**Second Year of the 167th Session of the
New Hampshire General Court**

Legislative Proceedings

SENATE JOURNAL

**ADJOURNMENT – MARCH 31, 2022 SESSION
COMMENCEMENT – APRIL 14, 2022 SESSION**

SENATE JOURNAL 7 *(continued)*

March 31, 2022

HOUSE MESSAGE

The House of Representatives has passed Bills with the following titles, in the passage of which it asks the concurrence of the Senate:

HB 1235-FN, relative to compensation paid to a crime victim.

HB 1237-FN, relative to the definition of cigar bar.

HB 1288, (New Title) relative to the terms for certain officers and the names, duties, and funds of certain divisions within the department of administrative services.

HB 1302-FN, relative to the weighing of vehicles.

HB 1339, relative to the Winnepesaukee River basin control replacement fund.

HB 1401, prohibiting the disclosure of the number of miles driven by a specific driver licensed by the state or vehicle registered in the state.

HB 1417-FN-LOCAL, relative to payment by the state of a portion of retirement system contributions of political subdivision employers.

HB 1462-FN, relative to motorcycle learner's permits.

HB 1469-FN, (New Title) relative to prohibited acts for banks, credit unions, and businesses.

HB 1496-FN, requiring political subdivisions to make voter checklists available in spreadsheet form to any resident.

HB 1526-FN, relative to income eligibility for in and out medical assistance.

HB 1531-FN-A, modifies the oversight commission on children's services.

HB 1535-FN, (NEW TITLE) relative to a one-time allowance for certain state retirees.

HB 1540-FN, relative to recording custodial interrogations.

HB 1547-FN, setting maximum contaminant levels for perfluorochemicals in the soil.

HB 1552-FN, establishing a board for the certification of assessors.

HB 1584-FN, establishing a capital improvement grant program for the benefit of state fairs and agricultural fairs.

HB 1587-FN-A, relative to determination of average final compensation under the retirement system and making an appropriation therefor.

HB 1598-FN, legalizing the possession and use of cannabis.

HB 1604-FN, including state medical facilities in the statute providing medical freedom in immunizations.

HB 1608-FN, (New Title) relative to withdrawal from the state immunization registry.

HB 1609-FN, (NEW TITLE) relative to certain provisions of the fetal life protection act requiring an ultrasound examination.

HB 1622-FN, relative to mental health parity.

HB 1624-FN-A, relative to students with disabilities participating in co-curricular activities and making an appropriation therefor.

HB 1627-FN-A, (NEW TITLE) establishing an education freedom account program administrator in the department of education and making an appropriation therefor, and relative to the school meals direct certification with Medicaid program.

HB 1647-FN, relative to the calculation of child support.

HB 1661-FN-LOCAL, (NEW TITLE) relative to regional career technical education agreements and relative to an appropriation for constructing a legislative parking garage.

HB 1662-FN, related to privacy obligations of the department of health and human services.

HB 1682-FN-A, establishing the law enforcement conduct review committee in the New Hampshire police standards and training council and making an appropriation therefor.

HOUSE MESSAGE

The House of Representatives concurs with the Senate in its amendments to the following entitled House Bills sent down from the Senate:

HB 102, (Second New Title) establishing a commission to study worldwide combined reporting method for unitary businesses under the business profits tax, and relative to the treatment of water or sewerage disposal utilities under the business profits tax.

HB 1063, (New Title) relative to the technical changes to the administration of certain taxes by the department of revenue administration and relative to county redevelopment district bonds for an unincorporated place.

INTRODUCTION OF LEGISLATION

Senator Bradley offered the following Resolution:

RESOLVED, That in accordance with the list in the possession of the Senate Clerk, the following legislation shall be by this resolution read a first and second time by the therein listed title and referred to the therein designated committee. Adopted in recess.

First and Second Reading and Referral

HB 1130-FN, relative to restroom access for persons with certain medical conditions. (Health and Human Services)

HB 1235-FN, relative to compensation paid to a crime victim. (Judiciary)

HB 1237-FN, relative to the definition of cigar bar. (Commerce)

HB 1288, relative to the terms for certain officers and the names, duties, and funds of certain divisions within the department of administrative services. (Executive Departments and Administration)

HB 1302-FN, relative to the weighing of vehicles. (Transportation)

HB 1339, relative to the Winnepesaukee River basin control replacement fund. (Finance)

HB 1401, prohibiting the disclosure of the number of miles driven by a specific driver licensed by the state or vehicle registered in the state. (Transportation)

HB 1417-FN-LOCAL, relative to payment by the state of a portion of retirement system contributions of political subdivision employers. (Executive Departments and Administration)

HB 1462-FN, relative to motorcycle learner's permits. (Transportation)

HB 1469-FN, relative to prohibited acts for banks, credit unions, and businesses. (Commerce)

HB 1496-FN, requiring political subdivisions to make voter checklists available in spreadsheet form to any resident. (Election Law and Municipal Affairs)

HB 1526-FN, relative to income eligibility for in and out medical assistance. (Health and Human Services)

HB 1531-FN-A, modifies the oversight commission on children's services. (Health and Human Services)

HB 1535-FN, relative to a one-time allowance for certain state retirees. (Executive Departments and Administration)

HB 1540-FN, relative to recording custodial interrogations. (Judiciary)

HB 1547-FN, setting maximum contaminant levels for perfluorochemicals in the soil. (Energy and Natural Resources)

HB 1552-FN, establishing a board for the certification of assessors. (Executive Departments and Administration)

HB 1584-FN, establishing a capital improvement grant program for the benefit of state fairs and agricultural fairs. (Energy and Natural Resources)

HB 1587-FN-A, relative to determination of average final compensation under the retirement system and making an appropriation therefor. (Executive Departments and Administration)

HB 1598-FN, legalizing the possession and use of cannabis. (Ways and Means)

HB 1604-FN, including state medical facilities in the statute providing medical freedom in immunizations. (Health and Human Services)

HB 1608-FN, relative to withdrawal from the state immunization registry. (Health and Human Services)

HB 1609-FN, relative to certain provisions of the fetal life protection act requiring an ultrasound examination. (Judiciary)

HB 1622-FN, relative to mental health parity. (Health and Human Services)

HB 1624-FN-A, relative to students with disabilities participating in co-curricular activities and making an appropriation therefor. (Education)

HB 1627-FN-A, establishing an education freedom account program administrator in the department of education and making an appropriation therefor, and relative to the school meals direct certification with Medicaid program. (Education)

HB 1647-FN, relative to the calculation of child support. (Judiciary)

HB 1661-FN-LOCAL, relative to regional career technical education agreements and relative to an appropriation for constructing a legislative parking garage. (Capital Budget)

HB 1662-FN, related to privacy obligations of the department of health and human services. (Health and Human Services)

HB 1682-FN-A, establishing the law enforcement conduct review committee in the New Hampshire police standards and training council and making an appropriation therefor. (Judiciary)

SENATE CLERK'S NOTE

There was a clerical error in regards to the new title from amendment #2022-0576h to HB 1531-FN-A as well as the new title from amendment #2022-1688h to HB 1673-FN.

