent but indeed the treasury loses by about $4 million, which concerns me because that's $4 million worth of revenue that won't be offset unless we have a tremendous gain in revenue. Now we did talk about a way to mitigate this in the committee, but that amendment was rejected when you slow down the decrease in the Business Enterprise Tax and the Business Profits Tax so that it was a zero

sum gain. You didn't lose any money because you reduced the decrease in that tax so that it was a zero-sum gain. But indeed, looking at the average price of a home and this is how these calculations were made was around 200,000 and looked at the number of homes that were sold in the period of time and it came to a negative, a little over $4 million in revenue. Thank you, Mister President.

(The Chair recognized Senator Sanborn.)

SENATOR SANBORN: Thank you, Mister President. I rise and I actually support this initiative that we have that we talk every single day about trying to encourage young kids to stay in our state. It seems like every week we have a discussion about how we going to get Senator Cavanaugh's fifteen-year-old kid to buy his house after he buys his pickup truck. What are we going do to try and encourage economic development, what are we going to do to try and encourage people to come here and stay here and anything we can do as de minimis as it is would help? Now Mister President, I understand respect and recognize that the average price of a home today at $200,000 there's going to be somewhat of a fiscal note. But we also have to remember that every time a house sells, the assessed value of the house goes to whatever the new asking price is and we know the cost of houses are appreciating significantly these days. So I contend that the increase that we would see on the taxes realized on appreciation during the sale will more than make up for any potential loss we'd see on a one-time transaction just to help a young family get in to start their house. This is a good piece of legislation that allows the people of New Hampshire to know that the Senate believes that we're trying to find younger families and get them to stay in New Hampshire or come back to New Hampshire and start and raise a family and be good members. So Mister President, I do believe that the juice is worth the squeeze and we should recommend this bill as Ought to Pass. Thank you very much.

The question is on the adoption of the motion of Ought to Pass.

A roll call was requested by Senator Sanborn, seconded by Senator Giuda.

The following Senators voted Yes: Woodburn, Giuda, Bradley, Watters, Hennessey, Gray, French, Sanborn, Daniels, Avard, Carson, Feltes, Cavanaugh, Soucy, Birdsell, Fuller Clark, Gannon, Innis, Morse.

The following Senators voted No: Ward, Kahn, Lasky, D'Allesandro.

The following Senators were excused: Reagan.

Roll Call, Yeas: 19 - Nays: 4. Adopted, bill ordered to Third Reading.

SB 408-FN, licensing historic racing.
Ought to Pass, Vote 5-0. Senator Daniels for the committee.

SENATOR DANIELS: Thank you, Mister President. I move Senate Bill 408 Ought to Pass. This bill allows the installation of historic horse racing machines at simulcast and games of chance facilities. Historic horse racing shall be regulated in the same manner as other pari-mutuel games of chance. The committee recommends passage of Senate Bill 408 and asks for your support. Thank you, Mister President.

The question is on the adoption of the motion of Ought to Pass. Adopted, bill ordered to Third Reading.

SB 432-FN-L, establishing a commission to study whether it is in the best interest of students to require schools to offer an SAT preparation course as an elective.
Inexpedient to Legislate, Vote 4-1. Senator Daniels for the committee.

SENATOR DANIELS: Thank you, Mister President. I move Senate Bill 432-FN-LOCAL Inexpedient to Legislate. This bill sought to establish a study commission to determine whether it is in the best interest of students to require schools to offer an SAT preparation course as an elective. As school boards throughout New Hampshire currently have the ability to offer such an elective course, the majority of the committee saw no need for the proposed study commission. The Senate Finance Committee recommends Senate Bill 432 be found Inexpedient to Legislate and asks for your support. Thank you, Mister President.

(The Chair recognized Senator Gannon.)

SENATOR GANNON: Thank you, Mister President. 03873, 03854, 03102. Okay maybe I've been up here too long tonight. But that isn't what's going on. These are different zip codes and it's an equality question. I want all our kids to have the same opportunities. Some schools have SAT preps during the day. Exeter would be one example, Milton's another, their principal and I talked about it and she said the three years since she's done it their scores have gone up between fifty and a hundred points. That is going to totally change your future and the college you get in if you have fifty to a hundred-point raise in the SAT. Other schools don't see it that way, they offer it after school, some don't offer anything, some offer it on a Saturday. They do find the after-school programs don't usually be successful, the kids have sports, the kids have student government, the kids are involved. The ones that seem to go up from my cursory examination; if you have it during the day and it's an elective and they get credit they take it seriously, their scores go up, the kids of New Hampshire will go up. I want the District 20 kids to have the same opportunities as the kids from Exeter. This is one way that we can help make that happen. I would ask you to overturn this motion and so I can make that more appropriate motion. Thank you.

The question is on the adoption of the motion of Inexpedient to Legislate.

A roll call was requested by Senator Gannon, seconded by Senator Sanborn.

The following Senators voted Yes: Woodburn, Bradley, Gray, French, Ward, Kahn, Daniels, Avard, Birdsell, Morse.

The following Senators voted No: Giuda, Watters, Hennessey, Sanborn, Lasky, Carson, Feltes, Cavanaugh, Soucy, D'Allesandro, Fuller Clark, Gannon, Innis.

The following Senators were excused: Reagan.

Roll Call, Yeas: 10 - Nays: 13. Failed.

Senator Gannon moved Ought to Pass.

The question is on the adoption of the motion of Ought to Pass. Adopted, bill ordered to Third Reading.

SB 533-FN, relative to the composition and compensation of the personnel appeals board.
Ought to Pass with Amendment, Vote 6-0. Senator Feltes for the committee.

Senate Finance
March 6, 2018
2018-0979s
05/03

Amendment to SB 533-FN

Amend the bill by replacing section 3 with the following:

3 Effective Date. This act shall take effect July 1, 2019.

SENATOR FELTES: Thank you, Mister President. I move Senate Bill 533-FN Ought to Pass with Amendment. This bill increases the quorum requirement from two to three for the personnel appeals board and increases the compensation of such members. Board members currently are compensated $100 per day for each day devoted to the work of the board but not more than 5,000 each in any one year. Board members are also reimbursed for necessary expenses in connection with their official duties. Senate Bill 533-FN would increase the compensation to 400 for each day devoted to the work of the board and each member would receive a bi-weekly stipend of $200 plus reimbursement for travel, professional development and other business-related expenses. The amendment changes the effective date of the bill to coincide with the next budget cycle recognizing general fund expenditures. The Senate Finance Committee recommends passage of Senate Bill 533-FN as amended and asks for your support. Thank you, Mister President.

The question is on the adoption of the Committee Amendment. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to Third Reading.

SPECIAL ORDER

Without objection, the following bill is special ordered to the next session. Adopted.

FINANCE
SB 540-FN, relative to funding full day kindergarten.

SB 565-FN, relative to aircraft registration fees and airways tolls.
Ought to Pass, Vote 5-1. Senator Giuda for the committee.

SENATOR GIUDA: Thank You, Mister President. I move Senate Bill 565-FN Ought to Pass. This bill repeals aircraft registration fees under RSA 422:31, I and II, and replaces the existing aircraft operating fee. Under current law, registration fee revenue is credited to the general fund. Three quarters of the aircraft operating fee revenue is allocated to the general fund and one-quarter is distributed to the public-use airport where the aircraft is based. Note: Nearly all of these payments are made to municipalities. Senate Bill 565-FN sets the amount to be distributed to airports at $250,000 per year, and the remainder would be credited to the general fund. The committee recommends passage of Senate Bill 565-FN, and asks for your support. Thank you, Mister President.

(The Chair recognized Senator Feltes.)

SENATOR FELTES: Thank you, Mister President. Just briefly in opposition to this, we've debated it previously. This in my view is a giveaway to corporate jet owners that will gut the aeronautics division of DOT and result in job loss in DOT and will hamper our ability to do inspections and regulations at our airports. Some airports oppose it because of that. Thank you, Mister President.

(The Chair recognized Senator Avard.)

SENATOR AVARD: Thank you, Mister President. I rise in support of this. I know Nashua really wants this, I think we're losing market share when it costs so much money to register our planes and yet down in Massachusetts, they're registering for less than a fraction. Let's help our industries. Let's bring industry back into New Hampshire and support our airports. Thank you very much, Mister President.

The question is on the adoption of the motion of Ought to Pass.

A roll call was requested by Senator Avard, seconded by Senator Sanborn.

The following Senators voted Yes: Woodburn, Giuda, Bradley, Watters, Hennessey, Gray, French, Ward, Sanborn, Kahn, Daniels, Avard, Lasky, Carson, Birdsell, D'Allesandro, Gannon, Innis, Morse.

The following Senators voted No: Feltes, Cavanaugh, Soucy, Fuller Clark.

The following Senators were excused: Reagan.

Roll Call, Yeas: 19 - Nays: 4. Adopted, bill ordered to Third Reading.

SPECIAL ORDER

Without objection, the following bills are special ordered to the next session. Adopted.

HEALTH AND HUMAN SERVICES
SB 475, relative to testing for Lyme disease.
SB 546-FN, relative to purchasing alliances.
SB 582-FN, relative to caseload standards for child protective service workers in the department of health and human services.
SB 590-FN-A, making a supplemental appropriation to the state loan repayment program, relative to emergency involuntary admissions, and relative to the child protection act and making appropriations therefor.
SB 592-FN-A, relative to the child welfare system.

JUDICIARY
SB 499, relative to the applicability of certain DWI prohibitions.
HB 287, establishing a committee to study decriminalizing sex work.

WAYS AND MEANS
SB 410-FN, establishing a registration fee for canoes and kayaks.
Ought to Pass with Amendment, Vote 5-0. Senator D'Allesandro for the committee.

Senate Ways and Means

Amendment to SB 410-FN

Amend the title of the bill by replacing it with the following:

AN ACT establishing a commission to study creating a boat safe card.

Amend the bill by replacing all after the enacting clause with the following:

1 New Subdivision; Commission to Study Creating a Boat Safe Card. Amend RSA 270-D by inserting after section 20 the following new subdivision:

Commission to Study Creating a Boat Safe Card

270-D:21 Commission Established.

I. There is established a commission to study creating a boat safe card. The commission shall be comprised of the following members:

(a) One member of the house of representatives, appointed by the speaker of the house of representatives.

(b) One member of the senate, appointed by the president of the senate.

(c) One member representing the fish and game department, search and rescue program, appointed by the executive director of the fish and game department.

(d) One member representing the lakes management and protection program in the department of environmental services, appointed by the commissioner of the department of environmental services.

(e) The captain of marine patrol, department of safety, or designee.

(f) The chairperson of the exotic aquatic weeds and species committee established in RSA 487:30, or designee.

(g) A representative of the Appalachian Mountain Club-New Hampshire, appointed by the organization.

(h) A representative of American Whitewater, appointed by the organization.

(i) A representative of the New Hampshire Campground Owners' Association, appointed by the association.

(j) A representative of the New Hampshire Lakes Association, appointed by the association.

(k) A representative of the New Hampshire Rivers Council, appointed by the organization.

II. Legislative members of the commission shall receive mileage at the legislative rate when attending to the duties of the commission.

III. The commission shall:

(a) Evaluate potential mechanisms of funding for the search and rescue fund and the lake restoration and preservation fund, including equitability of charges or costs.

(b) Evaluate a target level of funding needed for the various programs.

(c) Explore the feasibility of a boat safe card using the hike safe card as a model, including:

(1) Studying the revenues of the hike safe card, its implementation, number of purchases per year, cost to implement, and measured benefits since implementation.

(2) Studying who would administer and implement a boat safe card program, how revenues would be split, and the possible costs and revenues of implementing such a program.

IV. The members of the study commission shall elect a chairperson from among the members. The first meeting of the commission shall be called by the senate member. The first meeting of the commission shall be held within 45 days of the effective date of this section. Six members of the commission shall constitute a quorum.

V. The commission shall report its findings and any recommendations for proposed legislation to the president of the senate, the speaker of the house of representatives, the senate clerk, the house clerk, the governor, and the state library on or before November 1, 2018.

2 Repeal. RSA 270-D:21, relative to the commission to study creating a boat safe card, is repealed.

3 Effective Date.

I. Section 2 of this act shall take effect November 1, 2018.

II. The remainder of this act shall take effect upon its passage.

2018-1004s

AMENDED ANALYSIS

This bill establishes a commission to study creating a boat safe card.

SENATOR D'ALLESANDRO: Thank you, Mister President. I move Senate Bill 410-FN Ought to Pass with Amendment. The original bill sought to establish an annual registration fee for canoes and kayaks. The Committee Amendment replaces the original bill in its entirety and seeks to form a commission to study creating a boat safety card program. The commission

would be charged with evaluating potential funding mechanisms for the search and rescue fund and to the lake restoration and preservation fund. The commission would look into the potential revenue, benefits, and cost of the implementation of the hike safety card. The commission would also study who would administer and implement a boat safety card program and how the revenue produced by the program might be weighed in comparison to the cost. The Ways and Means Committee asks for your support of the motion of Ought to Pass with Amendment. Thank you, Mister President.

The question is on the adoption of the Committee Amendment. Adopted.

Senator Sanborn offered a Floor Amendment.

Sen. Sanborn, Dist 9
March 7, 2018
2018-1019s
04/05

Floor Amendment to SB 410-FN

Amend the title of the bill by replacing it with the following:

AN ACT establishing a commission to study creating a boat safe card.

Amend the bill by replacing all after the enacting clause with the following:

1 New Subdivision; Commission to Study Creating a Boat Safe Card. Amend RSA 270-D by inserting after section 20 the following new subdivision:

Commission to Study Creating a Boat Safe Card

270-D:21 Commission Established.

I. There is established a commission to study creating a boat safe card. The commission shall be comprised of the following members:

(a) One member of the house of representatives, appointed by the speaker of the house of representatives.

(b) One member of the senate, appointed by the president of the senate.

(c) One member representing the fish and game department, search and rescue program, appointed by the executive director of the fish and game department.

(d) One member representing the lakes management and protection program in the department of environmental services, appointed by the commissioner of the department of environmental services.

(e) The captain of marine patrol, department of safety, or designee.

(f) The chairperson of the exotic aquatic weeds and species committee established in RSA 487:30, or designee.

(g) A representative of the Appalachian Mountain Club-New Hampshire, appointed by the organization.

(h) A representative of American Whitewater, appointed by the organization.

(i) A representative of the New Hampshire Campground Owners' Association, appointed by the association.

(j) A representative of the New Hampshire Lakes Association, appointed by the association.

(k) A representative of the New Hampshire Rivers Council, appointed by the organization.

(l) A representative of a marine towing company, appointed by the governor.

(m) A representative of a marine trade association, appointed by the governor.

II. Legislative members of the commission shall receive mileage at the legislative rate when attending to the duties of the commission.

III. The commission shall:

(a) Evaluate potential mechanisms of funding for the search and rescue fund and the lake restoration and preservation fund, including equitability of charges or costs.

(b) Evaluate a target level of funding needed for the various programs.

(c) Explore the feasibility of a boat safe card using the hike safe card as a model, including:

(1) Studying the revenues of the hike safe card, its implementation, number of purchases per year, cost to implement, and measured benefits since implementation.

(2) Studying who would administer and implement a boat safe card program, how revenues would be split, and the possible costs and revenues of implementing such a program.

IV. The members of the study commission shall elect a chairperson from among the members. The first meeting of the commission shall be called by the senate member. The first meeting of the commission shall be held within 45 days of the effective date of this section. Seven members of the commission shall constitute a quorum.

V. The commission shall report its findings and any recommendations for proposed legislation to the president of the senate, the speaker of the house of representatives, the senate clerk, the house clerk, the governor, and the state library on or before November 1, 2018.

2 Repeal. RSA 270-D:21, relative to the commission to study creating a boat safe card, is repealed.

3 Effective Date.

I. Section 2 of this act shall take effect November 1, 2018.

II. The remainder of this act shall take effect upon its passage.

2018-1019s

AMENDED ANALYSIS

This bill establishes a commission to study creating a boat safe card.

SENATOR SANBORN: Thank you, Mister President. Mister President, first and foremost, there should have been Senator Feltes and Senator D'Allesandro on this amendment as well. As part of the discussion that we had relative to what we're going to do about milfoil and water challenges within the state of New Hampshire. While I commend the Senator from District number 20 to bring in the bill to create a potential new tax which I struggled with, I do recognize and support the fact that we do have a water problem. And in discussions we gave a nod to the good Senator for Senate District number 3 when he created the Hike Safe Card which would help pull people out of the woods when they've tripped over their flip-flops and couldn't get out while ask the same question from us as to whether or not as opposed to creating a tax on canoes or kayaks, would there or could there be a way that we could extend or create a card or sister card to the hike safe card and make it a boat safe card. Because there are people that trip on their flip-flops on their boats. If there's a way that we cloud also use that to generate some money and which to also address the issue we're having with milfoil and other problems. So this is a replace all amendment that the fine Senators from 15 and 20 put together to turn this into a commission to see if there's a way that we can raise some funds without raising a tax to attack our milfoil problem. Thank you, Mister President.

The question is on the adoption of the Floor Amendment. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to Third Reading.

SB 411-FN-A, eliminating the cap on the research and development tax credit.
Ought to Pass with Amendment, Vote 5-0. Senator Feltes for the committee.

Senate Ways and Means
March 7, 2018
2018-1006s
10/05

Amendment to SB 411-FN-A

Amend the title of the bill by replacing it with the following:

AN ACT relative to the research and development tax credit.

Amend the bill by replacing all after the enacting clause with the following:

1 Business Profits Tax; Credit for Research and Development; Survey. Amend RSA 77-A:5, XIII to read as follows:

XIII.(a) There shall be allowed a research and development tax credit for qualified manufacturing research and development expenditures made or incurred during the fiscal year, as follows:

(1) The aggregate of tax credits issued by the commissioner to all taxpayers claiming the credit shall not exceed $7,000,000 for any fiscal year.

(2) Each credit shall be used to offset the taxpayer's tax liability within the subsequent 5 tax years. The amount of the credit shall be the lesser of:

(A) Ten percent of the excess of the qualified manufacturing research and development expenses for the taxable year over the base amount;

(B) The proportional share of the maximum aggregate credit amount allowed in subparagraph (1);

(C) $50,000.

(3) Taxpayers shall apply for the tax credit on forms provided by the commissioner and shall be accompanied by information or records required by the commissioner***, including but not limited to the survey described in subparagraph (d)***. Such application shall be postmarked no later than June 30 following the tax year during which research and development occurred.

(4) A determination on the final amount of the credit awarded by the commissioner to each taxpayer claiming the credit shall be made no later than September 30 of each year.

(5) Wages for which a credit is taken under this paragraph shall not also be eligible for a credit under RSA 162-N.

(b) For purposes of this paragraph:

(1) The term "qualified manufacturing research and development expenditures" shall mean solely any wages paid or incurred to an employee of the business organization for services rendered by such employee within this state within the meaning of RSA 77-A:3; I(b), provided that:

(A) Such wages shall be treated as wages for qualified research expenses under section 41(b) of the United States Internal Revenue Code.

(B) Such services are undertaken for the purpose of discovering information which constitutes qualified research and development of a new or improved manufacturing process or business component of the business organization.

(C) The wages qualify and are reported as a credit by the business organization under section 41 of the United States Internal Revenue Code as defined in RSA 77-A:1, XX.

(D) The wages are reported by the business organization in the enterprise value tax base under RSA 77-E.

(2) "Base amount" shall mean the base amount of expenditure as defined under section 41 of the United States Internal Revenue Code as defined by RSA 77-A:1, XX, except that the minimum base amount may be 0.

(c) A unitary business or an enterprise consisting of one or more taxpayers under this chapter shall be considered a single taxpayer for purposes of claiming the credit under this paragraph.

(d) Applications for the research and development tax credit shall be accompanied by a completed survey, upon such form as the commissioner may direct, providing information describing the impact of the expenditures upon which the tax credit is based as follows:

(1) The types of research and development projects supported by the expenditures;

(2) Whether the projects supported by the expenditures resulted in products being brought to market;

(3) An estimate of the number of jobs created or supported as a result of the expenditures;

(4) The total prior year business profits tax liability of the taxpayer, before consideration of any credits provided for in this section;

(5) The number of times the taxpayer has received the research and development tax credit in the past;

(6) The total amount of research and development tax credits that the taxpayer had outstanding at the end of the prior tax year, and

(7) Any other question helpful to evaluating the costs and benefits of the research and development tax credit.

(e) On or before December 31 2019, and each December 31 thereafter, the commissioner shall provide the president of the senate, the speaker of the house of representatives, and members of the senate ways and means committee and house ways and means committee a report detailing, consistent with RSA 21-J:14, the aggregated results of the survey described in subparagraph (d).

2 Effective Date. This act shall take effect upon its passage.

2018-1006s

AMENDED ANALYSIS

This bill requires applicants for the research and development tax credit against business profits taxes to complete a survey.

SENATOR FELTES: Thank you, Mister President. I move Senate Bill 411-FN-A Ought to Pass with Amendment. The original bill sought to eliminate the cap on the research and development tax credit. The committee expressed reservations with regard to the potential fiscal impact of doing so; therefore the Committee Amendment keeps the current $7 million cap in place and replaces the bill with a new reporting require-

ment for applicants of the credit. The intent is to capture information that will be useful in determining the effectiveness of and the need for the credit going forward. I ask your support for the motion of ought to pass with amendment. Thank you.

The question is on the adoption of the Committee Amendment. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to Third Reading.

SB 564-FN-A, relative to a business tax exemption and a workforce development program for regenerative manufacturing businesses.
Ought to Pass with Amendment, Vote 4-1. Senator Sanborn for the committee.

Senate Ways and Means
March 7, 2018
2018-1005s
10/05

Amendment to SB 564-FN-A

Amend RSA 77-A:5-c, II as inserted by section 6 of the bill by replacing it with the following:

II. The election to be a qualified regenerative manufacturing company shall expire on the last day of the taxable period of the business organization that includes December 31, 2028. No subsequent election may be made after the expiration of an election, with respect to either the business organization or the active regenerative manufacturing business conducted by such business organization or any successor business organization.

2018-1005s

AMENDED ANALYSIS

This bill establishes exemptions from the business profits tax and the business enterprise tax for qualified regenerative manufacturing businesses. The bill also provides for a workforce development program for such businesses administered by the business finance authority.

SENATOR SANBORN: Mister President, thank you very much. I move Senate Bill 564-FN Ought to Pass with Amendment. This bill is relative to a business tax exemption and a workforce development program for regenerative manufacturing businesses. This bill establishes a 10-year period from the business profits tax and business enterprise tax for qualified regenerative manufacturing businesses. This bill also provides for a workforce development program for such businesses administered by the BFA. The intent of this bill is to create a welcoming environment for companies who seek to create this new industry in NH. Some of you may know that we have a very unique opportunity today, that Dean Kamen, a household name to many of us here has been able to leverage a grant from army to bring in almost $300 million to actually make New Hampshire truly a hub of what could be the next technology that's going to actually do something real for our veterans coming home, for people that have been injured or burnt.

This capacity to actually regenerate your own human tissue, to replace and help those people who are coming home from war or people who have been in tremendous accidents, truly can reset the bar worldwide. It's very exciting and we're very excited to try and pass a bill to help that. I'll also say Mister President, that being that it's such a late date I do understand there are some people who would love a further debate on

this, but I ask the body's consideration that we pass this bill tonight on a voice vote, to save time on what could be a long debate, since we know it's going to Finance, which will give us time to do some work to the bill and have a more robust debate when it comes out. So Mister President, we commend this to the body's passage on a voice vote if they'd be so kind, and let's vote Ought to Pass and do something cool.

The question is on the adoption of the Committee Amendment. Adopted.

(The Chair recognized Senator Kahn.)

SENATOR KAHN: Thank you, Mister President. I think this is important. And the initiative is pretty good. There I just when the Finance Committee takes a look at this, I ask that you look at that workforce development program and give it some thought. I don't know how we select among all the workforce needs in the state, how we select one industry over other industries when we establish this workforce development program. It's a scholarship replacement, establishing a fund through debt or through direct appropriation to the Business Finance Authority. It's different, it's new and again I don't know that we should be picking this one industry versus the health professions versus other industries. We've talked about various scholarship programs. Whether this should be funded with the business tax credits that are coming to these developing companies as opposed to through the state. I've got questions about that myself. I think in our interest of wanting to support this industry and this development we are enacting a new program that we don't know the full implications and we haven't given the thought to how it might disadvantage or serve other industries down the road. I think it needs more discussion on that aspect. Thank you, Mister President.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to the Committee on Finance (Rule 4-5).

SPECIAL ORDER

Without objection, the following bills are special ordered to the next session. Adopted.

EDUCATION
SB 525-FN, prohibiting the distribution of higher education and adult education financial assistance to any student who is not a legal resident.

ENERGY AND NATURAL RESOURCES
SB 446, relative to net energy metering limits for customer-generators.

HEALTH AND HUMAN SERVICES
SB 581-FN, relative to pharmacy benefit managers under the managed care law.

JUDICIARY
SB 388, relative to satellite dispensaries for therapeutic cannabis.

TRANSPORTATION
HB 1278, naming the rest area in Colebrook after Frederick W. King, Sr.

MOTION TO ADJOURN FROM EARLY SESSION

Senator Bradley moved that the Senate adjourn from the Early Session, that the business of the Late Session be in order at the present time, that all bills and resolutions ordered to Third Reading be, by this resolution, read a third time, all titles be the same as adopted, and that they be passed at the present time.

Adopted. Adjournment from the Early Session.

LATE SESSION

LIST OF RULE 6-25'S FOR THE DAY

Senator Fuller Clark: SB 565-FN
Senator Morse: SB 422
Senator Sanborn: HB 287, HB 1278, HB 1334, HB 1370, SB 301-FN, SB 309-FN, SB 313-FN, SB 317-FN, SB 318, SB 340, SB 346, SB 351, SB 370-FN, SB 388, SB 391-FN, SB 400, SB 401, SB 408-FN, SB 410-FN, SB 411-FN-A, SB 422, SB 423, SB 426, SB 427, SB 431, SB 432-FN-L, SB 433, SB 438, SB 443, SB 446, SB 451, SB 462-FN, SB 463-FN, SB 464, SB 475, SB 478, SB 497-FN, SB 498-FN, SB 499, SB 500, SB 506, SB 522, SB 525-FN, SB 526-FN, SB 527-FN-L, SB 530-FN, SB 532-FN, SB 533-FN, SB 540-FN, SB 546-FN, SB 548-FN, SB 553-FN, SB 555-FN-A, SB 556-FN, SB 557-FN, SB 559-FN-A, SB 562-FN, SB 566-FN, SB 567-FN, SB 559-FN-A, SB 562-FN, SB 563-FN, SB 564-FN-A, SB 565-FN, SB 568-FN, SB 569-FN, SB 570-FN, SB 571-FN, SB 572-FN, SB 577, SB 581-FN, SB 582-FN, SB 583-FN, SB 584-FN, SB 585-FN, SB 587-L, SB 588-FN, SB 589-FN, SB 590-FN-A, SB 592-FN-A
Senator Soucy: SB 553-FN

ANNOUNCEMENTS

PRESIDENT MORSE: I'll start with the announcements. The Senate will meet next Wednesday, March 14th at 12 o'clock to deal with all the bills from the calendars today that are left over.

