NH Senate delivers balanced approach to lowering property taxes

CONCORD, NH –Senate President Sharon Carson (R-Londonderry) released the following statement relative to HB 1726-FN that takes a practical step toward addressing New Hampshire’s housing shortage by putting underutilized state land to work.

“By making state-owned properties available for housing development, this bill increases supply. It’s a smart and efficient way to create new housing opportunities while making better use of existing public assets. This legislation delivers a balanced approach that benefits Granite Staters and lowers property taxes.”