The new titles are as follows:

HB 1531-FN-A, (Second New Title) repealing certain statutory commissions relating to children and relative to membership of the oversight commission on children's services.

HB 1673-FN, (New Title) relative to certain provisions of the fetal life protection act requiring an ultrasound examination.

REPORT OF COMMITTEE ON ENROLLED BILLS

The committee on Enrolled Bills has examined and found correctly Enrolled the following entitled House and/or Senate Bills:

HB 52, apportioning congressional districts.

HB 116, relative to personal delivery devices and mobile carriers.

HB 207-FN, repealing the regulation of household goods carriers.

Senator Avard moved adoption of the Report of Committee on Enrolled Bills. Adopted in recess.

REPORT OF COMMITTEE ON ENROLLED BILLS

The committee on Enrolled Bills has examined and found correctly Enrolled the following entitled House and/or Senate Bills:

HB 102, establishing a commission to study worldwide combined reporting method for unitary businesses under the business profits tax, and relative to the treatment of water or sewerage disposal utilities under the business profits tax.

HB 589-FN, requiring workers' compensation to cover prophylactic treatment for critical exposure

HB 1063, relative to the technical changes to the administration of certain taxes by the department of revenue administration and relative to county redevelopment district bonds for an unincorporated place.

HB 1427-FN, relative to membership on the speech-language pathology and hearing care provider governing board.

HB 1441, establishing a commission to organize the observance of the 250th anniversary of the declaration of independence.

Senator Soucy moved adoption of the Report of Committee on Enrolled Bills. Adopted in recess.

REPORT OF COMMITTEE ON ENROLLED BILLS

The committee on Enrolled Bills has examined and found correctly Enrolled the following entitled House and/or Senate Bills:

HB 398, making an appropriation to the department of environmental services for funding eligible wastewater projects.

HB 418, relative to supreme court reporting.

HB 457, relative to the meetings of the legislative youth advisory council.

HB 1016-FN, relative to licensing of speech-language specialists.

HB 1029, relative to the Claremont police commission.

HB 1062, relative to the duties of the electrology advisory committee.

HB 1074, relative to notice to a chartered public school of a special education services meeting.

HB 1228-FN, relative to recommendations of the joint committee on dedicated funds.

HB 1327, including diabetes in the conditions listed for eligibility for a service animal.

HB 1437-FN, relative to registration plates for antique farm tractors.

HB 1575-FN, relative to waiver of tuition in the university system and community college system.

Senator Avard moved adoption of the Report of Committee on Enrolled Bills. Adopted in recess.

Out of Recess. Call the Senate to Order.

MOTION TO ADJOURN FROM LATE SESSION

Senator Bradley moved that the Senate adjourn from the Late Session.

Adopted. Adjournment from the Late Session.

SENATE JOURNAL 8

April 14, 2022

The Senate reconvened at 9:00 a.m., a quorum being present.

The Reverend Mark Warren, Chaplain to the Senate, offered the following prayer:

Thank you, Mister President, and the Senate.

Let's Pray.

There'll be many people this weekend who will flood our churches. And those who hold to a Christian faith will be celebrating the death and resurrection of Jesus Christ. We know that not all would share that faith and so we turn to something we all agree upon which is charity and friendship and kindness. We would realize that it's universal and is beneficial. Let us grow in those attributes. We're grateful for our Senators, the hard work that they do for the 1.2, 1.3 million that they represent. Their hard work in their committees, their hearings, debating legislation that would affect many people's lives. We're grateful for their hard work and service to the people of New Hampshire. We ask a special blessing over them today and for those who are preparing for this weekend, and that's important to them. Let them experience your joy and peace in their lives. Amen.

Senator Gray led the Pledge of Allegiance.

FN REPORT FOR APRIL 14, 2022

Senator Daniels recommends the waiver of referral to the Finance Committee, Senate Rule 4-5, for the following bills with a fiscal note or an appropriation of funds:

CONSENT CALENDAR:

EDUCATION

HB 1521-FN, requiring the department of education to provide the house and senate standing committees responsible for education with written copies of the laws relative to education.

ELECTION LAW AND MUNICIPAL AFFAIRS

HB 1010-FN, requiring municipal voter history to be made accessible in the statewide centralized voter registration database.

HB 1457-FN, relative to chain of custody of ballot boxes after an election.

HB 1527-FN, relative to vote returns.

EXECUTIVE DEPARTMENTS AND ADMINISTRATION

HB 1192, relative to the board of acupuncture licensing and relative to the qualifications for licensure as an acupuncturist.

JUDICIARY

HB 597-FN, relative to the expectation of privacy.

HB 1067-FN, relative to limitations on prosecution for first degree assault.

HB 1086-FN, relative to concealment of a cause of action.

HB 1206-FN, relative to the source of funding for appointment of counsel or other services for indigent persons.

HB 1239-FN, relative to habitual offender hearings

HB 1411-FN, relative to transparency of federal agency operations within New Hampshire.

HB 1461-FN, increasing penalties for littering.

HB 1505-FN, establishing concurrent jurisdiction in juvenile matters with the U.S. Department of Defense for coordination with the military family advocacy program.

HB 1577-FN, relative to exemptions from prosecution for victims of human trafficking.

HB 1592-FN, allowing parties in family court cases to create their own recordings of the proceedings.

HB 1612-FN, relative to the confidentiality of reports made to the division for children, youth, and families.

HB 1673-FN, relative to the scope of the fetal life protection act.

REGULAR CALENDAR:

EDUCATION

HB 1653-FN, relative to educational and employment opportunities and protections for military families and their dependents.

Senator Daniels recommends the following bills be ordered to the Finance Committee upon being found Ought to Pass/Ought to Pass with Amendment:

CONSENT CALENDAR:

EDUCATION

HB 1421-FN, relative to lead in school drinking water.