(The Chair recognized Senator Birdsell.)

SENATOR BIRDSELL: Thank you, Mister President. A moment of personal privilege. Mister President, here in New Hampshire we have a citizen government, not just a citizen legislature, but a citizen municipal government as well. So it really does pain me to feel compelled to comment on something that was published in Municipal Association's legislative bulletin this past week. The bulletin said regardless how anyone feels about giving the secretary of state power over postponing town meeting voting sessions for the first time ever, the bill makes a mess of town meeting statutes and cannot in good conscience be supported by anyone who has any regard for town government. We may disagree about things in this body. We argue, loudly sometimes, about what policy would be best for the citizens that we serve. Sometimes we disagree on very fundamental issues and we can disagree and advocate for our positions zealously, like we have today. But I believe we do a good job of recognizing that no matter how strongly we feel about an issue, the person who feels differently can reach his or her position in good conscience even when that position is diametrically opposed to our own. Mister President, we all have a high regard for town government, we've given back $38 million to the towns for the roads and bridges, we've returned education dollars back to the towns, to the school systems. Just because we don't take the position advocated by the Municipal Association or anyone else does not mean that we're not advocating in our own good conscience. Many of you here saw SB 438 differently. That's okay. I believe you all come to your position in good conscience and I hope you believe that I come to my position in good conscience as well. In New Hampshire we should treat each other with respect, regardless of which side of the issue we find ourselves on. Mister President, I truly regret that the Municipal Association has lowered the level of debate and is unable to see that people can disagree without being disagreeable. The Municipal Association is free to advance its positions,

I just hope that in the future it changes its tone and does its work in a manner that shows respect for the people who may not agree with it. Thank you, Mister President.

(The Chair recognized Senator D'Allesandro.)

SENATOR D'ALLESANDRO: Thank you, Mister President. Just a point of personal privilege. Some of us, who have been around here for a while, served with Irene Messier in the House of Representatives. She spent thirty years in the House. Irene passed away last week. Irene was my neighbor for almost fifty years. She lived on the West Side of Manchester in Ward 10; represented Ward 10 in the House of Representatives. I don't think you could find a kinder, more gentle person than Irene Messier. Her husband Armand, who passed before her, had his garden in back of the house and was always sharing vegetables with us in the area. Irene was a woman who never had a bad word for anybody, nobody. And she came up here, as mentioned in her obituary. She rode up with Steve Vaillancourt; two more opposite ends of the spectrum you never could have seen. Never! I mean Irene was kind, gentle, never said a bad word about anybody and damn it, Vaillancourt was like the scourge of the earth–from my perspective. I'll tell you; from my perspective. My wife and I visited Irene when she was in the nursing home, and it was awful, to be honest with you, but Irene said, I'm getting the best care that I ever could have. They take care of me, and just get me everything that I want. Never had a bad word never had a moment when she wasn't being just magnanimous in terms of her praise for those who were taking care of her. So, you know we're losing people every day, but when you lose the really, really good ones it's very, very sad. Irene gave thirty years of her life across the hall. Had one sign; she made one sign. It was a green sign, had her name on it, and she held it at the polls, held it. She had a little like a door handle on one side and she would hold the sign on the other side and she'd stand at the polls all day long. And if any of you have been to the West Side of Manchester the Parker-Varney School, there's Irene Messier and she would be remembered eternally. So, left a wonderful family, and a great impression on, obviously, me and I think the voters of Ward 10. So, I've lost some great people, and she certainly is one of them. Thank you, Mister President.

Without objection, all personal privileges and unanimous consent shall be entered into the permanent *Journal of the Senate.* (Rule 2-16 and Rule 2-17). Adopted.

LATE SESSION

Third Reading and Final Passage

HB 1334, establishing a commission to review the structure of motor vehicle laws.
HB 1370, relative to a school's emergency management plan.
SB 301-FN, temporarily reducing the real estate transfer tax for first-time home buyers.
SB 313-FN, reforming New Hampshire's Medicaid and Premium Assistance Program, establishing the granite workforce pilot program, and relative to certain liquor funds.
SB 317-FN, relative to veterans' preference in public employment.
SB 340, relative to the commissioner of revenue administration's assessment report.
SB 346, relative to requiring enhanced technology ignition interlock devices.

SB 351, relative to managed care programs under workers' compensation.
SB 370-FN, adopting the emergency medical services personnel licensure interstate compact.
SB 391-FN, establishing a sexual assault survivors' rights commission.
SB 400, relative to traveler information signs on highways.
SB 401, relative to repair of roads not maintained by a municipality.
SB 408-FN, licensing historic racing.
SB 410-FN, establishing a commission to study creating a boat safe card.
SB 411-FN-A, relative to the research and development tax credit.
SB 427, limiting the liability of successor corporations for asbestos-related claims.
SB 432-FN-LOCAL, establishing a commission to study whether it is in the best interest of students to require schools to offer an SAT preparation course as an elective.
SB 438, relative to the postponement of local elections.
SB 443, relative to the jurisdiction of counties concerning retail electric supply.
SB 451, relative to wildlife trafficking.
SB 464, relative to the procedure for driveway permits.
SB 478, establishing an advisory council on lactation.
SB 497-FN, relative to breast-feeding.
SB 498-FN, requiring an annual report detailing activity related to forfeiture of personal property.
SB 500, amending references to firearms terminology.
SB 506, limiting amendments to warrant articles.
SB 522, relative to alteration of speed limits.
SB 527-FN-LOCAL, relative to absentee voting.
SB 533-FN, relative to the composition and compensation of the personnel appeals board.
SB 556-FN, relative to changes in bail procedures and procedures for annulment of a criminal record.
SB 559-FN-A, establishing a committee to study the construction of sound barriers on type I and type II highways.
SB 565-FN, relative to aircraft registration fees and airways tolls.
SB 566-FN, establishing a commission to study the school bus driver shortage.
SB 570-FN, relative to the work requirement for the child care scholarship program.
SB 588-FN, relative to inspections of laboratories and relative to loans for lead hazard remediation projects.
SB 589-FN, relative to regulation of certified recovery support workers.

MOTION TO RECESS TO CALL OF THE CHAIR

Senator Bradley moved that the business of the day being completed, that the Senate recess to the Call of the Chair for the purposes of introducing legislation, referring bills to committee, scheduling hearings, sending and receiving messages, and processing enrolled bill reports and amendments and when we recess, we recess to the Call of the Chair.

Adopted. The Senate is in recess to the Call of the Chair.

HOUSE MESSAGE

The House of Representatives has passed Bills with the following titles, in the passage of which it asks the concurrence of the Senate:

CACR 15, relating to legal actions. Providing that taxpayers have standing to bring actions against the government.

HB 476, relative to the duties of registers of probate.
HB 559-FN, relative to expenditures from the energy efficiency fund.
HB 1100, establishing a commission to review and evaluate workforce and job training in New Hampshire.
HB 1101-FN, regulating groundwater pollution caused by polluting emissions in the air.
HB 1102-FN, enabling the department of health and human services to contract with certain certified physicians.
HB 1103-FN, relative to financial responsibility for voluntary services provided pursuant to a report of abuse or neglect that is "unfounded but with reasonable concern."
HB 1215, relative to voting on variances.
HB 1216, relative to liability for deferred property taxes and relative to applications for abatement of property taxes.
HB 1228, removing the limitation on a chartered public school incurring long term debt.
HB 1233, preempting local regulation of seeds and fertilizer.
HB 1238, relative to animal cruelty involving an equine colt.
HB 1254, establishing a committee to study the procedures for adoption of national codes by the state of New Hampshire.
HB 1258, relative to the advanced manufacturing education advisory council.
HB 1261, relative to record management of abuse and neglect reports.
HB 1264, relative to construction of the terms "resident," "inhabitant," "residence," and "residency."
HB 1271, changing the name of Industrial Drive at the Hugh Gallen Office Park to Ratification Way.
HB 1273, suspending state licensure laws for physicians and physician assistants employed by the United States Department of Veterans Affairs.
HB 1286, relative to fishing and hunting licenses for permanently disabled veterans.
HB 1290, relative to vehicle registration for new residents to New Hampshire.
HB 1294, relative to religious societies.
HB 1307, relative to the presentation of a default budget.
HB 1308-FN, relative to non-renewal of lines of business.
HB 1309, relative to transferring dogs, cats, and ferrets by animal shelter facilities.
HB 1315, prohibiting the university system funds from being spent to oppose the formation of unions and collective bargaining units.
HB 1319, prohibiting discrimination based on gender identity.
HB 1327, relative to apprentice electricians.
HB 1331, relative to incidental uses for agricultural plates.
HB 1340, relative to absences among officers required to be present at school district elections.
HB 1354, adding the speaker of the house of representatives and senate president as permanent members of the university system board of trustees.
HB 1363, relative to the waiver of vehicle registration suspension fees.
HB 1365, relative to OHRV operation on public ways.
HB 1372, prohibiting the implanting of subcutaneous identification devices in individuals.
HB 1377, relative to emancipation by marriage and establishing a committee to study the emancipation of minors.
HB 1378, relative to domestic insurance company investments.

HB 1379, relative to confidentiality of forms and rates.
HB 1382, repealing the requirement that restaurants provide separate bathrooms for each sex.
HB 1389, relative to commercial lines modernization.
HB 1418-FN, relative establishing a commission to study greater transparency in pharmaceutical costs and drug rebate programs.
HB 1421-FN, relative to the regulation of event tents.
HB 1427-FN, relative to membership in the retirement system for certain officials.
HB 1428-FN, relative to removal of roadside memorials.
HB 1450, relative to retention of job applications and personnel files.
HB 1453, relative to the traffic safety commission.
HB 1454, eliminating the commission to study recommendations of the National Transportation Safety Board.
HB 1473-FN, relative to the timber yield tax.
HB 1476, permitting qualifying patients and designated caregivers to cultivate cannabis for therapeutic use.
HB 1480, relative to the membership of the board of trustees of a chartered public school.
HB 1484, relative to late fees in manufactured housing parks.
HB 1487, relative to banks and credit unions.
HB 1488, establishing a committee to study the public utilities commission's role and scope of duties in a deregulated environment.
HB 1493, relative to the statewide assessment system of performance in schools.
HB 1495, relative to standards for determining an adequate education.
HB 1496, relative to requirements for performance based accountability for an adequate education.
HB 1497, relative to accountability for school performance.
HB 1501-FN, relative to regulation of consultants for games of bingo and lucky 7.
HB 1502, adding the utility property tax exclusion for exempt water and air pollution control facilities to tax expenditure review.
HB 1515, relative to an exemption from the combustion ban on construction and demolition debris.
HB 1517, relative to vehicle inspection failures for rust.
HB 1519, relative to the conduct of condominium unit owners' associations votes without a meeting.
HB 1523, relative to heavy duty recovery vehicles.
HB 1530, requiring criminal history records checks for applicants for allied health professional licensure or certification.
HB 1533, relative to termination of variances and special exceptions.
HB 1562-FN, relative to the role of foster parents.
HB 1571, authorizing an alternative recovery monitoring program for nurses licensed by the board of nursing.
HB 1575, permitting hunting with an air rifle.
HB 1577, relative to the administration of anesthesia by dentists.
HB 1578, relative to samples from nano breweries.
HB 1587, relative to the minimum age for marriage.
HB 1589, relative to actions against tenants for a caregiver under an agreement for a person with disabilities.
HB 1595, relative to the use of the left lane of a multilane roadway.
HB 1599, relative to the governor's commission on disability.
HB 1601, relative to a declarant's options for condominium expansion.
HB 1603, relative to employee representation on the independent investment committee in the New Hampshire retirement system.

HB 1605, relative to reinsurance.
HB 1606, relative to naturopathic health care practice.
HB 1612, relative to data security in schools.
HB 1613, relative to operation of uninspected vehicles.
HB 1615, relative to speed limits in work zones.
HB 1623, relative to criteria for debarment of vendors.
HB 1624, relative to state procurement practices and criteria for acceptance of bids.
HB 1636, establishing a committee to study teacher preparation and education programs.
HB 1654, relative to automobile medical payments.
HB 1660, relative to delinquent accounts of liquor licensees.
HB 1661, relative to a marriage petition by a party under age.
HB 1663, establishing a committee to study reimbursement rates under automobile insurance policies.
HB 1665, relative to the authority of the governing boards of allied health professionals.
HB 1683-FN, relative to the definition of child abuse.
HB 1684, relative to criminal background checks for emergency medical services license applicants.
HB 1687, relative to banking and consumer credit.
HB 1689-FN, repealing the repeal of the pollution prevention program of the department of environmental services.
HB 1690-FN, relative to liquor licenses.
HB 1692-FN, allowing liquor licensees to select an anniversary for renewal.
HB 1697-FN, authorizing the Daniel Webster Council of Boy Scouts of America to issue decals for multi-use decal plates.
HB 1700, relative to the procedure for placing a security freeze on a consumer credit report.
HB 1715-FN, establishing a committee to study options for tenants to dispute a rent increase in a manufactured housing park if such increase was arbitrary and unreasonable.
HB 1719-FN, relative to donations of liquor to nonprofits.
HB 1720-FN, relative to the storage of beverages produced by contract brewers.
HB 1736, relative to increasing the threshold required for governor and council approval of expenditures from the dam maintenance fund.
HB 1741, relative to a definition of "contracted copayment" for purposes of the managed care law.
HB 1743-FN, relative to funding for the Sununu Youth Services Center, and unfunded positions in the department of health and human services.
HB 1744, authorizing a parent to exempt his or her child from participating in the statewide assessment program.
HB 1746-FN, relative to the practices of pharmacy benefit managers.
HB 1753-FN, relative to transportation of alcoholic beverages by a minor.
HB 1761, relative to the math learning communities program in secondary schools.
HB 1769-FN, relative to maintenance of certification by physicians or applicants for a license to practice medicine in New Hampshire.
HB 1774, relative to parenting plans and relocation of a child's residence.
HB 1775, relative to the appointment of guardians ad litem in parenting cases.
HB 1777-FN, relative to energy infrastructure corridor revenue.
HB 1781, relative to condominiums with 10 or fewer residential units.
HB 1782-FN, relative to insurance payments for ambulance providers.

HB 1786-LOCAL, prohibiting costs for inspection of governmental records under the right-to-know law.
HB 1795, eliminating the oversight commission on motor vehicle fines.
HB 1796, relative to the legislative oversight committee on electric utility restructuring.
HB 1805, establishing a committee to study level dollar amortization of retirement system unfunded accrued liability and relative to the retirement system board of trustees.
HB 1807-FN, relative to exploitation of elderly, disabled, or impaired adults and establishing a protective order for vulnerable adults.
HB 1809-FN, relative to balance billing under the managed care law.
HB 1810, establishing a commission to study the effectiveness of the current statutes related to management of non-tidal public water ways and the construction or placement of structures within them.
HB 1823-FN, relative to layered amortization of retirement system liabilities.

HOUSE MESSAGE

The House of Representatives has passed Bills with the following titles, in the passage of which it asks the concurrence of the Senate:

HB 1506-FN, relative to regulation of graduate physicians.
HB 1626-FN, requiring the governor's commission on alcohol and drug abuse prevention, treatment, and recovery to report on the cost effectiveness of funded programs.
HB 1685-FN, establishing a statutory commission for oversight over occupational regulation.
HB 1756-FN-A, relative to an additional allowance and a cost of living adjustment for retirees from the state retirement system.
HB 1766-FN, relative to remediating the Coakley Landfill in Greenland.

INTRODUCTION OF LEGISLATION

Senator Bradley offered the following Resolution:

RESOLVED, That in accordance with the list in the possession of the Senate Clerk, the following legislation shall be by this Resolution read a first and second time by the therein listed title and referred to the therein designated committee. Adopted.

First and Second Reading and Referral

CACR 15, relating to legal actions. Providing that taxpayers have standing to bring actions against the government. (Rules and Enrolled Bills)

HB 1777-FN, relative to energy infrastructure corridor revenue. (Energy and Natural Resources)
HB 1781, relative to condominiums with 10 or fewer residential units. (Commerce)
HB 1782-FN, establishing a committee to study insurance payments to ambulance providers and balance billing by ambulance providers. (Health and Human Services)
HB 1786-LOCAL, prohibiting costs for inspection of governmental records under the right-to-know law. (Public and Municipal Affairs)
HB 1791-FN, allowing pharmacists to disclose information relative to lower cost drugs under the managed care law. (Health and Human Services)
HB 1795, eliminating the oversight commission on motor vehicle fines. (Transportation)
HB 1796, relative to the legislative oversight committee on electric utility restructuring. (Energy and Natural Resources)
HB 1805, establishing a committee to study level dollar amortization of retirement system unfunded accrued liability and relative to the retirement system board of trustees. (Executive Departments and Administration)
HB 1807-FN, relative to exploitation of elderly, disabled, or impaired adults and establishing a protective order for vulnerable adults. (Health and Human Services)
HB 1808, repealing certain inactive dedicated funds. (Finance)
HB 1809-FN, relative to balance billing under the managed care law. (Health and Human Services)
HB 1810, establishing a commission to study the effectiveness of the current statutes related to management of non-tidal public water ways and the construction or placement of structures within them. (Energy and Natural Resources)
HB 1823-FN, relative to layered amortization of retirement system liabilities. (Executive Departments and Administration)

Out of Recess. Call the Senate to Order.

MOTION TO ADJOURN FROM LATE SESSION

Senator Bradley moved that the Senate adjourn from the Late Session.

Adopted. Adjournment from the Late Session.

March 14, 2018

The Senate reconvened at 12:00 p.m., a quorum being present.

The Reverend Jon Hopkins, chaplain to the Senate, offered the following prayer:

Let us pray.

God, our creator, who has given us this good land for our heritage, we humbly ask that we may always prove ourselves a people mindful of all our blessings. May we continue to bless our community with honorable industry, sound learning, and pure manners. Save us from violence, discord, and confusion; from pride and arrogance, and from every evil way. Defend our liberties and fashion into one united people, the multitudes brought to New Hampshire out of many nations and tongues. We thank you for noble men and women whom we have elected and entrusted with the authority of government. We thank you that they have heard the call to serve all the people of New Hampshire with their best selves. Give them the spirit of wisdom, that there may be justice and peace at home and that their obedience to the law we may show forth all that is good and honorable. In the time of prosperity fill our hearts with thankfulness. In the day of trouble give us courage to face the obstacles ahead. Amen

Senator French led the Pledge of Allegiance.

SPECIAL ORDER

Without objection, the following bills are special ordered to Thursday, March 15, 2018. Adopted.

COMMERCE
SB 318, amending the prohibitions on youth employment.
SB 423, relative to noncompete clauses for low-wage employees.
SB 553-FN, relative to mental health parity for workers' compensation.

EDUCATION
SB 525-FN, prohibiting the distribution of higher education and adult education financial assistance to any student who is not a legal resident.

REGULAR CALENDAR

EDUCATION
SB 568-FN, relative to criminal history record checks for school employees and certain volunteers.
Ought to Pass with Amendment, Vote 4-1. Senator Reagan for the committee.

Senate Education
March 6, 2018

06/04

Amendment to SB 568-FN

Amend RSA 189:13-a, I as inserted by section 1 of the bill by replacing it with the following:

I.(a) The [~~employing~~] school administrative unit, school district, [~~or~~] chartered public school***, or public academy*** shall complete a criminal history records check on every selected applicant for employment ***or designated volunteer*** in any position [~~*in*~~] ***within*** the school administrative unit, school district, [~~or~~] chartered public school***, or public academy*** prior

to a final offer of employment ***or the acceptance of volunteer services from a designated volunteer. A school administrative unit, school district, chartered public school, or public academy approved by the New Hampshire state board of education shall submit a criminal history records check on applicants for employment pursuant to this section to the division of state police.*** [~~A public academy approved by the New Hampshire state board of education shall submit a criminal history records check on applicants for employment pursuant to this section to the division of state police.~~] The superintendent of the school administrative unit or the chief executive officer of the chartered public school or public academy may extend a conditional offer of employment to a selected applicant, with a final offer of employment subject to a successfully completed criminal history records check. No selected applicant may be extended a final offer of employment unless the school administrative unit, school district, chartered public school, or public academy has completed a criminal history records check. The school administrative unit, school district, chartered public school, or public academy shall not be held liable in any lawsuit alleging that the extension of a conditional or final offer of employment to an applicant, or the acceptance of volunteer services from a designated volunteer, with a criminal history was in any way negligent or deficient, if the school administrative unit, school district, chartered public school, or public academy fulfilled the requirements of this section.

(b) A nonpublic school may elect to require a criminal history records check on selected applicants for employment or selected volunteers. A nonpublic school that elects to conduct a criminal history records check shall comply with the procedures and requirements set forth in this section. ***A school administrative unit, school district, chartered public school, or public academy approved by the New Hampshire state board of education shall submit a criminal history records check on applicants for employment pursuant to this section to the division of state police.***

(c) If a selected applicant for employment has been credentialed within the previous 12 months and had a criminal background check completed pursuant to paragraph II-a, no such background check shall be required for employment by the school administrative unit, school district, chartered public school, or public academy.

Amend RSA 189:13-a, V as inserted by section 1 of the bill by replacing it with the following:

V. Any person who has been charged pending disposition for or convicted of any violation or attempted violation of RSA ***318-B:2, controlled drug act;*** 630:1***, capital murder***; 630:1-a***, first degree murder***; 630:1-b***, second degree murder***; 630:2***, manslaughter***; ***631:1, first degree assault; 631:2, second degree assault; 631:2-b, domestic violence;*** 632-A:2***, aggravated felonious sexual assault***; 632-A:3***, felonious sexual assault***; 632-A:4***, sexual assault***; 633:1***, kidnapping***; ***634:1, arson;*** 639:2***, incest***; 639:3***, endangering welfare of child or incompetent***; 645:1, II or III***, indecent exposure and lewdness***; 645:2***, prostitution and related offenses***; 649-A:3***, possession of child sexual abuse images***; 649-A:3-a***, distribution of child sexual abuse images***; 649-A:3-b***, manufacture of child sexual abuse images***; 649-B:3***, computer pornography***; or 649-B:4***, certain uses of computer services***; or any violation or any attempted violation of RSA 650:2***, obscenity,*** where the act involves a child in material deemed obscene; in this state,

or under any statute prohibiting the same conduct in another state, territory, or possession of the United States, shall not be hired by a school administrative unit, school district, chartered public school, or public academy. The superintendent of the school administrative unit or the chief executive officer of the chartered public school or public academy may deny a selected applicant a final offer of employment if such person has been convicted of any crime, misdemeanor or felony, in addition to those listed above. The governing body of a school district, chartered public school, or public academy shall adopt a policy relative to hiring practices based on the results of the criminal history records check and report of misdemeanors and felonies received under paragraph II. Such policy may include language stating that any person who has been convicted of any misdemeanor, or any of a list of misdemeanors, may not be hired. Such policy may also include language stating that any person who has been convicted of any felony, or any of a list of felonies, shall not be hired.

Amend RSA 189:13-a, IX(a) as inserted by section 1 of the bill by replacing it with the following:

IX.(a) Substitute teachers and other educational staff, not otherwise addressed in this section, shall apply for a criminal history records check at the employing school administrative unit, school district, chartered public school, or public academy. The division of state police shall complete the criminal history records check, as established in paragraph II, and, upon completion, shall [~~issue a report to the applicant. The report shall be valid for 30 days from the date of issuance and shall constitute satisfactory proof of compliance with this section~~] ***issue the applicant's record to the employing school district. The employing school district may, at the request of the substitute teachers or other educational staff not otherwise addressed in this section and for the same purpose as originally submitted, share the results with other school districts within 45 days of receiving said results***.

SENATOR REAGAN: Thank you, Mister President. At the request of the Department of Education this bill modifies the process of criminal background checks for school employees and designated volunteers. Although the committee amended the legislation the Committee Amendment itself had some unintended consequences. I ask you to vote down the Committee Amendment so that a subsequent amendment may be offered to correct these errors. Thank you, Mister President.

The question is on the adoption of the Committee Amendment. Failed.

Senator Reagan offered a Floor Amendment.

Sen. Reagan, Dist 17
March 8, 2018
2018-1033s

The employing school district may, at the request of the substitute teachers or other educational staff not otherwise addressed in this section and for the same purpose as originally submitted, share the results with other school districts within 45 days of receiving said results***.

SENATOR REAGAN: This amendment removes newly added arrests and convictions that were originally added by the committee, including possession of cannabis, which has now been decriminalized. This was not the intent of the legislation and these issues should be worked out in a separate piece of legislation. This amendment gives us something very workable and necessary to Senate Bill 568.

(The Chair recognized Senator Soucy for a question of Senator Reagan.)

SENATOR SOUCY: Senator Reagan, you stated that this Floor Amendment removes the provisions about controlled substances. Does it remove other provisions that were in the original bill such as assault and domestic violence?

SENATOR REAGAN: It does remove several areas that were not originally criteria for the approval of the process.

SENATOR SOUCY: Thank you, Senator.

(The Chair recognized Senator Feltes.)

SENATOR FELTES: Thank you, Mister President. Mister President, if you look at the Floor Amendment and compare it to the Committee Amendment in the calendar and the bill in chief, you can see that the Floor Amendment erases domestic violence as a possible background check mechanism with respect to this legislation. So, I think, while I understand the work of the committee, I think it may make sense to keep that in there, and for those reasons I would be opposed to the Floor Amendment. Thank you, Mister President.

(The Chair recognized Senator Daniels for a question of Senator Reagan.)

SENATOR DANIELS: Did I hear you correctly to say that this removes checks for marijuana because we have decriminalized it?

SENATOR REAGAN: In an over ambitious effort by the attorney at the Department of Education, things got added that should not have been added. So that's what we've done, and the amendment is to back those off.

SENATOR DANIELS: So, I take it that the answer is yes. I think that's what you said, but this is still in regard to the fact that marijuana is illegal federally. Is that correct?

SENATOR REAGAN: If you say so.

SENATOR DANIELS: Thank you.

(The Chair recognized Senator Watters.)

SENATOR WATTERS: Thank you, Mister President and colleagues. I wanted to first thank the Chair of Senate Education for several years of work on the background check issue. You know we had a tragic situation a few years ago which led to a lot of reexamination of what we're doing and what statutes are here. And I know that the Senator from District 17 has put a lot of work into this, and worked with the Department, as well. And as I speak to the amendment, I also want to note that there is an important overall change here let alone what is being done and which statutes are referenced as prohibiting employment; that the time of the background check is being moved up. Instead of being prior to certification it is now prior to the hiring, and that's an important change.

