

Let me, as a registered voter from Chester, NH, who votes in every election, register my strong opposition to SB 240 and SB 241. I support SB 253 and 254. We need fair, non-partisan redistricting.

I also object to Chester's not receiving the opportunity to vote as an independent district for a State rep of our own, as we have at least the required number of voters to qualify for this, and voted overwhelming in favor of it at our most recent town meeting.