EXECUTIVE DEPARTMENTS AND ADMINISTRATION

HB 1256-FN, relative to positions within the department of military affairs and veterans services.

HB 1337, relative to the duration of unemployment benefits—if Inexpedient to Legislate recommendation is overturned.

JUDICIARY

HB 1425-FN, relative to the taking of real property by eminent domain—if Inexpedient to Legislate recommendation is overturned.

HB 1475-FN, relative to the enforcement authority of liquor enforcement officers.

HB 1614-FN, requiring the recording and storing of digital video in all state-funded juvenile detention facilities.

Without objection, the FN Report is adopted.

CONSENT CALENDAR REPORTS REMOVED

JUDICIARY

HB 1425-FN, by Senator Giuda

SPECIAL ORDER

Without objection, the following bills are Special Ordered to the next session. Adopted.

EDUCATION

HB 1653-FN, relative to educational and employment opportunities and protections for military families and their dependents.

EXECUTIVE DEPARTMENTS AND ADMINISTRATION

CACR 21, relating to registers of probate. Providing that eliminating the office of register of probate and all references to such office.

JUDICIARY

HB 1425-FN, relative to the taking of real property by eminent domain.

CONSENT CALENDAR

Senator Bradley moved that the Consent Calendar, with the relevant amendments as printed in the day's Calendar be adopted and that all such bills found Ought to Pass be ordered as follows:

FN bills not waived under Senate Rule 4-5, to the Committee on Finance; non-FN bills approved for referral to Finance by the day's FN Report, to the Committee on Finance; and all other bills, to Third Reading.

EDUCATION

HB 1421-FN, relative to lead in school drinking water.

Ought to Pass with Amendment, Vote 5-0. Senator Ward for the committee.

This bill requires schools and licensed child care facilities to submit lead test results to the department of environmental services data base and to notify parents of tests with high lead levels. This bill changes the lead levels standard in drinking water in schools and licensed child care facilities from 15 parts per billion to 5 parts per billion. The Committee amended the bill to provide two options for limiting exposure to lead in drinking water in schools and licensed child care facilities: installing and providing access to water bottle filling stations or testing already available drinking water outlets for lead and remediating them where necessary in accordance with statute.

Senate Education
April 7, 2022
2022-1365s
08/05

Amendment to HB 1421-FN

Amend the bill by replacing all after the enacting clause with the following:

1 Lead in Drinking Water in Schools and Licensed Child Care Facilities. RSA 485:17-a is repealed and reenacted to read as follows:

485:17-a Lead in Drinking Water in Schools and Licensed Child Care Facilities.

I. Public and private schools and licensed child care facilities shall take measures to limit exposure to lead in drinking water by:

- (a) Installing and providing access to water bottle filling stations in accordance with paragraph II; or
- (b) Testing drinking water outlets for lead and remediating them where necessary under paragraph III.

II.(a) "Water bottle filling station" or "station" means a water dispenser accessible to all people in compliance with the Americans with Disabilities Act, 42 U.S.C. section 12101 et seq. A water bottle filling station shall:

- (1) Dispense clean drinking water directly into a bottle or other drinking container.
- (2) Include a water fountain dispenser that does not require the use of a container to drink water.
- (3) Be regularly cleaned to maintain sanitary conditions. Water bottle filling stations may be touchless to maintain sanitary conditions.
- (4) Be designed to remove lead or be able to add an additional filter to remove lead from drinking water.
- (5) Be maintained to ensure proper functioning, including replacing filters as recommended by the manufacturers.
- (6) Include an indicator light or other mechanism that is activated when it is time to change a filter.
- (7) Dispense drinking water that meets applicable standards. The station shall be tested following installation and within 180 days thereafter to confirm that any lead that may be present is being removed to levels below 5 parts per billion.

(b) Any water bottle filling station installed prior to the effective date of this section that meets the requirements of subparagraphs II (a)(1)-(6), shall be tested within 180 days of the effective date of this section to confirm that any lead that may be present is being removed to levels below 5 parts per billion.

(c) Water from other outlets available to children such as classroom and bathroom sinks and water outlets used for food preparation shall be posted as not suitable for drinking water, unless tested and remediated if necessary, per the provisions in paragraph III. Water used for food preparation shall be done exclusively through the use of a water bottle filling station if such outlet has not been tested and remediated.

(d) Stations in schools shall be installed in accordance with rules of the department of education relative to the number of drinking fountains required. There shall be at least one station on each floor or wing of the building and one station located near any cafeteria, gymnasium, or outdoor recreation space and any other high-traffic area.

(e) Stations in child care facilities shall be provided in such a manner to ensure that every child and staff member have adequate access to drinking water.

(f) Child care facilities serving less than 25 people where the current source of water is a sink may install point of use treatment that removes lead from drinking water in lieu of installing a water bottle filling station.

(g) Public and private schools and licensed child care facilities that install stations in accordance with this paragraph shall notify the department of environmental services using a form provided by the department that demonstrates compliance with the applicable requirements of this paragraph.

III. Public and private schools and licensed child care facilities shall test a minimum of 3 rounds for the presence of lead in drinking water at all outlets at the school or facility.

(a) For existing public and private schools and licensed child care facilities, sampling shall be completed between January 1, 2016 and June 30, 2024; for new schools and child care facilities opening after the effective date of this section, sampling rounds shall be completed a minimum of 6 months apart. For purposes of this section, “outlet” means a drinking water fixture currently or reasonably expected to be used for consumption or cooking. Testing shall be in accordance with guidance from the department of environmental services. Schools and licensed child care facilities that have not tested their outlets between January 1, 2016 and the effective date of this paragraph shall initiate testing within 30 days of the effective date of this paragraph.

(b) If test results obtained by a school or licensed child care center after the effective date of this paragraph demonstrate the presence of lead at a concentration at or exceeding 5 parts per billion, the school or licensed child care facility shall, within 5 business days, notify parents and guardians and shall, as an interim measure, ensure that the children are provided only drinking water that meets the standard. Notification shall be made in at least 2 places including, but not limited to, the school or school administrative unit/child care facility website and at least one method of direct communication via email or printed flyer. The school or licensed child care facility shall also implement a remediation plan, as approved by the department, within 180 days of notification of parents or, in consultation with the department, as soon as practicable. The department shall review the plan and any associated submittals within 60 days of receiving them. The school or licensed child care facility shall conduct testing after remediation measures have been implemented and shall provide those results to the department of environmental services to demonstrate that lead levels do not exceed the standard.