As to the issue of the statutes that are covered here, I agree with the Chair of Senate Education that we really did not have time to fully understand or go through the amendment which came out of the Department of Education. And I will say that some of the things that were proposed, you know, that we had first and second degree assault in there, there was arson, there was domestic violence. And I think those, you know, I think I would have preferred some of those still remain in it, but I also understood that for other members of the Education Committee upon further reflection looked like if we're going to actually have something in here that prevents someone from employment, we ought to look at that carefully. And I'm sure that we will be looking at that in the future, and so I do hope we will support the amendment. Thank you.

The question is on the adoption of the Floor Amendment.

Recess. Out of recess.

A roll call was requested by Senator Avard, seconded by Senator Sanborn.

The following Senators voted Yes: Giuda.

The following Senators voted No: Woodburn, Bradley, Watters, Hennessey, Gray, French, Ward, Sanborn, Kahn, Daniels, Avard, Lasky, Carson, Feltes, Cavanaugh, Reagan, Soucy, Birdsell, D'Allesandro, Fuller Clark, Gannon, Innis, Morse.

Roll Call, Yeas: 1 - Nays: 23. Failed.

Senator Bradley moved to Lay on the Table SB 568-FN. Adopted.

ENERGY AND NATURAL RESOURCES
SB 446, relative to net energy metering limits for customer-generators. Ought to Pass with Amendment, Vote 5-0. Senator Bradley for the committee.

Energy and Natural Resources
March 6, 2018
2018-0972s
10/08

Amendment to SB 446

Amend the bill by replacing all after the enacting clause with the following:

1 Net Energy Metering; Definition of Eligible Customer-generator. Amend RSA 362-A:1-a, II-b to read as follows:

II-b. "Eligible customer-generator" or "customer-generator" means an electric utility customer who owns, operates, or purchases power from an electrical generating facility either powered by renewable energy or which employs a heat led combined heat and power system, with a total peak generating capacity of up to and including [~~one megawatt~~] ***5 megawatts, or from a qualifying facility larger than 5 megawatts but less than 25 megawatts if the facility's output allocated for net energy metering participation is limited to not more than 5 megawatts***, ***and*** that is located behind a retail meter on the customer's premises, is interconnected and operates in parallel with the electric grid, and is used to offset the customer's own electricity requirements. Incremental generation added to an existing generation facility, that does not itself qualify for net metering, shall qualify if such incremental generation meets the qualifications of this paragraph and is metered separately from the nonqualifying facility.

2 Net Energy Metering; Billing. Amend RSA 362-A:9, IV(b) to read as follows:

(b) For facilities with a total peak generating capacity of more than 100 kilowatts ***and up to 5 megawatts***, the customer-generator shall pay all applicable charges on all kilowatt hours supplied to the customer over the electric distribution system[~~, less a credit on default service charges~~] equal to the metered energy generated by the customer-generator and fed into the electric distribution system over a billing period.

3 Net Energy Metering; Crediting. Amend RSA 362-A:9, V(b) to read as follows:

(b) Except as provided in paragraph VI, the customer-generator ***with a total peak generating capacity of more than 1 megawatt and not exceeding 5 megawatts*** may elect to be paid or credited by the electric distribution utility for its excess generation at rates [~~that are equal to the utility's avoided costs for energy and capacity to provide default service as determined by the commission consistent with the requirements of the Public Utilities Regulatory Policy Act of 1978 (PURPA)~~] ***as determined by the public utilities commission. The public utilities commission shall initiate a proceeding to determine an interim rate as expeditiously as possible and issue its order within 6 months of the effective date of this paragraph at which time a customer generator could generate more than 1 megawatt and not exceed 5 megawatts. Projects that receive the interim rate shall be grandfathered for a period of 12 years from the time at which the project becomes operational. The PUC shall determine a final rate within 3 years based upon the results of the alternative net metering tariff proceedings in Docket DE-16-576. In developing such rates the commission shall consider costs and benefits of customer generated facilities, avoidance of unjust and unreasonable cost shifting, rate effects on all customers, timely recovery of lost revenue by the utility using an automatic rate adjustment mechanism and electric distribution utilities administrative processes required to implement such rates***. The commission shall determine reasonable conditions for such an election, including the frequency of payment and how often a customer-generator may choose this option versus the option in subparagraph (a).

4 Effective Date. This act shall take effect 60 days after its passage.

2018-0972s

AMENDED ANALYSIS

This bill increases the electric generating capacity of customer generators who may participate in net energy metering, and requires the public utilities commission to determine the rates for crediting the electric generation.

SENATOR BRADLEY: Thank you, Mister President. I move Senate Bill 446 Ought to Pass with Amendment. The bill increases the electric generation capacity of customer generators who may participate in net metering and requires the Public Utilities Commission to determine the rates for crediting electric generation. The bill, as amended, increases the electric generation capacity of customer generators who may participate in net metering from the current cap of 1 megawatt to 5 megawatts. The bill also requires the PUC to initiate a proceeding to determine an interim rate for customer generators with a generating capacity between 1 megawatt to 5 megawatts, and a final rate developed within three years for those customer generators. The PUC would have to consider several different things such as costs and benefits of customer generated facilities, avoidance of cost shifting, rate impact on customers, and the effect on electric utilities. The Senate Energy and Natural Resources Committee asks for your support for the motion of Ought to Pass with Amendment. I will introduce a technical Floor Amendment after the vote on this amendment. Thank you, Mister President.

The question is on the adoption of the Committee Amendment. Adopted.

Senator Bradley offered a Floor Amendment.

Sen. Bradley, Dist 3
March 7, 2018
2018-1021s
10/03

Floor Amendment to SB 446

Amend the bill by replacing section 2 with the following:

2 Net Energy Metering; Billing. Amend RSA 362-A:9, IV(b) to read as follows:

(b) For facilities with a total peak generating capacity of more than 100 kilowatts ***and up to one megawatt***, the customer-generator shall pay all applicable charges on all kilowatt hours supplied to the customer over the electric distribution system, less a credit on default service charges equal to the metered energy generated by the customer-generator and fed into the electric distribution system over a billing period.

SENATOR BRADLEY: Thank you. In the drafting of the amendment the word “and up to one megawatt” was deleted to leave in place the current law for net metering between 100 kilowatt, the small roof top systems, and up to, which is what we now have, one megawatt. So that the provisions of what we just voted on would apply from one megawatt to five megawatt, a technical fix. Thank you.

(The Chair recognized Senator Sanborn for a question of Senator Bradley.)

SENATOR SANBORN: Thanks for taking the question, and I apologize because in the absence of what you would say this would be a huge policy change, so I missed part of what you said. I just wanted clarification on it. Did the committee have discussions, and was going from 100 kilowatts to 1 megawatt–that was discussed and voted on, or was it missed?

SENATOR BRADLEY: No, no there was never a proposed change in the net metering policy from 100 kilowatts to 1 megawatt. What happened in the drafting is language was left out and put the new provisions onto what has been and is law from 100 kilowatt to 1 megawatt. This Floor Amendment restores the existing law and allows the new above 1 megawatt generation.

SENATOR SANBORN: Perfect. Thank you very much. Thank you, Mister President.

The question is on the adoption of the Floor Amendment. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to Third Reading.

EXECUTIVE DEPARTMENTS AND ADMINISTRATION
SB 463-FN, establishing an architectural paint can recycling program. Inexpedient to Legislate, Vote 3-1. Senator Gannon for the committee.

SENATOR GANNON: Thank you, Mister President. I move Senate Bill 463-FN Inexpedient to Legislate. The legislation would establish an architectural paint can recycling program. Although the program would establish a safe way to dispose of paint, the fees associated with the program, the potential cost to the consumer, in addition many concerns from the Department of Environmental Services to its implementation of the program, caused apprehension for the committee members to move this bill forward. There was also discussion amongst committee members that there were presently in the area, in the cities and towns that exist, there are drop off centers for excess paint. The ED&A Committee voted 4-0 Inexpedient to Legislate and asks for your support in their recommendation. Thank you, Mister President.

The question is on the adoption of the motion of Inexpedient to Legislate.

A roll call was requested by Senator Sanborn, seconded by Senator Avard.

The following Senators voted Yes: Woodburn, Giuda, Bradley, Watters, Hennessey, Gray, French, Ward, Sanborn, Daniels, Avard, Lasky, Carson, Feltes, Cavanaugh, Reagan, Soucy, Birdsell, D'Allesandro, Fuller Clark, Gannon, Innis, Morse.

The following Senators voted No: Kahn.

Roll Call, Yeas: 23 - Nays: 1. Adopted.

FINANCE
SB 540-FN, relative to funding full day kindergarten.
Ought to Pass with Amendment, Vote 6-0. Senator Daniels for the committee.

Senate Finance
March 6, 2018
2018-0980s
06/10

Amendment to SB 540-FN

Amend the bill by replacing all after the enacting clause with the following:

1 Definitions; Average Daily Membership in Attendance. Amend RSA 198:38, I(a) to read as follows:

I.(a) "Average daily membership in attendance" or "ADMA" means the average daily membership in attendance, as defined in RSA 189:1-d, III, of pupils in kindergarten through grade 12, in the determination

year, provided that no kindergarten pupil shall count as more than 1/2 day attendance per school year ***except in school districts where the kindergarten pupil is attending a full-day school district operated kindergarten program***. ADMA shall only include pupils who are legal residents of New Hampshire pursuant to RSA 193:12 and educated at school district expense which may include public academies or out-of-district placements***, or in the case of kindergarten programs only during fiscal years 2019 and 2020, a combination of school district expense and private payments***. For the purpose of calculating funding for municipalities, the ADMA shall not include pupils attending chartered public schools, but shall include pupils attending a charter conversion school approved by the school district in which the pupil resides.

2 Effective Date. This act shall take effect upon its passage.

2018-0980s

AMENDED ANALYSIS

This bill modifies the definition of "average daily membership in attendance" to include full-day kindergarten and provide for certain private payments.

SENATOR DANIELS: I move Senate Bill 540 Ought to Pass with Amendment. This bill sought to eliminate the proration provision relative to keno revenue for the additional kindergarten grant under RSA 198:48-c, which applies to fiscal year 2020 and each year thereafter. The amendment to SB 540 addresses kindergarten and parent-pay towns and modifies the definition of "average daily membership in attendance" to address kindergarten pupils attending a full-day school district-operated kindergarten program in parent-pay towns. The amendment also allows parent-pay towns to participate in the program and accept the $1,100 entitlement from the state for the first two years, being fiscal year '19 and '20, which they cannot do now. After those two years, it restricts the program to only towns that do not have parent-pay. The committee unanimously recommends passage of Senate Bill 540 as amended and asks for your support. Thank you, Mister President.

The question is on the adoption of the Committee Amendment. Adopted.

Senator Feltes offered a Floor Amendment.

Floor Amendment to SB 540-FN

Amend the bill by inserting after section 1 the following and renumbering the original section 2 to read as 3:

2 Kindergarten Grants. Amend RSA 198:48-c, III(a) to read as follows:

III.(a) For fiscal year 2020 and each fiscal year thereafter, in addition to any funds received pursuant to RSA 198:40-a, the department of education shall distribute a total kindergarten grant, pursuant to RSA 198:40-a, for the remaining 1/2 of each average daily membership not counted under RSA 198:40-a to each school district or chartered public school that operates an approved full-day kindergarten program. [~~If the amount of revenue raised through keno is insufficient to fully fund the distribution of grants under this section, the revenue shall be prorated proportionally based on entitlement among the districts entitled to a grant. The prorated portion of this grant shall not be less than the per pupil amount disbursed under paragraph I(b).~~]

2018-1034s

AMENDED ANALYSIS

This bill modifies the definition of "average daily membership in attendance" to include full-day kindergarten and provide for certain private payments. This bill also deletes the requirement that revenue distributed to districts entitled to kindergarten grants be prorated if revenue raised through keno is insufficient to fully fund the grants.

SENATOR FELTES: Thank you, Mister President. This amendment reinstates the base bill. What happened in the committee is the base bill was erased, and then the information or the language that the Chair of Senate Finance just talked about was added. So, this adds back in the base bill. What this does not do, it does not repeal keno; it does not use general education trust funds in this budget. Here's what it does do: it works with the existing language that was passed last year in Senate Bill 191, which said that in fiscal year 2020 kindergarteners should be treated the same, but then capped whether or not kindergarteners were treated the same based on keno revenue. So, in other words, it gets rid of the keno cap on kindergarten support so that in 2020 we actually treat kindergarteners the same as any other student. Thank you very much, Mister President.

(The Chair recognized Senator Woodburn.)

SENATOR WOODBURN: Thank you, Mister President. I rise in support of the amendment. Politics makes strange bedfellows sometimes but marrying a good idea–kindergarten–with another idea–keno–and taking that funding and mixing the two together is a bad idea. It picks the pocket of our poorest people in our poorest communities. Keno dollars raised in Berlin should not, as they are today, be sent to places like Bedford. In New Hampshire we are famous for our frugality, but we have to understand when we look up the scales of justice here, are we doing justice to everyone, or are we hurting poor people? Are we hurting middle class people? Are we preying on the gambling instincts of people to pay for those in wealthier communities? The gap between rich and poor in New Hampshire is growing fast, and we need to be doing more. We're going to spend part of today focusing on our most vulnerable children and helping them where we have turned a blind eye. But this bill, this bill will hopefully set things straight, put the scales of justice back in a way that we decouple this money. Whether you call it an annulment or a divorce it doesn't matter, but we've got to break these two apart and let's do the right thing and let's get this thing separated and let's move forward. Thank you, Mister President.

(The Chair recognized Senator Daniels.)

SENATOR DANIELS: Thank you, Mister President. I rise in opposition to the amendment. I agree with the previous speaker that we ought to divorce this amendment from what we just passed. This amendment significantly raises the cost. Something that should be done, was considered in Finance. We chose, instead, to unanimously go with the amendment. Coming back some other time we can talk about that, but for right now it significantly raises the amount that's being put out there for kindergarten and I stand opposed to that. Thank you, Mister President.

(The Chair recognized Senator Bradley.)

SENATOR BRADLEY: Thank you very much. Hmm, keno cap. Hmm, keno cap. Keno cap. Let me put it this way: no keno, no kindergarten in the North Country, in Manchester, anywhere. Now I'm having a hard time remembering, you know, it must be early onset Alzheimer's. I just, I don't get it. When we do bipartisan work around here protecting the kids and then we don't do it? I don't know what the purpose of this is. Funding kindergarten–I don't like keno, but the art of the possible is what's helping kids in New Hampshire. And while we all voted, as I recall, for different pieces of legislation–I remember Senator Watters and I worked on this at great length. Our friends across the other side of the wall–it was keno or nothing. That's where the art of the possible comes in. Let's not try to undo the progress that we're making for kids in New Hampshire. Let's not undo the fact that every town gets a chance to vote on whether they want keno or not, so why? Thank you, Mister President.

(The Chair recognized Senator Feltes.)

SENATOR FELTES: Thank you, Mister President. Why? Well, it's important to treat kindergarteners the same as any other student. The fortunes of kindergarteners shouldn't rise or fall based on any revenue source, let alone keno revenue. This doesn't delete keno, as has been suggested by the Majority Leader. It doesn't. It just decouples keno from kindergarteners. That's it. No keno, no kindergarten support, well that doesn't change under this bill. All this says is in 2020 let's actually treat kindergarteners the same. That's the policy in the bill that was passed last year. But, keno is not going to generate the revenues to treat kindergarteners the same. It's just not. And whether it's keno, or a cigarette tax, or any other revenue source, tying one grade, in this case kindergarteners, specifically to that revenue source is simply bad public policy and likely unconstitutional. So, all this does is delink the two, so that in 2020 our communities can actually rely upon the fact that kindergarteners will be treated the same. In 2020 our schools can plan appropriately, that's why. Thank you, Mister President.

(The Chair recognized Senator Fuller Clark for a question of Senator Feltes.)

SENATOR FULLER CLARK: Senator Feltes, would you explain what will happen in 2020 if keno doesn't raise the projected dollars that are needed to cover the full cost of kindergarten? Will that gap have to be filled by local communities?

SENATOR FELTES: Thank you very much for the question, Senator Fuller Clark. If a local community chooses to have full day kindergarten that gap will have to be filled by that local community if keno doesn't raise enough, and it's not projected to raise enough. That's why it's a keno cap on kindergarten support.

(The Chair recognized Senator Giuda.)

SENATOR GIUDA: Thank you, Mister President. I rise in opposition to this amendment. With all due respect to the Senator from District 15, he is no better prognosticator as to the outcome of the keno revenues, which according to the Lottery Commission are doing extremely well in those towns that have chosen to adopt it. So if a town chooses not to, there may be a consequence. We've changed the argument from the sky is falling to the sky might fall. And let's just take the opportunity to perhaps lasso some more taxpayer dollars into possibilities that we have no way of knowing. The sky is not falling and I'm telling you that if it does it will be a choice made by the communities as to whether they choose to engage or not. When they see the success of the program as reported by the Lottery Commission, they may choose to change their minds. This is a local community choice to participate or not. And the consequences of choices belong to those who make them. I speak against this amendment. Thank you, Mister President.

(The Chair recognized Senator Woodburn for a question of Senator Giuda.)

SENATOR WOODBURN: Thank you, Senator Giuda, for taking my question. You mentioned the consequences of those communities that chose not to adopt keno. Could you explain those consequences that they have?

SENATOR GIUDA: Certainly. If the community doesn't have the keno to support kindergarten, then the community will raise the funds to; or, this legislature will make a decision to perhaps change that law. We just implemented this. We haven't given it a possibility of a chance to start playing out. So, if it doesn't work I have every confidence that this body and the one across that wall will do whatever's necessary to take care of our kids. What we don't need is prognosticators with no validity, then saying that we must implement a solution for a problem we don't even know we have. Thank you, Mister President.

(The Chair recognized Senator Avard for a question of Senator Feltes.)

SENATOR AVARD: When this vote for the keno came up, I thought we voted for this unanimously. You had mentioned that it could potentially be unconstitutional. Do I understand you correctly that you voted for something that could potentially be unconstitutional?

SENATOR FELTES: Thank you for the question, Senator Avard. I voted for kindergarten all throughout the legislative process. You're right, there was a vote that was 22-1 for full adequacy for full day kindergarten, which is what this bill and amendment does. I voted no on the unconstitutional keno cap coming out of a committee of conference where things went a little sideways.

SENATOR AVARD: No further questions, thank you.

(The Chair recognized Senator Bradley.)

SENATOR BRADLEY: Revisionist history is something. Nothing went sideways. We funded kindergarten, and it was a bipartisan vote. Yes, a bipartisan vote. And to my friend who is an attorney, nothing is unconstitutional until judges declare it unconstitutional. We could all opine, but until it's declared unconstitutional it's just keno funding kindergarten, which is a good thing because we're actually funding kindergarten. I agree with my friend from District 2–I was trying to remember the town. I'm really getting early onset.

SENATOR GIUDA: If I might–the newest keno addition to the kindergarten funding scheme as of town meeting yesterday. Thank you, Mister President, I apologize.

SENATOR BRADLEY: There you go! That's why he's got the orange shirt. Now I've lost my train of thought. I think what we should do is vote down this amendment and know, that as our friend from District 2 said, if somehow we don't meet the revenues–and I'm glad to hear that the Lottery Commission thinks we're doing quite well and we're likely going to meet the revenues–this legislature is going to do the right thing by our kids. I know that because I served with all of you and we're going to do that. Thank you.

(The Chair recognized Senator Soucy.)

SENATOR SOUCY: Thank you, Mister President. Mister President, I rise in support of this amendment, and I do so representing a community that has had kindergarten for decades. Manchester made that decision long, long, long ago and Manchester has always supported having kindergarten full time throughout the city. We did have some hard times, but that's moving on.

I would also note that I have, separate from this issue in the past, always supported keno. I think it is fun. And if you look at the list of the revenue that's being generated from keno–top five locations: number one Somersworth; two through five, not only Manchester, District 18 Manchester. People in my district love keno. It's doing great.

So, I personally support both, but I don't think that communities should have to make a judgment or second guess whether they can afford to expand kindergarten based on whether or not people are eating at restaurants in Manchester and playing keno. I think they're two separate issues, as I said; have a long history of supporting both, and will continue to do so. I think that separating these issues is the right thing to do. I think we should have full day kindergarten available in every community in this state, and this is a step towards continuing to advance that goal. Thank you, Mister President.

(The Chair recognized Senator Kahn.)

SENATOR KAHN: Thank you, Mister President. So, I rise in support of the amendment offered by the Senator from District 15. And I want to thank him for bringing this forward because the debate that we had this last June set a, and the bill that we passed, it set a floor for the funding of kindergarten. It set a float, which said that it could float upward if revenues were sufficient. But for some of us who voted in favor of that, it had a flaw; and the flaw was, you take it this way, or we don't get it any way at all. And it felt like we introduced something at the end of some negotiation and that we needed to come back and have this vote; a vote that separated full day kindergarten funding from whether keno was going to be legal as a revenue source in New Hampshire. They can both stand as has already been said. I'm glad that we've got this opportunity. It gives me an opportunity to clarify what my vote in favor was this last June. I'm going to vote in favor of this amendment. Thank you, Mister President.

(The Chair recognized Senator Fuller Clark for a question of Senator Woodburn.)

SENATOR FULLER CLARK: Thank you, Senator Woodburn, for taking my question. It's my understanding that if the money is not there to make up the difference between the state's share and keno, that every community will be impacted regardless of whether or not they adopted keno. Is that correct?

SENATOR WOODBURN: That's correct. Thank you for the question, Senator Fuller Clark; and by the way, happy birthday to you today. You're absolutely correct. If it's worth doing, it's worth paying for, and it's worth not sticking our most vulnerable people to pay the bill. That's the important thing.

(The Chair recognized Senator Hennessey.)

SENATOR HENNESSEY: Thank you, Mister President. I rise in favor of this amendment, and I'm kind of amused by the argument that this was first unanimous, which it wasn't because I voted against putting keno and kindergarten together. And, I think it's really wrong to use that felonious argument to say that we were presented with Sophie's choice, and you're calling it a bipartisan vote. I was able, I'm lucky enough to be from a district where most of the towns in my district can have full day kindergarten without the need for keno. So great! So my district is going to be advantaged by the fact that other people's districts are going to have to pay by having keno. And it does have a significant cost when you look at social costs and other kinds of costs. So, I personally am not in favor of keno although, to be honest, I'm not an expert on it. But I am actually an expert on a lot of things education related. There is no way that it makes any sense for keno to be associated with kindergarten. Kindergarten is essential. We know that. There are tons of studies saying so. So don't tell me that this is a bipartisan vote and everybody's switching their vote. The fact is, you presented them with an untenable situation. Thank you.

(The Chair recognized Senator Giuda.)

SENATOR GIUDA: Thank you, Mister President. I truly enjoy the political chicanery going on in this chamber right now. Before there was ever keno, kindergarten was funded by those communities that chose to, by whatever means they chose to fund it. So keno was not a detriment; it is an addition for those communities that have already funded it in full themselves. If we don't believe in gambling to support education, why do we send the lottery proceeds to education? Thank you, Mister President.

The question is on the adoption of the Floor Amendment.

A roll call was requested by Senator Avard, seconded by Senator Giuda.

The following Senators voted Yes: Woodburn, Watters, Hennessey, Kahn, Lasky, Feltes, Cavanaugh, Soucy, D'Allesandro, Fuller Clark.

The following Senators voted No: Giuda, Bradley, Gray, French, Ward, Sanborn, Daniels, Avard, Carson, Reagan, Birdsell, Gannon, Innis, Morse.

Roll Call, Yeas: 10 - Nays: 14. Failed.

Senator Watters offered a Floor Amendment.

Sen. Watters, Dist 4
Sen. Woodburn, Dist 1
March 14, 2018
2018-1101s
06/04

Floor Amendment to SB 540-FN

Amend the title of the bill by replacing it with the following:

AN ACT relative to the counting of kindergarteners for "average daily membership in attendance" and relative to the operation of keno games in unincorporated places.

Amend the bill by inserting after section 1 the following and renumbering the original section 2 to read as 3:

2 New Paragraph; Keno; Local Option. Amend RSA 284:51 by inserting after paragraph IV the following new paragraph:

IV-a. An unincorporated place may allow the operation of keno games by majority vote of the county delegation.

2018-1101s

AMENDED ANALYSIS

This bill modifies the definition of "average daily membership in attendance" to include full-day kindergarten and provide for certain private payments.

This bill also provides that unincorporated places may permit the operation of keno games by a majority vote of the county delegation.

SENATOR WATTERS: Thank you, Mister President. In light of our previous debate I guess I'll quote Aristotle who said, in so many words, it is what it is, and it turns out we do need a fix to Senate Bill 191 regarding the way in which keno is authorized. It was brought to my attention by a North Country Representative that unincorporated places had no mechanism whereby a governing body could hold a process in having an election to approve keno funding. So what this does is that it says for the unincorporated places that the operation of keno games may be allowed by a majority vote of the county delegation. This is what the drafting attorneys thought would be the appropriate identification of authority that could undertake this. So I hope that people will support this fix so I guess it's a bar and restaurant up in the North Country who wants to have keno will be able to have a mechanism for doing that. Thank you, Mister President.

(The Chair recognized Senator Woodburn.)

SENATOR WOODBURN: Thank you, Mister President. I just wanted to rise in support and thank the Senator from Dover for bringing this forward. As the Senator for twenty-three of the twenty-five unincorporated towns, and particularly the unincorporated town of Millsfield, we appreciate being included. Thank you.

The question is on the adoption of the Floor Amendment. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to Third Reading.

HEALTH AND HUMAN SERVICES
SB 475, relative to testing for Lyme disease.
Ought to Pass with Amendment, Vote 4-1. Senator Bradley for the committee.

Health and Human Services
March 6, 2018
2018-0978s
01/03

Amendment to SB 475

Amend RSA 141-K:2, I as inserted by section 2 of the bill by replacing it with the following:

I. Every health care provider who orders a laboratory test for the presence of Lyme disease shall provide to the patient or his or her legal representative the following written information:

"Your health care provider has ordered a laboratory test for the presence of Lyme disease for you. Current laboratory testing for Lyme disease can be problematic and standard laboratory tests often result in false negative and false positive results. If you are tested for Lyme disease, and the results are negative, this does not necessarily mean you do not have Lyme disease. If you continue to experience symptoms, you should contact your health care provider and inquire about the appropriateness of retesting or additional treatment."

Amend the bill by replacing all after section 2 with the following:

3 Repeal. RSA 141-K, relative to Lyme disease, is repealed.
4 Effective Date.
I. Section 3 of this act shall take effect July 1, 2023.
II. The remainder of this act shall take effect upon its passage.

2018-0978s

AMENDED ANALYSIS

This bill requires health care providers to provide certain information to persons being tested for Lyme disease for 5 years.