(c) Within 90 days of the effective date of this section, public and private schools and licensed child care facilities shall compare the results of testing conducted after January 1, 2016 with the new standard and, in the event any such results are at or exceed this standard, proceed with the requirements of subparagraph (b) relative to remediation and interim measures. Any results for samples collected after January 1, 2022 shall be compared to the new standard and proceed with all requirements of requirements of subparagraph (b).

(d) If 2 consecutive rounds of sampling performed after January 1, 2022 are below the 5 parts per billion standard at an outlet, further testing of the outlet shall not be required.

(e) All test results, including but not limited to those obtained between January 1, 2016 and the effective date of this section, shall be provided to the department of environmental services, which shall maintain a database of results established under the authority of RSA 21-O:12, I(e) accessible to the public on the department’s website.

IV. To the extent it is allowable under federal regulations, remediation funding from federal sources shall be made available to public and private schools and child care facilities by the department of environmental services.

2 Effective Date. This act shall take effect upon its passage.

2022-1365s

AMENDED ANALYSIS

This bill requires public and private schools and licensed child care facilities to install water bottle filling stations or test and remediate all water outlets at the facility.

HB 1521-FN, requiring the department of education to provide the house and senate standing committees responsible for education with written copies of the laws relative to education.

Interim Study, Vote 5-0. Senator Kahn for the committee.

This bill would require the department of education to provide the House and Senate standing committees responsible for education with either physical copies, digital copies, or a link to an Internet link to the New Hampshire education laws and department rules relative to education. During the bill’s public hearing, Representatives stated how valuable printed copies are for legislative history and comparing laws and rules when studying legislation. The Committee also heard testimony from the department of education and the Director of Legislative Services for the General Court on the dissipating desire of publishers to continue printing these physical copies and books. Publishers around the country are beginning to make the move to online publishing as opposed to printing. On the potential for finding a print option, the Committee unanimously recommends that this bill be referred to interim study.

HB 1594, relative to assistance to certain students with disabilities in registering to vote.
Ought to Pass with Amendment, Vote 5-0. Senator Hennessey for the committee.

This bill is relative to students who are 17 years or older and have an individualized education program (IEP) or accommodations under Section 504 of the Rehabilitation Act of 1973. It requires their teams to discuss including voter registration as a goal or competency in these student's IEP or 504 plans. The Committee amended the bill to strengthen the language to ensure this discussion is part of the student's appropriate community living/citizenship training goal or competency.

Senate Education

April 7, 2022

2022-1366s

10/05

Amendment to HB 1594

Amend the bill by replacing section 1 with the following:

1 New Section; Special Education; Voter Registration Planning. Amend RSA 186-C by inserting after section 8 the following new section:

186-C:8-a Voter Registration Planning. When an individualized education program (IEP) team or planning team for accommodations pursuant to Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 701 et seq) meets for the purpose of reviewing or developing an IEP or accommodation plan for a student who is 17 years of age or older, or will be during that academic year, the team shall discuss voter registration as an appropriate community living/citizenship training goal or competency to be included in the IEP or Section 504 plan, and, if appropriate, when and how voter registration should be accomplished. Any resulting decisions shall be included in the IEP or Section 504 plan.

ELECTION LAW AND MUNICIPAL AFFAIRS

HB 87, relative to the definition of electioneering.

Interim Study, Vote 5-0. Senator Gray for the committee.

This bill would remove the prohibition against wearing clothing or paraphernalia, which now exists, at the polling place on election day. While the legislation is well intended, the committee believes that existing law should not be changed.

HB 1010-FN, requiring municipal voter history to be made accessible in the statewide centralized voter registration database.

Ought to Pass, Vote 5-0. Senator Birdsell for the committee.

This bill requires municipal voter history to be made accessible in the statewide centralized voter registration database. When the legislature overhauled access to the statewide voter checklist the municipal voter history was inadvertently left out. This closes that loophole and enables municipalities to provide digital copies of the checklist if requested.

HB 1046, relative to the election of the Sullivan county commissioners.

Interim Study, Vote 5-0. Senator Soucy for the committee.

This bill would change the election of the Sullivan County Commissioners to be elected by voters in each county commissioner district instead of county wide. Seven other counties in New Hampshire have adopted this method of electing commissioners. Another bill being considered in the Election Law and Municipal Affairs Committee has similar subject matter and may be used to accomplish this change.

HB 1122, authorizing municipalities to collect and resell construction and demolition debris.

Inexpedient to Legislate, Vote 5-0. Senator Ward for the committee.

This bill would have authorized municipalities to collect and resell construction and demolition debris. Municipalities that operate transfer stations already have the ability to do this. Currently, due to citizen safety concerns and liability issues very few cities or towns choose to sell collected material. Although this is enabling legislation, the Election Law and Municipal Affairs Committee believes it is unnecessary at this time.

HB 1157, relative to electronic ballot counting devices.

Ought to Pass, Vote 5-0. Senator Gray for the committee.

This bill prohibits electronic ballot counting devices from being connected to the Internet. Currently, the AcuVote machines that are used in New Hampshire are not connected to the Internet. If the Ballot Law Commission approves purchasing new ballot counting devices with upgraded technology, this legislation will codify in statute that connecting those devices to the Internet is always prohibited.

HB 1457-FN, relative to chain of custody of ballot boxes after an election.

Ought to Pass, Vote 5-0. Senator Perkins Kwoka for the committee.

This bill modifies the retention policy for ballot boxes to allow for the validation of the chain of custody. A log shall be maintained by the clerk specifying the location and the containers. Only individuals working under the direction of the clerk may access the ballots as required for recounts or for verification of storage. The final entry in the log shall be the destruction of the ballots.

HB 1527-FN, relative to vote returns.

Ought to Pass, Vote 5-0. Senator Birdsell for the committee.

This bill requires cities and towns that use AccuVote devices to send a paper copy of the long report tape to the Secretary of State with the return of votes form. Currently, many city and town clerks do this as it is the recommended practice. Codifying it in statute will ensure consistency across the state and make certain that the tape data is in the public domain.

EXECUTIVE DEPARTMENTS AND ADMINISTRATION

HB 1037, relative to the governor's duties during a state of emergency.

Ought to Pass, Vote 5-0. Senator Carson for the committee.