SENATOR BRADLEY: Thank you very much. What this bill does is require any provider that does and orders a laboratory test for the presence of Lyme disease to provide a written notification that the test for Lyme disease may not be conclusive. I apologize, Senator Gray was supposed to read this, but I was called on. It was our friend Senator Daniels' bill; and I have to say about Senator Daniels, he has long led the fight to make sure that Lyme patients have access to antibiotics on a longer term basis than were being prescribed, and is somebody that has worked long and hard on Lyme disease. This notification is absolutely reasonable. Thank you.

The question is on the adoption of the Committee Amendment. Adopted.

(The Chair recognized Senator Daniels.)

SENATOR DANIELS: Thank you, Mister President. I believe that there was an amendment, a floor amendment that was supposed to be brought forward, and I don't have it. Okay, thank you.

(The Chair recognized Senator Hennessey.)

SENATOR HENNESSEY: I would like to explain why I was the one in committee who voted no. And it's not because I don't highly value the Senator from District 11's work on Lyme disease, but I did hear from many physicians who said that they are already doing this exact same thing verbally, and that it just adds an enormous and expensive burden to them to have to also put it in writing. So, they felt we were legislating what doctors communicate to their patients. Thank you.

(The Chair recognized Senator Bradley.)

SENATOR BRADLEY: I'm going to yield to my colleague for a motion, but I find it appropriate because there was some confusion about a floor amendment. So I'm going to yield to Senator Daniels.

Senator Daniels moved to Lay on the Table SB 475. Adopted.

SB 546-FN, relative to purchasing alliances.
Ought to Pass with Amendment, Vote 3-2. Senator Avard for the committee.

Health and Human Services
March 6, 2018
2018-0986s
01/04

Amendment to SB 546-FN

Amend the bill by replacing section 2 with the following:

2 Purchasing Alliances; Qualified Purchasing Alliance. Amend the introductory paragraph and paragraph I of RSA 420-M:13 to read as follows: A purchasing alliance that has a minimum of [~~3,000~~] ***250*** enrollees may elect to obtain certification from the commissioner as a qualified purchasing alliance. To obtain certification, a purchasing alliance shall demonstrate:

I. Either that membership in the alliance is open to all employers without discrimination or that the alliance has established membership criteria that limit membership in the alliance to [~~employers that are~~] members of [~~or affiliated with~~] an association, trade group, or other entity that has been in existence for at least 10 years and was established and maintained for purposes other than the provision of health coverage; and

SENATOR AVARD: Thank you, Mister President. I move Senate Bill 546 as Ought to Pass with Amendment. The purpose of this bill is to ensure health care coverage purchases, through a qualified purchasing alliance, will be considered large group coverage. Currently the state of New Hampshire has the highest cost of health care insurance in the country. With our current system, even if someone has insurance, the deductibles and copays may be too expensive for them to even use it. What this bill does is allow people in the state of New Hampshire to group together into associations to purchase health care insurance. With this method people will be able to access larger group markets and would receive better coverage for less money. The Committee Amendment changes the number required to form an association making more industries eligible for lower cost of insurance. The Health and Human Services Committee asks for your support in the motion of Ought to Pass with Amendment, and thank you, Mister President.

The question is on the adoption of the Committee Amendment. Adopted.

(The Chair recognized Senator Fuller Clark.)

SENATOR FULLER CLARK: Thank you very much, Mister President. I rise in opposition to this legislation to create purchasing alliances in New Hampshire. It is true that we do have three large purchasing alliances that have been in place for many, many years. They have membership of over 1,000 members. With the amendment we lowered the number of individuals that were needed to qualify and set up a purchasing alliance to 250. If you were to look at the history of purchasing alliances around the country in other states, more often than not they have failed. They have failed because one, they haven't been able to provide the necessary health coverage that is necessary; and secondly, they have destabilized the small group market and made the cost for health insurance in the small group market continue to escalate in its cost going forward. So while this seems like it's a very good idea in principle, in reality it hasn't worked; it promises individuals a new way to get health insurance, which in many cases did not provide them with the coverage that they need; or, in other instances, the purchase alliance never gets off the ground

because with a membership as small as 250 they aren't having enough consumers, if you wish, to be able to make a purchasing alliance viable. Thank you, Mister President.

(The Chair recognized Senator Sanborn.)

SENATOR SANBORN: Thank you, Mister President. Thank you for giving me the opportunity to chat today, and while I respect the comments made from my friend on her birthday with her beautiful blue jacket, which is a wonderful color, I have to respectfully disagree. We can't forget the fact that today, if you're an employer with 50 employees, 50 employees, not 250 but just 50 employees; you can self-fund your own insurance policy. Whether or not you should or not, and whether or not it makes sense financially from the risk of usage, we can have that debate. But today the law allows companies as small as 50 employees to go out and be treated as a large company.

The challenge we have here today isn't really whether or not it should be 50 or 250, it's the fact that this body cannot forget, and must recognize, that we have the singular highest cost of health insurance in America. This state continues to have the highest cost of health insurance in America. And why is that? Because this body keeps passing laws to do it with our friends on the other side and signed by governor after governor after governor. A large driver of why our insurance is so expensive in this state, highest in the country–you'll hear me say it a hundred times today–is based upon laws that our legislature keeps passing to restrict the ability to bring free market principles to health insurance. Virtually every other state in America has a more flexible health insurance than we do.

We know today there are things called captives. We know today there are other states that are providing for the ability to band together to let small companies and individuals buy their market. Why can't we, why can't we recognize and allow small business owners to ban together like large business owners? Are we just saying we're anti-business, Mister President? Are we just saying that the big companies are just better looking people so they get advantages that us small guys don't get? Just because someone has 250, or 300, or 500, or 5,000 employees, why do we have laws on the books that say they can have an advantage that small companies cannot?

I think the Senator from District 3, he has been with me every single year as we have tried to pass insurance across state lines. I can buy my life insurance across state lines. I can buy my car insurance across state lines. I can buy my home owner insurance across state lines. In fact, every single insurance we can get we can buy across state lines except health insurance here in New Hampshire.

As a small business owner there's more restrictions on small business owners of which, let me remind the body, I think there are 76,000 small business owners in the state of New Hampshire today with Lord knows how many employees, that with the power of this legislature we are specifically prohibiting their ability to try to find lower cost insurance for no reason that I've ever been able to see that demonstrates.

What this bill does, frankly, is marry up from actions that we're seeing at the federal level, Mister President, and I look forward to having more conversations when this bill goes to the House because there are two more guidance's that are supposed to come out from Washington D.C. because even in Washington D.C., where nothing is happening, they've

come out and said we should be doing this. They are sending out guidance that says we recognize nationally that it's time to stop punishing small business owners. If they want to come together as a group, if they want to band together, if they want to try to find a way to lower their costs of insurance why are we stopping their ability to do that?

Now in conclusion, Mister President, we have to remember that we allow this to happen in our state today. We allow this to happen but, again, some would suggest only for the beautiful people. Mister President, maybe you and I aren't just beautiful enough today; because we let the auto dealers do it; we let the bankers do it; we let the truckers do it; and they are beautiful, wonderful people. But I don't think they're any more beautiful than my good friend from District number 16. Because when his son owns a business, shouldn't he be allowed to try and find more affordable health care? This is a basic concept of fairness that today we are actually saying you guys can, but no one else should be allowed to.

Let's vote today, we should all vote today. This should be a 24-0 roll call, Mister President. And, for the record, Mister President, as a small business owner I feel compelled to talk about our byzantine ethics laws that are punishing the small business community, but I'm clearly still participating. Look, we have got to start doing something to make access to health insurance more affordable. This bill is a great step to do that. I commend and thank the Chair and the members of the Health and Human Services Committee to start this process so we can move it along, and this is where we will see real honest to God benefits for the small business community if they so decide to do so.

And, truly finally, Mister President, I happen to operate in a business with 4,500 licensees; the largest singular employer in the state of New Hampshire–not my company but our industry. It also happens to be the single industry with the least amount of health insurance coverage; part time workers, young people, small companies struggling to make it work every single day. Why can't they band together to buy insurance? That's what this vote is about. Do you believe people have the right to band together to provide insurance to their companies at a lower rate? I would ask the body to vote yes and, again, I'm asking for a roll call, Mister President.

The question is on the adoption of the motion of Ought to Pass with Amendment.

A roll call was requested by Senator Sanborn, seconded by Senator Giuda.

The following Senators voted Yes: Giuda, Bradley, Gray, French, Ward, Sanborn, Daniels, Avard, Carson, Reagan, Birdsell, Gannon, Innis, Morse.

The following Senators voted No: Woodburn, Watters, Hennessey, Kahn, Lasky, Feltes, Cavanaugh, Soucy, D'Allesandro, Fuller Clark.

Roll Call, Yeas: 14 - Nays: 10. Adopted, bill ordered to Third Reading.

SB 581-FN, relative to pharmacy benefit managers under the managed care law.
Ought to Pass with Amendment, Vote 5-0. Senator Avard for the committee.

Health and Human Services
March 6, 2018

01/08

Amendment to SB 581-FN

Amend the title of the bill by replacing it with the following:

AN ACT relative to compounding of drugs.

Amend the bill by replacing all after the enacting clause with the following:

1 Pharmacists and Pharmacies; Definitions. Amend RSA 318:1, III-a to read as follows:

III-a. "Compounding" means the preparation, mixing, assembling, packaging or labeling of a drug or device as a result of a practitioner's prescription drug order or initiative based on the pharmacist-patient-prescriber relationship in the course of professional practice or, for the purpose of, or as an incident, to research, teaching, or chemical analysis, but not selling or dispensing. "Compounding" also includes the preparation of drugs or devices in anticipation of prescription drug orders based on routine, regularly observed prescribing patterns. "Compounding" shall not include the reconstitution of powdered formulations before dispensing or the addition of flavoring. ***"Compounding" shall not include the simple addition of flavoring, nor shall it include the preparation of a single dose of a non-hazardous commercially available drug or licensed biologic for immediate administration to an individual patient when done in accordance with the manufacturer's approved labeling or instructions consistent with that labeling.***

2 Effective Date. This act shall take effect upon its passage.

2018-0976s

AMENDED ANALYSIS

This bill amends the definition of compounding for the purposes of the law regulating pharmacists and pharmacies until July 1, 2020.

SENATOR AVARD: Thank you, Mister President. I move Senate Bill 581-FN as Ought to Pass with Amendment. This bill, as amended, would clarify the definition of compounding for the use of medical or medication preparation, and would not include the simple addition of flavoring, nor shall it include the preparation of a single dose of a non-hazardous chemically available drug, or licensed biologic, for immediate administration to an individual patient when done in accordance to the manufacturer's approved labeling, instruction consistent with that labeling. It is important that this exemption exists in order to ensure the patients across the state to continue to have access to affordable treatment for many different medical conditions. The Health and Human Services Committee asks for your support of the motion of Ought to Pass with Amendment for Senate Bill SB 581-FN, and thank you, Mister President.

The question is on the adoption of the Committee Amendment. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to Third Reading.

SB 582-FN, relative to caseload standards for child protective service workers in the department of health and human services.
Ought to Pass with Amendment, Vote 5-0. Senator Avard for the committee.

Health and Human Services

01/05

Amendment to SB 582-FN

Amend the title of the bill by replacing it with the following:

AN ACT authorizing an assessment to determine appropriate caseload and workload standards for the division for children, youth and families; establishing additional child protection services positions in the division for children, youth and families; relative to foster care and adoption programs and services; and making appropriations therefor.

Amend the bill by replacing all after the enacting clause with the following:

1 Department of Health and Human Services; Division for Children, Youth and Families; Assessment to Determine Appropriate Caseload and Workload Standards for Child Protection Staff. The commissioner of the department of health and human services shall conduct an assessment to determine appropriate caseload and/or workload standards for the department's division for children, youth and families' child protection staff that are consistent with the goals of the agency's practice model and that will enable the agency to fulfill its statutory mission to protect children from abuse and neglect. In conducting the assessment, the department may solicit information from experts, community stakeholders, and national leaders, and shall consider caseload trends and the impact of caseloads and workloads on recruitment and retention and the supervision and training of department staff. On or before January 1, 2019, the department shall report the findings of its assessment, along with the department's recommendations for establishing and maintaining appropriate caseload and/or workload standards and the department's estimate of the cost to implement those recommendations, to the house health, human services and elderly affairs committee and senate health and human services committee and the house and senate finance committees.

2 Department of Health and Human Services; Appropriation; Assessment. For the fiscal year ending June 30, 2019, the sum of $100,000 is hereby appropriated to the department of health and human services for the purpose of conducting the assessment under section 1 of this act. This appropriation is in addition to any other funds appropriated to the department. The governor is authorized to draw a warrant for said sum out of any money in the treasury not otherwise appropriated.

3 Department of Health and Human Services; Division for Children Youth and Families; Classified Positions Established. The following classified positions are hereby established in the department of health and human services, division for children, youth and families:

I. Thirteen child protection social worker I positions, at labor grade 18.

II. Two supervisor IV positions, at labor grade 25.

4 Department of Health and Human Services; Appropriation; Positions. For the fiscal year ending June 30, 2019, the sum of $1,100,000 is hereby appropriated to the department of health and human services for the purpose of funding the positions established in section 3 of this act. This appropriation is in addition to any other funds appropriated to the department. The governor is authorized to draw a warrant for said sum out of any money in the treasury not otherwise appropriated.

5 Department of Health and Human Services; Appropriation; Foster Care and Adoption Programs and Services. The sum of $1,100,000 for the fiscal year ending June 30, 2019, is hereby appropriated to the department of health and human services for the purpose of funding foster care and adoption programs and services pursuant to RSA 170-G:3. This appropriation is in addition to any other funds appropriated to the department. The governor is authorized to draw a warrant for said sum out of any money in the treasury not otherwise appropriated.

6 Department of Health and Human Services; Transfer of Funds; Foster Care Rate Increases. The department of health and human services may transfer up to $429,000 of existing general fund appropriations in the fiscal year ending June 30, 2019, from account 05-95-47-470010-7948, Medicaid Care Management, to account 05-95-42-421010-2958, Child Family Services, for the purpose of funding foster care rate increases. This transfer shall not require prior approval of the fiscal committee of the general court, nor shall fiscal committee approval be required for the department to accept any federal matching funds for the purposes of this section.

7 Effective Date. This act shall take effect upon its passage.

2018-0990s

AMENDED ANALYSIS

This bill:

I. Directs the department of health and human services to conduct an assessment to determine appropriate caseload and workload standards for child protection staff and makes an appropriation for such purpose.

II. Makes appropriations to the department of health and human services for additional child protection staff, and for foster care and adoption programs and services.

III. Authorizes the department of health and human services to transfer certain funds for the purpose of funding foster care rate increases.

SENATOR AVARD: Thank you, Mister President. I move Senate Bill 582-FN-A as Ought to Pass with Amendment. This bill authorizes and funds new positions in the Division of Child, Youth and Families. This bill also makes appropriation for the Division to hire a consultant to assess what proper caseloads should be and how the Division can best utilize their staff. Child protective service workers currently have very large caseloads that prevent them from giving enough attention to the families that they're trying serve. What this bill does is it makes an effort to ease the caseload for workers, this way families will have more opportunities to build a relationship with the service workers in this state. This represents a necessary step in supporting New Hampshire families. The Health and Human Services Committee asks for your support in the motion of Ought to Pass with Amendment on Senate Bill SB 582-FN. Thank you, Mister President.

The question is on the adoption of the Committee Amendment. Adopted.

(The Chair recognized Senator Hennessey.)

SENATOR HENNESSEY: Thank you, Mister President. I rise in support of 582-FN because it is a start and it is badly needed, and kudos to the Senator from District 14 for putting it forward. Our case workers are spread much too thin. We heard from them in committee and it is harder and harder for them to develop relationships with their clients and, therefore, to affect change. Not only are their caseloads seriously out of control, but the paperwork has become seriously out of control. We heard that case workers are often working every day of the week until 11 p.m. in order to get work done and they're still behind.

The national average, last we heard, in New Hampshire for a number of cases was twenty-four to twenty-five. The national average is twelve. Twenty-five years ago, in New Hampshire our average was twelve. Those who work in the field and the current DCYF director were in support

of this bill and emphasized we must spend the money required to turn this trajectory around–each year more and more families and children not being helped. The Department states that complying with caseload standards established by the bill would necessarily mean hiring fifty-four new assessment workers, sixteen new family service workers, and ten supervisors. The last budget included twenty, total, and they've hired thirteen. I continue to be astounded by this body's willingness to trade business taxes for the support needed for our most vulnerable children; even those born, through no fault of their own to those with substance misuse disorders, with neonatal abstinence syndrome, and those born into families with significant challenges requiring the support of DCYF. This bill should pass, but we owe our citizens more. While some believe we should all aspire to be billionaires, where you start matters. Where you start defines who you are today. Thank you, Mister President.

(The Chair recognized Senator Cavanaugh.)

SENATOR CAVANAUGH: Thank you, Mister President. I rise in support of this, as well. I don't live far from the Sununu Center and I've spoken with people that work there, I've received e-mails. And I just wanted to read the end of one that I got. They're overwhelmed, the workers there, and at the end of the e-mail it said. "We need help. Please help." May this encourage us all to help them and let them know that we do hear them. Thank you, Mister President.

(The Chair recognized Senator Bradley.)

SENATOR BRADLEY: Thank you very much. I want to thank all the members of the Health and Human Services Committee that worked long and hard on this bill and the next two bills. I also want to thank our friend from Londonderry who has been a leader for years on trying to correct some of the systemic problems that have come as a result of the problems I think that we've all seen regarding children. I also want to thank all the members of the Finance Committee, in the House as well, and the Governor for leading the charge in the budget to hire twenty child protection social workers. Those positions, I believe, are completely filled. There is some turnover; this is a difficult job for everybody to do. This legislation continues that by adding thirteen more child protection social workers and two supervisors, as well as a needed rate increase for foster parents. Now this is a continuation of what we did, all of us, in the budget last year. Again, starting with Governor Sununu, who called for an upgrade to DCYF as a top priority; this continues to place DCYF and improving that situation as a top priority. I, again, thank Senator Morse for his leadership and others for recognizing the problem that we have. Thank you.

(The Chair recognized Senator Fuller Clark.)

SENATOR FULLER CLARK: Yes, thank you very much, Mister President. I rise in support of this legislation and clearly it is needed when you look at the ratio that we're currently dealing with of twenty-five to twenty-six to even thirty cases being carried by one caseload worker. I would like to point out at the same time, though; I'm always concerned that we don't quite do enough. We heard that actually what was needed was fifty-four assessment workers, sixteen family service workers, and ten new supervisors. So while we're moving forward, I just worry that we're not moving forward quickly enough to be able to address the tremendous demand for these services at DCYF and elsewhere. Thank you.

The question is on the adoption of the motion of Ought to Pass with Amendment.

A roll call was requested by Senator Avard, seconded by Senator Sanborn.

The following Senators voted Yes: Woodburn, Giuda, Bradley, Watters, Hennessey, Gray, French, Ward, Sanborn, Kahn, Daniels, Avard, Lasky, Carson, Feltes, Cavanaugh, Reagan, Soucy, Birdsell, D'Allesandro, Fuller Clark, Gannon, Innis, Morse.

The following Senators voted No: (None)

Roll Call, Yeas: 24 - Nays: 0. Adopted, bill ordered to the Committee on Finance (Rule 4-5).

SB 590-FN-A, making a supplemental appropriation to the state loan repayment program, relative to emergency involuntary admissions, and relative to the child protection act and making appropriations therefor. Ought to Pass with Amendment, Vote 5-0. Senator Bradley for the committee.

Health and Human Services
March 6, 2018
2018-0991s
05/01

Amendment to SB 590-FN-A

Amend the title of the bill by replacing it with the following:

AN ACT making a supplemental appropriation to the state loan repayment program and relative to emergency involuntary admissions, the child protection act, and the developmental disabilities wait list and making appropriations therefor.

Amend the bill by replacing all after the enacting clause with the following:

1 New Paragraph; Mental Health Services System; Definitions. Amend RSA 135-C:2 by inserting after paragraph XV the following new paragraph:

XV-a. "Transitional housing program services" means a residential program that provides housing and support services to persons with serious and persistent mental illness through a contract with the department of health and human services.

2 Involuntary Emergency Admissions; Examination. Amend RSA 135-C:28, I to read as follows:

I. The involuntary emergency admission of a person shall be to the state mental health services system under the supervision of the commissioner. The admission may be ordered upon the certificate of a physician or APRN, as defined in RSA 135-C:2, II-a, who is approved by either a designated receiving facility or a community mental health program approved by the commissioner, provided that within 3 days of the completion of the petition the physician or APRN has conducted, or has caused to be conducted, a physical examination if indicated and circumstances permit, and a mental examination. The physician or APRN must find that the person to be admitted meets the criteria of RSA 135-C:27. The certificate shall state the time and, in detail, the nature of the examinations conducted. The certificate shall also state a specific act or actions the physician or APRN has actually observed or which have been reported to him or her by the petitioner or a reliable witness who shall be identified in the certificate, and which in the physician's or APRN's opinion satisfy the criteria set forth in RSA 135-C:27. The physician or

APRN shall [~~identify in the certificate the facility in the state mental health services system to which the person shall be admitted~~] ***inform the person of the specific designated receiving facility in the mental health services system that he or she will be transported to upon the facility location being identified***. The admission shall be made to the facility which can best provide the degree of security and treatment required by the person and shall be consistent with the placement principles set forth in RSA 135-C:15. As used in RSA 135-C:27-33, "petitioner" means any individual, including a physician or APRN completing a certificate, who has requested that a physician or APRN conduct or who has conducted an examination for purposes of involuntary emergency admission. Every certificate shall be accompanied by a written petition signed by a petitioner.

3 Nonemergency Involuntary Admissions; Conditions of Conditional Discharge. Amend RSA 135-C:50, III to read as follows:

III. During the term of conditional discharge, the person conditionally discharged shall be provided with continuing treatment on an outpatient basis by a community mental health program approved by the commissioner ***or by transitional housing services***.

4 Nonemergency Involuntary Admissions; Revocation of Conditional Discharge. Amend the introductory paragraph of RSA 135-C:51, I to read as follows:

I. If a psychiatrist or APRN, as defined in RSA 135-C:2, II-a, at a community mental health program ***or transitional housing services*** providing continuing treatment on an outpatient basis to a person conditionally discharged pursuant to RSA 135-C:50, reasonably believes that:

5 Nonemergency Involuntary Admissions; Revocation of Conditional Discharge. Amend RSA 135-C:51, III to read as follows:

III. If the psychiatrist or APRN, following the examination the psychiatrist or APRN conducted or caused to be conducted of the person, finds that the person either has violated a condition of the discharge or is in such a mental condition as a result of mental illness as to create a potentially serious likelihood of danger to himself or herself or to others, he or she may temporarily revoke the conditional discharge. If the conditional discharge is temporarily revoked, the psychiatrist, or APRN, or designee, shall prepare, offer to and explain to the person a written notice, if it can be done safely without significant possibility of bodily harm, giving the reasons for the revocation and to [~~identify the receiving facility to which the person is to be delivered~~] ***inform the person of the specific designated receiving facility in the mental health services system that he or she will be transported to upon the facility location being identified***. If this cannot be done safely, a description of the circumstances indicating such risk shall be placed in the file.

6 Guardians and Conservators; General Powers and Duties of Guardian of the Person. Amend RSA 464-A:25, I(a) to read as follows:

(a) To the extent that it is consistent with the terms of any order by a court of competent jurisdiction relating to detention or commitment of the ward, the guardian shall be entitled to custody of the ward and may establish the ward's place of abode within or without this state. Admission to a state institution ***or other designated receiving facility*** shall be in accordance with the following:

(1) A guardian may admit a ward to a state institution ***or other designated receiving facility*** with prior approval of the probate court if, following notice and hearing, the court finds beyond a reasonable

doubt that the placement is in the ward's best interest and is the least restrictive placement available. Authorization for such admission shall not be time limited unless the court so orders. Authority to admit a ward to a state institution ***or other designated receiving facility*** with prior approval under this subparagraph shall not be subject to the limitations contained in RSA 464-A:25, I(a)(2) through (7).

(2) A guardian may admit a ward to a state institution ***or other designated receiving facility*** without prior approval of the probate court upon written certification by a physician licensed in the state of New Hampshire, or, in the case of placement in New Hampshire hospital ***or other designated receiving facility***, by a psychiatrist licensed in the state of New Hampshire, or an advanced practice registered nurse, as defined in RSA 135-C:2, II-a, that the placement is in the ward's best interest and is the least restrictive placement available. Within 36 hours, excluding days when the court is closed, of such an admission of a ward to a state institution ***or other designated receiving facility***, the guardian shall submit to the Merrimack county probate court notice of the admission and the reasons therefor, together with a copy of the certificate by the physician, psychiatrist, or advanced practice registered nurse.

(3) The Merrimack county probate court shall review the guardian's notice within 48 hours of the filing of the notice, excluding days when the court is closed, to determine whether the notice on its face appears to establish that the placement is in the ward's best interest and is the least restrictive placement available. If the court concludes that the notice is insufficient, the court shall order the immediate release of the ward from the state institution ***or other designated receiving facility***. If the court concludes that the notice is sufficient, counsel for the ward shall be appointed no later than 48 hours following the court's review of the guardian's notice, excluding days when the court is closed. Notice of the appointment shall be transmitted to the ward, to the guardian, and to counsel. Counsel's notice shall be transmitted in writing and electronically or in another manner which is likely to give actual notice of the appointment to counsel at the earliest practicable time. For purposes of proceedings regarding admissions to state institutions ***or other designated receiving facilities*** without prior court approval, the ward shall have the right to legal counsel in the same manner as provided in RSA 464-A:6. The court shall also provide the ward a notice stating that the ward has the right to appointed counsel, the right to oppose the admission by the guardian, and the right to a hearing and to present evidence at that hearing.

(4) Counsel for a ward admitted to a state institution ***or other designated receiving facility*** who has been appointed pursuant to subparagraph (3) shall deliver a written report to the court within 5 days of his or her appointment which shall declare whether the ward requests a hearing on the propriety of the admission. Unless the ward waives a hearing, counsel's report shall include a request for a hearing on behalf of the ward. A copy of counsel's report shall be sent to the ward and to the guardian. If the court does not receive a written report from counsel within 5 days of counsel's appointment, the court shall order appropriate relief, including but not limited to substitution of counsel, an order to show cause, or scheduling of a hearing on the propriety of the admission without awaiting a report from counsel.

(5) Upon receipt of a request for a hearing, the court shall schedule a hearing on the admission to a state institution ***or other designated receiving facility*** without prior approval of the probate court, at

which the guardian shall have the burden of proving, beyond a reasonable doubt, that the placement is in the ward's best interest and is the least restrictive placement available. The hearing shall be held within 10 days, excluding days when the court is closed, from the date that the request is received.