This bill removes the language "for informational purposes only" from the statute regulating the reporting of expenditures by the governor during a state of emergency. The removal of this language is necessary to prevent future governors from electing not to provide a full list of all expenditures. The committee recommends this bill ought to pass.

HB 1045, relative to the composition of the ethics oversight advisory committee.

Ought to Pass, Vote 5-0. Senator Carson for the committee.

This bill changes the composition of the ethics oversight advisory committee, a group charged with initiating advice to be given to the Commissioner of Department of Health and Human Services (DHHS) on various departmental decisions involving ethical questions and receiving requests from the Commissioner for such advice. The previous composition of the committee did not place an emphasis on those trained in the formal study of ethics and thus did not prove useful. The committee recommends this bill ought to pass.

HB 1102, relative to certain committees and commissions of the department of state.

Ought to Pass, Vote 5-0. Senator Carson for the committee.

This is a simple housekeeping bill. The Department of State's most recent Financial Audit Report states that "the Boxing and Wrestling Commission and the Joint Board of Licensure and Certification are not functioning 'within the department of state as a separate organizational entity' as stated in the statute." Additionally, this bill removes both the commission and the board from RSA 5:13, as well as removing the language of the attachment in the Boxing and Wrestling Commission statute, RSA 285:2. The committee recommends this bill ought to pass.

HB 1182, relative to the board of court reporters.

Ought to Pass, Vote 5-0. Senator Carson for the committee.

This bill makes the regulatory board of court reporters an advisory board due to issues recruiting members to serve and having a quorum at meetings. The advisory board will ensure professional control of the rules and scope of practice, while the Office of Professional Licensing & Certification (OPLC) will perform all administrative and clerical functions for the board. The court reporters raised no objection to this change. This bill is at the request of the OPLC. The committee recommends this bill ought to pass.

HB 1192, relative to the board of acupuncture licensing and relative to the qualifications for licensure as an acupuncturist.

Ought to Pass, Vote 5-0. Senator Carson for the committee.

This bill makes changes to occupational requirements for acupuncture as requested by the board to allow acupuncturists who are doctors to use that title. Additionally, this bill limits the board of acupuncture licensing members to 2 consecutive full terms and adds language so that if the national organization that sets the standards were to change their name, further legislation would not be necessary. This bill also revises the supervision language for Acupuncture Detox Specialists by allowing flexibility in supervision. The committee recommends this bill ought to pass.

HB 1256-FN, relative to positions within the department of military affairs and veterans services.

Ought to Pass, Vote 5-0. Senator Carson for the committee.

This legislation will create pay parity for employees of the State Veterans Cemetery and help the state retain workers to operate this great service for our fallen heroes. This bill changes the position of cemetery superintendent to cemetery director and defines the duties of the position. The title for the head of the division of community-based military programs is changed from administrator to director. Since both positions spend a significant amount of time working with the public outside of regular business hours, they are transferred to the unclassified personnel category. The committee recommends this bill ought to pass.

HB 1337, relative to the duration of unemployment benefits.

Inexpedient to Legislate, Vote 5-0. Senator Carson for the committee.

The system currently in place effectively discourages excessive reliance on unemployment compensation benefits. New Hampshire is at historically low unemployment rates that are below the national and regional averages. New Hampshire Employment Security testified that this bill is unnecessary and is a problem in search of a solution. For these reasons, the committee recommends this bill is inexpedient to legislate.

HB 1344, relative to the authority of real estate brokers.

Ought to Pass, Vote 5-0. Senator Carson for the committee.

This bill requires that any contract for the sale of real estate in New Hampshire be executed by the owner of the property, or by a person with legal power of attorney (POA). Currently, some listing contracts have fine print that grants listing agents the power to independently execute sales contracts. The committee recommends this bill ought to pass.

JUDICIARY

HB 576, relative to victims compensation fund eligibility.

Ought to Pass, Vote 5-0. Senator Carson for the committee.

This bill will amend the provisions of the Victims' Compensation Fund by permitting claims for victims of human trafficking to be filed at any time and eliminating the consideration of contributory negligence in claims based on sexual abuse or human trafficking. The passage of this bill will recognize the long-term victimization and ramifications that occur as a result of this type of abuse, giving victims the time they need to come to terms with their trauma without a deadline for claims looming over their recovery.

HB 597-FN, relative to the expectation of privacy.

Interim Study, Vote 5-0. Senator Carson for the committee.

This bill would regulate the collection, retention, and use of personal information and establish a cause of action for violations of an individual's expectation of privacy in personal information. Although the Committee recognizes the importance of privacy, the language does not balance the privacy interests of individuals with the necessary sharing of information amongst government agencies that are essential to the functioning of our State.

HB 1067-FN, relative to limitations on prosecution for first degree assault.

Inexpedient to Legislate, Vote 5-0. Senator Carson for the committee.

This bill would establish a statute of limitation on actions brought for first-degree and second-degree assaults where the victim was under 18 years of age. The Committee received no testimony on this bill, and therefore recommends the bill be Inexpedient to Legislate.

HB 1086-FN, relative to concealment of a cause of action.

Inexpedient to Legislate, Vote 5-0. Senator Carson for the committee.

This bill would provide that if a cause of action is concealed, the period of time it is concealed shall not count against the time limitation for commencing the action. As the discovery rule is already well established and functioning within our court systems, the language in this bill will not address the issue it is trying to solve, and instead would cause confusion and delays in our court systems.

HB 1206-FN, relative to the source of funding for appointment of counsel or other services for indigent persons.

Ought to Pass, Vote 5-0. Senator Carson for the committee.

The bill will provide that payment of costs associated with retained legal counsel for indigent parties who are seeking post-conviction DNA testing will be funded by the Judicial Council. This is a housekeeping correction to a bill passed last year to make clear that the Judicial Council and not the Judicial Branch will cover the cost of this expansion.

HB 1239-FN, relative to habitual offender hearings.

Ought to Pass, Vote 5-0. Senator Carson for the committee.

This bill will make changes to the motor vehicle laws regarding habitual offenders by requiring the Department of Safety to send notice of a show cause hearing by first class mail and will deem any person who fails to appear as a habitual offender. This was a request of the Department, and it will work to simplify this process for all parties involved, while retaining individual rights.

HB 1265, relative to the waiver of rules in family court proceedings and requiring the establishment of a family division rule waiver database.

Inexpedient to Legislate, Vote 5-0. Senator Carson for the committee.

This bill would require the Circuit Court Family Division to establish a Family Division Rule Waiver Database containing all rule waivers granted in the Family Division Courts. Enacting this would require a costly database to be implemented, while not accomplishing the stated intent of the bill, and therefore the Committee recommends the legislation be Inexpedient to Legislate.

HB 1325, relative to release of confidential records of a person appointed a guardian.

Interim Study, Vote 5-0. Senator Carson for the committee.

This bill would provide that a person appointed a guardian shall retain the right to access and consent to the release of his or her confidential records unless the terms of the appointment provide otherwise. The bill would further provide that the guardian shall provide records to the ward so that the ward may pursue a termination of guardianship request unless the court determines release of such records would be harmful to the ward. Although the Committee believes the bill has merit, it is in need of further examination, and therefore the Committee recommends the bill go to Interim Study.

HB 1346, establishing a commission to study the New Hampshire family court system.

Interim Study, Vote 5-0. Senator Carson for the committee.

This bill would establish a commission to study the New Hampshire Family Court System. There is merit in the concept of reviewing the Family Court System. However, the Committee had serious concerns about the fact that the commission would have access to court documents, including the records of juveniles. Due to these concerns the Committee recommends the bill go to Interim Study in order for the language to be further tailored.

HB 1411-FN, relative to transparency of federal agency operations within New Hampshire.

Inexpedient to Legislate, Vote 5-0. Senator Carson for the committee.

This bill would require the Attorney General to request information from federal agencies operating in New Hampshire and to compile and display such information on a website. Due to the fact that the State cannot compel the federal government to release this kind of information and the potential cost involved with attempting to implement this language, the Committee does not believe it is prudent to move this bill forward at this time.

HB 1461-FN, increasing penalties for littering.

Interim Study, Vote 5-0. Senator Carson for the committee.

This bill would establish penalties for littering on any right-of-way. The Committee determined that there was no compelling need to pass this language at this time, and therefore recommends sending the bill to Interim Study for further reflection.

HB 1475-FN, relative to the enforcement authority of liquor enforcement officers.

Ought to Pass, Vote 5-0. Senator Carson for the committee.

This bill is a housekeeping bill that will modify the authority of the Liquor Commission's investigators in certain circumstances, making the language a more appropriate reflection of their jurisdiction.

HB 1505-FN, establishing concurrent jurisdiction in juvenile matters with the U.S. Department of Defense for coordination with the military family advocacy program.

Ought to Pass, Vote 5-0. Senator Carson for the committee.

This bill will establish concurrent jurisdiction in juvenile matters pertaining to the lands located within the boundaries of the former Pease Air Force Base and provide for coordination with the Military Family Advocacy Program. The implementation of this language will codify processes already in practice, while reinforcing support for the ongoing collaboration between departments and local children's behavioral health offices for the safety of children.

HB 1515, relative to the guardian ad litem report requirements.

Inexpedient to Legislate, Vote 5-0. Senator Carson for the committee.

This bill would modify the requirements of the guardian ad litem report. Guardians ad litem serve as the eyes and ears of the Court in these incredibly sensitive and difficult cases, and limiting their purview on this matter would be highly problematic to ensuring the best interest of the child. The Committee, therefore, recommends the bill be voted Inexpedient to Legislate.

HB 1520, relative to procedures for guardians ad litem.

Interim Study, Vote 5-0. Senator Carson for the committee.

This bill would require guardians ad litem to provide itemized bills to the paying party and upon request to any party to the case. As the Guardian ad Litem Board has already decided to make a policy change to provide these itemized recipients, the Committee does not feel there is a need to move this legislation forward at this time.

HB 1577-FN, relative to exemptions from prosecution for victims of human trafficking.

Ought to Pass, Vote 5-0. Senator Carson for the committee.

This bill will establish exemptions from prosecution for victims of human trafficking and establish procedures to protect the privacy of court records relating to human trafficking and for vacating convictions and juvenile adjudications in human trafficking cases. It is an injustice for victims of human trafficking to face or have criminal charges or convictions on their records that directly relate to their being trafficked. This bill will prohibit that injustice from occurring moving forward by striking the right balance between ensuring human trafficking cases can continue to be prosecuted while recognizing the reality experienced by these victims.

HB 1592-FN, allowing parties in family court cases to create their own recordings of the proceedings.

Inexpedient to Legislate, Vote 5-0. Senator Carson for the committee.

This bill would permit parties in family court to create their own recordings of the proceedings under certain conditions. As there are already procedures in place to obtain these recordings and that the Court system is actively involved in upgrading their recording program, the Committee believes there is no need to move forward with this legislation at this time as the allowance of recording these types of proceedings could result in serious unintended consequences for the parties involved.

HB 1612-FN, relative to the confidentiality of reports made to the division for children, youth, and families.

Interim Study, Vote 5-0. Senator Carson for the committee.

This bill would provide that reports of suspected abuse and neglect may include the name of the person making the report and would provide that the person's identity shall be fully confidential unless such a person makes such a report in bad faith or maliciously and with intent to cause harm, in which case the person may be subject to civil and criminal penalties. Our reporting system depends on the ability of individuals to make reports without fear of retaliation and retribution. These reports are vital to child safety in the State, and we should not be engaging in any efforts to deter reporting. For these reasons, the Committee believes we should error on the side of caution in order to protect children, and recommends this legislation be Interim Studied.

HB 1614-FN, requiring the recording and storing of digital video in all state-funded juvenile detention facilities.

Ought to Pass, Vote 5-0. Senator Carson for the committee.

This bill will mandate digital video recording of juvenile detention facilities paid for, in whole or in part, with general funds, as well as establishes the system requirements for such digital videos. As the State continues to move towards ensuring accountability for the safety of individuals in state custody, the Committee feels that this expansion of the current system is an appropriate step forward.

HB 1673-FN, relative to the scope of the fetal life protection act.

Ought to Pass, Vote 5-0. Senator Carson for the committee.

This bill will construe the obstetric ultrasound examination requirement to determine probable gestational age prior to an abortion. Enacting this language will clarify that the law is not meant to require an ultrasound for every abortion, but only for those where there is a risk that there is a gestational age of 24 weeks. As the Body has already supported this policy in SB399-FN, the Committee recommends this bill be Ought to Pass.

TRANSPORTATION

HB 1341, relative to the definition of conviction in motor vehicle laws.

Ought to Pass, Vote 5-0. Senator Watters for the committee.