(6) A guardian may not admit a ward to a state institution ***or other designated receiving facility*** for more than 60 days for any single admission or more than 90 days in any 12-month period upon certification of a physician or psychiatrist, or an advanced practice registered nurse, as defined in RSA 135-C:2, II-a, without filing a petition requesting approval of the probate court.

(7) At any time, the ward or counsel for the ward may request a hearing on the admission to a state institution ***or other designated receiving facility*** without prior approval of the probate court, at which the guardian shall have the burden of proving, beyond a reasonable doubt, that the placement is in the ward's best interest and is the least restrictive placement available. The hearing shall be held within 15 days, excluding days when the court is closed, from the date that the hearing is requested.

7 Child Protection Act; Duties of the Department of Health and Human Services. Amend RSA 169-C:34, II-a to read as follows:

II-a. The department may issue a confidential letter of concern to a person or persons responsible for the safety and welfare of the child that although there is insufficient evidence to substantiate a finding of abuse or neglect or of unfounded but with reasonable concern, the department encourages the person or persons responsible for the safety and welfare of the child to seek family support services and provide contact information to obtain such services. ***Upon initiating an assessment, the department may offer the family ameliorative services to reduce risk and address child safety concerns.***

8 Child Protection Act; Duties of the Department of Health and Human Services. Amend RSA 169-C:34, V and V-a to read as follows:

V. Notwithstanding any other provision of law to the contrary, the department may[~~, pursuant to a voluntary service plan that is developed and provided for a minor and the minor's family by the department,~~] offer voluntary services to families without making a determination of the person or persons [~~apparently~~] responsible for the abuse or neglect. The department shall adopt rules, pursuant to RSA 541-A, relative to the provision of voluntary services under this paragraph. ***The costs of voluntary services provided by the department under this paragraph shall not be subject to reimbursement under RSA 169-C:27.***

V-a. Notwithstanding any other provision of law to the contrary, the department may[~~, pursuant to a voluntary service plan that is developed and provided for the child by the department,~~] offer voluntary services to any child who prior to his or her eighteenth birthday was found to be neglected or abused, who was in legal custody of the department as of his or her eighteenth birthday, and who is less than 21 years of age. ***The costs of voluntary services provided by the department under this paragraph shall not be subject to reimbursement under RSA 169-C:27.***

9 Child Protection Act; Liability of Expenses and Hearing on Liability. Amend RSA 169-C:27, I(a) to read as follows:

(a) Whenever an order creating liability for expenses is issued by the court under this chapter [~~or whenever a voluntary service plan is developed and provided for a minor and the minor's family by the depart-~~

~~ment~~], any expenses incurred for services, placements, and programs the providers of which are certified pursuant to RSA 170-G:4, XVIII, shall be payable by the department of health and human services.

10 Appropriation. The sum of $1,500,000 dollars for the fiscal year ending June 30, 2019, is hereby appropriated to the department of health and human services for the purposes of funding voluntary services provided to children, youth and families under RSA 169-C. The governor is authorized to draw a warrant for said sum out of any money in the treasury not otherwise appropriated.

11 New Paragraph; Services for Children, Youth and Families; Incentive Funds. Amend RSA 170-G:4 by inserting after paragraph XIX the following new paragraph:

XX. Encourage cities, towns and counties to develop and maintain prevention programs, court diversion programs and alternatives to out of home placement for children, youth and families through the transfer of funds to cities, town and counties which have or are developing such programs. The transfer of funds shall be in such amounts as are appropriated by the general court for this purpose. The method of distribution shall be based on rules adopted by the commissioner pursuant to RSA 541-A. For the purposes of this paragraph, prevention programs shall include programs or activities for the prevention of child abuse and neglect as well as programs or activities for the prevention of children in need of services (CHINS) and delinquent behaviors.

12 Appropriation. The sum of $1,500,000 dollars for the fiscal year ending June 30, 2019, is hereby appropriated to the department of health and human services for the purpose of funding community-based prevention programs and services pursuant to RSA 170-G:4, XX. The governor is authorized to draw a warrant for said sum out of any money in the treasury not otherwise appropriated

13 Supplemental Appropriation; State Loan Repayment Program. In addition to any other sums appropriated to accounting unit 05, 95, 90, 901010, 7965, line 073, grants-non-federal, there is hereby appropriated the sum of $1,100,000 for the fiscal year ending June 30, 2019 for the state loan repayment program. The department may exceed this amount if new federal funds become available to the program. The governor is authorized to draw a warrant for said sums out of any money in the treasury not otherwise appropriated.

14 New Section; Protection for Maternity and Infancy. Amend RSA 132 by inserting after section 10-d the following new section:

132:10-e Home Visiting Program. The New Hampshire home visiting program shall be available to Medicaid eligible families without restriction.

15 New Section; Rescission of Involuntary Admission. Amend RSA 135-C by inserting after section 29 the following new section:

135-C:29-a Rescission of Involuntary Admission.

I. Following completion of an involuntary emergency admission certificate under RSA 135-C:28 and before custody of the person is accepted by a law enforcement officer pursuant to RSA 135-C:29, the certificate may be rescinded and the person who is the subject of the certificate released in any of the following circumstances:

(a) A mobile crisis team under contract with the department of health and human services accepts transfer of the person's care.

(b) An assertive community treatment team operated by a community mental health program accepts transfer of the person's care.

(c) A community-based provider accepts transfer of the person's care.

II. Following completion of an involuntary emergency admission certificate under RSA 135-C:28 and before custody of the person is accepted by a law enforcement officer pursuant to RSA 135-C:29, the certificate shall be rescinded and the person who is the subject of the certificate released if the physician or APRN who completed the certificate, or any other physician or APRN authorized to complete such certificates, finds that the person no longer meets the criteria of RSA 135-C:27.

III. No civil action shall be maintained against a person who rescinds an involuntary admission pursuant to paragraph I or II, provided that the person is acting in good faith within the limits of his or her authority.

16 Appropriation; Department of Health and Human Services; Division for Children, Youth and Families; Attorneys. The sum of $310,000 for the biennium ending June 30, 2019, is hereby appropriated to the department of health and human services for the purpose of hiring 3 attorneys for the division for children, youth and families. This sum is in addition to any other funds appropriated to the department. The governor is authorized to draw a warrant for said sum out of any money in the treasury not otherwise appropriated.

17 Appropriation; Department of Health and Human Services; Developmental Disabilities Wait List. The sum of $1,162,135 for the fiscal year ending June 30, 2018, is hereby appropriated to the department of health and human services for the purposes of funding the developmental disabilities wait list. This sum is in addition to any other funds appropriated to the department. The governor is authorized to draw a warrant for said sum out of any money in the treasury not otherwise appropriated.

18 10-Year Plan for Mental Health Services. Amend 2017, 112:2, III to read as follows:

III. The commissioner of the department of health and human services shall submit the plan to the speaker of the house of representatives, the president of the senate, and the governor on or before [~~July 1, 2018~~] ***October 15, 2018***. The department shall provide interim reports to the oversight committee on health and human services, established under RSA 126-A:13, on or before October 1, 2017 and on or before March 1, 2018. Thereafter, the department shall report quarterly to the health and human services oversight committee providing an update on the progress of the development and implementation of the plan.

19 Department of Health and Human Services; Behavioral Health Crisis Treatment Center. Amend 2017, 156:188 to read as follows:

156:188 [~~Mobile Crisis Teams and Apartments~~] ***Behavioral Health Crisis Treatment Center***. The commissioner of the department of health and human services shall issue a request for proposals (RFP) for a [~~mobile crisis team and apartments~~] ***behavioral health crisis treatment center*** from qualified vendors. The RFP for the [~~mobile crisis team and apartments~~] ***treatment center*** shall be issued no later than June 30, 2017 and operational no later than [~~January~~] ***July*** 1, 2018. Any new [~~mobile crisis teams~~] ***behavioral health crisis treatment center*** shall be established in ***a*** geographic [~~locations~~] ***location*** that [~~have~~] ***has*** high rates of admissions to and discharges from New Hampshire hospital.

20 Department of Health and Human Services; Mobile Crisis Teams and Apartments. The commissioner of the department of health and human services shall issue a request for proposals (RFP) for qualified vendors to establish an additional mobile crisis team and apartments. The RFP for the mobile crisis team and apartments shall be issued contingent upon available funding for the biennium ending June 30, 2019. Before

issuing the RFP, the commissioner shall present to the fiscal committee of the general court, established under RSA 14:30-a, the source of the funds to be used to support the new mobile crisis team and apartments.

21 Designated Receiving Facilities; Residential Beds. The section heading and paragraph I of 2017, 156:186 are repealed and reenacted to read as follows:

156:186 Supported Housing; Residential Beds.

I. The commissioner of the department of health and human services shall contract with programs that enable individuals with serious mental illness to attain and maintain integrated, affordable, supported housing. The department shall use funding not to exceed $500,000 from existing appropriations for the biennium ending June 30, 2019.

22 Effective Date.

I. Sections 7-12 of this act shall take effect July 1, 2018.

II. The remainder of this act shall take effect upon its passage.

2018-0991s

AMENDED ANALYSIS

This bill:

I. Clarifies admission to receiving facilities and other services for persons who are involuntarily committed under RSA 135-C.

II. Makes a supplemental appropriation to the state loan repayment program.

III. Clarifies the determination of unfounded but with reasonable concern for possible abuse and neglect under the child protection law, and enables the department of health and human services to offer voluntary services to the family.

IV. Makes appropriations for voluntary services and community-based prevention programs under the child protection act.

V. Provides that the New Hampshire home visiting program shall be available to Medicaid eligible families.

VI. Makes an appropriation to the department of health and human services to hire additional attorneys.

VII. Makes an appropriation to the department of health and human services for the purpose of funding the developmental disabilities wait list.

VIII. Requires the commissioner of the department of health and human services to issue requests for proposals for a behavioral health crisis treatment center and, contingent upon available funding, an additional mobile crisis team and apartments.

SENATOR BRADLEY: Thank you, Mister President. I refer all the members to page 13 of the calendar, as the Committee Amendment replaces the bill.

The first 6 sections were recommended by a working group led by Lucy Hodder to ensure that mental health patients have transparency of placement and transitional housing.

Section 7-9, as we debated the last bill, deal with the Division of Children, Youth and Families, and it allows us to offer services for unfounded complaints that have a reasonable level of concern. This is designed to ensure that there are no barriers to families to be able to take advantage of the voluntary services.

Section 10 is the appropriation to fund that.

Section 11 creates opportunities for cities and towns to fund prevention programs similar to the voluntary services.

Section 12 is an appropriation to fund section 11.

Section 13 makes an additional appropriation to the student loan repayment program. I think we all know that we have a severe shortage of health care workers in New Hampshire whether it's workers at hospitals, at mental health clinics, at designated receiving facilities; this will help us attract workers to New Hampshire by helping repay student loans.

Section 14 would expand the home visitation program for pregnant women eligible for Medicaid. UNH has completed a study at the Carsey Institute which documents the rise of what's known as neonatal abstinence syndrome; babies being born addicted to drugs. This will help prevent that addiction.

Section 15 was brought to the committee by the Disability Rights Coalition as well as NAMI of New Hampshire. It deals with rescission of involuntary commitment order. It states that in order for involuntary commitment to be rescinded for individuals they have to be eligible to be released to a mobile crisis unit, an ACT team, or another community behavioral health provider that will accept and is capable of providing patient care. This will help, I think dramatically, in reducing the wait time that people experience in the emergency room, and as long as the provisions of this bill are adhered to there is protection for the provider if they've acted in good faith under the scope of their authority.

Section 16 continues the work of our friend from Londonderry's bill, Senate Bill 582 and 592 a top priority for the Attorney General's Office is the hiring of new attorneys for DCYF. If you recall in House Bill 400 we moved the lead attorney from DCYF to the AGs office for better supervision.

Section 17 at the request of our friend from Salem, the Senate President, appropriates $1.16 million to the Department of Health and Human Services to fund the DD Waitlist for 2018. Section 18 moves up the due date for the mental health report for October to October 15th.

And Sections 19-21 alter the purpose of already appropriated funds to the Department to allow the Commissioner of DHHS to open a behavioral health crisis treatment center; and then if funds are available, an additional mobile crisis unit. There's been a problem in terms of actually getting answers to the RFP for the mobile crisis unit that was funded in House Bill 400 in the budget last year.

Those are all the moving components of the bill, and I urge the body to adopt the amendment.

(The Chair recognized Senator Feltes.)

SENATOR FELTES: Thank you very much, Mister President. Mister President, I rise in support of the Committee Amendment and the bill. I want to thank Senator Bradley and Senator Carson for all their leadership on child protection issues. We served together on the independent committee to review the independent audit report of DCYF, and their leadership on these bills has been very valuable.

Specifically, I want to support section 10, 11, 12, 13 and 14, 16 and 17. I'll start from the back.

The DD Waitlist: we didn't fund it where we should have funded it in the budget, and I appreciate the Senate President's leadership on this to get some money in section 17 to help fill a gap that was in the budget, with respect to our DD Waitlist.

Section 16: we fund, in this amendment, three of the six attorneys that have been recommended. I would prefer that we fund all six, but at least we're making some headway in funding some of the attorneys that are needed in child protection.

Section 14: as Senator Bradley noted, is so critical to deal with an emerging issue over the last few years, as indicated in the Carsey report and amongst people in the field, dealing with neonatal abstinence syndrome and dealing with providing in-home services to folks, pregnant women without restriction in terms of Medicaid.

Section 13: we talk about attracting retaining workforce needed to do the job. That's what section 13 is all about.

But particularly I want to talk about sections 10-12. Section 10 finally reinstates the voucher services program for at risk children, youth and families.

Section 11 and 12 is prevention as well. The thing that we didn't do in the budget, that we should've done in my view, is more prevention; more prevention of the future mistreatment of our children. The independent audit report, Mister President, released in December of 2016, recommendation number 10 on page 15 was to reinstate voluntary services. That was in the report, the final report in December of 2016. Governor Sununu's budget did not fund it; that was a mistake. We tried adding it in the budget process and it was voted down; that was a mistake. We've seen based on a report from a child advocate that that mistake led to some real consequences.

But today we have an opportunity, in a bipartisan way, to fix it moving forward. Prevention of the future mistreatment of our kids–there's nothing more important. Let's vote for this amendment and let's vote for this bill. Thank you, Mister President.

(The Chair recognized Senator Kahn for a question of Senator Bradley.)

SENATOR KAHN: I want to thank my colleague from District 3 and the sponsor of this bill, which I am very supportive of. But I wanted to understand the DD Waitlist further. My recall of this is that we funded in the budget like 200 plus additional people in need of disability services, adult disability services, that there was about 150 people that would be waitlisted. So there are two questions. One is how far are we going with this appropriation in filling the needs of the waitlist? And the second is if this is for 2018 what are the issues that we're going to face for 2019?

SENATOR BRADLEY: I'm not as familiar with the particulars of the DD Waitlist as other people might be. But I do know that we've historically had a problem. I recall that there was a $20 million lapse under the prior Governor's budget. I can't remember which budget it was in. I think it was two budgets ago that triggered a significant increase in the DD Waitlist because that $20 million, which was meant to fund the full range of services for all the people that were eligible, was lapsed back. It was a problem and we've been playing, as best I understand it, catch up ever since then. My understanding further was that when we adopted the budget in June in 2017 and we fully anticipated funding the DD Waitlist with, as I recall, it was about $59 million of new

funds going into the DD program. What this will do, if I understand it correctly, is make sure that for fiscal year '18 we have maintained that commitment to fully fund the waitlist. I suspect that this bill, like the prior bill, will go to the Finance Committee where these numbers can be further scrubbed. But I think that under the leadership of the Senate President, who has made funding the DD Waitlist his top single priority, if I've heard him correctly, for a long time and has fought to make sure that the DD Waitlist is funded even though $20 million was lapsed out of it a couple of years ago. I think that we can trust the Senate President to make sure that we've done everything possible on the DD Waitlist.

SENATOR KAHN: Thank you.

(The Chair recognized Senator Hennessey.)

President Pro Tempore Carson presiding.

SENATOR HENNESSEY: Thank you, Mister President. I, too, rise in support of Senate Bill 590-FN-A as amended, this bill and of the amendment. This bill was written to address the needs of our mental health crisis, as we all know, and the expanded needs of DCYF, and the lack of required funding in the latest Governor's budget. Agreeing with the Senator from District 15, the funding for voluntary services is absolutely critical to support families and to prevent founded reports of abuse and neglect. Mister Ribsam very succinctly said to our committee that the current system is designed to react versus protect.

We heard about the need to support the state loan repayment program, whose initials I rather like because they call it "slurp," which is used for attracting workers. It was described as one of the most effective programs for recruiting and retaining providers. Currently we have twenty-two qualified clinicians who are actually on the waitlist and as the waitlist for SLRP funds grows the likelihood that these valuable people stay in New Hampshire is diminished. With SLRP support, clinicians stay for at least three years, which the Department finds extremely helpful. All the money in the line item for SLRP for this budget has been spent, and we heard that there are 275 vacancies in the community mental health system. We're not meeting the needs of our population, but this bill and this amendment are a beginning. Again, we are not meeting the requirements based on the audit. Realizing this bill falls under not letting perfect be the enemy of good we can do better. We can move from barely good enough to meeting minimum standards. Thank you, Miss President.

(The Chair recognized Senator Fuller Clark for a question of Senator Bradley.)

SENATOR FULLER CLARK: Senator Bradley, one of the concerns we've heard over and over again is the number of individuals that are waiting in the emergency rooms of our hospitals; sometimes as many as fifty people a day. And I'm wondering if you could speak to what degree this legislation, which I certainly favor and rise in support of the amendment, will begin to address that problem.

SENATOR BRADLEY: As you recall, last year in the debate about House Bill 400 and how House Bill 400 got incorporated into the budget, we spent I believe it was about $22 million of general fund appropriations to alleviate the mental health crisis. We went to a lot of different initiatives. Unfortunately, the money that was allocated to increasing the number of DRF beds, designated receiving facility beds, we currently have 44, there were no takers, even though it was a rather generous appropria-

tion. Commissioner Meyers pushed hard to get people to respond to the request for proposal, but there were no responses. Myself and the Senate President met with a couple of entities that we thought might want to. It gets back to one of the appropriations that's in this bill for the loan repayment to try to encourage more health care workers to come into New Hampshire.

What will help is the provision that was brought to us by the Disability Rights Coalition; that as long as somebody is in an emergency room situation and they are certified that they can go to a community provider, whether it's an ACT team, a mobile crisis unit, or some other community provider, they can be transferred per this language, and the emergency room and the hospitals, as long as everything is done appropriately, will be resolved from civil liability. I happen to think that in listening to our friends, who have long advocated–Disability Rights Coalition; and the Alliance Against Mental Illness, NAMI; they think this is a vitally important provision. So while it doesn't cost any money, it should alleviate the problem and get people into the appropriate level of treatment in the communities where they don't have to be housed in the emergency rooms. So, I think that while this bill focuses in many regards on DCYF, there are important provisions for mental health in it, too.

SENATOR FULLER CLARK: Thank you. I do have a follow-up question, and that is if we're able to transfer those individuals to local health care centers, and you say it doesn't cost any money, in actuality those local health care centers are going to have to pick up the cost of those individuals and how is that being paid for?

SENATOR BRADLEY: So, there is a provision in the bill, as you well know, that would allow the Commissioner, instead of creating that fourth mobile crisis unit, if you look at sections 19 and 20, to create a behavioral health crisis treatment center, basically a walk-in clinic, and transfer the funds to be able to do that. There are takers for that. The fourth mobile crisis unit, while the Commissioner put out RFPs, there were no takers. That's unfortunate. Again, it gets back to the lack of health care workers, which we're trying to address by the repayment provision. But, section 20, if there are funds available, and if the Fiscal Committee approves and there's a successful RFP for a fourth mobile crisis unit, then we can proceed in that arena. So I think it's a reasonable compromise based on the fact that even though we appropriated an awful lot of money for both a mobile crisis unit and DRF beds there were no takers. So, this allows us to create a walk-in center that will help. We already have three mobile crisis units, so if somebody is transferred out of an ER situation to a mobile crisis unit there is capacity there, there are ACT teams. So I believe that, I believe it's section 15 in the bill is going to be very important to helping curtail the number of people that are involuntarily committed in ERs across New Hampshire.

SENATOR FULLER CLARK: Thank you very much, I appreciate your comprehensive answer. It is a need that we clearly have to confront.

(The Chair recognized Senator D'Allesandro.)

SENATOR D'ALLESANDRO: Thank you, Madam President. I rise in support of the amendment, but I ask my colleagues to be vigilant in reading this amendment. Read it carefully. And also note that in almost every item, funds not otherwise appropriated the source of revenue. Okay, think about that. Secondly, the reallocation of dollars is a significant part of this piece of legislation. You're going to reallocate money to the Depart-

ment of Health and Human Services. Those are key elements–funds not otherwise appropriated; and reallocation of money within the existing appropriation. Now I think what we need from HHS is accountability on this issue so you won't have a $20 million lapse, which is distasteful to all of us; we don't like that. We work hard to appropriate, we expect the entity to spend the money for which the appropriation was given. So, I know this will go to Finance. I think there's a lot of responsibility on Finance to look at these items. But clearly, understand what this amendment says. Digest it. I think it's very, very important. This is a key element. This is what we are here for. This is the largest department in state government. They provide the most in services to the people of the state of New Hampshire. It's a good amendment, it's a solid amendment, I applaud the work of everybody who went sled length to put this together, but indeed, there are key words in this element that we all should recognize. And when you reallocate within the entity there better be a report on how that reallocation took place, where the money was not spent so that the money could be spent in another appropriate area. Thank you, Madam President.

(The Chair recognized Senator Woodburn.)

SENATOR WOODBURN: Thank you, Madam President. I rise in support of the amendment and the underlying bill, and I'm grateful for every single investment that we are making here, and I think it's time, it's time to make these investments. I am also grateful to the two members of our Democratic caucus on Finance who have been fighting for these investments for a long period of time. You know much of the fights that we have here and disagreements that we have here are about how far and how fast we go in terms of investments, in terms of policy. And I think this is one of those opportunities to stop and pause and take a look at where we were and where we're going, and also to look at, obviously, the big issue we always deal with here is money. New Hampshire's famous for our frugality, and we did something really great last week we passed Medicaid expansion, we accessed federal dollars to be able to provide health care to our hard working citizens. But when it comes to our dollars, we're pretty frugal, we're pretty short sighted, we're pretty cheap. And this budget process indicates that and I'm glad we're correcting it here today.

I want to limit my conversations to the voluntary services in DCYF because there's nothing that we do, nothing that we do in government to protect our most vulnerable children; and by underfunding, we have left children unprotected. And it broke all of our hearts to read the story in Derry where a dad called eight times–not one, not two, not three, not four, not five, not six, not seven–eight times. And you know the answer that he got: you're not in need of services, you're not that bad. And the end of that story is tragic. But where we are today, where we are today, we are going in the right direction. But let's not pat ourselves on the back; let's commit ourselves to protecting children.

Now I want to speak for a moment, because I spent the last week talking to people who do this. Not people who sit in offices and write reports, not people who sit in committee meetings and hear testimony, but people who take those phone calls. And I want each of you to put yourself in their position; put yourself in the social worker, and the DCYF who takes that call and says no you don't meet the standard. We, the wealthiest state in the country, cannot help you. What they told me, these people who do it, is they said it's an impossible situation. You know what's going

to happen, they told me. They know what's going to happen. And we saw the worst case scenario. They see the daily grind of kids living in toxic environments, and what the long term impacts are on those kids. And we were talking about kids addicted or affected by drugs–Coos County, my home county, I was a teacher there. The pregnant women in Coos County today, 50 percent affected are on drugs. Hopefully those get cleaned up, hopefully they'll be great moms and great dads and great family structures, but they're up against some real tough challenges. And we know about ACEs, and if you don't you ought to learn about them: Adverse Childhood Experiences. There's toxic environments that poisons kid's childhoods, and we have an opportunity to, not only our own selfish interest, save money; good and smart investments. The links are clear between these toxic environments and their mental health, their physical health, and where they end up. Okay? I also had the unfortunate situation of having 50 percent of the incarcerated men in the state of New Hampshire in my district, my constituents. And there is a common link in a lot of these, and we need to begin to realize that, and we need to begin to act on it.

Being frugal is not something to be proud of when it comes to protecting kids. Slowing down the abuse of kids is not something to be proud of. We need to have an absolute commitment to protecting our children, providing them opportunity, creating a system that understands the value, and the purpose, and the opportunity that every kid can live to their dreams. I have a chair in my office; it's a chair I found on the side of the road. It was all broken up and we had it fixed; a big, beautiful chair and they did it at the state prison. And I was talking to the teacher that runs the program there and I said how do you do it? How do you do it? These guys are working with things who could kill you in a second, how do you do it? And he says I got all the leverage in the world, they live for their craft, they live to make these beautiful products. And I said, my gosh, if we only invested in these kids before they became adulthood they would be making beautiful things with their hands and they would be living their dreams every day. But we need to make investments in children, we absolutely do. Thank you for this investment, let's not stop here. Let's keep going. Thank you.

(The Chair recognized Senator Kahn.)

SENATOR KAHN: Thank you, Madam President. I rise, again, but this time to definitely say that I am supportive of this. I raised the question to our colleague and the sponsor of the bill because I think it's important that relative to developmental disabilities that we answer very clearly to that community where we are relative to waitlists, and where we think we're going to be. So, it's in full support of where we're going, and hopefully we're staying on that path down the road. And I appreciated your answer.

I, also, briefly to say voluntary services is crucial. Here's a quick story, I hope. School district counselor, a classroom infected with fleas. One student was in the custody of a mom, that custody was taken away from the mom for a short period of time through a DCYF case. The grandmother, who assumed custody, allowed the child to have further visitations. So, while the classroom was getting cleaned up the lice issue was being taken care of, the child went back into the home where the mother was for visitations that lasted overnight and the child came back to school with lice. The way that the case was finalized is that the child went back full time to custody with the mom. And the child, as a result, missed a lot of

school during that school year. Her classmates were traumatized; it just set up what the counselors felt was an untenable situation for them to have to deal with. These voluntary services, they say, would have been the kind of delivery that would have mitigated the reoccurrence and the kind of trauma, the kind of school loss that this child experienced and that her classmates experienced.

And, so, I'm fully supportive of this. I think this together with 582 put us on a track to try to fill some voids in the state that are crucial for our child welfare. Thank you.

(The Chair recognized Senator Morse.)

SENATOR MORSE: Thank you, Madam Chair . I rise to talk about our Senate. There is no doubt this Senate has paid more attention to the disabled community, to mental health, to DCYF, to making New Hampshire better. You know the question was asked what are we doing with these three pieces of legislation financially and where are we headed. It's $5.5 million plus or minus. I can answer Senator D'Allesandro's question. On a $12 billion budget we're making $5.5 million in changes. We're certainly taking a few things that haven't happened, and I'm as disappointed as anyone. I certainly call constantly. I get notified twice a day about how many people are in hospitals that have mental illness. I certainly watch the number all the time. I don't find it to be acceptable. But there's money sitting there from DRF beds that we need to adapt to.