This bill amends the definition of conviction relative to motor vehicles by deleting a separate definition for financial responsibility laws, in order to put commercial driver license and license holders under the same laws, which is appropriate.

HB 1534, authorizing the use of side exhausts for antique vehicles.

Ought to Pass, Vote 5-0. Senator Sherman for the committee.

This bill allows antique motor vehicles to use a side exhaust system. The current statute would now apply to antique vehicles.

The question is on the adoption of the Consent Calendar. Adopted.

REGULAR CALENDAR

CAPITAL BUDGET

HB 122-A, amending the capital appropriation for an aviation hangar bay in the department of military affairs and veterans services.

Ought to Pass, Vote 3-0. Senator Reagan for the committee.

The question is on the adoption of the motion of Ought to Pass. Adopted, bill ordered to Third Reading.

ENERGY AND NATURAL RESOURCES

HB 169, establishing a commission to study the removal of unused utility poles following the transition of equipment, lines, and cables to new utility poles.

Ought to Pass with Amendment, Vote 4-0. Senator Perkins Kwoka for the committee.

Energy and Natural Resources

April 7, 2022

2022-1372s

10/05

Amendment to HB 169

Amend RSA 231:182-a, I(a) as inserted by section 1 of the bill by inserting after subparagraph (4) the following new subparagraph and renumbering the original subparagraphs (5) and (6) to read as (6) and (7), respectively:

(5) The commissioner of the department of energy, or designee.

The question is on the adoption of the Committee Amendment. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to Third Reading.

HB 543, establishing a commission to study nuclear power and nuclear reactor technology in New Hampshire.

Ought to Pass with Amendment, Vote 4-0. Senator Watters for the committee.

Energy and Natural Resources

April 7, 2022

2022-1369s

10/08

Amendment to HB 543

Amend RSA 125-O:30, I as inserted by section 2 of the bill by inserting after subparagraph (f) the following new subparagraph and renumbering the original subparagraphs (g)-(i) to read as (h)-(j), respectively:

(g) The commissioner of the department of energy, or designee.

The question is on the adoption of the Committee Amendment. Adopted.

Senator Giuda offered a Floor Amendment.

Sen. Giuda, Dist 2

April 13, 2022

2022-1507s

04/10

Floor Amendment to HB 543

Amend RSA 125-O:30, I(f) as inserted by section 2 of the bill by replacing it with the following:

(f) The commissioner of the department of business and economic affairs, or designee.

The question is on the adoption of the Floor Amendment. Adopted.

The question is on the adoption of the motion of Ought to Pass with Amendment. Adopted, bill ordered to Third Reading.

HB 1005, relative to the creation of a New Hampshire low-grade timber and wood emerging market commission.

Ought to Pass, Vote 4-0. Senator Perkins Kwoka for the committee.

The question is on the adoption of the motion of Ought to Pass. Adopted, bill ordered to Third Reading.

HB 1052, relative to the number of rounds of ammunition allowed for hunting regardless of firearm capacity. Ought to Pass, Vote 4-0. Senator Giuda for the committee.

The question is on the adoption of the motion of Ought to Pass. Adopted, bill ordered to Third Reading.

JUDICIARY

HB 579, requiring notice to the public before immigration checkpoints are conducted.

Inexpedient to Legislate, Vote 3-2. Senator French for the committee.

Recess. Out of recess.

The question is on the adoption of the motion of Inexpedient to Legislate.

A roll call was requested by Senator Bradley, seconded by Senator Giuda.

The following Senators voted Yes: Hennessey, Giuda, Bradley, Gray, French, Ward, Ricciardi, Daniels, Avard, Carson, Reagan, Birdsell, Gannon, Morse.

The following Senators voted No: Watters, Prentiss, Kahn, Rosenwald, Whitley, Cavanaugh, Soucy, D'Allesandro, Perkins Kwoka, Sherman.

Roll Call, Yeas: 14 - Nays: 10. Adopted.

MOTION TO ADJOURN FROM EARLY SESSION

Senator Bradley moved that the Senate adjourn from the Early Session, that the business of the Late Session be in order at the present time, that all bills and resolutions ordered to Third Reading be, by this resolution, read a third time, all titles be the same as adopted, and that they be passed at the present time.

Adopted. Adjournment from the Early Session.

LATE SESSION ANNOUNCEMENTS

(The Chair recognized Senator Carson.)

SENATOR CARSON: Thank you, Mister President. I would like to remind the members of Senate Judiciary that we will be meeting at 10:30 in Room 100 to exec some bills. Thank you.

(The Chair recognized Senator Avard.)

SENATOR AVARD: I just want to remind Energy we're meeting 15 minutes after session. Thank you.

(The Chair recognized Senator Bradley.)

SENATOR BRADLEY: Thank you. The HHS Committee will meet at 10:30 because we're actually holding public hearings. And while I have the chance to be up here in personal privilege, I think all of us need to call out and say thank you very much to all the staff that are working overtime, overtime, overtime to help all of us with the incredible workload. I would have asked that they all be here for this thank you because I think it's well deserved, but they're all writing hearing reports and getting ready to conduct hearings. So, let's give them a big round of applause.

(The Chair recognized Senator Prentiss.)

SENATOR PRENTISS: Mister President, Unanimous Consent. Okay, in 2010, my sister-in-law, Kristen Laubner, two weeks after having her second child, my goddaughter, Vivian, suffered a stroke. Now she, my brother David recognized early that there was something that had changed and he called 9-1-1 and she was

transported to a hospital and ultimately ended up in Boston and fully recovered as a young woman, postpartum at thirty-six years old from this stroke. She moved on from that and started running as part of her recovery. And ultimately ran the Boston Marathon, I believe it was 2018 as a part of a group called Tedy's Team. I think we all know Tedy Bruschi and Tedy Bruschi has not suffered just one, but two strokes, and although it changed his ability to play ball, what he has done is spent the rest of his time trying to promote awareness about recognizing stroke and activating the system early to get folks the help that they need so they can recover like my sister-in-law did. The race is next week, next Monday is the Boston Marathon. My brother David is running this year as part of Tedy's Team to raise awareness. But we have two Granite Staters and I didn't have the opportunity to speak with the Senators who are covering those districts for those Granite Staters who will be running on Tedy's Team next week. One is from Senator Ricciardi's district, District 9, Johanna Celli is going to be running as part of again, honoring stroke awareness and in Merrimack, we have a Nathan Fluet who is going to be running again, as part of Tedy's Team and as I wrap up my comments this morning, of course wishing my brother and my family well, I just want to remind us all of something called BE FAST and this is how we recognize if somebody is suffering a stroke.