On the disabled community it wasn't the Senate that fell short. The Senate put the money in the budget. In committee of conference we negotiated with the House and got a budget that was acceptable to everyone. That million dollars that's in there now will get us through 2018. Based on projections it's 8 million more in 2019. I figured we'd take a step and move forward right now.

But I don't want to do with the Senate is to go back to 2011. When I arrived here and became Finance Chair and it was appropriated $11.5 billion budget, and under Governor Lynch he had to live to 10.7 billion. Because he let the legislature make decisions that they couldn't afford, and then he went and adapted to it like a good governor. That's not the way to govern. And from there we raided everything–the fidelity funds. Every one of us wants to increase scholarships–gone. We used them for general funds. We bought a section of highway so we could take the money out of the turnpike fund. We actually took school bond money that we used to make sure that we built in our local communities. We bonded 135 million, we took the money out of the rooms and meals tax, and we still haven't paid off that full bond today. Those were the decisions that were made under the last governor. I won't support that. I made sure that we had it to fill in the rainy day fund. We're not there yet. It needs another 50 million to be to the point I believe is acceptable. I made sure the Senate lived within its means working with the Finance team.

And as we talk about the 5 million that's being appropriated today, don't think that the Governor and I and the Speaker are not aware of those people that are sitting in hospital beds, those children that aren't being treated. The difference today is the management is on the street going and visiting these places and asking questions. Just like was suggested, because that's what we do. But I will not do as a governor, as the government–someday–is lead us down a path that we are going to overspend and basically have taxation to solve the problem. Eighty-five taxes and fees; I'll never forget the debates that were happening for governor back

then. Eighty-five increases in taxes and fees in order to balance a budget coming out of the mess that we were put into. That's not where New Hampshire's headed today. We're leading, and that's the way we should be; and I applaud the Senate for leading; and I applaud the Governor for leading because he's certainly taken the bull by the horn and making sure that we're making changes in the state of New Hampshire. And as I hear things to the contrary it gets me aggravated because we've all agreed in this Senate to work together, and that includes the Governor, as far as I'm concerned.

There is no doubt we are making an effort to make sure children are taken care of. There's no doubt that we think that the disabled community should be taken care of. And as we work on the system, we should be questioning commissioners. There's no doubt in my mind we appropriated money that we thought was going to be spent to solve a problem. And as we discuss problems today–there's another budget coming. And to suggest that we're led by the Governor to reduce business taxes, the reality of this Senate is that we thought reducing business taxes would drive the economy to fill all those buckets. And guess what? We're winning. New Hampshire is the place to build your business right now. People are looking at us. Our business taxes are ahead. I certainly am looking to make sure the year ends that way.

But as I went through the authorization to spend what's in these three bills, I certainly looked at where we are, I looked at some of the problems that we certainly face this current year and I said there is no way we are overspending what we have coming in. I find it totally unacceptable. What I do find acceptable is that this Senate's willing to debate the problems of this state and make sure we look to find ways to solve them. And the one thing that I love about our government is that we take our time to do it right. Now I know some people think that's not quick enough, but you know when I left here after session on voting on that budget, I certainly was the first one to go down to my region tent and I certainly went in and asked them if they were able to make appropriations to cover the waiting list at that point in time. They said Senator we don't understand why you're here. We have thirteen people, for those of you that follow it, there's a class A, B and C. They're Cs. Is that acceptable to me? No. But the reality was they managed their system. And it wasn't until lobbyists got involved, to start to come up here and say we're failing, we're doing everything wrong; this Governor's not doing his job; that I got back involved again. And I certainly called the Commissioner over; I called the person responsible in his department over; I went through report after report. There is no doubt that I think we can do it better, but we certainly aren't failing. New Hampshire cares about its people and I want you to understand more than anything when people say we're frugal, we're frugal for a reason. We make people prove that what we're voting for is the right thing to do, not just appropriating money. Thank you, Madam President.

(The Chair recognized Senator Bradley.)

SENATOR BRADLEY: You know it's interesting that we seem to be debating the history of voluntary services, and I think the history of DCYF. And there are not any of us that shouldn't look in the mirror. The last time voluntary services were funded was in 2011. There were budgets that were voted in this room 24-0 after a lot of give and take, 24-0 in 2013 and in the substitute bill in 2015 after the veto did not fund voluntary services. Each and every one of us needs to look in the

mirror and fix the problem today without trying to assign blame. In the '16-'17 budget, or the budget that we're in currently, we've increased the child protection service workers significantly. They had been level funded for those same budgets that all 24 of us voted for. Look in the mirror before trying to assign blame and do our jobs and fix the problem. So what 590 does: I credit your leadership, I credit your leadership, I credit Senator Morse's leadership and, quite frankly, all of us had the opportunity to lead now. Blame doesn't get us anywhere and the kids in this state expect better. We can afford to do this, and we should do it. And we should learn from the fact that we haven't done it for several budget cycles. Those last two budgets in '13 and '15 let's not forget; we all voted for. Thank you, Madam President.

(The Chair recognized Senator Feltes.)

SENATOR FELTES: Thank you very much, Madam President. I remember seeing a speech by Joe Biden at UNH Law where he talked about his first experience on the Senate floor, the U.S. Senate floor. He talked about listening to a speech from Senator Helms. Senator Helms is arguing against the ADA based on tenth amendment grounds, local control, and he was so fired up about Senator Helms' speech he went in and talked with the then Majority Leader Mike Mansfield and said I can't believe this guy, Senator Helms, the way he's talking about people with disabilities. And Mike Mansfield said would it change your mind about Senator Helms if you knew that he and Dottie, his wife, saw an ad in a paper about a child with severe and pervasive disabilities who needed a home and they adopted that child. And Senator Biden said–and this is his story–Senator Biden said yeah, it would definitely change my mind. And so Senator Mansfield said you know what? That's a prime example of you never question people's motives. You never question what's in their head. You don't know what Senator Helms is thinking. You don't know what his motives are. I don't think anybody's motive here today is to try to assign blame. That's not why we're here. We're here recognizing that mistakes were made. An independent audit report released December of 2016, which Senator Bradley, Senator Carson, myself on the committee recognized that there's more work to do. There's more work to do. It's okay to look at history, to learn from it, to learn from our mistakes. There's nothing wrong with that, especially when we're talking about child protection. Everybody cares about our children. We have an opportunity to learn from the mistake, and I think we can do it. I'm hopeful about what this will do. I take the Senate President's remarks and will take a look at it and see if we build up to where we need to go with Senator Carson and Senator Bradley looking at this audit–make sure that we meet that. Make sure that we meet it together and we protect all of our children. The Senate Minority Leader, Senator Woodburn, mentioned it's the most important thing we can do as a government is protect our children. Thank you, Madam President.

The question is on the adoption of the Committee Amendment.

A roll call was requested by Senator Avard, seconded by Senator Giuda.

The following Senators voted Yes: Woodburn, Giuda, Bradley, Watters, Hennessey, Gray, French, Ward, Sanborn, Kahn, Daniels, Avard, Lasky, Feltes, Cavanaugh, Reagan, Soucy, Birdsell, D'Allesandro, Fuller Clark, Morse, Gannon, Innis, Carson.

The following Senators voted No: (None)

Roll Call, Yeas: 24 - Nays: 0. Adopted.

Senator Reagan offered a Floor Amendment.

Sen. Reagan, Dist 17
March 12, 2018
2018-1061s
05/01

Floor Amendment to SB 590-FN-A

Amend the bill by inserting after section 21 the following and renumbering the original section 22 to read as 23:

22 New Section; Guardianship of Minors and Estates of Minors; Guardianship of Minors in Foster Care and Consent for Medical Treatment. Amend RSA 463 by inserting after section 12 the following new section:

463:12-a Guardianship of Minors in Foster Care and Consent for Medical Treatment. For any guardianship granted to the department of health and human services for a minor in foster care, or for any minor in the legal custody of the department receiving foster care services, the department's authority to consent to medical treatment for the minor may be established by, but not limited to, any of the following:

I. A duly executed "Authorization for Medical Treatment" signed by the minor's parent or guardian;

II. For the provision of ordinary medical care, including behavioral, mental health, or developmental health services, a copy of that portion of the court order transferring legal custody of the minor to the department under RSA 169-C; or

III. A copy of the letter of guardianship issued to the department that authorizes the department to consent to medical or other treatment of the minor.

2018-1061s

AMENDED ANALYSIS

This bill:

I. Clarifies admission to receiving facilities and other services for persons who are involuntarily committed under RSA 135-C.

II. Makes a supplemental appropriation to the state loan repayment program.

III. Clarifies the determination of unfounded but with reasonable concern for possible abuse and neglect under the child protection law, and enables the department of health and human services to offer voluntary services to the family.

IV. Makes appropriations for voluntary services and community-based prevention programs under the child protection act.

V. Provides that the New Hampshire home visiting program shall be available to Medicaid eligible families.

VI. Makes an appropriation to the department of health and human services to hire additional attorneys.

VII. Makes an appropriation to the department of health and human services for the purpose of funding the developmental disabilities wait list.

VIII. Requires the commissioner of the department of health and human services to issue requests for proposals for a behavioral health crisis treatment center and, contingent upon available funding, an additional mobile crisis team and apartments.

IX. Clarifies the department of health and human services' authority to consent to medical treatment for a minor in foster care.

SENATOR REAGAN: Thank you, Madam President. I rise to introduce amendment 1061 and wish to speak to the amendment. The problem with children in foster care who need medical treatment, the problem was that only the parents were allowed to give permission. The foster parents weren't allowed, the Department wasn't allowed, and sometimes it was difficult to find the parents to get permission. So what this new section does, it allows the Department to authorize medical treatment for children in foster care. So it solves a major problem and a major investigation problem at the Department of Health and Human Services.

(The Chair recognized Senator Bradley.)

SENATOR BRADLEY: Thank you very much. This is the first time I've seen the amendment. I think it makes sense. I'm going to vote with my good friend from District 17. The only request would be to when the Finance Committee takes up this bill to check with the Department of Health and Human Services, that's all I would ask. Thank you.

The question is on the adoption of the Floor Amendment. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to the Committee on Finance (Rule 4-5).

(The Chair recognized Senator Morse.)

SENATOR MORSE: Thank you, Madam President. While I'm down here I just want to make it perfectly clear that Salem became a donor community once again by voting for keno yesterday.

President Morse presiding.

PARLIAMENTARY INQUIRY

(The Chair recognized Senator Bradley for a parliamentary inquiry.)

SENATOR BRADLEY: When would be the appropriate time to correct an incorrect amendment analysis on Senate Bill 581? We've already voted for it. I apologize for not having stood up and corrected the record, and it slipped my mind as we were getting into the debate on 582.

PRESIDENT MORSE: Senator, why don't you state your concern and then I'll rule.

SENATOR BRADLEY: There was an amended analysis on the Committee Amendment of Senate Bill 581 that it would only last for a two year provision. That amended analysis was false, and I want to make sure that the record reflects that that amended analysis on that Committee Amendment is incorrect. Thank you.

PRESIDENT MORSE: Senator Bradley, the Clerk says that she can fix that.

SENATOR BRADLEY: Well, thank you.

TECHNICAL AND ADMINISTRATIVE CORRECTIONS

Without objection, the Clerk is authorized to make technical and administrative corrections which are necessary to reflect the intent of the Senate on SB 581-FN. Adopted.

Please note: The Clerk was instructed to correct the amended analysis.

SB 592-FN-A, relative to the child welfare system.
Ought to Pass with Amendment, Vote 5-0. Senator Gray for the committee.

Health and Human Services
March 6, 2018
2018-0992s
10/01

Amendment to SB 592-FN-A

Amend the bill by replacing all after the enacting clause with the following:

1 Child Protection Act; Liability For Expenses; Voluntary Services Excluded. Amend RSA 169-C:27, I(a) and (b) to read as follows:

I.(a) Whenever an order creating liability for expenses is issued by the court under this chapter [~~or whenever a voluntary service plan is developed and provided for a minor and the minor's family by the department~~], any expenses incurred for services, placements, and programs the providers of which are certified pursuant to RSA 170-G:4, XVIII, shall be payable by the department of health and human services.

(b) Subparagraph (a) shall not apply to***:***

(1) Expenses incurred for special education and related services[~~, or to~~]***;***

(2) Expenses incurred for evaluation, care, and treatment of the child at the New Hampshire hospital***;*** [~~or to~~]

(3) Expenses incurred for the cost of accompanied transportation***; or***

(4) Expenses incurred for voluntary services provided to a minor or the minor's family pursuant to RSA 169-C:34, II-a, RSA 169-C:34, V, or RSA 169-C:34, V-a.

2 TANF Funded Initiative; Home Visiting Services. The department of health and human services shall use allowable Temporary Assistance to Needy Families (TANF) funds to expand home visiting services through family resource centers. A priority shall be placed on providing home visiting services to families to whom the department has issued a letter of concern pursuant to RSA 169-C:34, II-a, cases reported by the department of health and human services as unfounded but with reasonable concern, as defined in RSA 169-C:3, XXIX, and TANF recipients who, as parents of children under 12 months old, are exempt from TANF work requirements.

3 TANF Funded Initiative; Family Resource Centers of Quality Specialist. The department of health and human services shall use allowable TANF funds to contract with a family resource center of quality specialist. The role of the specialist shall be to provide technical assistance to family resource centers throughout the state and aid the centers in establishing and achieving the high quality standards necessary for national certification. The person selected by the department shall be qualified by reason of education and experience to assume the responsibilities of a family resource centers of quality specialist.

4 TANF Funded Initiative; Child Care Services. The department of health and human services shall use allowable TANF funds to expand child care services to eligible recipients. Priority shall be given to foster families, families with voluntary service plans through the department of health and human services, and families with individual service plans through family resource centers.

5 Department of Health and Human Services; Supplemental Appropriation.

I. The sum necessary to fund the following positions, which may be either state employee or contract positions, is hereby appropriated to the department of health and human services for the biennium ending June 30, 2019:

(a) Eight child protective services workers, who shall be designated resource workers.

(b) Two licensed alcohol and drug counselors, who shall contract with the department.

II. The appropriation in paragraph I shall be in addition to any other funds appropriated to the department for the biennium ending June 30, 2019. The governor is authorized to draw a warrant for such amount from any money in the treasury not otherwise appropriated.

6 Family Drug Court; Study Committee Established. There is established a committee to study the development of a family drug court in New Hampshire.

I. The members of the committee shall be as follows:

(a) One member of the senate, appointed by the president of the senate.

(b) Three members of the house of representatives, appointed by the speaker of the house of representatives.

II. Members of the committee shall receive mileage at the legislative rate when attending to the duties of the committee.

III. The committee shall study family drug court models and the feasibility of establishing a family drug court in New Hampshire. The specialized court, with jurisdiction over child protection cases that involve substance use by the child's parents or guardians, would provide a coordinated and collaborative approach to reducing child maltreatment by treating parents' underlying substance use disorders. The committee shall solicit information and testimony from any individual or agency the committee deems relevant to its study, including licensed alcohol and drug counselors, family law attorneys, representatives of the department of health and human services, and representatives of the district court family division.

IV. The members of the study committee shall elect a chairperson from among the members. The first meeting of the committee shall be called by the senate member. The first meeting of the committee shall be held within 45 days of the effective date of this section. Three members of the committee shall constitute a quorum.

V. The committee shall report its findings and any recommendations for proposed legislation to the president of the senate, the speaker of the house of representatives, the senate clerk, the house clerk, the governor, and the state library on or before November 1, 2018.

7 Effective Date. This act shall take effect upon its passage.

2018-0992s

AMENDED ANALYSIS

This bill:

I. Waives reimbursement for voluntary services under the child protection act.

II. Establishes a home visiting services initiative.

III. Directs the department of health and human services to contract with a family resource center of quality specialist.

IV. Expands certain child care services.

V. Makes an appropriation to the department of health and human services for additional child protective services workers and licensed alcohol and drug counselors.

VI. Establishes a committee to study family drug court models.

SENATOR GRAY: Thank you, Mister President. I move Senate Bill 592-FN-A as Ought to Pass with Amendment. This bill authorizes and provides funding for additional positions at the Division of Children, Youth and Families. This bill also establishes a committee to study the development of a family drug court in New Hampshire. We must do more in our state to provide upstream resources to ensure that children are safe and taken care of at home. It is imperative that this action is taken to ensure that families have the resources they need long before DCYF is contacted. The bill expands child services in a comprehensive way. It uses a supplemental appropriation to the Department of Health and Human Services to fund the various positions, as well as establish additional resources to not just change, but transform the Division. The Health and Human Services Committee asks for your support for a motion of Ought to Pass as Amended on Senate Bill 592-FN-A. Thank you.

The question is on the adoption of the Committee Amendment. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to the Committee on Finance (Rule 4-5).

MOTION TO REMOVE FROM THE TABLE

Senator Daniels moved to remove SB 475 from the Table. Adopted.

HEALTH AND HUMAN SERVICES
SB 475, relative to testing for Lyme disease.

The pending motion is Ought to Pass with Amendment.

(The Chair recognized Senator Daniels.)

SENATOR DANIELS: Thank you, Mister President. As so many bills are going around, I was in error. The floor amendment I was thinking about was on a different bill yet to be addressed. So, I appreciate the unanimous support on the passage of the amendment and would ask for the same unanimous support on the passing of the bill as amended. Thank you, Mister President.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to Third Reading.

JUDICIARY
SB 388, relative to satellite dispensaries for therapeutic cannabis. Ought to Pass with Amendment, Vote 5-0. Senator Carson for the committee.

Senate Judiciary
March 6, 2018
2018-0952s
01/04

Amendment to SB 388

Amend the title of the bill by replacing it with the following:

AN ACT relative to dispensary locations for therapeutic cannabis.

Amend the bill by replacing sections 1 and 2 with the following:

1 New Paragraph; Use of Cannabis for Therapeutic Purposes; Departmental Rules. Amend RSA 126-X:6 by inserting after paragraph III the following new paragraph:

IV. The department may adopt rules regarding the establishment of a second dispensary location by the alternative treatment center described in RSA 126-X:7, X including, but not limited to, fees, operational requirements, and geographic location.

2 New Paragraph; Use of Cannabis for Therapeutic Purposes; Dispensary Locations. Amend RSA 126-X:7 by inserting after paragraph IX the following new paragraph:

X. If the department determines that having additional locations for the dispensing of therapeutic cannabis is necessary to adequately and effectively meet the needs of qualifying patients and designated caregivers, the department may authorize the alternative treatment center allowed to operate in the geographic area that includes Carroll, Coos, and Grafton counties, not including the town of Hanover and the city of Lebanon in Grafton county, to establish a second dispensary location within that same geographic area. A second dispensary location shall only be established in a geographic location approved by the department, shall be limited solely to the dispensing of cannabis and educational efforts, and shall not be used for cultivation or other activities relative to the production of cannabis. A second dispensary location shall be subject to rules adopted by the department under RSA 126-X:6, III, and any additional rules adopted by the department relative to a second dispensary location under RSA 126-X:6, IV, and all applicable provisions of this chapter relative to alternative treatment centers including, but not limited to, compliance with local zoning laws. The department shall, in conjunction with the local governing body of the town or city where the second dispensary location would be located, solicit input from qualifying patients, designated caregivers, and residents of the town or city in which the second dispensary location would be located.

2018-0952s

AMENDED ANALYSIS

This bill authorizes the department of health and human services to establish a second dispensary location in the geographic area that includes Carroll, Coos, and Grafton counties, for therapeutic cannabis.

SENATOR CARSON: Thank you, Mister President. I move Senate Bill 388 Ought to Pass with Amendment. This bill as amended allows the Department of Health and Human Services to establish an additional location for an alternative treatment center within the geographic area of Carroll, Coos, and Grafton counties. The committee heard testimony regarding the multi-hour drive times that some individuals in the North Country are faced with in order to retrieve their cannabis medications. By allowing for an additional location in that geographic area, some of the overly onerous driving times will be reduced, lessening the burden on individuals who have already been approved by the Department for medicinal cannabis. Therefore, the Judiciary Committee asks for your support in the motion of Ought to Pass with Amendment on Senate Bill 388. Thank you, Mister President.

The question is on the adoption of the Committee Amendment. Adopted.

Senator Kahn offered a Floor Amendment.

Sen. Kahn, Dist 10
Sen. Reagan, Dist 17
March 13, 2018
2018-1086s
01/04

Floor Amendment to SB 388

Amend the bill by replacing sections 1 and 2 with the following:

1 New Paragraph; Use of Cannabis for Therapeutic Purposes; Departmental Rules. Amend RSA 126-X:6 by inserting after paragraph III the following new paragraph:

IV. The department may adopt rules regarding the establishment of a second dispensary location by the alternative treatment centers described in RSA 126-X:7, X including, but not limited to, fees, operational requirements, and geographic location.

2 New Paragraph; Use of Cannabis for Therapeutic Purposes; Dispensary Locations. Amend RSA 126-X:7 by inserting after paragraph IX the following new paragraph:

X. If the department determines that having additional locations for the dispensing of therapeutic cannabis is necessary to adequately and effectively meet the needs of qualifying patients and designated caregivers, the department may authorize the alternative treatment center allowed to operate in the geographic area that includes Carroll, Coos, and Grafton counties, not including the town of Hanover and the city of Lebanon in Grafton county, to establish a second dispensary location within that same geographic area. In addition, the department may authorize the alternative treatment center allowed to operate in the geographic area that includes Cheshire and Sullivan counties and the town of Hanover and the city of Lebanon in Grafton county to establish a second dispensary location within that same geographic area. A second dispensary location shall only be established in a geographic location approved by the department, shall be limited solely to the dispensing of cannabis and educational efforts, and shall not be used for cultivation or other activities relative to the production of cannabis. A second dispensary location shall be subject to rules adopted by the department under RSA 126-X:6, III, and any additional rules adopted by the department relative to a second dispensary location under RSA 126-X:6, IV, and all applicable provisions of this chapter relative to alternative treatment centers including, but not limited to, compliance with local zoning laws. The department shall, in conjunction with the local governing body of the town or city where the second dispensary location would be located, solicit input from qualifying patients, designated caregivers, and residents of the town or city in which the second dispensary location would be located.

2018-1086s

AMENDED ANALYSIS

This bill authorizes the department of health and human services to establish a second dispensary location in the geographic area that includes Carroll, Coos, and Grafton counties, for therapeutic cannabis. This bill also authorizes the department of health and human services to establish a second dispensary location in the geographic area that includes Cheshire and Sullivan counties.

SENATOR KAHN: Thank you, Mister President. This amendment is fairly straight forward. You look at lines 15-18 and the intent of this amendment is to provide for a second alternative dispensary unit in District 4, I'm sorry, in District 3. We just acted on District 4. And for all of you who can see, better than half of New Hampshire. But what we did when we created the four dispensary units is we created two in Grafton County, in Plymouth, and in Lebanon, and then we created two others and they're in Dover and in Manchester. So, the action that we've just taken enables the District 4 dispensary that is in Plymouth to locate a second location someplace else in District 4, and that makes good sense. The drive

times no doubt are two hours, maybe some more in some other areas. But if I just do as the crow flies…where is our colleague from District 1 because now, I know where Millsfield is. It actually is so small on this map I couldn't quite make it out. But Millsfield is essentially as far from Plymouth as Hinsdale is from Lebanon.

And I want to remind you of the story that I told on the floor last year. It was a letter that I received from Hinsdale. Mike is the dad writing the letter on behalf of his son, a twenty something year old, who had a skin disease, a nerve ending disease that caused the child to need on a regular basis a medical marijuana prescription, or treatment. He could not get sufficient product. He would drive from Hinsdale the two hours to Lebanon. He would not be able to pick up enough of the treatment in order to fill it out, and he'd return two hours later, and he felt why is this? Why have we created medical marijuana dispensaries and then make it so unfeasible for people to try to access what they are prescribed–I know it's not the right word, but let me use it–prescribed to access?

I received another call from another town in my district; also two hours away from Lebanon. A person who said it's not just that I have to drive the two hours, it's awfully expensive. And when I got the third call the person said it's cheaper for me to buy it off the streets than to drive two hours and purchase something that we have legitimized and tried to create in our state.

I've had the conversation with my colleague from District 14. I know that this is not an amendment that maybe is viewed timely by everybody, but I also followed up as suggested with the Department of Health and Human Services. To create an alternative dispensary is likely a process that takes a year. So, it's not a matter of wait a year and file another bill; this is wait two years. And this is setting up constituents in Sullivan and Cheshire County equal distance to Lebanon as we've just passed for the North Country to Plymouth. Setting up a situation where people are left with the illegal act in order to acquire something that we've prescribed for them to access. Why is it illegal? One; it's cheaper, more accessible to buy a product, less trouble to buy a product off the streets in the black market that's illegal. They shouldn't be doing that. And it's also going to be illegal when they start traveling to Bernardston thirty minutes away from the Southern tier of my area to purchase product and then bring it back across the state line. I don't think that these citizens in this state who have been prescribed medical marijuana should wait for us to act on this another year. So, I offer this amendment; I think its timing is right, and I hope that the body will approve this and approve the bill. Thank you, Mister President.

(The Chair recognized Senator Sanborn for a question of Senator Kahn.)

SENATOR SANBORN: Senator, thank you for taking my question. I'm just trying to understand, I'm not sure if you have the answer. If not, maybe Senator Reagan will pop up in your defense. But if we have four locations today, we're debating a fifth, and you have introduced a sixth, are they all separate ownership or common ownership? And, obviously, my concern at some level is, are we creating some sort of a monopoly of distribution of the product. So is the requirement from HHS that they're separate ownership at every medical facility?

SENATOR KAHN: I can't answer that, and I'm sure if I do anything incorrect, I'd ask that somebody offer the correction. But I was told that, and the way that this is structured is that this is authorizing those

four dispensaries, and in this case two of them, to have an alternative, one single alternative location that they would be responsible for. So that's the way that this would be established in the three counties to the North, and that's the way it would be established in the two counties to the South.

SENATOR SANBORN: So if my understanding is correct there will still be four separately, independently owned medical marijuana dispensaries of which two of them will each have two locations.

SENATOR KAHN: They have the opportunity to set up an alternative location.

SENATOR SANBORN: Thank you, I appreciate that.

(The Chair recognized Senator Carson.)

SENATOR CARSON: Thank you, Mister President. First of all before I begin, in answer to the Senator from District 9s question, one company owns three locations. So, if you were to put a satellite location somewhere in the Keene area as well as in the North Country, that would mean that one company would own five locations as opposed to the one, then there would just be another one. So there is a big possibility in creating a monopoly for one company. And that was one thing that I was extremely concerned about and that's why only one was brought forward for the North Country.