B is for balance. Someone has a change in their balance, note it, ask about it, see what we can do. E is for eyesight. Is there a change, are they stating that there is a change in their eyesight? F is for facial drooping. Is there a change in the way that their face appears to you, and should you be concerned about that? A is for arm weakness. Is there a change in their ability to grasp, to raise their arms? S is for speech difficulties which is the most common ways that this gets picked up. And T is about time. Call 9-1-1. Thank you for your time, wishing our Granite Staters well as they run next week on Tedy's Team. I know there are more running, but I want to again highlight the folks that are running for stroke awareness and good luck to my brother David Laubner. Thank you, Mister President.

(The Chair recognized Senator D'Allesandro.)

SENATOR D'ALLESANDRO: Thank you, Mister President. Unanimous Consent. I'd like to talk about a classmate of mine at the University of New Hampshire who passed away, class of 1961. Rod Wotton from Rochester, New Hampshire. In high school, Rod Wotton was the quarterback of a football team that went undefeated for two years under the guidship of Lenny Derico who passed away. Wotton went on to the University of New Hampshire and was a star athlete in baseball, he was shortstop for the baseball team. Rod Wotton, myself and Danny Parr would have lunch every day and eat Mrs. Parker's wonderful delights at Theta Kappa Phi Fraternity. You know, in this life I talk about life being all about relationships. You gather bonds, we gathered a bond at UNH. He married Norma Beaudoin; her father was Beaudoin Oil in Rochester. Father built a compound where all of the kids lived in this compound. I think he had ten kids, he built houses for all ten of them and they lived in a compound.

Hot Rod goes on to be a football coach and for forty-three years he was a great football coach, championship after championship after championship. The state of Maine, where he coached Marshwood High School, named him the greatest high school football coach in the history of the state. Bob Kraft had him down at the Patriots' game because he won three-hundred games as a football coach. He came to New Hampshire and went to Saint Thomas High School. Fifteen years at Saint Thomas. Four state championships at Saint Thomas Aquinas High School.

He and his wife had three children. One of them is the athletic director at Dover High School as we speak. Another one is a nurse, young lady is a nurse, another son is an athletic trainer at a prep school. Wotton and his wife, Norma, married for almost sixty years. Hot Rod passed away and had a very debilitating disease, Parkinson's, but he remained coaching as long as he could. Because the greatest, the greatest accolade you could give to a human being is call me coach, just call me coach. What does that mean? It means you're involved in the life of these players in determining what their futures are and staying with them for their future. Rod Wotton did that. And I say to you Mister President, that the great things that people do you know, often pass away immediately but the legacy left by Rod Wotton is in the kids that he coached. It's the students that he taught and it's people like me who were his friends all through his life. What better accolade can we give to Coach Wotton than to say Rod, Hot Rod, thank you. Thank you for all you did for everybody else. Thank you. Your memory will live forever. The work that you have done will carry on forever and more of us should fall in line with the goals and objectives of Rod Wotton of Rochester, New Hampshire. A Red Raider from the get-go, and one of the truly, truly great Americans. Thank you, Mister President.

(The Chair recognized Senator Kahn.)

SENATOR KAHN: Unanimous Consent, Mister President. I just want to wish my colleagues and all Granite Staters for this weekend, whereas we celebrate the Easter tradition, the Passover tradition, Ramadan traditions, that we enjoy the holidays with our families and think about our communities and the world. The tradition of Passover is one where it is the celebration of freedom from oppression, the oppression of slavery, of poverty, of wars that may be taking place in other parts of the world. It's an opportunity for us to share how we can respond as individuals and broaden our sense of community to not just our families but think about those that aren't at the table with theirs or have had their lives disrupted because of conflicts in other parts of the world and I wish you all a wonderful holiday weekend. Thank you, Mister President.

Without objection, all Personal Privileges and Unanimous Consent shall be entered into the permanent *Journal of the Senate*. (Rule 2-16 and Rule 2-17). Adopted.

LATE SESSION

Third Reading and Final Passage

HB 122-A, amending the capital appropriation for an aviation hangar bay in the department of military affairs and veterans services.

HB 169, establishing a commission to study the removal of unused utility poles following the transition of equipment, lines, and cables to new utility poles.

HB 543, establishing a commission to study nuclear power and nuclear reactor technology in New Hampshire.

HB 576, relative to victims compensation fund eligibility.

HB 1005, relative to the creation of a New Hampshire low-grade timber and wood emerging market commission.

HB 1010-FN, requiring municipal voter history to be made accessible in the statewide centralized voter registration database.

HB 1037, relative to the governor's duties during a state of emergency.

HB 1045, relative to the composition of the ethics oversight advisory committee.

HB 1052, relative to the number of rounds of ammunition allowed for hunting regardless of firearm capacity.

HB 1102, relative to certain committees and commissions of the department of state.

HB 1157, relative to electronic ballot counting devices.

HB 1182, relative to the board of court reporters.

HB 1192, relative to the board of acupuncture licensing and relative to the qualifications for licensure as an acupuncturist.

HB 1206-FN, relative to the source of funding for appointment of counsel or other services for indigent persons.

HB 1239-FN, relative to habitual offender hearings.

HB 1341, relative to the definition of conviction in motor vehicle laws.

HB 1344, relative to the authority of real estate brokers.

HB 1457-FN, relative to chain of custody of ballot boxes after an election.

HB 1505-FN, establishing concurrent jurisdiction in juvenile matters with the U.S. Department of Defense for coordination with the military family advocacy program.

HB 1527-FN, relative to vote returns.

HB 1534, authorizing the use of side exhausts for antique vehicles.

HB 1577-FN, relative to exemptions from prosecution for victims of human trafficking.

HB 1594, relative to assistance to certain students with disabilities in registering to vote.

HB 1673-FN, relative to certain provisions of the fetal life protection act requiring an ultrasound examination.

MOTION TO RECESS TO CALL OF THE CHAIR

Senator Bradley moved that the business of the day being completed, that the Senate recess to the Call of the Chair for the purposes of introducing legislation, referring bills to committee, scheduling hearings, sending and receiving messages, vacating bills, and processing enrolled bill reports and amendments and when we recess, we recess to the Call of the Chair.

Adopted. The Senate is in recess to the Call of the Chair.