Mister President, I rise objecting to amendment 1086s. This bill, as it came to us in the committee, was very confusing. If you were to read the testimony that we were given, we were confused. What are you asking for? Because they were talking about having satellite locations, but these satellite locations are doing the same thing as the bigger alternative treatment centers are doing. So, without putting a lot of time trying to define what a satellite location is actually going to do, I sat down with Mister Holt, from the Department of Health and Human Services, and we had a really great discussion about this.

Now I know most of you know I do not support medical marijuana, but you can see the need here for the people in the North Country. We did not have testimony as to any other location; it was only the North Country. And, quite frankly, they're located in the geographic area number 4, which is just about the whole northern part of the state, and it makes complete sense to have another alternative treatment center in the North Country to make it easier for people who live there to access their medication.

Now those of us that live in the southern tier, we're used to a drug store on every corner. We don't even think twice about it. How many drug stores are in your communities?

We were very, very careful when this legislation was being crafted. We had to be. Because don't forget, we've got the overarching Federal Government standing over us telling us this is illegal; you cannot be doing that. We are doing this in defiance of federal law, and we have to be very, very, very careful about what we're doing. This was part of the conversation that I had with Mister Holt, and we decided we will do this on a case by case method. The North Country makes a compelling case; those folks have to drive an incredible amount of time to access their medication. And, don't forget, we can't send it to them through the mail because it's illegal. So, we don't really have a lot of alternatives.

If there is going to be a discussion about having an additional dispensary down in the Keene area–and by the way, the other dispensary is

not located in Manchester, but it's located in Merrimack–that needs to be a separate issue with a separate discussion. You're really going to have to come in and talk about why you need to have another location in that area that's going to broach geographic area 3 as well as geographic area 4.

So, Mister President, I stand in opposition to Floor Amendment 1086s, and I would ask the body to join me in saying no. Thank you very much, Mister President.

(The Chair recognized Senator Hennessey.)

SENATOR HENNESSEY: Thank you, Mister President. I rise in favor of…I support the amendment 1086s, and the reason I do is I wanted to say that I wished that everyone in this room had heard the testimony we heard in Health and Human Services regarding medical marijuana. In a time of a massive opioid crisis we heard from many people who found that the medical use of marijuana actually reduced or eliminated their addiction to opioids. Now you're just hearing it from me. I wish you had heard it from the mouths of the people who are experiencing this. It was profound. And this is the right time to think about how to make it available to anyone who is in that kind of crisis. I did, in the committee, bring up a couple of times the fact that I felt that Keene was in a similar situation and was very far from Lebanon, which I assume is the closest dispensary. You know, there have been an awful lot of elevated voices today, and I'm trying not to elevate mine, I don't have any desire to elevate mine. But I do feel that we all need to think about all of our citizens; that this should not be about the one that maybe was lobbied enough to show up. I had a pretty unusual experience recently with hearing about something that's illegal but we're not enforcing in New Hampshire, as well. So let's not have double standards about where we're going to enforce and we're not going to enforce. Thank you, Mister President.

(The Chair recognized Senator Giuda for a question of Senator Carson.)

SENATOR GIUDA: Thank you, Senator. I'm not familiar with but have always supported medical marijuana. What is the basis for the districts? I hear there are four districts in the state, and what's the basis for establishing those?

SENATOR CARSON: Thank you for the question. If I remember correctly, because this was a few years ago, the state was divided into geographic district because you wanted to make sure that there was an even distribution of these clinics. We had decided that there would only be four, and it was to ensure placement in appropriate areas around the state, so they didn't all cluster in Manchester, or in Concord, or out at the seacoast. So that was the process that was set up.

SENATOR GIUDA: In that discussion of establishing the districts was there any consideration given to the amount of time that it might take a person who needed this to get to the particular location that was selected within that district? Now was equity of time looked at, or was there some other metric?

SENATOR CARSON: Senator, I can't answer that question because I was not part of that discussion when that was put together. But I would like to point out to you that the gentlemen that came that represented Temescal Wellness–they have locations in both Dover and in Lebanon–in his testimony he did not speak to the need for an additional site in Keene, and he only addressed the needs of the North Country.

(The Chair recognized Senator Kahn.)

SENATOR KAHN: Thank you, Mister President. I'm certainly not advocating on behalf of just Keene. I just want to make that clear. It's something I haven't even tested on people in Keene except to say don't you think that Western New Hampshire is not well served by having a single location in Lebanon? And that is a unanimous sentiment. And to my colleague in Senate District 12, it was a day I was in Hinsdale, started my day there; there was a funeral I needed to go to over in Bedford. I said no problem I'll be there in a little over an hour. Oh my God, I traveled Route 119 over to Route 101; it took an hour and forty minutes to get to Bedford, let alone to get to Merrimack. I would have preferred to go to Lebanon at that point.

So I just have to…what compels me…if these were things that happened immediately, if people could set these up with all the regulations that we've set up; if these could be set up in the year that we create this– but it doesn't happen that way. It takes a long time. We set up strict guidelines. So I just can't put this…it's hard for me to accept that we would act on one and not on another and put this off so that it would be three years before we address this, leaving this illegal path for people to acquire something cheaper. And I can't be accepting of that without at least advocating on behalf of the citizens of Western New Hampshire. Thank you, Mister President.

(The Chair recognized Senator Sanborn.)

SENATOR SANBORN: Thank you, Mister President. Mister President, I rise with cautious optimism and cautious support and ask the body to consider the amendment because I happen to agree with my good friend from Keene that forcing people to travel long distances is difficult. But he brings up another point that I think is equally important that this body needs to consider in the future. He talks about the fact that people are finding it necessary to go buy marijuana, weed, dope on the street because of the inconvenience of having to drive two and a half to three hours. The truth is my concern continues to be that of a government imposed monopoly. You know we know today that they're charging $450 or $600 or $800 an ounce, in some cases; across the country look at what's being charged. And an ounce on the street in the black market is $130 to $230. So just a government regulation itself, not just an addition to the travel, is showing what getting government involved in products actually does to people. So while I am supportive of people having access, and as the Senator probably doesn't know I've been involved in this bill since the day it came out, I think with Senator Forsythe. I think this body needs to be concerned long term as to whether or not we're establishing a monopoly with a single or just a couple of players and allowing that monopoly to charge what some would consider be a significantly over market prices for a product. Thank you, Mister President.

(The Chair recognized Senator Carson.)

SENATOR CARSON: Thank you, Mister President, and thank you for recognizing me to speak again. I'd like to remind everybody about the process that these companies go through. They have to get a local yes; the locals have to decide yes, we will allow this into our community. And Temescal Wellness, the company that's located in geographic area 3, they made the business decision to try to locate in Lebanon. I would hope that as a business they looked at that entire district about where they could be located that would better serve all the people within that district.

They chose Lebanon and the city of Lebanon accepted them. The people of Lebanon accepted them. Mister President, I don't want to open the door to having 10, 15, 20 of these satellites everywhere, or these new clinics everywhere; that is not the intent of the program that was passed. That is why this is being done on a case to case basis. A decision was made about that process and how long it was going to take that was done a few years ago, and it has worked. We are opening the door and we are saying okay, we realize there's a problem in one area; that is what we had in front of us; and we decided okay this makes sense, put another dispensary up in that area to serve that population. We need to be very, very, very careful. Either that, Mister President, somebody file a bill and study the whole thing all over again and come up with an alternative method. This is working. This is working. Thank you very much, Mister President.

(The Chair recognized Senator Hennessey for a question of Senator Sanborn.)

SENATOR HENNESSEY: I'm just curious–a couple things, two issues in one question. First of all, I'm interested in your calculations around a monopoly because my understanding is that we have three out of four that are owned by the same person right now, which is 75 percent. And if we end up with four out of six don't we have 66 percent?

SENATOR SANBORN: Senator, thank you for the question. And I think the statement was five and one, and if you remember my response was a monopoly or darn near close to it. As obviously we also need to look at the proportion of the population, not just the single location themselves. But five out of six would be very close, and it would be my concern if we're walking the path of having too few distributors for the people we have, which could lead to price fixing.

SENATOR HENNESSEY: I guess we heard something different because I heard that we would then, with the addition of the one that would be in Keene, would be four out of six would be owned by Temescal.

SENATOR SANBORN: And that would be my apologies. I thought it would be five and one.

SENATOR HENNESSEY: Thank you.

(The Chair recognized Senator Giuda.)

SENATOR GIUDA: Thank you, Mister President. I rise in support of this amendment. A business person is not going to look at what's best; he's going to look at where the concentration is of expectation of purchases. We have a policy that's been passed by the state that says we're going to distribute medical marijuana to people, and by restricting these facilities to distances we're in fact working against the espoused policy of the state. For someone to have to travel three hours is de facto, overriding the policy that we've set as state law. It is already and accepted and approved that the medical marijuana is a valuable and viable part of treatment for people, veterans, others who have cancers, eye problems, glaucoma, all of these things. So, we're not going to debate a policy, but we're doing that by saying we can't spread out the number of distribution centers. We are de facto working against the established policy of the state, and so for that reason and for the reason that we owe these people who have been given, okay, the right to purchase a righteous opportunity to be able to purchase, and to fail to do so actually is overruling the policy you've set as a state. I would ask you to pass this amendment, and I thank you, Mister President.

PRESIDENT MORSE: I just want to remind the Senators that committee work started six minutes ago.

(The Chair recognized Senator Lasky.)

SENATOR LASKY: Thank you, Mister President. I will try to be brief. I am in favor of medical marijuana. I was when it first came through; I forget whether I was in the House or the Senate when the bill came through. It was, as you can imagine, a difficult job to do. And a committee met for many years after that to establish the right parameters and make it palatable to everyone and get the best possible working of this bill for people that are in need of medical marijuana. If any of you, and I urge you to go to one of these dispensaries. It's not a, you know, okay give me your nickel and I'll give you a nickel bag, and, you know, whatever. It is run by extremely qualified people who are like physicians. They know–and I was totally impressed, and I've been to one in Colorado, and been to the one here–that they know what they're doing. Every patient is treated as a patient and it is a singular thing. These are not easy to just say whether it's a dispensary or just somebody giving it out. It's not just done willy-nilly. I urge you to–I'd like to see more, but it takes time and it has taken time to get to this stage, and I believe that, you know, again, as much as I'd like to see them probably, you know, in every city or town, I think we need to go slowly.

The other issue is these can't be run by just anyone. So, it's a very specialized field. It's a very specific field and as, again, as much as I think the Senator from District 10 has some valuable concerns, as do every one of us who have people that are on medical marijuana. But I do believe that the committee has looked at it, and the Chairman has spent a good deal of time talking with the right people about getting this, if we move forward, getting it done right. So I urge you to vote down this amendment and vote for the committee. Thank you.

(The Chair recognized Senator Innis.)

SENATOR INNIS: Very quickly, a retort to the Senator from District 2 and his comment, but I would also caution the Senate that each of these, because of their locational constraints, are effectively monopolies; and with a monopoly comes pricing power and control of supply. And I think the Senate should be very mindful of that going forward. Thank you, Mister President.

The question is on the adoption of the Floor Amendment.

A roll call was requested by Senator Kahn, seconded by Senator Giuda.

The following Senators voted Yes: Giuda, Watters, Hennessey, Sanborn, Kahn, Feltes, Cavanaugh, Reagan, Soucy, D'Allesandro, Fuller Clark, Innis.

The following Senators voted No: Woodburn, Bradley, Gray, French, Ward, Daniels, Avard, Lasky, Carson, Birdsell, Gannon, Morse.

Roll Call, Yeas: 12 - Nays: 12. Failed.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to the Committee on Finance (Rule 4-5).

SPECIAL ORDER

Without objection, the following bills are special ordered to Thursday, March 15, 2018. Adopted.

JUDICIARY
SB 499, relative to the applicability of certain DWI prohibitions.
HB 287, establishing a committee to study decriminalizing sex work.

(The Chair recognized Senator Gray.)

SENATOR GRAY: Mister President, I would ask that House Bill 1278 be special ordered for one additional week to resolve an issue. The Farmington selectmen won't meet until after that date, the 15th.

SPECIAL ORDER

Without objection, the following bill is special ordered to Thursday, March 22, 2018. Adopted.

TRANSPORTATION
HB 1278, naming the rest area in Colebrook after Frederick W. King, Sr.

MOTION TO ADJOURN FROM EARLY SESSION

Senator Bradley moved that the Senate adjourn from the Early Session, that the business of the Late Session be in order at the present time, that all bills and resolutions ordered to Third Reading be, by this resolution, read a third time, all titles be the same as adopted, and that they be passed at the present time.

Adopted. Adjournment from the Early Session.

LATE SESSION

LIST OF RULE 6-25'S FOR THE DAY

Senator Sanborn: SB 318, SB 388, SB 423, SB 446, SB 463-FN, SB 475, SB 499, SB 525-FN, SB 540-FN, SB 546-FN, SB 553-FN, SB 568-FN, SB 581-FN, SB 582-FN, SB 590-FN-A, SB 592-FN-A, HB 287, HB 1278
Senator Soucy: SB 553-FN

LATE SESSION

Third Reading and Final Passage

SB 446, relative to net energy metering limits for customer-generators.
SB 475, relative to testing for Lyme disease.
SB 540-FN, relative to the counting of kindergarteners for "average daily membership in attendance" and relative to the operation of keno games in unincorporated places.
SB 546-FN, relative to purchasing alliances.
SB 581-FN, relative to compounding of drugs.

MOTION TO RECESS TO CALL OF THE CHAIR

Senator Bradley moved that the business of the day being completed, that the Senate recess to the Call of the Chair for the purposes of introducing legislation, referring bills to committee, scheduling hearings, sending and receiving messages, and processing enrolled bill reports and amendments and when we recess, we recess to the Call of the Chair.

Adopted. The Senate is in recess to the Call of the Chair.

REPORT OF COMMITTEE ON ENROLLED BILLS

The committee on Enrolled Bills has examined and found correctly Enrolled the following entitled House and/or Senate Bills:

SB 215-FN, permitting the university system of New Hampshire and the community college system of New Hampshire to participate in the state health insurance plan.

Senator Avard moved adoption of the Report of Committee on Enrolled Bills. Adopted.

Out of Recess. Call the Senate to Order.

MOTION TO ADJOURN FROM LATE SESSION

Senator Bradley moved that the Senate adjourn from the Late Session. Adopted. Adjournment from the Late Session.

March 15, 2018

The Senate reconvened at 10:00 a.m., a quorum being present.

The Reverend Jon Hopkins, chaplain to the Senate, offered the following prayer:

Let us pray.

God we give you thanks for giving us another day. We use this moment to be reminded of your presence and to tap the resources needed by the members of the New Hampshire State Senate, to do their work as well as it can be done. May they be led by a spirit of wisdom, justice and peace in the decisions they make. May they be spared from any tensions that might tear the people's legislature apart and from worries that might wear them out. All this day, may they do their best to find solutions to pressing issues facing our state. Please hasten the day when justice and love shall dwell in the hearts of all people and rule the affairs of the nations of earth. May all that is done this day be to serve the people of New Hampshire so that we all might prosper in life, liberty and the pursuit of happiness. Amen.

Senator Ward led the Pledge of Allegiance.

MOTION OF RECONSIDERATION

Senator Woodburn, having voted on the prevailing side, moved to reconsider the following action taken by the body on SB 388, relative to dispensary locations for therapeutic cannabis.: Rescind Order to the Committee on Finance, Reconsider the vote on Ought to Pass as Amended, Reconsider the vote on Senator Kahn's Floor Amendment 2018-1086s. Adopted.

JUDICIARY
SB 388, relative to satellite dispensaries for therapeutic cannabis.

Senator Woodburn moved Floor Amendment 1086s.

Sen. Kahn, Dist 10
Sen. Reagan, Dist 17
March 13, 2018
2018-1086s
01/04

Floor Amendment to SB 388

Amend the bill by replacing sections 1 and 2 with the following:

1 New Paragraph; Use of Cannabis for Therapeutic Purposes; Departmental Rules. Amend RSA 126-X:6 by inserting after paragraph III the following new paragraph:

IV. The department may adopt rules regarding the establishment of a second dispensary location by the alternative treatment centers described in RSA 126-X:7, X including, but not limited to, fees, operational requirements, and geographic location.

2 New Paragraph; Use of Cannabis for Therapeutic Purposes; Dispensary Locations. Amend RSA 126-X:7 by inserting after paragraph IX the following new paragraph:

X. If the department determines that having additional locations for the dispensing of therapeutic cannabis is necessary to adequately and effectively meet the needs of qualifying patients and designated caregivers, the department may authorize the alternative treatment center allowed to operate in the geographic area that includes Carroll, Coos, and Grafton counties, not including the town of Hanover and the city of Lebanon in Grafton county, to establish a second dispensary location within that same geographic area. In addition, the department may authorize the alternative treatment center allowed to operate in the geographic area that includes Cheshire and Sullivan counties and the town of Hanover and the city of Lebanon in Grafton county to establish a second dispensary location within that same geographic area. A second dispensary location shall only be established in a geographic location approved by the department, shall be limited solely to the dispensing of cannabis and educational efforts, and shall not be used for cultivation or other activities relative to the production of cannabis. A second dispensary location shall be subject to rules adopted by the department under RSA 126-X:6, III, and any additional rules adopted by the department relative to a second dispensary location under RSA 126-X:6, IV, and all applicable provisions of this chapter relative to alternative treatment centers including, but not limited to, compliance with local zoning laws. The department shall, in conjuction with the local governing body of the town or city where the second dispensary location would be located, solicit input from qualifying patients, designated caregivers, and residents of the town or city in which the second dispensary location would be located.

2018-1086s

AMENDED ANALYSIS

This bill authorizes the department of health and human services to establish a second dispensary location in the geographic area that includes Carroll, Coos, and Grafton counties, for therapeutic cannabis. This bill also authorizes the department of health and human services to establish a second dispensary location in the geographic area that includes Cheshire and Sullivan counties.

PRESIDENT MORSE: Senator Kahn would you like to speak to that Floor Amendment before we revote? No?

(The Chair recognized Senator Carson.)

SENATOR CARSON: Thank you, Mister President. I'd just like to reiterate a couple of things about this because we talked about this at length yesterday. I'd like to point out a couple of things. First of all, the committee had no testimony whatsoever about the need for what was originally conceived to be a satellite; we didn't even know what the satellite was or what it was going to look like; there were no provisions for satellites. In meetings with Mister Holt it was decided that the need was great in the North Country, and so we were going to put one more full dispensary in the North Country. Now we have an amendment for one down in the Keene area.

Mister President, we don't even know if the Temescal, which has the clinic in that area, even wants to put one in here. We talk about being pro-business and the government should stop telling the businesses what

to do, but this amendment tells Temescal you will put one in this area. We don't even know if they can. I would imagine when they did their analysis of where the population was going to be, they chose Lebanon for a reason. And now we are telling them you will put one in the Keene area.

Mister President, we should not be in the business of telling business owners where they have to put their businesses. I know this deals with medicinal marijuana, and we all know, and we all agree that there were going to be four geographic areas with one clinic in each area. But the circumstances in the North Country are truly, really beyond the pale. These folks really have to travel a very long distance to get their medication. We had no evidence, no testimony, no nothing from anybody in any other geographic area in the state and I am very concerned about what we are doing with this amendment today.

So I'm going to ask everyone to please vote down amendment 1086s, just as we did yesterday, and thank you very much, Mister President.

(The Chair recognized Senator Kahn.)

SENATOR KAHN: Thank you, Mister President. You know we're here because we represent our constituents. I've heard from my constituents. I'm sorry my constituents weren't as vocal at a hearing. The bill started out wide; it got very narrow. And Mister Holt, you know, we shouldn't throw the guy under the bus. He said if there was then another one to be had it would be in the region that is currently represented by Lebanon and where people have to drive two hours from Hinsdale. I'll tell you last night it was a bad two hour drive. I think this meets the needs of the people of the state, it meets the needs of the people of the people in my region. And, this isn't something just to put it off, let's have another hearing; this is putting it off for two years, and I'd like to see that this got addressed in a faster manner. I appreciate Senator Woodburn bringing this back up. I know he feels badly about his vote yesterday. I think if we remember the testimony from yesterday I don't need to say anything more. I think this body had the collective will to want to proceed and ask the Finance Committee to pass that there be two dispensaries. I sure hope that we do this today. I wouldn't have brought this forward if I thought anything other than this is in the best interests of people in Western New Hampshire. Thank you very much, Mister President.

(The Chair recognized Senator Giuda.)

SENATOR GIUDA: Thank you, Mister President. I rise in support of Floor Amendment 1086s. There's nothing in this amendment that mandates that a business do anything. It allows the department to analyze and to see if there's a need; and if there's one, to establish a satellite dispensary. There's no mandate to business. It also requires permission of the community. So all the stipulations that were in the original law remain. All this does is say we're not going to insert ourselves as a means to try to stop the public policy that's been approved by the legislature and signed by the Governor. There are people who are in such bad shape they can't drive two hours, okay, or three hours, or at night. And so the point is, what's the point of the medical marijuana? It's to help somebody that has a defined, doctor recognized problem that meets the criteria to serve their medical need. And I'm just astounded that we consider saying no, we're not going to facilitate the ability of people, many of whom cannot travel, many of whom are scared of traveling, many of whom are injured, to say too bad. That's veterans, that's friends of mine, I'm sure it's friends of yours; that's people with glaucoma, that's people with

cancer. To insert ourselves into the realm that says we're going to, with a maneuver, stop your ability to access that which you're lawfully entitled to get, fully under the cognizance of the state, fully under the control of the state, fully with the permission of the community; I think we do ourselves un-proud in that case. Thank you, Mister President.

(The Chair recognized Senator Reagan.)

SENATOR REAGAN: Thank you, Mister President. I rise as the Senate member of the Cannabis Advisory Council, and this helps relieve a problem that we see every time we meet with lack of availability. In the original bill we argued for caregivers to be able to serve as many people as they chose to care for, but due to resistance by the Chiefs of Police Association we severely limited the care givers and caused all this awkward strain on already ill people trying to obtain legally recommended cannabis to treat and avoid the use of opioids. So, on behalf of the Council, I encourage passage of this amendment and passage of the bill.

(The Chair recognized Senator Carson.)

SENATOR CARSON: Thank you, Mister President. Again I rise to remind all of you we had no testimony, nothing, nothing about the need for an additional dispensary out in Sullivan County; nothing, absolutely nothing. We're going to make a decision based on not having any testimony. As the Chair of the committee I did not receive one phone call, one e-mail, no letters from anybody who lives in this area asking for an additional dispensary in that area. Nothing. I think we need to really, really think about this. I have made a commitment to my good friend from Senate District 10 that if he was to take this amendment and bring it to the House that I will work with him and the committee to get that additional location. I just cannot see us voting on something where we have had no testimony. Nothing. No testimony from the owner of the clinic in that area. No testimony from any constituents. Nothing. I think we need to be really careful here with what we're doing, and really think about it. And again, I will remind you, I have made the commitment to the Senator from District 10 that I will work with him when this bill gets over to the House. Thank you very much, Mister President.

(The Chair recognized Senator Giuda.)

SENATOR GIUDA: Thank you, Mister President. I would much rather send a complete package over to the House, which I believe would probably pass, than get into the situation where we're going back and forth with concur and nonconcur and committees of conference potentially; send the bill over, there's no harm. All the laws currently in place remain in place. With respect to the fact that there was no testimony, it was Edmund Burke that said, "Our people elect us not only for our industry but for our judgment as well." And if you think that restricting the ability of veterans, and people with cancer, and blind people, and glaucoma and so forth is good judgment when the law has already been passed allowing the dispensation of medical marijuana throughout this state, I think we do ourselves as a body, I think we do our suffering people a disservice, and I think we do the state a disservice. Thank you, Mister President.

The question is on the adoption of the Floor Amendment.

A roll call was requested by Senator Avard, seconded by Senator Carson.

The following Senators voted Yes: Woodburn, Giuda, Watters, Hennessey, Sanborn, Kahn, Feltes, Cavanaugh, Reagan, Soucy, D'Allesandro, Fuller Clark, Innis.

The following Senators voted No: Bradley, Gray, French, Ward, Daniels, Avard, Lasky, Carson, Birdsell, Gannon, Morse.

Roll Call, Yeas: 13 - Nays: 11. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to the Committee on Finance (Rule 4-5).

INTRODUCTION OF GUESTS

(The Chair recognized Senator Gray.)

SENATOR GRAY: We have with us today some of the brightest and the best students in the state of New Hampshire. The Henry Wilson Memorial School in Farmington, New Hampshire. I've given them a homework assignment. The homework assignment is that when they turn eighteen, what are you supposed to do? Vote. Vote. Thank you for coming. Thank you all.

REGULAR CALENDAR

EXECUTIVE DEPARTMENTS AND ADMINISTRATION
SB 323, relative to rehiring of laid off classified state employees.
Ought to Pass, Vote 4-0. Senator Cavanaugh for the committee.

SENATOR CAVANAUGH: Thank you, Mister President. I move Senate Bill 323 Ought to Pass. The intent of this legislation is to give preference for employment of laid off classified state employees. The legislation states if possible, if a state employee's laid off and said person is not currently employed by the state of New Hampshire, and if he or she meets the minimal qualifications for the position and does not receive a promotion as a result of the rehire, such promotion should be filled by the state employee who has been laid off. This rehire provision fills a vacant funded position that other agencies are trying to fill with a state employee recently laid off. The language in this legislation is needed in order to allow a qualified employee who is laid off, hiring preference in different agencies. The ED&A Committee voted 4-0 Ought to Pass and asks for your support in its passage. Thank you, Mister President.

The question is on the adoption of the motion of Ought to Pass. Adopted, bill ordered to Third Reading.

SB 373, requiring rulemaking by the department of corrections.
Ought to Pass with Amendment, Vote 4-0. Senator Cavanaugh for the committee.

Senate Executive Departments and Administration
March 7, 2018
2018-0995s
05/10

Amendment to SB 373

Amend the bill by replacing all after the enacting clause with the following:

1 Department of Corrections; Powers and Duties of Commissioner; Rulemaking. Amend the introductory paragraph of RSA 21-H:8, III to read as follows:

III. The commissioner shall adopt***, as rules under RSA 541-A,*** such reasonable internal practices and procedures, [~~which shall not be considered rules subject to the provisions of RSA 541-A,~~] ***except for security protocols,*** as may be necessary to carry out the duties ***and programs*** of the department and its divisions, consistent with this chapter. These procedures shall include at least the following elements:

2 Department of Corrections; Powers and Duties of Commissioner; Rulemaking. Amend RSA 21-H:8, XI to read as follows:

XI. The commissioner and the commissioner of the department of health and human services shall jointly establish procedures for sharing data, at least in the aggregate, on delinquents and offenders for purposes of correctional planning and needs assessments. These procedures shall not be considered rules subject to RSA 541-A***, but shall be subject to RSA 91-A,*** and shall be established so as to ensure compliance with state and federal confidentiality and privacy laws.

3 Behavior of Inmates. Amend RSA 21-H:14 to read as follows:

21-H:14 Behavior of Inmates. The commissioner shall establish written standards regarding the behavior and responsibilities of inmates. These standards shall be made available to all such inmates and shall be considered public records. These standards shall [~~not~~] be considered rules**,** subject to the provisions of RSA 541-A***, unless the standards are needed on an emergency basis, in which case they shall be exempt from the rulemaking requirements of RSA 541-A***.

4 Sentences and Limitations; Home Confinement. Amend RSA 651:2, V(e) to read as follows:

(e) The department of corrections [~~and the various county departments of corrections~~] shall adopt rules ***pursuant to RSA 541-A*** governing eligibility for home confinement, intensive supervision**,** and special alternative incarceration programs.

5 Repeal. RSA 541-A:21, I(aa), relative to the rulemaking exemption for internal practices and procedures of the department of corrections, is repealed.

6 Effective Date. This act shall take effect one year after its passage.

2018-0995s

AMENDED ANALYSIS

This bill revises certain rulemaking requirements for the department of corrections.

SENATOR CAVANAUGH: Thank you, Mister President. I move Senate Bill 373 Ought to Pass with Amendment. This legislation removes rulemaking exemptions under the Administrative Procedure Act for the Department of Corrections and requires various policies and procedures of the agency to be adopted by rules. The bill, as amended, trims down sections and focuses on three core sections; general rulemaking provision, provisions relating to the work with the Department of Health and Human Services, and behavior of inmates. The legislation states the commissioner shall adopt, as rules under RSA 541-A, such reasonable internal practices and procedures, except for security protocols, as may be necessary to carry out the duties and programs of the department. The ED&A Committee voted 4-0 Ought to Pass with Amendment and asks for your support in its recommendation. Thank you, Mister President.

The question is on the adoption of the Committee Amendment. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to Third Reading.

SB 455, relative to state employees injured in the line of duty.
Ought to Pass, Vote 4-0. Senator Carson for the committee.

SENATOR CARSON: Thank you, Mister President. I move Senate Bill 455 Ought to Pass. This legislation exempts from public disclosure the details of an injury sustained by a state employee in the line of duty

and was requested by the Department of Health and Human Services in consultation with the New Hampshire Department of Justice. Statute states, that if an injury received by any state employee in the line of duty by either a hostile act, or by an act caused by another during the performance of their duties which are considered to be dangerous, and the employee is temporarily unable to perform their duties, such employee shall remain on active payroll and shall not be charged against annual or sick leave. This bill specifically states, the employee's name and details of the injury shall be exempt from public disclosure pursuant to RSA 91-A:5, IV (Records pertaining to internal personnel practices). The ED&A Committee voted 4-0 Ought to Pass and asks for your support in its passage. Thank you, Mister President.

(The Chair recognized Senator Giuda for a question of Senator Carson.)

SENATOR GIUDA: Thank you, Senator. Does this in any way impact accident investigations, would it make things difficult for insurance companies or investigating agencies as far as disclosure of names and so forth?

SENATOR CARSON: No. This deals with releasing the person's name to the public. Accident investigations and insurance, they're very different. But this is about publishing their names in the newspaper. Which is what a case that we were given.

SENATOR GIUDA: Thank you very much.

SENATOR CARSON: You're welcome.

The question is on the adoption of the motion of Ought to Pass. Adopted, bill ordered to Third Reading.

SB 458, authorizing the purchase of retirement system creditable service by a certain surviving spouse.
Ought to Pass, Vote 3-1. Senator Carson for the committee.

SENATOR CARSON: Thank you, Mister President. I move Senate Bill 458 Ought to Pass. This bill will allow for the election, by a surviving spouse of the Group II Retirement System, to purchase up to one month of credible service. In recognition of prior military service and nearly 10 years of service in the Group II Retirement System, the surviving spouse of Officer Matthew L. Moore, a police officer who died January 23, 2016, may purchase up to one month of service, as credible service on behalf of Matthew L. Moore in order to receive his death benefit. The ED&A Committee recommends Ought to Pass and asks for your support in this recommendation. Thank you, Mister President.

(The Chair recognized Senator Birdsell.)

SENATOR BIRDSELL: Thank you, Mister President. This is a piece of legislation that I put in for the family of Officer Matt Moore from Hampstead. Terri, his wife and his two daughters McKenna and Brynn. Matt Moore was a marine veteran. He joined the Marine Corps in 1996 and took part in the invasion of Iraq in 2003. He later became a police officer in Sandown, Pelham and Hampstead. While serving as a Hampstead police officer in the fall of 2014, Officer Moore was diagnosed with stage III brain cancer and he and his family fought a courageous battle but in January of 2016 they lost the battle and Matt passed away. The reason for the legislation is Officer Matt Moore had a total of 9.91 years of service as a police officer. One month shy of the ten years needed to be vested. If Officer Matt Moore were vested his family would be eligible for a portion of his pension. However since he is not, his family is only entitled to a one-time payment. We're trying to help Officer Moore's family by getting

him the additional credit so he can be vested. I discussed this with the chair of the Hampstead Selectmen and they are willing to contribute to the town's portion of what they would have owed and his wife, Terri is willing to pay out the contribution that Matt would have contributed. Therefore the retirement fund will be made whole. I ask you to please support Officer Matt Moore's family and vote Ought to Pass on Senate Bill 458. Thank you, Mister President.

The question is on the adoption of the motion of Ought to Pass. Adopted, bill ordered to Third Reading.

SB 459, relative to reciprocity for licensure as a real estate broker or salesperson.
Ought to Pass, Vote 3-1. Senator Carson for the committee.

SENATOR CARSON: Thank you, Mister President. I move Senate Bill 459 Ought to Pass. This legislation establishes statutorily, the ability for real estate brokers and salespersons to grant reciprocal licenses. The bill would provide for the licensure in this state for real estate brokers and salespersons holding a license in good standing from another jurisdiction and who qualify for licensure. The ED&A Committee voted 3-1 Ought to Pass and asks for your support in their recommendation. Thank you, Mister President.

(The Chair recognized Senator Cavanaugh.)

SENATOR CAVANAUGH: Thank you, Mister President. I was the no vote on this. The reason is we do have reciprocity agreements right now with Massachusetts, Maine and Vermont. And they do have pre-licensing agreements that they can waive, which is the forty hours they have to take. And I just feel it hasn't been offered by the commission, the Real Estate Association I should say, and I don't really think there's a need for this. So, thank you, Mister President.

(The Chair recognized Senator Kahn.)

SENATOR KAHN: Thank you, Mister President. I've had constituents talk with me about this. They are licensed brokers and agents. Here's their case: I have a property I'm selling and I have an interest from somebody from out of state. They want to be represented by a friend who has no license in the state of New Hampshire, has no intent to be licensed in the state of New Hampshire, but wants to be a party to that transaction. I believe that this bill gives that person the opportunity after they've disclosed to all parties I'm not licensed in New Hampshire, but I'm representing my client to then draw the brokers agents partial commission on that sale. That seems to New Hampshire licensed agents to be something they don't have the privilege to do when they go to other states. Why would we then be dividing the business share of income with people from out of state that have no intent or license to practice in the state of New Hampshire? That's the way it's been explained to me. If I've got this wrong, so be it, please let me know, but if I've got this, if they've explained this right, represented it right, then I think that this is probably a bad amendment, something that I'd be voting against. Thank you, Mister President.

(The Chair recognized Senator Carson.)

SENATOR CARSON: Thank you, Mister President. I'd like to point out to the body that this bill is a result of an LBA audit, that this wasn't language that somebody just sat down and drew up on their own. Our good friend from Senate District 2, this is his bill and but this is also a

housekeeping bill. So if you look at the testimony that the Real Estate Commission, they were neutral, the realtors were neutral on this legislation. So again, I'd just like to point out, this is the result, one of the results from an LBA audit, and I think that that carries a lot of weight. Thank you very much, Mister President.

(The Chair recognized Senator Daniels for a question of Senator Carson.)

SENATOR DANIELS: Earlier this year we passed a bill, actually an amendment, to a licensing bill that took all occupations into reciprocity with all states. How does this work with that?

SENATOR CARSON: I would imagine that it would, could work together with that bill, I believe you're talking about Senate Bill 334. It could work together. I don't see them as being opposed to each other, but this legislation specifically came out of an audit. And as I said I think that carries a lot of weight.

SENATOR DANIELS: Would the passage of that other amendment satisfy the results of that audit?

SENATOR CARSON: Thank you, Senator. I don't think there's any guarantee that anything is going to pass, so I don't have a problem in sending two bills on the same subject matter to the House for them to consider.

SENATOR DANIELS: Thank you.

The question is on the adoption of the motion of Ought to Pass. Adopted, bill ordered to Third Reading.

SB 461, relative to continuing education for real estate brokers and salespersons.
Ought to Pass with Amendment, Vote 4-0. Senator Carson for the committee.

Senate Executive Departments and Administration
March 7, 2018
2018-0996s
10/05

Amendment to SB 461

Amend the bill by replacing sections 1 and 2 with the following:

1 Real Estate Practice; Continuing Education Requirements. Amend RSA 331-A:20, II(a) to read as follows:

(a) Continuing education [~~3-hour core courses~~] ***of 6 hours of total core coursework*** shall cover, but not be limited to, changes in state and federal laws dealing with real estate brokerage, housing, financing of real property and consumer protection as well as changes in state enabling laws dealing with zoning and subdivision practices. The core courses shall be designed to assist the licensee in keeping abreast of changing laws, rules and practices which will affect the interest of the licensee's clients or customers.

2 Rulemaking; Continuing Education; Topics. Amend RSA 331-A:25, IX to read as follows:

IX. A minimum of [~~a 3-hour core course of~~] ***6 hours of total core coursework in*** continuing education for active and inactive license renewal, and an additional [~~12~~] ***15*** elective hours of continuing education for active license renewals. ***The initial 15 hours of continuing education for salespersons prior to their first license renewal shall be established by the commission in specified topics or courses related to the salesperson's practice.***

SENATOR CARSON: Thank you, Mister President. I move Senate Bill 461 Ought to Pass with Amendment. This bill was brought forward as a result of a collaborative effort between the New Hampshire Association of Realtors and the New Hampshire Real Estate Commission. The legislation, as amended, makes three changes relating to continuing education; it increases the required "Core Course" from 3 hours every 2 years, to 6 hours every two years; it increased the total number of elective continuing education classes from 12 to 15; and, it requires the Commission to specify topics or courses which a licensee would need to take prior to their first renewal. This brings New Hampshire more in line with nationwide requirements for a real estate licensure. The ED&A Committee voted Ought to Pass with Amendment and asks for your support. Thank you, Mister President.

The question is on the adoption of the Committee Amendment. Adopted.

(The Chair recognized Senator French.)

SENATOR FRENCH: Thank you, Mister President. And for the record I am a thirty-four year licensed real estate broker in the state of New Hampshire. This bill raises the amount of continuing education, making us take, or the brokers take, and the sales people take six hours more every two years of continuing education. Six. I believe it raises the core to six hours from three to six every two years. And the others twelve to fifteen in electives. That's how I read it. Any additional studies for us is unreasonable. I have talked to my parents and they told me to kill this bill, too. They're eighty-seven years old, they're still active real estate brokers in the state. These courses aren't free. They have to pay for them. And if you take a six hour course or a three hour course guess what, it takes up your entire day. They're spending and I'm spending with twenty-one hours, I'm spending three days of my life listening to these classes where you just get pizza and Pepsi at the end. So I really ask this body to vote down this bill with the amendment. Thank you, Mister President.

(The Chair recognized Senator Giuda for a question of Senator Carson.)

SENATOR GIUDA: Thank you Senator, for taking my question. I, being Italian enjoy pizza. That said, I would ask is there some compelling reason that our realtors are being found short? Are they not measuring up to some standard, or are we just trying to raise the number of hours to comply with some national metric that says this is what we should have? Is there a problem that we should require more training?

SENATOR CARSON: Thank you for the question, Senator. I think with every job there are always changes, new laws. How many laws do we pass in this body every year, every biennium that people need to be up to date on? And so I believe that the commission is arguing look, we need to educate our members, so they can be the best realtors in the state to be up to date on all the new laws, any new practices. Don't forget we just passed legislation talking about reciprocity with licensure. You want to make sure that if you have a realtor that's coming from Montana who wants to come in here in New Hampshire that there's a basic level that everyone is starting on the same foot from. So what it does is it raises New Hampshire and it, I just don't understand the problem of taking three additional hours. It's updating you, you are a professional. You want to be on top of your game, you want to be on top of all new laws, rules and practices. And I don't see that as an imposition and neither did the rest of the committee.

SENATOR GIUDA: Are we saying then that the existing continued education requirements are inadequate? Was there testimony to that effect?

SENATOR CARSON: I don't recall whether or not it was inadequate, but I think that our Real Estate Commission and our realtors are interested in being the very, very best that they can be and they want to ensure that if anybody buys property in the state of New Hampshire and deals with a realtor that they are getting the best and the most educated realtor.

(The Chair recognized Senator French for a question of Senator Carson.)

SENATOR FRENCH: Senator, you keep mentioning the word realtor. Do you realize that's a trade name to a specific group? And there are thousands of independent brokers such as myself and my mother and father who live in the state that aren't part of this realtor board or group and they do oppose this legislation?

SENATOR CARSON: Well, thank you for your comments, Senator. But no one contacted me or the committee to be in opposition. So we can only go by the testimony that we've heard.

SENATOR FRENCH: Thank you.

(The Chair recognized Senator Daniels for a question of Senator Carson.)

SENATOR DANIELS: Just for clarification, you mentioned three hours of continuing ed. I'm looking at the bill and it looks like it's three additional hours of core courses and three additional hours of electives. Is that not correct or am I reading that wrong?

SENATOR CARSON: Yes, there's three hours in the core course and they're requiring a total number of elective continuing education classes from twelve to fifteen.

SENATOR DANIELS: So is that six hours–

SENATOR CARSON: I would imagine, I don't know if the some of these continuing education classes, how they are classified. Whether these electives sometimes I would imagine be more or less. You might take one class that's worth three hours or three classes that are worth one hour. We didn't have that information in front of us.

SENATOR DANIELS: Okay, thank you.

The question is on the adoption of the motion of Ought to Pass with Amendment.

A roll call was requested by Senator Avard, seconded by Senator Giuda.

The following Senators voted Yes: Bradley, Watters, Gray, Ward, Lasky, Carson, Cavanaugh, Soucy, Birdsell, D'Allesandro, Gannon, Morse.

The following Senators voted No: Woodburn, Giuda, Hennessey, French, Sanborn, Kahn, Daniels, Avard, Feltes, Reagan, Fuller Clark, Innis.

Roll Call, Yeas: 12 - Nays: 12. Failed.

Senator Bradley moved to Lay on the Table SB 461. Adopted.

SB 466, relative to political activities of commissioners of state agencies. Inexpedient to Legislate, Vote 3-1. Senator Carson for the committee.

SENATOR CARSON: Thank you, Mister President. I move Senate Bill 466 Inexpedient to Legislate. The bill states, that if you are a commissioner in state government you may not hold a campaign for elective office, serve as an officer of a political party or political committee, or act as a lobbyist. The language in this bill was questioned in committee

because it indicated that a commissioner could not use his or her own money to donate to a political campaign; that commissioners come before standing committees and provide testimony on legislation, which could be construed as acting as a lobbyist, and the legislation would forbid a commissioner from going to any kind of an activity and speaking. This legislation targets a true freedom of speech concern. The ED&A Committee voted Inexpedient to Legislate and asks for your support in their recommendation. Thank you very much, Mister President.

(The Chair recognized Senator Woodburn.)

SENATOR WOODBURN: Thank you, Mister President. I rise in opposition to this recommendation, and would simply state that this bill says we certainly do have rights. You have rights of free speech but when you're in your office as a commissioner drawing a salary, the honor of representing impartially, the state of New Hampshire, being appointed by a Governor who cannot fire you, that you have a solemn responsibility to stay clear of partisan political activities. Do you believe the commissioner should be contributing to candidates? Do you believe they should be serving in political office? Do you believe they should be attending partisan political events? If your answer's no then let's vote against this. This is based on common sense. I mean our postal employees and the Hatch Act, which says you limit your political activity, you do not reward political activity, these are government jobs. This is all about transparency, it's all about making sure commissioners are appointed to serve every person in the state of New Hampshire regardless of their political party, regardless of their political ideology. It does not prohibit them from doing the good work that they do and while I may not agree with that particular direction, but that is the job of the commissioner regardless who the Governor is. And I would just say, this idea is based on other states; state of New York, state of New Jersey, where they prohibit that type of political activity by commissioners. So basic common sense, let's overturn this and not let politics get in the way of this.

(The Chair recognized Senator Birdsell for a question of Senator Carson.)

SENATOR BIRDSELL: Thank you for taking my question. Just as clarification, 98-E, freedom of expression, doesn't that allow state employees to give their expression?

SENATOR CARSON: Yes it does, Senator and thank you for reminding me because I've been to a number of events where there have been state employees picketing outside any event, voicing their opinion and their displeasure with things that we have done. And if we're going to do this, we should do it for everyone who works for the state.

SENATOR BIRDSELL: Is the commissioner considered an employee of the state?

SENATOR CARSON: I would imagine so. I think they serve at the pleasure of the Governor.

SENATOR BIRDSELL: Thank you.

(The Chair recognized Senator Giuda.)

SENATOR GIUDA: Thank you, Mister President. A commissioner can be removed. Clearly it takes an action of the Governor and Council, but a commissioner can be removed from office for cause. I'm not certain whether we don't have ethics rules in place already, and that might be a form of a question to ask but they are removable from office and it is

a freedom of speech issue and this is a conflict where we have an obligation to represent the entirety of the state and perform every duties without prejudice one way or the other versus your right to free speech. That's a question for the body to decide. Thank you, Mister President.

(The Chair recognized Senator Woodburn.)

SENATOR WOODBURN: Thank you, Mister President. I just want to make a clarification. It's my understanding that commissioners serve fixed terms and do not serve at the pleasure of the Governor. That is my understanding of the way things operate in New Hampshire.

(The Chair recognized Senator Carson.)

SENATOR CARSON: Thank you, Mister President. Point of clarification. I was just informed by Senate attorney that commissioners are considered to be employees of the state. Thank you.

The question is on the adoption of the motion of Inexpedient to Legislate.

A roll call was requested by Senator Fuller Clark, seconded by Senator Birdsell.

The following Senators voted Yes: Giuda, Bradley, Gray, French, Ward, Sanborn, Daniels, Avard, Carson, Reagan, Birdsell, Gannon, Innis, Morse.

The following Senators voted No: Woodburn, Watters, Hennessey, Kahn, Lasky, Feltes, Cavanaugh, Soucy, D'Allesandro, Fuller Clark.

Roll Call, Yeas: 14 - Nays: 10. Adopted.

PUBLIC AND MUNICIPAL AFFAIRS
SB 342, requiring written disclosure of certain default budget items during the deliberative session.
Ought to Pass with Amendment, Vote 4-0. Senator Gray for the committee.

Public and Municipal Affairs
March 7, 2018
2018-1009s
06/01

Amendment to SB 342

Amend the title of the bill by replacing it with the following:

AN ACT requiring identification of specific items in the default budget.

Amend the bill by replacing section 1 with the following:

1 Default Budget. Amend RSA 40:13, XI(a) to read as follows:

XI.(a) The default budget shall be disclosed at the first budget hearing held pursuant to RSA 32:5 or RSA 197:6. The governing body, unless the provisions of RSA 40:14-b are adopted, shall complete a default budget form created by the department of revenue administration to demonstrate how the default budget amount was calculated. ***The line item details for changes under subparagraph (2) shall be available for inspection by voters.*** The form and associated calculations shall, at a minimum, include the following:

(1) Appropriations contained in the previous year's operating budget;

(2) Reductions and increases to the previous year's operating budget ***including identification of specific items that constitute a change by account code, and the reasons for each change***; and

(3) One-time expenditures as defined under subparagraph IX(b).

2018-1009s

AMENDED ANALYSIS

This bill requires identification in the default budget of specific items that constitute a reduction or increase to the previous year's budget.

SENATOR GRAY: Thank you, Mister President. I move Senate Bill 342 Ought to Pass with Amendment. This bill as amended requires a school board, in a district that has adopted the official ballot referendum form of meeting, to provide written documentations identifying certain specific cost items in the default budget at the deliberative session. This documentation will specify details for changes in the default budget to allow for absolute transparency. The information will be made available for inspection to the voters at the budget hearing to help create a greater understanding of where the tax dollars are being spent. I would ask you to please support the committee's recommendation of Ought to Pass with Amendment on Senate Bill 342. Thank you Mister President.

The question is on the adoption of the Committee Amendment. Adopted.

Senator Daniels offered a Floor Amendment.

Sen. Daniels, Dist 11
March 7, 2018
2018-1014s
06/10

Floor Amendment to SB 342

Amend the title of the bill by replacing it with the following:

AN ACT requiring identification of specific items in the default budget.

Amend the bill by replacing all after the enacting clause with the following:

1 Use of Official Ballot; Default Budget. Amend RSA 40:13, IX(b) to read as follows:

(b) "Default budget" as used in this subdivision means the amount of the same appropriations as contained in the operating budget authorized for the previous year, reduced and increased, as the case may be, by debt service, contracts, and other obligations previously incurred or mandated by law, and reduced by one-time expenditures contained in the operating budget ***and by salaries of positions that have been eliminated***. For the purposes of this paragraph, one-time expenditures shall be appropriations not likely to recur in the succeeding budget, as determined by the governing body, unless the provisions of RSA 40:14-b are adopted, of the local political subdivision.

2 Default Budget. Amend RSA 40:13, XI(a) to read as follows:

XI.(a) The default budget shall be disclosed at the first budget hearing held pursuant to RSA 32:5 or RSA 197:6. The governing body, unless the provisions of RSA 40:14-b are adopted, shall complete a default budget form created by the department of revenue administration to demonstrate how the default budget amount was calculated. ***The line item details for changes under subparagraph (2) shall be available for inspection by voters.*** The form and associated calculations shall, at a minimum, include the following:

(1) Appropriations contained in the previous year's operating budget;

(2) Reductions and increases to the previous year's operating budget ***including identification of specific items that constitute a change by account code, and the reasons for each change***; [~~and~~]

(3) One-time expenditures as defined under subparagraph IX(b)***;***
and

(4) Appropriations contained in the previous year's operating budget minus salaries of positions that have been eliminated.

3 Effective Date. This act shall take effect 60 days after its passage.

2018-1014s

AMENDED ANALYSIS

This bill requires identification in the default budget of specific items that constitute a reduction or increase to the previous year's budget.

SENATOR DANIELS: Thank you, Mister President. There is currently a situation when people get confused when they see a default budget that is higher than the operating budget. One of the reasons that happens is that a community, whether it's a town or a school, may eliminate positions but because the statute currently says that the default budget is last year's budget, you could have let's say, that you had three employees with $150,000 worth of salary. Currently you're not allowed to take that $150,000 worth of salary out of the default budget because the statute says that it's last year's budget plus or minus other things. So what my amendment does is to say that in the calculation of the default budget, that it would be reduced by the salaries of those positions which have been eliminated. I brought this in to the committee during work session and at that time I had referenced one part of it which was down on the second part on how the default budget was built, neglected and overlooked the part that there was a definition of the default budget which you see under section 1 of the bill. DRA and Newton New Hampshire Municipal Association weighed in on this. The only comment that they had was that the discrepancy between the two parts. So the amendment before you brings that uniformly in so that reduction of those salaries for eliminated positions exists both in the definition and the building of the default budget. Thank you, Mister President.

(The Chair recognized Senator Kahn.)

SENATOR KAHN: Thank you, Mister President. The part of this that gives me pause is that it's emphasizing positions that have been eliminated and not giving consideration to those positions that might be added in the budget as well. So I obviously there are reallocations that happen, you eliminate some positions, you add some others for instance you might have a councilor position that vacates, and the need for an increased kindergarten class. It's just that's the kind of consideration I would hope takes place. I think one of the problems that we have here is that we ask our school boards, we expect our elected officials to pass operating budgets. When they don't pass, when we don't have an operating budget to pass, we have a default budget so that they continue to operate. The default budgets have guidelines. If you don't like the default budget then they should have worked to get an operating budget that the citizens would approve. So I'm just, I appreciate the way that the amendment was structured, the way that the bill is presented because its emphasis was on transparency. This begins to take the shape of doubting, or just taking a part of the budgets preparation about reduction without giving consideration to the other parts of the budget that should have been considered. And for that reason I just am not in favor of this amendment at this time, and I will be voting against it. Thank you, Mister President.

(The Chair recognized Senator Daniels.)

SENATOR DANIELS: Thank you, Mister President. The concerns of the good Senator from District 10 are taken into consideration because in the operating budget you would reflect that position that you are putting in. Thank you, Mister President.

(The Chair recognized Senator Kahn.)

SENATOR KAHN: Thank you, Mister President. It does not though, it takes into account that in the operating budget, I just heard my colleague from District 11 say, but it doesn't take it into account in the default budget. So now we're asking something of the default budget on deleting of positions and not giving consideration to what the operating budget would have done to reallocate those. It just, it seems like we've given view to one part of the budget development and the default budget but not to the other party, the operating budget development and that seems to disadvantage the way that schools ought to be operating, moving dollars to the areas of greatest need.

(The Chair recognized Senator Reagan.)

SENATOR REAGAN: Thank you, Mister President. There's confusion here about what budget we're talking about. So the amendment gives an honest picture of what the default budget is. And it's up to the budget writers to give an honest picture of what the operating budget is. So this eliminates some of the chicanery that goes on in municipal budgeting to mislead people and how they vote on their operating budget. So I would encourage people to pass this, having worked on town budgets, that this makes it a more honest deal.

Recess. Out of recess.

(The Chair recognized Senator Watters.)

SENATOR WATTERS: Thank you, Mister President and colleagues. I rise to speak against this amendment in light of what happened in one of my towns, in Rollinsford a couple of years ago when it failed to pass an operating budget and actually the default budget was a larger budget than the operating budget would have been but you know those things happen. I think the problem here is that what this says. Let's say during the year of the budget that you're under, somebody resigns and you decide to reallocate those funds to another area, this is what our budget committees do in our towns, right? They make these kind of adjustments during the year. So what this bill would say is that if that kind of thing happened we essentially are contravening or stripping away the authority of the budget committee in the towns that have made that kind of adjustment during the year and say no as a matter of fact, if you ever did a change where somebody left their position or changed the position during that year, sorry that's done and in effect you lose that money that you might have reallocated. So I just think it really intervenes in the town budget making authority in a way that we should not do. Thank you, Mister President.

The question is on the adoption of the Floor Amendment.

A roll call was requested by Senator Avard, seconded by Senator Daniels.
